PREFACE

Since the birth of our country small rural towns in America have been an integral part of our nation's history. Today, rural America is the major source of the nation's food, fibers, and wood and plays a major role in providing most of our domestic minerals and energy supply. It has developed as a vital element in our country's manufacturing, trade and service economy. Yet the most important contribution that small towns have made to our country is that of providing the basic values of hard work, self-reliance and a sense of community upon which to nurture its national character.

This book is an attempt to exam and preserve the history of one of those small towns, the City of Milano. The material presented here is actual reproductions of parts of the Milano Gazette published by Mr. C. H. Lister. The paper had about six pages containing national and local news.

In this endeavor, I was more concerned in presenting our local heritage and included only the local news section.

This edition would not have been possible without the help of a great many people. I would like to say thanks to all who offered aid and encouragement in this undertaking.

To my wife, Marie, for her patience and understanding throughout this endeavor. To Mr. Ben Wickersham and the staff of Central Texas College for their assistance in preparing the newspaper copies for printing. To the members of the Milano City Council, Mr. O. T. Bullock, Mr. Jewel Griffin, Mr. Luther Walker, and Mr. Lee Keen for their continuous support of this project. To the members of the Milano Sesquicentennial Committee, Mrs. Martha N. Newman, chairman, Mr. E. C. Westbrook, Jr., Mrs. Eddie Mae Myers, Mrs. Lois Love, Mrs. Audrey G. Lewis, Mr. John Yoakum, and Mr. Jake Barfield for their interest and support. To Mrs. Bonita Booker for her invaluable assistance in preparing the manuscript collection. Also, to Martyn Hafley and Shirley Williams for their help with the graphics.

Singing Convention Postponed

The Milam County Singing Convention which was to have met last Sunday at Bethlehem, has been postponed to the second Sunday in March. Big preparations were in evidence over the entire county preparatory for the convention, and had it been pulled off last Sunday the little burg of Bethlehem would have been fearfully over populated.

On A Fox Hunt

Messrs. Pen Wolf, J. K. Freeman, S. G. Sampson, R. L. McCown and Giles Avriett of Cameron, are in our glorious Milano Country on a good old fox chase. Mr. Stratton, a prominent hunter of Waco, is along. They have twenty five hounds with them, eighteen belong to the club and twelve belong to Dave Wilkerson of Yarrellton, who is also in the merry bunch. Up to Monday they caught one fox after a six hours chase.

Our County Seat Doings

It is claimed that a negro on the Monta Moore place has meningitis.

Fire destroyed a small house Monday on the Watt farm. The place was occupied by a Mexican family who lost nearly all of their belongings.

Messrs. J. L. Slaughter, Sam Wilson and J. B. Ashley have been appointed by Judge Watson to select the petit jurors for the April, June and August terms of the county court.

Governor Folk of Missouri, will lecture in Cameron Thursday night, March 7th, in the High School Auditorium. Admission of 75 cents will be charged, the proceeds going to the benefit of the school library.

Milano Man Blooms For The Legislature

The Enterprise understands that the Milano country may put forward one of their best citizens as a candidate for the Legislature. He is a man well qualified in every respect and one who has always taken a deep interest in the political affairs of Milam County. He is a leading farmer of that section.—Cameron Enterprise.

Methodist Conference Convened

The first Quarterly Conference for the Milano charge convened at this place last Saturday and Sunday. Both pastor and stewards had good reports. Presiding Elder, I. F. Betts preached Saturday and Sunday. This was the best Quarterly Conference this charge has had in quite a while and the outlook for the year is very hopeful. Regular services next Sunday at the Methodist Church by the pastor, Rev. J. F. Garrett.

CAMERON NEWS

Local News And Happenings

The Commissioners' Court appointed about 350 road overseers last week for Milam county.

A little boy of S. P. Crockett, who lives on the Sam Cobb place, died of meningitis Sunday.

Mayor Ben Strum was re-elected mayor of Cameron in the city election Tuesday by a good majority. His opponent, J. M. Ralston, received 117 votes, while Mayor Strum received 212.

R. B. Rylander, manager of the Watt farm about four miles north of Cameron, shot and instantly killed a Mexican in the commissary of the farm. The shooting is reported to have been done in self defense, as the Mexican tried to become a "bad man."

C. W. M. moved to N.

A. Taegal is in eastern cities this week buying merchandise for his firm.

A new baby girl has located herself at the home of Mr. and Mrs. A. J. Grubbs.

A boy arrived at the home of Mr. and Mrs. Walter McDonald Sunday of last week.

Mesdames J. R. Ellison and E. C. Mosely were in Dallas last week purchasing millinery.

The Home Mission Society met last Monday afternoon with Mrs. S. J. Clement. A most delightful and profitable meeting held.

Jacob Theis, who lived two miles south of Thorndale, died Tuesday morning of last week. He was 86 years of age and was born in Germany, settling in Texas in the year 1846. The remains were shipped to Harris county for burial.

The Odd Fellows celebrated Thursday night of last week in high order. Eight candidates were initiated into the secret work and Odd Fellows from different towns nearby were in attendance. After the disappearance of a sumptuous supper matters were kept humming till 2 o'clock Friday morning.

Blind Stagger Recipe

The following has been recommended by many for Blind Staggers, which is now prevailing over the county. Cut it out and save it for possible future use.

2 quarts of linseed oil, 1 ounce tincture of Alois, 1 ounce of turpentine, mix together and give one dose and if the desired results are not obtained repeat in 24 hours. Bathe top of head and spine good with turpentine and the entire body with cold water.

Miss Lee has returned from a six weeks' visit with relatives in Hillsboro.

D. D. Murdock has declined the honor of the Socialist nominee for city marshal.

The Scrap Book Club will meet with Mrs. R. H. Ames next Wednesday at 3 p. m., March 6th.

The Cantler building, occupied by Ashby's pool hall, has been considerably renovated and improved.

A recital was given at the city hall Monday night of last week for the benefit of the Episcopal Church.

The Woman's Club met at the city hall Tuesday afternoon. This club is doing some good civic work for Rockdale.

J. M. Darby, who was with the Perry drug store, has accepted a position with the Pape-Marshall Drug Company at Cameron.

The Socialist Party has selected several men for each county office preparatory to selecting nominees for their ticket in the coming campaign, but as yet the nominees have not been announced.

Home Mission Society

The Home Mission Society held their regular weekly meeting Tuesday afternoon at the church. We are grateful for the increasing interest being shown this week. We feel that this is indeed a great work and trust that more of our ladies will avail themselves of the privilege of having a part in it, remembering that in "blessings given, a blessing is found."

Milam County Voters Fall Off

Milam county has this year, 5,035 qualified voters, according to statistics compiled by our Tax Collector Porter Stevens. Last year the county had a few more, the total being 5,605. These figures are minus the exemptions, which for this year amount to 140, thus giving the county a polling strength of 5,175.

Manufacturing Briquettes At Big Lump

James Harrington of near Big Lump, midway between Milano and Rockdale, is manufacturing lignite briquettes from the coal over there. These briquettes burn with an intense heat equal to the best and finest hard or anthracite coal of the north. The briquettes are about the size of a base ball and sell at six dollars per ton.

School Building Officially Accepted

Last week County Superintendent F. J. Clement and Chairman Morrison of the County Board of Education came down to our little city and in connection with our trustees of the school formally and officially accepted the new \$7,000 brick school building from the contractors. Milano now has one of the finest and most modern constructed schools in the county and the town and its people can truly pride themselves of this magnificent and handsome institution of worldly learning.

Woodmen Urge Attendance

This Saturday night, February 22nd, is regular meeting night of the Milano Camp of the Woodmen of the World and the Gazette has been asked to announce that a most entertaining and good meeting will be held. No meeting was held on the second Saturday night on account of the bad weather. Every member that can possibly come should be present this Saturday night. Something worth their while is in store for those who are present. Better come in and attend the meeting.

More About That Demonstration Train That Will Visit Milano

The Special Demonstration train which will visit Milano on March 3rd, will be quite a treat to our little city and every farmer, citizen and everybody else should be in town that day and see this great and wonderful exhibition. The train will arrive here at 1:30 p. m. on the I. & G. N. road coming from the north and will remain here an hour and a half or until 3 o'clock. The train will consist of seven cars. Car No. 1 will contain pure bred swine furnished by the Fort Worth Stock Yards. Car No. 2 will be a covered flat car for lecture and

demonstration purposes. Car No. 3 will carry pure bred cattle furnished by the A. & M. College. Car No. 4 will be the Good Roads Car and will be worth seeing by everybody. Car No. 5 will be fitted by the A. & M. College with agricultural and horticultural exhibits. Car No. 6 will be the Geod Housekeeping Car, fitted by the ladies of the Texas College of Industrial Arts. Car No. 7 will be a Pullman hotel car for those who are with this demonstration train. Remember, this train will be in Milano on Monday, March 3rd, from 1:30 to 3 o'clock p. m.

County Funds Transferred

The Cameron State Bank has been designated as the county depository for the funds of Milam county. For the last two years the Rockdale State Bank has taken care of the county's dough, but the Cameron bank bid one cent higher this time and landed the big stack of dollars to help swell its depository and business.

Any erroneous reflection upon the character or reputation of any person or firm which may happen to appear in The Gazette will be gladly corrected if our attention be called to the matter.

Milano, Texas, Saturday, Feb. 22, 1913.

The Gazette has two articles on the copy book dealing on the Milano Truck Growers Association written by two members of that body. The articles are both good ones and just as soon as we can prolong our laboring hours a little more we are going to put them both in type.

A farmer living near Barry, Navarro county, marketed a turnip the other day which weighed nine pounds and twelve ounces and measured 24 inches in circumference. Now can't some farmer of our Milano Country go the Navarro one better? Try it the next time you turnip seed.

The Young Couple

who come here for their first furniture need not fear that they will make a mistake. They can judge for themselves how handsome and classy looking our furniture is. We always guarantee its quality is as good as it looks. That makes it safe to purchase here just as our prices make it economical.

The Milano Band Concert And Vaudeville Entertainment

The Milano Band is going to treat the people of Milano with something real good in the entertaining line on the night of March 1st. This organization is self supporting and has never asked for a donation of one cent and are not going to do so, but they are going to present to the people an entertainment that would be a credit to professional performers. Their entertainment will consist of vaudeville, comedy, black face work and a fine minstrel part, also music, both band and orchestra, and various musical renditions. The program will be a long one and you will get your money's worth. The

band wants to equip themselves with a set of uniforms and with the proceeds of this entertainment to gether with what funds they have in the treasury they hope to be able to secure the uniforms. With the uniform equipment Milano will have a band of seventeen members that any city of ten or twenty thousand inhabitants would pride itself of. Tickets for reserved seats will be on sale at the Avera Brothers drug store beginning this next Monday. Reserved seats 50c. General admission 35c. Children 25c. Better get your seats early and you will not be disappointed.

Oxford City News

The health of our community is very good at this writing.

Miss Lula Holland was the guest of Miss Laura Ashley Saturday night.

Miss Mamie Wright of Maysfield, is the guest of Mrs. Laura Martin this week.

Miss Eula McClellen is fast recovering from a serious spell of pneumonia.

Miss Anna Dennison of Rogers, is visiting her Aunt. Mrs. M. J. Morgan, this week.

Miss Irene Holland of near Milano spent last Saturday night and Sunday in west Oxford.

Rev. Cleve White of Rogers, spent Friday night in our city, the guest of Mr. J. A. McClellen.

Some of the young people of Pin Oak attended prayer meeting at Smyrna Saturday night.

Miss Leah Morgan is home again after a four weeks visit with her sister Mrs. E. Holdiness of Taylor.

We are having some bright sunshiney days in our little city, which makes every one feel fine after so much rain.

Quite a lot of our folks took advantage of the good weather and attended prayer meeting at Smyrna Saturday night.

Mr. Robert Carr of Easterly, Tex., spent Thursday and Friday of last week in Oxford City, the guest of Misses Annie and Laura Carr.

As we do not want any body's job we bid you good by for this time. C. A. L.

A Successful Fox

A party composed of F. Bullock, F. M. Hildebrand, Reese and L. Reese indulged in quite an exciting fox chase Monday morning. They jumped the keen runner with thirteen dogs about 8:30 o'clock that morning and after a chase of four hours succeeded in running him down. The excitement took place on the old Buer place about two miles south of Milano. There is nothing more exciting to a sportsman than a good fox chase and the Milano Country affords many good opportunities for such sport.

Mr. and Mrs. C. G. Rumpel of Paris, Texas, spent a couple of days in our city this week visiting their sister, Mrs. J. O. Newton.

Miss C. Hudson received a telegram Tuesday morning announcing to her the sad news of the death of her grandfather, Mr. J. B. Atherton, of Nuckolls, Kentucky. Mr. Atherton was some ninety odd years of age and it will be remembered by some of our citizens that he once visited Miss Hudson here in Milano about four years ago.

Entertain With Valentine Party

On Friday evening of last week the Home Mission Society gave a Valentine party at the home of Mr. and Mrs. S. W. Taylor. The evening was spent pleasantly with different kinds of games and a neat sum was realized for the benefit of their good and benevolent work. They deserve unbounded success.

Odd Fellow Building Improved

The Odd Fellow building has been improved wonderfully by having an awning and gallery erected to the front. Mr. Cave is now getting ready with the inside for his confectionery and tailoring departments. The opening of a business in this building has done much toward its improved appearance.

Nazarine Services

Services at the Nazarine Church are held every fourth Saturday and Sunday in each month. Prayer meeting every Wednesday night and every third Sunday night. Everybody is invited to attend the services. We will do our best to help you. J. P. SPARKS, Pastor.

Messrs. J. D. Peeples, Jr., and W. D. Wells were Gause visitors Sunday. They took advantage of the beautiful day and made the trip via vehicle conveyance.

Mr. W. A. Baggett of Rockdale, was in our city a few days ago. He says there's no place like home and old time friendship and that some day he will again be with us.

Miss Ella Taylor spent Sunday visiting in the country.

'Tis time now to get that garden ready. Thought about it!

Miss Loise Taylor of Rogers, was a guest of Miss Vivian Brooker last week.

Mr. Lee Anthis was a visitor over to Rockdale Saturday afternoon, returning that same evening.

Miss Ethel Hensley of Caldwell, was in our city last Saturday in the interest of the Galveston New automobile contest in which she is a contestant. While here she was the guest of Miss Jessie Taylor.

Mr. E. R. Catce, painter and paper hanger, has received his latest samples of wall paper and represents one of the largest and best wall paper concerns in the north. The books will be brought to your home for inspection. Note his ad in this issue of the Gazette.

Pin Oak News

Mr. G. C. Wise and son made a trip to Cameron one day last week.

Mr. Matt Walker was a Gause visitor Saturday.

Mr. Henry Wise went over to the city of Gause Saturday.

Mr. and Mrs. Joe Ed Beavers were visitors to Gause Saturday.

Well, Mr. John Beavers has come back to old Milano to stay, so he says. Ask him about north Texas.

We have been having some sunshine weather this week.

Mr. and Mrs. Robert Gause, were visiting mother, Mrs. S. our settlement.

Will ring off!

Wall Paper For Your Home

Let the wall papers you select for your home this season reflect your own culture and good taste. Don't be satisfied with "mere" wall paper, but choose your decorations carefully and discriminately from the Independent Wall Paper Company's new line and thus give your home a charm and air of refinement that no mere lavish expenditure of money can buy. Our prices are as low as the lowest. An opportunity of showing you these beautiful wall papers is earnestly solicited by yours respectfully,

Mr. Bob Elliott was a visitor to Gause Sunday. Must have gotten longsome on such a pretty day.

Oh yes. Ask our Dad Bedell if he didn't give a five dollar bill for a "valentine" on Saint Valentine's Day. If he's forgotten, make him think right hard and see if he doesn't recollect it.

Editor John E. Cook of the Rockdale Reporter, was in our city Tuesday afternoon for several hours. Strange thing about Mr. Cook—he's always anxious to get back to Rockdale when he comes over here—just as if Rockdale was a much better town than Milano.

Liberty News

Mr. Dallas Fisher gave the young folks a dance Friday night.

Miss Kate Waldrip visited home folks at Rockdale Saturday and Sunday.

Miss Devie Quillion and brother of "the Bend" visited Miss Leona Octburn Sunday.

Mrs. Will Hensley and children of the Pin Oak settlement, spent Saturday and Sunday with home folks.

Mr. Alfred Gandy who who lives near Hanover, had the misfortune of getting his house burnt up Wednesday night. The house and contents were a total loss except a feather bed and four quilts with no insurance. Mr. Gandy had just recently purchased the home.

NUMBER 41

The I. & G. N. railroad pulled off another wreck in our city Sunday afternoon, when a big mogul freight engine and several flat cars split switch a few blocks west of the depot. The freight was traveling west at the time and performed a considerable wreck stunt that required till Monday morning to clean up. All traffic however, was not blocked long, as the main track was quickly repaired. The engine was then turning out pretty well, but the fireman made a big jump from the engine in order to get away from the smoking aspect. The engineer remained at his post till the sudden and abrupt stop. No one was hurt, but it was an awful looking mixed up wreckage.

Mr. C. M. Beard of near the lonely looking Summit settlement, was another of the always punctual farmers in town Saturday, coming through the mud, mist and rain. Mr. Beard was down in Houston a few days last week. What his mission was there we do not know, but anyway the big Hagenbeck-Wallace Circus exhibited in that city just about the time Mr. Beard was there and if he failed to see the big show then he had other business there.

Mr. W. F. Sanders, who lives out about three miles from town on route 1, was in town Saturday transacting his regular weekly business. Mr. Sanders says he has a record breaking turnip crop this year, he having planted the seed on September 2nd and dined sumptuously on turnip greens the 25th of the same month. He has also been living luxuriously on roasting ears practically all along the past two months. Nothing like something good to eat.

Contest Time Drawing Near

The Gazette will hereafter give 50,000 votes with each and every year's subscription turned in till the close of the Hudson-Peoples double piano and sewing machine contest. The contest will close on Friday, October 31st. The two stores are giving away the two pianos and the sewing machine and the Gazette is affiliating with the contest by giving votes on subscription. The two pianos are something to be proud of, likewise the sewing machine and three different young ladies will be the happy recipients of life long presents. If you have a friend in the contest you can give her a great help by renewing your subscription to the Gazette or by sending it to some relative or friend of yours who would be glad to get the paper. A year's subscription will entitle anyone to a coupon worth 50,000 votes and by using coupon in the paper you get 100,000 votes.

Summit News

We have been having some bad rainy weather.

Turnip greens and peas are looking fine these days.

Mr. Albert Wilson and wife were visiting relatives at Gause one day this week.

Come on, all of you writers with some more of your letters. Come again Mr. Editor, with some more of your letters.

Mr. N. W. Graham of west Texas, was visiting his father and mother, Mr. and Mrs. A. L. Graham the past week.

Mrs. Hubert Luce of Gause, is spending the week with her mother and sister, Mrs. W. D. Stovall and Miss Clara Stovall.

Everybody remember that on the second Sunday in this month there will be preaching all day and dinner on the ground at Summit.

They will soon have the new improvements completed on the Summit school house, and now when they have a big gathering there will be room for all the people.

Mr. Streeter Hurt and Mr. Floyd Lagrone came in from the prairie country last week. They say they had rather be in the sandy land when it's raining. "Tomato."

Contestant No. 71 received the weekly prize in the J. B. Newton & Sons piano contest this week, she bringing in over a million votes.

Rev. C. H. White of Milano route 1, was among the visitors to town Tuesday, and while here left a dollar at the Gazette office for which his paper is marked up another year.

Mrs. J. J. Vick of Central City, Kentucky, sent the Gazette a dollar the past week through our hustling little contestant Miss Edith Miller, with which we added another year on Mrs. Nick's Gazette date.

Mrs. Laura Miller of route 1, is another new reader to the Gazette with this issue, she having sent in a dollar for a year's subscription by one of our hustling contestants.

Mr. C. H. Hooker of our city and Mrs. W. W. Montague of Caldwell, are two new subscribers to the Gazette for a half year each with this week's issue. The latter named is sent by Mr. Todd Pearson.

Telling The Truth

It is not pleasant and profitable always to tell the truth in the columns of a newspaper. Men who have tried this heretofore have always come to grief. Only a few days ago the editor of a paper in Indiana grew tired of being called a liar, and announced that he would tell the truth in the future; and the next issue of the paper contained these items:

John Bonin, the laziest merchant in town, made a trip to Beeville yesterday.

John Coyle, our groceryman is doing a poor business. His store is dirty and dusty. How can he do much?

Rev. Stvx preached last Sunday night on "Charity." The sermon was punk.

Daye Sonkep died at his home in this place. The doctor gave it out as heart failure. Whiskey killed him.

John Skinem, a merchant of poor quality, went broke. He carried shoddy goods in

stock. P. S. he didn't advertise with us.

Married—Miss Sylvan Rhodes and James Conlin, last Saturday at the Baptist parsonage. The bride is a very ordinary town girl, who doesn't know any more about cooking than a jack-rabbit, and never helped her mother three days in her life. She is not a beauty by all means, and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks all his life, and is not worth shucks. It will be a hard life.

The governor of our great state, a very ordinary man, and who was elected by accident, was here yesterday. He has very few friends here now. He promised some of the voters in this precinct a piece of pie in event of his election, but had forgotten all about it when the time came to hand over the little offices rolled around.

School Notes

The Milano High School is progressing very nicely and is rapidly increasing as the long old days come and go, like the shades of night, come stealing o'er the dusty form of an ancient city.

The total number of pupils enrolled is 137, two-thirds of which are girls and one third are boys.

Everyone is doing good work regardless of the bad weather, although Earl can't remember but "one" thing in geometry, which is axiom "23," "two loves equal to the same thing are equal to each other." Also Neil can't understand that she has a fellow, but she has.

The High School this term has some very good athletic material from which a real strong foot ball squad has been organized and will have an excellent chance of being the best light team in Milan county. For a coach we have one of the best athletes in Texas, Mr. E. W. Dechert, a young man of great ability. The report has been circulated that he is about to embark upon the tempestuous sea of matrimony but he will play foot ball nevertheless.

(Given by Hypothesis.)

Mr. C. B. Oliver of Caldwell, is a new subscriber to the Gazette with this issue, he having sent a dollar for a year's subscription through one of our hustling contestants.

Methodist Church Services

Sunday is our regular preaching day at the Methodist Church. The pastor will preach at 11 a. m. and 7:30 p. m. Sunday is Missionary Day. I will preach at Prairie Point in the afternoon at 3 o'clock. Remember that we have only one more appointment before Annual Conference. The public is given a cordial welcome to attend the services and we will be glad to see you present. J. F. Garrett, Pastor.

The Ladies of the Home Mission Society will serve dinner this Saturday, October 19th, in Mr. J. C. Beard's store. These good ladies always serve an excellent dinner and is given for a most worthy cause. Don't forget this and be sure to take your dinner with them.

New Santa Fe Railway

The Santa Fe railway system will make several changes of schedule on its night passenger trains beginning this next Saturday night, October 19th. The most important change is in operation of train No. 15, going south, and which will arrive in Milano at 3:30 a. m. of 4:08 a. m., carrying passengers and mail. It will be attached to the main line at Great Bend.

Mr. J. C. Beard plumb square out on the reason he advertised in the Gazette, and he received his shipment Monday and sold it out before sundown. But he's plenty more now and is selling them at the same price of a dozen cans for one dollar. Don't fail to read his ad this week. Plenty other good prices are quoted in it.

What The New Tariff Law Means

That the new tariff bill recently passed by our Congress will help to reduce the high cost of living, is bound to be a fact. Following is a list of some of the most important articles of importation as classed under the old law and the new law.

October 25th is Club Girls Day

Saturday, October 25th is the day for Girls' Tomato Cakes at the Dallas State Fair and as many of club girls as can go ought surely be there on that day. Mrs. Edna Trigg, our government supervisor, will be there with the exhibitors and Milano expects to see some prizes awarded to the girls. This is the time to see the state of Texas thing about Milano's agricultural exhibit.

FIRE! FIRE!

If your house was to burn, would you be able to save your deeds, life insurance papers and other valuable records? We have a good vault and we charge you nothing to take care of such papers. Why take the risk!

The First State Bank of Milano

Mr. A. M. Raney and family of Wallis, Texas, Austin county, arrived in our city last week and will make Milano their future home. Mr. Raney will engage in the truck business north of town. He is an experienced trucker and will be an asset to many successful business men. Gladly welcome Mr. Raney to our midst and we will feel much at home.

Mrs. J. D. Peoples turned in two subscriptions to the Gazette this week, one of which goes to her sister, Mrs. T. A. Eggleston at San Diego, California, and the other to her father, Mr. J. D. Fowler at Mountain View, New Mexico. Mr. Fowler was in business in Milano many years ago, he having a mercantile business in the building now occupied by the furniture store.

W. O. W. Blg. At J. C. BEARD'S Milano, Tex.

Mr. A. M. Raney handed us a dollar the other day to be added to his Gazette date. Mr. Raney has been a subscriber to the Gazette ever since its first year, he having received it heretofore at Wallis.

Through one of the contest helping friends we were handed a dollar this past week from our citizen Mr. J. E. Kelley, and for which we notched his Gazette up for another year in the future.

It is a good plan to plant rye and oats for late fall and winter pasture. It will save a big feed bill and helps get your stock through the winter. Land should be broken en early and deep. Deep plowing early in the fall conserves the moisture and roots the vegetation, thus adding humus to the soil, and will make better crops next year.

Some Fine Sweet Potatoes

Mrs. Estelle Holland of route 1, was in town Tuesday and where she left a dollar at the Gazette for a year's subscription to the paper to her sister, Mrs. Irene R. Harg, at Opp, Alabama. Mrs. Holland showed us a sample of her sweet potatoes of this season, and on another day she brought some to town among which was one that weighed four pounds. From four rows they gathered 19 bushels of fine potatoes.

Mr. Harry Grummon left Tuesday for the place where he gets a change and a notion of vocation with the Santa Fe road, but he says if he doesn't like the change he's coming back to Milano. Mr. Turner of Temple, takes his place here at the railroad tower.

Telling It On Him

Our good citizen Mr. W. H. Dukes handed us a dollar this week with which we marked the Gazette up another year to his daughter, Mrs. E. B. Lovick, at Fairview, Oklahoma. And by the way, speaking 'bout Mr. Dukes, this reminds us that it was he who got lost some few nights ago, mention of which was made in the Gazette week before last. We have been asked by so many that we just had to come across. But in our opinion, Uncle Billy was perfectly correct that night.

Last week our Prospect correspondent (the Gazette's head-chief of staff on true philosophy) asked us which was the cheaper: "More clothes or a ticket to South America" in order to combat the cold weather over the Milano country. Now we are with you Bro. "Napper" when it comes to going to South America. Let's go and go right through Old Mexico in pioneer style without any tickets, only a coupon with which to cross the Rio Grande. We can perhaps go in pioneer style and if we come across old tamale Villa we'll show him a chilly-hot old time. There's a spot in middle South America which has never yet been discovered and we've got a hankering that we'd like to go there to spend the rest of our born days. And as to being buried in a mere robe without a coffin exactly suits us. We told that to a lady some few weeks ago and we believe she thought we were insane, but an insane man couldn't run this Gazette. Wait till we get away from this earthly life and then look back and hear'em mumble about burials of fashion and robbing as poor mortals for burying the dead.

All passenger trains which were discontinued running on December 15 were again put in force Monday of next week. At Milano the railway took off any trains, except the one which took off the Sunday train, and the rest of the coal was used for the night. The mine was not full but enough to last for the night. The front of the mine was not hard and the rest of the mine was not hard. The mine was not hard.

Little Dickie was visiting his grandma, and after lunch she spoke to him about taking his afternoon nap. He looked shyly at her and did not speak. After a short pause she again mentioned his nap, and he said: "Why, grandma, you wouldn't put your company to bed, would you?"

According to William Henry Barrow, 5,000 facts, Indian summer is the warm part of November. The name was derived not from the state of weather, but from the fact the weather being mild and balmy the Indians used this period to harvest their corn, and it lasted nine days and came just before winter set in. This season corresponds to the days known as "St. Martin's summer" in England and the Mediterranean countries, although this season in the mentioned countries comes in the fall just before our Indian summer.

Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us, in the fact that the wheel is set in the center, and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow coolie in China will transport nearly a half-ton on his vehicle.

The little two year old son of Mr. and Mrs. O. T. Bullock, who lived beyond Summit, died Saturday night and was buried Monday about noon in the Milano cemetery. The child had been ill with pneumonia and all that loving parents and medical skill could do for him was done, but its life could not be prolonged. The family has the sympathy of the entire community in their sad bereavement and sorrow.

Mr. W. A. Reese says: Those folks who were looking for the end of time Wednesday were certainly disappointed. They didn't seem to have much faith in the Bible if they thought the world was going to come to an end, for the good book says that after the destruction of the world in Noah's time this earth would not again be destroyed.

Mr. R. E. Lee says: He much prefers "high price times" when the farmer gets a big price for his cotton and other products, than to go back to the old hard times and low prices. High prices also induce the farmer to raise so much more of his products for home use instead of buying them in paper sacks and cans. Take lard for instance, why should he pay 80 or 85 cents for a cheap compound lard when he can produce pure home rendered lard cheaper!

Doctor M. M. Gough says: He believes that the United States will take old Mexico in charge sometime about the first part of the coming year, perhaps by February. Matters are fast coming to a focus and the sooner we show Mexico how to conduct itself the better it will be for Mexico and everybody else. It will mean another big outlay of expenditure for our government, but it must be done for the betterment of the world at large and the time for action is ripe and close at hand.

Rev. J. T. Hart says: He believes that humanity is getting better all the time when it comes to the matter of helping one another and looking after our fellow neighbor. He believes this because he has seen a new suit of clothes to wear which came to him through the philanthropic actions of a number of Millbrook citizens. Rev. R. C. Whit went around and got up \$16 in money and gave it to Bro. Hart and he wishes to thank each and every one who so liberally donated to that fund, for he most assuredly appreciates their donation.

Captain L. Bedell says: Sometimes he is of the opinion that human life is just one life after another. That is to say that when we die we will find ourselves here again some day, [but not conscientious to our own minds. This routine of earthly life is kept up until we find ourselves becoming better and better, weaker and more worthy to enter the Heavenly Paradise on High. On this basis some people are blessed with better and finer temperaments than others, and need perhaps live only once or a few times, while others must keep on for many centuries. Captain Bedell is a pretty good Bible student, so don't get the idea that he might be an infidel. He is far from that. He says it is almost plain to him that he has lived here on earth before (and some other people say the same) for he has seen places he never visited before, yet when he first arrived there he knew he had seen that spot of wilderness before, perhaps in past generations.

We are shallow and selfish and lacking in dignity when we play one thing against another to gain our ends. Is it that we cannot think largely, comprehensively enough to realize that when we disown responsibility for our actions and savings we are reflecting upon others to their hurt and discomfiture? It is almost as great a crime to be indifferent or unheeding of these matters as to be malevolent. There is something radically wrong with us inately if we cannot sponsor our own individual idea and opinions without making some one a "but" for them.—

Christmas is but a few days off and the time for purchasing your holiday necessities is here. This store offers a complete assortment of holiday gifts suitable for every member of the family.

It was not a question of buying this year; it was merely a question of getting the goods after you bought. This was the condition of everybody. Consequently we bought heavy and have on display a beautiful assortment of gifts that will please.

Our prices are as reasonable as could be expected. I mean to say that you will save money by making your Christmas purchases here at this store.

Make your purchases early and get what you want. A visit here will prove my statement.

Get my prices on fruits before buying elsewhere. I will have a complete line of Apples, Bananas and Oranges in all sizes; also a beautiful assortment of candies and nuts. Visit this store and reap the benefit of cheap prices and goods of quality.

Yours for service.

Death Of Three Year Old Child

Little Laura Sanders, the three year old child of Mr. and Mrs. J. F. Sanders, died last Sunday night at 11:50 o'clock at their home out on route 1 about three miles north of town. Funeral services were conducted and held by Rev. C. H. White and the life one was laid to rest in the Liberty Cemetery Monday afternoon at four o'clock. To the bereaved family we extend our heartfelt sympathy and condolence.

Milano Gin Puts Out A Monster Bale Of Cotton

The Milano Gin turned out a bale of cotton Monday that was a hum-dinger for size. The cotton was brought in by Mr. J. L. Hairston who lives out about three miles southwest of Milano. The bale was so large that the gin was unable to weigh it, and when it was turned over to Cotton Weigher C. T. Woods he found that he couldn't weigh it either, but his scale had a capacity of 700 pounds and what the scale couldn't weigh was estimated at 35 pounds, thus the bale weighed 735 pounds. The bale was next taken to Mr. J. D. Peoples who paid 12½¢ per pound for the big thing. After the ginning was paid for the bale netted Mr. Hairston \$106.61 including the seed. 'Twas some bale.

Oh! Hallowe'en's Coming

On Friday night of next week, October 31st, occurs Hallowe'en, the time of year when spooks, ghosts, goblins, demons and all sorts of unearthly monsters are said to appear. It is also said that the young fair sex can see their future husband in the mirror by candle light at exactly 12 o'clock that night. Try it girls and see what sort of a looking monster you will see. Take the chance and be satisfied.

MADE HIM HOT

The steer that Jones bought by weight amounted to \$49.72. He didn't have the exact change, so his neighbor said: "Oh, just make it even money," and so Jones handed over two 20s and a 10. He had paid 28 cents too much because he didn't have the exact amount of change. The next day his neighbor came over and bought some hogs. When weighed they came to exactly \$49.72 and the neighbor pulled out a check book and wrote a check for the exact amount. Said Jones afterward: "By gosh, that made me hot, but I guess the only way out is to quit carrying my money around and begin to pay by check."

The Little River Baptist Association began its annual meeting at Cameron Thursday night of this week, October 23rd, and will be in session for several days.

Taxes Are High This Year

The tax rate for Milam county this year, including both state and county, is a fraction over 84¢ on each \$100 worth of property. To be exact, the rate is 84.6. So if your property is worth a thousand planks you owe the tax collector \$8.46, besides your poll tax of \$1.75 and the special school and road taxes if you happen to live in those kind of districts. Looks like even taxes want to keep pace with the high cost of living. You have till the last day of January to pay your taxes, but it's a good idea to pay them earlier.

Mr. John Beavers of the Pin Oak settlement, was in town Saturday wearing a rain coat and said everything was cold and dismal looking down on Pin Oak. Also stated that Pin Oak Creek rose up the highest last week he has ever seen it.

Some Good Ribbon Cane

Mr. J. F. Chasteen, who had for the past two months or so been up in the black land country near Rogers, came down last Friday evening and remained here till Wednesday. He says no place looks as good to him as Milano and that he and his family will be back on their farm here just as soon as he gets through with his work up there, or some time before Christmas.

Mr. E. P. Turner, co-partner of our lumber firm, was in our city Tuesday and remained till Wednesday. Mr. Turner is salesman in the wholesale lumber business with headquarters at Houston.

Tax Collector Will Be Here

County Tax Collector Porter Stevens will be in our city Monday, November 3rd, and will be prepared to receive your tax money for another year and issue the receipts right here in Milano, thus saving the people the time, trouble and money of going to Cameron later on to pay their taxes.

Milano Loses A Good And Worthy Citizen

Milano and the entire surrounding country received a severe shock of sad news last Friday afternoon at just about 1 o'clock when it was learned that our citizen Doctor J. W. Hudson had passed away from us. Almost instantly all Milano was a spectre of gloom and sadness. The death of this good citizen could hardly be comprehended by anyone.

Dr. Hudson had been in the city about three weeks with typhoid fever and all indications pointed to his speedy recovery and at no time during his illness was his death expected.

Dr. Hudson was 35 years of age and had been a resident of Milano for about 30 years. He was born in 1878, and was a native of Kentucky. He was a member of the Baptist Church, a Mason and an Odd Fellow in the Milano lodges. Funeral services were held at the Baptist Church by Rev. B. B. Blaylock of Rockdale Saturday at four o'clock, after which the remains of our mortal citizen were taken to the depot, followed by the members of the Odd Fellows lodge and sent to Central City, Kentucky for burial.

Mrs. E. H. Gunn, wife of our Baptist pastor, has been very ill ever since last week. At last report we are glad to say, she was somewhat improving a little.

Milano Tomato Club Reorganized

The Tomato Club of Milano met at the school building at noon Friday and reorganized for the coming year. The officers are: Miss Maud Hooker, President; Miss Altha Silvester, Secretary. All members belong to the club this year and are expected to do lots of good work. The first Saturday in each month members of this club will meet at one of the girls' homes and be entertained. Miss Maud Hooker will entertain the first Saturday in November, the 1st day of the month.

Rev. J. N. Gibson of Milano, was in the city Wednesday. In conversation with the Guide man, Mr. Gibson stated that work on the new Christian Church at Milano would commence in about two weeks.—From the Gause Guide.

Clearing An Eighty Acre Tract

Our citizen Mr. L. Newman has recently closed a contract with Mr. A. R. O'Neil to have an 80 acre tract of post oak timbered land cleared in the settlement known as 'Possum Trot. The land is located about six miles northwest of town and Mr. Newman has quite a bunch of Mexicans clearing it up. If cleared in time the 80 acres will likely be put in cultivation the coming year.

Messrs. W. A. Belt, Jesse Belt, Seth Deese and L. L. Stewart, all of route 1, sent in a dollar each the past week for subscription to the Gazette through our contestant Miss Alice Brennan.

This Saturday Is Club Day

This Saturday, October 25th, is the day for Girls' Tomato Clubs at the Dallas State Fair Mrs. Edna Trigg, our government supervisor, will be there with the exhibits and Milam expects to see some prizes awarded to the girls. This is the time to see what the state of Texas thinks about Milano's agricultural exhibits.

Do Your Eyes Need Help?

We have arranged with the A. K. Hawkes Company of Atlanta, Georgia, to have with us on November 11th and 12th, one of their expert Opticians. If you need new glasses or if your old ones are unsatisfactory, visit our store during this period and let our Optician examine your eyes and adjust your glasses. Remember we have arranged this engagement and secured the services of a man of ability and reputation, and we personally guarantee his work. All examinations are free, and only regular prices will be charged for glasses.

Don't forget the date, November 11th and 12th, and be sure to take advantage of this exceptional opportunity.

Yours very truly,

THE MILANO GAZETTE

Entered as second class matter January 13, 1912, at the post office at Milano, Texas, under the Act of March 3, 1879.
The Milano Gazette is issued weekly at Milano, Texas. Subscription price \$1 per year.
C. H. Lister, Publisher.
Milano, Texas, December 23, 1916.

Just who is going to be postmaster at Milano is a problem now puzzling the minds of the hungry faithful over in Milan county. We could tell them, but we won't.—From the Calvert Courier and Gause Guide.

The Gazette extends Christmas greetings, wishing for each of its hundreds of readers and its loyal advertisers a Merry and Joyous Christmas and a Most Happy New Year. May the blessings of our Lord fall upon each of you for a happy life resplendent with prosperity and enjoyment and a happy home full of sunshine, is our prayer.

We notice that C. H. Lister has returned to Milano and resumed charge of the Gazette, which shows considerable improvements under his management. The people should give him a good patronage as he is giving them a paper far ahead of the town, and his efforts should be appreciated by the business interests there carrying larger ads in his paper.—Caldwell Leger.

Doctor Mullins killed a porker this week while the cool breezes were sweeping our atmosphere. He has our thanks for a big fine luscious hunk of a foreshoulder. The Doctor also butchered a 'possum that day and we even helped to dine sumptuously on that delicious brand of meat. We just want to say this much to Editor Ables of the Burlington Tribune: That it was a true marsupial specimen and certainly was fine—ugh huh!

The young American who has never enjoyed an old fashioned 'possum hunt, listened to the bay of the old hounds, swapped yarns around a fire away off in the woods, has never really had all that was coming to him.—Richardson Echo.

Isn't that a beautiful fact commemoratively told! The reminiscence of a 'possum hunt lives in our memory perpetually. The editor of the above paragraph and paper "once upon a time" lived down here in this Milano country and we are sure his thoughts came from the old memories of that time when he was in such a meditative mood that inspired him to write the above few lines. A 'possum hunt in this Milano country is equaled only in the state of Georgia where the 'possums hide in the sycamore trees instead of the blackjack or 'simmou thickets as they do here in Milano.

WHY I BUY AT HOME.

Because I want to get what I buy when I pay for it.

Because my interests are here.

Because I want to see the goods.

Because the man I buy from stands back of the goods.

Because I believe in transacting business with my friends.

Because I sell what I produce here at home and here I should buy.

Because the man I buy from pays his part of the town, county and state taxes.

Because every dollar I spend at home stays at home and works for the community in which I live.

Because the man I buy from helps support my schools, my church, my lodge and my home.

Because the community which is good enough for me to live in is good enough for me to buy in.

Because when ill luck, misfortune or bereavement comes, the man I buy from at home is here with his kindly greeting, his words of cheer, and his pocketbook, if need be.

Milano School Notes

Robert thinks Mae's ear bobs are pretty, but says Mae is the prettiest.

Miss Bernice—"George D, what year did Columbus discover America?" George—"In the year of 1916."

Florence—"Mr. McMillan, how long have you been married anyway?" Mr. McMillan—"Only six years." F.—"How old is she now?" Mr. M.—"Only 18 years of age."

Reuben is very fond of the name "Ethel" especially the last name attached thereto.

Mr. McMillan—"What is the largest city in Texas?"

Hubbert—"Rockdale, Texas."

Mr. McMillan compliments Florence, Myrtle, Mae and Gertrude on their sweeping, but the boys don't seem to take notice of the girls' sweeping.

The following are the names of pupils who made an average of 90 and above 90 for the school month ending November 24th:

Tenth Grade—Florence McClung. Ninth Grade—Cecil McGregor and Myrtle Worthington. Eighth Grade—Mae Stewart, Reuben Mills, Bertha Beathard and Hubbard Butts.

LATEST WATER NEWS

Superintendent Hull Says Santa Fe Water

November 1st

Station agent S. W. Taylor informs us that he has received notice from Mr. K. S. Hull that the Santa Fe would extend the water limit for our people from the 18 of this month to November 1st, and after that date this would be positively the last extension. That is an extension of only 13 days, and it means the full limit. The cutting off of this water means quite a serious problem for many Milano people, especially at this dry season. The Santa Fe road has threatened to cut this water off for some length of time. Notice was even given about a year ago, mention of which was made in the Gazette at the time, and while the water will now be cut off entirely, our people certainly ought to appreciate what the railroad has done for them. It is more than the railroad has done for people elsewhere. We are sure the people have no ill will against the road for cutting off the water. They will not cut it off.

AN ATTRACTION

The bank is the safest place for the idle dollar. Once there it is safe, and is an incentive for you to place others beside it. Soon the fund is large enough to be a very attractive proposition to you and you will realize how fully the bank has proven a magnet that held your dollars together. We invite you to open an account with us, no matter how small. Begin now. You will never regret it.

OCCASION

It affair was on Pavilion last Saturday occasion being a given by the ladies on Society. The out to the two chosen by two re profitable and could not have been spent so pleasantly. After the spelling bee served lunches, from which a little sum was realized, the proceeds of which go to the Methodist parsonage fund for repairing the parsonage fence.

THE WEEKLY PUZZLE

Four responses were received to last week's puzzle. It must have been a little difficult, yet we thought it was easy enough. Following is a list of the solutions received with the number of correct names sent in:

Miss Willie Fridge	Milano	13
Rayon G. Gibson	Milano	12
Mrs. M. W. Dabbs	Milano	11
Robert E. Lee	Milano	10

There were 10 names of notable men in the ten sentences as follows: 1—Ferguson, 2—Robert E. Lee, 3—Washington, 4—Rufus Hardy, Harriman, 5—Rockefeller, 6—Jefferson, Monroe, 7—Roosevelt, Edison, 8—Morgan, 9—Wilson, Campbell, Madison, 10—William Pen, Columbus.

For this week we give you the first letter of each word of ten familiar proverbs or "old true sayings." We believe this is considerably easier than last week's puzzle. See how many of them you can figure out. If you don't get but a few send them on in. The person sending in the most correct solutions gets a year's subscription; the second largest list gets a 6 months' subscription, and the third largest number gets a 3 months' subscription.

SECOND PRIZE POEM

Written by Mr. O. K. Hadden, Milano, Texas.

"Milano Town"

Without one thought of winning fame, in trying to boost the trucking game; I take this way in my poor rhyme, to tell about the finest climate, and all about the soil as well, is what I shall try to tell. We have the soil that can't be beat, it raises melons—oh so sweet, and cabbage, beans and peas galore, likewise other things and then some more. You ask me where is this land so renown; where else could it be but in "Milano Town." Our gin is running night and day, it will beat last year so they say; and from figures on their slate, they have nine hundred bales up to this date. Although the times seem very hard, our farmers here hold the winning card. They own their soil and fertility the very best; this has been proven by the working test. And now I'm done with my poor rhyme, about our soil and about our healthy climate; you ask me where is this land renown, where could it be but in "Milano Town."

Milano, Texas, Saturday, Oct. 4, 1913.

The average weight of eggs is about eight to a pound, so that a dozen eggs would weigh about one and a half pounds. A pound of eggs contains more nourishment than a pound of meat. There is no flesh food that may be served in so many palatable ways as eggs, nor as easily obtained by farmers. Eggs are a perfect food, containing all the constituent elements of nourishment.

The fact that Post Office Inspector Base has a big farm up at the little city of Buckholts, does not necessarily mean that he selected that town for his farm as against Milano simply by inspecting the post office at Buckholts. For an investment he would perhaps rather have a black land cotton plantation than a sandy land Garden of Eden. Anyway, we believe that if he were to reside on a farm he would then choose life down here at Milano.

The recent rains have put a fine season in the ground for almost any kind of a fall crop product, and there never was a better time for planting turnip or radish seed than two or three weeks ago and it is not too late yet to plant more. Oats is another good thing to plant at this time of year for those short on feed for their stock and oats is hard to beat. Cabbage is another good vegetable for fall growing. A fall crop of most anything is a great help and saves many a scarce looking dollar on the family's grab bill.

Our friend Morris, sends us, postage prepaid, his speech in the Senate of the United States on September 4th, about the new tariff bill. We are not worried near so much about this new tariff bill getting by as we are about where and how we can come into possession of an overcoat, another pair of socks, a perfectly good pair of thick breeches, a set of underwear, etc., for ourself, and a winter shawl, a \$1.25 latest style hat, tolerable good cloak, etc., for the lady that induced us to marry her.—South Houston Times.

Shame on you, Bro. Russell, for wanting an overcoat. Who ever heard of a country editor wearing an overcoat? We are are nigh 30 years old and been in the newspaper business 17 years, but have never walked around hidden in an overcoat. We however, could use an extra pair of breeches when the northers begin to whistle, and as for the wife's wants, she's got us scared plumb nervous. But forget about the overcoat. You're nearly a hundred miles farther south than we are, and we wasn't even thinking 'bout such a thing as an overcoat.

Irwin Deraney, Lackawanna locomotive engineer, with a record of forty years without an accident, was ran over and killed by an engine within five minutes after he had quit the service to go on the pension list. That was truly the irony of fate.

THE WATER PROBLEM

Some several days ago our citizen Mr. J. D. Ruby was asked by the citizens of Milano to go to Temple for the purpose of seeing Superintendent K. S. Hull of the Santa Fe road and see if he would extend the limit of his water supply at Milano from the Santa Fe well. Mr. Ruby went, but Mr. Hull was out of town. However Mr. Hurd, who is Mr. Hull's secretary, was seen about the matter and he said that the matter would be properly attended to, for as long as the Santa Fe road ran through Milano our people should have water. But the matter was farther agitated by the Truck Growers Association who received a letter from Mr. Hull asking how long the people wanted the water limit extended. Mr. Hull's letter reads as follows:

Milano Truck Growers Association: Referring to your letter of recent date, will you please advise about how long after October 18th, the citizens want this water privilege extended. I think I have been very lenient in this matter and I do not think that the citizens of Milano think that we should continue to furnish water any longer, and I hope that everybody who has been getting water from our tank

NOW JUST LOOKY HERE

Oh shucks! Uncle Sam's money order business must be agetting on the bum. He's gone to advertising. The Milano post office has this week given out a bundleful of red cards, boosting and whooping up the cheapness of money order fees. That's boosting up the mail order houses. Now we didn't think this of our Uncle Sammy or of Ablet Sidney Burleson either. Naw! And furthermore, when we send money away to pay our paper bills we send 'em a check on the First State Bank of Milano and it don't cost a blessed cent fee or exchange. Shucks! Go away Uncle Sam. You ain't talking to us as long as Milano's got a bank. And another thing, better keep your money at home. First thing you know the mail order shebangs will have all your wheels and the little spokes too. Maybe Burleson had these 250,000 red cards printed for the purpose of whooping up enough fees to cover up the \$40,000,000.00 annual rural route deficiency. But it'll never do it. No.

are grown in the Milano country each year, including both the green and the yellow wax varieties. Carloads upon carloads are exported every spring. ASSOCIATION DIRECTORS MET

The directors of the Milano Truck Growers' Association held a meeting last Saturday afternoon at their office and made final arrangements for this season's tomato crates. We are informed that the contract has been let to the Tyler Box & Lumber Company and that they will put a man here to operate a crate warehouse in Milano and sell the crates direct to the growers as they need them. This will save the Association a lot of time and extra work, also save them from tying up a lot of money in a surplus stock of crates. The first car of crates is due to arrive some time this week.

One Thing You Can Do RIGHT NOW

That will be really worth while, is to investigate and learn how our Bank Account Plan is helping others to get ahead. It may be that you have never given any serious thought to this method of helping yourself to a better and more prosperous future because the words "Bank Account" are associated in your mind with "big money." However, our plan is suited to your needs—no matter how small or how large your account, come in and let us tell you about it.

FIRST CRATE TOMATO RECORD

The first crate of Milano tomatoes which came in on Wednesday of last week, May 26th, came in on the same day of the month that the first crates of 1914 and 1913 came in on. Thus for the past three years the first crate has always arrived on the 26th day of May. Following is a record of the first crates which we find in the files of the Gazette:

1915—May 26—First crate was brought in by Sam Devall.

1914—May 26—First crate brought in by Messrs. Kelley & Huffman.

1913—May 26—Five crates, four by J. N. Suttle and one by Jim Stewart.

1912—May 24—One crate each by J. H. Burnet, G. A. Adams, C. T. Woods, W. H. Paschall, W. M. Dees.

MAY AND APRIL P. O. REPORT

Cancellation of stamps for month of May amounted to - - \$287.01.

Cancellation of stamps for month of April amounted to - - \$328.81.

The stamp sale during the month of May amounted to - - \$318.15.

The stamp sale during the month of April amounted to - - \$210.69.

SUNDAY SCHOOL PICNIC

The Baptist Sunday School will give a union picnic rally on next Wednesday, June 9th, at the Milano park pavilion, which will be participated in by the various Sunday Schools of the town, all of which have a special invitation to make the day a most pleasant and profitable one for all the Sunday Schools.

ABOUT THAT FIRST CRATE

The first crate of Milano tomatoes came in on the very same day that the first crate at Willis, Texas, came on, Wednesday of last week, both arriving in the afternoon. The Willis man got \$2.50 premium, while the Milano man got \$10.06 as premium. As mentioned in last week's Gazette. Now don't tell us Montgomery county is earlier than the Milano county for tomatoes.

SUPPER THIS FRIDAY NIGHT

The ladies of the Milano Cemetery Association will give an ice cream and cake supper at the park pavilion this Friday night, June 4th, and they ask all the people that possibly can to be present and help raise a little money that is seriously and badly needed. These ladies are doing a good work in keeping the cemetery in shape and they will certainly appreciate whatever you can do for them, either by patronizing the supper or giving a donation.

Representative C. M. Beard and daughters, Misses Mabel and Bernice, were among those who went to Cameron Thursday to attend the W. O. W. picnic there that day.

WIND STORM DID BIG DAMAGE

Judge J. D. Ruby reports the storm of last Saturday night as having done some great damage to his farm home at Aaron switch, a few miles north of Milano. The wind carried the porch of the house completely away and seems to have taken a special delight in stripping the roof of its shingles. The flying shingles cut corn stalks down like a sickle. A large post oak tree and a cedar tree that had been there 30 or 40 years were both demolished. The house was damaged to a considerable extent and is at present occupied by Mr. Greenwood and family. The wind out there was terrific.

NAZERINE SERVICES SUNDAY

To The Gazette Family, greetings in Jesus' name. Next Sunday is our regular appointment, the first Sunday. We will have preaching Saturday night, Sunday morning and Sunday night. We will thank the people to come out and hear us, and will ask all who can and will to come again and we will continue to treat you kindly and give you good, safe and wholesome gospel. We also say that we want to have Children's Services Sunday afternoon at 2:30 o'clock. We heartily invite all the children of the other Sunday Schools to come and help us or join in with us and we will try to make the time profitable for all. Brother in Jesus, S. W. Green, Pastor of the Nazarine Church.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Carroll, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me, I can now walk two miles without it tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. Still there is a great deal of "wild catting" going on and new derricks are being erected in different localities every few days and the promoters are hopeful of yet striking stronger and much better paying veins.

An Undergrowth of Stinging Nettle

Mr. J. W. Hairston of the Sand Grove settlement found a nettle root which a railroad scraper had probably dug up and was showing it around town last Monday and explaining how harmless it was to touch the nettle while holding your breath. The stinging nettle itself is but a small plant, while the root grows 3 to 6 feet long and 4 or 5 inches in diameter. Mr. Hairston says the root makes a good soap. Mr. Dan Miller says these nettle roots can be found in the Liberty settlement a foot in diameter and says they are good for making a poultice to cure boils or carbunkles.

Mr. A. J. Buffington of some five miles south of Milano, was in town Monday and a most pleasant caller at the Gazette office. He reports cotton out his way coming up fairly well and corn tasseling, and after all the many difficulties and setbacks the farmers had to contend with this year he believes they will come out in fairly good shape any way.

PRESERVE THE BIRTHPLACE OF JEFFERSON DAVIS

Austin, Texas—Major George W. Littlefield, banker and stockman of Austin, has just returned from Kentucky, where he has been in the interest of the preservation of the birthplace of Jefferson Davis. The farm on which the president of the Confederacy was born is a twenty-acre tract of land on the line between Christian and Todd counties, near the village of Fairview. It is the intention of the Davis Homestead association to remove from Nashville the house in which the president married the daughter of President Zachary Taylor and place it on this homestead tract, and to convert the tract into a park and erect a monument there. Major Littlefield donated \$2,000 to the fund which will be used for the purpose and has promised to add \$3,000 more if the residents of Christian and Todd counties will raise \$5,000. The Kentucky legislature has appropriated \$7,500 toward renovating the Davis homestead.

When danger threatened the cargo and supplies, strange slips were sighted and Deutschland was submerged, and it was then that the electric machinery was depended upon entirely to propel her beneath the water out of the danger zone. On such occasions the oil engines were shut down and a supply of current from the storage batteries used to operate the two electric motors attached to propellers. In this way, according to Captain Koenig, the submarine could travel a distance of 100 miles without rising to the surface to recharge the storage cells. On the voyage to America the submarine was submerged for a total distance of 90 miles, most of which was necessary in passing through the closely patrolled North Sea. Her captain stated that on one occasion the boat was submerged to the bottom, and (in submarine phraseology) "went to sleep" for several hours.

AUTUMN MAGIC

When autumn's frosty fingers Have touched the mead and mere, And still the summer lingers Around the dying year, 'Tis then I feel a yearning To walk the leafy miles Where autumn fires burning Light up the woodland aisles.

I love to watch the falling Of yellow leaves and red, I love to hear the calling Of birds over head; To hear the soft repining Of leafy-covered streams; Their magic music joining With music of my dreams.

The time should leave no token Of love that once was true, Tho' you should find me broken In health and fortune, too, One season still would move me, And life would still be sweet, With autumn skies above me And leaves beneath my feet.

SILK STOCKINGS

Two Kansas City girls refused to attend school because they were not able to wear silk stockings. The good old days before it was the custom for girls to show so much of their stockings it would have mattered little that a girl didn't have silk stockings, but now since the greatest part of the stocking is visible to the public how it looks "cute some ice" with the girls who want to be well dressed. A cotton stocking doesn't look as well as a silk one though it may hide just as shapely a limb. We have no doubt but that the desire for silk stockings has been the entering wedge of sin which has eventually resulted in the downfall of more than one innocent girl. There has been a movement toward standardizing commencement clothes for young ladies, thus relieving a most embarrassing situation for the girl in able to provide queenly robes for this occasion, and we see no reason why the wearing of fine clothes to school every day couldn't be encouraged to a considerable extent. It is an expensive habit often causing financial hardships on the parents and in many cases from the attention to school work. Elegant simplicity should be instilled into school girls and these false, fallacious ideas that fine feathers make finchbirds ought to be eradicated. The dress question is getting to be a serious one and our public schools could possibly do much, if the cooperation of parents is forthcoming to discourage the dangerous and extravagant tendency toward adornment.—Columbian Review.

GOT THE BUSINESS

An editor who started a daily paper in a small town in another state had a tussle to make "both ends meet," and then very often the "meet" was mostly rind. The reply came: "Where does your paper go?" To this the editor answered: "North and South America, Europe, Asia and Africa, and if I don't get more advertising pretty soon, it's going to h—l."—Exchange.

A POSTAL CAID CAMPAIGN

Tom (Gause) If you join in and all propaganda going right along we can get the birds protected. Of course it is necessary to keep constantly hammering into the people the necessity for doing something. The very people most benefitted are nearly always the hardest to stir up. But so much has been said and written possibly we could get an expression from a thousand or two people which would be a big help in passing a measure. Getting it done is the thing. It is useless to attempt anything with a "closed season." By absolute protection we can save the birds and increase them. Of course their great enemies are the elites and pump guns, but if we have the postal cards and signatures we can do it. Let every useful birds absolutely protected for five years write me a postal card to that effect.

Mr. B. N. Ashley, one of Milano's prosperous farmers who lives out some two or three miles east of town says he has made so far this year ten bales of cotton for which he has averaged 15 cents a pound for every bale of it. And he says he didn't work very hard to make those ten bales either, besides he had very little help and a has a railroad pump to attend to besides farming.

WEEVILS DIDN'T GET ALL OF IT

Mr. A. J. Hildebrandt of the Liberty settlement, was among the loyal visitors trading in his home Saturday. Was a pleasant caller at the Gazette office too, and renewed his subscription to the extent of a dollar's worth. Mr. Hildebrandt is one of Milano's most successful farmers, but he says his cotton crop this year was visited by Mr. Boll Weevil and his family. He planted late, as many did, but he says he will make some cotton anyway. Fact of the matter, Mr. Hildebrandt is too good a farmer for any kind of weevil or other pest to keep him from making some kind of crop.

Even the good ladies of Milano speak a cheering word for the Gazette. Among the many who told us the old style Gazette looks good again was Miss Myrtle Worthington, and she quoted something about it appearing like roses and violets having been placed upon it, or something to the extent of a resurrection. Thanks, Miss Myrtle.

To The Citizenship of Milano

To my friends and the citizenship of Milano in general: I wish to express my sincere appreciation of my existence in Milano during the past many years. I have tried to live a life for the good of the little town and for the good of its people as well. For many years I lived among you as best I could, serving the people of Milano and Precinct 3 as I thought best. My friends and the citizenship of Milano I shall never forget. I leave only for the welfare of my family, just like so many of us have to do. Those who regret to see me leave I also regret to leave them. But such is the course of life. For my friends and enemies I carry a warm feeling. May great blessings fall upon you all.

Sincerely yours, J. D. RUBY.

To the above card the Gazette wishes to comment just a little. The words expressed above ring just like the man Judge Ruby was. The loss of this good family from our city brings regret from every corner and crevice of this entire Milano country. The friendship of Judge Ruby was a power over our country and perhaps no man ever had a host of truer friends than he. His name was a household word. Everybody knew him and his family, and knew they were loved. He was a man who possessed a kinder heart, nor has a man ever done more for the convicted who were sorely in distress. The good deeds this citizen has done would fill a book in relating. This man Milano has lost. Somerville now has him and his family. No matter how long they may live among the people there or elsewhere the citizenship of Milano will never forget them. Should they ever return they will be welcomed. They have our best wishes. Take them Somerville, and be good to them.

Mr. A. T. Stovall of the Summit community, was in town Wednesday. He is another good friend of the Gazette and says he appreciates the efforts of his home paper. Mr. Stovall says he made four bales of 15 cent cotton this year and with a goodly supply of sweet potatoes in the the making he figures he can pull through to what the next year might have in store for him.

WHY THEY DO IT

Did you ever notice that the man who pays by check always inspires you with a sort of confidence? Do you know why this is so? It is because the man with the bank account is usually on his road to success. It is generally taken for granted that the man who conducts his business through banking channels is making good. And it is usually so. Why? Is it because only the successful men do business through a bank or because the bank helps them to be successful? We invite you to open an account at this bank and see if it don't help you on the road to success.

First State

Bank of Milano

Citizen and truck grower Mr. J. N. Suttle greeted the Gazette management with a dollar Saturday morning with which to keep his Gazette going another year. And the dollar wasn't all he gave us. Extended us a hearty welcome back to the old town and says he appreciates the revived efforts of his home town paper. Just Milano like—he's a true blue citizen 100 per cent fine.

WILL MEET TO SING IN MILANO

The Milam county District Singing Convention will meet in Milano on the second Sunday of next month, November 12th. This organization meets every three months at various places over the county. Milano citizens should help arrange a place for the visitors to meet and extend them a cordial welcome. A few baskets of lunch provided by citizens who attend would help to solve the dinner problem. All the various clubs of this organization will have their portions of memberships present and a big bunch of jolly people and good singers they are said to be. Remember the date, November 12th.

According to the statement of our gin manager J. A. Touchstone, the last week in September and the first week of October marks the heavy period run for the Milano gin. The gin is still running full time every day and cotton is still coming in quite steadily, though not quite as rapidly as during the past few weeks. Late cotton is just now coming in.

PRICES AND QUALITY

We Want Your Business

Among those whom we saw going to Rockdale Monday to attend the Yankee-Robinson circus were the following: Captain L. Bedell, Mrs. F. Thwaitt and children, J. D. Peoples, Jr., and B. N. Ashley.

We haven't learned as yet who did it, but whoever the promoters were that put those two walks across Milano's main plaza to the depot, they are certainly entitled to a goodly quantity of credit for such a greatly needed civic improvement.

To Peanut Growers

After threshing several cars of peanut hay and noting the out-turn in peanuts which has averaged about 16 bushels to the ton, I find that I will be unable to pay at present over \$15 per ton for peanuts unthreshed, delivered at Milano. I will pay you the highest market price for the threshed peanuts and you can either call at the office of J. A. Touchstone in Milano for prices or at the Oil Mill in Cameron. R. L. Batte.

Statement of the Ownership, Management, Circulation, etc.,

Required by the Act of August 24, 1912, of The Milano Gazette, published weekly at Milano, Texas, for October 1st, 1916

Editor—C. H. Lister, Publisher—C. H. Lister. Address—Milano, Texas. Owners—C. H. Lister, Milano, Texas. Known bondholders, mortgagees, and other security holders, holding 1 per cent or more of total amount of bonds, mortgages, or other securities: None. C. H. Lister, Publisher.

Flour, good flour too, at Mrs. C. Hudson Coffey's store for \$1.85 and \$1.95. Also the cheapest priced shoes in town can be found there.

The Apostolic people are still conducting their meeting in our city with good attendance each night.

The E. C. Smith Drug Store ad in this issue is a challenge convincer that you can buy as cheap in Milano as anywhere else. Read the ad.

The Milano Threshing Company is daily expecting the arrival of a new seven horse power gasoline engine.

Before leaving Milano Judge J. D. Ruby gave us a dollar with which to keep his Gazette going to him at Somerville. And we'll keep the Judge and his family posted right on what the old home town is doing.

Rev. J. P. Sparks came in town Wednesday afternoon from Rockdale running a Ford car which he purchased there that day. This now gives Milano ten automobiles and several more citizens are contemplating the purchase of cars.

Cotton and Hogs

Mr. F. M. Hildebrandt of some few miles northeast of Milano, was in town Wednesday. Came by and left a dollar at the Gazette office for his subscription. Mr. Hildebrandt is another of our successful farmers who grew 15 cent cotton this year but he is a good diversifier also. Says he has been trying the hog raising industry and peanut growing during the past year or so and finds this worth while and quite profitable.

I HAVE THE THINGS THAT YOU NEED

So why not come buy them? You need groceries. I sell them reasonably. You get your money's worth here and GOOD Groceries too. And I make the prices right.

I have a coffee as good as you can get anywhere for 20c. I am selling it at 7 lbs. for **\$1**. You can't get coffee cheaper than this anywhere. Good coffee too.

For a change in meat diet there is nothing better than a can of salmon and I am making a special price on a good grade. The price for a can is only **10c**

I have a supply of stove pipe on which I will make the price right.

My school tablets are the largest in town for a nickel.

10 Bars of Hammer Soap for **25c**

J. C. BEARD

7 Bars of Lenox laundry Soap for **25c**. There never was a better soap made for washing clothes than Lenox and I am offering it cheap.

Sugar is a great household and staple food item and is selling high the world over. Sometimes you get from 10 to 12 pounds for a dollar. I give 14 lbs. for **\$1**

WATCHES AND JEWELRY

We have just received a large shipment of Elgin, Waltham, B. W. Raymond and other watches. Also a shipment of Watch Chains, Cuff Links and other Jewelry. I guarantee satisfaction with every purchase and will meet the price of any reliable catalogue house on anything in my line. Bring your catalogue with you and let me show you. Spend your money at home and it will enable us to have a better town, better farms, homes, schools, churches and roads.

E. C. SMITH DRUG STORE, The Nyal Store.

AN APPRECIATIVE READER

One of the greatest tributes of good will the Gazette has received since our return, came from that good soul and heart of our friend Mr. A. L. Graham of the Summit community last Saturday. On his way home that afternoon he stopped at the Gazette office and told us just what that kind heart of his and his family wished for us. Also said he never knew us till we had left and gone away a year ago, then he missed something lacking about the Gazette. The words he spoke to us will ring in our memory for time perpetuity. And to substantiate his appreciation of our return he left the sum of two dollars for the benefit of his subscription to the Gazette. That's the kind of people we have in this Milano country. Such people do not live anywhere else in this world. Milano only, is so blest.

County Tax Collector Bill Alex Bonds will make his first round of tax collecting at Milano on Friday of next week, October 20th. He will be found at the Milano Bank.

Cedar Creek News

As our editor is back home and asks his old correspondents to contribute once more to the paper, will give a few items from Cedar Creek.

Mr. R. E. Lee is erecting a new dwelling on his premises.

We are all proud of the good price we have been paid for cotton this season.

Mesdames Brown and Meadows were visiting at the home of W. R. Dennis Sunday afternoon.

Mrs. W. R. Dennis returned home Sunday from Gause, where she has been the guest of her daughter.

The farmers have just about finished gathering their crops and the majority of them are getting ready for the threshing of their peanuts, as that is to be the leading occupation at present.

Mr. and Mrs. Buck Hillin were guests at the home of Mr. Chas. Williams Tuesday and Wednesday of this week. They are enroute to Lajunta, Colorado, to make that place their future home.

PERSIMMONS GETTING RIPE

Reports from over the Milano country state that persimmons are getting ripe and that they are quite plentiful and of good size this year. And in accordance therewith opossums are seasoning themselves up in good fat fashion to match up with Milano's sweet potato crop. 'Possums have always been plentiful in the Milano country each year, and being known as the "persimmon eater" we know there will soon be some good eating that brings the cost down to a minimum compared to a beef roast or a country ham. This is spoken with all due apology to those who are in sympathy with the dog's opinion of eating 'possum.

Born, to Mr. and Mrs. Raymond Beard, of the Cedar Creek community, on Tuesday of last week, a charming little daughter.

SHIPPING SWEET POTATOES

Mr. G. W. Butts, one of Milano's successful truck growers, shipped out 40 bushels of his large sweet potatoes on Tuesday of this week to McGregor, Texas. Besides this shipment Mr. Butts has made some other sales of this year's crop of potatoes. He had an acreage of 25 acres and the potatoes are of wonderful size, some being the largest he has ever grown and he has grown some rare and fine specimens.

Our citizen Mr. J. F. Coffey came in the Gazette office one day this week and tempted us to take two dollars of his money to be placed to the good of his subscription to his home town paper. The Gazette has never had a more loyal or appreciative supporter than Mr. Coffey.

Believes In Cotton

Our gin manager, Mr. J. A. Touchstone, left a big looking dollar at our office this week for renewal subscription to the Gazette. He's another of Milano's big citizens, big in heart and big in civic and home town pride for old Milano. Mr. Touchstone has always been an advocate of the cotton industry for the Milano country and this year we have proof of his strong advocacy and sound judgement of it.

I. & G. N. TRAIN KILLS A COW

A train on the I. & G. N. killed a cow sometime during Tuesday night in the first cattle guard enclosure west of town. This enclosure has been left open where the railroad is extending the siding 2,000 feet farther, and the cow evidently discovered the good feeding ground thru the opening where the grading is being done. The cow was the property of Mr. A. J. Cook and was quite a valuable one. An east-bound train hit the cow, at least that is what friend Jim Baggett says, but how he knows this, is more than we can tell, but Jim knows all about these technical points and we accept his opinion of the east-bound train.

Mrs. J. D. Peeples went to Corpus Christi Monday to attend the annual grand chapter of the Eastern Star, the ladies' Maonic auxiliary.

INSTALL A GASOLINE TANK

The store of J. B. Newton & Sons this week installed a gasoline tank and dispenser of the latest type in the front of their store. This tank service is of the same pattern used so extensively by the automobile garages and service stations all over the country and to keep in line with the town's progressiveness this enterprising firm has installed this service for the convenience of Milano's increased gasoline demand.

Our Methodist pastor, Rev. J. W. Wardlow, states that there will be services at the Methodist Church next Sunday night, but no services will be held at the morning hour. Sunday School will open at the usual time. The public is cordially invited to attend the services.

Cotton Yard Figures

Up to the middle of this week the Peeples & Newton cotton yard has received and weighed 743 bales of cotton. In comparison to last year the receipts this year are considerably short by several hundred, and Cotton Weigher A. F. McGregor says the yard will hardly weigh a thousand bales this season. Last year the receipts reached to about 1,300 bales. Prices this week were quoted from 16.00 to 16 1/4 cents.

A Few More Renewals

Our druggist Mr. E. C. Smith gave us a subscription to the Gazette this week which he sends to his mother at Jacksonville.

Our merchant Mr. J. D. Peeples handed us an appreciative dollar this week for another year's subscription to the Gazette.

Mr. W. H. Dukes gave us another subscription this week for the Gazette which he sends to his daughter, Mrs. E. B. Lovick, at Witchita, Kas.

Mr. Ed Black of Milano route one, sent in a dollar by a good friend of the Gazette this week for another year's subscription to the Gazette. Thanks Mr. Black.

Our representative, Mr. C. M. Beard, stopped in at the Gazette office Saturday afternoon on his way home and left a dollar in our care for another year's subscription to his home town paper.

Mrs. S. A. Russell phoned us the other day to be sure to keep the Gazette coming to her. And we will. Mrs. Russell is another of our appreciative readers and we are glad to know the paper is appreciated.

RAIN IS NOW BADLY NEEDED

When, oh when, will it rain? That's the question everybody's interested in. The country is dry and dusty and the water holes are of likeness thereof. Some sweet potato crops still need a little rain and it would make us all feel better to see a good cool and refreshing rain come tumbling down. Some say since we failed to get rain on the full moon we'll have to wait another month. And still others say that the month of October never brings us any rain anyway, so there you are. When will it rain?

The ad of J. B. Newton & Sons shows you how they sell the necessities of life in Milano. Look it over. No need going away from Milano to trade when such prices are made.

Mrs. James Stewart, one of Milano's foremost good ladies to all good and public causes, left a dollar at the Gazette office Thursday for which the Gazette will keep coming to her. Mrs. Stewart is one of the Gazette's most appreciative readers and always was a friend of the paper.

Your Grocery Supplies

We have always kept our Grocery Department up to a high standard, always keeping the best, and we always give our customers their full money's worth. If you need the necessities of life we can surely supply you. And if you want to save every nickel you can, then we invite you to our store for anything you wish to save money on. We can certainly do this for you. Call around and let us convince you.

Married Last Sunday

Mr. Bob Luce and Miss Maude Nichols were married Sunday afternoon about 4 o'clock while seated in a buggy at the home of Rev. J. N. Gibson who read the sacred rites of matrimony. The couple will make their home in the Cedar Creek community on route three.

Stolen Dog Recovered

A passing "Weary Willie" nabbed Boozie Baggett's bulldog while he was nosing around town last Saturday. Some parties saw the man leaving town with the dog, but Boozie didn't get a chance to interfere the kidnapping till Sunday morning, when he went along with Mr. and Mrs. Coffey in their automobile. They overtook the man and the dog between Rogers and Temple and Boozie played the trick of waiting to buy the dog for \$5, then placed the canine in the car and told Mr. Man what was what. At last reports we are informed that Boozie and his dog are happy.

Oil Mill Crushing Milano Peanuts

The Cameron Oil Mill is now running full blast crushing peanuts. We are requested to say that all visitors to the oil mill at Cameron will be very welcome there and will be shown through the mill to see how Milano peanuts are handled.

Santa Claus In Milano

A real live Santa Claus will be found at the Smith Drug Store this Saturday. He promises something to every child who goes to see him and has a personal interview with the good old soul he is. Give the kiddies a chance to go around, for they will enjoy seeing old Santa.

Christmas Trees

There will be Christmas trees at both the Baptist and the Christian Churches Saturday night together with appropriate exercises and song services. Both churches extend invitations to the public to participate and attend the Yule-tide festivity at each church. The exercises are scheduled to begin at 7:30 o'clock.

Hogs Bring Big Money

Mr. R. L. Batte of Cameron, also an interested promoter of the Milano country, shipped a car of red hogs recently that sold for more than one thousand dollars. He still has about 100 head that he is feeding on slop made of cotton seed meal and hulls together with some peanut meal and ground peanut hay, which he expects to market early in the new year. Mr. Batte is a farmer, a real practical farmer, and he believes in raising good hogs, cattle and mules.

Mr. J. W. Ford of route 1, near Arion, has been making several visits to Rogers lately to the bedside of his daughter there who has been seriously ill for some length of time. He was up there this week and reports her somewhat slightly better.

There is nothing that would make a more appreciative Christmas present for a relative or friend of yours than sending them the Gazette for a year. Every week when they receive the paper they will think of it as the Christmas gift from you.

The Methodist Church

Extends invitation to the children and grown people to attend Sunday School at the Methodist Church next Sunday morning at 10 o'clock. We will certainly welcome you and make you feel glad that you came.

We know we can interest you and will look for your presence.

Prayer an answer will obtain,
Though the Lord a while delay;
None shall seek his name in vain,
None be empty sent away.

Classes open promptly at 10 o'clock. Come a few minutes earlier if you can. Come where lessons and songs are always good. We will look for you.

SAVES TRAVELING

"I don't believe in banks," says old G. Rouch, "they don't do me no good." Perhaps not, but we would like to see him run down to Washington to get his pension check cashed or to New York or San Francisco when he is lucky enough to receive a check on one of those places. Maybe he'll sell a horse to a man in a neighboring town and receive a check in payment. Did you ever stop to think that if it were not for this bank you would have to be on the road half the time going after money or taking money some place? We make no charge for handling your accounts.

Some Freight Depot

Milano's new freight depot is some pumpkin to what it was in the heretofore. It's long and spacious and talk about a platform, they've got one long enough for most any emergency. Some freight yard and track system too, looks somewhat like the union freight yards at Chicago.

We Need Your Help

The Gazette has several hundred subscribers who are fearfully behind with their subscriptions to the paper and as we can't keep the paper going unless this money comes in we can only trust to your gratefulness to call around and make a reimbursement. Some have even fallen in arrears so far that we must obey the postal laws and quit sending the paper. A dollar a year isn't much money, but it's a great deal to us when several hundred owe that dollar and the heavy monthly cost of print paper bills are constantly staring us in the face. We need your assistance greatly.

Will Grow a Little of Everything

Mr. J. J. Morgan of route 3, says he's going to diversify more the coming year than ever before. Says he's even going to try the tomato growing proposition again, likewise plant a little cotton and by all means plenty of good feed stuff.

A CHRISTMAS PRESENT

When looking around for your Christmas presents we invite you to pay our store a visit. We have Toys, Dolls, Drums, Rocking Horses, Doll Furniture, Games, Fancy Handkerchiefs, Neckwear, Purses, Bags, Hosiery, Stationery, Toilet water, Knives, Silverware, House Slippers and semicoble gifts of every kind. Parent-Teachers' Association Report

The following is the final report submitted by the treasurer of the Parent-Teachers' Association to the finance committee on Friday, December 15th:

Total membership	24
3 members paid dues for 8 months	
3 members paid dues for 3 months	
2 members paid dues for 5 months	
8 members paid dues for 2 months	
3 members paid dues for 1 month	
5 members have not paid any dues	
Total amount of dues collected	\$6.80
Subscriptions collected	20.00
Tuition paid for children	4.50
Money made at Carnival	42.01
Total	\$73.11

The expenditure has consisted in the paying for wood, repairs, ice, hauling of water, procuring implements for repairing school road and other incidentals of the school, amounting to \$65.94. This leaves a total of \$7.17 in the treasury.

The teachers and patrons are making a heroic effort to prolong the school term. While the work of the Parent-Teachers' Association has consisted so far in assisting to give material aid to the school, still it was not organized primarily for this purpose. A prominent writer remarks "The public school of today does not rest content with dealing with the child in the class room—it tries to reach him through his home, and for this purpose it has organized Parent-Teachers' Associations. At these meetings the parents and teachers talk over the children and discuss the best methods for bringing them up. The large cities have found that if they would have healthy minded, wholesome bodied citizens they must see that the minds and bodies of their little ones are properly cared for, that the children are properly fed, clothed, properly housed and properly taught, or else the well being of the community will suffer."

Respectfully submitted,

Mrs. J. Q. Newton,

President Parent-Teachers' Ass'n.

Messrs. Antone and Joe Kohut of route 3 were in town Wednesday. Their brother Lonie, came in that afternoon from Stamford and the rest of the boys will all be home to have a big Christmas time.

Single and Double Trees are Stolen

Doctor Mullins reports that somebody's been "a taking things" out on his farm north of town. The party afflicted with the kleptomania got a set or two of steel single trees and a double tree which the Doctor left in his field thinking all his neighbors good and honest. The Doctor bought some more, but he

says he knows who the fellow is that got the others and he may call over and get them, unless the party wants to save himself from being humiliated by being sensible enough to bring those "trees" back some night. And he'd better not hide or bury 'em either, for if he does the Doctor says he'll have a Magnetic Dip Needle shipped to Milano and show the fellow how to find those single and double trees a sight quicker than when he swiped 'em.

Below will be found 12 laws which the Milano Boy Scouts must learn to live up to. These 12 paragraphs are known as "The Scout Law," and every Scout who lives by this law will make a better boy of himself.

1—A Scout is Trustworthy.

A Scout's honor is to be trusted. If he were to violate his honor by telling a lie, or by cheating, or by not doing exactly a given task, when trusted on his honor, he may be directed to hand over his Scout badge.

2—A Scout is Loyal.

He is loyal to all whom loyalty is due, his Scout leader, his home, and parents and country.

3—A Scout is Helpful.

He must be prepared at any time to save life, help injured persons and share the home duties. He must do at least one good turn to somebody every day.

4—A Scout is Friendly.

He is a friend to all and a brother to every other Scout.

5—A Scout is Courteous.

He is polite to all, especially to women, children, old people, and the weak and helpless. He must not take pay for being helpful or courteous.

6—A Scout is Kind.

He is a friend to animals; he will not kill nor hurt any living creature needlessly, but will strive to save and protect all harmless life.

7—A Scout is Obedient.

He obeys his parents, Scout Master, patrol leader, and all other duly constituted authorities.

8—A Scout is Cheerful.

He smiles whenever he can; his obedience to orders is prompt and cheerful; he never shirks nor grumbles at hardships.

9—A Scout is Thrifty.

He does not wantonly destroy property; he works faithfully, wastes nothing, and makes the best use of his opportunities. He saves his money so that he may pay his own way, be generous to those in need, and helpful to worthy objects. He may work for pay but must not receive tips for courtesies or good turns.

10—A Scout is Brave.

He has the courage to face danger in spite of fear and has to stand up for the right against the coaxings of friends or the jeers or threats of enemies, and defeat does not down him.

11—A Scout is Clean.

He keeps clean in body and thought, stands for clean speech, clean sport, clean habits and travels with a clean crowd.

12—A Scout is Reverent.

He is reverent toward God; he is faithful in his religious duties, and respects the conviction of others in matters of custom and religion.

Man Killed by Train Near Chriesman

A man by the name of Port Wilkerson of the Davidson Creek community, met instant death last Friday night when he alighted from a moving freight train at Chriesman. He was a man 61 years of age and rode the freight train from Caldwell and in alighting he ran against a switch post, meeting instant death. Deceased leaves a wife and several children and was well known in Milano. The bereavement of the family must be awful and they have the sympathy of all their friends.

Prayer meeting every Wednesday night at the Baptist Church. The public is given a cordial invitation to attend. We welcome you.

Agricultural Specialists Will Be In Milano This Friday Morning

On this Friday morning, January 19th, a number of agricultural specialists will be in Milano and remain here until noon for the purpose of speaking to the Milano farmers and their families.

This itinerary is being negotiated by the Texas Bankers Association who are trying to give the farmers some idea of what next year has in store for them and what plans they should go by for better success.

The visitors coming to Milano will be ready to tell the farmers anything they might wish to know concerning the cotton crop of next year and also concerning the various diversification crops. They will be here for your interest and won't hesitate to answer your questions.

The meeting or gathering of the farmers and their families will in all probability be held at the W. O. W. hall. In each town visited, a local banker is made a representative of the itinerary, who makes arrangements of co-operation of the farmers and business men to help make this affair a success. Mr. W. O. Newton has been designated by the Dallas headquarters as local representative, and any further information can be obtained from him. Remember the date, this Friday morning. Costs you nothing, only a trip to town. Bring the family along.

Mr. E. C. Smith shipped out a big car of sweet potatoes one day the past week. The car contained 450 bushels and was shipped to Temple.

Mr. Anton Kohut leaves this week for Cyclone, Bell county, where he will enter the mercantile business with his brother, Mr. John Kohut, recently of Denison, Texas.

Mrs. S. A. Russell wishes to thank her friends for the kindness rendered her during her recent illness and takes this method of doing so.

Mr. C. H. Hall of Smithwick, Burnett County, is a new citizen of the Milano country. He is with Mr. A. J. Gibson and says he believes he'll try the tomato industry this year.

A Store Full of Bargains in Good Serviceable Merchandise

The above line tells the whole story. It is just what I have to offer—good merchandise at bargain prices. "Awaiting Opportunities" in dry goods and notions are here for every member of the family. My Grocery and other departments are supplied with reasonably priced necessities of life. Call around and see for yourself.

\$51.25 Premium Money For First Two Crates of Milano Tomatoes

We, the undersigned citizens of Milano and adjacent territory hereby subscribe and pledge the amounts set opposite our names toward offering a first and second prize that will be worth while to the growers who market the first and second crates of tomatoes in Milano during the spring of 1917. Proper restrictions will be placed around the premiums to assure a square, honest and equal opportunity to every grower, such as the following:

The tomatoes must be grown in the Milano territory, must be of a marketable variety, must be of a fancy pack containing not more than 61 tomatoes, everyone of which must show a natural pink and be free from any catface or worm bluish inside or out. First prize is to be 50 per cent of the premium money, second prize 40 per cent of the amount subscribed. The winner of the first prize can not take the second. A committee will be selected to draw the specifications or restrictions and to award the premiums. Subscriptions are payable at any time but not later than April 15th. Leave the money at the Milano Bank. Give a little boost and help the tomato industry.

What High Price of Paper is Doing

It is said upon most trustworthy authority that thirteen thousand printing plants in the United States have either suspended, or gone into voluntary bankruptcy, since the price of printing material and supplies began their rapid advances a little more than a year ago. Of this number of establishments it is stated that nearly ten thousand were newspaper plants, some of which were very large and located in large cities; the remainder were job printing plants located in many states.

The Parent-Teachers' Association meets every first Friday in the month. All interested in the Milano school are invited to attend.

THE GAZETTE'S CIRCULATION

has been on the increase most wonderfully the past three months and with each issue it keeps on increasing amazingly.

It requires circulation to make advertising profitable, and this is one particular point we have always looked after—to produce results for our advertisers.

An ad placed in the Gazette reaches almost a thousand subscribers, and taking into consideration the fact that five people on an average read every copy of a newspaper it will be seen that four or five thousand people read the Gazette every week. This is no exaggeration, but plain facts founded by newspaperdom.

Some Local News Notes

Mrs. Arthur Clements returned to her home in Galveston Thursday of this week.

Miss Annie Lee Peoples, who is attending school in Cameron, was a guest of home-folks Sunday.

Mrs. J. M. Cave was visiting her daughter, Mrs. Dan Lanford, at Dallas the past week or two.

Mr. B. F. Shaffner and wife of Temple, were the guests of Mr. and Mrs. G. W. Shaffner the past week.

Prof. E. G. Campbell of the A. & M. College, will hold services at the Christian Church every second Sunday in the month.

Mr. Milton J. Pierce gave us another subscription to the Gazette the past week which goes to Mrs. Alma Ragan at Rotan, Texas.

Dudley Lee, returned home Saturday from Temple, where they had been visiting friends and relatives.

Mr. and Mrs. Standard of Valley Mills, parents of Mr. and Mrs. Ed Standard, are now coming to Milano and will make their home here.

Mrs. Roy Clements returned home last Friday accompanied by her father, Mr. Bassett, from Mineral Wells, where he had been for the benefit of his health.

Mr. Parker Kellum of Valley Mills, a live stock buyer, was associating with our citizen Mr. Horace White this week in the interest of buying some live stock.

This next Sunday, January 21st, is the regular service day at the Methodist Church. Services will be conducted by the pastor, Rev. J. W. Wardlaw, at both the morning and evening hours.

Constable W. E. Peel spent a day or so at Humble Texas, the guest of his daughter, Mrs. Hartice. Mr. Peel says aside from the enormous oil industry there he also saw the largest saw mill there he has ever seen.

Representative C. M. Beard came up from Austin Saturday and spent Sunday and part of Monday at home. Mr. Beard says he will come up every other Saturday hereafter as long as the Legislature is in session. He returned to Austin Monday.

Mrs. J. B. Newton gave two subscriptions to the Gazette this week, one of which goes to Mrs. Emma Burke, at Burke, Texas, formerly of Milano, and the other goes to her daughter, Miss Clyde Newton at Dilley, Texas.

SOME FACTS ABOUT MILANO. Is the greatest railroad center in Milam County. The little city of Milano has fully 600 enlightened people. It is one of the best truck growing countries in Central Texas. A good telephone system all over the town and the country. Sixteen passenger trains stop at Milano every twenty-four hours. Milano has a \$7,000 brick college structure for the school children. Has a moral atmosphere that is bracing and exhilarating to live in. Is a place in which you can do good, be good and live in perpetual peace. The town is blessed with four churches of different denominations. Is a good place to establish your home, rear your family and school your children for an education. The little city has Masonic, Odd Fellow, W. O. W. and F. E. and C. U. fraternities. All established for years.

I make these lines a study for the benefit of my customers. I strive to give them the best goods for the least amount of money.

Cold Weather Brings A Good Wet Season

Scientists tell us that our winters are getting milder every year, but to look at the matter during this week we find it hard to believe the opinion of those dealing in science. The weather this week has been cold, bad, raw and most anything else you may wish to call it, and as a consequence much has suffered, including stock, property, telephone wires and such other things. It is a true type of "wet January" weather and the wetness is a blessing and the freeze in the ground has done away with innumerable insects.

The Gazette has several hundred subscribers who are fearfully behind with their subscriptions to the paper and as we can't keep the paper going unless this money comes in we can only trust to your gratefulness to call around and make a reimbursement. Some have even fallen in arrears so far that we must obey the postal laws and quit sending the paper. A dollar a year isn't much money, but it's a great deal to us when several hundred owe that dollar and the heavy monthly cost of print paper bills are constantly staring us in the face. We need your assistance greatly.

Mrs. S. A. Russell, who has been quite ill for some time, is reported to be improving this week.

The Route of Safety In speaking of better farming conditions for the Milano country, we find our banker Mr. W. O. Newton, favors the diversification farming plan by the live stock route. Mr. Newton himself is a practical live stock raiser and it is as natural for him to make it a success as it is for him to be successful in commercial business matters. Everybody has a hobby, or at least ought to, and stock raising seems to be a hobby of Mr. Newton, and it is one that would be a most splendid hobby for every one who could devote a little of their time to that good investment. He says he believes every member of a farmer's family should have a pig or two, or a few sheep and learn the good returns such an investment is bound to bring them.

Mrs. E. R. Cates returned recently from a week's visit to Rogers, where she was the guest of her sister and her brother, Mrs. N. Ward and Mr. P. E. Bleeker, and also met many of her school girl friends. Her brother-in-law is thinking of moving down to the Milano country, believing they would like Milano better than Bell County.

Milano Local No. 1642 of the Farmers Union wishes to thank the Ladies of the Liberty local and of the Liberty community for the fine dinner and supper that was prepared for the quarterly county meeting there on January 4th. Their efforts and assistance are truly appreciated by members of the Milano Local.

Train Kills Mexican

A Mexican belonging to the I. & G. N. extra section crew was killed by an east bound I. & G. N. passenger train Sunday afternoon just below the depot. He attempted to cross in front of the train and seeing another train approaching on the opposite track he retraced his steps, but too late to save himself from being struck by it. He was buried Monday in the Mexican cemetery at Big Lump.

Preparations for truck farming are now under way all over the Milano country. Hot beds are beginning to show up and the time for sowing tomato seed is now at hand. Some years ago these activities began just after Christmas, but experience has proven that the middle of January or a little later is ample time to sow tomato seed in the hot beds. Judging from the spirit of the growers, the truck industry will be considerably increased this year than last.

Essay On An Editor

An Editor is a millionaire without money, a congressman without a job, a king without a throne. He constructs without a hammer or saw, builds a railroad without spikes or rails, and farms without a plow. He runs a butcher shop in the journalistic world and deals out brains cheap for cash or credit. He loves those who advertise as he does a brother. The editor is a lawyer, teacher and a preacher and he sends out truth to souls and is condemned himself. He heals the wounded, cares for the dying and rescues the perishing and starves himself when a ham sandwich would jerk him from the jaws of death.—Exchange.

Mr. A. C. Hess, Milano's largest plant grower and shipper, received an order the other day for some cabbage plants from a party in Beckville, Texas, asking Mr. Hess to send some more cabbage plants like the ones bought from him a year ago. Said seven cabbages raised from the plants weighed 91 and a half pounds, or a fraction over 13 pounds each. Mr. Hess has built up a plant business from a number of states and his business is increasing constantly with a reputation that reminds the buyer to buy from him again during the following year.

The Farmers Loan Association will hold a meeting on Saturday afternoon, January 20th.

Says Milano is a Third Class Town

We heard Captain Bedell say the other day that Milano always was a "third class town", meaning that there are three girls to every boy and three old maids to one bachelor. Perhaps that solves the problem why Milano has so many "young ladies" who have been "waiting" so patiently and for so long. But come to a second thought, we find that bachelors are also plentiful. There's something radically wrong, and as it's got us busted, we leave the remedy for Capt. Bedell to divulge for the welfare of Milano.

GLASSES FITTED

Hawkes EXPERT Optician

Will be at the J. D. Peeples Store Tuesday, January 23rd.

If you are interested in the preservation of your eyes and in obtaining a first class pair of glasses at a moderate price, this announcement is of unusual interest to you.

We have arranged this visit with the A. K. Hawkes Company, with the distinct understanding that patrons will have the same careful, expert examination of the eyes and will be charged the same standard, moderate prices as in the Atlanta office of the Company. The firm of "Hawkes" is a Southern Company that needs no introduction. Established 1887, and has been supplying the public with satisfactory glasses for nearly 50 years. They are deserving of the utmost confidence, and we, personally, as their local agent, stand back of their goods and work. With their strong financial standing and their reputation for integrity and reliability, you are guaranteed the best possible service. We refer you to any bank or to the thousands of satisfied customers wearing Hawkes glasses.

You are invited to come in and see the NEW TORIC LENSES, the kind that curve to the shape of the eyes and permit clear vision entirely to the edges of the lens. This modern form of lens is rapidly replacing the old style flat lenses, and we want an opportunity to demonstrate them to you.

We want you to know about KRYPTOKS—the wonderful Bifocals—giving both far and near vision in one lens without the unsightly dividing line—the master-piece of the lens-maker's art. Less than the price of two pair and far more convenient.

We urge our customers and the public in general to call during the Optician's visit and have a pair of the famous Hawkes Glasses fitted, or at least to have a test made to determine if you need glasses. Nor charge for careful examination.

Please remember, a uniform standard and moderate price for each form of lens and style of glass, and that no advance will be made over regular prices on account of this special visit.

Our Optician Will Remain Only One Day. Don't Forget the Date.

News Of The Stores

J. B. Newton & Sons have received in considerable shipments of new shoes and the management is calling your attention to them in their ad in this issue.

A laundry basket leaves the store of Mrs. C. Hudson Coffee every Tuesday at noon. Comes back the same week. Laundry left at the store on any day of the week will receive attention for the next basket.

The Turner Lumber Company received a car of cold frame lumber the past week and Manager McGregor says he is prepared to supply the demand of our truck growers. He is pricing the boarding at \$2.50 and the 1x2 at \$3.00 per 100 feet.

The J. C. Beard store still keeps on receiving more new merchandise every few days. This store is gaining a reputation for "having anything you might call for," and the store contains more goods than looks possible could ever be stacked within the spacious building.

The Smith Drug Store has secured the agency for the recently famed patent medicine known as "Tanlac", which is now one of the most widely advertised medicinal preparations ever brought before the public. Read the ad of this store in this issue and see what Tanlac is good for.

The big sale of dry goods at the J. D. Peeples store is still in progress, and many people have taken advantage of this opportunity to buy some good merchandise at very low prices. Some of the goods are being sold at amazingly low prices and the merchandise of this store has always been of the best quality and new and up-to-date stock.

If you are needing some stock or poultry powders, you will find just what you need at Mrs. C. Hudson Coffey's store at a special price.

On next Tuesday, January 23rd, the Hawkes eye glass specialist will be in Milano with headquarters at the J. D. Peeples store. Many of our people have learned to take advantage of this specialist's annual visit to have their eyes properly fitted and his visit here Tuesday will be another good chance to have your eyes given the attention of an expert who knows his business.

We notice the Newton Store has a huge stack of cold frame sheeting, enough for most any emergency that might confront this country at any sudden notion.

The First State Bank mailed out some five hundred letters the first of this week to farmers all over the Milano and adjoining country, informing them about the agricultural specialists that will be here this Friday morning and inviting them to come to town during the morning. This was done at considerable expense and it is only to be hoped that the farmers will find it convenient to be present. Surely nothing but extremely bad weather could keep them away, and even then it would be worth while to make the trip.

WHY I BUY AT HOME.

Because I want to get what I buy when I pay for it.

Because the man I buy from stands back of the goods.

Because I believe in transacting business with my friends.

Because I sell what I produce here at home and here I should buy.

Because the man I buy from pays his part of the town, county and state taxes.

Because every dollar I spend at home stays at home and works for the community in which I live.

Because the man I buy from helps support my schools, my church, my lodge and my home.

Because the community which is good enough for me to live in is good enough for me to buy in.

Because when ill luck, misfortune or bereavement comes, the man I buy from at home is here with his kindly greeting, his words of cheer, and his pocketbook. If need be.

Gone To Kentucky

Mrs. Fannie Hudson left Wednesday afternoon for Central City, Kentucky, where she will be for some time. She had her weekly Gazette to follow her to keep her posted on the news of the old home town. We always regret to see any of our citizens leave for any extended length of absence, but Mrs. Hudson carries the wishes of all her Milano friends that she may enjoy her sojourn to the fullest extent.

Talking About Milano's Progressiveness

The Southern Shipper, a truck and poultry paper published at Houston, reproduced from the Gazette in its last week's issue the tomato premium money article which recently appeared in the Gazette. It reproduced the article in full, including the names of each person who pledged the amount opposite their names. In commenting upon the article, the Shipper says this:

"It is a matter of congratulation to any set of business men in any

town or locality if they encourage the farmers to grow better and more crops. The business men of Milano, Texas, deserve credit and the thanks of every producer and consumer. "He that makes two blades of grass grow where only one grew before is a benefactor of mankind." Success to your city and enterprise. Let us know when the tomatoes are ready for shipment. It is easy to find markets for good tomatoes every month of the year."

Looking westward over the western portion of Milano.

Mr. A. T. Stovall of Summit, renewed his Gazette subscription the past week to the extent of \$2.

Another shipment of seed potatoes and garden seeds arrived this week at the Newton store.

IN REAL LIFE

It seldom happens in real life that the "tail wags the dog" or the people "get the cart before the horse."

They are mere examples of things being done in the wrong way. It is said there's a wrong way and a right way to do everything.

In taking care of your money the right way is to deposit it in a good bank like ours, where it will be perfectly safe, yet subject to your check whenever needed. No need to tell about the wrong ways to handle your money. It's the right way that needs to be known and followed.

Cabbage, onions, lettuce and other truck was damaged in the great truck regions of South Texas by the freeze of last week to the extent of 60 or 70 per cent, according to reports sent out. That means more demand for Milano truck when it comes on the market. It appears that this coming spring will certainly be a good season to market truck.

The sale at the Peoples store has certainly made things move. But there are still some splendid bargains left. It's mighty near the last chance to get some bargains.

There are three complete stories in this issue of the Gazette. We publish three good ones each week.

On page eight of this issue of the Gazette appears last week's proceedings of the Legislature, both the Senate and House doings. For several weeks the Gazette has been publishing this matter for those of our readers who do not keep abreast of it through the daily papers.

Mr. G. W. Butts was among the plant growers who lost considerable plants by the freeze of last week. His cabbage plants were six weeks old, just about ready to ship, but failing to cover some of his beds the cold nipped a good per cent of them, and though his loss is heavy, he says he will fill his orders nevertheless.

Sent It to the Gazette

The Gazette is in receipt of a letter from Miss Clyde Newton at Dilley, enclosing payment for a small job of printing we turned out for the school library department. Miss Clyde says she tried to get the printing done in her town, but after having had to wait for some several weeks and then not get it, she sent it to the Gazette in the old home town where it was gotten out as promptly as rush could make it.

PRESIDENT VETOED IMMIGRATION BILL

Literacy Test Ascribed As Cause—In a Message President Explains Action.

Washington—President Wilson Monday vetoed the immigration bill passed recently by congress because of its literacy test provisions. It was the second time the president had vetoed an immigration bill because of the literacy test and for the same reason similar measures were given vetoes by Presidents Taft and Cleveland.

The president's veto message to the house, in which the bill originated, follows:

"I very much regret to return this bill without my signature.

"In most of the provisions of the bill I should be very glad to concur, but I can not rid myself of the conviction that the literacy test constitutes a radical change in the policy of the nation which is not justified in principle. It is not a test of character, of quality or of personal fitness, but would operate in most cases merely as a penalty for lack of opportunity in the country from which the alien seeking admission came. The opportunity to gain an education is in many cases one of the chief opportunities sought by the immigrant in coming to the United States, and our experience in the past has not been that the illiterate immigrant is as such an undesirable immigrant. Tests of quality and of purpose can not be objected to on principle, but tests of opportunity surely may be.

"Moreover, even if this test might be equitably insisted on, one of the exceptions proposed to its application involves a provision which might lead to very delicate and hazardous diplomatic situations.

"The bill exempts from the operation of the literacy test 'all aliens who shall prove to the satisfaction of the proper immigration officer or the secretary of labor that they are seeking admission to the United States to avoid religious persecution in the country of their last permanent residence, whether such persecution be evidenced by overt acts or by laws or governmental regulations that discriminate against the alien or the race to which he belongs because of his religious faith.'

"Such provision, so applied and administered, would oblige the officer concerned, in effect, to pass judgment upon the laws and practices of a foreign government and declare that they did or did not constitute religious persecution. This would be, to say the least, the most invidious function for any administrative officer of this government to perform, and it is not only possible but probable that very serious questions of international justice and comity would arise between this government and the government or governments thus officially condemned should its exercise be adopted.

"I dare say that these consequences were not in the mind of the proponents of this provision, but the provision separately and in itself renders it unwise for me to give my assent to this legislation in the present form."

Universal Service Advocated.

Washington.—Emphatic approval of a broad scheme of national defense was given unanimously Saturday by the Congress of Constructive Patriotism at the closing business session of its meeting under the auspices of the National Security League. In a statement of principles, the congress declared for universal military training, for restoration of the navy to second place in the Atlantic, and first place in the Pacific; for development of American women power; for a nationwide campaign for patriotism through education, and for effective Americanization efforts to destroy dual citizenship.

DANGEROUS CALOMEL IS SELDOM SOLD NOW

Calomel Salivates! It Makes You Sick and You Lose a Day's Work—Dodson's Liver Tone Acts Better Than Calomel and Is Harmless for Men, Women, Children—Read Guarantee!

Every druggist here, yes! your druggist, and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it while Dodson's Liver Tone is safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large family-sized bottle costs only 50 cents and if you find it doesn't take the place of dangerous, salivating calomel you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no sick headache, biliousness, ague,

sour stomach or clogged bowels. Dodson's Liver Tone doesn't gripe or cause inconvenience all next day like calomel.

Take a dose of calomel tonight and tomorrow you will feel sick, weak and nauseated. Don't lose a day's work!

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up with your head clear, your liver active, bowels clean, breath sweet and stomach regulated. You will feel cheerful and full of vigor and ready for a hard day's work.

You can eat anything afterwards without risk of salivating yourself or your children.

Get a bottle of Dodson's Liver Tone and try it on my guarantee. You'll never again put a dose of nasty, dangerous calomel into your stomach. Adv.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Why Rheumatism Comes With Cold Weather!

BY VALENTINE MOTT PIERCE, M. D.

A close connection exists between these two—cold weather and rheumatism. Prof. Alex. Haig, of London, has the most followers in the medical profession in the belief that the presence in the system of uric acid, or its salts in excess, is the real cause of rheumatism. Everyone has recognized the difference in the appearance of their water as soon as it gets cold; there is often a copious sediment of brickdust.

Several causes may lead up to an accumulation of uric acid in the system, which, in turn, causes rheumatism or gout, or creaky joints, or swollen fingers, or painful joints. For one reason the skin does not throw off the uric acid, by profuse sweating, as in the hot weather, and the kidneys are unable to take care of the double burden. Another reason

is that people do not drink as much water in cold weather as in summer, which helps to flush the kidneys. Again, they eat more meat in cold weather, and some people are so susceptible that they soon develop rheumatism after eating meat.

WHAT IS LAX-FOS

LAX-FOS is an Improved Cascara A DIGESTIVE LAXATIVE—Pleasant to take. In LAX-FOS the Cascara is improved by addition of certain harmless chemicals which increase the efficiency of the Cascara, making it better than ordinary Cascara. LAX-FOS aids digestion; pleasant to take; does not gripe or disturb stomach. Adapted to children and adults. Just try a bottle for constipation or indigestion. 50c.

At all such times persons should drink copiously of hot water, say, a pint morning and night, and take Anurio three or four times a day. This Anurio comes in tablet form and can be had at almost any drug store. It dissolves the uric acid in the system and carries it outward. I would advise everyone to take Anurio occasionally, and continue for three or four weeks, and in that way avoid rheumatism, gout, and many of the painful disorders due to uric acid. —Adv.

Margaret's Tramp

By JOHN ELKINS

(Copyright, 1917, by W. G. Chapman.)

"My goodness! Margaret! When will you ever stop giving money to tramps?"

Mrs. Tyson's tone was not only remonstrance, it savored of exasperation.

"But, mother," temporized the girl, "it was only a nickel."

"Yes, but when I'm trying to save five cents on a pair of stockings, it does seem as though you might think of me instead of throwing out money to every beggar you meet. But you're just like your father. If ever you get down to New York where you are so crazy to go, you'll be held up by tramps on every block, and the first thing you know you won't have money enough to buy a meal."

Margaret sighed a bit resignedly. There was no use trying to stem the tide of her mother's wrath till it stopped. Presently she said:

"It isn't New York so much—it is what it offers. I can study art three evenings, and earn my living during the day—that's what I mean to do."

"Well not with my consent. Here you are making about as much as any girl in town, in a good steady position, and you are not satisfied."

"No, I'm not," answered Margaret. "I'm getting nine dollars a week, and—"

"And you wouldn't get that as a typist in New York, and you'd have to pay out every cent for your board."

"Yes, but you're going with me, and keep the little home down there," smiled Margaret.

"No," persisted the other firmly. "I've seen your father starve painting pictures, and watched him die of disappointment. Up not going through it again."

There seemed to be something final in these last words, and the girl felt it would be useless to urge the matter any further. She could not leave her mother, as she was her sole support. But she could not give up her dream. Some time it must come true. After a while she said: "But all artists don't starve. There's your cousin, Alton Faber, they say he's rich, may be he would help me to—"

"No, he wouldn't," snapped Mrs. Tyson. "Why didn't he help your father? Cousins aren't any good."

So Margaret said no more. She went faithfully to her daily grind, and spent her spare time sketching everything she saw, without instruction of any kind.

One day after she had returned from her work a man came to the door asking for something to eat. He was an elderly man, clean and respectable looking, and Margaret's sympathy was aroused.

"I'm sorry," she said. "I haven't any change, but I can give you some bread or something."

He thanked her, and glanced around the kitchen of the little home, as he stood at the open door.

"May I sit down a minute?" he asked. "I am very tired."

"Why, yes," said Margaret, motioning to a chair. Her mother was not home, and she even dared to make a hot cup of tea, and set out a plain but dainty little lunch for the man.

"I'm not used to begging," he said, "but I had my pocket picked at the station. I have come quite a distance on the train, and I must walk quite a long way to reach a friend."

His voice and manner were those of a gentleman, and Margaret looked

wonderingly at him. She saw he had stopped eating, and was gazing at a little charcoal sketch she had placed up on the wall.

"Who did that?" he asked. Margaret admitted that she had. It was a study of her mother in the act of rolling out pie crust.

"Pretty good 'drawing,' he observed. "But that right arm is a trifle out."

"Oh then you know—"

"A little," he broke in dryly.

Then Margaret told him how she had never had any instruction, how much she wanted it, and somehow she found herself growing confidential about the dear dream of her life to this entire stranger. She asked him if he knew of Alton Faber. Oh, yes, he knew of him, and his pictures were pretty good. She told him Mr. Faber was a second cousin. He did not seem to show any great interest in the disclosure, but gave his attention to his cup of tea. As he rose to go he thanked his entertainer courteously, and the next moment was gone.

Mrs. Tyson saw the stranger as he went out.

"Who was that?" she asked. "I only saw his back."

Margaret explained.

"Well if that isn't the limit!" cried her irate parent. "Entertaining tramps in the house!"

"But, mother, he wasn't a tramp!"

"Oh that was a nice little story! They all have one."

Margaret took her scolding quietly. Just to have had one take an interest in her little sketch, to look at it as though he knew, and to tell her where it was wrong was something worth all the trouble and nagging it entailed.

About two weeks after this Margaret received a letter bearing the New York postmark. It was from Alton Faber saying that if she would come

"Who Did That?" He Asked.

and, see him, bringing some of her sketches, he might be able to help her to study. A check for the railroad fare to New York and back was inclosed.

Mrs. Tyson nearly collapsed in her astonishment.

"For heaven's sake!" she gasped, "how did he know anything about you?"

Then Margaret confessed that over three weeks ago she had written to Alton Faber telling him of her ambition, and asking his advice.

"Well you just better send that money back," advised her mother. "You'll lose two or three days, and it won't amount to anything."

But Margaret was determined to go, and mentioned that the man had said Faber's pictures were good.

"Oh!" cried Mrs. Tyson. "I see it all! You talked to that man about going to New York, and this is just one of those awful plots to lure you down there to your ruin. I should think you had heard enough about this white slave business not to fall into this snare. How do you know this letter is from Alton Faber. You wouldn't know him if you saw him."

Margaret had to admit there was

some groundwork for her mother's suspicions, and her heart sank. But she did not send the check back, and at last got her mother to consent to go with her.

Mrs. Tyson at once recognized her relative in his spacious studio, but Margaret stood speechless with amazement. She saw before her the 'tramp' she had entertained in her kitchen.

"You see," he explained, "I hate killing anybody's hopes—least of all poor Ned's daughter. I didn't mean to bring you down here unless I knew, so I resorted to that little ruse. I hope I'm forgiven."

Margaret's eyes with the tears trembling on the lashes were an eloquent answer.

"I want you both to come in that big house, there is nothing but a caretaker in it now, and Margaret can study with me."

So Margaret's dream came true.

GLOUCESTER MEN FAMED

Sailors From the Ancient New England Port Are Known on Many Seas.

"Anyone can go fishin', but it takes a man to go on a Gloucester schooner," is a widely known saying among the fishermen who have taken vessels and men from that far famed port to nearly all parts of the world. In fact the fame of Gloucester's chief industry is so great that the very name is synonymous with fish.

Upwards of five thousand men, to be conservative, out of the entire population of Gloucester, estimated at 25,000, are actively engaged in fishing work.

The old-time Yankee fishermen have been largely succeeded now by other nationalities and the Boston fleet is largely manned by the Galway Irish, who have settled in Boston and South Boston. The Azorian Portuguese came here along with thousands of other immigrants and settled in Provincetown, and today the fleet from that port is principally manned and owned by Portuguese. Several Scandinavians are among the crews of vessels from Gloucester, Boston and Provincetown, and the Nova Scotia and Newfoundland natives man many Gloucester craft.

For picturesqueness, however, we look to the Italians. Years ago a few Sicilians came here, and remembering their efforts in the Mediterranean as fishermen, went to work in dories with a "leg-o-mutton" sail, and dressed in gaudy colors and high boots. Finally, one of them, more enterprising than the rest installed a gasoline motor in his dory, that was the beginning of a fleet of stanch motor craft with cabins, now manned and owned by these Sicilians. It is these motor boats which supply Boston with the choicest of fish, for they only go out a short distance, and return daily with fish as fresh as is possible to get.—Christian Science Monitor.

TAKES OFF DANDRUFF HAIR STOPS FALLING

Girls! Try This! Makes Hair Thick, Glossy, Fluffy, Beautiful—No More Itching Scalp.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any store, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. Adv.

A Considerable Job of Printing

Among some of the commercial printing which the Gazette has been turning out the past few weeks, is a six page pamphlet for Mr. G. W. Butts. It is his annual plant catalogue, giving a complete description of about twenty varieties of plants together with their prices. We are printing an edition of 1,000 of these pamphlets and the job could not be done better in any kind of a printing plant. And the price we made on these 1,000 pamphlets can not be duplicated anywhere in Texas or any other state. We only cite this point to explain that the Milano Gazette turns out the best work at prices cheaper than any printing concern. There is at least one thing certainly cheap in Milano, and that is good job printing of any kind.

The Mystery of the Mysterious Treasure

When Milano was a Wilderness. Written by a Young Man of Milano.

The wind was roaring fiercely. The snow was high in the fence corners and on the leeward side of all that was on the earth without or therein. It was evening-tide. Cold—cold indeed! Soon darkness would prevail over all. The post oak trees were staggering beneath burdens of ice. This scene was where the little town of Milano now stands. Twas years before the present time. Just outside the southern limits of the present township, near Churn Rock Creek, was a two-room log cabin home. Remains of it are still visible to this day. Out in this dismal cold night shone this cozy and magnificent little mansion. It was home. Sweet home.

It was now dark. Cold and dark. The evening of February 17, 1803. The distant hoot of an owl sounded heart-rendering lonesome. A few cattle bellowed most pitifully. By the aid of a candle light from a window we see the form of a young girl appear from within and stare at the bitter cold and darkness without. Thinly clad, she was. Yet she reaches the trail of a road in front of the house. Once she founders in the snow. Then as though assisted by some infinite power, she presses on—onward through the wilderness that is now the little thriving town of Milano. Yet onward she goes. But where? (To be continued next week)

This is a view of the longest cold frame ever built in the Milano country. The view was taken several years ago on the E. C. Smith plant farm.

Those who use the most care in selecting good seeds usually produce the most profitable harvests. We know that good seeds are essential to good crops.

We expect more profits from truck and field harvests than from the sale of seeds.

Hence we intend to buy and sell only the best. Quality considered, we sell as cheap as any catalogue house.

The Cat Came Back—A Legend of a Moral

Contributed for publication by a Milano Citizen.

The saying "The Cat Came Back" is just as axomatic as "things equal to the same thing are equal." There is no question as to the cat having gone away. Just why we do not know. Whose cat was it? How old was it? Where did it go? There are doubts to these as well as all other questions that might be asked relative to "the cat," except the fact that "the cat came back."

For every effect there is a cause. The return of the cat is an effect. Then we are confronted with the question: "What caused the cat to come back?" From the mere fact that the cat came back, every person, regardless of their condition in life, can learn an important lesson.

It is a loss to the world that we have no historic record of why the cat came back. In view of what we know of the characteristics of the cat, we venture the assertion that the cat came back because there was something that made coming back worth while. Possibly it was palatable food; a warm fireside—in fact, there could have been a number of reasons why the cat came back.

Young man, what impression did you make? Were you carefully attired? Was your language pleasing, your manners suave? Was your wit clever, your philosophy sound? To use a street term, if you were "up to the minute," your cat will come back. (To be concluded next week.)

Another view of the Milano country, taken almost at random. It is only another little truck farm which grow so many good things in truck.

Is It Too Early to Plant Potatoes?

This and next week is the time to plant Irish potatoes according to the old theory of planting after the full moon in February. The moon was full Tuesday of this week, and for a week or two thereafter is said to be the proper time to plant potatoes. But the full of the moon occurs a little early and it looks risky. Last year the full moon in February occurred on the 18th, which falls about right for those who plant potatoes according to the waning of the moon. But two years ago there was no full moon at all in the month of February, which occurrence only happens about once in a life time. Anyway, any time this or next week is potato planting time, or any other time when you get ready, should you be skeptic of the moon.

Constable W. E. Peel was in Temple Sunday when the sandy blizzard blew up. Says he was there without his overcoat and the way things blew with the wind was frightful to behold. But it was ditto here.

Another Car of Hogs

Another car load of Milano hogs were shipped out this week, the fourth car within about three weeks. Looks like our Milano farmers are certainly doing their part in raising hogs and helping to feed at least a part of the world. The hog raising industry is on the increase wonderfully in the Milano country and it appears it will keep on increasing, as it puts money into circulation.

Next Wednesday, February 14th, is Saint Valentine's Day, and if you want to uphold the glory of this day and extend tokens of remembrance to your friends, we suggest that you go to the Smith Drug Store where you will find anything you might want in the valentine line.

What Milano Has

The town has five general merchandise stores. Three very large.

Has a lumber yard which carries all kinds of building material.

Milano has a \$7,000 brick college structure for the school children.

Has a moral atmosphere that is bracing and exhilarating to live in.

The town is blessed with four churches of different denominations.

A crop of vegetation can be grown in the Milano country every month in the year.

Is a good place to establish your home, rear your family and school your children for an education.

The little city has Masonic, Odd Fellow, W. O. W. and F. E. and C. U. fraternities. All established for years.

The soil of the Milano country is a sandy soil of many mixtures, particularly adapted to the truck industry of growing field vegetables.

The nationality of the Milano country is principally American, though there are a number of Germans and a few scattered Bohemians. With such a combination of population there is always assurance of prosperity over the country.

Sale Still Going On

The J. D. Peebles store is still abloom with attractive bargains in the dry goods department. A visit to that store will convince anyone that goods are not sold cheaper anywhere. The sale prices give you more than your money's worth.

Carnival Will Be In Milano Next Week

The H. & B. Carnival Company is billed for Milano for next week. They will be here next Monday, February 12th, and remain several days. The carnival will pitch its shows on the Stewart lots and will donate a percent of their receipts to the Milano Cemetery Association, with whom they made contract one day this week. The Carnival company is in Somerville this week and will open in Milano Monday night five shows and ten concessions. Come take it in and truly help the ladies of the Cemetery Association raise a little money that they need.

FARMERS URGED TO HOLD COTTON FOR TWENTY CENTS

Farmers' Union Adopts Resolution Requesting Legislation by Both Congress and Legislature.

Fort Worth, Tex.—The Farmers' Union, at its final session Thursday, passed a resolution in which it declared that the farmer had a right to trade with belligerent as well as neutral nations, and in which the alleged inability of the federal government to keep an open sea was deplored. The farmers of Texas were advised to hold their cotton until a more propitious time and not to sell for less than 20c per pound, which they declare the crop to be worth.

Demands were made on both congress and the state legislature for new legislation in resolutions adopted Thursday.

The following legislation is asked from congress:

A national policy of protection for farm products. Extension of power of the farm loan board to permit loans on farm products as well as on farm lands. Passage of bill which would prevent the supreme court declaring unconstitutional any law passed by congress.

In a resolution adopted the union went on record as being unalterably opposed to compulsory military training, as is now being proposed in congress.

The following laws are asked at the hands of the Texas legislature:

Laws requiring school teachers to hold physicians' health certificates. No interference with the homestead law and declaring for it in its present form. The strengthening of the warehouse law. The union has also gone on record as favoring the government ownership of cotton gins.

It is charged that certain commercial interests are engaged in attempting to bring about an investigation of the high cost of living for the purpose of reducing the price on farm products, but it declared that when the farmer was selling his cotton for 4c and 5c per pound there was no talk of investigations.

"Cotton has been our principal export crop," the resolution declares, "but we submit that it has always been a political orphan, no party ever befriended it. We now insist it must receive primary consideration from the government. We favor a national policy of protection for all farm products and we ask the government to effectively assist in maintaining a price on cotton which will insure a reasonable profit to the producer and a stable market for the crop."

Resolutions on other subjects were adopted as follows:

Approving the law for the protection of birds in this state, as introduced in the state legislature by Representative Charles B. Metcalfe of San Angelo.

Opposing any increase in cotton acreage this year, but insisting that the farmers raise more feed and food-stuffs at home.

Favoring municipal abattoirs in all cities in the state, for the mutual protection of the farmers who sell and the city customers who buy.

Opposing large appropriations for the higher institutions of learning in the state unless adequate provision is made for junior and intermediate schools, in which the children of the farmers can get training.

The printing of all school text books in Texas printing offices and their sale at absolute cost to the school children also is urged.

The compulsory tick eradication measure now pending in the legislature was endorsed.

It was recommended that all old soldiers who are drawing pensions from the state be exempt from every form of taxation in the state.

PROCEEDINGS OF THE TEXAS LEGISLATURE

THE HOUSE DEALS WITH THE STATE HIGHWAY COMMISSION BILL.

APPROPRIATION FOR SCHOOL

The House Votes Appropriation for School of Mines at El Paso—Senate Passed Bills Creating New Independent School Districts.

Austin, Tex.—Concluding the lengthy consideration of the Tillotson state highway commission bill Thursday, the house engrossed the measure by a vote of 108 to 18, not having amended it in any important particular save to make the motor tax fund divisible half and half between the state and county, instead of two-thirds to the state and one-third to the county where paid, and to require the state highway engineer to be a graduate of a first-class engineering college. The house also engrossed, without debate or opposition, the Valentine bill permitting corporations that have forfeited the right to do business in Texas because of anti-trust law violations to return to the state upon showing the court of original judgment that they are not owned or connected with persons or organizations violating such laws.

The Williams of McLennan pool room bill, which the house refused to pass Wednesday, was reconsidered Thursday; the section repealing the local option pool room law was stricken out, and the bill passed finally. In its present shape it provides more stringent regulation of pool rooms and requires \$2,000 bonds from each, forfeitable in case of violation of the regulations.

The house adopted a resolution upholding the president in the present crisis with Germany.

Further consideration of all bills now pending in the senate for the creation of utilities commissions or other state boards or offices, would be precluded by the adoption of a resolution introduced in the senate Thursday, signed by twenty members, to the effect that no such new commissions or offices should be created by the legislature without first submitting to a vote of the people a constitutional amendment creating such commissions or offices.

Thursday's Senate Proceedings.

Senator Henderson introduced a bill that would prevent the creation of more commissions without a vote of the people. Eighteen senators joined him in the resolution.

Thursday's House Proceedings.

Permission was granted to the suffragettes to use the house chamber Monday night for a meeting.

The house committee substitute highway bill was engrossed by a vote of 108 to 18. Two amendments were accepted.

With one dissenting vote the house of representatives adopted a resolution expressing confidence in President Wilson in the present crisis and assuring him that the people of Texas were with him.

Austin, Tex.—After passing finally the Dudley-Thomason bill carrying an emergency appropriation of \$100,000 to replace burned buildings at the El Paso School of Mines and killing the Williams of McLennan bill repealing the local option features of the present pool room law, the house spent the remainder of Wednesday's session considering the Tillotson-Bland highway commission bill section by section.

After long arguments over the salary to be paid the chairman of the state highway commission, the proponents of the bill accepted an amendment by Mr. Woods fixing this salary at \$3,600 instead of \$4,000, as the bill proposed.

Mr. Dodd had offered an amendment reducing the salary to \$3,000, which amendment was substituted by Mr. Woods. Later Mr. Dodd proposed to limit the state highway engineer's salary to \$3,600, but this amendment was tabled, 75 to 20.

The senate passed Wednesday the house bill creating the Brazoria independent school district; also passed the house bill creating the Freeport independent school district in Brazoria county. Passed to third reading house bill relating to the time when answer in cases by citation may be filed; also house bill changing the time for publication by citation in cases of unknown heirs; also house bill creating the Odem independent school district; also passed finally house bill creating the Eighty-second judicial district in Falls county.

Wednesday's Senate Proceedings.

Brazoria and Freeport independent school districts were created.

Several changes were made in the congressional redistricting bill which is still pending.

Three bills amending the libel laws of Texas were introduced by Senator Johnston of Harris county.

A number of petitions were received asking that Labor Commissioner Woodman's reappointment be affirmed.

Wednesday's House Proceedings.

Appropriated \$100,000 for the school of mines at El Paso.

The submission resolution continues to be the subject of much discussion and more than one statement was issued.

The bill that would close pool halls at 10:30 p. m. caused considerable discussion and a parliamentary tangle. The bill may be called up later.

The afternoon was taken up in a discussion of the state highway commission bill. The bill will occupy the attention of the house again Thursday.

Austin, Tex.—Governor Ferguson Tuesday signed the following bills: Senate bill, appropriating \$50,000 for construction of fireproof dormitory at Prairie View Normal; house bill, appropriating \$5,025 to pay quarantine officers and guards at Brownsville and other border points; house bill, changing boundaries of Willacy and Kleberg counties; senate bill, creating a more efficient road system in Llano county; senate bill, creating Hearne independent school district; house bill, reorganizing the thirty-second, thirty-ninth and seventieth judicial districts, and house concurrent resolution designating March 2 as Houston Memorial Day and providing for the erection of a monument to Sam Houston in the city of Houston.

After pleas from Thomason and Dudley of El Paso, McFarland of Alpine and other western representatives, the house passed finally, 111 to 14, the Butler joint resolution submitting a constitutional amendment requiring voters to be American citizens, or, in other words, providing that an alien can not vote after taking out his first papers, as he can do now.

Appeals both by western members and representatives from East Texas, by a vote of 107 to 17, the house passed finally the bill creating a branch Agricultural and Mechanical college to be located in West Texas.

The Texas Company bill, giving corporations the right to prospect for and produce oil, as well as manufacture it, was passed finally by the senate Tuesday with 19 affirmative votes, 4 pairs and no negative votes. Several amendments were made on the floor, none of which changed the vital points in the bill. Senator Dean offered an amendment which was accepted, which prevents the bill in any way conflicting with the present anti-trust laws.

The bill changes the present law by providing that corporations formed for the purpose of storing, transporting, buying and selling oil and gas and other products may also engage in oil and gas producing, business, prospecting for and producing oil and gas, and owning and holding lands, leases and other property for said purposes; provided that no corporation shall exer-

cise these powers while owning or operating oil pipe lines in the state."

Tuesday's Senate Proceedings.

A senate committee reported favorably the house bill to abolish "mooching."

The Texas Company bill was passed quickly Tuesday morning, 19 senators voting for the bill.

Senator Hudspeth introduced a bill providing for the establishment of the "Jim Hogg State Normal" at El Paso.

Senator King humorously offered a resolution making the senate reception room "an overflow room for senate employees."

Senator Johnston sent up a petition from doctors of Harris county protesting against the passage of the optometry bill.

Tuesday's House Proceedings.

A favorable report was made on the bill giving the eight-hour day to policemen.

Representatives Taylor and Denton introduced a bill making it unlawful to import strike breakers into the state in the event of strikes.

The committee on asylums reported favorably on the bills to establish new asylums in the eastern and northeastern sections of the state.

A joint resolution providing for a constitutional amendment requiring voters in Texas to be citizens of the United States was passed by a vote of 111 to 14.

Monday's Senate Proceedings.

Senator Lattimore introduced a bill providing for the right of women to vote in Texas in primary elections.

McNealus' bill regulating pipe line companies was passed after nearly 20 amendments had been adopted.

The senate adopted a concurrent resolution to invite Judge F. A. Williams of Galveston and Chief Justice Nelson Phillips of the supreme court to address a joint session of the house and senate committees on civil jurisprudence on the house bill now pending providing for the relief of the congestion of the business of the supreme court.

Monday's House Proceedings.

The bill to extend the state railroad from Palestine to Dallas was favorably reported.

The hearing on the bill providing for a state board of pharmacy was held Monday night.

A bill to compel men to be examined physically before securing a marriage license was reported favorably by the committee on public health.

Austin, Tex.—There was no session of the senate Saturday and the house was in session for only about two hours. But during that time the house bill on banking, which prohibits charging more than 6 per cent, was recommended to the banking committee. Several of the representatives who were absent from the city when the bill was brought out of the committee made the fight for its recommitment.

Saturday's Senate Proceedings.

The upper house was not in session Saturday, but committees considered many bills.

Committee on education considered the Westbrook bill, which provides for taking over the East Texas Normal College at Commerce. A subcommittee will redraft the bill.

Several bills were postponed, including the Robertson bill increasing the salaries of the higher and district court judges.

Saturday's House Proceedings.

The house was in session but two hours and little business was transacted.

No movement was made to set down the submission bill for this Friday, but leaders will take the necessary steps this week.

Bill to increase salaries of deputy county officials in several large counties was passed. The bill originally effected Dallas county, but will be changed to take in Harris and other counties.

Truck Growers Meeting Called

The time is fast approaching when tomatoes and other truck will demand a market. I have been requested to give notice through the Gazette calling all truck growers to meet this Saturday, May 19th, at 1 o'clock to see if we can make car load shipments this season, and to arrange with some one to handle the stuff for us. We all know that if we over-stock the local market, prices will be very low, whereas if it is properly distributed we will receive a fair price. Come to the meeting and express your views on this matter. Remember the hour, 1 o'clock. Farmers Union meets the same day but at a later hour. Respectfully submitted, W. R. Sneed.

Two More Milano Boys Have Gone

Henry Andrews and Victor Bailey, two more true blue Milano boys with the "spirit of 1776," left Monday night for Houston to stand examination for the Marine enlistment, but failing to pass for this particular service, they were escorted by a recruiting officer to San Antonio with 30 other boys to stand physical examination for Infantry service. They passed through Milano Tuesday night and have perhaps been successful in enlisting.

Concerning The Marketing of Milano Truck

A number of our truck growers have asked the Gazette its opinion concerning the out-look for truck markets this season in connection with the big food and garden campaign in progress over the United States, and to say the least, there is bound to be considerable conflict. Mr. J. O. Newton, who is about the best authority on these conditions, says it certainly will have a material effect on local markets, but thinks if Milano truck growers can ship car lot exportations then there would be a better chance of good prices. Mr. Newton advises our truckers to can all their surplus truck, and put up a barrel of sour kraut. Says to think of home and the family, make preparations to feed them. It's good sound logic, and in this connection we refer you to the ad of J. B. Newton & Sons in this issue. That will explain this matter more fully. Be wise and conserve your food supply for the coming winter.

Prohibitionist To Speak In Milano

Rev. Edwin I. Stearns, a prohibition lecturer of New York City, will lecture in Milano next Tuesday night, May 22nd, at the Baptist Church at 8 o'clock. It is said that Dr. Stearns is one of the most unique speakers on the platform today. When a young man he was a coal miner, and during his spare moments studied law. He afterward became an ordained minister and is still such, but is now giving all his time to work on the prohibition platform in the interest of the Anti-Saloon League. There is no doubt but that a big crowd will be at this meeting to hear Dr. Stearns here next Tuesday night. Everybody is invited to attend.

Pretty Thin.

"I was whipped by six men," whimpered a man today. "Had there been only five I would have 'cleaned' them." That kind of talk is pretty thin.—Athlison Globe.

Easy Publicity.

First Actor—"Who is his 'publicity man'?" Second Actor—"He relies almost entirely upon cycle cops and creditors."—Puck.

We're next, Bro. Lister. We said Clint was homesick and it should have been heartsick. We knew something was wrong but we failed to locate it exactly.—Gause Guide.

Nazerine Rally And Lecture May 22nd

Rev. P. L. Pierce, superintendent of the Dallas District of the Pentecostal Church of the Nazarine, accompanied by his wife, and also by Rev. J. D. Franklin and wife, outgoing missionaries to Central America, will be in Milano on Tuesday, May 22nd, at the Nazarine Church, services at 7:30 p. m. Rev. Franklin and wife are returned missionaries from Mexico and tell well of their thrilling career there. Everybody is invited to attend the rally.

Making a Hot Compress.

In the American Journal of Nursing Elizabeth Robertson gives the following directions for making a hot compress: Wet the compress with tepid water, then iron it rapidly with a very hot flatiron. This produces sufficient steam to hold more heat and obviates the necessity of wringing out excessively hot cloths.

The Mystery of the Mysterious Treasure

The first thing the posse did was to rescue their leader. This was effected easily enough, as the Indians had left the cave and lit out.

The treasure chest was dug up and taken to the girls house. There the hero opened it. It contained six thousand dollars mostly in gold and some silver. There was an enormous amount of old gold in jewelry, all of which the hero was giving the girl he loved. The chest was buried by his father, and after his death its location had been lost. Now he had found it—it was theirs. The girl had no father either, only a lonely mother. For several years

the boy hunted for the buried chest saying when it was found, he would claim the girl. The boy was named Nathaniel Bennington who married Miss Cornelia Shelby. Perhaps there are ancestors of these early settlers in Milano today. This was the beginning of the settlement of Milano. At that early time, think as you may, these people were here.

The End.

Born, to Mr. and Mrs. W. H. McGee, Tuesday, May 15th, a wee girl of angelic and charming disposition. Hugh is stupefyingly overdelighted.

As another day dawns, write to your dear little paper, love to be so well.

Our farmers are busy working their crops.

Our Sunday school is still progressing nicely. Last Sunday we had 34 pupils present.

Mr. Henry Pruitte went to Temple Saturday to undergo an operation. We hope to see him get well and return soon to his family.

Prayer meeting Sunday night was well attended. We have installed our new light and it certainly is an improvement. "Blue Eyes."

Everybody Planting Sweet Potato Slips

Mr. J. W. Ford of near the Arion switch community, was among the callers at the Gazette office last Saturday while in town. He reports the rain of last week a great blessing and says crop prospects in his neighborhood look fine. The entire country round about he said, was busy planting sweet potato slips.

Milano Farm Loan Association to Meet

The Milano Farm Loan Association includes all of Commissioners Precinct No. 3, and all living in this territory who desire loans, are requested to bring their land abstracts and sign up application blanks on Saturday, May 20th, at Milano, Texas. We are prepared to take care of everyone. There are other days besides the above date to bring your abstract to us, but this is the next meeting for that purpose. The Milano Farm Loan Association is organized and we are certain of our success. Come meet with us. G. W. Busts, J. G. McMillan, President. Sec. Treas.

Postmaster Howes has received notice that his salary as postmaster of the Milano office will be increased on July 1st from \$1200 to \$1300 a year, which is a raise of \$100 per year. All of which we are sure is perfectly agreeable to Mr. Howes.

News Notes From The Liberty Country

Mrs. Sallie Bullock is much improved after a short illness.

Mr. A. J. Hildebrandt and children were visitors at Hanover Sunday.

Some of the farmers are still planting peas. Corn looks fine and the hay crop promising.

Mr. and Mrs. Sam Nicholson and children of Hoyte, were guests at the Lantrip home Sunday.

Mrs. E. B. Ashcraft and little daughter of Roger, are visiting relatives here and near Pin Oak.

Our women folks are busy canning berries and green grapes. Beans will be ready for canning in a few days.

Our community was well represented at the singing convention at Hanover Sunday. All report a fine time and plenty to eat.

Messrs. J. K. Miller, Gray Williams, Harve Bussa and W. A. Ashley left Sunday for Texarkana as delegates to the Farmers Union.

Our farmers are jubilant over the fine rains we received during the past week. Everything looks pretty and green. Everybody got busy after the rain setting out potato slips and other plants.

Reception Committee

Having been appointed Keyman for the "Dry America Rally" at the Baptist Church next Tuesday night, I hereby appoint and respectfully solicit the service of the following gentlemen as a reception committee whose duty it shall be to meet Dr. Stearns at the train, give him a glad welcome and escort him to the Hudson House where arrangements have been made for his entertainment:

E. C. Smith L. Newton
J. O. Newton S. W. Taylor
J. H. Burnet J. A. McClellan
C. M. Beard J. D. Grady

Potato Rot Does Extensive Damage

Mr. W. A. Belt of near the Coal-dale country, reports a heavy loss of sweet potato slips this season from the potato rot disease. Said he had several hundred bushels bedded out that went the "dry rot" route. However, he shipped out some considerable shipments and is still shipping out tomato plants.

Postmaster Howes Busy Recruiting

Postmaster Howes informs us that he is now ready to receive applications of boys and men between 18 and 25 years of age who wish to enlist as Marines on battleships; and he will also take applications for enlistment of the army infantry for men from 16 to 40 years of age. Blanks can be obtained at the post office and applicants can be examined by Doctor Mullins and then receive free transportation to the Houston recruiting station. No, Mr. Howes is not a conscription agent, he is only accommodating those who wish to respond to the country's call of their own free will.

Somewhat Personal.

Frances, aged three, was very naughty all day, doing everything she should not do. Her mother shook her by the arm and said: "It seems the devil's got a hold of you today." Wiggling to get loose she promptly answered: "Let go, then."

Half And Half News Up Near Elevation

Look out all of you Gazette readers, here I am with a new pencil and new tablet and there's no telling where I'm likely to stop.

Crops down here looked pretty cold all through last week, but this week things look much better.

Mr. Philip Bankston and wife of near Lewis school house, were the guests of the former's father, Mr. J. M. Bankston during the past week.

Mr. Pete Hensley has returned home. Says he sure is glad to get home once more—yes, home, sweet home. I expect lots of the boys will think of home, sweet home in the near and coming future.

Well sir, you know old John hasn't planted his cotton yet, but I reckon he knows what he's doing. I saw him the other day and he said that new boy at his home is the cause of him being so late; they keep him busy playing with him.

Well, I'll stop before I start a newspaper of my own. So bye-bye, "Charley in the New Ground."

Cut Out The Waste—Live At Home

This is a good theme at any time, but is especially important right at this time. The certainty of a food shortage has been well advertised, and through government and other agencies our farmers are pretty well awake to the situation, though none of us can know now how serious it may yet be.

The idea right now should be to plan how best to save our surplus fruit and vegetables. It is too late to plan our planting as planting time is about over, but by starting in time we can fill our kitchen and pantry shelves, and maybe our cellars too if we have them. This is the only effective way for us to fight the high cost of living.

The women, through their clubs, are urging each housewife to hunt up every old fruit jar, bottle or anything that will hold and contain things for future consumption, and in this way thousands of containers have been raked up from the cellars, lofts, barns and other places to serve this purpose.

We believe in a balanced crop—feedstuffs and cotton—we need them both. We can grow nearly as much cotton as usual and still have room for corn, hay, peas, vegetables, etc. A little good management and a little extra work will give us results.

Live at home. Save your surplus fruits and vegetables. Fill every jar and can on your place. Canned goods are very high and cans are very scarce, but we have a large supply of fruit jars and jar rubbers. Glass jars are cheap in the long run.

We also have a few bushels of Mebane Cotton Seed direct from Lockhart at \$2.25 per bushel; also a few bushels of second year home raised at \$1.75 per bushel.

A Typical Day At The Gazette Office

Of all business establishments, a newspaper office receives perhaps the most interesting class of callers throughout any day of the week. As an example we will reveal what visitors called at the Gazette office Monday of this week. First caller was W. E. Peel, who did a little notary service for us. Second caller was Captain Bedell, we don't know what he wanted, still he occupied the easy chair for some time. Third was a lady who handed us a \$3 check (bless the lady). E. R. Cates was the fourth caller, no business. S. W. Taylor appeared as the fifth one, left Sunday School report. The

sixth visitor was A. Wolf, fraternal call. Postmaster Howes was number seven, left a news item. Max Ferrari of Rockdale came around as number eight and left an ad. Henry Andrews and Victor Bailey were next, we told them to be brave. L. Newman was the eleventh visitor, didn't stay long, never does. Twelfth caller was another lady who left 40 cents (bless the ladies). Rev. J. A. Talley was the thirteenth caller, left an announcement. Of the above callers, Mr. Wolf remained the longest and Mr. Newman the shortest space of time.

Texas Man Drives 35 Miles For More Tanlac

Wealthy Planter And Merchant Says Wife Had Rheumatism So Bad Couldn't Straighten Out Fingers.

"I have come thirty-five miles in my car to get more Tanlac," said B. Lochridge, wealthy planter and merchant of Lochridge, Texas, while in Klesling's Drug Store at Houston a few days ago.

"My wife suffered with indigestion six years and for the past five or six months has been troubled a great deal with rheumatism. Her lower limbs would swell twice their normal size and she could not begin to get her shoes on. The suffering in her hands was terrible and her fingers were bent just like a claw and she couldn't straighten them out. She could hardly eat a thing and suffered terribly with gas and severe pains in all her limbs and stomach. She was on a diet and even that hurt her, and the only relief she could get from the gas was by taking cooking soda. She tried everything that money could buy with-

out getting any relief.

"Then she started taking Tanlac and commenced to feel better on the first bottle and she has improved so fast that I can hardly realize it. She has just finished her second bottle and there's not a particle of swelling in her limbs now. She can wear her shoes now and her fingers are perfectly straight. She can eat three meals a day now and is as active and well as anybody. She came to Houston with me today in my car thirty-five miles. She was not at all tired when we got here. She can now go anywhere and is getting around over the city like she did years ago."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Rockdale by Baldridge Brothers, and in Cameron by New Cameron Drug Co. ADV.

Residence Falls Off Its Block Foundation

The residence occupied by Mr. Jake Taylor and daughters, Misses Ella and Jessie, fell off its blocks Tuesday morning without any apparent warning, except that the blocks had been in a somewhat leaning position for some length of time. The house was considerably elevated and in falling it made a northward plunge. Nothing in the house was broken by the fall with the single exception of a handle breaking off a sugar bowl, however it caused considerable disarrangement of the household furnishings.

The Milano country is serenely beautiful this week since the precious rains have fallen down amidst the sandy depths of fertility. Nature appears so lovingly inviting to come out among her fields to plant and to sow for the autumn season. How To Gain Wealth

No matter who you are—whether a farmer, a business man or a working man of any kind—a bank account in your home town bank adds to your prestige and influence as a worthy citizen, one who has a "backing" that is a full 100 per good. And it doesn't depend on the amount altogether. It is the average man, the poor man who needs to begin saving by placing a few dollars in the bank. A dollar starts the account and whatever few dollars you add to it as time rolls on will represent that much WEALTH—which is the one greatest asset that man needs here on Earth. Wealth is what you have earned and then SAVED.

Mrs. R. J. Sloan has been on the sick list the past few days; as also Mrs. Walton Sloan.

Mr. Oliver Neal opened up his heart and gave the young folks an ice cream supper last Friday night.

Mr. P. E. Garner of near Oakdale, was down to see his daughter, Mrs. J. W. Hairston, a few days this week.

Mrs. J. W. Hairston received a very hard fall Thursday of last week and has been confined to her bed ever since. Examination by Doctor Mullins found no bones broken but considerably jarred up. At last reports she was improving.

Mr. L. E. Hairston says of all the crops and industries he has one that can't be beat, and that's a family of cats. He started with two cats in the spring and now has 24. If any one can beat that he would like to hear about it from them.

Well, as old John has had some misfortune this week I won't romp on him this time, but don't you readers get disheartened, as I've got a whole lot to tell on him shortly, so I'll say goodbye for this time. As ever, "The Old Timer."

More New Serials For Gazette Readers

One of the serial stories in the Gazette ends in this issue, "The girl Who Had No God," and in next week's issue will appear a new story, even better than this one was, entitled "Heart of the Sunset," and will prove to be the most exciting story you have probably ever had the opportunity of reading. "Kazan" will also end in another few weeks and a new serial will appear in its place. These stories are among the best fiction published.

Notice of School Trustee Election

THE STATE OF TEXAS, County of Milam.

Notice is hereby given that an election will be held on the 17th day of September 1917 at the white school house in Milano Independent School District of Milam County, Texas, as established by an Act of the last Called Session of the 35th Legislature of Texas, as approved by the Governor of Texas on May 18, 1917, for the purpose of electing seven trustees to have the management and control of all school affairs of said Milano Independent School District; three of whom shall serve for 2 years or until the 1st Saturday in April 1919, and four of whom shall serve for 1 year or until the 1st Saturday in April 1918.

Lonnie Butts Left Us Wednesday Morning

Mr. Lonnie G. Butts left Wednesday morning for Cameron to enter the first five per cent quota of Milam county's men for the Selective Army. He went in company with Mr. J. O. Newton in his car, they going by way of Rockdale where the drafted men had been invited to the home of Mayor H. C. Meyer for a sumptuous breakfast, after which they were escorted to Cameron in automobiles, where the departing men were again royally entertained with a banquet at the noon hour. Thus the boys were accorded a very elaborate farewell before leaving home to enter the training camps at San Antonio. These first 18 men to leave for the Selective Draft Service represent some of the county's most prominent and most favorably known young men and Lonnie is one of our most estimable citizens. He has been in business here to himself and in the employ of other firms here, and when Uncle Sam gets next to his exceptional ability and integrity we know that he will make a wonderful man as ever wore a uniform.

This Store is Well Supplied

with the necessities of life, including such staples as Flour, Lard, Sugar, Syrups, Coffee, Meal and other such commodities, and while the markets are high on all such things, I am doing my best to sell them as cheap as the law of safety will permit.

I have recently received in shipments of Men's Shirts, Hose, Underwear, Suspenders, collars and other such goods which I am offering at prices much lower than you have been paying. Call around and look these goods over.

HOSIERY FOR MEN

A good quality of Men's Hose in black or Tan, price per pair only - - **15c**

HOSIERY FOR WOMEN

A good quality of women's Hose, White or Tan, a bargain at per pair **15c**

A Special Value In Men's Fine Mercerized Hose, light and cool, the 35c kind at **Per Pair 25c**. If they wear out quicker than you think they should, you will be sent another pair from the factory. This sock is fine enough for a millionaire and cheap enough for a poor man.

Men's Shirts Plain blue chambray or neat striped Each **75c**. Madras cloth, full size, best quality. These shirts are the best made and are not to be compared to the cheap 39c or 49c kind, but are made to give satisfaction, wear well, full length sleeves, well sewed and neat enough to wear anywhere. They are worth a dollar but we are going to sell them on a close margin at 75 cents each.

NEWS NOTES OF LIBERTY

Mrs. Jim York is on the sick list this week.

Mr. and Mrs. A. J. McCraw visited at the Jim York home Monday.

Mr. W. C. Miller and family were visitors at the J. K. Miller home Sunday.

A. J. Hildebrandt and Martin Miller were first Monday visitors to Cameron.

Mesdames G. W. and E. L. Miller attended the baptizing at Milano Sunday afternoon.

Mr. and Mrs. Jim Hartley are rejoicing over the arrival of a new girl at their home.

Hubert Bullock, accompanied by Mr. Mit Beacham and family of Hanover have returned from an auto trip to Hamilton county.

Our farmers are rejoicing over the nice rains of this week, which will be of great benefit to young cotton, peanuts, fall gardens and peas that are now maturing.

Predicts Late Frost In Milano Country

Mr. S. W. Taylor says he looks for very late frost this fall and a delayed winter. So does the Gazette, notwithstanding the fact that some people have already begun to think that winter is enroute since the early fall weather and the recent cool waves have appeared. Mr. Taylor says he looks for frost about the first of December and he might happen to hit it very correctly. The early autumn weather and the snows that have fallen in Colorado last week will not have any effect whatever on an early winter. Better get busy planting fall crops or a garden and forget all about the coming winter, which has been announced will be very mild by those who make such science a study.

Trade with the merchants who advertise in the Gazette. "There's a reason." They feel an interest in your welfare. The others don't care a bow-wow about your welfare.

School Books And Supplies

We will have our usual complete line of School Books and Dictionaries this season, and will have at all times a complete line of tablets, pencils, inks, book straps, sacks, lunch boxes, baskets and everything you will need in that line.

News From Around The Oakdale Country

All of our sick folks are some better this week.

Mr. H. B. Pressley took a load of water melons to Cameron some few days ago.

H. B. Dansby went over to the Ben Arnold country and spent a day or two this past week.

We hear it raining and are so glad. It rained a little here Monday, but not as much or as good as it rained at Milano.

A man passed through here one day this week to get pears to can up. We may have a poor country, but others have worse.

An aged man died in this community one day last week. He lived near Howard Ford's place and was known as Mr. Nettles.

Mr. Vergil Woolley and family of Cameron passed through our settlement one day this week, enroute to Summit where they spent the day.

Mr. Sid Hause and wife went to Milano Monday evening to have Doctor Mullins pull one of his teeth. Sid didn't cry out as his wife had thought he would.

Mr. Ed Hause returned home Monday night from Slaughter, Louisiana, where he went to see his baby. We so often are afflicted with sad things and we all think ours is the saddest. Little William was dead when Ed got there. They had waited for him and had to bury after night. The child had been playing on a pile of cross ties with another little child when one of the ties fell off, striking little William on his head. It killed him and the little fellow never knew anything after it struck him. Everything that love, care and money could do was done. We, his relatives, think it was more than a sad death. His mother died when he was born, and he has lived with all of us some of the time, but has been with his father the greater part of the time.

A Prospect Farmer Hard Hit By Drouth

In speaking with Mr. W. C. Mobley the other day, who lives in the Prospect settlement, he informed us that all he has out his way this year is his farm, his home and a small rick of fodder. Said everything he planted during 1917 dried up and blew away. He has made no crops whatever on account of the awful drouth, and other losses and expenses had to be met, such as befall us all in times of calamities. His wife has been in ill health and medical attention cost a couple hundred dollars, all of which shows that such circumstances never come single-handed. Mr. Mobley's loss this year is but one example of some several thousand others over Texas who are in the same circumstances and there are quite a number here in the Milano country. Mr. Mobley is now thinking of leaving Milano for a time and taking up his old trade as carpenter. Says he's got to go and make some money. He may be getting along in aged years, but he is not by any means old in being an industrious and wide-awake man of great determination and will-power. A man of that caliber will manage to pull through any epoch of depression, and if he goes away for a time, we hope to see him and Mrs. Mobley return when the seasons become brighter and again make themselves at home on their good Milano farm and prosper as never before.

Mention of Those Who Are Visiting

Mrs. Guy Mullins and children are visiting in Gause this week.

Mrs. W. O. Newton and children are visiting relatives at Cameron this week.

Miss Clyde Newton is attending the Teachers Institute at Cameron this week.

Mr. Willie Tonnahill of Palestine was a guest of Miss Myrtle Worthington Sunday.

Miss Maud Hooker has been in Cameron this week attending the Teachers Institute.

Miss Myrtle Worthington left Monday for Navasota, where she will visit the family of her brother for a few days.

Mrs. R. L. Henry of Christman and Mrs. R. L. Stevenson left Sunday for Ephesus, where they will visit for a week or two.

Mr. John Edwards of Sealy, Texas, was in Milano last week, a guest at the home of his sister, Mrs. Homer Haddox and family.

Mr. Orin Worthington left this week for Navasota, where we understand, he has accepted a position as an express messenger.

Mr. John Kohut of Cyclone, Bell county, was in Milano last week, a guest of the home folks on the Kohut farm five miles south of town. Mr. Kohut has a store at Cyclone and Anton Kohut, formerly of Milano is in business with him.

Mrs. S. W. Taylor and children came in home last Saturday morning from an extended visit to Mr. and Mrs. Chas. Bando at New Castle. On their return home they stopped over with Mr. and Mrs. Thad Wood at Heprietta, and report a very pleasant trip while away.

Mr. Joe Mitchell of Temple, was in the old home town Sunday and Monday, a guest while here at the home of his uncle, Mr. Homer Haddox and family. Joe is enjoying perfect good health these days, judging by the way he laid away that chicken dinner last Sunday.

Times May Be Hard But They Live Well

There is a determined farmer in this Milano country who says that no matter how hard times might be this coming winter, he and his family are going to live at home, eat a plenty and enjoy life just like they always have done ever since they lived in this glorious sandy land country. This man made no crops this year, no corn and no cotton as yet, but he has his home and an hundred acres of land. He also has a few head of hogs and a few head of cattle, which he says keep on growing whether it rains or not. This man is Mr. J. A. McClellen, whom we all know, and he told us these facts while in town the other day. He is now 60 years old, or rather more correctly stated, he is 60 years young, and is without a doubt the most energetic and active man of this age in this entire Milano country and probably in all Milam county. Lately he has been hauling five loads of cord wood a day, going a mile and a quarter on each trip. He reports his larders amply supplied with food and he and the family are going to live well in spite of the drouth and the hard times following. He will enjoy every meal and every night's rest in those serene and happy post oak surroundings far better than many a millionaire can in a palace. Happiness and contentment are the sublime gifts of the Milano country for those who toil and live here.

New Fall Goods Arriving

Our new Fall Merchandise is now arriving and we are opening them daily. More are yet to arrive but we have a good stock on hand. We can please the women folks especially in fall dress goods of the various kinds and we invite them to call around and inspect our lines.

We are Here at Your Command

to serve you and your family their every need during the coming season and we can assure you the best goods on a basis that means reciprocity to the both of us. We are here for your benefit and assistance, and the time of year is at hand when we ask for a liberal portion of your trade.

Practically every commodity of food has been hard hit by high prices, still we have a must ample stock of good groceries and will make the lowest possible prices just as long as market conditions will warrant.

Overalls, Gingham, Percales and Other Dry Goods.

We have a large supply bought much below the present market prices. Get our prices in all lines. We can and will save you money.

Farmers Are Leaving The Dry West

In a recent letter from Miss Ada Bando of New Castle, Texas, to relatives here at Milano, she stated that during just 10 days' time 192 "moving wagons" had passed along the road by their home, all going back to east Texas. This shows how the people are leaving west Texas on account of this year's drouth and crop failures. The condition of the average farmer out there is about the most distressing in the state's history, and shows that Milano is not the only country that has suffered from the drouth. The sandy land section of old Milam county is hard to beat at any time and when a man locates here he can say it is well done. Drouths hit us only when they hit everywhere else.

Mr. Theo Aschenbeck of the Oakdale country, was in town Thursday morning. He reported the rains out his way very light, not even enough to plant turnip seed.

NEWS FROM CEDAR CREEK

Doctor Dennis was a Cameron visitor Monday.

We were again made glad by the rains which fell this week.

Mr. G. W. Beard went to Caldwell Saturday, returning Monday.

Mr. J. C. Beard of Milano was visiting relatives out this way Sunday afternoon.

Mr. J. P. Ferguson and family of Elevation were guests at the R. E. Lee home Sunday.

Mrs. Piram McMurry was the guest of aunt, Mrs. Jim Smith, last Saturday and Sunday.

Little Jewel Graves of Milano was a guest of Lizzie Willis Dennis Thursday on last week.

Mr. and Mrs. Clyde Jackson spent several days the first of the week at the F. W. Iiams home.

Mr. J. J. Morgan returned home Saturday from Oakwood where he had been for a couple of weeks.

We Give You A Heaping Money's Worth

The commodities of life are so greatly out of normal price range these days that not many merchants can carry a surplus stock or take too large a risk on investing in merchandise. But while prices are high in many lines, this store will sell its merchandise at prices that are as low as is consistent with these times. We will give you a heaping money's worth. Treat you square, too.

Local News Notes Round About Town

Mr. W. O. Newton has been in Cameron this week as a member of the grand jury.

The Gazette is requested to state that another call for a mass meeting has been made for this Saturday afternoon for the same purpose as announced in last week's issue. The meeting will likely be held in the W. O. W. hall if the proper arrangements can be made for it.

On Saturday night of next week, the 15th, Rev. G. W. Davis, Presiding Elder of the Conference, will hold services at the Methodist Church at 8:15 o'clock. Rev. J. W. Wardlow of Gause will also be present at that time. The fourth quarterly conference will be held at Gause the next Sunday, September 16th. The public is most cordially invited to attend the services.

An automobile leaving town Wednesday afternoon frightened a team driven by a colored family just a short ways north of Milano, causing the team to turn the wagon over and running into a barb wire fence. The wagon and team belonged to John Franklin, colored, and in it were his wife and two children, the woman being very badly cut in the face and breast, also the boy was badly cut up. Doctor Mullins has been attending the injured ones and he says it is a miracle they didn't get hurt any worse than they did.

Automobile Accident Happens at Rockdale

While returning from church Monday night Mrs. Emma Gill was run down and over by an automobile driven by Rev. Sparks of Milano. Mrs. Gill was severely bruised and Dr. R. W. Wallis, who attended her, states that internal injuries were inflicted which are more or less dangerous. At this writing she is reported some better, and her many friends trust that she will make a rapid recovery. Mrs. Gill is about 70 years of age, which makes it remarkable that she withstood the shock as well as she has. The accident seems to have been caused by Rev. Sparks turning a left hand corner too sharply and Mrs. Gill and her attendant becoming frightened and dodging the wrong way.—Rockdale Reporter.

Merchant's Wife Advises Milano Women

"I had stomach trouble so bad I could eat nothing but toast, fruit and hot water. Everything else soured and formed gas. Dieting did no good. I was miserable until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL benefitted me INSTANTLY." That Run-Down Spring.
When springs of window shades have run down they are sometimes very hard to wind up again. This is easily done, however, if you use a buttonhook. Simply put the hook around the small metal end which is to be turned. Then, using the buttonhook as a wrench, wind the spring; you can do so quickly.

Farm Loan Association Is Still Busy

The Milano Farm Loan Association has so far made appraisements of a number of farms that total up to about \$10,000, which is just about half of what is required before any of the loan money can be secured. The different farms which have been appraised are scattered over the Milano and Rockdale country, all in this precinct except one that is located near Davilla. The Milano Association is the only one that has been so far organized in this county.

Stringfellow Gains Twenty-two Pounds

"If the people of this town only knew what Tanlac had done for me you would sell a thousand bottles tomorrow," said Tom Stringfellow, a well known employee of the Southern Railway, who lives at 126 East Ninth Street, Anniston, Ala. Mr. Stringfellow is well known in railway circles and is on the Atlanta and Birmingham division.

"I suffered from stomach trouble and indigestion for four years" continued Mr. Stringfellow, "and got so I couldn't eat hardly anything. I fell off until I only weighed one hundred nineteen pounds and finally got so weak and run-down I was on the point of having to resign my position. To tell you the truth I just felt like life was not worth living because I just seemed to be getting worse all the time and nothing seemed to do me any good.

"I would have awful pains in my back and kidneys and could hardly sleep. Two hours each night would be about all the sleep I would get. Most always after eating I would have gas on my stomach and my heart would palpitate. I would get weak in my limbs and have dizzy spells and would have spots in front of my eyes.

"About about a month ago I began reading about Tanlac, and heard the railroad men talking about it. Several of my friends had taken the medicine and said it was a fine thing for stomach trouble, so I decided to give it a trial. The first bottle helped me so much I kept on taking it and have just finished my fifth bottle. When I weighed the other day I kicked the beam at one hundred forty-one pounds, and was so surprised I turned around to see if some one was not standing on the scales. Yes, sir, that's a fact, I had actually gained twenty-two pounds and feel like a man again for the first time in four years.

"Tanalac helped me right from the start, and before I had finished taking the second bottle I got so I would eat and sleep and work as good as anybody. That's what the medicine did for me and everybody who knows me will tell you the same thing. Why, I can just eat anything now and indigestion never bothers me a particle any more. I can sleep good, too, and feel just fine in every way. Speaking of eating, my grocery bills have gone up to almost double.

"Just to show you what I think of the medicine I bought a dozen bottles today in order to always have a supply on hand. I wouldn't be without it for anything in the world."

Tanalac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Rockdale by Baldridge Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine and in Ben Arnold by L. F. Yardley. Advt.

The Value Of The Peanut

Peanuts are now worth about TWICE as much per pound as cotton seed, and at that rate the nuts will be worth \$1.75 per bushel. As a fat producing product peanuts have become to be recognized alongside of cotton seed in importance. After a dollar's worth of oil is pressed from a bushel of peanuts, the meal that is left contains all the food value that a hog will digest. If you feed peanuts you are wasting a dollar's worth of oil every time you feed a bushel of the peanuts. Peanut meal costs only about one-half of what you get for the peanuts. Therefore it behooves us to conserve the peanut crop. Have your peanuts threshed. Sell them at a good price and help to supply the world with the fat it needs so greatly. We are at your service to do the thrashing.

Santa Fe Will Build Two Section Houses

The Santa Fe is contemplating erecting two section houses at Milano sometime in the near future. The structures are to be erected within the next three months and will doubtless be located in or near town. There is some report that one of the houses would be erected opposite the depot, but this has not been confirmed. The building of section houses by the Santa Fe seems to be a surprise to many and somewhat doubtful to them, but the Gazette has substantiated the report and we were assured by good authority that such buildings were really being agitated by the railroad officials and would likely be built at an early date.

Mr. F. W. Hams reports a considerable frost around his place Monday night.

The peanut thresher started out Monday morning of this week to thresh the 1917 goober crop.

Rice Dennis returned home Tuesday of last week from Waco, where he had been working a few weeks.

Chas. Williams and family spent Sunday over in the Sand Grove community, guests at the J. C. Williams home.

Mr. and Mrs. H. L. Hutto attended prayer meeting at the Summit school house Sunday night and report quite a good meeting.

School Board Holds Their Second Meeting

The Milano board of school trustees held another meeting on Tuesday of last week with all members present except Mr. Peeples. The principal item of business transacted was that of securing \$500 of the State Aid money which is now available. But in order to get this the Milano school must have a library of at least \$100 valuation, must also get another stove, two more desks, a certain physiology chart and the grounds must be in a certain good condition. These

improvements will likely be made in the near future and all efforts put forth to get the money. Among other business matters, J. D. Newton, Horace White and Asa McGregor were appointed a committee to visit the school each month and look over the building and grounds and co-operate with the teachers in a general way. It was also decided to ask for interest bills from various banks on the school's depository funds for daily balances. Next meeting to be held Nov.

Mrs. S. W. Taylor, Mrs. J. D. Peeples and Mrs. W. L. Braun left early Tuesday morning for San Antonio to attend the annual meeting

of the grand chapter of the Eastern Star. They will be there for several days, returning home probably by Thursday or Friday of this week.

Liberty People A Making A P

The new Milano Independent School District seems to have some opposition by the school district, and we understand they have employed a Cameron attorney to fight their pleading. One point of contention is that the territory taken from the Liberty district is not legitimate, and thus the matter will be investigated from a legal standpoint. The Gazette has no more knowledge concerning the matter than the average citizen, but we trust to see the matter arranged satisfactorily to all concerned, for such matters are very irksome. No doubt it could all be nicely settled by the local school boards by a harmonious arbitration.

Rev. J. A. Talley went over to Rockdale Wednesday afternoon to attend the annual session of the Little River Baptist Association. J. H. Elam, J. O. Newton, G. W. Newsy Letter From Sandy Creek Country

Mr. Guy Clymore has accepted a position at the Big Lump mine as bookkeeper and clerk.

The baby of Mr. and Mrs. Greene Touchstone has been very sick, but we hear it is now improving.

Mr. W. C. Mobley and wife and Mr. E. D. Mobley and family spent Sunday at the W. A. Louis home.

The Milan County Farmers Union met with the Sandy Creek local on Thursday of last week. Big dinner and big attendance.

Sandy Creek can not boast of a prayer meeting or Sunday school, nor do we have any preaching. We would be glad if some good preacher would give us a call occasionally.

A good many of our folks went over to Milano last Saturday to see the gand street parade, but when they came home they were as a sealed book as to what they saw.

We would like to go to Summit to attend some of those prayer meetings, for we too, agree that prayer is not a thing of the past. But we wouldn't like to wait until 2 o'clock for dinner, for we are always hungry before 12 o'clock.

Mr. W. J. Clymore had the misfortune to lose one of his horses the other day. The horse was found with one leg cut nearly off about sunrise, and by 10 o'clock the horse had bled to death. It seems the horse had become entangled in some manner with barbed wire and thus cut himself. "Greeny."

Rev. J. N. Gibson received a shipment of those Combination Cooking Kettles this week and is now making deliveries. If you haven't seen one, have him to bring you one.

Waste And Ruin Shown in Picture

On the first page of this issue appear two pictures of certain conditions that exist on the average farm in Texas. The Turner Lumber Company is illustrating this condition at their expense, trusting to thereby remedy some of it here in the Milano country. The pictures are self-explanatory. If you have no protection for your implements with which you make your family's living, then Manager Basil McGregor is ready to talk to you. There is no room for an argument, as the loss and ruin will pay for the erection of an implement shed.

Lots of sick people around town this week. Even Doctor Mullins and Mr. J. C. Beard were among the list, and they are two whom we'd think would be the last two of our fold to get sick. However they have now recovered, but it shows what a change in weather conditions will do.

Half And Half News Up Near Elevation

And how are you all by now? Still in the land of the living?

Don't know of very much to write about, as I have been very busy for the last week. News is so dry down here that you have to soak it for 24 hours to find out what it is.

Mrs. Claud Bankston is on the sick list this week.

Mr. Walton Sloan and family visited at the J. R. Sewell home near Chiesman Sunday.

We have had another wedding out this way. Mr. Ernest Cook and Miss Pearl Washburn having been married some few days ago.

Mr. J. T. Pruett and family were in Milano Saturday to see the show. We hear J. T. is talking "west." He's got the fever. He brought some grass home from out there to see if old Fly would eat it, but to his sorrow she wouldn't even taste it. So I say, no west for him.

We hear that one of our citizens had to pay the penalty on some cattle concerning the general stock law in Milan county the other day. That's pretty hard, but it's still harder when a fellow can't turn out his hogs down here in this Half and Half country—half perimmons and half acorns. But dance to the music.

Well sir, old John has been gone so much here of late that his own dog bit him the other day. You know, I heard a fellow ask him about catching that salamander, and John told him to catch it by the tail. John says anybody with two ideas above a grasshopper and one legged one at that, would know to catch him by the tail. Old John is all right, but he just won't work. I have always thought well of him, but he and I have been together so much till I can tell very near as "big a one" as John. He got the country skinned. I heard him say that he had seen 154 melons on three vines. That's going some. But he's got to sight me. I'm going to try to keep up with old John, so I guess I had better close before I hear of something else. So goodbye.

As ever, "The Old Timer."

The Big Circus Wasn't So Big

In regards to the show or circus here last Saturday, the Gazette hasn't anything good to say. They "stung" the people for all they could. The town was too small for their parade, so they claimed, and they came near passing Milano up when they landed here. But the Gazette printed some route cards for the management and there were a number of towns considerably smaller than Milano which they will visit next week in east Texas. They came around and paid their advertising and printing bills like gentlemen, but that is all we can say they did well. The show was about the biggest thing not to be anything that ever hit Milano.

The Milano truck growers of the Milano country are requested to meet at Milano on Saturday of this week, October 13th. Everyone come. Business of the utmost importance is to receive attention.

Waco Man Gains 18 Pounds on Tanlac

"It's an actual fact, I have gained eighteen pounds on two bottles of Tanlac and I now feel younger and better than I have in twenty-five years." This interesting and remarkable statement was made by William O. Trnett, watchman for the M.K. & T. railroad, and living at 121 North Sixth street, Waco, Texas.

"About four years ago", he continued, "I began suffering with indigestion and gas on my stomach and going down hill. After eating, I would swell up as tight as a drum and suffer for two or three hours and what I had eaten felt like lumps of lead in my stomach. I was constipated all the time and had to take something every day for this trouble. I had been shooting pains from my hips down which I was told was sciatic rheumatism. I was as nervous as a rat in a trap and it was almost impossible for me to get any sound sleep or rest. I was almost completely run-down and played-out and for two years I couldn't work enough to pay my necessary expenses. I went to Marlin, Texas, and spent a hundred dollars for a month's treatment there and it didn't do me a nickel's worth of good. I then went to Missouri and to Dallas for treatment and paid out over three hundred dollars, but nothing gave me any relief.

"Then I got to taking this Tanlac I had read and heard so much about. It has been a life-saver to me and would be cheap at a hundred dollars a bottle compared to what other treatment and medicine cost me and the suffering I had to endure" for those four years. I'm just now buying my third bottle and I have had no pain or gas in my stomach in some time and I can just eat anything without it hurting me. I'm a bit nervous now and just sleep like a child every night. I'm not constipated like I was and the rheumatic pains are all gone out of my hip and leg. In fact, all my miserable feelings are gone now and I just feel new life and energy in every nerve of my body. As I have said, I have gained eighteen pounds and I now weigh one hundred and sixty-eight pounds and feel younger and better than I have in twenty-five years. I wouldn't take any amount of money that could be offered for the good that Tanlac has done me and I would be ungrateful not to tell others what it is that got me out of suffering and made a well man of me.

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Rockdale by Baldrige Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Fling & Fontaine and in Ben Arnold by L. F. Yardley. Advt.

Newsy Items From The Liberty Country

Many of our people took in the show at Milano Saturday.

Fred Fisher and family of Pin Oak were visitors at the J. K. Miller home Sunday.

Mr. Ed Robinson marketed eight bales of cotton in Milano Saturday for 25 cents a pound. Some money, isn't it?

Mrs. J. W. Lantrip returned home Wednesday after staying a couple of weeks with her daughter, Mrs. Carl Bullock, near Milano.

Our Farmers Union was well represented at Sandy Creek Thursday of last week. All report a fine meeting. Our farmers are coming to the front.

Carl Miller and family are preparing to move to Manvell, Texas, near Alvin in Brazoria county. We regret to see these good people leave from our community.

Our farmers are very busy now cutting cane and pulling peanuts, while some are still picking cotton. Most of the farmers here are in good condition for another year. This was made possible by the good price they received for their cotton.

Somebody mysteriously entered the J. K. Miller home last Sunday morning and took a \$20 bill out of the dresser drawer. The money was the property of their son, Martin Miller. Somebody sure had their nerve to do such a dirty deed in broad open day light. Look out, burglar, we may get you yet!

Mr. E. C. Smith and little daughter went up to Jacksonville the early part of this week on business and spent a few days with home folks and former citizens.

Rev. J. P. Sparks left a dollar at the Gazette office Tuesday for a year's subscription in advance to the Gazette.

Mr. W. A. Baggett left a half dollar at the Gazette office while here the other day for his Gazette subscription which goes to Deannville.

The Gazette is in receipt of a letter and a beautiful dollar bill from Mr. Frank Smith of Sherman, who says send the Gazette to him so he can read of what the old town is doing. Says he likes that country fine and reports business good.

Mrs. A. B. Bradberry left a dollar at the Gazette office last Saturday for the benefit of her subscription to the Gazette. Mr. and Mrs. Bradberry and family have been citizens of Milano for just about a year now and have become so accustomed to reading the Gazette that they say they hardly could get along without it. They came here as strangers from Chriesman, but the paper soon helped to get them acquainted with Milano's big family and they are now perfectly at home among our people.

The True Spirit Of Old Glory Is Awakening!

By A. J. Buffington, Milano Route 3.

Oh, our country's flag! Where is it? I do not see it swaying in our town as it was some few weeks or months ago. What precious association cluster around it. They set up this banner in the name of God over the well worn battle fields of the revolution, and over the cities and towns they rescued from despotic rule. But think where their descendants have carried and raised it in conquest or protection! Through what clouds of dust and smoke has it passed, what storms of shot and shell, what scenes of fire and blood! Not only at Saratoga, at Mammouth, and at York-

town, but at Lundy's Lane and New Orleans, at Buena Vista and Chapultepec. What countries has it not visited? Where has not the American citizen been able to stand beneath its guardian folds and defy the world? How many have lived for it and how many have died for it? How many heroes has it covered in death? Wherever that flag has gone, it has been a herald of a better day. It has been the pledge of freedom, of Justice, of order, of civilization and Christianity. Tyrants only have hated it. All who sigh for the righteousness and truth salute and love it.

Tell of which citizen Uncle Billy Dukes says: "Put up the flag, boys, put up the flag!"

Telephone Company Asks Your Co-operation

An unusual condition is made apparent by the advertisement of The Southwestern Telegraph and Telephone Company in this issue of the Gazette, calling upon subscribers to practice conservation in the use of the telephone. The public is advised that congestion exists in certain telephone centers and that the protection of necessary service demands the elimination of all that is unnecessary in the way of telephone talk.

"For a long time it was practically impossible to secure telephone equipment," explains Manager N. H. Moore. "Some of the raw material used in its manufacture was appropriated in bulk to the uses of war. Now orders are accepted, but are subject to long delay in delivery. Meanwhile, because of such

great military activity in Texas, the volume of telephone calls have greatly increased. This was in the face of the fact that plans for the extension of the telephone plant to meet no more than the normal increase in the business could not be carried into execution.

"Now we have plain physical restrictions due to the lack of apparatus. In cities around which training camps are located the condition is said to be felt keenly and it was plain that something must be done.

"Meeting the situation fairly, the telephone company has taken the whole public into its confidence, told the story in paid newspaper space and called upon all the telephone users to work together for the protection of necessary service."

The True Value Of The Peanut

Peanuts are now worth about TWICE as much per pound as cotton seed, and at that rate the nuts will be worth \$1.75 per bushel. As a fat producing product peanuts have become to be recognized alongside of cotton seed in importance. After a dollar's worth of oil is pressed from a bushel of peanuts, the meal that is left contains all the food value that a hog will

digest. If you feed peanuts you waste a dollar's worth of oil every time you feed a bushel. Peanut meal costs only about one-half of what you get for the peanuts. Therefore it behooves us to conserve the peanut crop. Have your peanuts threshed. Sell them at a good price and help to supply the world with the fat it needs so greatly. We are at your service to do the threshing.

The Milano Threshing Company

The T. S. Williamson ranch near Elevation shipped some more wood the past week to Temple. Mr. Williamson says he will begin shipping some time this month for the

Farm Loan Preliminaries Are Finished

All papers of the Milano Farm Loan Association were sent in to the government officials by Secretary L. Bedell this week, representing 20 members who are asking for a total loan of \$22,600. About two-thirds of this amount represents parties of the Milano country, while the other one-third represents people around the neighboring towns. The matter is now up for the government's inspection and O. K. and upon finding everything satisfactory they will send in the money, all of which will require considerable more time, and it is impossible to state when to expect it.

With much sorrow we report the death of Mr. W. W. Rutherford, "Uncle Dick" as we all knew him. He died about 5:30 o'clock last Saturday evening and was buried at the Sandy Creek cemetery Sunday afternoon. He was 67 years old and had lived around here and near Milano for a number of years.

Wall Street Had Better Look Out

(From Thomaston, Ga. Times)

Uncle Lark Farley says, "I can personally recommend Tanlac to anybody." Both he and Mrs. Farley have gained several pounds and their health is generally improved.

Uncle Lark needs no introduction into this county, but as the Times has some few readers abroad we'll tell them who he is. Away back in the 70's, we think it was, a poor country boy, who was too delicate to work on his father's farm, opened up a little country store which he operated successfully for thirty-five years, losing only \$36 in bad accounts during his entire business career. Finally his health became so bad that he had to give up his business career. Finally his health became so bad that he had to give up his business. Then he came to Thomaston and soon afterwards organized the Bank of Thomaston, of which he has been the Financial Backer ever since.

Two months ago, Uncle Lark and his wife commenced taking Tanlac and now he says that his stomach is in the very best condition and his knees have limbered up and pain him very little. He is confident that another month's treatment of Tanlac will entirely restore his health which he lost in childhood, and if he does, believe me, Wall Street had better look out for a man who can make the fortune Uncle Lark has with his health, what will he do as a well man? Uncle Lark is known as a Retired Capitalist, but, he says he is now a younger man than either of his numerous Son-in-laws and is now ready to start life all over again.

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avery Brothers, in Rockdale by Baldridge Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. B. Fletcher, in Jones Prairie by Fling & Fontaine and in Ben Arnold by L. F. Yardley. Adv't.

Doctor Mullins was a visitor to San Antonio Sunday and Monday, returning Tuesday, accompanied by little Miss Lillie Grace Mullins.

Merchant Mr. E. C. Smith reports upon his return from Jacksonville the other day, that the country up there is just as dry as the Milano country, but says the Jacksonville country is astonishingly prosperous.

A Large Shipment of Fresh Pickles

was received recently, including every good variety of this delicate eatable. I have them in jars and bottles and kegs and barrels too. I bought a considerable shipment and can make some interesting prices on these goods. Pickles are not a luxury, but a necessary element of essence in our food.

A fresh shipment of Summer Sausage arrives every Thursday, 75 pounds a week. It is about as cheap a meat as you can buy. It is wholesome too.

Any And Everything In Groceries

Those five words describe my stock of groceries to a broad extent, but I have the goods and can always make you interesting prices on your needs. You will find my store well supplied with the necessities of life, including such staples as Flour, Lard, Sugar, Syrups, Coffee, Meal and other such commodities, and while the markets are high on all such things, I am doing my best to sell them as cheap as the law of safety will permit.

New Teacher For The Milano School

Miss Nella Thomas of Cameron arrived in our little city this week to take charge as teacher of the intermediate grades of the Milano school, she taking the place of Miss Erma Porter who has resigned to return to her home at Rockdale. Miss Thomas has had teaching experience of 10 years and the trustees feel they have made a good selection. We gladly welcome her to the friendship of our citizenship.

Mr. A. C. Hess left Thursday for Dallas to visit the Fair and attend to some business. He expects to be back home by Sunday morning.

The ladies of the Parent Teachers Association will serve refreshments at the Sidney Lanier entertainment at the W. O. W. hall on Friday night of next week. No admission fee will be charged to the entertainment, but the public is invited to patronize the ladies serving the refreshments, the proceeds of which go toward the school fund.

Another Water Scare Seems to be Evitable

A rumor is going the rounds that the Santa Fe rail road company is again determined on cutting off the free water supply at their pumping plant. Since this report has been rumored so many times in past years, some people may think there is nothing alarming over the report this time, but we understand that the road is even contemplating shutting down the plant, unless the I. & G. N. road leases it, as the Santa Fe road seems to have no particular need for the well at all.

Points of View.

"What a wretched day," said Youth, looking into the dripping gray. "Why, it is wonderful," said Old Age, thinking of the millions of dream treasures the years had stored in the clouds.—Columbus Dispatch.

To The Public:

I do all kinds of watch and clock repairing and guarantee satisfaction. Leave your watch or clock at the Smith Drug Store and it will receive my prompt attention. J. F. Kewel, Route 2, Milano.

J. H. BURNET

I am sole agent for Milan county for one of the most useful and best kitchen utensils that has ever been made, and I am now traveling over the country demonstrating it. It is the New Era Combination Cooking Kettle, two vessels in one that permit the cooking of two separate foods at the same time and under one fire. The kettle is made of enamel and will never chip off from its steel body. Comes in 6, 8, 10 and 12 quart sizes. Prices \$1.60 to \$1.85. I am now placing a large number of them in and around Milano. If I don't get to you soon enough just drop me a postal and I will bring one to your home and let you see and try it.

Miss Ruby Shaffer of the Pin Oak community was the guest of the Misses Bullock Sunday.

Mrs. A. J. Gunnel and children visited at the home of Mrs. Alfred Gandy near Hanover Sunday.

Members of the Farmers Union held a business meeting at the Liberty school Thursday night.

Mr. George Black and family passed through our settlement Sunday to visit relatives at Milano.

Mrs. W. N. Baggett and children of Summit were visitors at the W. Boggan home Saturday and Sunday.

Mrs. S. M. Bullock went to the home of her son, Ollie, Thursday, who has been quite sick in the Cedar Creek community.

Mrs. Kate Mullins of Humble is at the bedside of her mother, Mrs. Jim Stevens, who is very ill, but is reported to be some better at the time of this writing.

Henry Spinks and Joe Kirk and family of Huntsville are here spending a few days with relatives. We understand they came with wagons to help move Mr. Bill Davidson and family who are preparing to move to that country.

Our school is progressing nicely. Every day seems to be well pleased with the teachers, including the children. What's the use of sending away to Dallas, Austin and other large cities for teachers when we can secure the very best right here around Milano. Both of our teachers are Milano girls and we don't believe they can be beat.

School Books And Supplies

We will have our usual complete line of School Books and Dictionaries this season, and will have at all times a complete line of tablets, pencils, inks, book straps, sacks, lunch boxes, baskets and everything you will need in that line.

NOTICE—In line with our contract we are compelled to state that we will CHARGE NO BOOKS this season. So please come prepared to pay CASH for all SCHOOL BOOKS.

Mr. Floyd Buss, Miss Lona Buss, Mr. Clyde Miller and Miss Myrtle Miller went to prayer meeting at Hanover Sunday.

Mrs. Emma Davidson is moving to her farm near Hanover. No place like home. "Old Lady."

A Big Shipment of New Shoes

Just received and opened up about twenty cases of New Star Brand Shoes. Compare our prices on shoes with others. Those who have done this are buying their fall shoes from us.

Also we have large shipments of Gingham and other fall dress goods. We can please you in style and prices. These goods were purchased before the top was reached in prices and we are now selling them cheaper than we can replace the goods at today's wholesale prices.

Practically every commodity of food has been hard hit by high prices, still we have a most ample stock of good groceries and will make the lowest possible prices just as long as market conditions will warrant.

Acorn Crop Seems To Be Damaged

Mr. Streeter Hurt of the Summit country was showing some frost bitten acorns around town Monday which he says he picked from the trees out his way. The acorns were "bit" good and plenty, as the black spots were there and were even black all over. Just what per cent of the acorn crop was damaged by the frost of last week is a matter of some conjecture, but evidence shows the damage was considerable.

The A. K. Hawkes eye glass representative will be in Milano this Saturday, October 20th, at the J. D. Peoples store. If your eyes need attention or you need a new pair of glasses you should see him.

The ladies of the Christian Church who served refreshments at the church grounds last Saturday night, we understand, cleared \$13.50 above expenses. The proceeds go toward the debt on the church building.

Sidney Lanier Will Give Entertainment

The pupils of the higher grades of the Milano school have organized a society for the purpose of developing taste for literature, to encourage declamation and to encourage freedom of speech in public. Being very much Southern, they have selected the name "Sidney Lanier," he being one of our beloved Southern poets. Their first program will be presented to the public on Friday night of next week, October 26th, at the W. O. W. hall at 7:30 o'clock. No admission fee will be charged whatever, as it is an entertainment absolutely free. All patrons and friends of the school are most cordially invited to lend their encouragement by their presence. The program is arranged as follows:

America Recitation - James Hairston
Song—Spanish Cavalier—by Fifth, Sixth and Seventh Grades.
Reading - Jessie Bodiford
Song—Texas—3rd and 4th Grades
Chorus—Battle Hymn of the Republic—Eighth Grade.
Recitation - Georgia D. Hooker
Song—Don't Bite the Hand that's Feeding You—5th, 6th, 7th grades.
Reading—How the Star Spangled Came to be Written—Lee Batey.
Song—The Star Spangled Banner—Sixth and Eighth Grades.
Reading—How Tom Sawyer White-Washed the Fence—Ora McClellan.
Song—Soldier Boy—Primary Grade.
Debate—Resolved: That the American Army of 1775 Gained Greater Achievement than Did the Federal Army of 1861.

Affirmatives: Myrtle Worthington, May Stewart, Cecil McGregor, Georgia D. Hooker, Adolphus Bethard, Bertha Bethard.
Negatives: Duet—Stand by the Flag—Myrtle Worthington and Marion Kneeling.

Those Who Forget Not

Mrs. Raymond Beard sends the Gazette to her brother, James C. Hurt at Camp Travis with this issue. That makes three copies of the Gazette that go to the Milano boys at Camp Travis.

Mr. A. J. Hildebrand of the Liberty community left a dollar at the Gazette office last Saturday for another year's subscription in advance to his home town paper. Mr. Hildebrand is one of our many Gold Seal subscribers, the kind who come around without notice the very week their subscription expires. This old world contains a pretty good per cent of such people and it is a pleasure to do business with them.

Conservation In Telephone Use Is The One Alternative If Necessary Telephone Service Is To Be Maintained

Additional telephone equipment is very difficult to procure. The raw material from which it is manufactured has been going into arms, armament and material of war. Deliveries can not be promised.

At the same time, due to great military preparation and business activity in related lines, the use of the telephone has very largely increased.

Meanwhile, as a patriotic obligation, the government has been given the right of way over the wires. After the needs of the nation are met, those of individuals are to be considered.

Therefore, if your own important service is to be protected, conservation in the use of the telephone is the one alternative. Your co-operation to this end should be appreciated by every other telephone user.

News From Around The Oakdale Country

Post card greetings from Ed Hause at Camp Travis, says he is getting along fine.

Mrs. E. H. Hensley has for company this week her sister-in-law, Mrs. Jackson of Houston.

Mrs. Jim Baker and children have returned home from a trip to Lorena, where her mother lives.

Miss Nancy Etheridge of Hoyte, went to her school last Sunday at Caddo, where she taught last year.

Our school at Oakdale started Monday of last week with Miss Casey as teacher. She had twenty-four pupils in attendance.

Mr. Richard Aschenbeck is at home again, after being away at work for some time. Perhaps the singing class will now start up again.

Mr. and Mrs. Dave Carter have returned to their home in Arkansas after spending some time with her parents, Mr. and Mrs. Joe Etheridge, near Hoyte.

Thomas Batey took his sister, Miss Alda, to her school in Falls county Saturday. We regret to see Miss Alda leave, for she was a great help to our community.

Misses Hensley took their sister, Mrs. Frank Pfardrescher, to Milano one day last week where she took the train for Taylor to visit their sister, Mrs. Ditto, who is not very well.

We had a little frost last week, which means it is sweet potato digging time. It was just heavy enough to stop the peas from making any more. Those Milano men who said we would have late frost this fall made a mistake.

Mr. and Mrs. Sid Hause went to Cameron on Monday of last week to see their son, Ed, and the other soldier boys depart for the training camps. They spent the night at Curry with their son, John Hause.

Mrs. W. H. Lyon and son Hal, of Tracy, went to Milano Saturday afternoon to meet some of the soldier boys, as it was reported that a train would pass through. She was met by her sister, Mrs. Hause of Oakdale, and went home with her, where they spent a pleasant night, and the next morning went to Cameron and there met the boys, but not the ones they expected. It was the Fourth Infantry and not the Second. They seemed to be glad to see us and asked where all the pretty girls were that lived in Cameron.

Homan Thompson bought himself a new buggy last week.

Captain L. Bedell was a Waco visitor Monday in the interest of the Farm Loan Association.

A fresh shipment of that good summer sausage arrives every Thursday at J. C. Beard's. Adv.

GLASSES FITTED Hawkes Expert Optician

Will Be At The J. D. Peebles Store, Saturday, October 20th.

If you are interested in the preservation of your eyes and in obtaining a first class, pair of glasses at a moderate price, this announcement is of unusual interest to you.

We have arranged this visit with the A. K. Hawkes Company with the distinct understanding that patrons will have the same careful, expert examination of the eyes and will be charged the same standard, moderate prices as in the Atlanta office of the Company. The firm of "Hawkes" is a Southern Company that needs no introduction. Established 1870, and has been supplying the public with satisfactory glasses for nearly 50 years. They are deserving of the utmost confidence, and we personally, as their local agent, stand back of their goods and work. With their strong financial standing and their reputation for integrity, you are guaranteed the best possible service. We refer you to any bank or to the thousands of satisfied customers wearing the Hawkes glasses. You are invited to come in and see the NEW TORIC LENSES, the kind that curve to the shape of the eyes and permit clear vision entirely to the edges of the lens. And we want you to know about the KRYPTOKS—the wonderful Bifocals—giving both far and near vision in one lens without the unsightly dividing line—the masterpiece of the lens-makers art. They cost less than the price of two pair and are far more convenient.

We urge our customers and the public in general to call during the Optician's visit and have a pair of the Genuine Hawkes Glasses fitted, or at least have a test made to determine if you need glasses. No charge made for careful examination.

Optician Will Remain Only One Day. Don't Forget The Date.

Cameron, Tex.

THE MILANO COUNTRY NEEDS SETTLING UP

It needs a class of immigrants from the Far North to help build up home prosperity. To get them the town must have a commercial organization. The Milano country will never expand until it is thrown open for development. Herein are thoughts for the broad-minded citizens. Something must be done to save Milano from the death of decay that is slowly eating its way onward. For a bigger and better Milano and greater activities we need

Mendoza Is Old City.

Mendoza is the metropolis of western Argentina. It is a city of some size carefully planned and able to stand comparison with any town in the new world or the old one the point of municipal beauty. It looks distinctly new, but as a matter of fact it is one of the oldest towns in the western hemisphere. It was founded fifty years before the well-known settlement of Jamestown in Virginia, while the fathers and mothers of the Pilgrims were still living peacefully in England.

Compromise With Stupidity.

The public mind is nearly always slow working. The deliberations of a body of men must usually wait upon the intelligence of its least intelligent member, and the final result of such deliberation will ordinarily be closer to the mentality of the stupidest member of the conference than that of the most intelligent. Intelligence must compromise with stupidity. The broad-minded must compromise with the bigoted. Stupidity and bigotry are nearly always reflected in public opinion.

JUST PUT AWAY A LITTLE AT A TIME

An account in our bank is the best debt preventive. Become a regular depositor in an institution like this. Create a reserve fund and show that you are one of the "fittest" who survive. The way to build up a reserve fund is not to wait until you can put a lot of money in the bank, but to save and deposit the small amounts as you go along. Once you try the saving habit you will never depart from it, and in the bank is the only safe place to save.

THE FIRST STATE BANK OF MILANO

Syrup Making Has Proven Unprofitable

A special report to the Gazette by our Liberty correspondent says: Home manufacture of syrup this year among a number of farmers in the Liberty settlement has proven unprofitable. The short crop of cane coupled with the expense in syrup making runs the home-made product up higher than the manufactured syrup sold in stores. One farmer figured that his home raised syrup cost him \$1 a gallon and on such basis of cost it just won't pay. In good seasons it will no doubt pay, but it didn't do so this year, principally because of the severe drouth that is still prolonging itself. Some of the planters this year did not even cut their cane crop.

Newsy Items From The Liberty Country

Mr. and Mrs. J. K. Miller were Cameron visitors Monday.

Miss Zita Nelson visited her sister, Mrs. Will Hensley at Milano last Saturday.

A Wonderful New Story In This Issue

In this issue of the Gazette appears the first installment of a new serial story which takes the place of "Katan," when we bid farewell last week. The story was a good one, no doubt about it, but "Contraband," we believe will be as good or even better according to your own individual opinion. We are running five columns of this new story every week and are sure the Gazette readers will find it the most exciting story they ever read. We have read it through from beginning to end and made the selection after having read many others and deciding this the next best. If you enjoyed reading Katan then you will enjoy reading Contraband.

Newsy Letter From Cedar Creek Country

Mrs. G. W. Meadows spent Sunday at the F. W. Iiams home.

Mr. J. J. Morgan and family are moving from our settlement to Milano this week.

Mr. A. J. Rhoades and family of Gause were visiting relatives in our neighborhood Sunday.

Mr. and Mrs. H. F. Hutto and Miss Alice McGregor attended church at Summit Sunday.

Jim Cook of the Sand Grove community was a guest at the Chas. Williams home Sunday night.

Little George Harrell Beard has been quite sick, as also little J. R. Lee has been suffering considerably with a crick in his neck.

Mrs. G. Neeley and Mrs. Sam Devall of Milano were in our community last Saturday, gathering persimmons on Cedar Creek.

G. W. Meadows of this place and Sam Hood of Summit were visiting the D. E. Longley home near Gause, but formerly of our community, Saturday and Sunday.

The peanut thresher was in our community the past week threshing the peanut crops of our farmers and now has passed on to territory surrounding and close to Milano.

News From Around The Oakdale Country

Miss Alda Batey was home Saturday from her school.

Frank Fisher is having quite a good deal of wood cutting done which he expects to ship out.

Jesse Belt of California, is home spending a week with the folks. He is in the Army service and has been enlisted for some length of time.

A very stiff norther came up this Monday morning at about 2 o'clock and I bet there were many who had to get up and get more quilts, as it was quite warm when they went to bed that night.

Mrs. Wimberly is home again after spending a week in Glenrose, where she went to have her eyes treated. We are glad to report that she can now see much better and she believes her eye trouble will be completely cured by the treatment she has been receiving.

Mr. W. G. Spraberry and family left this week for Laporte, near Houston in Harris county, where they will make their future home. They shipped their household goods by freight and traveled through the country by wagon route. They will settle on a place nearby to one of their sons. We have lost a good friendly old couple by their leaving.

First Dental School.

The year 1840 saw the foundation of the Baltimore College of Dental Surgery, the first of all institutional dentists, while three years earlier had been formed in New York the American Society of Dental Surgeons, a national organization, the first work of which was to bring about a legislative enactment prohibiting teeth extraction by barbers and other unqualified persons.

Former Milano Lady Died At Goose Creek

The body of Mrs. Beatrice York, who died at Goose Creek Wednesday, arrived in Milano Thursday night and burial held Friday morning. Deceased was reared in Milano and is well known here. She leaves a husband and three children.

Youthful Diplomacy.

Pretty Teacher (severely)—"Johnny! Johnny Stubbs! You are whiping again." Johnny (a smart boy)—"Please, I am only telling Winnie Wingles what nice things all the gentlemen said about you when you walked along the street."

Deep Well Should Be A Public Utility

Mr. W. R. Dennis, the sagacious sage of the Cedar Creek country says: "What's a matter with the government taking over the Santa Fe well and pumping plant for the good of all the Milano country and its agricultural purposes and needs?" We asked if such a thing could be done, and Mr. Dennis was confident it could. He said "it might be Socialistic, but a mighty good move for public utility aid." All right, whether Socialistic or Democratic, if such a thing could be possible, we would like to see it done, but not being competent to negotiate such a gigantic undertaking we leave it up to somebody else. The Santa Fe we understand, wants to sell the well, but a little town like Milano couldn't even buy the coal to keep the pump going.

Method In Her Politeness.

Bettie was entertaining Billy, and asked her mother to get them some bread and butter. Mother cut the first slice thin and the second one thick, and Bettie, observing them, said with exaggerated politeness: "Now, mother, you must serve Billy first, because he's my little guest."

Some Extra Specials In Groceries

SOAP—is something that the family always needs and there is no better soap than Lenox, 7 bars for **25c**

Canned Blackeyed Peas are cheap and good eating. I am offering them at 2 cans for **25c**

COFFEE—A special offer in a good grade of roasted coffee, an exceptional bargain at 6 pounds for **\$1**

If you want to buy pickles in a paying quantity, get a half size keg, which I am offering at **\$1.50**

If you are trying to save your flour these days, then let me call your attention to my line of breakfast foods, such as Grits, Puffed Wheat, Oat Meal, Cracked Wheat, Grape Nuts, Post Toasties, and Whole Wheat, all of which have advanced practically little or nothing where other commodities have doubled. There is nothing cheaper than breakfast foods and they are all healthful.

Plenty of Olive Oil, Grape Juice, Cherries, Sugar and Coffees of all kinds. Sour Kraut in kegs.

Muscatel Raisens, something extra cheap and not hit by war prices. Put up in 10c and 15c tins. A California product. Just try a can for your pies, a pudding or a cake.

"Let Your Light Shine."

Let us always remember that hope in us kindles hope in others, that smiles, that trust creates trust, that goodness awakens goodness, that love awakens love, and that in unseen but sure ways integrity, strength and honor in us plant seeds of honor, strength and integrity in numberless other lives, many of whom we may know nothing of.—J. T. Sutherland.

"Pemmican" a Cree Word.

The word "pemmican" really means a sausage. According to Father A. Lacombe's Cree-French dictionary, it is a Cree word, derived as follows: "Pimly" (noun) grease, fat; 'pimlwiw', greasy; 'pimikkew', the act of making grease; 'pimikkewin', the act of making pemmican, grease, etc.; 'pimikkan', a bag filled with a mixture of grease and pounded meat."

Dwarf Trees.

Dwarf trees are suited to small gardens. They occupy little space, are easily cared for, bear sooner than standard kinds and they are easily shaped into bushes and pyramids or can be used in espallier forms, trained on buildings, fences or trellises.

Former Citizens Of Milano Prosperous

In speaking with Banker W. O. Newton the other day concerning his recent trip to Montgomery county, he remarked that he saw our former citizen "Dad" Brooks, W. N. we believe his initials are. Said he was living a few miles from Willis. Mr. Newton also visited the Woodroof brothers and their mother who are living near Willis. These people are also former citizens of the Milano country. The Woodroof brothers, Mr. Newton says, made 25 bales of cotton this year and invested their profits in a car load of cattle which they bought at Fort Worth and are now engaged in raising and fattening cattle for the market, on the same idea of Mr. Newton's cattle raising hobby, two cars of which he shipped down to Montgomery county this past week to secure winter grazing, and where the grass is quite plentiful.

Game In Mexico.

Mexico cannot be said to offer a field for hunters of big game, and the term, "a sportsman's paradise," which is sometimes applied to it, is an exaggeration. Among animals may be enumerated the peccaries or javellinas, deer, rabbits, hares. The reptiles include alligators, turtles and iguanas. Whales, seals and sea lions are encountered on the Pacific coast.—New York Telegram.

Some News Notes From Oxford City

Meedames M. J. Morgan and Tom Ashley were in Milano Saturday.

Mr. J. H. Lucas and daughter, Miss May, were shopping in Milano Saturday.

A good many of our children from here are attending school at Smyrna. They report a good school.

Mr. G. C. Walker and wife were visiting at the home of Mr. J. A. McClellan Sunday of last week.

Quite a number of our folks attended the Literary Society entertainment in Milano Friday night.

Mr. Tom Hood of Rogers, was seen in our parts last Sunday. Oxford City to him, seems to be a prominent place.

Mr. H. Holdiness came down again last Saturday night from Gause, visiting homefolks in the southern and western parts.

We certainly enjoyed the column you devoted to Mrs. Sam Taylor's letter of the boys in Camp Travis. We would like very much to hear from others, who visit there.

What A Little Want Ad Did Recently

Wonderful what a little want ad in the Gazette will do. Some time ago Mr. Walter Louis out on route 2 found a gold cuff button in the road near the Tom McGee place. He told the Gazette management about it and we inserted a 15 cent want ad. Mr. J. H. Burnet saw the ad and knew that a Rockdale business man had lost a cuff button while over here some time before, and the next time the party came over Mr. Burnet told him about the ad, and as a result the 15 cents was paid and Mr. Louis returned the cuff button without accepting any kind of several rewards offered. Mr. Louis chanced to do a miraculous thing when he found the button in the road. The Gazette did its mightiest and spread the news. And thus, even a non-subscriber found a lost and valuable article through a country town newspaper.

Daily Thought.

In the effort to appreciate various forms of greatness let us not underestimate the value of a simply good life. Just to be good, to keep life pure from degrading elements, to make it constantly helpful in little ways to those who are touched by it, to keep one's spirit always sweet and avoid all manner of petty anger and irritability—that is an ideal as noble as it is difficult.—Edward Howard Griggs.

The Milano Threshing Company under the management of Messrs. W. R. and Rice Dennis, has been about the busiest single item of farm industry the past few weeks in the entire Milano country. J. P. Ferguson of near Elevation has so far had the largest crop of peanuts, he having 200 bushels threshed. The crop of M. J. Pierce in the same vicinity produced the second largest threshing turnout, followed closely by T. M. Hairston's turnout. The G. R. Hurt crop falls as the fourth largest, and those of D. C. Woolverton, J. J. Morgan, Aldine Beard and S. E. McGregor each follow in order named. All the crops mentioned above were on Milano route 3 and the turnouts are subject to change of rank as crops in other sections are threshed.

The most interesting program that has been Milano's privilege to enjoy, was the one rendered by our school on Friday night of last week. THE NEW ERA COMBINATION ENAMEL COOKING KETTLE

I am sole agent for Milam county for one of the most useful and best kitchen utensils that has ever been made, and I am now traveling over the country demonstrating it. It is the New Era Combination Cooking Kettle, two vessels in one that permit the cooking of two separate foods at the same time and under one fire. The kettle is made of enamel and will never chip off from its steel body. Comes in 6, 8, 10 and 12 quart sizes. Prices \$1.60 to \$1.85. I am now placing a large number of them in and around Milano. If I don't get to you soon enough just drop me a postal and I will bring one to your home and let you see and try it.

Harry L. Knight Gains 26 Pounds

"When I finished taking my third bottle of Tanlac nearly three years ago, I had entire relief from my rheumatism and found that I had actually gained twenty-six pounds in weight besides. I threw my crutches away and went to work and I have held my weight and have been well ever since."

The above remarkable statement was made to the Tanlac representative in Marvin's Pharmacy a few days ago by Harry L. Knight, of Marshall, Texas. Mr. Knight has for a number of years been connected with the bridge building department of the Texas Pacific railroad and was always at his post of duty until he became so disabled by the rheumatism that he was forced to stop work and seek relief. Mr. Knight is a nephew of former Adjutant General A. J. Scott who was formerly of Atlanta, Ga., but now of Tioga, Texas, and he has many friends, especially among railroad people, in this section of the 'Lone Star State'.

Continuing his statement, Mr. Knight said: "Yes sir, I have found out the value of Tanlac by taking it myself. I certainly appreciate what it did for me and I'm glad to make this statement and give others the benefit of my experience with what I consider the best and most useful medicine yet discovered."

"Three years ago, I was taken with what is called articular rheumatism in a very severe form. I was laid up with it and remained in a hospital at Marshall for three weeks. I got no relief and had about given up. I just suffered as much as a mortal could, it seemed to me, and no treatment or medicine gave me any relief. I had intense pain in the joints of my lower limbs and my feet were so swollen I couldn't wear my shoes. I had to use crutches and even then it was agony for me to navigate. I lost twenty pounds in weight and was badly run down. I was extremely nervous and this made my suffering worse as my pain was principally in my swollen joints and it was torture for me to move about at all."

"Well, I read about Tanlac in the Dallas News and decided to give it a trial. I just began to improve on my first bottle, and, as I have already said, when I finished my third bottle I was entirely relieved, threw away my crutches and went back to my old job with the railroad. I picked up twenty-six pounds, which was six pounds more than I had lost. I have enjoyed good health and the free use of my of my limbs, without any pain, ever since and Tanlac did it all. My work keeps me exposed to the weather a great deal and I decided to come here and get me another bottle of Tanlac to keep my system in good shape and fortify myself against the dangers of the winter season and I know Tanlac will do it. I am very grateful for what it did for me nearly three years ago and for the good health I have enjoyed ever since then and I don't hesitate to tell anybody about it."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avoca Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Fling & Fontaine in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler. Adv.

Color in Sick Room.

Have you tired of taking fruit, candy and flowers to a bedfast patient? Raw Food Must Be Washed.

The Fall Coat

This winter many a patriotic man and woman will make last year's coat do service for another season because it is America's duty and privilege during the war to save and economize in every practical way. Each must economize to the utmost in order to have savings with which to subscribe to the Liberty War Loans, and also to help distress in all parts of the world.

But in these days of stupendous property destruction it is a crime not to conserve all of the property it is possible to save. GIVE YOUR PROPERTY A NEW FALL COAT OF PAINT if the old paint is broken. You can not save your property in any other way, and the money cost is not great.

Ink Spots in Books.

Anyone who has been unfortunate enough to get ink on a favorite book, or, worse still, a borrowed one, may be interested to know how one housekeeper removed such disfiguring marks. Then she applied a sheet of blotting paper to the stained part, and absorbed the stain with the liquid.

Peace By Christmas Says Old Prophecy

In tearing down an old Catholic convent at Wismar, in northern Germany recently, there was found a manuscript yellow with an age of 216 years in an old Bible written by a Monk during the year 1701. It is a prophecy of the present great war and tells many things concerning the war with startling accuracy. This terrible war, it says, will last three years and five months and peace negotiations will be completed in time for the Christmas mass. The coming month of December will wind up the three years and fifth month of the war, and Germany, as well as the entire world of nations, are hoping the prophecy comes true to the end.

U. S. Navy Is Still Open For Enlistment

The Gazette is in receipt of a letter from the Houston Recruiting Station asking us to publish the fact that the United States Navy is still wide open for volunteer enlistments in practically all of its many branches. How To Succeed

When you seek advice you don't consult the failures, do you? You ask people who have succeeded. All right. We take it for granted that you want to succeed in life too, want to make money and have some of the comforts and even luxuries of life. Need advice? Go ask the men of this community how they did it. Watch their methods if you don't feel free to ask. You will find that they have funds at the bank. Most of them started in a small way. They were industrious, they practiced economy and they met their obligations with scrupulous care. Some of them are directors of this bank today. The same road of success is open for you.

At 5 o'clock the guests were ushered to the dining room where refreshments of oranges, bananas, cherries, cake and grape juice were served. The occasion was also the ninth birthday of little Miss Lois Miller, one of the third grade pupils. It was a happy affair and will long be remembered by those present at the occasion.

The Memory Of Her Will Linger For Always

(By Pikes Peak Correspondent.)
On Monday night, December
13th, at 10 o'clock, the death angel
claimed all that was mortal of
Maude, the oldest daughter of Mr.
and Mrs. Edward (Bud) Hurston.
Her spirit winged its flight across the
dark river of death and left this trou-
blesome world to dwell with God
and his Angels for evermore. Maude
was a sweet girl and loved by all
who knew her. She was taken
away in the very prime of life, but
our loss is Heaven's gain. Oh grave,
where is thy victor? Oh death,
where is thy sting? God needed
another angel to shine, so He
called forth their precious Maude.
Her remains were layed to rest
in the Sandy Creek cemetery.

Firm Of Newton & Sons Expect To Re-establish

Is is the hopeful intention of the
firm of J. B. Newton & Sons to re-
establish their store at an early
date, following the disastrous fire
destruction of last week. Ever
since the fire the members of the
firm and the office force have been
busy trying to get the business in
shape in order to gain some decision
on just what they can do. The fire
insurance adjusters have been de-
layed in their arriving at Milano,
and until the insurance matters are
straightened out, it is impossible
for the firm to state what their fu-
ture plans will be, but are hope-
ful of going back into business.
The firm has opened temporary of-
fices in the Milano bank and are
trying to get their books and busi-
ness affairs in such a shape that
they can figure out future plans.
The origin of the fire that destroyed
the Newton store and warehouse is
still a mystery and will perhaps
never be solved. Public opinion has
voiced much belief that the fire was
of incendiary origin by Mexicans.
Two of this nationality are now
serving sentences in the penitentiary
for burglarizing the store. Other
people believe the fire was caused
by rats carrying matches or per-
haps it was spontaneous combus-
tion or some other natural cause.

T. B. Niles Home Has Lost Its Shining Jewel

Little Ruby Ann Opal, the 3 year
old daughter of Mr. and Mrs. T.
B. Niles, died at the family home
in the northern Milano country
Wednesday night of last week and
was buried at the Milano cemetery
Thursday afternoon. The little
child had been very ill for several
days with throat trouble, and al-
though everything possible was
done to save its life, it was ca-
to it heavenly reward among
angels there. The bereaved pa-
rents have the sympathy of the
community in their time of sadness.

Locomotive Fire Cost.
The cost of kindling fires in locomo-
tives is said to range from 68 cents to
\$1.14, according to the size of the en-
gine. These figures represent the cost
when dry shavings, the cheapest kind
of kindling, are used. Multiplied by
32,300, the number of locomotives in
this country, the difference between
the cheapest and the most expensive
kindling would naturally amount to
millions of dollars annually.

Oakdale Lady Sees The Brighter Side Of Life

Mrs. Sid Hause says: She doesn't
like to hear people crying about
hard times and expressing their
pessimistic opinions about such
conditions. It doesn't do any good
to fret and ponder over such things,
she cited, and we would be far bet-
ter off if we didn't let them worry
us. It doesn't better conditions to
be a "enlamity howler" and if we
just jog along in our own every day
concerns of life we will soon find we
have forgotten much about the
hard times, and the first thing you
know other times have rolled
around. And Mrs. Hause is very
correct. The most prosperous peo-
ple anywhere are those who never
worry or kick about times, but just
keep on going about about their
business whistling or smiling and ap-
pear to always be happy. This old
world has been jogging along for
thousands of years, and still the sun
rises and sets as beautifully as ever.
Every day is a brand new day filled
to overflowing capacity with new
hopes and better prospects for us all.

Captain F. M. Cooke Says He Feels Fine Now

"A few bottles of Tanlac made me feel just like a new man," said Captain F. M. Cooke, of 144 East Winifred Street, St. Paul, Minnesota, for 15 years a conductor on the Great Northern rail road and one of the most popular men of the system.

"For years," continued Captain Cooke, "I had stomach trouble so bad that what little I did manage to eat would cause me to become terribly nauseated. Gas pressed up against my heart so I could hardly breathe, and I had terrific headaches that would last two or three weeks and nearly drive me wild. I would become so dizzy at times that I had to hold to something to keep from falling, and my nerves got in such shape I could sleep but very little. Every morning I felt dull and heavy and all run down

"Nothing I tried did me any good, and I kept getting worse until a friend suggested that I try Tanlac. I followed his advise and to make a long story short, I never felt better in my life than I do now. I eat everything they set before me and nothing disagrees with me. Every symptom of all my troubles has left me completely and I feel ten years younger. Tanlac has certainly won my gratitude."

Gazette Is Issued One Day Earlier This Week

The Milano Gazette appears this week one day earlier so as to observe Christmas Day as much as possible. This is one day in the year on which we like to get away from work and we are sure almost everybody else does. We wish all our readers, and advertisers a very merry Christmas, aglow with happiness and good feeling, and trust you will enjoy the occasion for a whole week. Then with the approach of the New Year we wish you a most prosperous and happy future through the year 1921. May the year be one of great things.

Sapphires and Diamonds.

The sapphire is probably not as valuable as the diamond, roughly speaking, although comparison is difficult, owing to taste in color, and to the differing values as size increases. For instance, the price of a diamond rises in proportion to the square of its weight, a two-carat stone bringing four times as much as one of one carat. (Let me add that 151 1/4 carats equal one ounce Troy weight.)

Farmer Does Not Make What Merchants Make

Mr. G. W. Butts says: Farmers are in worse financial straits today than they have experienced in many years. But he is hopeful that the situation may be remedied either by congressional laws or by organization of the farmers. As an illustration, Mr. Butts cites his own predicament. He has a farm with something like 5 or 6 thousand dollars invested, still he is a poor man and his family have not the comforts or necessities of life which they are entitled to. On the other hand a merchant or business man with five or six thousand dollars invested in business has all he desires. He has his automobile, his family has nice clothes and live in a nice home, and when they wear out the old car they get a new one without delay or perhaps have several. This contrast shows there is a great inequality somewhere. The farmer is as much entitled to success as is the business man, and unless the farmer achieves this success then they will quit the farming business.

Something Extra Special

Out of my stock of fresh La France Flour I want every family in and around Milano to try just one sack at a special price of \$3.50 for a 48-pound sack. For those who are not acquainted with this wonderful flour, I want to say that every sack is guaranteed or money refunded if it does not please. This is an extra ordinary low price for this brand of flour, and while I have other brands of flour that are guaranteed, there is nothing that equals La France.

Wives for Colonists.

In 1621 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't he be sorry?"

Come To Milano To Trade

And Bring the Family Along

Milano merchants are the best friends you have. They accommodate you with many favors and sell their merchandise reasonably. They are here as benefactors to our community and they have your family's welfare at heart. It is harmful to make your living here and spend your money in another town. It keeps our community poor.

People Of Milano Feel Loss Of Newton Store

Following the disastrous fire destruction of the J. B. Newton & Sons store last week, the Milano people have but one desire in common, and that is to see the firm re-establish themselves in business. Many people have been heard to remark that "the Newton store was a guarantee of their family's living" during the credit season, and without it they would be lost from much accommodation. The Newton store has been doing business in Milano so long that the people of the Milano country can hardly get along without the firm's assistance, and the people are hoping that the store will be re-established at an early date. The magnitude of the firm as a community benefactor was great.

A. C. Hess Died Sunday Of Pneumonia

After a lingering illness of two weeks with typhoid pneumonia Mr. A. C. Hess died last Sunday morning at a little after the noon hour at the family home a mile south of town. Early that morning this entire community was shocked to learn that he was not expected to live but a few hours longer. The sad news soon spread a pall of sorrow over our community. His death is deeply regretted by the citizenship of Milano, for he was a man of big capabilities and had the interest and welfare of the entire Milano country at heart. He was a public spirited citizen of the most progressive kind, was a good church worker, and possessed that sterling quality of agreeable personality toward his fellowmen. Mr. Hess was one of the original promoters of the truck plant industry here at Milano and his home and farm a mile south of town was the most extensive and best improved in the Milano country. In this industry he had done much toward progressiveness for the town and country's welfare. His death is the most deplorable that has occurred in this community for some length of time. Mr. Hess located here with his family some several years ago, and it has often been said that the Milano country needed a few hundred more like him. To our people his death is lamentable; to his wife and children it must be calamitously grievous, and the family have the sympathy of all Milano in their awful sorrow and great loss. The remains were taken to Buckholts Monday afternoon where burial took place, that being the early home town of Mr. Hess and is also the present home of his parents and near relatives.

Camp Fire Girls Go On A Hike

Eleven of the Camp Fire Girls accompanied by their Guard, Miss Bessie Gillis, enjoyed a hike last Saturday to Pikes Peak mountain a mile and a quarter southwest of town. The girls spent a portion of the morning and the afternoon on the mountain, returning to town about 3 or 4 o'clock that afternoon and reporting the hike enjoyable.

Big Lump Soldier Boy Writes A Few Lines

A letter from John Keller, formerly of Big Lump but now a soldier at Camp Lee, Virginia, written to Captain L. Bedell on some business matters and received some few days ago, reads in part as follows:

We are having some great times here in this camp, which I believe is the largest in the U. S. A great many of the Texas boys are in this part of the country, especially in New York state. There are about 50,000 men in this camp and everybody seems to be enjoying it very much. We are on the exact spot on which General Lee's troops camped during the Civil War.

While clearing up the drill grounds, there have been found many old pieces of artillery and guns, such as were used in those early days. If trained men have anything to do with winning the war, together with the aid of God and our well known Texas farmers to supply us with food, we will at least bring you a button from Kaiser Bill's coat.

Well, as there isn't anything important enough to send that would interest the Editor of the Gazette, I will close with best regards to all.

I remain very fraternally,
John L. Keller, C. & B. School,
Q. M. C. Camp Lee, Virginia.

As The Romans Do

There is an old saying that "when you are in Rome, do as the Romans do." In other words, adapt yourself to your environment and condition.

Irwin Cobb went even further and said: "When you are in Rome you must have an aroma," which is carrying the idea a little too far. But there's a good deal to be gained by adapting yourself to the customs of the country. If the community is a modern one like ours, and merchants, farmers, stockmen, and people in all lines of industry keep their funds in a bank and transact their business by check, it's a good plan to do as they do. It's the custom of the country, and a good custom too.

Citizens See Awful Disturbance In Sky

Oh gracious! Have you heard about what awful things have been happening in Milano after dark? Haven't you seen the evening star dancing and cutting up and misbehaving itself in the high heavens? It's a sober fact, so they do say. Kidulicious! Well we guess so. And what does it all mean? That bright evening star cutting up like that? And right here in Milano. Haven't you noticed it? Milano citizens say they have seen this mircalous thing happen for several nights. The star would begin to jump around and go behind and below the horizon and then come up again! Oh, ain't it awful Mable! It's horrible! What's a-going to happen to this old world anyway?

To the above report the Gazette comes to the rescue with a little scientific light. There's no doubt but what our citizens have seen the evening star mis-be-having, but this is probably caused by the haze of the "Indian Summer." The star will appear as though it has absolutely disappeared and then suddenly after a few seconds or minutes it will again appear and also has the appearance of wabbling. There is nothing new about the evening star dancing as far as we know. This is an old matter of circumstance and can more appropriately be called an illusion of the eye, caused by the peculiar atmosphere that was so noticeable during this autumn before the rain came Saturday night. During atmospheric conditions of this kind, the more you look at a planet the more you will become convinced that the star is actually "jumping around" and will even twinkle as winking an eye, yet a planet never twinkles its light at all.

News From Around The Oakdale Country

Mr. and Mrs. Sid Hause went to Hoyte Sunday to visit friends.

Dean Shelton came home last week from Waco where he had been at work for some time.

Theo Aschenbeck and mother went to Rosebud last week and from there they went to Waco where they attended the Cotton Palace.

The first and best news we have this week is that the Oakdale country had a very good rain Saturday night. It was slow, but it got here.

Mr. and Mrs. Sid Hause went to Milano one day last week with their sister, Mrs. Shaw who took the train for Beaumont to join her husband. She was here on a visit.

Miss Annie Thach returned to the Nicholson home Sunday afternoon where she boards but teaches at the Rice school. It seems that the Rice people won't board people.

Ed Hause, who is at Camp Bowie, writes home and says not to send any more cake to the soldier boys, as it creates flies in the Camp and this the managers would not stand for. He also said he was in the hospital with the measles. It is not often that any one has the measles twice, but I know Ed had them when he was a little boy.

School Tax Election Notices

The State of Texas, County of Milam.
Whereas, on the 20th day of October 1917, a petition was presented to the Board of Trustees of the Milam County, Texas, on the question of authorizing a tax of and at the rate of 50 cents on the \$100 valuation of taxable property in said district for the purpose of supplementing the State School Fund apportioned to said district, said petition bearing the requisite number of signatures of qualified property taxpayers voters of said district, and being in conformity with law:

Now, therefore, the Board of Trustees of Milam Independent School District does hereby order that an election be held on the 15th day of December 1917, at the Woodman Hall in the town of Milano, in said Independent School District, as established by an Act of the 35th Legislature, to determine whether a majority of the legally qualified property taxpayers voters of that district desiring to tax themselves for the purpose of supplementing the State School Fund applied to said district, and to determine whether the Board of Trustees of said district shall be authorized to levy, assess and collect annually a tax of and at the rate of 50 cents on the \$100 valuation of taxable property in said district for said purpose.

This election is for the purpose of making the district school tax uniform throughout the Milam Independent School District and does not increase the taxation as already existing in the Milam common school district.

C. H. Lister is hereby appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same, and he shall within 5 days after said election has been held make due return thereof to the Board of Trustees of Milam Independent School District as is required by law for holding a general election.

The ballots for said election shall have written or printed thereon the following:

For School Tax
Against School Tax

All persons who are legally qualified voters of this state and of this county and are resident property taxpayers in said district shall be entitled to vote at said election.

Notice of said election shall be given by printing a notice thereof in a newspaper in said district for 30 days before the election.

Dated this 15th day of November, 1917.
Board of Trustees of Milam
Independent School District.

Mr. C. J. Stevenson was called to Keetchi, in Leon county, last Saturday by a message stating that his brother was very low with typhoid pneumonia. He returned home Tuesday night and states that his brother is slightly better.

There will be regular services at the Baptist Church this next Sunday morning and night by the pastor. Bro. Talley also informs us that this will be the regular monthly conference day and requests all the members to be on hand.

Among the relatives reported to us who attended the illness and death of our citizen Mr. A. C. Hess were: Mr. and Mrs. A. P. Hess of Buckholts, Miss Mattie Fontaine who came in Sunday from points in Arkansas, and Mr. Charlie Hess of Ardmore, Oklahoma, who was formerly a resident of our city.

The rain of last Saturday night shows how unexpectedly things can happen. It was a beautiful and wonderful rain and our citizens woke up the next morning as though in another kingdom, finding the dust and monotonous Indian Summer completely gone and in its stead was an atmosphere that was refreshing and exhilarating to everybody.

Constable W. E. Peel caught a 16 year old boy here at Milano Tuesday who had run away from his home near Valley Mills. The boy was on his way to San Antonio to join the army, but his parents intercepted his plans. Mr. Peel gave him through the afternoon and that night took him to Cameron where his father and uncle met them and then returned home.

Gravel Crossing Has Been Constructed

Everything comes to those who wait, as the old saying goes, even unto the new gravel railroad crossing which the Santa Fe road put in this week at the Main street crossing. As well as we remember, the railroad was asked to please do this for Milano one day last spring, on the very day that Mr. W. M. Dees brought in the first crate of tomatoes. Several of the business men spied the roadmaster in town and quickly rounded up a squad of prominent citizens and under charge of Mr. J. O. Newton they went out and interviewed Mr. Roadmaster and told him what a awful crossing that was when you rode over it real fast in an automobile. The Roadmaster replied with the sweetest kind of a smile and promised to "see about it." And evidently he did, for it's a good crossing now. This crossing runs across several sets of tracks and was heretofore very rough on all vehicles, but now affords quite smooth riding.

News Notes From
Around Summit

Good morning to all of you good people. How do you feel since the good rain and brisk norther came?

Mrs. Lizzie Richards spent Sunday at the Streeter Hurt home.

We are sure glad to see Grandma Schrader looking so well and hearty again after a recent illness.

Marion Hood says Bob Elliott may be better looking than he is, but believes he can "beat his time."

Frank Lagrone learned a new lesson one day last week. Says he's tried it for the last time. Ask him or some of the boys about it.

Mr. Joe Dockery says: "By gosh, brown beans may go to 25 cents per pound, but if I handle cord wood I'll have to have some of them under my belt." Ain't that the truth?

We are in hopes that there will be a good season awarded us during the coming year so there will be an abundance of food produced in this country to fill the heavy demand.

Mr. Aldine Beard says he believes if he could get five more bales of cotton he'd get rich, provided each succeeding bale increased in weight as the five bales did which he has already gathered.

Mr. Horace Graham of Gause was over here last Friday and he and Mr. Archie Graham motored over to Grimes county Friday night to look after their bee apiary there, returning home Sunday.

W. W. Richards and family spent Sunday with Mr. and Mrs. W. C. Mobley and family in the Prospect community. Mr. Ed Bullard was also there. Mrs. Richards and the babies remained through the week.

Mr. W. W. Richards made a trip to Rockdale Saturday and got caught in the rain while returning that night. He made it back to the Williamson ranch about 11 o'clock that night where he remained that night and going home the next morning. It was a hard trip but he says he's willing to undertake more just like it if they will bring rain.

Tuesday afternoon of last week two young men came riding at break-neck speed to the Elevation switch, causing great excitement among the wood haulers. One of the youngsters came near running into one of the teams. Seeing how the horses had been ridden to panting speed several of the men asked what the trouble was. The two parties were Amos Lagrone and David Elliott. Perhaps their horses got frightened at a boogger-man.

Sill Living He Says
But Times Are Hard

Mr. E. R. Cates broke into the Gazette sanctum Tuesday morning just about the time we ought to have gone to dinner, and entered with a voice like a phonograph and footsteps like a pile-driving apparatus. Nope, wasn't mad. Just feeling good. Rain caused it we guess. Said he and the good lady were still living a little bit out yonder where the sweet whistling nightingales and the sonorous voiced birds of paradise reside, but said that times sure did look hard right now. Also told us that he's feeding acorns to his chickens and soon expects to help swamp-under the egg market. He made some kind of a sorry excuse for not bringing us a 'possum for that Thanksgiving dinner that we've got good prospects of missing, and said if he knew just how to get about catching one of the greasy things he would do his bit about the matter. Oh shucks, we've done lost hopes of getting that Thanksgiving 'possum.

Former Residents
Will Go To Cyclone

Mr. and Mrs. Frank Kobut came in on No. 6 Tuesday afternoon from Caldwell where they had been living for some length of time. They will spend the week here at the home of Mr. and Mrs. John Kobut some few miles south of town, and will leave next Monday for Cyclone, Bell County, where they will locate and make their future home.

THE NEW ERA COMBINATION ENAMEL COOKING KETTLE

I am sole agent for Milam county for one of the most useful and best kitchen utensils that has ever been made, and I am now traveling over the country demonstrating it. It is the New Era Combination Cooking Kettle, two vessels in one that permit the cooking of two separate foods at the same time and under one fire. The kettle is made of enamel and will never chip off from its steel body. Comes in 6, 8, 10 and 12 quart sizes. Prices \$1.60 to \$1.85. I am now placing a large number of them in and around Milam. If I don't get to you soon enough just drop me a postal and I will bring one to your home and let you see and try it.

Suffered 20 Years
Couldn't Get Well

"Two months ago when I was told I could never get well I almost sank in despair, but when I took Tanlac a while and found my troubles were all gone I felt like shouting for joy", said Mrs J. Ramsey, wife of a well known fireman for the M. K. & T. railroad, and residing at 629 West Falls avenue, San Antonio, while in Wagner's Drug store a few days ago.

"For more than twenty years", continued Mrs. Ramsey, "my kidneys and bladder were out of order and no one knows the suffering and worry I had to endure. I would turn red and have some kind of spells that I just can't describe and I was afraid to come down town alone. My bladder was very weak and painful—bothered me all the time—and the hurting in my back was something awful. About two months ago, I was told I could get no relief from anything, in fact, I was given up as a hopeless case, and no one can imagine how discouraged and dependent I felt. My right hip and side pained me so I could hardly stand it and my hand on that side would swell twice its regular size. Six years ago, I underwent an operation, my nerves have been all shattered, and I haven't been able to get a good nights sleep since that time. My skin was yellow and all wrinkled up and my eyes would smart and burn.

"Surely no poor woman ever suffered much more than I did and nobody could be more grateful for anything than I am for what Tanlac has done for me. A very dear friend gave me my first bottle of Tanlac and it acted more like a miracle than medicine with me and brought me the first real relief I have had in twenty long years. I have only taken two bottles so far and have actually gained fifteen pounds in weight, but the best of it all is, I feel like a new woman. My complexion has cleared up, the wrinkles have all about disappeared, and anybody who knows the dreadful condition I was in can see the wonderful change Tanlac has made in me. My kidneys and bladder don't bother me like they did, my pain and misery is all gone. I sleep like a child every night and can go anywhere I please now alone. I was almost distracted with suffering before I took Tanlac, but I now feel better than I have in many years and I

hardly know how to express the joy I really feel over my wonderful relief. I gladly recommend Tanlac to all suffering women because I honestly believe from what I have done for me that it is the best medicine that has ever been made."

Tanlac is sold in Milano by E. C.

Eight Milanotes Enjoy Tour To East Texas

Eight of our citizens from town and the nearby country comfortably arranged themselves in two automobiles last Sunday and made a bee-line for a trip to Montgomery county. In the car of W. O. Newton were himself, W. H. McGee, Richard Brennan and Bob Smith;

while with Lesser Newton in his car were Chas. Rutherford, Dan Galbreath and Bud Hairston. They returned home Tuesday evening sometime, and next day Hugh McGee told all there was to tell while the others seemed to have nothing to report about the trip.

Our guess is that when a moss-back dies who didn't take his home paper he will have a hard time explaining the matter to Saint Peter.

A Former Milano Citizen Tells A Few Things About The Rio Grande Country

It is natural for a newspaper man to ask questions, and when we met Mr. I. A. Beard of Donna, Texas, the other day we got busy and had a huge lot of information and concerning that Rio Grande country in which he lives. Mr. Beard has been down there seven just long enough to be satisfied of his life. He has a 35 acres situated in that bottom known as the Rio Valley. This valley or bottom was built by the overflows of Grande River in ages past irrigated and cultivated by hands of farms that are even than those of California. Mr. Beard says he made 130 bushels of corn to the acre the past year and has over a thousand bushels on hand which he is feeding to hogs.

During the first few years in that country Mr. Beard tried growing truck but lost so heavily that he went to raising hogs, which is now his chief farming industry. Land values in that country are too high for the poor and there is hardly a chance of renting a farm at all. The

land runs in value from \$150 to \$350 an acre. Crops can be grown all through the year. Sugar cane growing is now a chief industry there with a large sugar mill to buy the product. Broom corn is bringing \$300 a ton and even cabbage and other truck, Mr. Beard says, is now handled so well that it is paying good returns. Among one of the products that won't grow there is alfalfa, owing to the salt that is below the earth and which was no doubt formed by the gulf ages ago.

The principle feature of this country is the productivity of the sediment soil, and when aided by the powerful irrigation systems it will perform wonders. Corn can be grown there to the tune of 300 bushels to the acre. Climatic conditions are quite ideal and a man at work doesn't sweat as much as he does in this part of the state.

Mr. Beard reports his family all well and delighted with their home and country. Of course Mr. Beard thinks his country is better than ours, just as we think and know that ours is better than his country.

The Thieves That Work In The Dark

Rust and rot may be so described in their fatal work on buildings. Key or padlock will not keep these robbers out. Your property will be filched from you unless your buildings are protected with a sound coating of good paint. When a paint coat has broken it is a fatal mistake to delay renewal. It costs a little more to paint these days, but not much. Frequent and regular painting will eliminate the repair bills.

Says 10 Cent Cotton Best For Prosperity

In speaking about the high price conditions with our merchant Mr. J. D. Peeples the other day, he incidentally remarked that the most prosperous periods of time that this Milano country had ever enjoyed were those when the cotton was for 8 and 10 cents a pound. Prices then, he said, were just about as near right as a correct standard of valuation could regulate them. Today, he says, prices are exorbitant and far in excess of the value of both the commodity and the product, which means both what you buy and have to sell. There is such a thing as over-doing the "high prices" and when cotton brings 25 cents a pound and flour costs \$3.25 a sack, then it has been over-done. And the great majority of us will agree with Mr. Peeples' equitable and impartial view and wish the 10 cent cotton days were still here.

Mendoza Is Old City.

Mendoza is the metropolis of western Argentina. It is a city of some size carefully planned and able to stand comparison with any town in the new world or the old one the point of municipal beauty. It looks distinctly new, but as a matter of fact it is one of the oldest towns in the western hemisphere. It was founded fifty years before the well-known settlement of Jamestown in Virginia, while the fathers and mothers of the Pilgrims were still living peacefully in England.

How to Remove Cinders.

A medicine dropper may be used with good effect in removing cinders from the eyelids by drawing them out by suction along with the fluids that have formed. A little pointed roll of soft paper also may prove useful.

Doctor Mullins Gets Out His First Bale

Doctor G. W. Mullins has managed to get a bale of cotton from his farm north of town. He had it ginned last Saturday and tips the scale at 441 pounds. The Doctor says he didn't have quite enough of his crop picked, so he bought a few hundred pounds to finish out the bale. It looks about as good as a gold brick and figures out a value of about \$120 or more at the present market quotation. Just what the Doctor intends to do with it we haven't learned, but we presume he's holding it for 30 cents. Just what it cost Doctor Mullins to produce this bale of cotton we have not asked. His cotton acreage was "blowed up" by Drouth & Company during this last summer, just like so many others, and this lone bale saved the crop from being a total loss. We venture to say that next year he will make a bumper crop.

Compromise With Stupidity.

The public mind is nearly always slow working. The deliberations of a body of men must usually wait upon the intelligence of its least intelligent member, and the final result of such deliberation will ordinarily be closer to the mentality of the stupidest member of the conference than that of the most intelligent.

Where Woman Excels.

Another evidence of the difference between the male intellect, if any, and the female one is the way a woman can stew cherries and make soap on adjacent holes of the same stove, apparently without incurring the slightest risk of getting to thinking about something else and putting some important ingredient of the one into the other.—Ohio State Journal.

The Rudder of the Day.

Some one has called the early hours of the morning, the rudder of the day and it would help some to keep that thought in mind. The girl who gets out of bed at ten o'clock, and then sits around listless till noon, will never make as much of the twenty-four hours as she should. The early hours are the rudder of the day. Steer by them.—Exchange.

THE NEW ERA COMBINATION ENAMEL COOKING KETTLE

I am sole agent for Milam county for one of the most useful and best kitchen utensils that has ever been made, and I am now traveling over the country demonstrating it. It is the New Era Combination Cooking Kettle, two vessels in one that permit the cooking of two separate foods at the same time and under one fire. The kettle is made of enamel and will never chip off from its steel body. Comes in 6, 8, 10 and 12 quart sizes. Prices \$1.60 to \$1.85. I am now placing a large number of them in and around Milano. If I don't get to you soon enough just drop me a postal and I will bring one to your home and let you see and try it.

J. N. GIBSON, MILANO, TEXAS.

Be the First.

Many a quarrel would come to a speedy ending if both sides were not afraid of being the first to make advances. Instead of being unwilling to take the first step, you should be glad of the chance. Some of you perhaps, are a little inclined to be envious of the one who is a born leader, who is the first in so many things, but there is no greater honor than to be the first to end a misunderstanding, the first to say, "I'm sorry."—Exchange.

Ever Tried It?

Half the excitement of being in love is trying to make the other person confess it while you assume a careless indifference.—Record.

Easy to Raise Sheep.

Sheep are docile, easily handled, will live on a greater diversity of food, will thrive on pastures earlier in the spring and later in the fall and require less grain than other stock.

Magnolia Man Gains
Twenty-two Pounds

One of the most noteworthy features in connection with the sale of Tanlac throughout the South is the large number of letters from well known men and women telling of the benefits they have derived from its use.

Among the number recently received none are more interesting and remarkable than the one from E. O. Johnson, Magnolia, La., which was written to Saenger Brothers, Shreveport, and which reached the Tanlac office through the kindness of this well known firm. Mr. Johnson's letter follows below just as it was written.

Magnolia, Ark., Jan. 22, 1917.
Saenger Brothers,
Shreveport, La.

Dear Sirs: "If you will look you will see where I ordered six bottles of Tanlac from you last fall to Soropta, La., I ordered four bottles for myself and two for my friend and I want to write and tell what it has done for me.

"I want to tell you that Tanlac is the most wonderful medicine in the world, for I was bothered with stomach trouble for ten years, and got so I could hardly eat anything at all but what my stomach would hurt. I would swell up any my heart would bother me so bad I would think I was going to smother to death. I just had to quit eating supper at all, for if I did eat anything for supper I could not sleep any at all and I fell off until I weighed only one hundred and twenty pounds.

"I read the advertisements of Tanlac in the papers but as I had taken so much medicine without it doing me any good I did not have any faith in it, but I finally decided to try it. So, I ordered four bottles and went to taking it and now I am sound and well and can eat anything I want to and can sleep all night long without any trouble. And I now weigh one hundred and forty-two pounds, a clear gain of twenty-two pounds on four bottles. Can you beat it? Yes, I am sure there is no medicine in the world like Tanlac.

Respectfully yours,

E. O. Johnson,
Magnolia, Ark.

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler. Advt.

Through the error of the contributor of the school entertainment writeup last week it was stated that the affirmative side won the debate when it should have been stated that the negative side won. The contributor apologizes to the negative side and states that two out of three able Judges decided for the negative side, which was represented by three eighth grade pupils.

Those Who Forget Not

Mr. Rice Dennis of the Cedar Creek valley, left a dollar with us Saturday for a year's advance payment to his weekly home town paper.

Mr. G. W. Meadows of the Cedar Creek settlement, left payment at the Gazette office for a year's subscription to the home town paper one day this week.

We are in receipt of a check for \$1.50 from Mr. H. K. Haddox now of Cameron, which pays his home town paper up for a year in advance and also six months' advance subscription to his father, Mr. O. K. Haddox, living on Gause route 2.

Miss Johnnie Hensley of the Oakdale community left a dollar and a half at the Gazette office the other day which pays the subscription of her mother, Mrs. E. H. Hensley, for a year and six months' subscription which goes to Mrs. O. F. Taylor, at Mayaville, Oklahoma.

Local News Notes Round About Town

Miss Nell Newton was a visitor to San Antonio several days this week.

Miss Sarah Kennerley returned home Monday from a several days' visit to Palestine.

Mrs. G. W. Mullins, Ralph and little Doris returned home Tuesday morning from San Antonio.

Misses Margurite and Alice Brennan returned home Wednesday from a visit to their brother's family at Somerville.

Mrs. W. L. Lutner of Cameron spent a day or two in Milano this week looking after her farm property located just west of town.

Mr. and Mrs. Lesser Newton, Miss Clyde Newton, Miss Verna White and Miss Mary White, all motored to Waco last Sunday to take in the Cotton Palace attractions.

Mr. and Mrs. M. Arrington of Thrall came over Wednesday afternoon and are spending a few days in the old familiar town, guests at the home of Mrs. J. B. Newton.

Constable W. E. Peel says business in his line is certainly getting dull these days. Says if it wasn't for catching a slacker once in a while he'd have to take a protracted vacation until the war is over.

Mr. and Mrs. L. B. Dukes, Miss Gertrude Dukes, Miss Zita Robinson and Postmaster C. Howes motored to Waco last Sunday to attend the Cotton Palace. On this trip Mr. Dukes experienced his first tire "blow-out," it being an entire year or more since he bought the car.

A letter to the Gazette from our former citizen Ed M. Cheairs who is now at Waco, says: "Should any of my Milano friends come to the Cotton Palace I would be glad to see them. I am running an 'Eat and Drink Stand' within about sixty yards of the entrance gate close to car line, fourth door from corner."

Among those reported to have attended a special feature picture show at Rockdale Tuesday night were: Mr. and Mrs. Lesser Newton, Mr. and Mrs. W. L. Brann, Mr. and Mrs. J. D. Peebles, Jr., Mr. and Mrs. L. B. Dukes, Miss Gertrude Dukes, Miss Zita Robinson, Miss Ruth Newton and Mrs. J. B. Newton, all making the trip in automobiles.

Mrs. Beatrice York Buried At Milano Cemetery

The burial of Mrs. Beatrice York (nee Reagan) which took place at the Milano cemetery last Friday morning, was largely attended by her many friends and relatives. The funeral services were conducted by Rev. H. T. Hart, who had known Mrs. York when she was a mere child. She was a member of the Methodist Church and as a Christian she enjoyed the friendship of a host of loving friends. Her death was an awful shock to the old home community near Oakdale and to her friends here at Milano and elsewhere. At the age of only 22 years she departed from this life for that of the sublime existence, leaving three small boys, a husband, a sister (Mrs. Frank Smith), a grandmother (Mrs. E. P. Garner) and other distant relatives to mourn over her sad death. Her husband, Mr. O. G. York resides at Goose Creek, near Houston, where she had died on October 31st.

Watching Lobsters' Tails.

To find out if they have been cooked alive, lobsters should be examined very carefully. If their tails are tightly curled to their bodies it is reasonably certain that they were properly cooked.

Half And Half News Up Near Elevation

And good morning, and how do you all do now? Doing fine I hope. We are all very well.

Well sir, Oliver made that visit the other Sunday.

Mr. R. J. Sloan has been making some new improvements on his rent house during the past week.

Pheby Ann, the little girl of Mr. and Mrs. J. W. Hairston, has been suffering from an awful bad case of sore eyes the past week.

W. H. Mullen and family have moved to Henderson county. They leave behind many friends in this community who wish them well.

Mr. and Mrs. J. W. Hairston attended the burial of Mrs. Beatrice York at Milano last Friday, returning on No. 5 that afternoon. Mrs. York was a niece of Mrs. Hairston.

Uncle Tom Hairston has been getting around on crutches lately. Got hurt in his knee by John letting a bale of hay slip out of his hands and falling on him. John says he always gets into trouble, and says if he had a dozen boys he wouldn't name one of them "John," for if anything happens around the place it's always John who did it.

Raymond Beard of near here abouts and Charley Martin from away over yonder near Summit, went to Cameron and back on First Monday in that there Ford automatic of Raymond's. Nice to have one of them do-go-things, but I do declare, I don't believe I want to travel quite that fast on just common ordinary country roads.

Well sir, old John has been gone for the past week. I just now found out what he was doing. Mr. Editor, that is the hardest fellow to keep up with I ever saw. You know, I believe he will kill himself some day trying to follow his professions. He had been digging a well week before last and last week he built a chimney. Great Moses! What will he do next? He's drank so much of that sour water out of that well of his till he's drawn up so tight he's hide-bound. But that's neither here nor there. John says he's got some of that spare rib element and didn't get it by weight either. So hoping old John will repair, I'll say goodbye, but don't any of you go and tell John I said all of this about him. Be good, all of you.

I am as ever, "The Old Timer."

World Is Changing.

The world is changing, and humanity has less patience with difficult people. Cranky workers are not given preference even when they are distinguished by unusual skill. Women who aspire to popularity know that they must bury all annoyance at whatever does not please them in the treatment accorded them. They cannot afford to voice any sensitive feeling or take any step toward retaliation. The lesson may be hard, but it is decidedly wholesome, and the pity of it is that so few women care to take it.—Milwaukee Wisconsin.

News From The Stores

Wanted—10 bushels of acorns. Will pay 50c a bushel. J. H. Burnet.

Beginning Saturday, November 3rd, we will give a singing bird toy to each little boy or girl making as much as a 5 cent purchase at the E. C. Smith Drug Store.

We would like to do some business with you and have some bargains to offer this week. We are always in the market for your produce. C. C. Moore & Company.

Black Oil, the stuff to use on your hogs, cattle, and other stock for the good of their health, can be secured at the J. C. Beard Store. This is the best Black Oil produced, made from Beaumont Oil and is a mighty good thing to have around any place where there is stock. Get a gallon or two and keep yourself prepared for emergency use for your stock.

Some Extra Specials In Groceries

SOAP—is something that the family always needs and there is no better soap than Lenox, 7 bars for **25c**

Canned Blackeyed Peas are cheap and good eating. I am offering them at **25c** 2 cans for

COFFEE—A special offer in a good grade of roasted coffee, an exceptional bargain at 6 pounds for **\$1**

If you want to buy pickles in a paying quantity, get a half size keg, which I am offering at **\$1.50**

If you are trying to save your flour these days, then let me call your attention to my line of breakfast foods, such as Grits, Puffed Wheat, Oat Meal, Cracked Wheat, Grape Nuts, Post Toasties, and Whole Wheat, all of which have advanced practically little or nothing where other commodities have doubled. There is nothing cheaper than breakfast foods and they are all healthful.

Plenty of Olive Oil, Grape Juice, Cherries, Sugar and Coffees of all kinds. Sour Kraut in kegs.

Muscatel Raisens, something extra cheap and not hit by war prices. Put up in 10c and 15c tins. A California product. Just try a can for your pies, a pudding or a cake.

J. C. BEARD

We heard Doctor Mullins say the other day that it certainly was going to rain again here at Milano some of these days. Bully for the Doctor! That's the way we like to hear a man talk. He has been here a pretty good while and the country has looked fearfully dry at times, but it has never failed to get wet again after a while. Yes sir, gentlemen, going to rain again.

When Gloves Became Popular.

Although worn before, gloves did not find favor with women until the fourteenth century, when they were always in evidence. If not on the hands, in them or carried stuck in the girdle, the stitching that made the fingers extending far down the back of the hand and finished off with fancy stitch and embroidery, the gauntlet often jeweled, the whole glove perfumed.

I Am Having New People Coming In

every day after a sack of my Flour which I am still selling at the same old prices.

"Potter's Field."

"Potter's field," the graveyard in which are buried those who are interred at public expense, comes by its name legitimately. In England and the continent the clay used to make pottery was dug up in long trenches, which were left unfilled. Common consent soon made it possible for these unsightly stretches of ground to be put to the useful purpose of interring the bodies of those who were cared for as a charge upon the country.

Twisted.

We Give You A Heaping Money's Worth

The commodities of life are so greatly out of normal price range these days that not many merchants can carry a surplus stock or take too large a risk on investing in merchandise. But while prices are high in many lines, this store will sell its merchandise at prices that are as low as is consistent with these times. We will give you a heaping money's worth. Treat you square, too.

Mrs. Fanny Bussa visited relative at Cedar Creek Sunday.

Miss Vivian Ashley was the guest of the Misses Bussa Sunday.

Mr. A. J. Hildebrandt and children were visitors at the J. K. Miller home last Sunday.

Mrs. Fred Fisher is visiting her sisters, Mrs. E. B. Ashcraft at Rogers and Mrs. Will Davidson at Waco.

Mrs. J. K. Miller visited her sister, Mrs. A. McGregor, at Milano Tuesday of last week.

Mrs. R. N. Turney of near Hanover were visitors at the J. K. Fisher home last Thursday.

Will Hensley of Milano is erecting a new residence on his farm in this community. We learn they will move in it when completed.

The Liberty local of the Farmers Union held their regular meeting at the school house Saturday evening. This was an important meeting.

The ladies of the Cemetery Association held their first Friday meeting at the Liberty cemetery. A good crowd was present and the grave yard was well cleaned.

Bro. Hart has once thanks for a nice lot of luscious juicy persimmons which were sent at the Gazette office one day this week.

The family and relatives of Mrs. Beatrice York wish to express their appreciation and thanks for their many kind deeds rendered at her funeral and burial.

Citizen Mr. W. H. Dukes got enough money in just two days time to buy another flag for city flag pole. The flag has been ordered, but is slow about arriving. In a later issue we will publish "the story concerning the new flag."

Mr. and Mrs. T. J. Moore who have been residents of the Milano country for the past five years, are expecting to leave next Monday for Cherokee county, their former home. Mr. Moore says this year has certainly been a hard one for him.

Optimistic Thought.

"Pay-Up Week" Is Now At Hand

This is National Pay Up Week all over the United States and the Milano merchants will certainly appreciate you paying your indebtedness to them or at least as much of it as you can. Credit is a good thing to have and helps many a man and his family, but when the debt becomes large and past due, then it hurts both the customer and the merchant. The Pay Up movement asks everybody to do their "bit" and thereby help to get the country somewhat out of debt. If you are not able to pay anything then you are exempt, but if you are able, then it is a duty.

Watch the children and their fireworks during the holiday season. Fireworks on a windy night is a dangerous enjoyment and may cause a very disastrous fire.

This Saturday will be Christmas Day and the general merchandise stores in Milano will be closed all day. The drug stores and restaurants will likely remain open throughout the greater part of the day.

Mr. and Mrs. J. C. Stone and children left last week for Hubbard City, near which place they will make their future home. We regret that this family have left our community, but wish them every happiness in their new home.

Tuesday of this week was the shortest day of the year and now the days are gradually getting longer again to the extent of a minute or two each day. This fact reminds us that the sun is coming north again and that mid-winter is in the southland is slowly passing.

Henry Kohut, who is living three miles south of town, came down last Saturday on No. 5 from Buckholts where he was visiting his kin-folks. He had been picking cotton in Bell county for nearly two months close to Cyclone, and says the cotton pickers all have more money than the cotton growers have.

Mr. J. W. Williams, who lives near the Hanover community, was in town some few days ago. We heard him say he raised 14 bales of cotton this year and he sold all but 3 of them. He managed to get them on the market before the price dropped so much. The other three bales are held for a better price.

The Milano Odd Fellow lodge bought a box each of apples and oranges Monday and had them delivered to the Odd Fellows Home in Mexicana for the children at that institution. The Milano lodge has done this for a number of years, and with what other lodges send in, the children will no doubt enjoy a very nice festivity during Christmas.

Parson J. P. Price, colored, managed to get up and about town Tuesday after a two weeks' lay-up of a crippled back and illness. Jim says he was home all by himself and when the wood pile got slim he became mighty nervous, but thankfully some friends of his and some of the white folks looked in occasionally and did what they could for his ease and recovery.

The United Cotton Growers Association which organized a local here at Milano and at surrounding communities, is now no more. It merged itself a few weeks ago with the Farm Bureau Federation with headquarters at Dallas. No wonder the farmers can never get organized. But we hope the Farm Bureau Federation will give our Milano farmers something for that \$10 membership fee which they paid in.

A MERRY CHRISTMAS TO OUR PATRONS

The holidays are with us—Christmas, the day of good cheer; New Year's, the day of good resolutions. We wish our patrons in particular and the community in general "A Merry Christmas." This wish comes from the warmest corner of our hearts as we fully realize that our efforts to please our rapidly increasing patrons has been fully appreciated. We would not be a Christian act for you to suggest this to any of your friends in whom you feel an interest? Come to the Bank with them and help to start them on the road to prosperity before the New Year begins. One of our pass books, with a credit of one dollar or more, would make a fine Christmas present.

Peanuts Bring \$1.65 A Bushel At Milano

Mr. R. J. Stewart of the western Milano country marketed a load of peanuts one day last week which brought him \$80. He had 40 bushels on the wagon and received \$1.65 a bushel, selling them to the Milano Gin Company. Mr. Stewart says peanuts pay better than 10 cent cotton, but at the price cotton is bringing this year he prefers growing the cotton instead of growing the peanuts. He is expecting to move this week on the Joe Morgan eight-acre place a half mile south of town. Mr. Morgan in turn will move out on Mr. Stewart's place west of town.

School Tax Election Carries By 41 To 1

In the election held last Saturday in the Milano independent school district a total of 42 votes were cast, and only one vote was cast against the tax on the newly added territory. The school tax in this district remains as it has been for the past four years, 50 cents on the \$100 valuation, but the result of the election extends this tax to the new territory recently added to make the Milano district larger, and this will in another year give about \$400 more money each year toward the school fund of the Milano school which will be a considerable aid.

They're Talking About Our Town Constable

There is a bit of approbrious talk going the rounds of our city concerning our Constable and citizen Mr. W. E. Peel to the effect that on the prohibition election day he was scouting over the Milano country with a buggy load of free booze for a certain class of anti voters. The Gazette takes issue in this matter to discuss it on the grounds that Mr. Peel is a public office holder and it is therefore a duty of the paper to state the honest and plain facts. We are ready to say that Mr. Peel did no such thing. He is not that kind of a man. He took

no issue in the election whatsoever. Not only that, but on election day Mr. Peel was in Temple, 44 miles from Milano. We have his word for these facts, and to us his word is as honest, sincere and truthful as ever we could substantiate the word of any living man. Therefore fellow citizens, ladies and gentlemen, when you hear of this bit of censure you just put it down that Constable W. E. Peel is not concerned in the matter. In the meantime Mr. Peel is still Constable and the best officer Milano ever had to officiate over its police protection.

STORM-PROOF PIGS ARE SCARCE

And every spring they get scarcer, because cold, wet and exposure kill off enough young pigs every year to fill the packing houses if they had grown to maturity. Warm, dry, light hog houses are absolutely essential to profitable pig production. Why sacrifice valuable pigs to the weather when so little money will buy lumber sufficient to provide adequate shelter? One pig saved from death due to exposure will more than pay for a good portable hog house! Stop attending pig funerals and come in and get the lumber that will save your pigs. We have plans for hog houses, too, from which you can select and build the type you prefer, they're free. DO IT NOW and save your bacon.

times are here and that is the time we think of our Creator, fathers, grandmothers, grandfathers, loved ones and friends. Let us decree that we have additional things to think about that has not heretofore concerned us or the most of us at this memorial time, namely: Our Country and Our Soldier Boys.

Of course, they will be remembered in many ways, as they should be. And you will wish to remember those at home. It matters not what you wish to give, or to whom you give, you will find just what you will want here at this store, for we have one of the most complete Christmas line of Goods we have ever carried, and we are glad to state that the prices are not high, but are low compared with the prices on other articles.

We haven't space to list them all, but we will make a partial list.

From Little To Santa Claus

Dear Santa Claus: Will you please bring me some toys and fire works, some fruit and candies, nuts and it's wishing you all a merry Xmas and a happy new year.

Thomas H. Beavers.

Dear Santa: I am a little girl 5 years old. I want you to bring me a sleeping doll and a doll's suit case and a wash board and tub and that is all I want you to bring. I love you. As ever,

Ruby Mae Stevenson.

Dear Editor: Will you publish this in the Milano paper.

Dear Santa Claus: I want some nuts, candy, oranges, apples, a story book, fire works, and a box of colored pencils. Yours truly,

Lela B. Williamson.

Dear Santa: I don't want many presents this Xmas. I guess times has been hard with you, and as there are so many little children besides myself I am afraid you won't have enough toys for all, so what I want is a doll and a nice story book.

Little Vivian White.

Dear Editor: Please publish this so Santa Claus will see it.

Dear Santa: I want a watch, candy, nuts, apples, oranges and some fire works, and don't forget my battery, as she can not write. I am trying to be a good boy.

Yours, Clifford Williamson.

Dear Santa Claus: I am a little Milano girl and thought that I would write dear Santa a letter. Santa, I wish for you to bring me a doll and some fruit if you can get through the cold without freezing. I will quit as my letter is getting long.

Missie Sims.

Dear Santa: Will you bring me a skiddle too, a doll, and a box of colored pencils.

Yours, Lorraine Williams.

Christmas and happy new year. Little friend, Jewell Rovens Cannaday.

Dear Santa: I remember how kind you were to me last Christmas and I hope you will come again this year and bring me some fire shot, some sparklers, some fire-crackers and a little horn and some fruit, knife with a chain on it, some fruit, candy and nuts. On Santa, I have a little brother just two weeks old today, please remember him and bring him something nice.

Your friend, Rex Lewis.

Dear Santa Claus: As next Monday is Xmas eve and brother and I wish you to bring us something for Xmas we thought we would write you. So please bring brother a knife, a little wagon, some apples, candy, oranges and bananas and I wish for a pair of little irons, some apples, candy, oranges and bananas. We will close by thanking you for these presents if you can get them for us. Hoping you a merry Xmas.

Little Alma and J. C. Richards.

Sick Wife's Story Surprises Milano

The following has surprised Milano: A business man's wife suffered from dyspepsia and constipation for years. Although she dieted she was so debilitated her clothes would not fit. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-i-ka relieved her INSTANTLY. Because Adler-i-ka empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action and is the one we ever sold. E. C. Smith, druggist.

Spent About Half Her Time In Bed

"I have gained fifteen pounds since taking Tanlac and am feeling like a well woman for the first time in six years," said Mrs. J. H. Smith, wife of a well known real estate man living at 215 Callahan, Muskogee, recently.

"I suffered from a severe case of indigestion, nervousness and a general breakdown," she continued, "and in spite of everything I could do I kept getting worse all the time. I had no appetite, and for weeks at a time I lived on raw eggs and sweet milk and that would sometimes disagree with me. I had dizzy spells and my head would swim so I couldn't walk across the room without holding on to something. My nerves were all on edge and I couldn't hardly sleep at all for worrying."

"I would be so weak and lagged out I was hardly able to get up at all. I was fast going down hill and I actually got so weak and listless at last that I had to take to my bed and stay there half the time."

"One day my mother came to see me and she told me so much about the good Tanlac had done her that I ordered a bottle and started taking it, and I had taken only a few doses when I knew I had at last found what I needed. I have improved right along ever since and I can now eat anything I want and it agrees with me. I don't have those dizzy spells any more, my nerves are all right again and I sleep like a baby. I have gained so much in every way that I am strong enough to do all my housework and find it a pleasure instead of a task. I have taken many different kinds of medicines during the last six years but Tanlac was the only one that really did me any good at all whatever."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thermopolis by Red Cross Drug Store, in Muskogee by Avery Brothers, in Lawton by New Cameron Drug Store, in Miami by E. C. Smith.

Beck.

Mr. J. A. Beck has been battling out his wife for the past two weeks. Folks all guess Mrs. McClellan is visiting her son at Lockhart and Miss Ora is attending school at Gause. Bro. McClellan says it ain't going to happen any more, for he just can't take care of himself all by himself, especially in the cooking line, which is awful.

"Knew No Better Than He," "He doped with his wife, didn't he, William?" "Yes, but you know, they weren't married then."—Life.

Perhaps no other line of merchandise will save more money than the Christmas line. In the above illustration are a few articles that are part of the extensive line carried by C. Smith Drug Store, which is the best place to get something in this line that is worth the money you pay.

Business Locals For The Milano People

For Sale—I have a few thoroughbred Duroc pigs for sale. Both male and female. J. A. McClellan.

For Sale—A good hack, good as new, cost \$200., will take \$100 cash or will trade for cattle. T. S. Williamson, route 3.

For Rent—A good farm for one-half and one-fourth to man with a small family. Plenty of land. See John P. Thompson, Milano route 2.

For sale—One pair mules known as the A. A. Whittington mules, also a second-hand wagon, all cheap for cash or part cash with terms. J. D. Peeples.

Screen the bottom of your feed troughs with Hardware Cloth from Turner Lumber Company. Only 55 cents per yard.

Will accept your peanuts and Pea Hay on all accounts up to January 1st, 1917, paying you \$2 per bushel for the peanuts and \$30 a ton for the hay. J. D. Peeples.

I have some good bright Rice Straw Hay for sale, the cheapest good feed that can be fed, and would be glad to sell you some. D. T. Moody, Milano, Texas.

I have bought some good Missouri Ear Corn and expect it to begin arriving by or before January 1st. This corn will cost something near \$1.75 per bushel and I am now taking orders for it. W. O. Newton.

Wood Sawing—I will saw your pole wood into blocks at \$1 a cord, regular cord wood cut in half for 50 cents a cord, or cut 3 times at 75 cents. Saw outfit ready to go anywhere. I. T. Wornick.

Wanted—Several Large Families to raise cotton, sweet potatoes, tomatoes and peanuts on halves. Would like to get several families so as to make up a car. Write to Jas. D. McEnery, Alto, Texas.

Lost—A good Duroc Jersey male, brown, 2 years old, 2 splits in tail. Any information appreciated by J. A. McClellan, Milano route 1.

The E. C. Smith Drug store is making a special offer on the Houston Daily Chronicle. You get it every day for the next 6 months for \$3.25, or for a year for \$5.95. This offer is good for month of December only.

The Milano (Ha) Company has a car of Peanut Meal on hand and we are ready to supply the needs of the Milano people. Peanut Meal is the next best feed after corn and is far cheaper. Good for all your stock, horses, cows or pigs. It is safe to feed too. J. A. McClellan, Mgr.

Candies in Christmas packages of every size, shape and price will be found for the most exact and tasty variety at the E. C. Smith Drug Store. These candies are fresh and the most delicious dainties you can get. Nothing answers more appropriately for Christmas presents than a nice box of candy for any friend. Adv.

Color in Sick Room.

Are you tired of taking fruit, candy and flowers to a bedfast patient? Then take her an attractive box of handkerchiefs having a touch of color, a colored hem, a colored initial or a colored flower embroidered on it. The color will enable the patient to quickly distinguish them from the bed clothes.

Lease—Newton and Basil McGregor were in Cameron Tuesday.

Mr. T. S. Williamson was an Austin visitor a day or two this week.

The Christmas Tree at the Methodist Church will be a union entertainment of the Christian and Methodist Churches combined.

Russell Clary is home from Camp Bowie and just out of the hospital from a considerable spell of illness, and even then Russell looks better than he ever did in all his life.

Mr. J. H. Burnet says the recent cold weather killed about \$2,500 worth of cabbage plants he had in the field. He received an order for one million plants some few days ago from a northeast Texas planter which he could not fill just then. Mr. Burnet says he's going to plant more seed and try again, for he has 250 pounds of seed still on hand.

6 1/2 PER CENT FARM LOANS

I am making loans on farm lands at the low rate of 6 1/2 per cent. Liberal terms to suit borrower, one third of trust.

J. E. CAMPBELL, CAMERON, TEXAS.

You Hasty.

Mr. Hawley, can you lend me a fountain pen? "No, sir, I can't." "Could I wouldn't. I have been using your money for a year, and you make no effort to return it!" "But I wanted to know if you wouldn't lend me one." "And I tell you beforehand I won't!" "Well, then, don't. I wanted to borrow your fountain pen to make out a check for what I owe you, but if you're in no hurry, I'm not."

The Milano Red Cross officers are meeting with good success so far. They sent in a list of 61 names for publication but it was received too late for this issue, but will appear in next week's issue. In the meantime give them a dollar and get your own the membership list.

Avoid Sheep Sorrel.

Sheep sorrel is not often eaten by stock owing to its sour taste, but it is well not to pasture horses or sheep on sorrel as the weed is somewhat poisonous to these animals.

At a call meeting of the Milano W.O.W. Camp last Saturday night the following officers were elected to serve for the ensuing term:

J. D. Peeples, Jr., Consul Com'd'r
G. W. Hilliard, Advisor
H. E. Halbert, Banker
C. M. Beard, Clerk
W. Boggan, Watchman
H. O. Graves, Sentry

Installation will take place the second Saturday night in January.

Letters From Little Folks To Santa Claus

Dear Santa Claus: I want you to come to see me and my little sister and brother and remember all the little children and the soldiers. I am 9 years old.

Abein B. Gibson.

Dear Santa Claus: Are you ready to go on your long trip? I will be glad when Christmas day comes. I want you to bring me some toys, because I will hang my socks up.

Annabel Lucile Hess.

Dear Santa Claus: I want you to come to see me and to remember all the little children and the soldiers. I am sure they will be glad to receive candies, nuts and such things. We will all appreciate what you bring us.

Wilbur Gibson.

Dear Santa Claus: I am a little girl 7 years old. I won't ask you to bring me much this time. Bring me a doll, a pair of nice gloves and some candy, nuts and fruit, and please bring my little baby brother Clifford, age 18 months, a rocker horse and a pretty rubber ball.

Your little friend, Helen McGregor.

Dear Santa Claus: I am a little girl 6 years old and am writing to tell you what to bring me for Xmas. A large curly headed doll that goes to sleep, set of dishes, a stove, wash board and tub so I can wash my doll's clothes, and bring fruit and candy too. Dear Santa, please don't forget Lillie Grace Mullins, Fay and George, for they will be here for Xmas.

From Doris Corbitt.

My Dear Santa Claus: I thought I would write as I saw in the Milano Gazette for the little folks to write to Santa Claus. I am a little orphan girl. My father has been dead 7 years the 12th day of August. I have a step-father, but he is blind and mother has a hard time. I haven't any friends in the war yet, but I hope to see them soon. Santa Claus, please bring me a doll, a pair of nice gloves and some candy, nuts and fruit, and please bring my little baby brother Clifford, age 18 months, a rocker horse and a pretty rubber ball.

Dear Santa Claus: I am a little boy 10 years old and I want to bring you a drum, a little toy wagon, a cap and a pair of shoes. I want a rubber ball. Santa, I am a good boy. I got a whipping in school. I keep my mamma company while my two sisters are at school. Please remember papa, mamma and grandpa and grandma, also the editor. Your little friend, John Arnold Cannaday.

Dear Santa Claus: On account of the great war and hard times over our land, I have cut my list of wants very short. I would very much like for you to bring me a nice warm overcoat to wear to school, one that will be proof against Jack Frost, and if you have any change left over from buying my overcoat then please bring me a watch, even if it be an "Ingersoll," so I can keep up with the time and not be tardy at school. These are all I want and I will be so thankful for them. I have been a very good boy this year. Your little friend, Sam W. Taylor.

You Dear Old Santa, I can't write much but don't you forget to bring me that doll Christmas night while I'm a sleep, and put some apples and bananas and candy on the chair by my bed and I'll get one of mamma's stockings cause mine is all too little for me. I know my titter asked you for too much things and cause the war is on my daddy says you won't bring that much, but you be sure now you come. Goodbye. Don't forget to come. Goodbye. Oh yes, I been a little bit bad but a whole big lot good. Your kiddo, Tiny Lister.

To The Public: I do all kinds of watch and clock repairing and guarantee satisfaction. Leave your watch or clock at the Smith Drug Store and it will receive my prompt attention. J. F. Kohut, Route 2, Milano.

BOTH IN SERVICE ALOFT

The man on the fighting top of the battleship and the telephone lineman are both essential factors in the successful conduct of the war.

The lookout on the warship sweeps the horizon with his binoculars and upon the intelligence which he gathers may depend victory or defeat.

The lineman is one of a great army of telephone workers who guard the lines of telephone communications covering the country, by means of which our war chiefs at Washington direct the vast military and industrial activity of the Nation.

The man in the fighting top represents the mighty armed forces of the Republic.

The man on the telephone pole is typical of the vast army of industrial workers whose loyal service is preparing the way for the ultimate victory.

The man on the pole is one of the great Bell army which is animated through-
out by the spirit of service, and whose loyalty and devotion to duty in the
present great emergency have enabled us to meet all Government requirements for
telephone service without serious impairment of the commercial service.

Mrs. Carl Bullock of near Milano
visited homefolks here a few days
past week.

Frank Boggan of Cameron spent
Saturday and Sunday with home-
folks in this community.

My! my, hasn't the weather been
cold. Farmers have been having
 plenty of fresh pork to eat.

Mr. and Mrs. Ed Bussa are re-
ceiving over the arrival of a new
which arrived Monday night.

Mr. A. J. Hildebrandt gave the
young folks another hop Saturday
night, all report a fine time and lots
of good music.

Three cheers for the White Flag!
It's grand and glorious to know
that our country will soon be num-

brandt, underwent the operation
successfully and is doing nicely, but
we understand it will take about 2
years before he can be cured.

The Farmers Union purchased
several barrels of ribbon cane syrup
from the syrup mills in Louisiana.
All the orders could not be filled.
The syrup is certainly fine and is
the genuine ribbon cane with the
sugar left in. It only cost 50 cents
a gallon f. o. b. That beats paying
85 and 90 cents here at home.

Mrs. J. K. Miller received a let-
ter from her brother Tom McNeely
who is in the training camps at
Fort Bliss, El Paso, Texas, stating

his camp was in fine health and no
diseases in it. He said that he had
not even had a cold this winter
and was in the open air more than
he had ever been. Tom was a vol-
unteer from Austin, having joined
the hospital corps. He is ambu-
lance driver of the medical corps
and wouldn't give the snap of his

finger to get out. He hasn't been
home on a furlough and has been in
training since July. Tom was rear-
ed in Milano and sends greetings
to all his friends. Besides being a
volunteer for Uncle Sam he has
purchased a \$150 Liberty Bond.
He is doing his "bit." Say boys,
are you doing your bit?

News From The Oakdale Country

This year is most gone, but we
are not glad nor sorry.

Miss Annie Beckhausen of Rose-
bud is with Mrs. E. Fisher this week.

Frank Hightman is up from his
fever after being sick several weeks.

Mrs. J. W. Cannaday has been
very sick, but is now reported to
be recovering this week.

The two Batey boys are expected
home for Christmas from their
respective training stations.

A considerable lot of wood is still
being loaded on cars at Arion switch
near around this part of the country.

Marshal Garner sold a bunch of
pigs in Cameron last Saturday.
Arnold and Richard

Theo. Achenbeck was at
the home of his mother last Fri-
day night. A fine time was
had by those in attendance.

Well, our country will soon be rid of
the saloons. We went dry of
course, and I heard an old lady
say that she was so glad.

Miss Alda Batey spent the week-
end with home folks. She will be
home again next Saturday to meet
her enlisted brothers and have a
reunion of all the children.

Dan Dansby is moving from the
Sid Hause place to near Tom Rog-
ers. Mr. Blackmon will move on
the place vacated by Mr. Dansby.
People are always glad to make a
change, thinking that they can do
better by making the move.

Income Officer Will Be Here Thursday

The Income Tax Officer as mentioned about in last week's issue of the Gazette, will be in Milano on Thursday of next week, January 17th, one day only, for the purpose of assisting those of our Milano people who have income tax forms and renditions to make out. This applies to married people with incomes of \$2,000 or more and unmarried people with incomes of \$1,000 or more. It is the tax payers' duty to see the officer. He will not hunt you up. Information as to his whereabouts while in Milano can be secured that day at the post office or the First State Bank. What you do not know about the income tax this man will tell you.

Value of Honey.

"Honey, one of the most nutritious and delicate of foods, should be eaten more than it is," writes a cooking expert. "Bought in the comb, it is bound to be unadulterated, and will keep one free from sore throat and bronchial troubles. Honey has been used as a cosmetic. The result is a finer textured complexion, a glowing color, a young, fresh look."

Methodist Conference Meets Sunday

The first quarterly conference will be held at the Milano Methodist Church next Sunday afternoon, January 13th, at 2 o'clock. Rev. L. B. Elrod, the Presiding Elder, will hold services here this Saturday morning and night and also Sunday morning. The pastor, Rev. R. C. Weir of Gause, will also be here. The public is invited to attend.

Be the First.

Many a quarrel would come to a speedy ending if both sides were not afraid of being the first to make advances. Instead of being unwilling to take the first step, you should be glad of the chance. Some of you perhaps, are a little inclined to be envious of the one who is a born leader, who is the first in so many things, but there is no greater honor than to be the first to end a misunderstanding, the first to say, "I'm sorry."—Exchange.

News Notes From Around Oakdale

Frank Fasel sold his old log house one day this week.

John Cannaday was reported sick the other day, but not serious.

Mr. Jeff Smith and family have returned from a visit to Rosebud.

The John Baldwin home entertained the young folks with a party one night last week.

Ed R. Smith of Austin was out this way last week looking over his farm in this community.

Mrs. O. F. Taylor of Maysville, Oklahoma, is visiting at the home of her mother, Mrs. Sallie Hensley.

Carney Newman, who lives below Milano, passed through this settlement the other day on his way to Walkers Creek on business.

Mr. and Mrs. George Batey gave a party one evening last week in honor of their two sons, George and John, who were home on a holiday furlough from their training camps.

Macedonia was the first part of Europe which received the gospel direct from St. Paul. The account of this journey through Macedonia (Acts 16:10; 18:15) is marked by copious detail and well-defined incidents.

Notice Of Shareholders Meeting

A meeting of the shareholders of this bank, for the purpose of electing a Board of Directors for the ensuing year and for the transaction of such other business as may be brought before the meeting, will be held at its banking house in Milano, Texas, on Tuesday, January 15, 1918.

If unable to attend the meeting personally, please see that any proxy that you may issue is properly signed, stamped and witnessed.

The County Farmers Union Quarterly Meeting

Milano Gazette: As per promise I will give you a brief writeup of the County Farmers Union, which concluded a very successful meeting here Thursday of last week. The attendance was better than was anticipated, owing to the inclement weather. The house was called to order promptly at 10 o'clock by President E. A. Doss. The address of welcome was delivered by W. R. Sneed and well done too; the response by W. D. Lewis in a brief address, and the appointment of the various committees required the time until the noon hour, when, though a little late, dinner was served. I will let the other fellow tell how good the dinner was, but will say that if every one wasn't satisfied it was his own fault. After dinner, as had been previously advertised, we had an open door public speaking with Bro. W. D. Lewis of Topsy on the stage. It was a master address and for two hours he held the audience spellbound relating the cold and stubborn facts and truths that should be heeded by every tiller of the soil.

His slogan was organization and co-operation. He told the truth when he said that the biggest slacker in this country was the man who refused to come into the organization and help bear the burden with his fellow neighbors. After the war, yes, after this mighty conflict, the magnanimity of which is unprecedented in the world's history, there will be a greater necessity for a more united and compact effort on the part of the yeomanry of this country than ever before. We do not claim that the Farmers Union is the panacea for all ills, but by a strong and united effort we can get our just demands. I can not pass on without saying a word in behalf of the ladies who performed their part so well. Upon them depends the destiny of this and future generations. Without the fair sex this country would soon degenerate into a state of barbarism and savagery. Without them our virtue and our civilization would cease. Here's wishing the Gazette and its many readers a happy and prosperous new year. B. F. Gibson.

Cemetery Association Entertained Monday

The ladies of the Milano Cemetery Association met Monday afternoon in regular monthly session with Mrs. G. W. Mullins. Members present were Mesdames James Stewart, J. B. Newton, L. B. Dukes, G. D. Hooker, C. Howes, J. P. White, G. W. Mullins, Grandma Hooker, C. H. Lister and Mrs. Dan Robinson who came down from Temple that afternoon. After an hour or so of attention to business matters, the guests were ushered into the dining room which was neatly decorated with pot flowers, where refreshments of cake and chocolate were served. The meeting was a pleasant one and adjourned to meet with Mrs. J. P. White February 19th.

Her Last Day at School.

It was the last day of school. The teacher was giving a farewell party to her class, as she was to be married the near future. The children spent a pleasant afternoon, and before they realized it the time came to say good by. One by one they marched up and shook hands with their dear teacher. Doris said: "I hope you will get as good a husband as my papa is."

Coal Mine Whistle Blows Correct Time

If any of our Milano people want to know the correct time of day we would advise them to listen for the 12 o'clock whistle of the Big Lump coal mine. We have never known it to announce the noon hour incorrectly. That whistle blows right on the dot at 12 and again at 12:30. Set your clock or watch by it and you'll always have the correct time.

"Potter's Field."

"Potter's field," the graveyard in which are buried those who are interred at public expense, comes by its name legitimately. In England and the continent the clay used to make pottery was dug up in long trenches, which were left unfilled. Common consent soon made it possible for these unsightly stretches of ground to be put to the useful purpose of interring the bodies of those who were cared for as a charge upon the country.

Local News Notes Round About Town

Rev. R. C. Weir, our Methodist pastor, was in our city Monday enroute home to Gause from Minerva, where he held services Sunday.

Mrs. Dan Robinson of Temple came down on No. 5 Monday afternoon and spent a short while in the old home town, returning back home to Temple that night.

Mr. Chas. Williams was in town Monday with a load of wood. He remarked that the folks out his way had about decided to get busy plowing regardless of the dry weather. He says there is about eight inches of moisture in the ground round about the Cedar Creek country.

The Milano post office is doing a big business in selling Thrift Stamp and War Saving Certificates, especially the latter. Up to this week Postmaster Howes reports having sold 31 Certificates at \$4.12 each, making a total of \$127.72. Besides these Certificates 34 Thrift Stamps have been sold at 25c each.

A Good Opportunity For Small Investors

The United States government is offering the people a splendid opportunity to help win the war and to help themselves by buying War Saving Thrift Stamps. The stamps cost 25 cents each and when you have bought \$4 worth you then pay 12 cents for a certificate which will be good for \$5 on January 1, 1923. This pays you 4 per cent interest on your money compounded quarterly. The stamps can be secured at the Milano post office. Buy one of them and get started right. It is a safe, economical investment to buy Thrift Stamps. You can buy them all through the year 1918. It gives the poor man a chance.

Sand Grove Writer Wakes Up Again

Dear Milano Gazette: As it has been quite a while since I have seen anything in the columns of the much esteemed paper of your thriving little town, I thought I would try and start in with the new year and let the good people know we are still on tip top, nothing doubting.

Yes, this is a new day, a pleasant one and a lovely one, and to cap it all off, it is your humble correspondent's birthday. This morning at about 8 o'clock I left my 70th mile board in the rear and am now tipping along on my 71st with the prospects, appearance and hope of passing several more. I want to live to at least see the war end.

The health is fairly good now. The roseola has about made its run, as I think everybody has about had it and the mumps is now trying its hand. Grandma Johnston's family and some of John McLean's family are suffering from the mumps.

As for community news, it is rather dull. Farmers are despondent over the prospects. It is so dry that no plowing has been begun as yet. Oh! we are needing one of them tip top rains when the windows of Heaven seem to open and the rains descend in torrents and wet up this old earth once more.

Your correspondent visited his son-in-law and daughter, Mr. and Mrs. Ely at Gause during the holiday week. While there he had the pleasure of meeting two other of his daughters and son-in-laws, Mr. John Cherry and Mr. Hinton Pruette. I returned home by the way of Hix to visit two sons and families, Gus and Tom Buffington and met my first grand daughter-in-law, returning home on Friday.

As to religious interests I can't speak very favorably. We had a short Sunday School Sunday before last, three teachers absent out of five, also the Superintendent was not on hand. What's the matter good folks? Wake up. The coming of the Lord draweth nigh. Yea, I am listening for the sounding of the trumpet. I guess our new chapel organ will soon be here. It was ordered three weeks ago.

Bud Reager was at home a few days to spend Christmas with his mother and friends. He is stationed at Camp Travis.

Well, as I have nothing else to write, will close. "Tip Top."

To Overcome Fatigue.

If you are weary after a fatiguing day, on reaching home take ten minutes' rest lying on the back. When you rise, cleanse the face with cold cream, rubbing lightly across the lines and in an upward direction to correct sagging of the muscles. A cloth wet in very hot water should then be applied, followed by several applications of cold water. You will be surprised to find yourself quite rejuvenated.

Doctor Mullins Runs Across Good Luck

Doctor Mullins made a call out toward the Liberty settlement one day last week and returned home with a 20-pound ham and a big turkey gobbler tucked in the rear end of his car. Just a streak of double good luck, the Doctor called it. Two good neighborly friends out there presented him with the two big hunks of eatables. Coming home the Doctor went the speed limit. Said when he hit the high places in the road he could hear the ham and the gobbler bump up and down, letting him know that they were still with him, and it made him feel good, putting a new spirit and a new appetite in his anatomy.

Half And Half News Up Near Elevation

And how are you all by now? I am still in the land of the living and hope to stay a while longer.

Mrs. W. N. Baggett attended the Milano Woodman Circle Saturday.

Walton Sloan opened up his heart to the young folks Saturday night to a big candy pulling.

Mr. L. E. Hairston and wife and Uncle Tom Hairston were in Caldwell one day last week.

Some few of our people have begun plowing, but there is very little moisture in the ground.

Mr. Claud Martin has been in a critical condition with the rheumatism for the last month or so.

The school house at Baskin burned down Sunday night. The cause is unknown at this time.

Mrs. John Ryan of Cameron was visiting at the R. J. Sloan home for a few days this week.

Mr. J. B. Jackson has moved back to his farm from Bell county. Jack says the sand and post oaks look good to him.

The telephone subscribers of this community all got together some few days ago and put their line up in a first class condition.

Hurrah for Old John! He can cause more disturbance than anybody. John has gotten back home and I tell you he is all right. He didn't tell them jury fellows anything on me. But I'm afraid that John and this fellow Jackson are too thick. I heard them plotting a big squirrel hunt the other day. It might be a squirrel hunt, but I'm going to watch my hogs. John's a slick one all right. I heard him say that he had more fun this Christmas than ever before and he reckoned he had seen five hundred. But I guess he had so much fun because he and his wife is separated. But Mr. Editor, I don't think everybody knows it, so I'm telling you and then you'll know it too.

I will tell you what a business has been done and going on at Elevation. There has been a daily average of 100 cords of four foot wood being hauled there for the last several days. The wood figures an average of \$2.75 a cord and has given employment to lots of men, but it is hard work. But friends, it's all hard work now.

As ever, "The Old Timer."

Use of Gold in Teeth.

The use of gold as a substitute for lead or bone as a filling for the teeth was perfected in 1855 by Dr. Robert Arthur of Baltimore, while in 1884 Prof. W. D. Miller of Berlin, in his discovery of the bacteria origin of diseases of the teeth and of the large part played by lactie acid, opened the way to avenues of research, which may ultimately lead to the total extinction of the dentist. - New York World.

Genuine East Texas Ribbon Cane Syrup

I have received a barrel of Genuine Ribbon Cane Syrup, as fine as ever you have eaten, and can supply your needs in any quantity. Bring your jugs or kegs and fill them up while you can.

Peanut Hay

Have a quantity of good Baled Peanut Hay on hand and if you are needing any for your stock I would advise you getting it while you can.

J. C. BEARD

Mr. J. S. Beard of New Home, Lynn county, was in Milano several days this week.

The Newton store unloaded a car load of feed Thursday. The car contained bay, shorts and oats.

Read the financial statement of the First State Bank of Milano in this issue. It is an interesting tabulation showing the true wealth and financial resources of the Milano country. It appears on the last page.

Mr. W. T. Brooker received some few days ago a commission which his son Theo sent to keep at home for him. The commission reads to the effect that Theo is now a Sergeant of the Medical Department of the U. S. Army. Pretty nice for Theo, and his friends will be glad to hear of his promotion. He is still stationed at the base hospital at Fort Bliss, out at El Paso, Texas.

It Wasn't His Fault.

One youngster in school had delivered a severe kick in the stomach to another lad. When taken to task as to why he had struck his playmate there, he said: "I didn't mean to hit him there, but he turned around just in time."

News Notes From Around Summit

Mr. and Mrs. Henry Hutto spent Sunday at the Richards home.

Born, to Mr. and Mrs. Aldine Beard, Monday, a big soldier boy.

Our Farmers Union local is still growing. Six new members were taken in at the last meeting.

Mr. Raymond Beard and family and Charlie Martin made a flying trip to Cameron first Monday.

Miss Dadelia Walston, Miss Emmie Stovall and Emmett Dehr spent Saturday and Sunday in the Marlow community.

The candy breaking party at the Richards home Saturday night was well attended and all who attended report having had a merry time.

We learn Ed Bullard and family returned home Sunday from a fifteen days' visit to Mississippi where they spent Christmas with his mother. They brought a present home with them. Guess what? Measles. We hope they will soon be getting well and over with them.

THE STIMULANT

Advertising is to any business concern what gasoline is to an automobile. Both the business concern and the automobile can be made to go without either of the stimulants. You can push your car or get a mule to pull it. Any store can keep a certain portion of trade, but to do a humming business requires the advertising stimulant.

Happenings Of The Sandy Creek Country

Mr. J. L. Rutherford is building some more room to his home this week.

We learn that Mr. J. F. Akins will go to Camp Bowie after his stepson who has been given a discharge.

The infant child of Mr. and Mrs. Dorris Talbott of Temple was sent in and buried at Sandy Creek last Saturday afternoon.

Our folks are still changing places for the year. Mr. George McDonald has moved up near the mine, and Mr. E. D. Mobley has located on the McDonald place.

Mrs. Jake Rutherford is still at the Cameron sanitarium. She was operated on some few days ago and was reported as getting along nicely, but we learn at this writing that she was not doing so well.

A few of our folks have begun plowing for another crop, but owing to the dry weather everybody seems to be somewhat slower than usual, but just as sure as the war is going to end, it's going to rain here again.

Mr. Dave McCoy was at Rockdale Saturday night and lost his horse and buggy, which seem to have been stolen. He has phoned almost everywhere over the country but at this writing he has secured no information as to the whereabouts of the buggy or horse.

We are sorry to report that the Angel of Death has again visited us and claimed Mr. Carrol Touchstone. He died last Sunday afternoon and was buried at the Sandy Creek cemetery Monday afternoon at 4 o'clock. No one realized that he was so sick and his death was a shock to all. He leaves a wife and one child and a host of relatives and friends to mourn his death. We can not understand God's ways, but to such we can only say, "God's will be done."

Mrs. Guy Mullins and children returned to their home at San Antonio Saturday night after having spent a couple of weeks here with relatives.

Girl's Statement Will Help Milano

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. E. C. Plant Industry Out Look Appears Normal

The plant growing and shipping industry in the Milano country this year, beginning with this month, promises to be about as large as any previous years. Some considerable shipments have gone out all through the winter. Cabbage and tomato plants will sell for about the same prices they have sold for during previous years, but sweet potato slips will command a high price and then be at a premium, as they will be scarce and hard to get, owing to the potato crop failure of last year.

This Man Couldn't Walk Across Room

"I was in such a weak and run-down condition before taking Tanlac I couldn't walk across the room without becoming exhausted," declared L. E. Hortman, of 2463 Gold Street, a well known employee of the Great Western Oil Company, El Paso. Before coming to El Paso three years ago, Mr. Hortman was for many years assistant superintendent of the Shreveport Electric Company of Shreveport, La.

"About four years ago," he explained, "I had an attack of the grip, complicated with pneumonia and my health gave way entirely. My system seemed to be full of malaria and I had a very bad case of stomach trouble too, and for months all I could eat was raw eggs and buttermilk. I had terrible headaches and was so nervous, and tormented I just couldn't sleep hardly at all. I was in such a terrible condition I had to resign my position, and thinking a change of climate might help me I came out here but did not get any better.

"I had about given up all hope of ever getting well again, but when I saw what Tanlac had done for one of my friends I got a bottle. Well sir, it went right to the seat of my trouble and I began to feel a big difference right away. My appetite improved and I can now eat things that would have been like poison to me a few weeks ago. My skin seems to be clear, I have no more headaches, my nerves are all right and I sleep like a log. I have more vim and energy than I have had in a long time and I am so much stronger that I am now working every day."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler. Adv.

Those Who Forget Not

Mr. L. B. Dukes handed in a half dollar one day this week for subscription to the home town paper.

Mr. John P. Thompson, who recently moved over to Rockdale from our Milano country, was over here Monday afternoon. We took a dollar out of his pocket for another year's subscription for his Gazette.

Mr. Lesser Newton has been in the northern part of Louisiana this week trying to locate some corn for the Newton store. The store is trying to buy some 15 cars of feed for the Milano farmers. A card received from him Thursday morning stated that he had located some corn at Shreveport but the price was mighty high, and he intended to keep on looking for cheaper feed.

Snow Storm Hits Milano

The Milano country is covered in several inches of snow this Friday with a severe, cold blizzard raging.

Baptist Pastor Has Moved to San Angelo

Rev. J. A. Talley left this week for San Angelo, Texas, where he and his family will perhaps make their future home. Bro. Talley was pastor of the Milano Baptist Church for about two years and his citizenship of a little more than one year in our midst is appreciated, for he was a man who did his part to make the world better, and it is to be regretted that he and his family have left us. Their friends wish them every success in their new home.

THOSE WHO FORGET NOT

Mr. Ab Fisher left a dollar with us last Saturday for Mrs. R. N. Turney of near the Hanover community for a year's advance subscription to the Gazette.

Master Worthy T. Hilliard, the Gazette's youngest subscriber, left a half dollar at the Gazette office last Saturday for another half year's subscription to his home town paper.

Mrs. W. N. Baggett of the Elevation community left a dollar at the Gazette office last Saturday for a year's advance subscription to the home town and community paper.

Doctor G. W. Mullins left \$2 at our sanctum Friday morning for two Gazette subscriptions of a year each in advance for Mr. Ed Black and Mr. Den Neal, both of route 1.

Mr. G. W. Miller of the Liberty settlement handed us a half dollar while in town last Saturday for another half year's advance subscription to the home town paper. Said he couldn't go to sleep Saturday nights if he didn't get to read the Gazette before hand.

Mr. D. T. Galbreath of two miles west of Milano left a half dollar at the Gazette office one day the past week for 26 future copies of the Gazette to be delivered to his mail box one each Saturday. Crop prospects out his way are looming up just fine, Mr. Galbreath said.

Mr. J. B. Rutherford of the western Milano country left a half dollar with us the other day for six months' advance subscription to the home town and community paper. Mr. Rutherford is another good farmer with the optimistic spirit this year and reports Old Mother Earth doing her level best since the recent rains.

Mrs. A. L. Graham of the Summit community left \$1.40 with us last Saturday, paying her Gazette subscription ahead to sometime in next year. At the home of Mr. and Mrs. Graham the Gazette is a welcome visitor every Saturday morning. We asked about Mr. Graham, since we haven't seen him in some length of time, and Mrs. Graham informed us that ever since this winter he wasn't able to get around well enough to come to town as often as he formerly did, but with the coming of spring days and warm sunshine she expected him to improve.

Mr. Willis Smith was a Milano visitor Tuesday.

G. C. Walker went to Gause Tuesday on business.

Brice McClellen was called to Camp Travis a few days ago.

Who will revive Smyrna? We wish for a volunteer. Oxford City is lively enough.

Mrs. J. H. Luce and daughter, Miss May, were visiting at the Ashley home Sunday.

Mr. Tom Ashley, who is now located at Hearne, was visiting relatives in our community Sunday.

Crops in our country are looking well. The crabgrass has a good start, but by some good hard labor we shall all win out.

Ed Davis was visiting out on Pin Oak last week-end. He is expecting to be called to the army training camp at an early day.

Herbert Walker from Pin Oak was visiting his brother T. E. Walker, here Sunday. He also came by to see his new little nephew as he passed through here.

Are You Saving For That Rainy Day?

Keep a bank book instead of bank notes. A bank account will give you a better standing in the community. If your name is not on our book we invite you to put it there. Why not do so today? Cultivate the saving habit. You will find it profitable. It is not how much you earn but how much you save that will count when the proverbial rainy day comes. If you have no bank book bring in a deposit today and get one. One dollar starts you.

MILANO WENT "OVER THE TOP" WITH \$1150 FOR MARGIN

Milano has made good. Gone "over the top" by a good margin in the Third Liberty Loan Bond issue. Not only went over, but went \$1150 better. The citizens who bought the Bonds have a right to feel proud, and those who could not buy have a right to feel proud too. Little old Milano is a red-hot live-wire little old burg when it comes to a show-down where a big thing is at stake. With the small valuation of its territory and thinly settled sandy land country and a great big quota bestowed upon it, we think Milano citizens and those of the surrounding communities have done a wonderful thing. Milano went 20 per cent over her quota. That is 120 per cent patriotic in honor of the Third Liberty Loan Bond Issue. Following is a list of the buyers:

News Notes From Around Oakdale

Miss Sophia Nicholson of Hoyte is at home again from a visit to her brother at Sour Lake.

Eugene Hause of Curry spent Saturday night at his father's home, returning home Sunday morning.

A. L. Oneal came down Sunday evening from Cameron with a thousand potato plants which he set out on his farm Monday.

There was quite a gathering Saturday night at the Sam Blackmon home, a kind of a family reunion of kin folks.

Mr. Theo Aschenbeck and mother came by for Mrs. Sam Nicholson and son Jack, Friday evening, the four of them motoring over to Ben Arnold to attend a play.

Quite a crowd of Oakdale and Hoyte people gathered at the railroad Friday to see if any of the new soldier boys were known by them, but the train was late and it went so fast we couldn't tell one boy from the other. But there was a coach full that gave a yell of some kind as they went through.

T. M. Williams Wants To Be Commissioner

The Gazette is authorized to make formal announcement to the people of Milano and the surrounding communities of the candidacy of Mr. T. M. Williams, who is a candidate for County Commissioner of this precinct No. 3, subject to the action of the primary election in July.

Mr. Williams is a well known business man of Rockdale and is also well and favorably known all over the Milano country. He is known as an honest and straight forward man, one whose word is good for any promise he might make. He wants to be the next County Commissioner of our precinct and pledges his supporters that he will make them a worthy and efficient official in that capacity.

Mr. Williams, or Uncle Tom, as many of our people familiarly know him, has been a citizen of this section of the county for many years and is an Ex-section Boss of the early days of railroading, having experienced some 30 years in railroad work, and with this knowledge, he is well qualified for this precinct.

Mr. Williams, Uncle Tom and his worth. That's the people in giving and that he will make County Commissioner. Subject to the July election and he asks your vote for his candidacy.

Plant Industry Far Ahead Of Last Year

That the plant business in Milano is far better this year than ever before, is substantiated by the report of the E. C. Smith Plant Farm that sales and receipts up to the last day of March this year were \$1,380 more than they were the year before. And the month of April will likewise eclipse the April record of last year by a huge amount, but Mr. Smith has not as yet compiled the figures. Mr. Smith expects good business all through May and part of June and will have various plants for sale as late as the middle of July.

News Notes From Liberty Community

Miss Sallie Fisher has returned home from west Texas where she has been teaching school.

Mr. and Mrs. H. B. Belt of Oakdale were guests at the home of Mrs. S. M. Bullock Sunday.

Mrs. Sallie Bullock returned home the first of the week after a pleasant visit with relatives and friends at San Antonio.

Bro. Henson of Gause preached for us Saturday night and Sunday. His sermons were interesting and large crowds were out to hear him.

Grandma Westbrook is up and was able to visit her daughter the past week in the Pin Oak country. Mr. Jim Stewart of this community taken her over there in his Ford.

We were grieved to hear of the death of Mr. G. W. Shaffner. We know that Milano has lost a good citizen and we extend our deepest sympathy to the bereaved family.

Mr. A. J. Hildebrandt informs us that he has lost 8 head of hogs with a very peculiar disease. He now has only 4 hogs left and we sympathize with him, for it's a great loss to lose hogs these war-time days.

Mr. J. K. Miller received a card from his son Martin, the other day, stating that he was on his way to the Naval training station in California instead of the station at Great Lakes, Illinois, as was at first thought. He and Mann Fisher of Hanover were sent together.

Liberty farmers have been very busy the past week, some planting cotton, some peas and in fact all busy keeping "general green" from getting the upper hand of the plow. Crops look well considering the cold weather, which has been a great drawback to their growth. But cheer up and do not grumble, for we ought to be thankful for the good rains which we have been blest with, especially when we read of the awful drouth which is still existing in the far western counties.

Put In Everything.

Early Vegetables Coming Our Way

Our friends: G. J. Neeley, B. F. Gibson, A. B. Bradberry, C. J. Stevenson, E. R. Cates, and their families, all have our thanks for nice large supplies of early vegetables left with us during the past few weeks. Mr. Neeley brought in the first Irish potatoes, while the Bradberry and Stevensons have been supplying us with such huge quantities of delicious radishes that we would be ashamed to let anyone know the exact immensity. The Gazette man himself, is some radish eater. Then too, there's Bro. H. T. Hart, our neighbor, he also has our thanks for some nice edibles from those two garden patches of his.

G. W. Shaffner Died Last Friday Night

At just about 9 o'clock last Friday night Mr. G. W. Shaffner died at the family home in Milano at the advanced age of 63 years and after an illness of over a year's duration.

Advanced age, coupled with a hard working and useful life, completed the allotted tasks of this man and his reward of eternal rest has been granted as a final blessing.

For some 30 years he had been an employee of the Santa Fe railroad company here, and had established a record of railroad efficiency for himself that would be hard to find a semblance to. About 2 years ago the railroad company placed him on the retired list on account of his advanced age and wonderful record.

Mr. Shaffner was one of Milano's early day citizens, was a good man and had the worthy esteem of all his friends and the citizenship in general. He was a member of the Masonic order, and with these honors he was laid to rest in the Milano cemetery Saturday afternoon. The bereaved family, his wife and the children, have the sympathy of all.

Milano Is Now Flying A Liberty Honor Flag

Cashier W. O. Newton of the Milano Bank wired the Federal Reserve Bank at Dallas last Saturday morning that Milano had gone "over the top" in Liberty Bond sales and was ready for her Honor Flag. In just a little while thereafter Mr. Newton received a message of congratulations and notice that the Honor Flag had been mailed. It arrived here Sunday morning and now floats just below "Old Glory" on the city flag pole. It means that the Milano citizens who bought Liberty Bonds have achieved a wonderfully patriotic distinction for the town and citizens.

Early United States Currency.

In the early periods of the United States 1-cent pieces were copper, then for a comparatively short time of nickel, though the proportion which the copper and nickel coins formed of the total is very small, the entire number of copper 1-cent coins issued being 150,289,000; nickel, 200,772,000; bronze, 2,448,711,000.

Some Newsy Items Of The Prospect Country

Yes, we got that fine rain again Tuesday and it was just what the Doctor ordered.

Mrs. Victor Wimberley is at home again from some point where she had been for eye treatment.

Mr. H. B. Belt failed to go to Rockdale last Saturday, and it was such an unusual thing for him to miss going that two doctors came out to see why he wasn't in town.

Oh yes: We have three kinds of patriots who would die for the flag. One for the good name it gives him, another who hides behind it, and the last those who love it for the dollar. And that is why if we buy it is high, and if we sell it is cheap.

As Miss Alice Wimberley and Miss Pearl Straun were going to

Milano in a buggy one day last week a little Ford came along and frightened the horse, breaking the singletree and putting the buggy out of commission, but the Ford kept going. The buggy was broke down and the girls had to do something, so Miss Pearl led the horse while Miss Alice got behind and pushed the buggy, and after a while they met Mr. W. C. Mobley and Mr. Frank Baker who fixed the buggy so the ladies could go on to town.

Mr. and Mrs. H. B. Belt were visiting in the Hanover community last Sunday.

Billiard Balls.

Billiard balls are turned in the rough and kept in a warm room, sometimes as long as two years. Then, after shrinking, they are turned again.

2 Cases Of Whiskey Stolen Friday Night

Two cases of whiskey were stolen from a sealed box car at the Milano freight depot last Friday night. The seal of the car was broken and a new one placed on after the booze was secured. A couple of railroad detectives came down from Temple or some other point to investigate the matter, but at last reports they had not recovered the stolen beverage. The whiskey is said to have been loaded on at Cameron and was on its way to consignee at Spring, Texas, and there were 10 cases of the stuff in the car when it was stolen.

An Interesting Letter From Sand Grove

Old Brother Johnson is still suffering from the ravages of a cancer of long standing.

Rev. A. E. Buffington of Hicks will preach at Sand Grove the fifth Sunday in June, and also on the Saturday night before.

Our near neighbor, Mr. Humbert, has been in ill health for some time with something like asthma. He went to the Cameron sanitarium for treatment last week.

I have never seen the farmers more hopeful with prospects than this year, and I am getting to be a right old man, being in my 71st year. Neither have I ever seen better stands in crops or the seasons any better in all my life.

Garden and truck patches are simply lovely. We should all be very grateful and praise our God for his gracious and glorious blessings. The Sand Grove people never fail to thank God for these blessings during their religious gatherings.

We were truly sorry to hear of the death of old Brother Jim Beard, and also old Brother Jim Shephard. The writer has known these two old brethren for quite a number of years and thought a great deal of them. We extend our heartfelt sympathy to the bereaved relatives.

In the Gazette of week before last the Sand Grove correspondent by the pen name of "Violet" said there was no religion here. I want to say in this communication that I shall assume the privilege and authority to deny that statement. As to religious matters I claim that we are equal to, if not above the average community. We have a Sunday School and a prayer meeting every Sunday night and a union of the different churches. It is an evident fact we have a few critics in our community, but thank God we have always had Christian and religious people enough to take care of the house of the Lord. Will close for this time. Rev. J. P. Sparks Writes Home Again

Burleson, Alabama, April 25, 1918. Milano Gazette: Greetings in Jesus' name. We have just closed one of the greatest meetings of my life here at Burleson for the Baptist people. At the last service of the meeting some 75 or 100 people claimed the victory. The people are begging us to stay all the year, but we are thinking of turning our faces toward Texas soon. Farmers in this country are busy stirring about with fine prospects for crops. Plenty of rain and everything is looking nice so far.

Yours in Him, J. P. Sparks. P. S.—We are so glad to get the paper. It is a letter from home.

Berry Time Is Here And We Have The Fruit Jars

Berries are now getting ripe and they will need canning and preserving, as well as many other good things that will be ready soon. We have a large supply of Fruit Jars, a complete assortment of all the various sizes, which we want to put into the homes of the people of the Milano country. You can not preserve or can up too much, and it might be a good idea to get the Jars while we have them. There is sure to be a big rush for them later on. Also have plenty of Jar Caps and Rubbers.

If you are missing your biscuits for breakfast why not get some of our substantial breakfast foods? Many good kinds have we here for you.

If you need anything in a kitchen utensil just look over our counter of a big lot of tin and enamel ware. Just most anything you might want.

R. AND J. S. BEARD.

\$49.80 Will Bring Him \$60.00 Jan. 1st, 1923

Rural mail Carrier W. F. Hooker of Milano route 1, made a considerable sale of War Saving Stamps the other day when he sold \$49.80 worth to Mr. J. K. Miller of the Liberty community. In 4 years and 8 months from now Mr. Miller will receive an even \$60.00 in cash for those 12 War Stamps. It's a good investment and a sure way to accumulate savings. These stamps are on sale at the Milano post office and can be bought at any time during this year of 1918. During this month of May a War Saving Stamp costs \$4.16 and will bring you a five dollar bill on January 1, 1923.

Finger Prints Invaluable.

Of course it is in connection with the detection of criminals that the fingerprint record is most used. It is claimed that China used it 4,000 years ago. It is in use in Scotland Yard and in Paris and in the big cities of this country. But it has proved invaluable in identifying honest folk as well as criminals.

News From The People Down About Summit

Mr. A. T. Stovall and family visited relatives at Gause Sunday.

Mrs. Albert Wilson of Thrall was a guest at the G. R. Hurt home a few days last week.

Mr. S. E. McGregor and family and Mr. Dave Shaffner and wife were guests at the Hutto home Sunday.

Mrs. Willie Woods and Mr. Henry Woods and mother were in Brazos county the past week, where they attended the funeral of a relative.

A crowd of our boys went on a wolf chase Sunday and captured 7 cubs which they found in a den. They killed the old one and 3 of the cubs, 4 being taken alive.

Mr. S. C. Woods and son Baxter, returned home last week from Grimes county and reports Mr. and

Mrs. Frank McGregor the proud parents of a baby girl.

Little Alma Richards happened to the misfortune of getting both her feet cut with an axe Sunday, and while she was badly hurt, it was not very serious, but kept her from being able to walk for several days.

Yes, Mr. "Napper," I am opposed to women voting, and if you will read your Bible you will be opposed also. If God had intended for women to be ahead of the men, then He would have created woman before He created man. He knew best, therefore created man first and the woman for a helpmate. What will it all mean when women get in power, leaving their homes and children to run from place to place seeking election to some office?

Sold His Home In Search Of His Health

"After I had spent every cent realized from the sale of my home, and several hundred dollars besides, in trying to recover my health, two bottles of Tanlac did me more good than everything else put together, which certainly was a wonder to me," was the statement made recently by Robert A. Land, a motor-man on the El Paso Electric line, who lives at 1013 San Antonio street, El Paso, Texas.

"My health gave way five years ago," he continued, "and I began to go down hill so fast that for four years I wasn't able to do a lick of work. My stomach was in such an awful fix I had to force down what little I ate and nothing gave me any nourishment. Even the raw eggs and milk I lived on soured on my stomach and I would be almost choked with gas and my heart acted so strangely I was afraid something was wrong with it. B. F. Gibson Writes Of Farmers Union

Milano Gazette: I wish to make a brief reply to the correspondent at Summit. He says that I seem to think the Farmers Union is going to rule the world, and that God will protect us just the same after the war as He always has, union or no union. My letter was not based on the assumption that the Union would rule the world, and I had no such idea. But, my dear sir, if the world would follow the basic principles of the Union, "equality, justice and the golden rule," a higher standard of morality and love for one another would be attained, and a nobler and higher civilization would shine forth as a beacon light that would illuminate the earth. The Farmers Union came into existence as a necessity. The tillers of the soil and laborers of this country produce all the wealth and they should be the proudest and most independent people on this mundane sphere. The Summit scribe says that God will protect us. Is God protecting the unfortunate victims of the most serious drought that ever descended a country? Do you know what a man who is not a member of the Farmers Union can not do for his household? He can not produce enough to live on in the present conditions. The Farmers Union is the only solution to this problem. B. F. Gibson.

Some Milano We Have To Say

Ashley says: His three potatoes are looking good. He says they are the best he has ever seen. The potato rows are looking like a garden.

Drandt says: He has three potatoes now. He isn't going to eat them at all. Says he will save them for a great success.

Dennis says: He has three potatoes now. He isn't going to eat them at all. Says he will save them for a great success.

Edy says: For three days he has been inspecting the soldier inspector and during the time he has never as yet found a single potato among soldiers at various points, and any other contrary is erroneous.

G. W. Mullins says: The and Hobby race for the arnorship is the biggest issue that Texas has ever had. It's the biggest piece of chicanery the people have ever seen. He said.

It says: Five hundred potatoes will easily set out a full acre or more. The early slips after being transplanted will keep on making vines from which additional slips can be taken with the assurance of producing a good crop of potatoes, even if the later slips are planted late in June.

Mr. L. L. Hall says: He went broke buying three Liberty Loan Bonds, one of each issue, but he's happy at the thought thereof. For what use, he says, would he have of his money if Uncle Sam failed to win the war? Mr. Hall is yard-clerk at the freight depot and has been in Milano only a few weeks and says he likes the little town fine. His own home town is Richland Springs, San Saba county.

Early Egyptian Maps.

Maps originally appeared among the early Egyptians. They were wooden tablets on which land and sea, roads and rivers were fairly accurately outlined. The evidence of such maps is not only furnished in the old Egyptian papyrus rolls, but some of the actual maps have been discovered. It was once contended that the Greeks were the inventors of the art of cartography, but it has been proved that the Egyptians and Babylonians antedated them in this respect.

Ladies' Ready Trimmed Hats

Just arrived and now on display, a very attractive and beautiful line of this season's Ready Trimmed Hats, in all the popular shapes and various colors, trimmed by expert milliners.

Every hat in this line is a model pattern, the season's very latest creations and no matter how difficult you are to please, you will most likely find just the hat you have been wanting.

Prices of these hats are low compared to what the regular millinery emporiums charge and this is one big factor we want the ladies to consider when they inspect our line of hats.

This line of hats embrace these high Quality Features: Latest Creations—Nobby Styles—Neat Shapes—Expert Workmanship—Fashionably Correct—All the Beautiful Colors and Shades—And the Low Prices they sell for.

The line and assortment is quite extensive. Call around and at least look them over.

From Glory To Glory!

Eighty-two years ago last Sunday Texas, under the leadership of General Sam Houston, wrung Texas Independence from the unwilling hands of Santa Anna. Goliad and the Alamo had gone into imperishable history, and the monument over the graves of their fearless defenders was the Free and Independent Republic of Texas. What Texan today enjoying the fruits won by the heroes who died for what we have can refuse to give all that he has to perpetuate what was won for us in that great struggle? Ingrate and traitor is the fellow who shares the blessings we have inherited from the glorious founders of Texas who refuses to share in the responsibilities of our country's peril.

Report Of The Milano Red Cross Auxiliary

The Milano Auxiliary of the Red Cross has turned over to the Rockdale Chapter 19 two-piece hospital suits, 9 pairs of wristlets, 6 helmets, 5 sweaters and 4 pair of socks. There are several more knitted garments to be furnished. We have received instructions from headquarters to discontinue making gingham suits and use outing instead. Let this be an urgent request to every man and child to respond more freely to the call for Red Cross aid, and please give more cheerfully to the collectors who call on you each month for an offering. Every penny collected is accounted for. Red Cross Chapters everywhere are using this plan to keep the work rooms supplied with material. A Report of Liberty Cemetery Association

The ladies of the Liberty cemetery Association met at the cemetery last Friday afternoon and did considerable work. Forty workers were present and all brought hoes and our cemetery was well cleaned. We have between 75 and 80 members, but only 40 who are paid up. The Association is 2 years old. We have built a little house, bought tools and straps for burial purposes, had made two long benches, bought files, six hoes, high-life to kill ants, white paint to paint the rocks and black paint to mark the names on the stones, and after all expenses are paid we have \$50.30 still in our treasury. Can any other association beat us? We invite anyone to come and inspect our work and see if we haven't the cleanest and neatest cemetery you can find anywhere.

SOME LOCAL NEWS ITEMS

Earl Robinson was home Sunday from the A. & M. college.

The Burnet plant farm finished filling an order for plants to a party the past week whose bill for various plants amounted to \$193.00.

Rural mail carriers M. J. Pierce W. F. Hooker, also Capt. L. Bedell attended the War Stamp meeting at Cameron Monday afternoon, returning home that night.

Bro. W. E. Hawkins, a Sunday School worker of the Texas Conference, is entertaining Milano citizenship with some good lectures at the Methodist Church during this week.

Dewberries over the Milano country are reported scarce this year. Some say the drouth of last year had killed many of the vines and attribute this as the cause of the small vines and scarcity of the berries.

Rev. J. C. Welch of Fort Worth delivered the Baccalaureate Sermon at the Methodist Church Sunday night, and remained over to the commencement exercises Monday night at the Baptist Church. While here Bro. Welch was a guest at the home of Mr. and Mrs. C. Howes.

Milano People Not Buying Fast Enough

Captain L. Bedell, vice-chairman of the War Saving Stamp campaign for Milano, says he has received instructions from headquarters that Milano must move up a little faster on its thrift stamp and war stamp sales. As the Gazette figures it, Milano's quota is \$3,734.00 and the per capita is \$20 for each and every man, woman and child in the United States. The poorer people can buy and help win the war. So far the Milano post office has sold \$1,545 worth of the stamps. This is only a little over one-third of our quota. Of course you have all this year in which to buy these stamps, but the sooner they are sold the sooner will our task be over. A war stamp costs \$4.16 and can be cashed for a five dollar bill on January 1, 1923. War stamps are a good investment.

Milano Must Help In The Red Cross Work

The week from May 20th to 27th has been announced as War Fund Week for the Red Cross, during which time the people of the United States are asked to give a donation of \$100,000,000 for war relief work. Milano is under the jurisdiction of the Rockdale Chapter whose total quota of this amount is \$5,000, which is to be raised by Rockdale Thorndale and Milano people. Just how much of this is Milano's quota we do not know, but it is another call of "Help and have mercy." In the Red Cross campaign of last December Milano people did wonderfully well. Now that money is all used up and more must be had. When this Red Cross week comes around be ready with your dollar or a few more. The ladies of the Milano Red Cross will call on you.

Singing Convention Next Sunday

A special call has been issued and the Gazette requested to announce same that there will be a call Singing Convention of all the singing clubs in this district, which will meet at the Milano Baptist Church on next Sunday, May 19th, for an all-day session. Everybody is invited to attend and bring along the baskets of dinner.

Mrs. D. W. Allen of Fort Worth is a guest at the home of her mother, Mrs. Howes, this week.

The E. C. Smith Plant Farm is busy working overtime day and night filling its heavy rush of plant orders.

The family of Mr. T. C. Kennerley motored over to Wheelock, Robertson county, last Saturday and spent several days there visiting relatives.

Rev. and Mrs. J. P. Sparks arrived in Milano Wednesday night from a several months' sojourn to points in Alabama. They returned home on the train, Bro. Sparks having sold his car while in Alabama.

Commencement Was Big Affair

The Milano school commencement exercises at the Baptist Church Monday night consisted of an entertaining program that was well rendered to a full house. The affair was a big honor to the school and the graduates and reflected great credit to the faculty who have taught a very successful term. All Milano is proud of its school and graduates—Miss Myrtle Worthington and Miss Mae Stewart.

BIG CAMPS HAVE BELL SERVICE

The Bell Telephone System has supplied complete telephone systems for the National Army Cantonments and National Guard Camps.

Each has been equipped with a complete telephone system consisting of a switchboard and a modern cable distributing plant, and supplied with especially trained switchboard operators.

Long stretches of open wire and cables containing from fifty to one hundred pairs of wires furnish trunking and toll facilities to near-by cities. Where the camps are remote from any large town or city, toll switchboards have been installed.

Telephone equipment which under normal conditions would require from nine to ten months to manufacture was manufactured and installed in less than four months to meet the military needs of the Nation.

A Wolf Chases Berry Hunters

Two young Milano ladies went down the Santa Fe railroad track one day last week dew-berry picking and when a couple of miles from town they found themselves being surveyed by a grey wolf who gave them a good chase for a full mile or so. As a result their dewberries consisted of a small quantity.

Mr. S. S. Moore of Gause, but now of Camp Travis, was in Milano Monday of this week.

Preparations are under way for a Children's Day program at the Methodist Church for Sunday, May 19th.

Mr. A. J. Hildebrandt has our thanks for a big lot of fine turnips left at the Gazette office last Saturday. They were just a fit to Sunday's dinner.

Miss Carmen Robinson came down from Temple last Saturday to attend the graduation of her friend, Miss Myrtle Worthington, and spent several days in Milano as a guest at her home during her visit.

Cemetery Ladies Met Last Monday

The Ladies Association met Monday afternoon at the home of Mrs. G. D. Hooker with six members present. Collection of dues amounted to 55 cents, which placed in the treasury gives a total of \$9.05. After the business matters were attended to refreshments of cake and chocolate were served. No meeting place was selected for the next regular monthly meeting.

War Saving Stamps are an investment for the poor man, besides you will help win the war by lending your money to the government. During this month the certificates cost \$4.15 and in January, 1923, they can be cashed for a \$5 bill.

Fire was known early in human history. Primitive man probably first learned to produce it by rubbing pieces of wood together.

Says He Reported The Facts Wrong

Milano Gazette: I want to reply to "Napper" who wrote Prospect news in last week's Gazette. In regard to the auto and buggy incident he was badly mistaken on all points. The car was not a Ford but a Chevrolet—of course he doesn't know the difference. The car did not frighten the horse as he stated. The horse was standing still and was lashed with a long stick which caused him to jump, thus breaking the singletree. The car was mine and I was driving. I had no reason to stop, so did not do so. My car was absolutely clear of any responsibility. "The Car Owner."

Prof. McMillan And Family Move Away

Mr. J. G. McMillan left Monday night for Stilson, Liberty county, where he and his family will make their future home. Mrs. McMillan and the children had preceded him, they having left last Saturday. Prof. McMillan has been principal of our Milano school and a citizen of our little city for the past two years and under his administration the school has made excellent progress. His departure is regrettable, but we wish him and his family every success and happiness in their future home, or wherever they go.

Most Expensive Wood.

The most expensive wood in the world is said to be the boxwood imported from Turkey for the use of engravers. The cost ranges from 4 to 10 cents a square inch for the best grade.—Brooklyn Standard-Union.

Auto And Its Occupants In A Big Rain

As Mr. C. M. Beard and daughters, Misses Bernice and Mabel, and Mr. O. P. Lagrone were returning home from Gause last Saturday night in the rain, they encountered a very bad place in the road about a half mile east of Milano just beyond the J. F. Coffey truck farm and their automobile was so badly stuck in water and mud that they had to leave it. This happened about 12 o'clock midnight. They left the car and spent the night at the J. C. Beard home, the car being rescued sometime during the next day.

The Donkey Tale Gets A Reply Kick

Milano Gazette: I wish to state my honest opinion of the Oxford City news writer for the offending paragraph he wrote week before last concerning the fellows who ride away on Sundays and leave their wives at home alone. He said he ought to be the donkey—well he is. In my honest belief he showed an ugly disposition and bad kicking qualities. No good man will or ought to utter his opinion of affairs that are no business of his. Such expressions won't elevate his friendship among his good neighbors. He kicked me, therefore I kick him. Worth Thousands Of Dollars" He Says

"It's worth thousands of dollars to feel like I do now, since Tanlac has taken away the trouble that kept me in misery for the last twenty years," said M. B. Daniel, a well known farmer living on route No. 2 out of Abbeville, Ga; a few days ago.

"Whenever a man suffers as long as I did, he gets to the place where he feels like he's no more good in this world," he continued, "and that's just how I began to feel. Long ago I got so weak I couldn't carry on my work, for spells of stomach trouble and nervousness just made it torture for me to try to eat, and the trouble I had wouldn't let me sleep at all. Many a night I have sat up until morning, so shaky and nervous I couldn't even doze off. My heart would flutter and act queer until I was afraid it would stop and I got so blue and discouraged I felt like I didn't much care if it did.

"I'd been well enough satisfied just to have my sufferings relieved, but that's not all Tanlac has done for me—I have gained eleven pounds in weight—since I started taking it. I can eat as hearty a meal as if I had never had stomach trouble at all and my strength has come back so I can do as much work in a day as I ever could before I took sick. I just feel like a new man all over and will be glad to tell anybody who wants to know, if they will write me, just what this wonderful medicine, Tanlac, did for me."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler.

Compensation.

One can do really good work without making money along with it. In this day and generation, when good workmen are at a premium. If you are a good workman, working for the love of your work as well as for its money value, you may know that you will find your compensation in it. And it will be more than a money compensation, you may be very sure.

News Notes From Liberty Community

Mr. J. K. Miller was a business visitor at Milano Monday.

A singing was greatly enjoyed at the Gunnels home Sunday evening.

Mrs. J. K. Miller and Mrs. Fred Fisher were visitors at the Lantrip home Monday evening.

Mr. A. J. Hildebrandt has purchased an automobile. Mr. Oscar Fisher is also the possessor of a brand new car.

Mr. and Mrs. Connor, parents of Mr. A. J. Gunnels, have located in our settlement. They are from Bell county and arrived last Saturday.

There will be prayer meeting at the school house every Wednesday night and everybody is cordially invited to come and bring your friends with you.

Since the big rain of Saturday night everything is beginning to look like prosperity. Most everyone is through planting cotton. Our people all have fine looking gardens, so you can see that our bill of fare is cut down considerably in cost.

Mr. J. K. Miller was at Milano Tuesday and while there purchased \$50 more of War Saving Stamps. This makes \$100 he has loaned the government. It seems like a lot of money for a poor farmer who has his whole living to dig out of the ground. But it is our duty to be patriotic so far as possible. Who else will be next to show loyalty?

Berry Time Is Here And We Have The Fruit Jars

Berries are now getting ripe and they will need canning and preserving, as well as many other good things that will be ready soon. We have a large supply of Fruit Jars, a complete assortment of all the various sizes, which we want to put into the homes of the people of the Milano country. You can not preserve or can up too much, and it might be a good idea to get the Jars while we have them. There is sure to be a big rush for them later on. Also have plenty of Jar Caps and Rubbers.

If you are missing your biscuits for breakfast why not get some of our substantial breakfast foods? Many good kinds have we here for you.

If you need anything in a kitchen utensil just look over our counter of a big lot of tin and enamel ware. Just most anything you might want.

Nutritious Olives

Have you ever tried a can of our Olives? They should be on your table at all times. They are healthful. Eat one or two a day.

California Raisens

As a wholesome food nothing beats a few raisens eaten every few days. We have them in cans, the finest you ever saw.

This store is making every effort to keep on hand at all times a full line of wheat substitutes. We strive to fulfill every requirement imposed by the Food Administration. We solicit your trade, and you will find our stock of staple and other groceries as complete as conditions will enable us to keep them so.

Ladies' Ready Trimmed Hats

Just arrived and now on display, a very attractive and beautiful line of this season's Ready Trimmed Hats, in all the popular shapes and various colors, trimmed by expert milliners.

Every hat in this line is a model pattern, the season's very latest creations and no matter how difficult you are to please, you will most likely find just the hat you have been wanting.

Prices of these hats are low compared to what the regular millinery emporiums charge and this is one big factor we want the ladies to consider when they inspect our line of hats.

This line of hats embrace these high Quality Features: Latest Creations—Nobby Styles—Neat Shapes—Expert Workmanship—Fashionably Correct—All the Beautiful Colors and Shades—And the Low Prices they sell for.

The line and assortment is quite extensive. Call around and at least look them over.

Senator E. A. Decherd For Congressman

Senator E. A. Decherd of Franklin has entered the congressional race for Congressman from this Sixth District of Texas which includes Milam county.

Four years ago Mr. Decherd began his political career as Representative of Robertson county and was soon recognized a leader of the House of Representatives. He was the author of the rural high school law and joint author of the million dollar rural school bill. He supported woman suffrage and it seems he is, as a rule, always on the right side of the paramount issues.

Two years ago he was elected by the people as State Senator from the Twelfth District. Now he offers our people his services in a still greater capacity, and if elected he will make this district an industrious, efficient, and most able representative as Congressman to the House of Representatives at Washington.

It requires a big man to fulfill a congressman's duties in this present day era, and Senator Decherd is a man for the occasion. His mind and heart work in harmony down to the greatest depths of deep thoughts for the sake of his country. He is in full accord with the national administration of today; is 100 per cent progressive; and his broad-mindedness and impartiality have molded him into a man who will make the people of this district a great and able Congressman. His name will appear on the primary ticket and your consideration and your vote is respectfully solicited, and in the event of his election his appreciation will be shown by the good works and record he achieves.

What Some Milano People Have To Say

Mr. J. A. Arthur says: In his opinion eggs should be sold by weight and not by the dozen.

Mr. J. H. Burnett says: Last Sunday's rain was the biggest rain this section has had since the Galveston flood in August of 1914.

Mr. H. B. Belt says: He's going to have a big water melon patch out his way this summer. Anyway, he has 744 hills of seed planted.

Mr. O. P. Lagrone says: He will never again grumble about too much rain, even should the waters reach from hill to hill. The drought of last year has similarly converted many a man into the same decision.

Mr. J. D. Grady says: Fully 90 per cent of all car trouble with an automobile is due to the spark plug. Clean them with a cloth at least once a week and your engine troubles will decrease most wonderfully.

Mr. R. W. Elliott says: He believes "Roaring Bill" is going to turn out to be a pretty good fellow, and said if he is called to the army before the story ends he will finish reading it down at Camp Travis.

Mr. J. A. McClellan says: The one-horse farmer is a man who will spend a whole day telling his neighbor how consistent he is, then go to a bald-headed man for hair tonic, and to a consumptive for cough medicine.

Mr. J. A. Touchstone says: Among other repairs and improvements that the Milano gin will undergo this spring, will be that of its corn or grist mill. Business in that line alone, Mr. Touchstone said, will surely be big this fall.

Mr. L. Newman says: The red skin Porto Rico yam is the best all-round sweet potato for cooking and eating purposes. No matter how various the sizes, they bake done in the oven all at the same time and you can squeeze them out of their baked hull so easily and nicely.

Captain L. Bedell says: If he was given the choice of selecting a company of soldiers for army service of the highest fighting spirit he would choose men from 16 to 19 years of age. The young fellows, he says, are the ones who "go over the top" the quickest and fight the bitterest.

THOSE WHO FORGET OT

The Gazette acknowledges receipt of a letter and money order for \$5.00 from Mrs. Nettie Erwin of Hearn, Texas, requesting that the Gazette be sent to her address.

Douglas McCowen left a half dollar at the Gazette office a few days ago for a half year's subscription to his home town paper. Thus Douglas becomes the Gazette's second youngest subscriber on our list.

Station Agent S. W. Taylor left 75 cents with us one day the past week for six months' subscription which he sends to Mrs. Taylor's care and mother, Mr. and Mrs. Chas. Bando at New Castle, Texas.

Mrs. A. B. Bradberry left a dollar with us last Saturday for another year's subscription to the Gazette. Mr. and Mrs. Bradberry, as well as the children, are all big readers and among their choice of literature will be the home town paper.

Zedlitz of the Sharp company handed us a dollar while passing through Milano Monday for a year's subscription to the Gazette. Mr. Zedlitz is a prosperous farmer of the Rio River country and we have a standing invitation to get acquainted with him and that big head brother of his, Mr. George Zedlitz, by time we get good and ready.

Red Cross Quota For Milano District \$500

The people of Milano and the district have been divided into sections of the Red Cross Chapter to furnish a donation of \$500. The total quota of the district is \$6,350. The quota for the district is \$100,000,000, or a little less than \$1 per capita for every man, woman and child in the entire country. The campaign begins next Monday and continues until and including the following Monday, one whole week. So be ready with your donation when the Milano Red Cross ladies call around or ask you for a dollar or two on the streets. Milano must not fall down on its quota in anything it is asked to do to help win the war.

News Notes From Down About Summit

Archie Hurt has been suffering from an attack of asthma, but is improving again.

We are being blest with plenty of rain this year and we are certainly thankful for it.

We are requested to announce that Bro. Gibson will preach at Summit on the fourth Sunday.

Our crops look fine and the farmers are busy plowing and chopping cotton while the ladies are busy canning up berries.

We learn that our mail carrier, Mr. M. J. Pierce, has sold something like \$75 worth of War Stamps in our community last week.

Those from here who went to Hanover to attend the Singing convention last Sunday were: Mr. C. M. Beard and daughters, Misses Mabel and Bernice, Messrs. Ira Hurt, Wesley, Homer and Ray Woods, Frank and Amos Lagrone, Misses Lorene Carr and Emmie Stovall. They reported no singing however and soon returned home.

Soldier Writes A Little Verse While In Milano

Some few days ago a Sergeant of Camp Travis found his way into the Gazette office and was soon feeling at home at our desk. He left the following little poem which he wrote while sitting in the office:

Away down in dear old sunny Texas on the silvery Rio Grande,
They drilled us early in the morning and drilled us late at night,
And sometimes, I tell you boys, we looked like an awful sight.
But they sent us away down there to whet up for old Bill Kaiser,
While Liberty Bonds were sold to the rich, the poor and the miser;
Yet, should they ever ask you what state is the most sublime,
You just tell 'em that dear old Texas is the grandest for mine.

The author of the above verse is Sergeant John Borders of Battery E, 13th Field Artillery, 4th Division, Camp Travis. He served in the Spanish-American war. His home is San Angelo, Texas.

Interesting Letter From Our Citizen J. S. Slaughter

From Camp Travis, Texas.
Milano Gazette: How is everything in Milano? The thing I like the way we are putting the good tar and feathers to old Kaiser Bill? Isn't it fine to see his head pushed in the mud? It won't be long until all of our boys will return leaving the job well done forever. I notice the subscriptions to Liberty Bonds in Milano were good. It makes me feel good to know that the people at home are doing their part to back us up in the trenches. It's one of the best things to encourage us through our hardships. I say, comrades—we have none to be afraid of. It is a pleasure to undergo anything that might come up in order to stamp out the whole bunch of kraut eaters—Germans. I sincerely hope you are enjoying a good business and the Milano people in general. I always remember Milano and its people. It's a good old town in every way. I am receiving the paper and appreciate it very, very much, and enjoy reading the news from dear old Milano town. I am making it fine and dandy and hope to get over to France before that big battle ends on the Western Front. With all kind wishes to you, beg to remain, Your friend, J. S. Slaughter, Company B, 315th Field Signal Battalion, Camp Travis, Texas.

J. O. Newton Out For A State Military Post

Citizen J. O. Newton is being mentioned in Texas newspapers as a likely appointee as Brigadier General for the new National Guard organization now being organized in Texas. We understand Mr. Newton is an active applicant for the commission, and that the present Adjutant General of the state should be appointed in command of the brigade, then Mr. Newton will offer his services as Adjutant General, a position which he held during Ex-governor Campbell's administration. Since it is Mr. Newton's desire we hope to see the appointment awarded him, yet our citizenship would regret his departure from Milano. Either appointment can not be placed in better hands than that of Mr. Newton.

Tropical Storm Plainly Felt Here In Milano

Milano, Sept. 21.—Reports from over the wires today at noon are to the effect that another tropical storm is brewing. The dispatches did not state whether the storm had already reached the United States or from what source it was coming, but the east wind blowing all day Thursday and the sky darkened all day were evidences that the reports were true, but the storm went by without any great disturbance. The hurricane came in from the gulf and what part reached Milano made only a pleasant cool breeze.

Wild Geese Low And

A bunch of wild geese flew over Milano last Saturday more going southward with the cold which blew up at night. Those who saw the geese say it was the largest bunch that has been seen in many years. They flew very low, due probably to the heavy mist of rain that filled the atmosphere. Some folks say when geese fly low and in long triangles it means a very cold winter, so if you are superstitious you better let your wood pile have your attention.

Mrs. W. R. Dennis Grows Largest Sweet Potato

Mr. Charles Williams of the Cedar Creek community was in town Tuesday with a 13 pound sweet potato which was grown by Mrs. W. R. Dennis on her farm near where Mr. Williams lives. The huge potato was of the Triumph variety and holds the distinction of being the largest sweet potato grown in the Milano country this season, and is perhaps the largest ever grown in this country, unless records of past history show different. Mrs. Dennis raised the potato in the same ground where she grew her crop of Irish potatoes early in the spring. In size this big potato resembled a good size pumpkin. It was the shape of a "

Quite a lot of sit around here this week. St the T. C. Woods family are a number of others.

The Summit school opened Monday a week ago with about 20 pupils present. Miss Hale is the teacher. The books have not arrived and they are using the old books.

I am like the Prospect writer, and think this new book law ought to be abolished and use the books that are some account. Did ever a child learn to walk or talk without being taught? No. A child has to crawl before it can walk. The teachers of today are trying to learn the children words before their A B C's, and are ready to whip them when they don't know their lessons. I am for the law being for the teachers to work for the interest of the patrons and the benefit of the pupils.

Newsy Items From The Oakdale Country

We learn this morning that Little River is all over the bottom.

Mr. and Mrs. Hightman have a very sick child at their home.

I am sorry there isn't much to tell this week in the way of news.

Jeff Smith went to Milano this morning to see Doctor Gough and get some medicine.

J. H. Thompson and Al Oneal went to Rockdale Thursday of last week and bought a herd of cattle.

Crockett Kennon started to Cameron Monday morning with a load of hay. He got as far as the Sid Hause home and decided to roll the hay out the rain under a shed.

This might be our unlucky day, the 13th. It is still raining and no one can pick cotton. We have been housed up and things are bad all around during such rainy weather.

Another one of our boys has married a girl from the Rice community. The couple are Mr. Ernest Baker and Miss Juanita Day and were married Thursday of last week. They are now home in Cameron.

Mrs. Lettie Shelton and Miss Johnnie Hensley went to Hoyte this Monday morning to open up their school. The other teacher is a young lady from Rosebud. Quite a number of children from this community are attending school there.

It is extra-possibly a cut in a half in a pilling child they will then be right through, and the power of the soap will be diminished it will last twice as long.

Milano People Locate In Comanche County

The Gazette is in receipt of a letter from Mr. E. A. Thornburg which reads: "Please send my Gazette to Sipe Springs, Texas, Comanche county. I have located here at this place. Like the county and town fine. We had our first norther Friday evening and it sure was cold to us. I missed getting my last week's Gazette and I feel lost without it, so you might send me another one here and oblige. E. A. Thornburg."

Your last week's Gazette went to Carbon, but we have sent another.

Therefore, Be Cheerful! Depression, gloom, dark brooding these are the worn stones in the descent to the inferno of incompetence, helplessness, delayed victory, or even ultimate defeat. This, we know, is true evermore in our individual life struggles. It is just as true of nations.—William Allen Knight.

Milano Grown Potato Weighs Ten Pounds

Mr. J. H. Burnet has on exhibition at his store a sweet potato which weighs an even 10 pounds. It was grown on his plant farm just east of the depot and is of the Porto Rica variety. Mr. John Simmons, superintendent of the farm, dug up the potato and also three others in the same hill, the four of them weighing 19 pounds. This potato now holds the title of being the largest potato grown around Milano and will be the champion unless someone else brings in a larger one. A sweet potato weighing 10 pounds is hard to beat, but if the potato that can out-then let us hear

The county tax collector will be in Milano on Friday, October 24th, for the purpose of collecting 1919 taxes and will be found at the Milano Bank ready to take all your money you might owe for taxes.

Mr. E. C. Smith has had some very large specimens of sweet potatoes on exhibition in his store the past week which he has grown this year. They are monsters in size and in digging them the large ones seem to be very plentiful.

The entire Milano country has been soaking wet all this week from a four days' excessive rainfall. Up to Thursday afternoon the sun had not been visible since last Saturday, or for something like five days and the people got anxious for sunshine.

Expressing Thanks To Those Who Forget Not

W. M. Dees left a half dollar at the Gazette office one day this week for a half year's subscription to the home town paper.

J. Neeley left a half dollar at the Gazette office last Saturday for a renewal subscription to the Gazette for another month in advance.

Kohut, our local watch repairer, left \$3 with us Saturday for advance subscription and other matters to the Gazette.

Mr. O. E. Swift of near the Liberty settlement left a half dollar at the Gazette office while in town Monday for another half year's renewal subscription to the Gazette.

Mr. L. L. Brennan of Somerville handed us a dollar while in Milano Tuesday for another year's subscription to the old home town paper. Mr. Brennan came over Monday and returned to Somerville Wednesday.

Mr. E. E. Kennedy handed us a half dollar Tuesday for a six months' subscription to the Gazette which will go to him at Morgan, Texas, so that he and Mrs. Kennedy may see what their friends here at Milano are constantly doing as time rolls on.

Ancient Montessori Methods.
Herodes, to overcome the extraordinary dullness of his son Atticus, educated along with him 24 little slaves of his own age. He gave each the name of the letter of the Greek alphabet. His son, in order to play with them, had to learn the alphabet to call their names.

Milano Sunday School Cards Made In Germany

Sunday School cards given out by the Sunday School last Sunday for many Sundays before bear this imprint: "Printed in Germany." This inscription is printed on the various sizes of cards and while somewhat hidden among the colored lithographic effect by light colored letters it is plainly visible when you locate it. We are sure the management of the Sunday Schools have not noticed these Kaiserism imprints, else they surely would not be using them, but the supply houses which furnish the cards know where the cards came from. No true or loyal American wants anything that was made or printed in Germany these days and most especially something which is used in religious worship services.

No Nutrient in Bouillon.
Bouillon has no more nourishing qualities than hot salt water. All the nutrient is still in the meat from which the broth was made. The bouillon is a stimulant, that is all. There is no more horrible waste than to throw away a piece of meat from which broth has been made.

Rail Road Electrician Has Moved To Morgan

Mr. and Mrs. E. E. Kennedy left Tuesday for Morgan where they will make their future home and where Mr. Kennedy will be Electrician for the Santa Fe rail road, the same position which he filled here at Milano for the past two years. Their many friends regret their departure but wish them every success in their new location. Mr. Kennedy had been at Morgan for the past two or three weeks but had not moved there until his return here this week to have his household goods shipped.

Negro Soldier Causes Some Little Excitement

A negro soldier, said to have been a deserter, created some considerable excitement over town Tuesday morning as a half dozen citizens chased him to the eastern woods of Milano in which the negro made his escape. The negro, Burl Kemp by name, was in company with another negro soldier who claimed himself on a furlough and both were on their way to Mount Pleasant from Camp Travis. Both wore overalls over their uniforms, and had arrived in Milano on a freight train. Constable W. E. Peel was on patrol as usual and as soon as he made his presence known the deserter made a dash to get away, while the other negro remained quite and was left to his own concern. The runaway negro made good his escape through the woods and then boarded a freight train at the water tank two miles east of town and was caught as the train reached Gause, but was later released upon suggestion wired from Camp Travis.

Farmers Union Plans To Build A Warehouse

The Milano local of the Farmers Union has made the preliminary arrangements for organizing a Warehouse and Marketing System in Milano and stock with which to finance the project is now being sold to anyone who wants to invest a little money at \$5 a share. Something like \$1500 or \$2000 worth of the stock is offered for sale, and together with some kind of state aid a large warehouse is to be erected for storing cotton, and also as a place for shipping and marketing all kinds of produce, poultry and anything else the farmers have that they want to convert into cash. Everybody is invited to buy stock and every shareholder is to receive his ratio of dividend. Mr. C. W. Butts launched the initiatory sale of stock this week and anyone who wishes to invest or wants to know more about the matter need only see him for any farther information. A number of people and merchants have already subscribed for stock.

Some Local News Notes Round About The Town

Mrs. D. W. Goodlett of Waxahatchie, Texas, is a guest at the home of her sister, Mrs. A. C. Hess and family in south Milano this week.

Mr. E. F. Evard will handle ice in Milano this summer and received in his first car of ice Tuesday afternoon. It was placed in the Newton ice vault and Mr. Evard says he will be there at all hours of the day.

Mrs. G. W. Mullins and little Doris returned Sunday evening from a week's visit to San Antonio, accompanied by Mrs. Guy Mullins and children, who will spend a while here visiting relatives and friends.

Mrs. R. P. Fussell came in from Lometa last Saturday and is a guest at the home of her mother, Mrs. Bill Springer, in the eastern Milano country. Her husband went to the wheat fields in the state of Kansas to assist in harvesting the wheat crop.

Mr. and Mrs. W. M. Henry of Chriesman were in Milano Sunday and Monday, guests at the C. J. Stevenson home. They came in from Leon county where they had visited other relatives for a week and left here Monday afternoon on train No. 5 for their home at Chriesman.

War Stamp Meeting To Be Held On Next Friday

On Friday afternoon of next week, June 28th, at 2 o'clock a public meeting will be held at the Milano school house at which everybody is requested to be present for the purpose of arranging to buy War stamps. This call is made by the government and every school house in the country will hold similar meetings at the same hour and the same day. The trustees have charge of the meetings and the people are expected to pledge themselves for the amount of War Stamps they will be able to buy this year. Milano's quota has been placed at \$16,380, which we presume is based on population of \$20 per capita and not on the financial resources as was done with the Liberty Bonds, which would have placed the quota at \$8,734.

Law Says All Schools Must Display A Flag

Texas has a law which says all public school buildings must display an American flag from a pole on the building. The law became effective March 20th and provides that the flag must be in evidence during the entire year, including the vacation season. Trustees of schools are held responsible to see that the law is obeyed. The law is said to effect every rural school and if this is a fact, then the Milano school will perhaps be flying Old Glory above College Heights.

People At Summit Buy \$157 Of War Stamps

Mr. M. J. Pierce, the rural mail carrier on route 3, sold \$157.17 worth of War Stamps to various people of the Summit community during a rally at the Summit school house last Saturday night. This adds a nice little sum additional to Milano's quota and a few more such sales would help us wonderfully in making our quota smaller.

How Floating Dust Causes Fire.
Spontaneous combustion is caused, so the chemists tell us, by floating particles of coal dust or other inflammable material jostling and clashing against one another until the friction they set up raises their temperature to the ignition point. If this explanation is correct, it would appear as if such fires could be prevented by perfect ventilation. Such, however, is not the case, for ventilation may actually help to bring about fire by spontaneous combustion. Air facilitates oxidation, really fanning the warm dust into a blaze. Keep air damp and quiet to avoid fire.

This Saturday Longest Day We Have This Year

This Saturday, June 22nd, is the longest day of this year. This is the summer solstice period and the sun has now reached its farthest point northward, and beginning with Sunday morning the sun will again resume its southward journey. The length of the day this Saturday is 14 hours and 11 minutes, while last night the night was only 9 hours and 49 minutes in length including 1 1/2 hours of twilight. The opposite of this solstice period is the 21st day of December, when the night is of the longest duration and the day is the shortest in length.

A crust of bread, a pitcher of water, a log cabin home in the Milano country and love for your family—there is happiness and contentment whether the day be bright or rainy. It is love and affection for one another that makes the most humble home a castle, whether the eyes rest on a potato patch or a flower garden. And the friendship of the neighbors who may dwell around that little log cabin home will help to make life worth while.

Newsy Items Of The Prospect Community

It is very dry here and corn will be very short.

Mr. and Mrs. H. B. Belt were in Rockdale Saturday on business.

Mr. W. A. Belt went to Cameron Tuesday in the interest of our school matters.

Mr. W. F. Baker and daughter, Miss Katherine, are visiting friends and relatives in the bend this week.

Mr. and Mrs. W. C. Mobley were at Big Lump Sunday to see their son, as he and his wife are on the sick list this week.

With the exception of Mrs. H. B. Belt who is still undergoing medical treatment, we are all well out here in this community.

Bro. A. C. Laferney of Milano preaches for us every second Sunday at 3:30 new time, so come out and hear him next time.

Your scribe has been in the grass so bad that he could not write and his better-half said he would have to get busy and work the crops out or his land lord would see that he moved. So we got busy.

Mrs. Napper is canning everything from the earth to the moon and is keeping me busy chopping wood, but we may have something to live on this winter, providing she doesn't can something poison.

The little deaf and dumb daughter of Mr. and Mrs. Homer Thompson is at home from school at Austin where she is being taught lip-movements. She is getting along nicely and can already talk a little. It is surely wonderful how these people can learn to hear and talk.

Look out now when you are in the road coming our way, for we are layed-by and have traded our work horse in on an auto and have to pay the rest on installments. So look out when you see us coming as the road will belong to us and we must make 25 miles an hour or go into the ditch trying. So if you get run over it will be your fault. "Napper."

Easy to Translate.

An Irishman was sitting in an inn in County Mayo one day, while it was raining furiously outside. A nobleman's brougham drew up at the door of the hostelry. Blazoned on the panels of its doors were the arms of its owner, inscribed with the motto, "Fides regnat ubique." "Pat," asked some one of the Irishman, "how do you translate that?" "Easy enough," Pat replied. "Fides regnat ubique"—Faith! It rains everywhere."

News Notes From Around Cedar Creek

Mr. C. L. Martin and family were Rockdale visitors Sunday.

Mr. Jim Smith is on the sick list at the time of this writing.

Miss Florine Lee visited friends at Summit Saturday and Sunday.

Miss Omega Rutherford of Gause was a guest at the W. R. Dennis home a few days the past week.

Miss Lizzie Willis Dennis left last Friday night for Winters where she will visit her brother, Mayson Dennis at that place.

Mr. Frank Kilpatrick and sister of Rockdale were guests at the home of their uncle, Mr. Charlie Williams Saturday and Sunday.

Mrs. W. R. Dennis received a message Monday that her son, Mayson Dennis, had undergone an operation at the Winters sanitarium. She left that night for Winters to be with him during his illness.

News Happenings Of The Oakdale Country

Mr. Enoch Fisher went to Milano Monday morning on business.

Some few of our neighbors have been enjoying eating water melons.

A party of relatives from near Big Lump spent Sunday at the Sam Blackmon home.

There was singing at the Jim Baker home Sunday afternoon and at the Shaffer home Sunday night.

Quite a number of people from this community went to Cameron Thursday of last week to hear Governor Hobby speak.

Mrs. Alice Thompson and son Rex Mitchel came out Saturday evening from Clarkson to visit her brother, Victor Wimberley.

Bro. Calvin Pressley was injured some time ago while getting out of a buggy and an injured shin is giving him some considerable trouble.

Mr. Theo Aschenbeck and his mother, also Mrs. Arnold Aschenbeck motored to Rosebud Saturday evening and spent Sunday there, returning home Sunday evening.

An election was held here at Oakdale Monday concerning the consolidation of the three schools in this section of the county, including the Oakdale school. At this time we have not heard of the result.

Mrs. Lyon, who has been a guest of her sister, Mrs. Sid Hause, left Sunday for McGregor and from there she will go to Houston to join her husband who is a Captain in the Army camps stationed there.

Mr. and Mrs. Harold Pressley have for company this week, her mother, Mrs. Ford who formerly lived near Milano; also her sister, Mrs. Prescott and her three sons, all having come over from Ben Arnold.

Mr. Charley Hause of Cameron, his Aunt Mollie Hause, and Dave Link and family were out Saturday evening and enjoyed an ice cream luncheon at the Sid Hause home. They had a plenty and they all returned to their homes that night.

New and Valuable Oils.

The results were recently announced of an investigation into a series of oils prepared during the Australasian antarctic expedition. These materials included sea leopard oil, Weddell seal oil and penguin oil. The oils have been carefully examined in order to determine their characters in comparison with commercial oils of a similar kind. They were found to be of good quality, and could be used for soap making, leather dressing, burning, etc.

Smyrna And Oxford City Items Of News

Get yourself a fan and keep cool.

I believe everybody is well in our neck of the woods.

Mr. Tom Ashley of Hearne visited home folks out here Saturday.

Mr. T. E. Walker and family of the Smyrna settlement were visiting in Oxford City Sunday.

Mr. G. W. Martin of near the Liberty neighborhood visited the John Luce home Saturday.

Miss Ora McClellen visited relatives in Hearne Saturday and Sunday, returning home Monday.

The three airplanes which passed over our community last Saturday about noon caused some little excitement in the way of an attraction.

Airplane Makes A Stop On Milano Main Street

An airplane visited Milano Tuesday morning. It stopped on Main street right in front of J. B. Newton & Sons store. The airplane was constructed entirely out of white metal, which was perhaps aluminum and was of the latest 1918 type, and a full war plane in construction. Even the propeller was made of the same material and it could twirl at a tremendous rate of speed. The most astonishing peculiarity concerning the machine was its size, for it was mounted on the radiator of a Ford automobile belonging to some traveling drummer as an ornament.

A Good Investment For Man, Woman Or Child

War Saving Stamps are an investment for the poor man, besides you will help win the war by lending your money to the government. During this month the certificates cost \$4.17 and in January, 1923, they can be cashed for a \$5 bill.

The name of "Milano" stands for a picture in the minds of all who have lingered here long enough to appreciate the feeling of a home. It stands not alone as a pleasant picture, but also as the future ideal to our loyal citizens. The beautiful cities and the thrilling resorts of wealth and pleasure are but as a crumb to those who are living in Milano satisfied with our serene peacefulness and the luxuriance of a home that is joyous and contented.

Great Weapon Is Laughter.

In the posthumous story, "The Mysterious Stranger," which Mark Twain did not see fit to publish during his lifetime, Twain expressed his impatience with the degrading use of humor when turned toward trivial things. "Your race in its poverty," he makes Satan say, "has unquestionably one really effective weapon—laughter. Power, money, persuasion, supplication, persecution—these can lift a colossal humbug—prod it a little, weaken it a little, century by century; but only laughter can blow it to rags and atoms at a blow. Against the assault of laughter nothing can stand."

Tunnels Made by Ants.

Every one has observed trees that have been hollowed out by ants and it is apparent that their biting powers are equal to working in the hardest woods. In tunnelling, ants are expert, and authentic cases are known of their tunnelling under ditches and streams. Indeed a South American ant is said to have excavated a tunnel under the bed of the Parahyba river at a place where it is as broad as the Thames at London bridge.—W. L. McAtee, in the American Museum Journal.

This Friday Is National War Stamp Savings Day

Friday of this week, June 28th, is National War Savings Day and every man, woman and child is asked and urged by the government to do their utmost to help buy or pledge yourself to buy all the War Stamps you possibly can. Milano people are expected to do their full part just like every town and city in the United States. When you buy War Stamps you are lending your money to the government and you will get it back with interest. A War Stamp costs \$4.17 and will bring you a \$5 bill January 1, 1923.

What Some Milano People Have To Say

Mr. E. F. Eward says: This Saturday occurs the change of the season which is sure to bring a rain on or a few days afterward. It is sure to come and you may look for it.

Mr. C. B. Mabry says: A White Holland turkey will always come home to roost and will never forsake the henhouse no matter how many chickens or how few turkeys dwell therein. This, he says, can not be said of the bronze strain.

Captain L. Bedell says: There is no living creature on Earth that weighs heavier than a dog. If you doubt this, just guess at the weight of a dog sometime and then weigh him and see how much more he weighs than you had estimated.

Mr. W. Ashley says: Judging from the present outlook he believes the corn crop around his section of the country will not amount to more than a half crop and considerable early corn is what has helped more than anything else to insure any corn crop at all. The extreme dry weather he says, has already done it awful damage to corn.

Uncle Billie Dukes says: He's just about ready to go fishing again since that two days visit to Little River week before last. He and Mr. E. F. Eward were the two promulgators of the trip and left town together on a wagon with a good size schooner for a fishing boat, but before the trip was over some 15 or 20 other citizens went down to see how they were getting along and help eat up the 23 fish which they caught.

Mr. W. H. Bussa says: The corn crop in the Liberty community is withstanding the dry weather fairly well but can't do so much longer. But even in the face of all this dry weather the people are in good spirit and ready to buy more War Stamps, help the Red Cross when they holler again, eat more corn bread if necessary and vote for Jim Ferguson when election time comes around.

The Milan county Selective Draft Board at Cameron will receive applications up to June 27th for a number of appointments to the Texas University for a course of instruction as auto mechanics.

Local News Items Round About Town

William Bussa, son of Mr. and Mrs. W. H. Bussa of the Liberty community, came in home Sunday from Jacksonville, Florida, he having been discharged from military duties on account of hard hearing.

Mr. J. J. Albrecht of the State Department of Agriculture was in Milano last Saturday and spoke to members of the Milano local of the Farmers Union at their office building opposite the freight depot. Mr. Albrecht spoke on matters concerning the marketing system and warehouse problems which the Milano local contemplates to establish in Milano sometime during this fall.

Origin of "Pagoda."

The word "pagoda" is not Chinese. It is believed to have come either from the Persian or the Hindustani, and means "a white stone tower." As far back as their history dates the Chinese have always built lofty towers.

Children's Health Exercises.

Teach your child to sit, stand and walk in an erect posture. Set a good example of this by your own conduct. Here suggestion thus has a powerful influence. Spend three minutes per day with the children in taking vigorous breathing exercise—lifting the chest, expanding the lungs to their greatest capacity, holding the breath, exhaling to the limit and the like, all together. All will soon become fond of this little drill, as they almost feel the increase in the glow of good health.

As It Was on Earth.

Not long ago an old lady friend died, Mary Agnes, who lived in the same building, had for some reason been chased from the steps by the old lady, and so she got the impression that the old lady was always chasing little children. So one day after the woman died Mary asked another woman in the building if she thought that the old lady was an angel now. "I hope so," was the reply. Then little Mary said, "Well, I bet she is chasing all the little angels around up there."

Don't Ask Personal Questions.

Never presume upon your intimacy with another to ask personal questions. No matter how good friends two may be, both have certain matters which they prefer to keep to themselves. The presumption which, under the excuse of intimacy, pushes its way into the privacies of the spirit is unworthy of you. Respect your friends' reserves, and insist that they shall respect yours.

Artificial Indigo.

Chemists discovered by research years ago the process of making artificial indigo, but it was only when a thermometer broke in the solution that they found out now to make the indigo cheap enough to be commercially valuable. The mercury so increased the yield of a certain acid that the process was cheapened sufficiently to make artificial indigo less expensive than natural indigo.

Gained 27 Pounds By Taking Tanlac

"I now enjoy better health than I have in years and I can't refrain from letting my friends and others know how thankful I am for what Tanlac has done for me," said Mrs. E. M. Linam of 2310 Chester street, Little Rock, Arkansas, recently, in one of the most remarkable statements yet published in connection with the "Master Medicine."

"In the winter of 1916," Mrs. Linam continued, "I was taken with a severe cold and all the winter I continued to go down. I had no appetite, kept losing weight and in March was completely broken down. I couldn't sleep for coughing and had to sit up in bed most all night. I was extremely nervous and weak, felt tired all the time and everything I ate soured on my stomach. I fell off nineteen pounds in seven weeks and was getting worse so rapidly that my family and friends, as well as myself, saw no hope of my recovery."

"My husband brought me a bottle of Tanlac in June, 1916, and after I took about half of it I began to eat and my food stopped souring on my stomach. After finishing my first bottle I could eat anything at any time without it hurting me in the least. At the end of my third week I had gained five and one-half pounds and had improved until I was able to take a trip to Texas. My husband sent me my Tanlac by mail and I kept taking it and picking up from three to four pounds every week until all my troubles were gone and my weight was increased from one hundred and thirteen pounds to one hundred and forty, making an actual gain of twenty-seven pounds. I don't only give Tanlac credit for my splendid condition, but I really believe it has saved my life, and my family and friends all agree with me."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine, in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler.

Farmers are busy cutting and hauling oats. Most of them have a fine crop of oats, while others have not, but we are thankful for what we have. Cotton is looking fine, but corn is needing rain badly.

Three gentlemen from Rogers, Joe Lagrone, Ed Ashcraft and Joe Shannon, were in our community this week, guests of Mr. A. J. Gnuvels. They were here looking over the country and one or two of them are in the notion to locate here.

Last week I announced that a picnic would be held at Liberty July 4th, but instead of being an open picnic to the public, it is just the quarterly meeting of the county Farmers Union and a large delegation from the various county local Unions are requested to be there. Dinner will be furnished for the members of the Unions. All outside people are expected to bring dinner.

THOSE WHO FORGET NOT

Our citizen Mr. J. H. Elwin handed us a dollar one day this week for a year's subscription to the Gazette.

Rev. R. O. Wier has our thanks for a half dollar left with us by his son one day this week for a half year's subscription to the Gazette.

Mr. J. A. Touchstone left a dollar with us one day this week for another year's subscription to the paper published in his home town.

Mr. J. A. Stewart of the northern Milano country left a dollar at the Gazette office Wednesday for another year's subscription to the home town and community paper.

Mr. T. J. Bell of Tyler, Texas, left a half dollar with us one day this week for a half year's subscription to the Gazette. Says since he has seen our little town and spent a few days here he wants to know more about it. In speaking to Mr. Bell about the war, he expressed it as his opinion that the war will end sometime between July 1st and 4th of next year.

Mr. E. W. Baggett of Bartlett, Texas, handed us a half dollar last Saturday for a half year's subscription to the Gazette which he sends to his brother-in-law, Mr. T. J. Tabor at Christman. Mr. Baggett came over to visit relatives and see his many old time friends for a day and also made a run over to Christman, returning home Sunday. He is a section foreman on the Katy road and says he and Mrs. Baggett are well pleased with Bartlett. Also said he received his Milano Gazette every Saturday at noon as he went to dinner and he tries to read the latest home news and eat his dinner all at the same time on Saturdays.

What Some Milano People Have To Say

Mr. J. W. Ford says: He gathered his corn crop Wednesday in about three hours' time. It consisted of about two good wagon loads.

Captain L. Bedell says: The Stars and Stripes shone around the sun Tuesday in Milano. But some others folks say it was only a rainbow encircling the sun. Still others said it meant something superstitious like, and some said it meant nothing at all. Anyway the sun presented a most peculiar aspect all that day and some folks sure did feel uneasy about themselves.

Mr. E. F. Evard says: Or rather did say Tuesday morning, that a big rain was only 24 hours away from Milano about 10 o'clock that morning. Just how he figured such calculations is beyond our comprehension, but as this was the day on which the sun looked so peculiar and bewitched-like, we are going to overlook the matter of it not raining when Mr. Evard said it would.

The J. C. Beard Store Burglarized In Day Time

While merchant Mr. J. S. Beard went to dinner Monday at the Hudson hotel, his store was entered through the front door in which the wooden panel was left off and the sum of some thirty odd dollars was taken from the cash register. Constable W. E. Peel got to work on the case on an over-time schedule and by picking small bits of clues he had recovered the stolen money and found the burglar in less than five hours' time. Bruno Williams, a small 12 or 14 year old colored boy, who had been seen around the store while it was closed, was caught with the money showing out of his pocket, which consisted of a \$20 bill, a \$10 bill, some silver and a further search in the boy's grip revealed \$5 in silver. The boy was taken to Cameron that night by Mr. Peel and Justice J. A. Ely, who turned him over to authorities to be tried by the Juvenile Court for larceny.

Prices Are Too High So He Goes Off Fishing

Mr. John Hairston and family of the Elevation community passed through Milano last Friday morning enroute to Little River on a fishing trip. They went out through the Onkdale country and were traveling in the good old pioneer style with the wagon sheet in its place. When asked about his cotton crop Mr. Hairston said he hoped cotton would go down to 5 cents and everything else with it. He's disgusted with high prices and from the sad manner of his speech we took it for granted that he was going to the river in order to forget how this wreckless old world is trying to outdo prosperity. They passed back through town Monday about noon on their return home and we must say Mr. Hairston looked considerable better and we actually believe he'll go to picking some of his cotton soon. We leave it to "Old Timer" to tell us the rest.

"I feel better than I have in years and have actually gained more than twenty-five pounds since I began taking Tanlac," said Mrs. Juan Flatt, seventy-one years of age, residing at 117 Hadlock street, El Paso, Texas, recently.

"For thirty years," she continued, "my stomach was in a very bad shape. My appetite left me entirely and the little I forced myself to eat filled me with gas which affected my heart so I could hardly breathe and pained me so at times I would almost faint. Then too, for the past few years I have been bothered with my kidneys and some rheumatism, and my troubles all together just about got the best of me. My back and right side hurt me so bad at times I could hardly help screaming with pain. I have suffered with constipation and headaches nearly all my life and I had gotten very nervous. I don't reckon anybody was ever in much worse fix than I was and I spent a small fortune without getting more than a little passing relief.

"When I began taking Tanlac I was flat on my back in bed and had spent most of the six months before that in bed. I had read about Tanlac but paid little attention to it until a friend begged me to try it and the results have been nothing less than wonderful. I am now on my fourth bottle and eat anything I want, even fresh meats, and take sugar in my coffee, something I couldn't do before in years. I have been relieved of constipation and headaches, the pains are almost gone out of my back and side and I sleep all night like a child. Yes, I have good reasons for praising Tanlac and I expect to keep on telling about it."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by F. J. & Fontaine, in Ben Arnold by R. F. Yardley and in Buckholtz by E. J. Kahler. Adv.

Famous Tree Destroyed

"Byron's tree," in Harrow parish churchyard, has been destroyed by fire, wantonly caused by a visitor. This is the elm made famous by the poet, who in a letter from Italy in 1822 stated that he used to sit for hours under a large tree in the churchyard. He also wrote some well-known "Lines written beneath an elm in the churchyard of Harrow."

New Hydraulic Air Compressor.

A novel hydraulic air compressor, designed for operation by water under a head of 200 or 300 feet, has two large vertical cylinders, from which the air is forced by the direct pressure of the water. When the air of one cylinder has been driven into the horizontal tank, a two-way valve automatically releases the water and turns the pressure into the other cylinder, making action continuous.

Easy to Translate.

An Irishman was sitting in an inn in County Mayo one day, while it was raining furiously outside. A nobleman's brother-in-law drew up at the door of the hostelry. Blazoned on the panels of its doors were the arms of its owner, inscribed with the motto, "Fides regnat ubique." "Pat," asked some one of the Irishman, "how do you translate that?" "Easy enough," Pat replied. "Fides regnat ubique"—Fulth! It rains everywhere."

Costs Three Cents a Mile to Travel Now
By The Associated Press
Washington, June 18.—Travelers upon American railroads today paid increased fares, the new rates of three cents a mile ordered by Director General McAdoo, having become operative last midnight. Tickets purchased at lower rates in the country which had been at the new three cent rate on June 17, were to be refunded on the trip starting before the new rates took effect. The refund was to be made in the form of a check for the difference between the old and new rates.

FACTS

IT COSTS MORE TO FURNISH TELEPHONE SERVICE TODAY THAN IT DID A FEW YEARS AGO!

The price of wire, switchboards, lead cables and all other items entering into the operation of a telephone plant, has increased—in some instances as much as 200 per cent

BUT TELEPHONE RATES HAVE REMAINED STATIONERY IN THE FACE OF THIS GENERAL INCREASE IN COSTS.

Consequently we are now confronted with the absolute necessity of readjusting the local rates. We have not been earning anything like a reasonable return. It is imperative, therefore, that we increase the rate to the subscriber at least to the point where we can earn a small return on the investment

THIS IS THE SERIOUS SITUATION CONFRONTING US TODAY.

Think about it! The new rates proposed for the local exchange will not yield us what you would term a reasonable return, but they will enable us to survive and fulfill our obligations to the public.

Tomatoes Grown Without Much Attention

Mr. J. H. Burnet is this week beginning to ship out tomatoes from a 16 acre patch which is under the supervision of Mr. J. F. Nelson. The patch is located about a mile south of town and the tomatoes have been grown in a different way than has been the usual custom. The tomatoes were not staked, pruned or tied, but were left to grow just as nature saw fit. Such culture does not make early tomatoes but the vines are said to keep bearing till late fall. Mr. Burnet says he believes that is the cheapest and best way to grow them, and he expects a market several thousand crates during this summer. Mr. Nelson says picking and packing would begin by the middle of this week but it would be next week before any great amount of them would be picked and packed for shipment to the state markets.

Milano Farmer Has 50 Acres Of Cotton Waist High

Mr. J. F. Akins of the western Milano country was in town last Saturday and had a sample boll of his cotton with him which he was showing around. The boll was the size of a hen egg and in perfect healthful condition. Mr. Akins has 50 acres of cotton over waist high which is loaded with bolls like the one he was showing. In another 3 or 4 weeks he expects to be picking some of the cotton, provided of course the right kind of weather will prevail. This cotton was planted March 15th and has made a most rapid growth, and Mr. Akins has about the best prospects for a good crop of cotton he has ever grown. He has a total of 74 acres and figures he ought to make between 20 to 25 bales of cotton this year, figuring on a reasonable estimate.

An Experience Or Two Of A Milano Soldier

Dick Blackmon, another Milano soldier who has been through the thick and thin of the big war, came in home one day last week to the delight of the family and all his friends. Dick is the son of Mr. and Mrs. J. L. Blackmon of the northern Milano country and left Milano 14 months ago. He lacked just 2 days of having been in France one year and experienced some mighty narrow escapes with his life. He was with the artillery and during one engagement he and his company wiped out a nest of 400 Huns, leaving only 65 to tell the tale. He was slightly wounded in battle but soon recovered from the wound. Dick may have many friends here, but none were as glad to see him safely back home as was his mother. L. L. Hooks Says His Troubles Are Over

"When I weighed the other day I found I had gained thirty five pounds, and that's only a part of what Tanlac has done for me," said L. L. Hooks, of North Roswell, Ga., in relating his experience with Tanlac. "I suffered from such an awful case of stomach trouble," he continued, "that I could hardly eat a thing and nothing tasted right. The little I forced down didn't give me any strength and at times I would almost choke from the gas that formed in my stomach. I was so weak and miserable I just couldn't do any work at all and was just about all in."

"I commenced to take Tanlac because I saw the good it was doing others, and I could feel all the difference in the world from the start; it simply made me feel like a new man. My troubles are now over, it built me up wonderfully and I am working hard, using pick and shovel every day and never have any more trouble with my stomach."

Tanlac is sold by leading druggists everywhere. Advt.

Esquimaux Own Land in Common.

There is no suffrage question among the Esquimaux—the woman owns the igloo with the man and has equal voice in the council meetings. And there are no vexatious questions about property rights to settle, because besides the igloo and personal belongings there is no property. The Esquimaux cannot conceive of land as belonging to any one person. When that old pernicious notion is finally exploded the millennium of business will be at hand, the era of universal peace between capital and labor.

Big Sweet Potato Crop Is Expected This Fall

Mr. E. C. Smith, who has grown thousands of sweet potato slips this season, is planting all the available land he can scare up in sweet potatoes. There is hardly any doubt but what this Milano country will produce about the largest crop of sweet potatoes this coming fall that it has ever grown. Seed potatoes were scarce to begin with, but the plant farms helped to save the needy situation.

We are glad to learn that some more of the soldier boys have come back home from France.

Mr. Falls of Big Lump was a guest of his sister, Mrs. G. R. Hurt, last Saturday and Sunday.

It looks like more rain every day, but we would be glad to have some sunny weather for a while.

But gee! Ain't the mosquitoes bad! Both day and nights. They won't let a fellow sleep at all.

Representative C. M. Beard returned to Austin Sunday afternoon after spending a day or two at home.

Mr. W. W. Richards and mother attended the funeral of Mrs. E. D. Mobley at Milano Thursday of last week. Mrs. Mobley was a sister-in-law of Mrs. W. W. Richards.

Newsy Items From The Oakdale Country

Sam Cast was a visitor at Taylor last week to see his brother.

Miss Parilee Barnes spent the week-end with friends over at Rice.

Mrs. W. A. Belt is reported on the sick again this Monday morning.

There were a number of young men of this community who went over to Rice Sunday night.

Eugene and Ed Hause are spending a while with their brother, John Hause, who lives at Curry.

Ernest Williams of Liberty spent the week-end with the Cast family over here in this community.

Miss Annie Oneal has returned home from an extended visit to relatives down at Houston, Beaumont and Port Arthur.

Mrs. Sam Blackman and children from over toward Minerva spent Sunday night with relatives here and then went to Milano Monday morning to do some trading.

Mr. and Mrs. Perry Robertson spent Sunday with the Barnes family. Mr. Robertson is a truck man at Rice. He went to Milano the other day after a lot of crates.

Crocket Kennon took a cabbage head to Cameron some few days ago which weighed 15 pounds. He said it was the largest one he had, but it was a whopper size for a cabbage.

It now looks like we are going to have a little dry spell at present and we do hope it will not rain for a little while. We think everybody around here will make lots of corn and potatoes this season.

Mr. J. W. Ford in the Prospect community has been very sick for the past two or three weeks. He was reported some better last Sunday. His son Arch Ford of Yoakum, came up to see him Sunday.

It is said that the common garden snail has something like 30,000 teeth. This out numbers the 4,000 eyes which the house fly is said to have.

Chile has some of the richest iron ore in the world and its Government is planning to increase its production with the aid of European experts.

Real Meaning of Expression.
"Don't care a fig" is one of the commonest of expressions, but it isn't correct and means little, whereas the original has some real meaning: "Don't care a fico." The word fico is used by Shakespeare and is a Roman word meaning a contemptuous snapping of the fingers.

News From All Over The Milano Country

We understand that Mr. J. P. Morgan has been mustered out from over-sea military duty and appeared in Milano this week.

Edna, the seven year old daughter of Mr. and Mrs. S. E. McGregor, was seriously salivated some few days ago and is suffering from a very badly swollen mouth.

Mr. and Mrs. J. F. Akins of the western Milano country left Sunday night for Austin in response to a message stating that Mrs. Aikin's daughter was ill in a hospital there.

Mr. A. J. Gunnels of the Liberty community has been coming in town every few days with a wagon load of fine tomatoes. Says he expects to get something like 500 crates before the season is over.

Mrs. W. M. Dees and son John, left Thursday for Marlin where they will remain for some two or three weeks. Mr. Dees left some few days before hand, he having gone there for benefit of his rheumatism.

History of Freedom of Speech.

The issue of free speech is really modern, and emerged clearly as a defensible proposition only with Milton's Areopagitica, to be followed by the widely divergent reasoning of Jeremy Taylor and Joseph Glanville, and by Locke's classical first "Letter on Toleration" (1689), which says almost the last word on the matter so far as religious differences are concerned.—James H. Robinson in Atlantic.

Local News Items Round About Town

July 15th to August 1st are the dates for the annual camp meeting of the Nazarene Church at Milano. Rev. Mrs. Bessie Williams will do the preaching throughout the meeting.

Tomatoes, peaches, sweet pepper, potatoes and other truck are still being shipped out every day from Milano by express. All vegetables shipped from Milano are nicely packed and crated and there are few points in the state that put out as good truck as the Milano farmers.

A little want ad in the Gazette is worth its weight in gold when it comes to helping a fellow out of a predicament. Take for instance that 5 months' old heifer which Mr. W. R. Sneed lost on last Cattle dipping day. Mr. Henry Bonnet out on route 2 read the ad and the calf was in his pasture where it had drifted along its way after taking that dip-bath, so he at once phoned in the information about the calf and Mr. Sneed seems contented and without trouble for once more.

Triumph of Engineering.

One of the greatest engineering projects of the world, the Suez canal, was formally opened 48 years ago. The canal cost \$100,000,000. The festival given by the khedive in commemoration of the opening of the canal cost \$23,000,000, or a fourth as much as the canal. Cairo was gaily decked for the event, which was attended by the emperor of Austria, the empress of France, and many other high personages. The engineering work of the canal was under the direction of the great French engineer, De Lesseps. The canal is 88 miles long.

Two ancient trade secrets which the world probably never will learn are the Chinese method of making a brilliant vermilion color and the Turkish method for inlaying gold or silver on the hardest kind of steel.

Children's Health Exercises.

Teach your child to sit, stand and walk in an erect posture. Set a good example of this by your own conduct. Here suggestion thus has a powerful influence. Spend three minutes per day with the children in taking vigorous breathing exercise—lifting the chest, expanding the lungs to their greatest capacity, holding the breath, exhaling to the limit and the like, all together. All will soon become fond of this little drill, as they almost feel the increase in the glow of good health.

Boll Weevils Are Said To Be Getting Numerous

Mr. J. H. Burnet this week began spraying some of his cotton with arsenic of lead to poison the weevils. He uses the poison in dry form and says a blower is the thing to use. He used a sprayer this week but has ordered a blower which he will use as soon as it arrives. Boll weevils in cotton patches over the Milano country are said to be making their appearance with alarming rapidity. But they seem to appear only in certain sections. Some farmers complain considerably of the weevil's appearance, while others report little or no weevils at all.

Turkish Language Easy.

The Turkish language, although spoken in many dialects, is so uniform in plan that anyone who speaks Ottoman Turkish can be understood while traveling from European Turkey through Asia Minor and Central Asia.

What Some Milano People Have To Say

Mr. W. N. Baggett says: If you have a lot of cabbage and want an easy way to put it up, then all you need to do is to cut it coarse or in small chunks and place it in glass jars, sprinkling the cabbage with a table spoonful of salt and a table spoonful of sugar to each jar. Pack the cabbage as tightly as you can and then put on your top. No cooking, water or vinegar is necessary. Cabbage put up this way, he says, will always taste like fresh cabbage.

Rev. H. T. Hart says: His cabbage patch in his garden has the big head when it comes to producing giant heads of that edible. They're getting so big and growing so fast that they burst wide open and he is grieving terribly because he can't double up his appetite. He left two of his largest cabbages at the Gazette office one day last week, and we must say with all due credit to Bro. Hart's ability as a gardener, that he certainly takes the cake on what he has grown so far this year.

Mr. T. B. Niles says: Yes, this is a wet year. They will happen along once in a while. And there have been other years just as wet if not worse and in the month of June. But wet Junes are many years apart. And while this has been an unusually wet season and a drawback to some crops, he is certainly thankful for the abundant rainfall. Last year and the year before he made no corn to speak of, yet he worked harder to make a feed crop than he had ever done before. This year he has one of the finest crops of corn he has made in many years. The sucker ears he has been gathering this year, he says, are far better than his entire corn crop of last year.

J. S. Slaughter Arrived In Milano This Week

J. S. Slaughter, a Milano soldier just back from France, arrived in Milano Wednesday afternoon. He left again Thursday for other points and says he will be back in Milano to stay after he gets around a little. Joe, it will be remembered, was one of the rail road telegraphers when he left here and was promptly placed with the signal corps of the army and he has done some mighty big and risky work in helping to stop the awful war. All Milano is delighted to see him back home among his former friends, for J. S. was always a Milano booster.

Russell Clary And Lon Peeples Expected Soon

Russell Clary and Lon Peeples, two more of Milano's soldier boys, are expected to show up in Milano this week-end. Lon passed through here Monday afternoon on a soldier train bound for San Antonio and a telegram was received by friends last Saturday from Russell stating that he and his wife had safely arrived in New York from France. This was a surprise to his many friends here, but they are glad to hear of his good luck and extend Mr. and Mrs. Clary their best wishes and hope they will make their future home here at Milano.

Mrs. Lesser Newton Is Now Slowly Recovering

Mrs. Lesser Newton was brought home Sunday night from Temple where she had been in the sanitarium for the past six or seven weeks undergoing medical treatment for a complication of slow fever. She was accompanied home by her husband and a sister, Mrs. Guy Mullins, and was taken to the home of her mother, Mrs. J. P. White, in north Milano. Mrs. Newton's condition, while considerably improved, is still quite serious, but since she has improved enough to be able to leave the hospital it will likely be a matter of only a short time until she recovers her full health again. Mrs. Newton became ill sometime during the early part of June.

Rev. Sparks Has Gone To Points In Alabama

Rev. and Mrs. J. P. Sparks and Mrs. Martha Johnson left Thursday in their car for points in Alabama where Bro. Sparks will conduct a series of revival meetings. Bro. E. L. Sumptuous Supper Will Be Given This Saturday Night At Park Pavilion For The Milano Soldiers

The Soldiers, Sailors and Citizens Banquet comes off this Saturday night at the Milano pavilion. That it will be a big success, seems assured. Everything to make the soldiers enjoy this affair is being arranged for their pleasure. Even the menu has been extended to include several goats along with the chicken fry. Also cake, coffee and ice water and perhaps other refreshments will be served. All soldiers and sailors living in the Milano territory are urgently invited to come. If the committee should by over-sight or unknowingly omit sending you an invitation by mail, then your presence with your uniform will admit you. The affair is entirely free for the soldiers, but citizens will be admitted for a fee of \$1.50. The occasion is given by the business men and women of Milano and only a limited number of tickets are on sale to the public in general which can be secured for the price of \$1.50 and entitles the purchaser to a seat at the tables. Tickets are on sale at the Milano Bank or by the ticket committee, who are S. W. Taylor, Lesser Newton and Mrs. N. Bodiford. Children will not be admitted.

A Big Freight Train Wreck Occured Two Miles South Of Milano On The Santa Fe Rail Road

A big freight train wreck occurred about 2 miles south of Milano on the Santa Fe road Tuesday afternoon about 4 o'clock and 17 freight cars were ditched. A brakeman, John Simmons, was thrown from the caboose and sustained a broken ankle and complained of injuries in his back. Both Doctor Gough and Doctor Liddell were called to the wreck and Doctor Gough accompanied the injured man to the Temple sanitarium. People who viewed the wreck said it was the biggest wreck they had ever seen. Cars ever thrown and strewn for almost a mile. It is presumed a draw-head fell out and caused the wreck which happened on a down grade. A number of the ditched cars were visible from the streets in Milano. The wrecking crew was still at work this Friday, but the track was put in repair a few hours after the wreck.

Your Tax Rate Will Be Exciting For This Year

Gracious sakes alive! Advance reports from Austin state that the state tax rate for this year will be about 75 cents. Last year the rate was 55 cents, and not so very many years ago we got along on paying a state tax of some 20 cents on the \$100 valuation. So tax payers may as well get ready to find their taxes increased considerably this fall. The state tax of 75 cents, added to the county tax, including school taxes, road bonds, poll tax and the annual road tax of \$4 will make us all shell out a pile of money. So don't you get the idea that this state government of ours is trying to be economical. It's getting more extravagant every year.

Mrs. Burdick Is Recovering From Operation

Mr. W. T. Burdick was over from Taylor Wednesday. He came over to get his little daughter who had been staying with her grand parents, Mr. and Mrs. W. F. His Troubles Cost Him Small Fortune

"A few bottles of Taulac have done me more good than other medicines and treatments that cost me a small fortune," said C. C. Fisher, a prosperous farmer living at Irving route 1, a few miles from Dallas, Texas. "For fifteen years," he continued, "I suffered so terribly from stomach trouble that I thought I could never get well. Everything I would eat went back on me and I would belch up my food so sour that it would nearly strangle me, the gas on my stomach would press on my heart so as to cause it to flutter and I would have the hardest time getting my breath. I was really in such awful condition that I thought I had about got to the end of my row."

"But I feel now like I am good for many years yet, for Taulac has fixed me up so I can eat any and everything without any bad after effects and since gas has stopped forming in my stomach I am not troubled with palpitation or shortness of breath. I have gained six pounds already and am working hard on my farm every day now and am glad to recommend Taulac for the wonderful way it helped me."

Taulac is sold by leading druggists everywhere. Advt.

When People Move The Gazette Also Moves

A letter from Mr. John Davidson instructs us to change his Gazette from Alvin, Texas, to Hull, in Liberty county, where he has lately moved. Mr. Davidson, it will be remembered, is a former Milano citizen. As an illustration of the manner in which the Gazette reaches our former Milano citizens we find that four copies of the Gazette went to Alvin before Mr. Davidson left there, and including his copy of the paper there are now three copies that go to Hull every week to people who were former citizens or who are relatives of Milano people.

Great Weapon Is Laughter.

In the posthumous story, "The Mysterious Stranger," which Mark Twain did not see fit to publish during his lifetime, Twain expresses impatience with the degrading use of humor when turned toward trivial things. "Your race in its poverty," he makes Sutan say, "has unquestionably one really effective weapon—laughter. Power, money, persuasion, supplication, persecution—these can lift a colossal humbug—prod it a little, weaken it a little, century by century; but only laughter can blow it to rags and atoms at a blow. Against the assault of laughter nothing can stand."

Automobile cars and trucks are now being manufactured in 32 different states, and the total number of cars registered in all of the states during 1919 is expected to reach 6,600,000 before the year runs out.

Halt Sand Drifts With Grass Tufts.

Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

G. W. Beard Farm Produces Large Potatoes

Mrs. G. W. Beard was in town one day last week with a lot of extra large Irish potatoes which looked like the genuine Colorado or Idaho product, but they were related to the potatoes of those states only in looks, as they were grown in the Cedar Creek country. Mrs. Beard says they had something like 15 rows planted in the early spring and the yield was astonishing, especially the size of the potatoes, many of which weighed over one pound each and about 20 of the potatoes would fill a water bucket.

Mesdames Dave and Ed Bussa have been at the bedside of their brother, Mr. Jim Silvey and wife who have been very sick with fever in the Cedar Creek community.

Farmers are busy, some plowing, some mowing hay and the women and children picking dried beans and peas. Everybody is trying to save all they can to avoid all the high prices which are sure to prevail through the coming winter.

Locomotive Fire Cost.

The cost of kindling fires in locomotives is said to range from 68 cents to \$1.14, according to the size of the engine. These figures represent the cost when dry shavings, the cheapest kind of kindling, are used. Multiplied by 83,000, the number of locomotives in this country, the difference between the cheapest and the most expensive kindling would naturally amount to millions of dollars annually.

Well On The Gunnels Place Is A Real Well

Oh shucks! That there well business on the T. P. Gunnels farm which the Gazette told about last week isn't any oil well at all. In fact the Gazette didn't say it was an oil well, just said "well." And sure enough, it's just a well, a plain old well that T. P.'s having dug or re-dug for the purpose of getting more water on that 50 acres of his. But if he should accidentally strike oil he says he's going to make a mighty big noise about it so we'll all know.

Says The Honey Crop This Year Is Abundant

Mr. A. B. Graham says: This is a banner year for the honey crop. In fact it is the best honey producing year since 1914 and the production will likely exceed the 1914 record. He stated that a good heavy honey yield occurred about every 3 or 4 years. The drought of the last two years altered this schedule to five years since the last good year of production. Mr. Graham's farm will produce something like 2,500 pounds of the sweetness and he is now busy gathering and putting it in fruit jars for the market. To the producer honey is worth about \$2 a gallon.

From Oakdale Country

Barnes has gone to Caldwell to work for the rail road.

Miss Ala May Cast has gone to visit her sister, Mrs. Pennie, near Belmont for a while.

There was preaching over at Rice Sunday morning and night and several from here attended.

Mrs. J. D. Link and little girl of Curry were guests at the Sid Hause home some few days ago.

The baby child of Mr. and Mrs. W. A. Belt of Prospect died Sunday evening and was buried Monday afternoon at Prospect.

Mrs. Charley Angel returned to her home at Ben Arnold Thursday of last week after having spent a week or so at the home of her daughter, Mrs. Clyde Hensley.

Buster Link and Hal Lyon of Cameron are spending several days with the Sid Hause family. They say they came out here to eat water melons and they seem to be doing their part to the melons.

Mrs. Lettie Shelton has returned home from College Station where she has been for several weeks. She said she left the other girls there. Guess she will be ready for a good school near us, as she lives with her parents, Mr. and Mrs. G. W. Batey.

Mr. Clyde Fisher and Miss Tillie Hightman were united in marriage Saturday night. They are both young people of Oakdale and are liked by all who know them. He is one of our best farmers and she is one of our nicest girls. They are at present with his grand parents, Mr. and Mrs. E. J. Fisher. They had his father and mother of Rosebud and Mr. Bozeman of Travis with them Saturday and Sunday.

"The Psalm of Life."

Many years ago, when Professor Kneeland was leaving Iceland, the people said to him: "Tell Longfellow that we love him; tell him we read and rejoice in his poems; tell him that Iceland knows him by heart." And, at about this same time, they were using in China a fan, which was most popular there, on account of the "Psalm of Life" being printed on it in Chinese.

Liberty Couple Married In Milano Last Friday

Mr. Bob Kirk and Miss Annie Malone were married Friday evening of last week at the home of Rev. H. T. Hart in Milano just about dark. A number of friends of the couple attended the ceremony which united the two people as life companions, Bro. Hart officiating. The contracting parties are of the Liberty community and well known. Friends of the couple wish them every success and happiness as they travel along life's many pathways.

Says Kraut Put In Salt And Sugar Keeps Fine

Mr. E. C. Smith says: A dish of home-made sour kraut occasionally is something mighty fine for the venturing of a healthy appetite; and as a proof that he practices what he preaches, he put up a 32-gallon barrel of the edible a few weeks ago and it is now ready for use. In fact he's already been eating some of it and pronounces it fine. He put the kraut up with layers of sugar and salt, using 1 part sugar to 4 parts salt, and this formula seems to be just about right for putting up kraut in barrels. He says it has practically kept and is keeping very nicely.

Mrs. C. J. Stevenson Is Reported As Improving

News received by the children of Mrs. C. J. Stevenson states that she has considerably improved since she left Milano three weeks ago for Coupland, where she has been under medical treatment and care at the home of her brother, Mr. and Mrs. E. W. Baggett. As soon as she is physically able she will go to the sanitarium at Taylor for further treatment and perhaps for an operation, after which friends here at Milano hope to see her recover her entire good health and be able to return to Milano within a short time. Her health lately had been critical.

How Floating Dust Causes Fire.

Spontaneous combustion is caused, so the chemists tell us, by floating particles of coal dust or other inflammable material jostling and clashing against one another until the friction they set up raises their temperature to the ignition point. If this explanation is correct, it would appear as if such fires could be prevented by perfect ventilation. Such, however, is not the case, for ventilation may actually help to bring about fire by spontaneous combustion. Air facilitates oxidation, really fanning the warm dust into a blaze. Keep air damp and quiet to avoid fire.

Going Ahead Too Fast.

The young detective was enthusiastic but inexperienced. Rushing into his chief's office in great excitement he cried: "I've found the assassin! I've got him cornered so that he can't escape!" The chief regarded him with withering scorn. "Allow me," he said, "to draw your attention to the fact that at present we are looking—not for the assassin, but for clues."

Coffins Sell In Milano For \$35 Up To \$125

The J. D. Peeples store received in a considerable shipment of coffins Monday at a wide range of price that meets the pocket book of the poor man and the rich man. But who wants to buy a coffin for themselves? Still these things of last resort are very essential the world over. Among the coffins received this week is one as cheap as \$35, which seems good enough to bury any mortal body, but for those who like something better Mr. Peeples can accommodate you with other finer models at \$85 and \$125.

What Some Milano People Have To Say

Rev. H. T. Hart says: The battle of armageddon has never yet been fought. But it's coming. The book of Revelations says so. And it will be far more bloody and larger in scope than the European War was.

Mr. S. E. McGregor says: He had a letter from Mr. L. A. Beard of Donna, Texas, some few days ago stating that the excessive rains of the past few weeks were about to clean up the cotton and corn crops. Mr. Beard and his family, it will be remembered, formerly lived in the Cedar Creek community and still owns a farm in that neighborhood.

Mr. H. R. Hairston says: In Temple and Taylor and other cities the people pay 35 cents a pound for beef and in the smaller places the price is 30 cents. Yet he sells his beef for 15 and 20 cents. He butchers only once a week, Fridays, and for this Saturday he will again have a good fat beef at these low prices. Milano people, he says, pay only about one-half what city people pay for beef.

Uncle Billy Dukes says: The "day light saving law" still stands since Congress failed to repeal it by the wish of the people, but that isn't going to prevent the farmer from working from day light to dark. They call it the day light saving law, but as a true matter of fact, Joshua, with the help of God, was the only man who ever actually saved any day light according to the very best of my recollections.

Mr. G. W. Meadows says: He believes a war of revolution is coming some day that will out-clipe the European War by many fold. Just when it is to come he does not know, to be sure, for he is no prophet, but he is of the opinion that this earthly sphere is far from settling down to wordly peace. Whether it will be war or a world-wide demonstration of rebellion he knows not, but the sign of the times are written and can be surmised by those people who indulge in matters of forethought.

Mr. Lesser Newton says: If everybody dips their cattle according to the dipping law the fever tick will become entirely extinct by next year, and once they are extinct the eradication remains so if this county quarantines against the importation of ticky cattle. He also states that dipping is good for goats and hogs, and says if you have a pig which does not fatten or grow fast, just wash him with some of the cattle dip solution once or twice a week for a while and then watch that pig's anatomy get excited and fatten up.

Immense Crowd Attend The Woodmen Supper

The W. O. W. supper given at the Milano pavilion last Saturday night in honor of the soldiers and sailors of the Milano country was the biggest affair that Milano has pulled off in many years. People were there in big crowds from all over the Milano country and the supper was plentiful with some to spare. The menu consisted of everything good to eat, as the supper was furnished in baskets by the people, but the Woodmen Camp furnished great supplies of ham, bread, ice cream, and other luscious good things. After the supper a dance was whooped up with a violin and a guitar for the music and a crowd stayed till a late hour.

Government Provisions Are Sold Through Post Office

Postmaster C. Howes has been in the grocery business this week for Uncle Sam helping to sell some of the war food supplies which the government is now selling to the people. Not many people however are buying, as the saving is small and in some cases there is no saving at all. But such items as bacon, beans and rice the price is reasonable enough considering the present

market prices. There is no sugar or coffee on sale, but plenty of canned goods, such as corn, peas, tomatoes and canned meats, all of which are being sold at wholesale prices, but to which must be added the regular first zone rates of postage for delivery. Mr. Howes has a list of all the commodities and the prices for them, and he says the sale will likely last all through this week.

Rev. E. G. Thies of Penial, Texas, will hold services at the Milano Nazarene Church on Thursday night of next week, August 28th, and the public is invited to attend.

The Woodmen wish to thank the good ladies of the Milano country for the substantial assistance they rendered us last Saturday evening in entertaining the soldiers by furnishing so much fried chicken and other good things to eat. They have always been of much help to us on occasions of this kind, but never have they rendered greater service or been of more help than on this occasion, and we sincerely thank them. The Camp is also under obligations to Mr. Talley of the Turner Lumber Company for furnishing us lumber for the tables. Respectfully, G. W. Hilliard, Consul Com'dr. C. M. Beard, Clerk W. O. W. Camp.

Broke Arm Is Falling From Fence

Little Mary Leslie, daughter of Mr. and Mrs. Lesser Newton, is carrying her left arm in a set sling, she having fell from a fence recently and broke her wrist, and it had to be broken again in order to get a perfect set. The little girl is getting along nicely enough and it is only a matter of a few days until the arm is again safely healed and as sound and well as it ever was.

A Letter From Our California Friends

Palliser, Calif; August 13th, 1919.
Dear Milano Gazette: How are you all these hot days? We are just fine and enjoy reading the Gazette every Wednesday. We also lend it to our California neighbors to read.

This place isn't like the California coast country. It is out on the Mahave (Mahave) desert, and it's some desert too. Lots of sand dunes, jack rabbits, coyotes and other wild animals. Not any crops here much. It takes lots of water and there is hardly any rainfall, only some cloud bursts. Grow some alfalfa and a few fruits, such as grapes, peaches, apples and quince.

I am working here as section foreman. It gets awfully hot, but the rail road company furnishes us with 200 pounds of ice every other day, so it is plenty to keep anyone cool. The water we have here is fine and is always cool. Suppose it is a good thing too, as it has been as much as 113 degrees in the shade. The people living here have splendid health, but I like the coast country best, though it makes a fellow lazy.

Would like to pay Milano a visit and hope to some of these days. Come on readers and bring all the news. Folks that live so distant that it take 4 and 5 days for mail from Milano to reach us like and enjoy your writings. Your friend,
Mrs. J. J. Beavers and family.

P. S.—Am also enclosing 50 cents for subscription extension to the Gazette before it expires, as we don't want to miss a copy.

[Then after his wife wrote the above letter, John grabbed up his own pencil and added as follows:]

Well old pal, there is no mulberry tree here under which to talk about 75 cent cotton. But we stand out in the hot sun and talk about the high cost of living. Some high here too. But wages are good and that makes the balance come our way. Be good and come to see us. J. J. B.

News From People Around Sandy Creek

Cotton is opening up real fast and if this dry weather keeps up it will all be open soon.

Mr. J. L. Rutherford and daughter, Miss Dora, visited at the J. F. and Homer Akins home Sunday.

There is prayer meeting at the Sandy Creek school house every Sunday night, also Sunday School every Sunday morning.

Mrs. M. L. Rutherford and daughter, Miss Ethel, of Sipe Springs, were visiting at the H. T. Pruett home one day last week.

A few of our young people attended a 42 party and music entertainment at Mr. Homer Akins' on Thursday night of last week.

The M. L. Rutherford home entertained the young people with a party Wednesday night. All report having had a nice time.

Mr. Tal Touchstone and family went to thriver fishing one day last week, but we have not as learned whether they had any luck or not.

Mr. and Mrs. J. Akins and Mr. and Mrs. Homer Akins were among those who attended the Woodmen supper at Milano Saturday night.

Miss Omega Rutherford of Gause was visiting her cousin, Miss Dora Rutherford, last week. She returned to her home at Gause Saturday.

In The St. Louis Market

We purchased more Shoes and Dry Goods of All Kinds than has ever been brought to Milano at one time. When all of our goods get in it will be as if a new store had opened up in Milano. We will have enough new goods to open up another store complete if we cared to do so. But we are going to display them, stack them and sell them at the same old stand.

Maybe we have too much merchandise coming—if the cotton pests continue their depredations—yet the goods are coming just the same. Our customers need them and we must sell them. We were fortunate in having large orders booked with St. Louis manufacturers at prices much lower than now prevail, and this with the bargains and splendid "pickups" which we found on this personal visit will enable us to make some mighty attractive showings to our customers.

Prices are high everywhere and will continue to be high for some time yet, but we honestly believe we are under-selling the majority of our competitors, and will continue to do so. All we ask is that you compare Prices and Quality. Some of our customers who have not bought elsewhere do not know how much they have saved by trading with us, but there are many who have tried elsewhere, and know that we are cheaper in many instances, and rarely ever higher than other places. There is a reason: we use most careful judgment in buying—we buy in large quantities—we discount our bills and therefore get the best prices—and last but not least, we are satisfied with a reasonable margin of profit. Watch this space again. Shipments should begin to arrive daily by next week.

News Notes From Around Sand Grove

Ellis Christa is home from the oil field on a short visit.

Ray Woods of Summit attended church at this place Sunday night.

Guy Hill has been spending a few days in the home of his sister, Mrs. Blanche Pruett.

Miss Janie Miller of Belton has been visiting in the Hensley home several days the past week.

Miss Marie Grabener spent the week-end in Cameron visiting her cousin, Mrs. Mamie Ryan.

Miss Winnie Hensley has returned from Belton where she had been in school the past ten months.

Quite a crowd of our people attended the W. O. W. supper at Milano Saturday night. They reported a nice time and plenty to eat.

Mr. R. N. Jones of west Texas was visiting in the home of his daughter, Mrs. C. M. Grabener last week and also visited his other daughter, Mrs. A. R. Graham in the Summit community. "Blue Eyes."

Oldtime Fire Alarms.

Fire alarms came into use in medieval times. It was the custom in many of the towns to have a watchman stationed on a high building whose duty it was to look for fires. As soon as he saw one he gave warning by blowing a horn, firing a gun or ringing a bell.

Half And Half News Up Near Elevation

And how are you all by now? We are all doing very well.

Gus Winkler and Colie James of Chrieman were visiting at the Joe James home Sunday.

Mrs. W. N. Baggett visited her grandmother at Liberty last Saturday night and Sunday.

Oliver Neal has a sick child at his home, and little Miss Pheby Ann Hairston is on the sick list.

A lot of our boys attended the W. O. W. supper at Milano Saturday night and report a fine time.

Mr. Lub Hairston and wife, Mrs. Henry Vinton and Mrs. Allen Hairston were all visiting at the home of Uncle Tom Hairston Sunday.

Mr. John Hairston has sold his farm. I don't know the consideration, but John says he's going to Arkansas where the paw-paws grow.

Uncle Tom Hairston is still out at Ranger, and has been there for the past four weeks at the bedside of his grandson, Lovell. At last reports he was slightly improved.

Well, we never like to kick, because when we do we always kick some one. But we see that "Blue Eyes" takes in Half And Half territory, so we will have to quit or have the line surveyed out here.

Mr. Editor, you know old John was up there at the Woodmen supper at Milano Saturday night, and he sure was taking things in. That is the darndest fellow you ever saw. Either don't know any better or else he's "somebody," I don't know which. I seen him with Jeff Kemp and Judge Watson. You know a fellow that can associate with such men is either a fine fellow or else they're trying him in some case. But they will never try old John for stealing a bee gum. Now if old John gets ahold of this I'll have to be gone, so I am making a friend out of you, so keep all I tell you. So hoping you all well I will say goodbye. As ever, "The Old Timer."

News From All Over The Milano Country

Several children of Mr. and Mrs. R. F. Pariett of the western Milano country are seriously ill with fever and other complaints. One of the little girls has a very sore mouth which is causing her much suffering.

Bro. S. S. Lewis of the northern Milano country was in town Tuesday morning after a load of shingles and some lumber with which he is going to make some improvements on his home 3 miles north of Milano.

Mr. J. W. Spaulding of near the Liberty community was in town Tuesday and reports the boll weevils making further depredations on his cotton fields. Says he has one patch of 20 acres from which he doubts if he will get a single bale.

Messrs. Louis Jhudej and Joe Barton and wives of Hill county, spent several days at the Kohut farm 3 miles south of Milano, returning home Tuesday afternoon on No. 6. These people report the cotton crop in Hill county suffering the same affliction the of pests as the cotton in the Milano country.

Ex-Deputy Sheriff Is Now Out With Facts

The imposing list of men now endorsing Taulac who have held, or are now holding, some responsible public office grows longer day by day. To the large number of representative men whose statements have been published in the press of the country is now added the name of Joe Chadwick, formerly deputy sheriff of Bexar county, Texas, for fourteen years, and who enjoys the esteem of all who know him. Mr. Chadwick lives at 125 Krempkau street, San Antonio and made the following statement detailing his wife's experience with Taulac.

"I've just come in to get another bottle of Taulac for my wife," said Mr. Chadwick, "she has already taken two bottles and her improvement is simply wonderful. My wife has suffered for ten years from a disordered stomach that gradually got worse, and about eight years ago she noticed a distressing feeling of gas after eating and it caused painful smothering spells to come on. The gas seemed to press on her heart and cause palpitations that would nearly overcome her and she would lose sleep on account of it. She couldn't sleep on her left side at all, for the pain was simply unbearable when she tried to. She had a morbid appetite and seemed to be hungry all the time, but couldn't digest what she ate very well, and early in the mornings she would often get sick at her stomach and begin vomiting.

"Her condition got to be so serious I worried a lot about her till she started taking Taulac, then she began to improve at once and I became more hopeful of her recovery. She sleeps like a top every night now and she can sleep on her left side just as restfully as on the other, and she shows no signs of her old trouble. Her nerves are quieter now and she eats better and everything seems to agree with her and gives no distress afterwards. She is stronger and has more life and energy than before and says she feels more like working now than she has in a long time. We know from actual experience what Taulac will do and are telling all our friends about it whenever we see them."

Taulac is sold by leading druggists everywhere. Adv.

What Some Milano People Have To Say

Mr. J. H. Burnet says: The leaveworms are now going after cotton in the Milano country and have been hitting his fields ravenously. They are worse than the boll worm or the weevil, and if the people don't poison them to stop their destruction it is going to reduce the cotton crop of the Milano country greatly.

Mr. R. F. Pariett says: The boll weevil has taken hold of his cotton crop and prospects look mighty slim for anything like a good yield of cotton. But the cotton is of good growth and there are plenty of bolls on it and perhaps the wind that accompanied the rain Monday evening carried away some of the boll weevils. Such a thing often happens, he says, and if this is the case then there is a chance for a cotton crop.

Mr. A. J. Hildebrandt says: His cotton crop this year is a blowed-up circumstance. He had something like 6 or 7 acres which he planted in between the spring showers. Fact of the matter, he had an awful time with it from the very start, and now the firm of Boll Weevil, Worm & Company have taken charge of the cotton and they have so devastated the crop that he doesn't expect to get as much as a hundred pounds of picked cotton from the 6 or 7 acres.

Rev. H. T. Hart says: What has become of sociability and freindship on earth? Is it a fact that people are casting aside companionship for the American dollar? Such seems to be the condition of the world today and it is a regrettable circumstance. The big old round dollar has got us going sky high with everything we have to sell and everybody is trying to get rich. Better back up a while folks, and slow down a little and let us not forget the fellowship of mankind while we live here on earth.

Doctor M. M. Gough says: All this probing and investigating of the high cost of living by Congress won't amount to much. They've been doing that stunt for years and still everything gets higher. If you want to reduce the high prices go court-martial the factotums of the corporations and the monopolies and force them to put the prices where they ought to be. Make them quit cornering the food supplies in cold storage warehouses and stop the speculation on them. When that is done then the people can buy the necessities of life without being robbed.

THOSE WHO FORGET NOT

Mrs. A. McGregor left a half dollar with us Tuesday for another half year's subscription to the Gazette.

Mr. G. J. Neeley left a half dollar with us some few days ago for another half year's renewal subscription to the home town paper.

Mr. R. N. Turney of the Hanover community left a dollar with us Thursday for another year's renewal subscription to the Gazette.

Mr. G. W. Martin of the northern Milano country handed us a dollar one day this week for a year's subscription to the home town paper.

Mrs. R. L. Williams of the northern Milano country left a half dollar with us Tuesday for a half year's subscription to the home town paper.

Mr. W. H. Busea of the Liberty settlement left a half dollar with us Monday for another six months' subscription extension to the Gazette.

Mr. H. R. Hairston handed us a dollar one day this week which he said Judge J. D. Ruby gave him when he was down at Houston some few days ago, for another eight months subscription extension to his Gazette. Mr. Hairston said he met the Judge as a conductor on a street car. All right Judge, thanks for the dollar. Your Gazette is paid up to June 14th of next year.

Mrs. E. H. Hairston left a half dollar with us last Saturday for a four months' subscription to the Gazette which goes to her sister, Mrs. P. E. Driver at Mart, Texas, who is a former resident of the Milano community, but left here some several years ago. She had been visiting Mrs. Hairston for a while and just happened to see a copy of the paper and soon decided it was worth buying.

Mr. I. N. Bankston of Dallas left a dollar and a half at the Gazette office last Saturday for a year's subscription to the old home town paper. Mr. Bankston and his family had been here on a 10 days' visit at the Charles Williams home where he saw a copy of the Gazette and decided it was worth getting every week, as Milano is his old home town. He left here about 10 years ago and remarked that Milano and the Milano country certainly did look a lot better than it did when he left here and moved to Buffalo.

The Milano Gazette: Enclosed find money order for 50 cents for which please send the Gazette to me for the time this will pay for. I must have the Gazette to read, as this is somewhat of a lonesome town. I have accepted a position as a clerk with the Santa Fe and they have sent me here for the present. Can't tell how long I will be here, but not long. Will notify you my address when I move. I would appreciate it very much if you would send me this week's paper, as I am keeping up with a story. C. Milano Public School Opens September 15th

The Milano public schools will open the next ensuing term on the third Monday of next month, September 15th. This is the date which has been decided on by the trustees, and both the white and colored schools will open the same day. The compulsory attendance ruling may somewhat be disregarded this year on account of the labor problem, but the trustees have not as yet taken any definite action on the matter. The faculty of the school for the coming term is as follows: Miss Bernice Nicholson, principal; Miss Clyde Newton, Miss Eula B. German, and Miss Annie Wooley, the latter having charge of the primary grades. Hattie Pleasant will again teach the colored school.

Free Books For Milano Schools Now Arriving

All school books will be supplied the children of the Milano schools for the next term beginning September 15th. This includes books for both the white and colored schools and every school in Texas is to be so supplied. Some of the books for the Milano school have already arrived and Mr. Bruce Stewart is custodian of them until they are turned over to the school. What rulings the books will be given under will be explained to the children by their teachers when school opens. The general supposition is that the books must remain in the school building at all times. The books are supplied by the state under the free text book provision and includes every book needed.

Efforts Under Way To Reorganize The Milano Band

After being disbanded for 4 years and 2 weeks the members of the Milano band got together Wednesday night and reorganized the band. A new bass drum outfit has just arrived at a cost of some 50 odd dollars and many other new accessories must be purchased before much can be accomplished in the way of good work. The music world has taken a complete somersault in many ways since Milano had a band, among which is the change from high pitch to low, and this circumstance alone is a problem to correct, and will require time and expense.

He Had Suffered For Fifteen Long Years

"Tanlac has proven to be just the medicine I have been needing for fifteen long years," said Charles H. Wentworth, whose address is Box 179, R. F. D. Route No. 1, Berkeley, California, recently.

"I suffered with indigestion so bad that it just looked like almost every thing I would eat would put me in misery," continued Mr. Wentworth, "I didn't dare to eat anything that was the least bit greasy, because if I did I would be terribly nauseated, and at times the gas that would form in my stomach would press so against my heart that it would palpitate so fast that I would feel just like I was going to collapse. I was troubled a lot with dizzy spells, too, and if I happened to be on the street when one of these attacks came on me I would just have to lean up against a building, or if I was at home at the time, I would have to lie down till the dizziness wore off. For the past eight or ten years I haven't been able to sleep well at all and would always get up in the mornings feeling all tired and wornout, and I suffered with splitting headaches, too, and was troubled a good deal with awful pains in my back, right across my kidneys. Sometimes in the mornings these pains would be so bad I could hardly get up, but would just have to ease myself out of bed the best way I could and if I would make a quick move of any kind a sharp pain would strike me like I had been struck with a knife.

"I was just in this shape when I began taking Tanlac, but I could notice a difference by the time I had finished my first bottle and it wasn't long till I got so I could just eat anything I wanted without suffering a bit with my stomach afterwards. I am never troubled with palpitation of the heart any more and have been completely relieved of those dizzy spells. The rheumatism has left me completely, I am not troubled with those pains in my back and all that is left of those awful headaches is just the memory of them. I sleep like a log for eight or nine hours every night and get up in the morning feeling fine; in fact, Tanlac has helped me so much that I actually am feeling years younger. It has certainly done wonders for me and I can't say enough for it."

Tanlac is sold by leading druggists everywhere. Advt.

Rainfall Very Excessive Over Milano Country

When has it rained in Milano like it did last week? Perhaps it has been many years ago. Monday and Tuesday a good rain fell and from Wednesday on it poured almost continuously day and night until last Saturday at noon. Some folks got scared and thought it was going to rain 40 days and nights; others said it was ruining the crops, and still others said let it rain, you can't stop it. So rain it did. The rain no doubt helped the sweet potato crop some and cooled the atmosphere for a week or more, but it damaged other crops quite considerably, especially cotton. Some people say there won't be any cotton to amount to anything; others say this country will make a little cotton, while there are some who honestly think the Milano country will make more cotton this year than it made last year during the extreme dry weather and drouth.

Our New Fall Shoes

A great part of our fall shoes are in. Come and see them. The new arrivals include Men's High Grade Shoes, Ladies' High Grade Shoes, Misses and Boys high grade Shoes, Children's high grade Shoes, School Shoes and work shoes of all kinds.

In addition to our regular line, we bought while in St. Louis about

Two Thousand Dollars Worth Of Damaged Shoes

These are Factory Damaged Shoes which we are going to sell at bargain prices. We discovered them accidentally, we examined them carefully, some were only slightly soiled, some scratched, some had small cuts or awl-holes, others with small defects here and there, but all are good shoes and serviceable.

We Knew Them To Be Bargains And Bought The Whole Lot. They Are All Star Brand Shoes.

This means they are all leather. Most of the defects would escape notice if we did not call your attention to it. There are all kinds and sizes of shoes. Some are sold elsewhere at \$15 to \$20. All colors and styles, but brand new; the leather is not old as the shoes are fresh from the factory, and this is one way of beating the extremely high price on shoes. We have this lot of shoes arranged by themselves and plainly tagged. Call and examine them whether you want to buy or not, as we want you to see them.

We have invoices for more men's hats, caps, suits, gloves, shirts, etc. Also have invoices for notions of all kinds, and dress goods, shirtings, suitings, etc. Next week our store should be fast filling up with everything in the dry goods line.

Milano Express Agent Cites Baggage Rules

Local expressmen are now handling more summer baggage than at any time in the history of the express business. A statement to this effect was made the other day by Agent G. E. Griffin in charge of the Milano office of the express company.

The heavy movement of trunks, suit cases and other baggage is keeping local expressmen on the alert in order that none of the shipments may go astray. Last year at this time 1500 pieces of baggage had to be sent each month to the various "No Mark Bureaus" throughout the country, because the addressees of the owners were totally missing or inaccurate. Most of the trouble has been traced to carelessness on the part of the vacationist and others in addressing their baggage.

The most prolific cause of delay, according to Agent Griffin, is the practice of the people of not removing all of the old labels and addressees from previous trips of their baggage. Frequently trunks are found in the express offices with one or more addressees. Agent Griffin insists upon the use of a tag and also a label on each piece of baggage forwarded. The express regulations forbid the acceptance by the company of any trunk or other baggage which is addressed with only a tag. The address should be clearly and correctly written and contain all of the essential information to accomplish its delivery. No shipments accepted without a declaration of value and it is to the interest of the baggage shippers to make a correct statement on this item, as under the law the carrier's liability, unless extra valuation is specified, is limited to \$50 for baggage weighing 100 pounds, or 50 cents per pound actual weight if the trunk is over the 100 pound minimum weight.

As an additional precaution the express officials suggest that all baggage shippers place an extra address somewhere on the inside of their trunks or suit cases, so that in case of delay or miscarriage they can be opened and their owners identified as soon as possible and the baggage sent to them without further delay.

Two Boy Adventurers Leave Clow At Milano

Two youthful boys, named Leo Adams and the other a McDonald, arrived in Milano early last Saturday morning and aroused the suspicion of some other boys by their peculiar actions and some articles they had about them. Later the two adventurers caught a freight train to Cameron where the Sheriff's office was notified and the boys were arrested. A lot of jewelry, a watch, a flashlight and some keys were found on them and it was thought they were the parties who broke or tried to break into the E. C. Smith drug store the night before, but after going up to Cameron and looking the articles over Mr. Smith said they had nothing from his store. Later however, one of the boys confessed and said they were from Riverside, Texas, and had burglarized a store in that town. Both the boys, it is said, formerly lived here at Milano some several years ago.

What Some Milano People Have To Say

Mr. G. W. Butts says: He has made more feed this year than he has ever before made during his career as a farmer.

Mr. H. B. Belt says: The Milano country has made the best feed crops this year it has made during any year since 1882. And there is going to be lots of cotton made this year too, he stated, but of course not a bumper or huge crop.

Mr. W. H. Busea says: The democratic party is split. It's been torn wide open and there now stands two distinct crowds and if neither crowd can outstrangle the other, then look out for the republican state ticket at the election next year, for it's results will frighten many a democrat.

Bro. S. S. Lewis says: The boll weevils are out his way and have taken charge of his cotton patch. But he has no boll worms, but says the weevils are worse than they have been since the Galveston storm several years ago. He states that he believes the government will have to reduce its advance production report of eleven million bales down to several million bales less.

Mr. Walter Yeakum says: The cotton pests are bad, no question about that, but they are never so bad as some people think or say they are. He believes the Milano country will make a fair average of cotton this year and he figures it out that this is a year of plenty with the farmer, at least more so than has come the farmer's way in many years. Therefore he isn't grumbling much about the boll weevils out his way, but everything else looks so much better than it has in many a year that he is fairly well contented.

Mr. C. M. Beard says: The rains of last week hurt his hay crop more than anything else out his way. He had considerable hay cut and drying when the rains came and the first of this week it was still lying there. The cotton crop, he says, is done for this year as far as any further production is concerned. He and his renters have something like 30 acres from which he expected to get 7 or 8 bales before the rains came, but now he can only see a total production of about four bales. But he believes the Milano country will make as much or a little more cotton than it made last year.

Residents From LaSalle County Locate At Milano

Mrs. M. E. Cook and her aunt, Mrs. M. A. Galbreath of Millett, Texas, arrived in Milano this past week and will make their home here at Milano. They had recently purchased some 900 odd acres of land near the Pin Oak country and after getting the place fenced up they will put it in shape for cultivation. Their household goods have also arrived but are stored until they can secure a home place near town, and they are in the market for the purchase of such a place. Mrs. Cook says both she and Mrs. Galbreath have come to Milano with the intention of being satisfied with this country and she has great confidence in this community's future prosperity. She possesses an optimistic spirit in her relations with the business world and we trust these two ladies will accomplish much success from their investment among the commonwealth of the Milano country. They are at present stopping temporarily at the Hudson hotel.

Pioneer Resident Was Buried Here Last Sunday

The corpse of Mrs. H. F. Iglehart who died at Amarillo, Texas, last Friday, arrived in Milano Saturday night and was buried in the Milano cemetery Sunday afternoon by the side of her husband who was buried here in the year 1911. Funeral services were held at the Baptist Church by Rev. Mann, a Methodist minister of Taylor, after which the burial took place. Mrs. Iglehart was 66 years of age and her death, it is said, was probably due to heart trouble. She had a number of distant relatives in Milano, among them being Mr. E. F. Evard, a brother-in-law, Mrs. J. T. Robinson, a niece, and also Mrs. L. B. Dukes, a niece. Deceased and her husband formerly lived here and had a large circle of friends all over this community and the funeral was attended by a multitude of people.

An Attempt At Burglary Made Last Friday Night

Some one tried to enter the E. C. Smith drug store last Friday night by breaking out a rear glass window, but the inside shutters prevented any entry. Then the party went to the front and threw a brick threw the glass door, breaking the large plate glass in the door and also smashing the glass in the cigar case. But from all evidences the party did not enter, for the opening in the door was too small and nothing seemed to be missing as far as Mr. Smith could determine. But the damage done to the broken glasses run up considerably in cost. So far no clew has been discovered which would identify the burglar.

THOSE WHO FORGET NOT

Mr. Jim Silvey of the eastern Milano country left a half dollar in our possession Monday for another half year's Gazette subscription.

Miss Tommie Morgan left a dollar with us one day this week for a year's subscription to the home town paper which goes to her mother, Mrs. J. A. Morgan on Milano route 2.

Mr. A. F. Aschenback of near the Oakdale community left 75 cents with us Tuesday for a six months' Gazette subscription which he sends to his brother-in-law, Mr. J. T. Treadwell at Stamford, Texas.

Miss Myrtle Worthington handed us a dollar one day this week which Mr. A. W. Burnett of San Benito, Texas, gave her to have the Gazette sent for the next eight months. He was here at Milano some few years ago and no doubt wants to keep up with what the old town is doing.

Mrs. J. E. Beavers left a half dollar with us Wednesday for a four months' Gazette subscription which she sends to her son, Herman Beavers, who sometime ago enlisted in the aviation service of the government and is stationed at the Ellington Aviation Field near Houston.

Mrs. M. E. Cook who just lately located here at Milano from LaSalle county, handed us a dollar Monday for a year's subscription to the home town paper. Mrs. Cook has been trying to buy a home place near town for herself and Mrs. Galbreath, but if no place can be secured then they will build a home on their 900 acre tract in the Piu Oak country.

Coal Mine At Milano Is Now Mining Lignite

The new coal mine a mile or two north of Milano is now running and lignite coal is being mined to the capacity of about three car loads each week. The mine started some two or three weeks ago and Superintendent J. S. Taylor says the output will gradually increase each week as the under ground territory becomes larger. The mine has standing orders for 18 cars of lignite per week, but it will be some time before all orders can be filled on scheduled time or kept up with.

Now Drilling For Oil Eight Miles South Of Milano

The Gazette understands that an oil drilling outfit has been erected in the Davidson Creek country 8 miles south of Milano and that drilling operations were to have begun this week. This project is not in the hands of Milano people and is perhaps being negotiated by men of Rockdale, as we understand the outfit was shipped to Rockdale, and other supplies came from there. Mr. E. F. Evard received a letter from Mrs. F. A. Mauldin one day this week about some butter she sold him, and incidentally she mentioned that Mr. Mauldin and Mr. Tom Bankston left for Rockdale Wednesday morning to get the gasoline for the drill rig and she said work would begin the next day.

A Gas Pipe Line May Pass Through Milano

Rumor has it that a gas pipeline will be layed through Milano from some north Texas city to Beaumont. It is said that some of the pipe for this purpose is now over at Rockdale. But why the pipe was shipped to Rockdale is not known, unless this piping is for a tap-line. The pipeline is to be layed along the Santa Fe railroad, and it is stated the line could be tapped for towns through which it traversed, but whether this would be done or not is altogether a matter of conjecture.

Mrs. Peeples Visits Her Father in New Mexico

Mrs. J. D. Peeples, Sr., returned home last Saturday from Deming, New Mexico, where she went to see her father, Mr. J. D. Fowler, who has been critically ill for several months. Just before she left they placed Mr. Fowler in the hospital and later expected to take him either to Los Angeles, California, or to San Antonio, Texas. Mrs. Peeples says Mr. Fowler is in a very weak condition and is suffering from cancer trouble and other complications which have caused him very poor health for a long time.

Twin Mountain Home Has Barn Raising Event

Quite a crowd of people, including both men and women, gathered at the W. J. Greene home in the Pin Oak community Wednesday of this week and participated in an old fashioned barn raising and quilting occasion. The men folks put up the barn which was built on the old log crib plan with two cribs 14 feet square and a 10-foot gangway space. The barn is a thing of delight to Bro. Greene and his abundant feed crops, and the good women no doubt finished up the quilt. But that wasn't all, for we understand there was also an old fashioned dinner served which would have made old High Cost of Living blush with shame. That's the way they still do things at the Twin Mountain Home Farm—in the good old way.

Two Thousand Dollars Worth Of Damaged Shoes

These are Factory Damaged Shoes which we are going to sell at bargain prices. We discovered them accidentally, we examined them carefully, some were only slightly soiled, some scratched, some had small cuts or awl-holes, others with small defects here and there, but all are good shoes and serviceable.

We Knew Them To Be Bargains And Bought The Whole Lot. They Are All Star Brand Shoes.

This means they are all leather. Most of the defects would escape notice if we did not call your attention to it. There are all kinds and sizes of shoes. Some are sold elsewhere at \$15 to \$20. All colors and styles, but brand new; the leather is not old as the shoes are fresh from the factory, and this is one way of beating the extremely high price on shoes. We have this lot of shoes arranged by themselves and plainly tagged. Call and examine them whether you want to buy or not, as we want you to see them.

We have invoices for more men's hats, caps, suits, gloves, shirts, etc. Also have invoices for notions of all kinds, and dress goods, shirtings, suitings, etc. Next week our store should be fast filling up with everything in the dry goods line.

Newsy Items Of The Prospect Community

Mrs. W. W. Richards and children of Summit are visiting her parents, Mr. and Mrs. W. C. Mobley.

H. B. Belt & Company are still making syrup and we expect to have a sweet time in our community for some time to come.

Mrs. Lee Smith and children have returned home to Mumford after a few days visit with her parents, Mr. and Mrs. H. B. Belt.

Mr. Homan Thompson put on his glad rags and went out to Ballinger some few days ago and bought up a car of horses and colts.

Arch Ford spent Sunday with his father, uncle John Ford, and ate a supply of pears and water melons. Said that is where he shines.

Frank Baker has returned to stay after a year's absence at Corsicana. Said he could not stay away from Milano and Prospect any longer.

Mr. W. C. Mobley has returned from McDade, Texas, where he went to see a sick sister and brother. He left them both improving.

Some little cotton is beginning to open around this community and picking is just beginning. Mr. Bull Weevil and his gang of associates have played their destructive forces heavily. But if the financial world was honest with its fellow men and the cotton bring the price it ought to, then crop failures would cease making the burden so heavy on us.

We see that when it is found that we are being over-charged for the necessities of life, there is no law to help us. So we have to just let Mr. Speculator go on selling his goods high and pay us less for ours every day. We think it is time to pass laws to stop him from robbing the laboring people just to be filling up his coffers. "Napper."

Oldtime Fire Alarms.

Fire alarms came into use in medieval times. It was the custom in many of the towns to have a watchman stationed on a high building whose duty it was to look for fires. As soon as he saw one he gave warning by blowing a horn, firing a gun or ringing a bell.

Baptist Aid Society Is Busy With Needy Fund

The ladies of the Baptist Aid Society are making a quilt for the benefit of the Buckner orphans' home near Dallas, and contributions of squares or material of the quilt are being asked for. Donations of 10 cents are also asked, but the money raised will go toward painting of the Milano church building.

Holly Used as Symbol.

It was usual at Roman weddings to present the bride with a wreath of holly, significant of the warmest congratulations. In India and Persia the followers of Zoroaster, the founder of fire worship, soaked pieces of holly bark in water and throw the infusion in the faces of newly born babies, believing this will insure them prosperity and safety in this world.

First Bale Is A Month Later Than Last Year

The first bale of cotton was gained at the Milano gin for this season on August 29th, just one month later than last year when the first bale was ginned on July 29th. And during the month from July 29th to August 29th of last year the gin turned out 249 bales of Milano cotton. This shows what a difference there can be in the yearly seasons. The extreme drouth of last year caused the cotton to be very early, and the ginning season this year opens at just about the average time of a normal season.

Mr. H. E. Baker has here in this community the past week shaking hands with old friends and relatives. We are all glad to meet up with him again, as it has been quite a while since we saw him last.

Milton Rice of near Rockdale was seen in this community Sunday trying to get hands to help him pick his cotton. He said he thought he would get about 20 bales of cotton from his crop this season.

Carlos Sloan lost a fine Jersey milk cow Monday. Also Mr. Grabener lost a fine hog. Seems like those two farmers are always having some kind of bad luck, but they have a determination to keep trying.

Oh, yes, "Old Timer," I was about to forget to talk to you a while, and surely I must not forget that, as I did not get a chance last week. I am really sorry I got over in your territory which I will try and not do any more, as I do not like to be grumbled at or kicked at. But we will not fall out over that, and I will promise to stay in my own territory, but I am not particular about my territory. "Blue Eyes."

Seagulls Foretell Weather.

It is a widespread belief, both in Scotland and in Ulster, that "Seagulls, sit on the sand. It's never good weather while you're on the land," alludes to the fact that when the birds fly out early and far to seaward, or remain on the sand, fair weather may be looked for; while if they take a contrary course storms most frequently follow.

600 Pound Hog Arrives For The Newton Farm

The Newton farm received an imported hog Monday from Dallas which weighed 600 pounds and was of the Hampshire breed. He was shipped to Milano by express and in size he was a monster. His age is supposed to be about two years and his worth cost the Newton farm \$150. This is another step towards the ever progressive road which this farm is following and the hog raising industry is receiving considerable attention and study. In fact the Newton farm is gradually becoming an up-to-date ranch.

His Doctor Advised Him To Take Tanlac

"One of the best doctors in Colorado advised me to take Tanlac, and it has not only overcome my troubles but I have gained sixteen pounds since I began taking it thirty days ago," said A. F. Roberts, who lives at Rocky Ford, Alberta, Canada, a few days ago.

Mr. Roberts is one of the largest cattle dealers in his section of the country, and before moving to Canada a short time ago, he had spent most of his life in Colorado, U. S. A.

"I can now understand why Tanlac enjoys such wide popularity both in Canada and the United States," continued Mr. Roberts, "and since it has done me so much good, I know that it is a very dependable medicine and deserves all the praise that is being given it. For the past two years I have suffered from stomach trouble, and when I commenced taking this Tanlac, it was almost impossible for me to retain anything I ate. I was very nervous and never got a good night's sleep, and finally got so weak and rundown that I was hardly able to get about. I often had dizzy spells, and was bothered a great deal with constipation.

"My physician certainly knew what he was doing when he prescribed Tanlac for me, for it has done the work for me, as I am as healthy and strong now as I ever was in my life. In fact it has done much more for me than I expected it would do. I have a fine appetite and everything I eat agrees with me perfectly and I never have the slightest sign of stomach troubles of any kind. I am no longer bothered with constipation, and never have those dizzy spells any more. I have regained all my strength, too, and that nervousness has left me, and I sleep like a log every night. In fact, I am simply enjoying perfect health again and I give Tanlac credit for it all."

Tanlac is sold by leading druggists everywhere. Advt.

Postmaster C. Howes Is Back From Sanitarium

Our Postmaster, Mr. C. Howes returned to the Cameron sanitarium last Friday for further treatment, but came home again Monday of this week, and expects to make another trip to the sanitarium this week sometime. Treatment in a sanitarium makes anyone look bad and of course Mr. Howes is no exception to the rule, however we believe he has gained a new spirit of better health for the future after he recovers from the treatment. He has been able to be at the post office every day since his return.

Milano Will Be Given Chance To Try Lignite

It seems only a matter of a short period of time until the Milano people will be using lignite coal for heating purposes. And the higher the prices of wood get the sooner will the local wood market slump. There has already been some movement made to get someone to handle the sale of a car of bituminous coal for this winter's needs at Milano, but with lignite so close at hand it is believed that the home product will be favored. Manager J. S. Taylor of the lignite mine north of Milano states that as soon as the mine can increase its output the Milano people will be given a chance to try the lignite. It is used extensively in Rockdale and other towns and is many times cheaper than wood and better for heating.

What Some Milano People Have To Say

Mr. Jim Silvey says: The Boll Weevil Company has played great havoc with his cotton crop this year. Likewise sickness in the family including himself held him from going to the cotton's rescue while the grass was trying to straggle it. So he figures that from about 40 acres he might make four or five bales.

Mr. J. F. Coffey says: He is of the opinion that if farmers would break their lands in mid-winter there would be less boll weevils and less of all other kinds of insect pests. He has cotton patches on two tracts of land this year, one of which was broken up in December and the weevils are scarce, while in the tract which was broken up late the boll weevils and pests are numerous.

Bro. W. J. Greene says: Yes, you can be a Christian without belonging to any church, for we are born in the church with a birthright membership. But you can disconnect yourself from such membership by going astray from the righteous pathway. The church is the guiding light, and the nearer you remain to it the safer will you be able to follow the illuminated pathway of life.

Mr. S. E. McGregor says: He has made larger crops of feed this year on his farm than he has made during the past three years. But he is afraid that the late rains damaged the corn to some extent and he is of the opinion that a considerable portion of it will rot. When the wet weather set in he went through his corn field and bent the ears downward so as to keep them from collecting water, but even then, he says, some of it looks like it will rot.

Mr. R. N. Turney says: The worst cotton pest on his way is the boll weevil. But the other kin folks are all there, though not in such destructive numbers. He also stated that some of his neighbors have discovered a pest which strongly resembles the pink boll worm and some few have expressed their opinion that the pink pest is really in this country. But the actual condition of the cotton pests' depredations, he says, will not be known until next year's cotton is growing.

Mr. W. H. Todd says: If the people of Milano want a store delivery service on an economical plan he is sure he can take care of the delivery business of every store in Milano at a very nominal charge. He could make a certain number of deliveries a day for each store, or he could serve the public with individual delivery service at a flat minimum rate of 10 cents where the delivery did not exceed the bulk of a sack of flour. Other stuff would be charged for according to weight or bulk.

Old Fashioned Time To Keep Us Straight Again

This Saturday, October 25, is the last day on which the new day light time law will be observed. Beginning Sunday morning the time will be set back one hour, and all the United States, and this includes Milano, will again keep pace with the world by the old solar standard of time. All trains will run by the same time schedule, but they will all be an hour later than they have been during the past six months. The school will also open an hour later, but on the same schedule of time, and this will make a great difference to the children and the home folks, especially since the days have begun to get shorter. Nothing like the old standard of solar time. We believe in saying it's 12 o'clock when the sun is in the middle of the sky, and not one hour before that time.

Milano Road Bond Election Date Must Be Re-Set

The Commissioners Court ordered a road bond election to be held in the Milano road district November 22nd for the purpose of voting on the \$150,000.00 bond issue, but because it was impossible to publish the legal notice in this issue of the Gazette according to law, the election date will have to be reset by the Commissioners Court at its next meeting in November. The notice is of very great and detailed length and was received too late to get it set in type for this week. The Gazette even tried to get the Rockdale Reporter and the two Cameron papers to help us out and set the notice on a type setting machine, but all three of them flatly refused, saying it was impossible for them to handle the job on such short notice, and if it was impossible for such papers it was worse than impossible for the Gazette. Had the Commissioners Court set the election date just a week later than the matter would not have been delayed. The law requires the notice to be published for 4 consecutive weeks before the election is held, and this is the point of state law that kills the election date of November 22nd.

Will Ship Out Fall Crop Of Tomatoes Next Week

Mr. J. H. Burnet reports his 15 acre tomato crop just about ready to give forth its second crop of tomatoes and by this next week he expects to be shipping out fall tomatoes from Milano. This is the tomato patch which was under the supervision of Mr. J. F. Nelson, and the tomato plants were not staked but were left to grow as Nature saw fit. Of course the spring crop didn't turn out very well on account of too much rain, but they did right well and should the fall crop be as good as the prospects look to be then they will perhaps prove profitable enough.

Grandma Smith Buried At Milano Last Sunday

Mrs. Rebecca Smith died at Gause last Saturday afternoon at 1:30 o'clock at the home of her grandson, W. F. White. The body was brought to Milano Sunday afternoon and laid to rest in the Milano cemetery. Mrs. Smith was one of the pioneer settlers of Milano and had lived here the greater part of her life. She was a grandmother of our citizen H. N. White, and also of Rev. C. H. White of Port Arthur, and W. F. White of Gause. Mrs. Smith was 80 odd years of age and was a member of the Milano Methodist Church. Rev. R. O. Wier conducted the services at the burial.

The Sugar Famine Has Also Reached Milano

There is an acute sugar famine in the United States as far as the people are concerned for household use, and this situation has reached Milano as well as every town in Uncle Sam's kingdom. The trouble seems to be that the people have been buying too much candy and soft drinks and extravagance in home use of sugar. Of course the candy and cold drink manufacturers long ago bought heavily on sugar but the people are left empty-handed everywhere. So if you can't buy any more sugar in Milano don't blame the merchants. Perhaps you have been eating too much cake, pies and sweet stuffs, thus helping to bring on the sugar famine. Prohibition is also said to have helped make sugar scarce, as beer drinkers are now drinking sweetened drinks.

Fort Worth Woman Gains Fifteen Pounds

"I actually believe Tanlac saved my life, for it pulled me up when I was nearly past going," said Mrs. Laura Parks, of 1433 N. Calhoun street, Fort Worth, Tex.

"My condition was such," she continued, "that everything I would eat caused gas to raise and press on my heart till I thought I would smother to death. After eating I would become nauseated and would get so dizzy I was afraid of falling; my limbs would become numb, then again they would tingle all over like thousands of needles sticking in me. I was so nervous that I could hardly sleep, had sick, headaches most all the time and was so miserable and despondent I feared my end was near."

"Soon after taking Tanlac my appetite picked up, my digestion improved and I got to eating everything I wanted. I am now strong enough to do all my housework and more, all my troubles are over, I sleep like a child and my husband tells me I am the very picture of health."

Gazette Will Be \$1.50 A Year November 1

Effective November 1st, the subscription price of the Milano Gazette will be \$1.50 a year, or 75 cents for a half year. This price will be for all subscribers, whether at a distant or here at Milano. We have held the price down to \$1 just as long as we can. We have been sending the Gazette to people at a loss for several months. The subscription money which has been coming in during the past several months has not been enough to pay our paper bill, and when such a circumstance presents itself it is time to correct the loss. No newspaper makes money on a subscription list, but it must at least pay safe. If the people knew what a large amount of paper is required each week to print an issue of the Gazette they would gasp with astonishment. The Gazette is no small thing in itself. Paper prices have gradually advanced on us so that there is just no way to keep the paper going on \$1 a year. The Gazette sold for \$1 a year when cotton was worth 10 and 12 cents; but now cotton is worth 3 times that price. Then surely the Gazette is worth the small increase of only one-sixth of such a difference. Most all weekly newspapers are now \$1.50 a year and many are \$2. The Gazette has been the cheapest item on the Milano market during all this period of high cost living, and even at \$1.50 a year it is still cheap. The new price of \$1.50 a year goes into effect November 1st; 75c pays for a 6 months subscription, or you can get the paper 4 months for 50 cents. No renewal subscriptions will be accepted between now and November 1st at the old price of \$1 which expire after that date. Adv.

Fiske's Admiration for Darwin.

The biography of John Fiske contains this comment in one of his letters from England: "Darwin is the dearest, sweetest, loveliest old grandpa that ever was. And, on the whole, he impresses me with his strength more than any man I have yet seen. There is a charming kind of quiet strength about him and about everything he does. He is not burning and eager like Huxley. He has a mild blue eye and is the gentlest of gentle old fellows. . . . None of these men seem to know how great they are. But Darwin is one of the most truly modest men I ever saw."

Miss Lonie Bussa and brother attended the box supper at Hanover Saturday night.

News is very scarce this week. It just rains so much that folks can't neither work nor visit.

Henry Lantrip left Saturday for the Burk-Burnet oil fields where he will work with his brother Will who has a position at that place.

The terrible down pour of rain Thursday of last week almost made the public roads impassable in several places in this community.

Mr. G. W. Miller received notice from the hospital at Waco Monday that his daughter, Mrs. Will Tyler, was better. This is good news to her many relatives and friends at Liberty and surrounding country.

The Liberty school opened Monday with a very small attendance. People are so awfully behind with cotton picking and on account of not being able to get any hands to help them they have to keep the children out of school for help.

Halt Sand Drifts With Grass Tufts.

Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

Holly Used as Symbol.

It was usual at Roman weddings to present the bride with a wreath of holly, significant of the warmest congratulations. In India and Persia the followers of Zoroaster, the founder of fire worship, soak pieces of holly bark in water and throw the infusion in the faces of newly born babies, believing this will insure them prosperity and safety in this world.

Do You Want Cash For

your products of the farm?

Have you any eggs to sell at 40 cents a dozen CASH? If so, bring them to me.

Have you any Cotton Seed to sell for top price? If you have, bring the seed to me.

Have you some remnant cotton which you want to sell? If so, bring it around to me.

Have you sweet potatoes to sell? If so, see me. I pay the CASH and you may trade with me if you like, if not then you can trade where you can buy the cheapest. You will make more by coming to see me.

Newsy Items From The Oakdale Country

Mr. Sid Hause had business in Milano last Saturday.

Mr. Enock Fisher, junior, has two very sick children at his home.

Mr. G. W. Batey and daughter, Miss Alda, went to Milano Thursday of last week on business.

Mrs. Sallie Hensley came in home by Milano last Saturday afternoon. Her son Clyde met her there.

Mr. Victor Wimberley is sick with chills and fever. He went out bee hunting Sunday and came in sick.

Well, I wonder what Milano will raise next time. Those big sweet potatoes are something wonderful.

Mr. and Mrs. W. C. Mobley have several very sick children at their home this week. They phoned for a doctor Monday morning.

Mr. Arnold Tucker of Thorndale came over last Saturday evening to see his sister, Mrs. Mattie Cast and may remain to help her for a few days with her cotton crop.

Little River was out of its banks most all of last week, but a number of our people went to Cameron anyway, some horseback and some managed to get there in buggies.

Ed Hause went over to Curry last Saturday to see his sister and brother, Mrs. Link and John Hause. He couldn't stay but one night. He had to get back so he could go to Milano Sunday night.

Mr. and Mrs. Bauldin gave a party at their home last Friday night. Of course some one left the gate open and a pair of mules that ought to have been home got on the rail road track and killed.

Mr. and Mrs. Ernest Bauldin of Cameron spent the week-end with his parents in this community. His cousin, Miss Edith Bishop, went home with them and will attend school at Cameron this term.

No substance that refuses to dissolve in water has an odor. It is the actual substance itself, floating in particles in the air, as in the case of light and sound. The damper a thing is the more powerful the odor it gives off. A pleasant proof of the fact can be had by walking in a garden after a rain. It is the vapor of a liquid that smells, and not the liquid in the mass itself. All liquids give forth their scents in a vapor, while solids rely upon their dust particles.

The average depth of the sand on the Sahara Desert in Africa is from 30 to 40 feet. Below that depth appears the various stratas of earth.

New and Valuable Oils.

The results were recently announced of an investigation into a series of oils prepared during the Australasian antarctic expedition. These materials included sea leopard oil, Weddell seal oil and penguin oil. The oils have been carefully examined in order to determine their characters in comparison with commercial oils of a similar kind. They were found to be of good quality, and could be used for soap making, leather dressing, burning, etc.

Postmaster's Salary At Milano Again Increased

The Milano postmaster's salary has been raised again, this time to an additional \$19 a month. Mr. Howes says it is the first time he has received a raise without the mail carries getting one. His salary now runs about \$175 a month, including money order fees, but out of this he must pay for all help employed in the office, also pay the rent of the building. The carriers receive from \$125 to \$129 a month. A bonus of \$12.50 a month is also soon expected to be paid which has accumulated from last July 1st and will be welcomed when paid.

THOSE WHO FORGET NOT

Mr. H. T. Hutto of the Cedar Creek community left a half dollar with us one day last week for a four months' renewal subscription to the Gazette. Said he was going to move up closer to Milano and get out of that Cedar Creek valley where chills and fever won't trouble him or his family any more.

Mr. O. P. Lagrone left 75 cents with us last Friday for another half year's renewal subscription to the home town paper. Said he was reminded by Mrs. Lagrone as he left home that day to be sure and get their Gazette subscription renewed. If it wasn't for the good ladies the Gazette wouldn't have half the circulation that it has.

Mrs. H. Holdiness left 75 cents with us Monday for a half year's renewal subscription to the Gazette. She and the family are appreciative readers of their home town paper. Mr. Holdiness is now at Rogers where he has a section farmship and they have been thinking of moving there but Mrs. Holdiness says they have about decided to remain at Milano as it is so much more like home. They have their home near town and also a 160 acre ranch east of Milano, and we are glad to hear they have decided to stay at Milano to make their home.

Methodist Pastor Re-Appealed For Milano

Rev. R. O. Wier returned home the first of the week from Tyler where he had been attending the annual conference of the Methodist Church. The Conference was in session four days and considerable business matters pertaining to the work of the Methodist Churches were attended to. Bro. Wier was re-appointed to the Milano and Minerva charge and his many friends gladly sanction the action of the conference in that matter. Rev. J. W. Wardlow, who was pastor here before Bro. Wier came, was appointed to the church at Goose Creek, Texas; and Rev. J. F. Garrett, also formerly pastor here, was appointed to the church at Giddings.

Two Milano Citizens Leave For Trapping Expedition

Citizens J. N. Suttle and E. H. Hairston left Milano early Tuesday morning in a pioneer style wagon outfit on a month's trapping, fishing and camp life tour. When they left town they were headed toward the Forbin bridge on Little River and from there they were scheduled to head for Hearne or some remote dell on the Brazos River; thence they expect to enter the wilds of East Texas. The two explorers left with their wagon well stocked with grub, traps and camp paraphernalia and there is no doubt they will meet up with much success and when they return home to Milano about Christmas time we expect to put forth every possible effort to extract a complete account of their trip and travels. Both of these men are well experienced in trapping and hunting and if they fail to bag an elephant or rhinoceros it will be because there are none in East Texas. Luck to them throughout their trip.

Mrs. T. M. Williams and Mrs. H. P. Talley of Rockdale were guests of the former's daughter, Mrs. R. E. Thweatt, one day day week.

S. W. Taylor, J. D. Peebles, Jr; and Lesser Newton went to Brynn Tuesday afternoon where they took the Knights Templar degree of the Masonic Lodge. The first two got in home Wednesday morning about daylight on No. 5 after being up all night. Mr. Newton remained over there until Thanksgiving Day.

Mrs. T. C. Wilson and little son, Master T. C. Junior, arrived in Milano Tuesday and are guests of Captain and Mrs. L. Bedell.

Captain L. Bedell and Mr. E. E. Kennedy report having had a big time at the Shriner doings at Austin last Friday night and the Captain says Mr. Kennedy is certainly a "prince of a gentleman" to have along in such times of adventures. Captain Bedell was perhaps the oldest Mason at this great gathering.

The Cost Of The Paint You Don't Buy

Wind, sun and rain work their ravages on your building; its life is shortened; repairs are needed sooner; the appearance is shabby and reflects on your own energy and thrift; the value of the property is decreased.

Add these together and you will have the cost of the paint you DID NOT BUY. As a matter of mere SAVING, it pays to paint. The actual PRICE is so small in comparison with the RESULTS, that the gain in that one item alone should make you act. Our wide range of colors, as well as high grade of paints, will make your selection easy.

Milano Rural Carriers Get A Raise In Salary

The Milano post office has received information from the Post Office Department at Washington that the rural mail carriers are to have an increase in salary of 200 dollars a year, dating back to last July 1st. This means that the Milano carriers will get a monthly raise of \$16.66 and a back bonus of \$65.54 for the months of July August, September and October. The three carriers here now receive a salary each month as follows: W. F. Hooker \$141; L. B. Dukes \$145; M. J. Pierce \$143. All of which are now nice salaries, but perhaps not any too much for this day and time. Anyway, we know the \$200 raise will be appreciated by the carriers.

What Some Milano People Have To Say

Mr. W. T. Brooker says: There is an epidemic of chills and fever over the Milano country just now that is far in extent of anything ever known here in past years. People are buying medicines for these ailments in great quantities.

Mr. W. A. Louis says: He made more cotton and better cotton last year during the severe drouth than he made this year with abundant rain fall. Says he is ready to take the dry years for his when it comes to growing a cotton crop with too much rain and boll weevil troubles.

Mr. J. H. Burnet says: A true Democrat will never be anything but a Democrat. He is one man who will not forsake the old party and join some new branch or other party. A sensible man may change his mind and all that sort of thing, but a strictly true Democrat will never forsake his old beloved party.

Mr. S. W. Taylor says: He can't see why there should be any objection by the people in Mexican children attending the Milano white school. If they have an objection it can be only as racial prejudice, which as American people we must lay aside. The law grants the Mexican children the right to attend the school if there is no separate school and if the children are clean and in a healthy condition he fails to see why anyone should object to Caucasian and Malayan children attending school together here at Milano or elsewhere.

Mr. C. M. Beard says: The sandy land country has always been known as a poor man's country, while the black land is looked upon as having made many a farmer wealthy. Such are the conditions today, but the time is coming when the black land farmer will be a poor man and the sandy land farmer will be the man of wealth. And here's the reason: The sandy land can always be built up but some day the black land will play out with its productiveness and will have to lay idle for many years before it ever becomes productive enough for general farming.

Mr. G. W. Beard says: This great scarcity of farm labor is going to mean a serious matter if present conditions keep up. People are just simply refusing to work on the farms even at good pay for their work. They prefer to work in towns and cities. There must be a back to the farm movement sometime, and if it doesn't materialize in due course of time, then the people who go to the stores to buy their flour and clothing will some day find there isn't any to be bought. The young men of today who are making big salaries had better save the greater part of it and buy a farm as soon as they can.

Mr. J. C. Hawthorne says: This High Cost of Living these days is all mere imagination. Twenty years ago a bale of cotton would hardly buy a farm wagon, but today it will buy a wagon and you will still have some money left. Overalls and clothing are all cheaper to day than they were 20 years ago when compared to the money the farmer received for his products. Flour, meat and all food products are high but the farmer is getting the big end of the deal, bigger than ever he received in his life. When flour was \$1 a sack and calico 5 cents a yard he had a mighty hard time making a living for his family and never could accumulate any money. Now his living is much easier. He has been able to buy a number of Liberty Bonds, something he could not have done 20 years ago. He's not getting rich or anything like that, but his living is so much better and easier to make than it was 20 years ago.

Should Say Not.

"It's all right to pay as you go," observed the almost philosopher, "but if you have to pay 25 cents street car fare to get there and back, the chances are you won't go."

\$500 State Aid Money Seems To Be Doubtful

Mr. J. O. Newton went down to Austin Monday to see about the State Aid money for the Milano school. It was announced that Milano would not get the \$500 state aid this year and Mr. Newton went down to find out the reason. He was assured that the Milano school was entitled to the \$500, but whether it can or will be paid remains to be seen. Should this money fail to be paid it will mean a short school term, but all efforts will be made to get the money.

Children's Health Exercises.

Teach your child to sit, stand and walk in an erect posture. Set a good example of this by your own conduct. Here suggestion thus has a powerful influence. Spend three minutes per day with the children in taking vigorous breathing exercise--lifting the chest, expanding the lungs to their greatest capacity, holding the breath, exhaling to the limit and the like, all together. All will soon become fond of this little drill, as they almost feel the increase in the glow of good health.

Tunnels Made by Ants.

Every one has observed trees that have been hollowed out by ants and it is apparent that their biting powers are equal to working in the hardest woods. In tunneling, ants are expert, and authentic cases are known of their tunneling under ditches and streams. Indeed a South American ant is said to have excavated a tunnel under the bed of the Parahyba river at a place where it is as broad as the Thames at London bridge.--W. L. She Could Not Even Raise Up In Her Bed

"My daughter's recovery through the use of Tanlac was so wonderful that I can't help rejoicing over it," said J. C. Hastings, a well-known farmer living at Alic, Tex.

"For two years," he continued, "she was sick with stomach trouble and neuralgia and her sufferings were something awful. Most everything she ate would give her trouble, and many a time she would wake up in the night in so much distress that she couldn't speak or even raise herself up in bed. By morning she would be so weak and worn out that she would be hardly able to get up at all. In fact she had to spend most of her time in bed and was forced to give up her housework, and I was afraid she would never get well.

"I read in the papers about a friend of mine who had been relieved by taking Tanlac, so I got the medicine for my daughter and now she is like a different person. Instead of lying in bed weak and miserable, she is the first one up in the mornings and is now well and strong enough to take up housework again. She never complains of suffering like she did before, and from the way Tanlac has built her up I have so much faith in it that I never expect to be without it in the house."

He Says Living Is High In Southern California

A letter from our far away friend, Mr. John Beavers, says to change his Gazette from Palisier to Ocean-side, California, as on December 1st they will make the move to a better country. He says they have been on the desert since last May. The section at Ocean-side is always cool and pleasant. But he states that the coming year isn't looking very bright as everything keeps going up in price and no more coming in.

Our Prices Still Hold Good

Which is saying all we can say. If you failed to get our quotations see last week's Gazette or ask at the store for one of our circulars.

This week we are going to put our advertising space into a store letter. We have several items of store news that we think will interest you.

STORE GOSSIP

Last week a lady customer came into our store holding out a handful of greenbacks saying: "I have eighty dollars here that I am going to spend in this store today." She spent it and five dollars more. She went away satisfied, knowing that she had received good value for her money. We appreciated this more especially because stores from nearby towns had been sending this lady flaming circulars bidding for her trade and her money.

Two out of town merchants were in our store this week trying to buy surplus dry goods. One offered 36c for our entire stock of ducking. We have been selling this for 30c. Another offer was to buy anything we had in bolt goods, or in surplus underwear, overalls, etc. In fact anything that we would sell, and many things we were offered much more than the price for which we were selling. We told them that what we have will be distributed to our customers.

Many business men predict that certain classes of dry goods will soon be as scarce and hard to get as sugar now is. We do not know whether this will cause any real suffering or not, but like doing without sugar, it may be inconvenient.

Among this week's arrivals we have several dozens of very classy stylish winter hats for men and boys. Some pretty brown, green, grey, navy and black hats for young men. Dave Bussa was present when they were being opened up he described the range of styles when he said "everything from a dude hat to the kind I wear."

We must not forget the new lot of knit caps, tam-o-shanters, etc. A lady who was present when we were unpacking remarked that she had no idea that they would be so cheap.

Before we could finish unpacking our new lot of men's and boys suits we sold one suit and an extra coat and vest. Mens suits range in price from \$20 to \$36. Boys suits range in price from \$7 to \$12.50. Boys School Molekin brown pants \$1.75 and \$2. Boys blue serge 2 75 and \$3.

Some pretty new Brassiers at sixty cents each.

Four dozen tan and smoke colored school shoes, size 12 to 2 at \$3.75 per pair. They are very attractive and substantial looking.

We shipped out several hundred dollars worth of turkeys this week and paid 24 cents cash. Neighboring towns paid from 22 cents to 23 1/2 cents. We always pay our customers the highest prices for their produce. We buy what you have to sell. The mail order houses do not.

We sold another good cistern this week. This one was sold to G. J. Neely. If you are in the market for a cistern let us name you prices.

Some of our good customers are moving away. We are sorry to lose them but we must have new customers and this is to say if you are not a customer of ours we want you to be.

We have bought some bargains in second hand planters, plows, harrows, cultivators, etc. Also about twelve dozen half gallon jars and want to sell them cheap to make quick turn on our money.

Have you tried the Globe tire on your car? We have some new ones this week. They are guaranteed for 7500 miles in Ford sizes. We have one on one of our cars that was put on over two years ago and it is still in good condition. We also have inner tubes, repair material and other automobile accessories when you are in need of these things.

We call attention before closing these remarks to our extra good line of groceries, also have a good lot of candies, apples and oranges. The Milano country should use pecans instead of other nuts this fall. They are home grow and no other nut is better in flavor and richness. We have several hundred pounds for sale.

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the Island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor, the daughter of John White, governor of the second permanent colony sent by Sir Walter Raleigh to the Carolinas.

Coal's Uncertain History.

The story of coal is a very uncertain one. No one seems to know when it first began to be used for fuel. All through the centuries it pops in and out of English literature as something taken for granted, and when it was finally found well in the van of the great industrial expansion of a century or more ago it occasioned no special comment.

Newsy Items From Around Cedar Creek

Master Odell Bussa was in Hearne last week visiting relatives.

Mrs. M. J. Dodd is at home again from a visit to Rockdale.

Mrs. Dennis is recovering from a four weeks' protracted illness.

John Meadows was on the sick list recently with an attack of chills.

Mrs. Dan Paschall of Smyrna is a guest at the home of her sister, Mrs. R. E. Lee and family.

Miss Alice McGregor returned home Sunday from Somerville where she had been for a few days with her sister, Mrs. H. Laferney.

Mr. Coleman Beard left last week for Donna, Texas, on the Rio Grande border country where he is visiting a brother of his, A. J. Beard.

G. W. Beard, Raymond Beard, Charles Williams and Coleman Beard went over to Burleson county Sunday before last and report a very enjoyable trip over there.

Mrs. W. R. Dennis, Mrs. Chas. Williams and Miss Lizzie Willis Dennis, went to Gause Wednesday of last week to attend the funeral of their grand daughter and niece, little Jewel Rhoades, who died of spasmodic croup Tuesday afternoon.

Crocodile's Agility.

The moment that a young crocodile breaks its shell it is to all intents and purposes as active as it is at any time during its life. It will make straight for the water, even if it be out of sight and a good distance off, and it will pursue its prey with eagerness and agility during the first week of its free existence.

Language of the Cliff Dwellers.

The cliff dwellers, like so many other primitive peoples, because they had no written language, expressed themselves by means of signs and crude pictures, painted upon their earthenware vessels or upon the walls near their homes.

Night Prowler Reported In Summit Community

Mrs. Beckie Graham aroused their neighbors the other night at 2:30 o'clock and stated there was some one in their house. Mr. Raymond Beard went over but found no one, however Mrs. Graham saw some one leave the house with a flashlight. Mr. Graham's gun was in the room where the party was and of course he nor anyone else would want to venture looking for a reckless burglar against such odds of defense. Mr. Graham now keeps his gun close at hand and burglars better beware.

The Windward Islands.

The Windward Islands belong to Great Britain. They consist of the islands of St. Lucia, St. Vincent and Grenada, with the smaller islands of the Grenadine chain. The islands, really, form three distinct colonies, united under a governor-in-chief, who resides at St. George's, Grenada. The Windward Islands derive their name from their position, as do also the Leeward Islands to the east, being more exposed to the trade winds than the neighboring Leeward Islands.

Graveled Roads If The Peopple Vote For Them

Wouldn't this old Milano country look proud and glorified in magnificence if we had gravelled roads from Milano out to Liberty, Hanover, Marlow, Hoyte, Sand Grove, Summit and Smyrna. Your vote for the Road Bond issue this Saturday will get these roads. Yes sir, gravelled and macadamized roads and a State Highway to boot. It will make your taxes a little higher, but look at what you will get for them - gravelled roads which is the stipulated building material with which the roads are to be built.

Newsy Items Of The Liberty Community

Mrs. J. K. Miller and children were guests of Mrs. A. McGregor at Milano last Sunday.

Mr. Charley Kirk and family have moved to the H. F. Smith farm down on the river.

Miss Millie Fisher visited at the home of her friend, Miss Thelma McGregor, at Milano Sunday.

Grandpa Hildebrandt is real sick at the home of his son, Mr. A. J. Hildebrandt. At last reports he wasn't any better.

Miss Sallie Fisher, who is a telegraph operator at Dallas, is visiting her parents, Mr. and Mrs. W. O. Fisher this week.

Mr. and Mrs. Jesse Kirk and family of Huntsville have moved back to Liberty. We gladly welcome this good family back.

Jack Frost has made his appearance at last which caused everybody to have to dig their potatoes. Most everybody are through picking cotton out this way.

I think most every body out here are in favor of good roads. If they traveled the roads from Liberty to Milano very much they couldn't be any other way about the matter.

Wanted the Odd One.

Julia was watching her mother pack her father's lunch and kept teasing for a piece of bread and butter. Mother was in a great hurry and told her to run and play; she didn't have time to wait on her. So Julia counted the slices of bread on the table—there were five—and said: "Mother, give me this one without any partner."

Experience.

"Simple Simon went a-fishing in his mother's pail." "Not so simple, at that," declared an amateur sportsman. "I've spent time and money getting to a place where the likelihood of catching fish was no greater!"

Forty-Two Club Entertained Last Friday Night

The forty-two Club met last Friday night with Mrs. Nannie Bodiford at the home of her parents, Mr. and Mrs. J. M. Cave. The home was beautifully decorated with pot flowers and ferns for the occasion. There were 17 members and five invited guests present. Nine games of 42 were played, after which refreshments of chocolate, cake and sandwiches were served. The next meeting will be held with Mrs. Lillie Carmichael as hostess, Friday night, December 5th.

Making Improvement Sure.

We can all do good work, for all that is required is to follow directions laid down by other people who have done good work before us. It may be that we can improve on what other people have done, and after a while it may be that we can strike out a line for ourselves. Most of us will find that if we do the best we can, even in the most plodding way, we shall find ourselves improving and rising, step by step, in our chosen task.—New York Evening Telegraph.

Little Folks Enjoy A Pleasant Birthday Party

Little Miss Margurite Wier entertained a score of her little friends Saturday afternoon, November 15, with a birthday party, the occasion being her eighth milestone of life. The little folks had a merry time and when refreshments were served and the birthday cake cut there was great expectation among them. Billie Timmons cut the thimble; Sallie Belle Tally cut the button; Charles Thomas Newton received the wishbone, and Mrs. G. J. Neeley, one of the chaperons, secured the slice of cake containing the ring.

Horses Versus Elephants.

Tests made to determine the respective pulling power of horses, men and elephants showed that two horses weighing 1,400 pounds each, together, pulled 3,750 pounds, or 550 pounds more than their combined weight. One elephant weighing 12,000 pounds pulled 8,750 pounds, or 3,250 pounds less than its weight. Fifty men, aggregating 7,500 pounds, pulled 8,750 pounds, or just as much as the single elephant, but, like the horse, they pulled more than their own weight. One hundred men pulled 12,000 pounds.

Eastern Star Chapter Issues Resolutions

In as much as it has pleased God in his wisdom to remove from our chapter, our superior officer and beloved sister, Ethel Newton, and in as much as she was one of our most faithful, efficient and unselfish members, never shirking a duty, never rebelling against the majority will of the chapter, ever gladly accepting the decisions rendered, although they were not in accordance with her personal opinions; and

Inasmuch as she was one of our charter members, had filled several responsible stations in our chapter, was ever laboring for the upbuilding and firmer cementing of fraternal love among its members, and in as much as we loved her with more than a fraternity love;

Be it therefore resolved: That through her death, our chapter has suffered a severe loss, a vacancy has been made which can hardly be filled. That her family has lost a wife, mother and daughter, whose faithful guiding hands are now stilled, but whose influence shall linger ever; that with them we share a mutual sorrow and shed a sympathizing tear.

Be it further resolved: That a copy of these resolutions be placed on our record; a copy sent the family and one be given the local press for publication.

Tunnels Made by Ants.

Every one has observed trees that have been hollowed out by ants and it is apparent that their biting powers are equal to working in the hardest woods. In tunnelling, ants are expert, and authentic cases are known of their tunnelling under ditches and streams. Indeed a South American ant is said to have excavated a tunnel under the bed of the Parahyba river at a place where it is as broad as the Thames at London bridge.—W. L. McAtee, in the American Museum Journal.

Gazette May Suspend Publication At An Early Date

The Gazette, after having been barely existing through a hap-hazard life for exactly eight years, may suspend publication some time the early part of the coming year. The business accorded us is too small to justify running a newspaper which is now a very expensive thing to keep going. The Gazette has been loyal to the town and community and has more than done its part, but we can't go on much longer. The cost of publishing a newspaper is now all out of proportion to what the Gazette plant earns. The year 1919 with most kinds of business firms has been a very prosperous year, but with the Gazette it has been one of the hardest to pull through we have ever experienced. All the unexpired subscriptions to the paper will be arranged for.

Mr. and Mrs. Claud White have moved from their farm north of Milano and have located on the Newton ranch South of Milano. Mr. and Mrs. J. H. Luce have moved out to the White farm and will make their home there the coming year. A number of Santa Claus letters have been received by the Gazette for publication but it has been impossible for us to get them in type. Just tell the little folks that we sent their letters straight to Old Santa Claus' headquarters at North Pole.

Milano's Christmas Store

We have on display as complete a line of Christmas goods as you will find anywhere. Our store is brim full of nice presents of all kinds suitable for remembering all members of the family and friends.

Following Is A Partial List

Cutlery, razors of all kinds, mugs, strops, shaving brushes and sticks, Flashlights, Men's, boys' and ladies' purses and vanity cases, most extensive line ever shown in Milano; Jewelry of all kinds, jewel boxes, watches and wrist watches, Silver and gold pencils, Fountain pens, Cut Glass, Kodaks, a very extensive line of perfumes and toilet water, Face and talc Powders, rouge, powder puffs, and shampoos in all sizes. Puff boxes, toilet sets, manicure sets, mirrors, combs and brushes in ebony and ivory, cloth and military brushes, soap boxes, baby sets, Rogers and Community silverware, albums, beautiful art pictures ready for hanging, fine Xmas box stationary, nice line of gold band dishes, bakers, plates, cups and saucers, berry sets, sugars and cream sets, and nice pitchers. Baby sewing sets. Dolls of all kinds and prices, baby buggies, carts, air and pop guns, doll beds, little dinner sets, block sets of all kinds, and numerous other toys we haven't space to mention.

We have the most complete line of bulk and box candies we have ever carried. They are not the cheap kinds, but are of the best quality made—Kings and Forest & Krammer lines. We want to urge you to come and look over our lines and to come early and avoid the rush, as you well know our store is not very large but full of nice things, and if you wait until the last few days we can not give you the service we would like to render to you and you can shop with more satisfaction when you are not rushed.

A Santa, as usual, will be here and will try to remember all the little folks, and I think he will have a surprise for you.

A Friendly Errand.

A small Scottish boy entered a tobacconist's, and with the air of an autocrat placed a penny on the counter and requested a packet of cigarettes. The tobacconist, after viewing the customer, pushed his money back to the youth and said: "Awa' and buy a scone!" Picking up the coin, the "smoker" took his departure, and in about five minutes returned with a paper bag, which he held up to the shopman, saying: "Here, mister, here's yer scone, and gie's ma cigarettes!"

Those Who Forget Not

Mr. R. E. Lee of the Cedar Creek settlement renewed his Gazette another year in advance last Saturday.

Mr. John Mills who lives out on route 1, handed us a half dollar while in town Wednesday for advance subscription to the Gazette.

Mr. Raymond Beard of the Elevation country left a big dollar at the Gazette office one day the past week for a year's advance payment to his home town paper.

Captain L. Bedell left a couple of "big wheels" at the Gazette sanctum Thanksgiving Day which supplies him for the coming year with a Milano newspaper and a New York newspaper, both of which he knows are worth the money to a man who has so much time to read.

Wake Up! There Is A Duty For You

In a little town in Southern England a local newspaper reported recently that every house on a certain street in that town bore the sign of sagged, grief and pride, signifying that a member of the household had given his life in the great war.

A French newspaper reported recently that a soldier on being given leave, refused it, saying: "My wife and only daughter have met with shame at the hands of the Germans. I do not want to go home."

Think of these things, you prosperous farmers, you, who are making high prices today because of war conditions. The life-blood and misery of others is being coined into money for you; you people who have been educated, protected, and shielded, by our government until you are in danger of losing your sense of gratitude.

Think of these things, you well-fed Americans, while you make money out of the war-time activities, then go home to a meal which is not statted by the necessities of other human beings, spend your evening with your children, and pass a dream-

less night, imagining that you have done your day's duty as an American citizen.

Contrast the stories outlined with your own enviable condition, and then try to realize that you are as truly and as fully committed to the purposes of this war as are those English widows, facing life anew without the bread winner; just as truly pledged to win this war as the French soldier, suffering agencies of mind which it is difficult to fathom. These people are bearing more burdens than human nature should ever be asked to carry. And what are you doing? Taking things comfortably, subscribing, it may be, of your surplus wealth to the Liberty Loan, and talking about "Uncle Sam cleaning up the Germans."

Wake up! Wake up! Get out of that dream in which you are indulging.

If the first jolt has not awakened you, think of the man you knew, who had a good job, or it may be a good medical practice, who threw it up, left wife, family and friends, and went to France to fight for you, besides the now dead Englishmen, and the Frenchman who will never smile again.

If you are not awake yet think of the girls in the Department Stores, and the telephone and telegraph operators, who bought a \$50.00 Liberty Bond of each issue out of their \$10.00 to \$14.00 a week.

In charity, we will assume that you are now awake.

All you are asked to do is to speed up production in your business, contribute to the national wealth, work harder, economize in the household, cut out senseless pleasures—even pleasures which though harmless in themselves, can still be done without. Save every cent you can. If you have not bought a Liberty Bond, go and get one now at the bank, in order that you may not be branded "slacker." And whatever you do, remember that early next year you will be called upon to subscribe to another Liberty Loan.

What do you say? Are you awake now?

"The Supreme Test of the Nation has Come.
We must all speak, act and serve together."
—Woodrow Wilson.

Local Option Will Destroy Effective Co-operation. Let Well Enough Alone.

To The Voters Of Milam County:

Very largely at the suggestion of persons living outside of Milam County, our citizenship is now engaged in another local option contest. The fact that our great nation is at war, that the attention of our people should be given to Liberty Loan, American Red Cross, and War Y. M. C. A. subscriptions, and that our men are going almost daily into our army and our navy and that in such a crisis we should have unity among our people has not deterred the demand from outside of Milam county for a local option election regardless of the fact that our people well understand such an election engenders strife, bitterness, and feeling is not conducive to the best co-operative effects in time of

The manufacture of whiskey stopped in the United States on September 8th. President Woodrow Wilson absolute authority not only to confiscate every drop of whiskey already manufactured, but to stop the manufacture of beer and other beverages also, and close every saloon in the United States if he deems it for the best interests of the United States in the "win the war" program. That authority is granted him under sections 15 and 16 of the Federal Food Control Bill, a copy of which is on file in the office of this committee.

Under such circumstances, there is but one course for our people to pursue—the course which puts absolute faith in our distinguished President and leave the liquor question entirely in his discretion for the period of the war.

The prohibitionists are already insisting that food conservation and patriotism demand the adoption of local option in Milam County. Either they are right and President Wilson is wrong or President Wilson is right and they are wrong. If they know more about food conservation's demands than our President, then we should adopt local option. If they know less, then local option is not necessary as a food conservation measure or a measure of patriotism. SURELY THERE IS NO MAN IN MILAM COUNTY WHO BELIEVES THAT OUR PRESIDENT, WOODROW WILSON, WOULD HOLD BACK FOR ONE MOMENT TO DECLARE FOR PROHIBITION IF THE INTERESTS OF OUR NATION DEMANDED IT.

The time has passed in these United States when anyone set of people, prohibitionists or otherwise, can arrogate unto themselves all of the patriotism of Milam County or any other community. Our great war is being fought by all the people—not by prohibitionists or anti-prohibitionists. The time has passed when the money of all is going to win the war and no set of people in Milam county has yet succeeded in getting a corner on the community's patriotism. Where anyone set of people seeks to create that impression, then should there be nothing but rebuke for these people in the minds and hearts of the men who wish to win the war.

The liquor dealers of Milam County have just paid into the treasury of the United States \$31,800 in war taxes to help win the war. The adoption of local option at this time, after they have just given this aid to our government, means ruin for them—complete confiscation of their property rights. They pay into the State treasury each year \$7,687.50 in taxes; to Milam County \$3,843.75 in taxes; to each city government in Milam County a proportionate amount in taxes.

Now, should local option prevail, our people can easily understand that there must be a tax rate increase to meet the deficit which the lack of that revenue will create. With our state tax rate at the constitutional limit, with our county tax rate already 55 cents, with the war taxes upon the people of our county, this is surely no time for a further increase in our taxes. Do our people want to increase their tax burden further when it is already great? Is this the time for a tax increase when our crops have been the poorest in years and when we are feeling the effect of the great drouth through which we have just passed?

Milam County has tried local option. Milam County citizens know that local option brought increased crime and crime cost, vacant buildings, increased taxes. They know that Bell county adopted local option in 1913, the county tax rate immediately increased 25 cents per \$100. They know that with wet Burleson, Lee and Williamson counties joining, with wet Travis, Comal, Harris and Bexar counties connecting, local option in Milam County would not be prohibition, but would mean a diversion of the supply route to the express office, automobile, freight office, and irresponsible bootlegger with a further increased tax burden upon our citizenship because of the loss of revenue now provided by the licensed and regulated liquor dealer.

Under these circumstances, it becomes the duty of our voters to determine whether or not they wish to adopt local option and vote upon themselves the further burdens which local option would bring without benefit from the standpoint of temperance or otherwise.

If they are content to let well enough alone, to abide the judgment of President Wilson, then they should go to the polls December 10th, and vote against local option.

any money left in the country if they keep on asking for these loans."

How many times do you hear such a remark made about the Liberty Loan? Perhaps you may have even thought something of the sort yourself.

To a man not used to finance the thought is a very natural one.

Let us think this thing out.

In the first place, practically all of the money subscribed to the Liberty Loans stays right here in the country, and a good deal of it stays right in the locality from which it is originally subscribed. So this talk about "draining the country," and about there "being no money left in the country," is sheer nonsense.

Let us see how this works out.

We will suppose that you are a farmer, or cotton grower, that you have purchased a Liberty Bond and you are paying by installments spread over several months. Now, until the government actually needs your money it leaves it on deposit at some local bank which is acting as a government depository—maybe your own bank.

Now, by the time you have paid the LAST installment on your Bond, it is quite likely that the money paid in as your FIRST installment has been used by the government to pay for your own cotton or grain, and you will be returning this very same money to the bank to be placed once again to your account, or to apply on your purchase of another Liberty Bond.

"But," you say, "how about these millions and millions of dollars loaned to our allies? Does not this money go out of the country?" It does not. Practically all of the money which goes to our allies is lent with the clear understanding that it is to be used for the purchase of goods in this country. Thus you will see that seldom do we actually loan our allies any money at all, but we loan them goods which you produce and for which you are paid. IN SUBSCRIBING TO THE LIBERTY LOAN YOU ARE PRACTICALLY PUTTING CAPITAL INTO YOUR

your increase in the war.

For its own good, the government is trying to make you richer, wealthier than ever you were before.

It is said that the first newspaper woman was an American, Mrs. Anne Royall, who was not only the first woman journalist, but the first woman to own and edit a newspaper. THE NEW ERA COMBINATION ENAMEL COOKING KETTLE

I am sole agent for Milam county for one of the most useful and best kitchen utensils that has ever been made, and I am now traveling over the country demonstrating it. It is the New Era Combination Cooking Kettle, two vessels in one that permit the cooking of two separate foods at the same time and under one fire. The kettle is made of enamel and will never chip off from its steel body. Comes in 6, 8, 10 and 12 quart sizes. Prices \$1.60 to \$1.85. I am now placing a large number of them in and around Milano. If I don't get to you soon enough just drop me a postal and I will bring one to your home and let you see and try it.

Deputy Sheriff Now Endorses It

"I suffered for twenty years with rheumatism, indigestion and a chronic liver trouble, and spent hundreds of dollars for different kinds of medicine trying to get well, but it only took three bottles of Tanlac to straighten me out and make me feel like a different man," said J. D. Patton, of Keefeton, Okla., a man well known in that section and also in Rains County, Texas, where he served as deputy sheriff for several years. Mr. Patton is now deputy sheriff of Muskogee, Okla., and holds large farming interests here.

"It's an actual fact," he continued, "I was hardly ever free from rheumatism and was so full of misery most of the time I couldn't rest or sleep at night to amount to anything. The main trouble seemed to be in my shoulders and the awful pains were due, I think to the condition of my liver. I couldn't eat to do any good and had to be very careful about the little that I managed to force down or I would have hours of suffering afterwards. I fell off twenty pounds in weight and got into such a bad shape it was a burden to look after the work on the farm and attend to all of my other business. I kept getting worse all the time and had just about given up hope of ever getting anything to relieve me.

"But three bottles of Tanlac have done me so much good I haven't had an ache or any pain since I finished taking them, and honestly I don't feel like the same person. I have a good appetite, I can eat anything I want and it all agrees with me, too. I have gained back all of my lost weight, sleep like a log at night and when I get up in the morning I am full of energy, and attend to my business without a bit of trouble.

"My wife is so pleased with the results that I have gotten from Tanlac that she bought a bottle for herself today. We know just what it will do and feel satisfied that there isn't another medicine in the world just as good."

Tanlac is sold in Milano by E. C. Smith Drug Store, in Thorndale by Red Cross Drug Store, in Gause by Avera Brothers, in Cameron by New Cameron Drug Company, in Minerva by W. H. Fletcher, in Jones Prairie by Flinn & Fontaine in Ben Arnold by R. F. Yardley and in Buckholts by E. J. Kahler. Adv.

School Tax Election Notice

The State of Texas, County of Milano.

Whereas, on the 20th day of October, 1917, a petition was presented to the Board of Trustees of the Milano Independent School District of Milano County, Texas, on the question of authorizing a tax of and at the rate of 50 cents on the \$100 valuation of taxable property in said district for the purpose of supplementing the State School Fund apportioned to said district, said petition bearing the requisite number of signatures of qualified property taxpayers voters of said district, and being in every respect in conformity with law:

Now, therefore, the Board of Trustees of Milano Independent School District does hereby order that an election be held on the 15th day of December 1917, at the Woodman Hall in the town of Milano, in said Independent School District, as established by an Act of the 56th Legislature, to determine whether a majority of the legally qualified property taxpayers voters of that district desiring to tax themselves for the purpose of supplementing the State School Fund applied to said district, and to determine whether the Board of Trustees of said district shall be authorized to levy, assess and collect annually a tax of and at the rate of 50 cents on the \$100 valuation of taxable property in said district for said purpose.

This election is for the purpose of making the district school tax uniform throughout the Milano Independent School District and does not increase the taxation as already existing in the Milano common school district.

C. H. Lister is hereby appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same, and he shall within 5 days after said election has been held make due return thereof to the Board of Trustees of Milano Independent School District as is required by law for holding a general election.

The ballots for said election shall have written or printed thereon the following:

For School Tax
Against School Tax

All persons who are legally qualified voters of this state and of this county and are resident property taxpayers in said district shall be entitled to vote at said election.

Notice of said election shall be given by printing a notice thereof in a newspaper in said district for 30 days before the election.

Dated this 8th day of November, 1917.

Board of Trustees of Milano
Independent School District.

Many Farmers Expected In Milano February 26

The Central Texas District Farmers Union which will meet in Milano on February 26th, is composed of ten counties, they being Milam, Williamson, Coryell, Hill, Llano, Fayette, Washington, Burleson, Austin and Harris. This is a large district and if each county sends their allotment of delegates there will be many farmers in Milano from various sections of central Texas on that day. In years past this semi-annual district meeting was held in the big cities, and during the free rail road pass periods the attendance would be very large. Houston was a favorite place for these meetings and the farmers always had a big time. But Milano is no large city and no great crowd is looked for, but there will perhaps be enough farmers here on that day to make things look quite lively.

Is Your Home Built Right?

A good well built home means comfort for your family. It is a protection against winter's cold and summer's heat, and a safe-guard against sickness. Your family can not enjoy good health in a ramshackle house. Every home ought to be double-walled, or the plain box house ought to be walled inside with Beaver Board. This is the only way to keep a house warm in winter and cool in summer. It means good health with little or no sickness. If your home is not ceiled or walled, then let us quote you prices on fixing it right. It costs nothing to ask.

Will Plant 10 Acres In Onions For This Season

Mrs. M. E. Cook is going to plant ten acres this season in onions. She has rented 10 acres of land from Mr. J. F. Coffey and will put the entire 10 acres in onions. Mrs. Cook believes there is good money in growing onions and also believes the Milano country is a good place to grow them. That she is correct in her belief has been proven by a number of our truck growers in years past, for their onion crops did well. Mr. Coffey himself was about the largest grower of the onion crop here, but owing to low prices of the product he decided to quit growing them. But times are now different and perhaps onion growing will prove very profitable to Milano growers this season. Mrs. Cook is figuring with the E. C. Smith Plant Farm to furnish her the onion plants for setting out the 10 acres.

What Some Milano People Have To Say

Mr. J. W. Hairston says: He can always tell when cold weather is coming and knows a few days before hand when it is due. All he has to do is to see how slim his wood pile is. The wood always plays out just about the time a blizzard blows up here from the north pole.

Mr. W. C. Mobley says: That old saying about "a rolling stone never gathers any moss," may be all right when properly applied, but like everything else, there is another side to the argument, and when asked about the other point of view he replied by saying: "A sitting hen never gets fat only in a wheat box."

Mr. W. H. Dukes says: And what do you suppose has become of all the frogs around Milano during the recent wet and cold weather? Recollect how sweetly and beautifully their honorous voices sounded at the fall of evening tide! Reckon they've hibernated into the deep depths of Mother Earth for warmth, or don't frogs or toads ever get cold?

Mr. R. E. Lee says: There are many different tales and remedies known and said to cure the pain of toothache, but he believes he has about as good a one as any that has ever gone the rounds. Next time you have the toothache get a silk handkerchief and lay it over one of your ears and have somebody blow their breath into your ear. If one ear fails to relieve the pain then try the other ear. This is said to be a sure and quick remedy for toothache.

Mr. W. A. Belt says: The old fashioned onion set is fast going out of date and being replaced by the onion plant, which not only makes a better onion, but insures a better yield and better success in many ways. Last year he planted both sets and plants, and being an experienced plant grower he also planted the onion seed for his plant business. The sets made a very poor crop of onions and a large percentage of them went to seed, but the onion plants proved to be very efficient in every respect.

Mr. E. C. Smith says: Plant a large garden this spring or extend your truck patches to full capacity. Vegetables will be scarce on the retail markets this year and the wiser ones will plant a big garden. Even the plants will be scarce, for he has recently been over a considerable portion of the section of Texas adapted to plant growing and finds the plants are late, been too wet for early ones, and the demand is going to be great for plants. Make your garden grow all it can for your family's use and then can up or sell whatever surplus you have left.

Mr. D. B. Miller says: The cold weather is not near over yet, for the month of February is still before us. And February always has some mighty cold waves in store to help make winter leave its recollection. The coldest February weather he remembers ever having seen was during the year 1898 or 1899, it was one of these two years, but he's forgotten which. Anyway, it was cold, and everything froze solid on the outside of the world. So Mr. Miller won't say it's gardening time yet, not until he sees what the month of February is going to do.

Mr. C. Howes says: There are many nice jobs in this old world and just as many sorry jobs. But in speaking of a dignified profession he cited the fact that a school teacher had about the meanest job a human being has to put up with. While they are doing their utmost duty to instruct a half hundred children of a hundred different varieties of dispositions, they are at the same time being harassed by another half hundred or more parents for not being the right kind of a teacher. Yes sir, a teacher's life is a hard one, he says, and if you don't believe it, just you try to please everybody.

Newton Store News

The bad weather of last week came near causing us to take back that broad smile, but while we are preparing these notes the sun is again smiling and the weather promises to be fine. We join you in another smile and hope that it will not wear off for a while.

R L Lewis of Thorndale, a former customer, paid us a pleasant visit Tuesday.

We have received several shipments of new Dry Goods this week, including Blue Bonnet Chambray, Serpentine Kimona goods, laces, etc.

We have several wood beam and steel beam TURNING PLOWS ready for somebody at good prices.

J. E. Baker was shopping Monday and asks us to secure him 15 bushels of the LOCK-HART MEBANE COTTON SEED for him. He believes in buying the best.

V. T. Wimberley, Theo Aschenbeck, Mr. and Mrs. G. W. Beatty, all of Oakdale community, were among those trading here this week.

Our car of Cotton Seed from west Texas should be in soon. Those who desire may take their seed from the car at a slightly reduced price.

We are curious to know what mineral is contained in a rock which came out of the Milano coal mine this week. Looks like copper, silver and gold in good quantities. We rather think though that it is a mineral from which sulphuric acid is made. Even that may prove valuable.

From purchases made by W. G. Allen we judge it to be hog killing time, and that he is going to grow some truck as well as corn and cotton.

Burl Ashley sold a bale of cotton this week weighing over 600 pounds at 20c. He booked a big lot of cotton fertilizer with which to grow early cotton this year.

We have received a shipment 36 new suit cases and the first sale was to our friend Jess Martin. He went off smiling and we know that he was well pleased with his purchase. They are extra good values.

Charles Metzger of Oakdale was here Saturday shopping.

The depot platform is full of good cisterns this week. Take a look at them and leave your order with us for one.

We are still of the opinion that small acreages of early truck will pay this season. There is only one trouble, there are no crates in town, but we will do our best to meet that if those who expect to grow some truck will tell us what they will plant and how much. Please take the trouble to leave this information in our office.

J. B. NEWTON & SONS

Perhaps Carpenters Struck.

The Victoria tower of the houses of parliament, at Westminster, took some twenty years to build. From base to summit the tower contains 140 spacious rooms—each fireproof and packed with state papers, the records of centuries of English history.

J. T. Lindsey of Sipe Springs took a block of stock salt home with him Monday. We have two kinds of stock salt, one containing sulphur and the other plain in 50-pound blocks. Nothing tickles stock more than having a block of this salt where they can lick it.

The 12 sacks of sugar which we received are vanishing very rapidly even in 25c packages.

A. Gandy, T. E. Loer, Ola Swift, Ed Robinson and others from the Liberty community were trading with us the first part of the week.

We have an eight inch and a four inch middle breaker plow that we would like to SELL CHEAP.

Jim Kidd, a former customer who now lives in the northern part of New Mexico was in to see us Monday. We are hoping that he intends to locate near Milano again.

The Egg Market has been very exchangeable for the past 10 days. We expect to pay 50c per dozen for them the remainder of the week.

M. J. Fortner, Walter Louis, Eugene Mobley, Joe Hairston and others from Sandy Creek were trading with us the first part of the week.

Hiram and Bob Smith were in outfitting themselves with a full lot of PLOW GEAR, COLLARS, BACKBANDS, TRACES, BRIDLES, etc; and from their earnestness in getting the best of everything including a good plow, we expect them to tear up the works "down on Brooker Farm."

We hold invoice for our seed Irish Potatoes. We have received a full supply of new fresh Garden Seeds of all kinds and would like to supply you.

Mr. Mosley says if we do not hurry and come out for that possum hunt that he and J. A. Morgan will have the tribe entirely cleaned out of that neck of the woods.

Bob Sloan, Joe Hawthorne and Claude Bankston were in Tuesday purchasing some telephone supplies. We have some good Columbia batteries for them too when they get the line in shape and fixed up.

Mrs. John Reese and son were pleasant shoppers at our store this week.

We are glad to see from the daily papers that our good friend T. B. Reese has been appointed chief clerk in the State Comptroller's Office at Austin. Hurrah for "Teddy." We all know him and like him. He deserves the plum which he got. We used to sell Ted his pencils, ink and paper when he first started to school. We are still selling the school boys and girls lost of pencils, pens, ink and paper, and we hope many more will make good with them as Ted has.

This Woman Weighed Only 66 Pounds

"I wouldn't give one bottle of Tanlac for all the other medicines in Ensley and Birmingham put together," said Mrs. J. D. Morrison, of 314 25th street, Ensley, Ala.

"Three years ago," she continued, "I lost my health, had stomach trouble of the worst kind and just seemed to go into a slow decline. I lost my strength, never knew what it was to get a good night's rest and was a nervous wreck. I suffered also from biliousness and constipation and was never free from pain. I was taken to the hospital for an operation, and when I was taken home afterwards I weighed only sixty-six pounds and was so weak it looked like I would never recover."

"After trying everything else that was recommended to me without getting any better, I decided to see if Tanlac would help me. While on my second bottle my appetite picked up and I began to improve. I kept on with Tanlac and soon was able to eat whatever I wanted without having any unpleasantness afterwards. My nerves became quiet so I could sleep at night and my weight increased thirty-three pounds. I am now doing all my own housework and nothing seemed to hurt me at all. I believe I owe my life to Tanlac and never expect to be without it."

Attorney From Pearsall Was A Milano Visitor

Judge John T. Bivens, a prominent attorney of Pearsall, Texas, was in Milano last Saturday and Sunday looking after some business matters for Mrs. M. E. Cook and her aunt, Mrs. Galbreath. Judge Bivens is a big man, both physically and in mind, and looks like he's never so much at home as when trying to solve the mysteries of some legal litigations. The only fault we found with him is that he lives at Pearsall and not at Milano. He said according to the prophetic books of the Bible the Milano country would perhaps some of these days show up what it was good for.

Newsy Items Of The Liberty Community

Miss Ruby Robinson was the guest of Miss Lois Miller Sunday.

The infant babe of Mr. and Mrs. Clyde Miller was buried at Liberty last Sunday evening.

Mr. Ben Allen Nicholson and Miss Annie May Cast were married Saturday of last week.

R. C. Rogers and family left Tuesday for Temple where they will reside this coming year.

Mr. Carter of Rogers is visiting at the home of his brother-in-law, Mr. A. J. Gunnels, this week.

The pipe line men are camped at the Liberty school house and are at work surveying the right-of-way.

Mr. Ola Swift and family are moving to the Carl Miller place. We learn that Mr. Swift has bought that place for his own.

Miss Ora McClellen was sick Thursday and Friday, suffering from tonsillitis. She was unable to teach school those two days.

Mrs. Sallie Bullock returned Monday from Cameron where she had been the past week at the bedside of her son, J. T.; who has been seriously ill at the sanitarium. We are glad to hear he is improving.

The people around Liberty have experienced a miserable week the past week on account of the terrible rainy weather. You couldn't even get out of the house, and now since the sun is shining the roads are so bad no one can hardly get to town. I think everybody are in favor of having good roads out here now.

Says Incorporate And Elect A Good Mayor

Mr. J. A. Touchstone says: Incorporating the township of Milano is a capital idea. And it is time it was being done. Much good will be accomplished in that way for the welfare of the town and surrounding community which could not be attained in any other way. As to a taxation, he believes a nominal tax of only 5 cents on the \$100 of valuation will be enough to support the city government financially. Then elect a good man for your Mayor of the town, a big man, big in mind, thought, soul and actions, one who is continually awake as to the best interests of the town. Get the right man elected as Mayor and you will see things beginning to look much better for this little town of Milano. Incorporation of Milano will have a tendency to elevate its citizenship very considerably toward a more progressive spirit of civic pride and interest for our town. Certainly, let's incorporate, he says.

News From People Around Sandy Creek

Well, I thought I would send in a few items from this point.

Everybody out this way seems to be pretty happy as they have plenty of hog and hominy on hand.

The little infant of Mr. and Mrs. Henry Darden was buried at the Sandy Creek Cemetery Saturday.

The little child of Mr. and Mrs. George McDonald has been real sick but we hear it is some better.

Something strange happened in our community the early part of last week. Old Hannah showed her face for 4 or 5 days.

The Sandy Creek school is progressing nicely under the management of Miss Fitzgerald and Miss Gandy with good work being done.

Lets everybody pull for the Editor to stay on the job. If every one would neither loan or borrow the Gazette it seems to me that we would stand a better chance of still getting the Gazette. It is one of the best, cleanest and newsiest papers in the county.

I met Albert Martin of Milano out here the other day wearing a mighty board smile. I could not imagine what was the matter, unless some of his rich kinfolks had died and had willed him a pot of gold, but it didn't take long for Albert to let it be known that he has a new boy at his home.

Now if this gets by the waste basket I will come again some sweet day. Best wishes to the Gazette and to its many readers for this time. "Greasy Chin."

To The Public:

We wish to express our gratitude and extend our thanks to the people living in and around Milano for their liberal patronage during our short stay in business here. We assure you that we appreciate your patronage. When you are in town and want something to eat come to the Milano Cafe and get more for your money than any place in town. Wishing one and all a happy and prosperous year.

Says Incorporation Is Salvation For Milano

Mr. W. L. Braun says: Incorporation! That's the thing for Milano. It's Milano's only salvation to make it a good, up-to-date and progressive town. He's for it heart and soul, head and foot, wise and otherwise. He is one of our citizens who would like to see his old home town get out of the old homely rut and brush up; put on a bold front and catch up with the world. He also wants to see the business men get together once a month and talk matters over for the good of the town; wants to see the stores build in some show windows; wants to walk on a few feet of cement sidewalks; wants to see electric lights glowing; wants to see the stores put on a free delivery service; wants to see the old town hum and pull itself out of the rut in which it has been existing for 50 years. Sure, he's for incorporation, and says the sooner the election is pulled off the sooner can we find out which way and where we are going.

Newsy Items Of The Lone Pine Country

Here I come with my first letter to our good newswy paper which we all enjoy reading so much.

I do hope this letter will not be thrown in the waste basket, and if not I will come again.

The roads out our way have been so bad that people couldn't go in or out to dear old Milano to leave home for a day one more time.

Mr. Frank Paschall came in back home some several days ago from his oil field journey. Mrs. Paschall and little son welcome his back home with much joy.

Everything in the Lone Pine community is O. K. far as I know, and we are all anxious to start another crop for 1920, as it was a failure last year, and we trust that our good Lord will be with us all.

Ben Woods has returned home after a several days' journey afoot. He walked from Temple to Cameron for some reason, but we know not why, but he tells his friends that he is a changed man now. Says he has joined the Catholic Church. "Lone Pine."

Mr. Frank McGregor is at home from north Texas, somewhere near the Red River. He will soon return there with his family.

Mrs. Ophelia Beavers and sister, Miss Clara Stimmons of Milano, spent Sunday with their grand parents, Mr. and Mrs. Jim Smith.

Enormous Amount Of Freight Is Transferred

The transferring of freight traffic at Milano during the month of December is said to have been a record breaker. In weight this traffic amounted to 50,000,000 pounds. Of this amount the Santa Fe turned over to the I. & G. N. road more than double what the I. & G. N. turned over to the Santa Fe. The one largest item in this traffic was that of transferring solid car loads of sulphur from one road to the other. The freight charges on a car of this sulphur is over \$300 a car. We see only of the freight which is transferred and not of the 40 or 50 daily trains which pass through here.

THOSE WHO FORGET NOT

Mr. J. E. Baker of the northern Milano country left a dollar with us Monday for an eight months' subscription to the Gazette while he and Mrs. Baker were in town that day.

We acknowledge receipt of a half dollar from Mr. R. A. Hairston for a four months' renewal subscription to the Gazette which goes out to him and his family at Sand Grove.

Mr. W. C. Mobley left 75 cents with us some few days ago for a half year's subscription to the Gazette which goes to his daughter, Mrs. J. L. Kelley at Gulf, Texas.

Mr. H. G. Wise of the Pin Oak community left 75 cents with us last Saturday for a half year's subscription to the Gazette which goes out to his home by way of Gause route 2. He lives 8 miles from Milano in a section of the country as beautiful as Nature ever made.

Milano Gazette: Enclosed find check for \$1.50 for one year's renewal subscription to the Gazette. Everything O. K. here. Lots of rain and cold weather. Best regards to all my Milano friends. Don't suspend the Gazette. Respectfully yours, J. M. Nichols, route 1, Rowena, Texas.

Mr. W. M. Dees left 75 cents with us Tuesday for another half year's subscription to the home town paper. He said Mrs. Dees didn't want the paper to quit coming around, for she certainly did like to read it, and he too, would naturally take to reading it whenever he got time. Mr. and Mrs. Dees are now living on the place formerly occupied by Mr. Jeff Mills just north of town, and Mr. Mills and family have located on the place formerly occupied by Mr. R. L. Williams who moved to Killen.

Milano Gazette: "Please find enclosed 50c for 4 months' subscription to the dear old home town paper. We can not do without the news from home, and we always look forward to Sunday, for we know we are going to get the Gazette. It always brings good cheer and it's just like reading a letter from all the dear friends you have at home. We hope the Gazette will not suspend publication, for I don't know what we would do without it. We would be perfectly willing to pay \$2 a year for it. Please send this week's paper. Many good wishes for a prosperous year to all you dear Milano friends in Milano.

Best wishes, Emogene Stovall, Box 181. Silver Valley, Texas."

O. D. Baker Of Gause Will Be A Candidate

Mr. O. D. Baker of Gause will be a candidate for Representative of Milam county in the approaching campaign, subject to the democratic primary election July 24th. Mr. Baker is a well and favorably known man and his candidacy is going to be a big thing in the campaign. It will be remembered that he was in the flitorial race some few years ago and made a very close race, almost tying his opponent. He is now Editor of the Texas Woodmen Journal and was formerly Editor of the Gause Guide and still lives at Gause. Mr. Baker is a man thoroughly familiar with public life and would make Milam county a splendid Representative.

Old Johnathan Skinflint Was His Name

(It Happened Away Back In The Eighties Sometime But It Can Happen Again.)

Old man Skinflint was a peculiar old soul. But with all that he was shrewd. He had made money in his day and time. But he had no progressive spirit in his blood. He didn't believe in up-to-date schools; never read a newspaper (some folks said he couldn't write his name), and he didn't keep his money in his home town bank. Just didn't trust anyone with his money, old man Skinflint didn't. He kept it hid in an old tobacco box beneath a loose board in the floor under his bed. Well, the old shack of a house caught fire one cold winter night and burned down to ashes, money and all, for in his excitement he forgot to save his money chest. And old man Skinflint died a poor man some years later, and his lonely widow was known to have said: "Johnathan never did have a lick of sense and narry a dollar did he put in the bank to look out for me. Shame on you Johnathan."

Nazarene Meeting Will Begin Thursday Night

Stop! Look! Listen! An evangelistic party under the auspices of the Home Missionary board of the Dallas district church of the Nazarene, is billed for Milano for a revival meeting beginning Thursday night, February 12th, at the Milano church on the old camp grounds. Services mornings at 10:30 and at night at 7 o'clock. Everybody cordially invited. Come and be blessed. J. W. Roeber, Pastor.

Automobiles Are Now Able To Run Again

Mr. A. R. Graham and Mr. C. M. Beard and family of Summit managed to get to Milano Saturday in their cars, the first time this year that the roads have been dry enough to permit a car to travel. Mr. Graham got in town with three "flats" and a dead spark plug, all due to take place he says, whenever a car is tied up for a few months. These were the first cars to travel that road since last December.

Labor Saving.

A boy was in the act of taking a short road through a plowed field, when the farmer, observing him, shouted: "Hi, there's no road there!" The boy turned around, and, feeling that as twenty yards lay between him and his irate accuser he was safe, coolly replied: "So I see; but you need not trouble to make one. I shall not come back this way!"

Watch the Sun's Halos.

The sun's halos are good weather signs. Many weather proverbs based upon the observation of halos are founded upon sound scientific principles. Studies of the relation of halos to rainfall show that during the summer months 56 to 60 per cent of all halos are followed by rain within 36 hours. During the winter months 70 to 75 per cent are so followed.

Mr. D. W. Nickens, third trick telegraph operator at the railroad tower, has been very sick this week. He got down with something like the flu and later it was thought he had a touch of pneumonia.

Little Miss Mary Leslie Newton, who is attending school at Mart and staying with Mr. and Mrs. L. G. Butts, spent Saturday and Sunday in Milano. She was met at Valley Junction by Miss Clyde Newton.

A Mr. Batla of Burling in Milano Thursday look some of the country with locating over here in the go sandy land country. We und stand that he was told by one more of our citizens that this lano country wasn't any good, that some land he wanted to l at wasn't any good. But we sure he left with a better impression than that. Mr. Batla made 19 bales of cotton last year and a fine crop of corn and othe feed and food products, but want to get away from the black mu which is such a drawback to farming.

Doctor Gough Leaves Milano For Houston

Doctor M. M. Gough, who has been in Milano a little over a year, leaves this week for Houston, Texas, where he will open an office as a specialist on cancer and other such malignant diseases. He left last Saturday for Coryell county in response to a message stating his wife was very ill, and if her condition is better he expects to be in Houston this week sometime. His office will be located at 303 1/2 Caroline Street. Doctor Gough had a good practice in Milano and also successfully cured several cases of cancer here, and he leaves Milano only because he wants a larger field for his work. We wish him much success at his location in Houston.

Charles Anglin Gains 18 Pounds In Weight

"About the luckiest day of my life was when I began taking Tanlac," said Charles E. Anglin, of 152 Beale Ave., Memphis, Tenn.

"Several years ago," he continued, "while living at Jonesboro, Arkansas, I had such a terrible attack of acute indigestion that I came near playing out. My stomach was in an awful fix and I just had to be most careful about my food, and even then I suffered nearly every day. My trouble pulled me down in strength and weight till I was almost a physical wreck and had to quit work entirely. I couldn't eat or sleep to do any good and would roll and toss in misery all night long. The medicines I took gave me only temporary relief and I was soon as bad off as I was before, if not even worse.

"My wife advised me to try Tanlac, as we had been reading so much about it, so I started on it, and a few bottles of this medicine straightened me out fine. In fact before I had finished my first bottle of Tanlac I was eating anything I wanted and improved so much that I was soon back at work feeling all right. I picked up eighteen pounds in weight and my clothes were get-tight too tight for me. Tanlac is a wonder and I don't believe it has an equal in the world."

Newsy Items Of The Prospect Community

Mr. Hawbaker was here to visit good wife and her parents Saturday and Sunday.

The Lone Scouts have failed to get a house for a meeting place so they are digging a cave to use for a Club Cave.

Mrs. Joe Blackmon and children and Mrs. J. H. Thompson were pleasant visitors at Mrs. W. C. Mobley's last Sunday.

It is also time to ratify the Treaty and League of Nations and quit playing politics to the detriment of the nation and world.

We are sorry to report that Mrs. W. A. Belt is quite sick again but hope she may soon improve and recover her good health.

E. H. Ford gave us an old time working Monday to get his house moved, and as he is a widower two good ladies went over and cooked the dinner and everybody present had a fine meal and asked him to give another working and dinner.

Mr. Jim Baker and family who moved the first of January, have decided to move back, as we have so many good people here they cannot afford to stay away. Jim has promised to stay here the remainder of his life and welcome them back to the fold as they are desirable neighbors.

If half as much was being done to rid these United States of the profiteers and the unjust high cost of living as is being done to rid us of the "Reds", we would not have so many Reds or Bolsheviks, for for hunger is the incubator they are hatched in. "Napper"

Scotland Yard.

Scotland Yard, so often mentioned in connection with London police items, was a building at the southeastern corner of Charing Cross, long famous as the headquarters of the metropolitan police force. It was so called because it was once a palace set apart from the time of Henry II (1154) as the residence of Scottish kings on visits. New Scotland Yard is on the Thames embankment.

Says Incorporation Will Give Us A Leadership

Mr. J. O. Newton says: Incorporation of Milano in his belief is a matter that the entire community ought to think about seriously while the matter is being agitated. The issue should not be dropped cold, for we must incorporate some day. Incorporation will help to reduce the insurance rate, and this alone is quite an item. Then too, incorporation would give us better police protection and give the town a chance to have someone watch the town at night. It would also give someone or a board of citizens some authority to promote the welfare of the community. As it is today no one wants to take the lead in anything.

News From People Around Sandy Creek

Mr. J. A. Touchstone is having another room added to his home on his farm out here this week.

The little boy of Mr. and Mrs. Sam McKnight was taken to Cameron one day last week to see a doctor about some eye trouble. An operation had to be performed on one of the eyes which was inflamed.

J. A. and Tal Touchstone sure mean to farm some this year, for they both brought home a new stalk cutter the other day. So we guess they are looking for good farming weather to come along soon.

Everybody has been getting behind with their farming, but if the weather gets better and stays that way a while, then work will be pushed right on and corn planting will soon be going the rounds again.

An oil man by the name of Mr. Baker of Wichita Falls, Texas, was out in this settlement several days last week trying to lease up some land. His proposition was 50 cents per acre lease rent for 5 years and the one-eighth royalty if oil was found. He also made a stipulation of some kind concerning the discovery of a gas well, which we believe was to pay the land owner \$200 a year as his part of the deal.

Sapphires and Diamonds.

The sapphire is probably not as valuable as the diamond, roughly speaking, although comparison is difficult, owing to taste in color, and to the differing values as size increases. For instance, the price of a diamond rises in proportion to the square of its weight, a two-carat stone bringing four times as much as one of one carat. (Let me add that 15 1/4 carats equal one ounce Troy weight.)

Going To Raise Hogs Instead Of 40c Cotton

Mr. A. J. Hildebrandt says: He has just about decided that he would not plant any cotton this year on his farm. Last year he planted a large acreage and didn't even make a lock of cotton, so he's going to let cotton go hang this year as far as he's concerned. He regrets that the boll weevils will not let him grow a good crop of cotton and get a whack at the good price it is bringing, so he's going to devote most of his time to the raising of hogs. He even believes he will let the Irish potato crop alone too, this spring, unless he gets the time to prepare his ground for them. He believes that hog raising is about the best paying branch of farming.

Newsy Items From The Oakdale Country

Mr. Charley Hause spent a night last week at the Sid Hause home.

Hugh Wimberley came in home Saturday night, but he left again Sunday morning.

Mr. Roy Hawbaker came home Saturday at the Oneal home. They of course were glad to see him.

Mr. Henry Hill and mother of near Cameron spent Sunday with her daughter, Mrs. John Wilkerson.

Last week was certainly a pleasant week of nice weather and we are hoping for more of it so everybody can go ahead with their work.

Mr. Marshal Garner and mother went to Marlow Sunday to spend the day with Mr. Oscar Garner. His wife has been in the Temple sanitarium for some length of time.

Mrs. J. H. Aschenbeck and son Theo passed by this morning for an outing. Said she had been cooped up so long she wanted to get out in the sunshine and see somebody.

Mr. and Mrs. Arthur Chatman of Cameron have moved in our community and have located on one of the Sid Hause places and will work the land on which Mrs. Cast was living during the past year.

Our community had another marriage. Miss Alda Batey was married to Mr. Childers at Meakes. She has been married a week or more, and we wish her all the good luck that can befall anyone. This marriage takes all the Batey children; four of them marrying since November 26th, two having married that night and Mr. Thomas sometime later, and then Miss Alda.

Wives for Colonists.

In 1821 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Constable Peel Made A Big Haul Tuesday

Mr. W. E. Peel received a phone message Tuesday afternoon from Somerville asking him to look out for a couple of young strangers who had broken into a large store there the night before and secured \$300 worth of haberdashery. Mr. Peel then went down to the depot and within 25 minutes after he had received the phone call he had the two young men locked up in the Milano calaboose waiting for No. 5 to come along and then took them to the county jail at Caldwell. The two men gave their names as William Henderson and Jim Allen, ages 18 and 17 years. They had two large grips and in them were found silk shirts, 7 pairs shoes, 26 pairs of silk hose, 15 silk collars, 2 night shirts, 1 pair of pants, 1 cap, 1 hat, 2 boxes talcum powder, 1 manicure set and the two suit cases. They also had the sum of \$14 in their pockets. The two boys were from some northern states and said there were three of them, the other having moved on when they got to Milano. They took their troubles easy enough and told various tales about securing the goods. An interesting part of the matter is that Mr. Peel caught the parties without having any clue to work upon, only a hankering interlect that they might be the very boys who were wanted and soon took a look at their grips.

What Some Milano People Have To Say

Mr. J. S. Beard says: He believes the incorporation of Milano is a good thing for the town. He suggests a tax of 10 cents on the \$100 valuation, which is so nominal a tax that nobody could hardly have any kick to make on that point of the issue.

Mr. J. A. McClellan says: That toothache remedy of Mr. Lee's which the Gazette told about last week may be all right sometimes, but the best toothache remedy he knows of is to visit a dentist's office and have the dentist give you the pull cure while you give three yanks.

Mr. L. T. Hughes says: He has talked to a number of citizens about incorporation of Milano and finds there are quite a number opposed to the movement, but he himself favors the issue strongly. He believes it will mean much for the community in various ways. Of course it will not mean any big achievement, but it will help us to achieve many little things, and it's the little things that help to make a good town.

Mr. J. H. Burnet says: Certainly there's oil around the Milano country. And it is going to be drilled for and found pretty poco tempo. That hole which the lignite mine people drilled north of the Milano school house for testing the lignite strata has oil in it, and is a quality of oil that ought to satisfy anyone that there is oil around this section of the country. This lignite test hole went down 350 feet and is now said to contain a big lot of crude oil.

J. H. Elam says: Incorporation of Milano is the only way we get the Texas Power & Light any to ever give us electric should they decide to come a way from Rockdale. Their runs from Taylor and gives a night service to Thrall, and Rockdale, and if I never incorporated itself or now have any electric. It is said this line is to be learned, and whenever it is learned it will never be to us unless this little Milano is incorporated.

Gunnels says: You never what a year will bring forth. ar his cotton crop was so the he has been greatly disappointed, but he has lately taken on vim and believes the cotton over the Milano country will much better than it was last or that he is going to try to make on his farm again with. During the year 1904 he sales of cotton when weevils had, but the next year he on the same land. So he's year's prospects.

Bedell says: "Tobacco from God, pollutes the mind, wrecks the body, ruins the breath, destroys the body, ruins the air, fosters selfishness, imposes on others' rights, corrupts good manners, creates appetite for liquor, unfits you for business, impoverishes the pocketbook, makes men bogs, pleases the Devil, and paves the way to hell."

P. S.—And not-withstanding the above stock of prohibition epithets it will be remembered that some several weeks ago the Gazette mentioned the fact that Captain Bedell had just received a solid hog-head of home-spun tobacco from Kentucky, and the last time we saw him he was still puffing away on a brand new French briar pipe.

We have several Kelley Steel Beam Plows, also wood beams at good prices.

We were glad to have some of our Twin Mountain friends shopping with us on Tuesday.

Did you say Suit Cases? We have lots of them.

J. C. Williams of Sandy Grove is going to fight the boll weevil with Meridian Fertilizer. M. B. Lloyd, Dan Galbreath and J. T. Hammond will do likewise. There is no better investment than fertilizer if properly used. If you have not tried it out do so this year and be convinced.

We would like to know how many acres of truck you are going to grow and how many crates you think you will need. There are no crates in town and it would do little good to have a big crop and nothing to ship the crop in. Some one will have to look ahead for the crates. We are willing to do it if the acreage will justify.

Planting Hastings' Seeds in your garden or in your fields insures "good luck" so far as results can be determined by the seed planted. For 30 years Hastings' Seeds have been the standard of seed excellence and purity in the South. Only varieties adapted to the South are listed. Quality of the best and prices often less than those you pay at home. Write for free copy of this splendid catalogue now. H. G. HASTINGS CO., Seedsmen, Atlanta, Ga.—(Advt.)

O. D. Baker Purposes A Much Needed Law

Mr. O. D. Baker, candidate for flitorial representative of Milam and Bell counties in the July primary election, says in the event of his election he will purpose a bill before the Legislature fixing the limit of county and state taxation to 4 years. This will protect all land owners from the menace of being threatened with back taxes due, and which is a nuisance to the land buyers of today. Mr. Baker says if the state is unable to collect taxes within a 4 years' period then it better quit altogether. This will also prevent much double payments of taxes by people who lose their receipts after several years of time. As it is today, a man buys a tract of land and a year later the county tax collector tells him there are taxes due on the land from 25 years together with interest. Fix the limitation down to 4 years and Texas will be free from this kind of menace. Vote for Mr. Baker and you will help get the law presented. Mr. Baker is the logical man for flitorial representative. He is a man who will do his best to have a number of good laws past, not radical ones, but such rulings as have been needed for many years. Milam and Bell counties need him in the legislature and will make no mistake in electing him in the July election. Good legislators are getting scarce and we believe Mr. Baker will make a most excellent representative.

Well, there is a quite a lot to talk about the boll weevil and everybody is scared almost out of their right mind for fear there won't be any cotton made. But if people would do less talking and more trusting and praying to the Supreme Ruler I think the pests will disappear. Man thinks he is all there is in the world and he wants everything to humble itself to his command. But God controls his business and has no substitutes. Glory to God, for he is ruler over all.

Scotland Yard.

Scotland Yard, so often mentioned in connection with London police items, was a building at the southeastern corner of Charing Cross, long famous as the headquarters of the metropolitan police force. Soap Economy.

New soap is about the most extravagant thing there is. If you possibly can, buy a dozen bars at a time. Cut it up at once into one and one-half inch thick blocks. Store these in a very dry, rather warm cupboard, piling them up after the fashion of a child building bricks, i. e., so that they practically do not touch each other. They will then dry and harden right through, and while the cleansing power of the soap will be in no way diminished it will last twice as long.

Right Idea About Business.

The old idea that business is getting the better of your neighbor is not only "bad business," but nonsense. Business is not getting the better of but doing the best for your neighbor—and yourself. If business is not mutually profitable, it is mutually destructive. My neighbor's prosperity helps mine and mine his. When that old pernicious notion is finally exploded the millennium of business will be at hand, the era of universal peace between capital and labor.

Chinese Wheelbarrows.

Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us, in the fact that the wheel is set in the center, and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow cooie in China will transport nearly a half-ton on his vehicle.

Mrs. W. Boggan of Milano was a visitor here last Friday.

Mrs. Ellie Lewis of Cameron was a visitor here last week.

Mr. A. J. Gunnels was a visitor at Temple and Rogers recently.

Mrs. Lola Spaulding and son, little Bill, have just recovered from a spell of illness with mumps.

Mrs. W. F. Hooker and son of Milano were out here attending the school picnic last Friday.

Miss Lois Miller visited Miss Estelle Turney in the Hanover community Saturday and Sunday.

Mrs. S. M. Bullock was on the sick list last week. She went to Cameron Wednesday to consult Doctor Rischar about her condition.

Farmers have been very busy planting their cotton and some replanting their corn. The big frost of last Sunday night made the corn and gardens look very sick.

The Liberty people had a very enjoyable day last Friday, it being the closing day of school. The teachers, Miss Maude Hooker and Miss Ora McClellan gave the children a picnic and Easter egg hunt. Then the cemetery ladies had their regular first Friday meeting at the cemetery all day with dinner on the ground. Everybody took dinner along and they had a good time.

Liberty has some very open hearted men. J. K. Miller and two sons, Ed Robinson and two sons, C. E. Boggan and Will Hensley all took off a day and fixed the bad place in the road opposite the J. K. Miller farm. This was indeed a tedious job, but it is well fixed now. If all the men would go in together there are several bad places that could be fixed in a few hours time. The people are going to have to do something, as we haven't any commissioner and haven't had since Mr. Reese died. We are judging from our roads and bridges, so people get busy and elect a man that cares for the country roads and highways as well as his own town roads.

Locomotive Fire Cost.

The cost of kindling fires in locomotives is said to range from 68 cents to \$1.14, according to the size of the engine. These figures represent the cost when dry shavings, the cheapest kind of kindling, are used. Multiplied by 63,000, the number of locomotives in this country, the difference between the cheapest and the most expensive kindling would naturally amount to millions of dollars annually.

What Some Milano People Have To Say

some extent
it out again
any pota-

Milano country.

Mr. M. Beard says: He believes that the cotton crop of this year will not be so badly menaced by the boll weevil or the worms as was the cotton crop of last year. The season is so vastly different from what it was last year that there is hardly any likelihood of a repetition of crop failure similar to what occurred to last year's cotton. He is also of the opinion that the farmers who grow cotton this year will be rewarded with good prices, but he himself will not plant any cotton this year. Instead he will plant a large acreage in corn, cane and other feed crops.

Mr. E. H. Hairston says: Sweet potatoes is the one best hog feed any farmer can hope to grow. Some people say peanuts are best, but you can raise only 20 to 35 bushels of peanuts to an acre, while potatoes will make from 100 to 300 bushels on an acre. Stock beets are also a cheap feed for hogs and will fatten just like the potatoes will. The potatoes and beets are also good for cows and will produce more milk and butter. This year Mr. Hairston will put in four acres of potatoes just for fattening his hogs, and this is proof that he practices what he preaches about fattening potatoes.

Mr. O. P. Lagrone says: According to the old time standard of corn measure 120 ears make a bushel. But this basis of measurement is no good when it comes to measuring the improved corn which many farmers are growing today. Recently he took 65 ears of select corn that he had grown on his farm and when he had weighed exactly 56 pounds, the standard weight of a bushel of shelled corn. He says he can pick up from 80 to 85 ears of his corn at the crib that will make a bushel. He has also grown a few ears of corn with 26 rows of grain on them, but of course this is a great rarity. Mr. Lagrone says if you select your seed corn in the field and improve it from year to year you will find that from 80 to 90 ears measure a bushel.

What do you know about that frost? It was bad but could have been worse. The truck farmer who got by with tomato plants has an unusual chance to get good prices at selling time, as practically everything north of Milano was killed by the cold. Our advice would be to get busy and plant a full garden for home use and some for market. Beans planted now and another planting three or four weeks from now should sell well.

Ever Think How Ideal The Milano Country Is?

Taken all the year round Milano and its surrounding country is as good or ideal a country as you could expect to find anywhere in the United States. During the winter time we have just enough spasms of cold weather to let you know what cold is. During the summer time we always have a generous amount of sunshine and warmth. The gulf breeze fans us to sleep at night in summer, and the polar winds whistle us lulabies on wintry nights. No wonder the Milano man in Heaven wears off all the buttons of his vest hanging over the battlements looking at home.

27c Worth Of Cotton Brings \$4.50 In Cloth

The United States senate committee investigating the high cost of prices in this country were presented some few days ago with 6 yards of ginghams which cost 75 cents a yard or \$4.50 for the entire 6 yards. The committee weighed the goods and found it weighed exactly 15 ounces, an ounce less than a pound. They figured that the cotton from which the cloth was made brought the farmer 27 cents. Somebody is certainly reaping a huge profit while the reaping is good, and the Senate Committee seems to be of the opinion that the fellow who does the reaping runs a cotton mill.

THOSE WHO FORGET NOT

Mr. W. W. McCallum left 75 cents with us one day last week for another half year's renewal subscription to the home town paper.

Mr. Lesser Newton left \$1.50 with us Monday for a year's Gazette subscription which goes to Mr. and Mrs. G. E. Mullins at San Antonio.

Mr. W. W. McCallum left a half dollar with us Thursday for a four months' Gazette subscription which he sends to his wife's sister, Mrs. H. O. Graves at Ballinger, Texas.

Mr. J. E. Stewart left \$1.50 with us Monday for a year's subscription to the Gazette which goes to Mrs. John M. Wilson at Hull, Texas. Mrs. Wilson is a sister of Mrs. Stewart.

Ray Gandy left a half dollar with us last Saturday for a 4 months' renewal subscription to the Gazette which goes to his parents' home in the Liberty community.

Our postmaster Mr. C. Howes handed us \$1.50 Tuesday for a couple of six months' subscriptions to the Gazette, one for himself and one which he sends to Mrs. C. R. Jenkins at Weldon, Texas.

Mr. M. E. Ashely of the north-eastern Milano country left \$1.50 with us Tuesday for another year's subscription to the home paper. Said he wants to see the Gazette get on its feet and keep going.

Miss Nora Price left a half dollar with us one day last week for a 6 months' subscription which goes to Miss Ima Price at Snyder, Texas. Miss Nora had been visiting here and also lives at Snyder.

Mr. R. E. Thweatt left \$1.50 with us Monday for another year's subscription to the Gazette. Said by reading the Gazette was about the only sure way she had of keeping up with the news of Milano.

Mr. W. F. White of near Gause left 75 cents with us last Saturday for a half year's subscription to the Gazette while he was over here assessing taxes for this year. He is assessing taxable property in this entire Justice precinct number 3.

Mr. and Mrs. Henry Bonnet of the western Milano country were among the many visitors to town last Saturday and were appreciative and substantial callers at the Gazette office, left 75 cents with us for a half year's Gazette subscription.

Two New Mules And A Big Lot Of Trouble

Talk about a man having troubles, we would like to say that Mr. John Hairston has been having his the past few weeks. Several weeks ago he bought two wild-west mules who dislike a corral about as much as humanity does a jail. One got out week before last and went back home to Hutto, Texas. Mr. Hairston had to go after him and then shipped him back to Milano by freight which cost \$13.10, to say nothing of Mr. Hairston's round trip expenses. And last week his other muleship jumped the sty and likewise lit out with a home-sickness for better surroundings and got as far as Rockdale and was located only after several dollars had been paid out for telephone bills. Mr. Hairston says he's now going to make those two mules haul cord wood to help pay for that expense.

Good Stock Means Better Credit

Good live stock on your farms increase your credit.

It costs no more to feed a pure blood animal than it does a runt. A scrub hog may look like a real hog, grunt like a real hog and eat like a real hog, but it does not produce profit like a genuine pure bred when properly fed and cared for. The better the stock the better the credit.

Rufus Hardy Announces For Re-election To Congress

Honorable Rufus Hardy, in this issue announces his candidacy for Congress, subject to the action of the Democratic primary. A brief statement as to his record and the principles he stands for is given for the consideration of the people of the sixth congressional district.

Judge Hardy entered Congress in 1907, when the fortunes of the Democratic party seemed to be at their lowest. The Democrats in 1904 had met one of the most overwhelming defeats in their history. In every presidential election year since that date Judge Hardy has been called on by the National Democratic Committee to campaign in doubtful states for the party's welfare.

His record is clear and open. He has served his people and his country faithfully and well. He is an untiring worker who always has at heart the good of his people and his country. He has grown constantly as a congressman and as a result has a strong influence with its members. His opinions are not only respected, but are sought on public matters.

Congressman Hardy has a strong following of friends and acquaintances in this Milano country who have been loyal to his support and will again rally to his support in the present campaign. The people seem to be satisfied with him as their Congressman, and they believe in keeping a good man in the office once they know that he is a most capable man for the big position he has held so faithfully as one of the greatest statesmen Texas has produced.

But if Mr. Hilliard did his part well enough we are sure Mr. Mullins couldn't have the heart to say that the Grand Saline country beats Milano.

Pays \$1 Per Bushel For Threshing Peanuts

Mr. M. E. Ashely had some 80 odd bushels of peanuts threshed last week for which he paid Mr. A. J. Gunnels \$1 per bushel to thresh. No, Mr. Gunnels wasn't profiteering on this threshing, for Mr. Ashely offered the \$1 per bushel in order to get them threshed. The peanuts are of extra fine quality and Mr. Ashely is selling them for seed. In undertaking the job of threshing Mr. Gunnels patched up an old dilapidated threshing contraption by using an old buggy axle and several other pieces of odds and ends and managed to make a pretty good turn out with the apparatus. Come to think of it, it's a mighty few things which Mr. Gunnels isn't able to make good on. We didn't learn how long it took him to do the threshing, but he got good pay for this special odd job.

Nashville Lady Makes Statement About Tanlac

"I gained twenty-two pounds by taking Tanlac and am a well woman today," said Mrs. J. W. Binkley, of 5104 Illinois Avenue, West Nashville, Tennessee.

"I suffered terribly the past eighteen years," she continued, "and my stomach was in such awful condition that I had to live on the lightest kind of diet. Even milk would disagree with me and form gas that would keep me in misery for hours. I had a little strength left, and although I tried the best of medicines and treatments I just kept going down hill and suffering agonies till at last I was told my only hope lay in an operation."

"A friend of my husband's persuaded him to get me some Tanlac, and it has not only saved me from an operation but I have gained in every way. I can eat anything I want without suffering afterwards and am feeling just fine. I shall always praise Tanlac for restoring my health and wish everybody knew about this wonderful medicine."

How Frogs Protect Eggs.

In the manner of disposing of their eggs many species of frog exhibit remarkable peculiarities. One of the most curious, a tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

W. E. Peel Will Again Be Constable Candidate

Constable W. E. Peel will be a candidate for re-election as Constable of precinct 3 in the July primary election. Lately he has not given much thought about the matter, but his many friends are urging him to again make the race. And perhaps there is not another man as well qualified for the position as is Mr. Peel. He is a natural born detective and has caught and brought to justice many a crook and criminal. He has safe-guarded the town and surrounding community for many years and as citizens of the town we ought to appreciate his untiring work as a faithful and dependable officer as our Constable.

Mr. H. B. Belt has rented a part of his farm to a Mr. Jones who has moved in and will add three more to our school. We gladly welcome the family to our community.

We were in Milano this week and asked some of the citizens what they thought of incorporating the town. One man replied that it was the only way to get the town lit up at night, as there would be a plentiful supply of gas if only it all came from one mouth.

We asked Mr. W. C. Mobley if the Editor of the Milano Gazette had moved to his farm yet and he said no; that the Editor was a big windy and would not work. Said he offered to rent on halves and he made out like that was just exactly what he wanted and then renigged. Then Mr. Mobley asked us to subscribe for the Gazette and put an ad in it to keep the paper from going bankrupt so we can have a home town paper. "Napper."

Value of Quick Decision.
As a rule the man who has trained himself to quick decisions and prompt actions follows close to the right. He does not need to debate questions as does the man who has become a master of deliberation. His mental faculties seem to work automatically and they are generally right. I'm not sure but that they are more often right than they are with the man who is constantly weighing pros and cons and becoming confused with the issues. He saves time because he acts quickly and he saves everybody the uncertainty of indecision.

Farmers Union To Hold Public Night Session

The district convention of the Farmers Union which will meet in Milano on February 26th, will be one of the biggest things in that line ever was pulled off in Milano. There will be an open session on Thursday night to which the public is invited. There will be two or three prominent speakers present and the Milano band has promised to furnish music for the occasion. The convention will be held at the W. O. What The Flu Is Doing Around Milano

Mrs. H. K. Haddox and one or two of the children have been suffering from attacks of the flu or other ailments this week.

Miss Maud Hooker is very seriously ill at the family home in south Milano. Her condition has been very critical for several days.

The family of Mr. Charles McCracken have been seriously ill and were reported in destitute need of assistance this week. It was reported Mrs. McCracken was very low.

Mr. J. C. McClung's family have been among the flu victims this week. Miss Florence and Mr. J. N. Suttle were stricken with the malady and the early part of this week Mrs. McClung became sick.

Mr. R. F. Pariett's family in north Milano have practically all been in bed with the flu this and last week. There were six in bed this week including Mrs. Pariett who was far worse sick than the others had been.

The family of Mr. and Mrs. J. E. Cannaday have had their rounds with the flu this past week or two. It even got Mr. Cannaday a day or two during which time he was unable to work, and Mrs. Cannaday is still unable to be up at the time this report is being written.

Miss Annie Woolley, primary teacher of the Milano school, has been unable to be at her post this week, on account of sickness and Miss Margurite Brennan is teaching in her absence. Miss Mag's school at Marlow has been suspended during the present flu epidemic.

Whales That Walked.

Whales used to walk. That is the statement of Prof. d'Arcy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal Institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about much as seals do.

Paper For Gazette For January Cost \$30.30

During the month of January there were 5 issues of the Gazette published. The cost of paper for these 5 issues on which the Gazette was printed cost \$30.30. And the total amount taken in on subscription during this same month and the same 5 weeks was exactly \$25. As a result the subscription money did not pay for the paper upon which the Gazette was printed during last month. This same thing has been going on for the past 6 or 7 months and is one reason why the Gazette has been thinking seriously of suspending publication. And that is why on November 1st of last year we raised the subscription price to a \$1.50 a year, and we have some hopes of the \$1.50 rate pulling us out of the deficiency, but it will take a few more months to determine whether this can be done. Yet some people think \$1.50 a year is too much money for a weekly paper. We make no profit on subscriptions and do not expect to, but we must come out even to keep the paper on its feet. We are still sending the paper to many subscribers who were paid up on the \$1 basis before the raise of \$1.50 went into effect, and whenever these subscriptions run out we have some hopes of keeping up with the cost. We waited a few months too long to raise the price to \$1.50, and it is this situation that is keeping the receipts below the expense of the paper.

No Disgrace to Be Hypnotized.

An idiot or a person without considerable ability in concentrating his mind can not be hypnotized. The fact that one has been hypnotized is proof that he can hold his mind on one subject. It is, therefore, not to his discredit, but rather the contrary.

Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

What Some Milano People Have To Say

Mr. W. M. Dees says: He is going to again try the tomato growing industry this season and incidentally he might also try to get the first crate of early tomatoes, a record which he has several times achieved. Of course he is going to do lots of heavy farming, too, and try his luck on 40 cent cotton, but he's just got to have a little tomato patch growing so as to help make it look like better and more real farming.

Mr. W. C. Mobley says: He feels like going up to Washington and whipping Congress. He's tired of having waited so long a time and no Treaty of Peace signed as yet and no League of Nations signed up for by these United States. Sign up those two papers, he says, and then lower the High Cost of Living and all this noise and racket which the "Reds" are pulling off will cease. High prices and starvation among the poor is the root of Bolshevism.

Mr. S. W. Taylor says: He believes a city form of government for Milano through incorporation would achieve many good things for the town which we can not as yet see. He's for every move and push which spells progressiveness and he believes that incorporation of Milano is a great big hunk of that kind of stuff. He wants to see Milano have a Mayor, a City Marshal, a secretary, and a board of aldermen who would look after the welfare of the town.

Mr. W. H. Todd says: An honest man is always successful and will always find the pathway through life a smooth one. But a rascal or a crook or even a profiteer won't last long, for the "goblins" will sure get them in the long run. Just you be honest with your fellow men and you'll find that there is some big unforeseen power that directs you to success, and whenever you need a little help you'll find it without any red-tape or strings tied to it.

Mr. B. N. Ashley says: He expects to plant something like 140 or 150 acres of cotton this spring. This will include his acreage and that of four renters. He isn't going to let the boll weevil troubles of last year prevent him from any extensive plans this year, for he says you can't tell anything about the weevils from one year to another. They were bad last year, but he made some pretty good cotton, and this year he's going after the cotton planting work with a vim to make even more cotton than he made last year, pests or no pests.

Mr. C. M. Beard says: We folks in town can do just what we please about that old city well as far as he is concerned. He has contributed money and helped to keep that old well in shape ever since the year 1883, and whenever he or other people from the country came in town to get a drink of cool water or water their teams they found the well dry and muddy. He says if it afforded an inexhaustible supply of water then it might be worth fixing up. We saw him take a look at it a few days ago and the above is his reply when we asked him what he thought ought to be done with the old well.

Miss Winnie Sims returned home last week from a several weeks' visit to her sister, Mrs. Philip Houston, at Chriesman. Mrs. Houston accompanied her home to Milano, but returned home the next day.

Mr. J. S. Taylor has resigned his position at the Santa Fe Coal Company 2 miles north of Milano and will perhaps locate at Rockdale. Mr. W. L. Linder of Rockdale has taken his place at the mine, the change taking place last week.

Apt Reminder.

"Come upstairs and let me wash your hands," said Winnie's mother. "I don't want to go up!" wailed Winnie, aged three. "Let her wash them down here," called grandmamma; "she can do it just as well." "No," her mother said firmly, "I want her to come up with me!" Winnie came upstairs as slowly as possible. "Oh," she said, turning a pathetically tearful face to her mother, "why don't you obey your mother?"

Joe Ferguson, Jim Hurt, Mr. and Mrs. R. E. Lee, Mr. and Mrs. Ed Bullard, Misses Bernice and Mabel Beard and C. M. Beard were among those who were in from Smyrna and Summit last week.

W. L. Emmons was in looking over our plows Monday. He is going to work the A. R. Oneal place this year.

About all of the fertilizer has been booked in the first car. We intended to have only one car but if enough additional is wanted we will order out another car. Please see us at once about Fertilizer if you are in the market. We believe it a good investment. We will not have more than two cars.

If you have not bought your cotton seed for planting please see us; we have a limited amount left. T. E. Loer said about our Lubbock cotton seed that we would have no trouble to sell every one of them, and that he would prefer seed from this section to any other in the state for his own use. We think he is right.

We are sorry to learn that quite a large number of our customers have sickness in their families, some with "Flu" which accounts for the heavy sale of Vicks Vapor-Rub. We sold entirely out but expect a new supply by Saturday. It seems to be about the best thing one can use for coughs and colds such as accompany the Flu.

We received a few more Star Brand Shoes this week.

See our Kelley Steel Beam Turning Plows.

When you get ready to figure on your seed corn we want to supply you.

We have several dozen of used cultivator sweeps, shovels etc; which we are selling cheap, some of them nearly new. If interested ask to see them. They are stored in the warehouse.

T. M. Johnson, recently from Lee county but now on the Hale & Scarbrough place east of Milano, was shopping with us Tuesday.

Several took our advice and invested in Lion Hats this week. We have a Lion hat for you. Call and take a look at our hats. We have all of the new styles, shapes, colors, and many kinds.

Homer Akins was in and bought a John Deere Middle breaker plow.

We expect a car load of feed stuffs and seed oats the latter part of this week. We try to buy and sell the best in this line especially. We believe it is often best to pay a few cents more and get something worth feeding. Even hogs do better on sound feed than on rotten or damaged feed, though some people think anything will do to feed a hog. Sound grain is best for feed and sound grain is best for seed.

We have quite a lot of new notions shipped from St. Louis this week.

Who can resist planting a garden when the pretty sunny days come? Some days we just want to get away from the store and plant some of these seeds which we are selling and showing to our customers. If the feeling continues we are going to show up missing some day and start something that will keep us busy the rest of the spring. A good garden will help us fight the high cost of living. We have the very best of fresh seed of all kinds. We have plenty of Cobbler Seed Potatoes and expect plenty of Triumphs any day, as they have been due several days. We have a fairly good supply of Onion Sets, and they are ready to grow.

J. B. NEWTON & SONS

Million Packets Of Flower Seed Free

We believe in flowers around the homes of the South. Flowers brighten up the home surroundings and give pleasure and satisfaction to those who have them.

We have set aside more than one million packets of seed of beautiful yet easily grown flowers to be given to our customers this spring for the beautifying of their homes.

Hastings' 1920 Seed Catalogue is now ready. Brilliant cover in natural colors, 100 pages of garden and farm information, profusely illustrated. It's the one worth while seed book for southern gardeners and farmers. This catalogue is absolutely free to you on request. Your name and address or a postal card or in letter, will bring it to you by return mail.

This 1920 Catalogue will show you just how you can get five packets of flower seeds (five different sorts) absolutely free of cost this spring. Send for this catalogue today without fail. No obligation to buy anything unless you want to. H. G. HASTINGS CO. Seedsmen, Atlanta, Ga.—(Advt.)

What Some Milano People Have To Say

Mr. W. M. Dees says: He is going to again try the tomato growing industry this season and incidentally he might also try to get the first crate of early tomatoes, a record which he has several times achieved. Of course he is going to do lots of heavy farming too, and try his luck on 40 cent cotton, but he's just got to have a little tomato patch agrowing so as to help make it look like better and more real farming.

Mr. W. C. Mobley says: He feels like going up to Washington and whipping Congress. He's tired of having waited so long a time and no Treaty of Peace signed as yet and no League of Nations signed up for by these United States. Sign up those two papers, he says, and then lower the High Cost of Living and all this noise and racket which the "Reds" are pulling off will cease. High prices and starvation among the poor is the root of Bolshevism.

Mr. S. W. Taylor says: He believes a city from of government for Milano through incorporation would achieve many good things for the town which we can not as yet see. He's for every move and push which spells progressiveness and he believes that incorporation of Milano is a great big hunk of that kind of stuff. He wants to see Milano have a Mayor, a City Marshal, a secretary, and a board of aldermen who would look after the welfare of the town.

Mr. W. H. Todd says: An honest man is always successful and will always find the pathway through life a smooth one. But a rascal or a crook or even a profiteer won't last long, for the "goblins" will sure get them in the long run. Just you be honest with your fellow men and you'll find that there is some big unforeseen power that directs you to success, and whenever you need a little help you'll find it without any red-tape or strings tied to it.

Mr. B. N. Ashley says: He expects to plant something like 140 or 160 acres of cotton this spring. This will include his acreage and that of four renters. He isn't going to let the boll weevil troubles of last year prevent him from any extensive plans this year, for he says you can't tell anything about the weevils from one year to another. They were bad last year, but he made some pretty good cotton, and this year he's going after the cotton planting work with a vim to make even more cotton than he made last year, posts or no posts.

Mr. C. M. Beard says: We folks in town can do just what we please about that old city well as far as he is concerned. He has contributed money and helped to keep that old well in shape ever since the year 1893, and whenever he or other people from the country came in town to get a drink of cool water or water their teams they found the well dry and muddy. He says if it afforded an inexhaustible supply of water then it might be worth fixing up. We saw him take a look at it a few days ago and the above is his reply when we asked him what he thought ought to be done with the old well.

Miss Winnie Sims returned home last week from a several weeks' visit to her sister, Mrs. Philip Houston, at Chriesman. Mrs. Houston accompanied her home to Milano, but returned home the next day.

Mr. J. S. Taylor has resigned his position at the Santa Fe Coal Company 2 miles north of Milano and will perhaps locate at Rockdale. Mr. W. L. Linder of Rockdale has taken his place at the mine, the change taking place last week.

Apt Reminder.

"Come upstairs and let me wash your hands," said Winnie's mother. "I don't want to go up!" wailed Winnie, aged three. "Let her wash them down here," called grandmamma; "she can do it just as well." "No," her mother said firmly, "I want her to come up with me!" Winnie came upstairs as slowly as possible. "Oh," she said, turning a carefully respectful face to her mother, "why don't you obey your mother?"

THOSE WHO FORGET NOT

Mrs. E. C. Baker of Zulch, Texas, sent us a dollar this week for an 8 months' Gazette subscription.

Mr. J. N. Suttle handed us \$1.50 Wednesday for another year's renewal subscription to the Gazette.

Mr. J. A. McClellan left a half dollar with us the other day and told us to shove up his Gazette subscription some more.

Miss Jodie Fortner left 75 cents with us one day this week for a half year's subscription to the Gazette which goes out to her parents' home on Milano rural route 2.

Mr. M. B. Lloyd of the western Milano country left \$1.50 with us last Saturday for another year's renewal subscription to the Gazette which reaches his home on route 2.

We acknowledge receipt of a dollar from Mrs. S. A. Russell for renewal subscription to the Gazette. Mrs. Russell is one of our most appreciative readers of the home paper.

Mrs. J. E. Baker of the northern Milano country left 75 cents with us last Saturday for a half year's subscription to the Gazette which she sends to her mother, Mrs. M. E. Halpain at Bruceville, Texas.

Milano Gazette: Enclosed you will find \$1.50 for my paper. We could not possibly do without the Gazette, because it is a big weekly letter from Milano. Best wishes to all the Milano people. Respectfully, Mrs. Dan Robinson, 802 East Central Avenue, Temple, Texas.

Mrs. Ophelia Beavers left a half dollar with us Monday which she said she wanted to add on to her subscription price to the Gazette. She renewed her subscription just a short while before the advance from \$1 to \$1.50 and said the Gazette was certainly worth the other half dollar, therefore she willingly and gladly paid the other half dollar.

Jim York In Race Again For Our Commissioner

The many friends of Mr. Jim L. York of near Hanover have so persistently asked him to again make the race for County Commissioner of this precinct that he has decided to do so. It will be remembered that with five candidates in the race in 1918 Mr. York was defeated by only 26 votes. He was the second man in the race and his friends and the public in general in precinct 3 believe he will be elected next July. Mr. York says he's going to run on the same principles as two years ago—that of making the race fair and honestly with all due respect for his opponents and puts his candidacy before the voters of beat 3 and 4 with the assurance that if elected it will be his one sole ambition to serve the people of these two beats as a faithful and worthy county commissioner. Mr. York's candidacy is subject to the July primary election and he solicits the consideration of every voter in precinct 3, and if you cast your vote for him you will have his and his friends' sincere appreciation.

Milano Commercial Club Now Completely Organized

The second meeting of the Milano Commercial Club was held Monday night at the I. O. O. F. hall with thirty-five citizens present. Practically the entire evening was taken up in farther organization of the Club. A set of by-laws were read, amended, and adopted in a most careful manner. Among other matters which received attention was the election of a board of six directors, who with the four officers of the Club constitute an executive board which has the power to meet once a week or at the call of the president and transact whatever business needs urgent attention. The directors elected are J. F. Coffey, J. N. Suttle, J. H. Luce, G. W. Hilliard, L. Peeples, C. H. Lister. The officers who are to meet with this board when necessary are President W. O. Newton, Vice President J. H. Burnet, Secretary J. D. Peeples, junior, and Treasurer R. Brennan. A membership committee was appointed, (Continued on last page this issue.)

Owner Of Lumber Yard Appreciates The Paper

Milano Gazette: "Thanks for the two papers which have been received and noted. You are certainly putting out a paper that Milano should be proud of and support it in such a manner as to insure you a good return on your investment and labor. I hope that you will see your way clear to continue publishing the paper, and if there is any help that we may offer, and I am sure the other merchants there would voice the same expression, we will be glad to do so. Attached hereto is my check for a year's subscription. With best wishes and regards, yours very truly, C. E. Turner, Bastrop, Texas."

Milano Citizens Invest \$220 In 2 Fine Hogs

Mr. L. T. Hughes recently received an imported hog from Bartlett, Texas, for which he paid \$60, and Mrs. Hughes went him several times better by investing in a fine \$160 hog, which arrived here last Saturday also from a Bartlett farm. Mr. and Mrs. Hughes have both made quite an investment in buying these two fine hogs and as they believe in raising better stock for the Milano country we are sure they will realize profitable returns from their investment. Mr. Hughes says it is only a matter of a few more years before everybody will raise fine stock instead of runts. Produce better hogs is his motto.

Fount White Is In Race For Constable Officer

Mr. Fount White of Gause is a candidate for Constable of precinct 3, which includes the townships of Milano and Gause and the surrounding territory. Mr. White says he's making the race on a clean slate with no obstacles to agitate and is asking the support of his friends and acquaintances on the assurance that it shall be his duty to make the people of this precinct a good and reliable Constable. Of course everybody knows Mr. White, he's one of those big men who is big in size and big in friendship and his friends are confident he will make a fine Constable. He is a man well qualified to make an excellent officer and will lose no time when duty calls him. He believes that the laws of the state and of civilization ought to be observed righteously and that petty violations ought to be stopped wherever it is possible to do so. Mr. White's candidacy is subject to the action of the July primary election and he will appreciate the vote and influence of the people of this precinct in behalf of his candidacy.

Says She Threw Her Money Away

"My troubles have been completely overcome since I began taking Tanlac and I am enjoying the best health I have had in twenty years," said Mrs. M. Parker, of 423 East Third Street, Los Angeles, California.

"I spent several thousand dollars for medicines and treatments," she continued, "but it was just money thrown away, for I never got any relief from my suffering until I commenced taking Tanlac. I was practically an invalid for twenty years and all my trouble was caused by the awful condition of my stomach. A great part of the time I was confined to my bed, simply too weak to be up. I could eat but very little, and that disagreed with me so I suffered terrible from gas. To make matters worse I was attacked by rheumatism in my arms and legs, which caused me no end of pain and misery. I never got a good night's sleep and became extremely nervous.

"Well, I have just finished my fourth bottle of Tanlac and it is wonderful the way I have improved. Why, I feel so well and strong I do all my housework without the least trouble. Last week I actually did the family washing and it has been many years since I did a thing like that. My appetite is fine and nothing disagrees with me. I sleep restfully and get up feeling refreshed every morning. The rheumatism has entirely disappeared and Tanlac deserves every bit of the credit."

Milano Is To Have A Motion Picture Show

T. H. Allmon of Wallace, Texas, is installing a moving picture theater in the lower story of the W. O. W. hall which will be open to the public by April 1st. The building is now being prepared for the movie and a confection and drink booth is also being installed. A new machine and high-class outfit is being bought at Dallas and an electric light plant will be installed in the McCallum blacksmith shop and the wires run to the W. O. W. building for lights and for projection power for the motion picture machine.

Suggested That Incorporation Be Postponed

At the initial meeting of the Milano Commercial Club it was suggested that the agitation of incorporation for Milano should be postponed until our road bond matter becomes a realization and the roads built. This is a sensible and wise suggestion, for if the Milano township of one square mile was incorporated no roads would be built within that square mile. An incorporated area must look after its own roads and streets and must provide its own funds for such purposes. Perhaps in another year or so Milano will be ready for the incorporation. Many things which a city council board could do can now be done by the Milano Commercial Club. We favor one thing at a time, so let's push the Commercial Club along for all its worth.

The Milano Gazette Printing Office does all kinds of commercial and job printing, such as letter heads, envelopes, folders, circulars, cards and numerous other things. Call Around And See Our Samples.

Trick Hair.

My little brother, Bobby, always liked to have Mr. L— call, because he could perform an act which awed as well as amused him greatly—wriggle his hair. One evening, during such a performance, Bobby said wistfully, "You can wriggle yours, sister can take hers clear off and lay it on the bureau, and I can't do a thing with mine."—Chicago Tribune.

Whales That Walked.

Whales used to walk. That is the statement of Prof. d'Arcy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal Institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about much as seals do.

Another Citizen Or Two Pass 80th Mile Post

Captain L. Bedell was 80 years old Monday. No, not old but that much young. He's an octogenarian now, meaning he has reached his four score mile post. The Captain didn't have any blowout celebration at his home on this occasion, but he says he spent an extra half dollar for the dinner that day. Among the other octogenarians in Milano are Rev. H. T. Hart who was 80 years old January 28th, also Mr. Royd Taylor who was 80 years old last Saturday, and Mr. W. A. Ashley. All four of these men were soldiers in the Civil War and withstood the worst kinds of hardships during the war, yet they have attained an age in life that is really wonderful for the experiences they have gone through in early life.

Bits Of News From Around Cedar Creek

Little Lester Williams is on the sick list this week.

Mrs. Georgia Smith of Austin is a guest at the G.W. Beard home.

Miss Florine Lee went to Cameron weekday for medical treatment.

Mrs. G. W. Beard is still confined to her bed at her home and suffers terribly at intervals.

Mrs. Jim Smith visited at the home of her daughter, Mrs. Stimmons, at Milano Saturday.

Mrs. Gertie Laferney and children of Somerville are visiting at the S. E. McGregor home this week.

Mrs. Meadows was sick with fever and a cold several days last week, but is convalescent at present.

Mr. Coleman Beard who is visiting at the G.W. Beard home, caught an armadilla some few days ago and converted the shell into a beautiful basket and presented it to Mrs. Beard for a card receiver.

Mrs. W. L. Boothe and children, Mr. and Mrs. Edgar Ferguson of Rockdale and Mr. and Mrs. J. C. Williams of Sand Grove were guests at the Charles Williams home during several days last week.

Mrs. Ida Matthews and Mrs. F. W. Iiams have each received a memorial diploma from France and signed by President Ponicare in honor of the service of their sons Jesse Matthews and Floyd Jackson who were soldiers in the European war.

Newsy Items Of The Liberty Community

Martin Miller was a visitor at Cameron Monday of this week.

Mr. and Mrs. J. D. Turney were visitors at the J. K. Miller home last Sunday afternoon.

Mrs. Fannie Bussa visited her daughter, Mrs. Seth Dees, at Cameron Friday and Saturday.

Misses Jewel McCraw and Ethel Taylor were visitors of Mrs. Jim York Saturday and Sunday.

Several cases of whooping cough are reported in our neighborhood. It seems to be of a mild form.

Mr. and Mrs. T. P. Gunnels are rejoicing over the arrival of a new daughter, born February 27th.

Mrs. A. J. Hildebrandt visited her parents, Mr. and Mrs. John Springer, near Smyrna Saturday and Sunday.

J. T. Bullock is at home from the sanitarium. He seems to be getting along nicely. He has to go back in 3 months for another operation.

Farmers have been very busy this week, some planting corn. The cold spell of last week did great damage to truck and it is thought the fruit crop is killed. This will be a great loss all over the country.

What Some Milano People Have To Say

Mr. W. A. Ashley says: There is an old traditional problem that if you kill 20 hogs during a winter and you kill an odd number at each killing and make 5 killings, the meat will keep without being salted down. Now if this can be done by some of our readers the Gazette would be glad to have the solved problem given to us for publication.

Mr. J. A. McClellan says: He believes the gambling and crap shooting in Milano can be stopped if the parents of the boys want to stop it. He believes it's the parents' business to prosecute their boys if they know they gamble, and they're more likely to know it than anyone else. If other citizens prosecute the boys then the parents are ready to shield and protect their guilty boys.

Mr. G. W. Butte says: All this dice shooting and gambling by the Milano boys is a disgrace to the town and to the citizenship. It makes a respectable citizen feel ashamed to live here. The gambling is going on and at a recklessness that is astonishing. Hardly a day passes but what a bunch of boys can't be seen gambling somewhere around the obscure corners and stray nooks of the town.

Mrs. S. W. Taylor says: In order for anyone to appreciate our little town of Milano they need to take a visit to points in east Texas. Mrs. Taylor is just back from Huntsville and other points and says Milano is 50 years ahead of that part of the state. In one town she says a negro was hauling wood to town with the old time oxen team. Milano's stores she said, were larger and contained more goods than stores in towns much larger than Milano.

Mr. E. H. Hairston says: A stranger asked him the other day at the depot if it wasn't against the law to gamble. Mr. Hairston replied that perhaps it wasn't, at least it didn't seem to be around Milano. The stranger said he had just seen a bunch of boys shooting dice for money and was wondering how they got by with the gambling laws. This is a nice example for a stranger to see in Milano. It lowers the name of Milano to the lowest of respect.

Mr. E. R. Cates says: About the best thing he sees about the Milano Commercial Club is that it is open to the co-operation of the farmers. He believes that business men and the farmers ought to pull together and get together once in a while and agitate their troubles and problems. There are times, he says, when the farmers need the sincere consideration of the business men. He's glad to see them ready to help.

Milano Commercial Club Now Completely Organized

(Concluded from the first page.) they being L. T. Hughes, R. W. Clary, L. Peebles, H. K. Haddox and J. W. Hairston. A publicity committee was also named, they being the correspondents of the various daily papers of the state. The dues for membership was voted to be 25 cents a month or \$3 a year, though it was voiced that the dues were not near as important as

a man's membership. The dues are merely to meet expenses of keeping the organization in proper financial shape. Regular meetings of the Commercial Club will be held on the second Monday night in each month at the I. O. O. F. hall. At the next meeting in April the Club expects to get down to real business and begin working for the welfare of the Milano country.

This Saint Paul Man Gains Twenty Pounds

"By taking Tanlac I have gained twenty pounds and gotten rid of rheumatism that had troubled me for thirty-five years," said J. W. Carlson, of 96 Phelan Creek Street, St. Paul, Minnesota.

"I am now sixty years old," he continued, "and had suffered ever since I was a young man of twenty-five. During that time I had the very best of treatment and tried many different kinds of medicine, but got no permanent relief until I found Tanlac. I was in such bad shape last year that I was laid up for three months. I also had stomach trouble so bad that everything I ate caused me to bloat with gas and suffer for hours afterwards, often I had raging headaches and was so nervous I could never get much sleep. Finally I gave up entirely and never expected to be any better, but I began taking Tanlac and the way it knocked that rheumatism out was simply wonderful, and I haven't a sign of it left.

"My stomach trouble, too, has left me entirely, I eat three big meals every day, for I am hungry all the time and never have the least bit of indigestion. My strength has come back and it beats the world the way I am gaining in weight. I never felt better in every way in my life and it gives me pleasure to recommend Tanlac, for it will do just what they say it will."

Commercial Club Will Lunch At Next Meeting

Monday night, October 11th, a big blowout takes place in Milano. The Commercial Club will set'em up. Takes place at the Odd Fellow hall just after night-fall. At the last monthly meeting a committee of three was appointed to make the arrangements for the luncheon, and just what the bill of fare or the menu will consist of is not being given out. But we understand it will be worth while testing and worth anybody's while to be there. The Gazette only cites this so members will have a chance to get there and if you have a friend or a neighbor you have a fellow feeling for bring him along. Maybe he will take a notion after the meeting is over to join and become a member.

Brings Home Snake's Rattle As A Souvenir

Mrs. G. J. Neeley returned home last week from a trip to Belton where she visit relatives for several days. She brought back a rattle-snake's rattle as a souvenir of that country. She helped to kill the snake from which the rattle was taken, and if the opinion of "snake-ologists" is correct the snake was 12 years old, as there were an even dozen sets of joints on the rattle.

Officers Of Commercial Club Met Monday Night

The Executive Board of the Milano Commercial Club held its regular weekly meeting Monday night at the Odd Fellow hall with about 10 members present. Road matters was the principal subject discussed, and Road Representative W. O. Newton made a report on his trip to Austin where he appeared before the Highway Commission Monday with several other parties from Cameron and Rockdale. He made a very favorable report on our Caldwell-Cameron highway and says the state promised somewhere between forty and fifty thousand dollars to be used on this 19 miles of highway, the Milano road district to furnish a like amount and on which the Cameron people have pledged to do their part. The oil situation was also thoroughly agitated at this meeting and from information given out it seems that Milano is about to pep open soon with an oil scare that will attract statewide attention. The Commercial Club is going after business and if the Milano people will back it up it will produce some big results. The regular monthly meeting of the Club is held every second Monday night, while the officers, directors and the chairmen of the various committees will meet every Monday night.

An Ultimatum To The People Of The Milano Country

Beginning with next week's issue of the Gazette all items of insignificant news about people who are not subscribers of the Gazette will be omitted from publication. This rule will apply equally to our correspondents' letters as well as other sources of news. We cannot afford to pay the high price of paper and give our hard labor and valuable time of type setting for people who borrow their neighbor's paper. New Oil Drilling Move Is Now Under Way

A mass meeting of the land owners north of Milano was called for by the Commercial Club Tuesday night for the purpose of considering the leasing of their lands in a block for an oil drilling company that seems very desirous to work on the north side of town. Each land owner received notice by mail of the meeting and a good attendance was present. Land under lease negotiations lie north and northwest of town, and a number of oil geologists have lately been looking the ground over and were surprised at the wonderful oil indications that are coming to the scientific eye. Information running northeast across seems to have attracted attention more than anything, and their idea is that drilling should be done somewhere north of this ridge which is supposed to have been caused by a gas upheaval in ages past. At the meeting Tuesday night good results and some headway were made by land owners signifying their willingness to lease their land in a solid block and it will require some time to get these leases prepared and other necessary papers to the satisfaction of the oil men and also the land owners.

THOSE WHO FORGET NOT

Miss Dora Rutherford left a half dollar with us some few days ago for a subscription to the Gazette.

We acknowledge the receipt of \$1.50 from Mr. L. L. Stewart who lives out on route 1 for a year's subscription to the Gazette.

Mr. E. J. Fisher of the Oakdale community left a half dollar with us the other day for a Gazette subscription which goes to Mr. Enoch Fisher at North Fort Worth.

Milano Gazette: Enclosed find check for \$1.50 for renewal subscription to the Gazette for another year. We missed our copy last week, so suppose it has expired. Was expected to be notified when it ran out. We always miss the home town paper if it fails to arrive, so please send it on with all haste. Very truly yours, Rupert J. Stewart, 1208 Ash Crescent St; Fort Worth.

Three copies of the Gazette go to Fort Worth in one bundle and the fact that Mr. Stewart failed to receive his paper that week can not be accounted for. Perhaps it went astray in the mails. The Gazettes are very carefully mailed every week and it is seldom a paper goes astray in the mails. Your subscription date Mr. Stewart, is May 17th, 1921. Thanks very much.

The Cemetery Association Needs More Money

Six members of the Milano Cemetery Association met in regular monthly session Monday afternoon with Mrs. W. H. Dukes. The Association reported \$37.25 having been paid out for having the cemetery grounds cleaned off and the treasury was reported without farther funds to continue the work. Anyone who wishes to donate any sum of money toward this work is asked to leave the money at the Milano Bank or with one of the officers of the Association. After business matters were attended refreshments of sandwiches, grape juice and cake were served. The next meeting will be held at the park pavilion on June 7th, at which time new officers are to be elected for the following year. June 5th is the anniversary of the Association.

Rev. C. H. White Enters The Race for Representative

Rev. C. H. White of Gause has announced as a candidate for Representative to the State Legislature from Milam county. His authorized announcement appears in the announcement column of this issue. Bro. White is one of the best known citizens in Milam county and is stamped by all who know him as a man of sterling worth. Over here at Milano and Gause everybody knows him, for this has been his home for many years, and he has a strong following of friends who want to see him elected as our next Representative. For many years Bro. White has been in the ministry and has done much good both here at home and in other

parts of the state. He believes that a preacher has as much right in the Legislature as a lawyer, and that the preachers and the farmers ought to go there hand in hand and see that our laws are of the right kind, laws that will benefit rather than become harmful to the commonwealth. Bro. White is a good orator and when he takes the stump later in the campaign he will tell the people just what his platform consists of. His candidacy is subject to the action of the democratic primary election on July 24th, and he kindly asks you to consider his candidature and will appreciate your vote and any other support that may be given him by his friends.

Milano Farmers And Business Men Attend Hog Show

Eighteen automobiles left Milano last Friday morning crowded with farmers and business men who went to Temple that day and from there to Midway, about 4 miles farther out to attend the registered hog exhibits. Each car was tagged with a big streamer with the word "Milano" on it and when strung out on the road it looked like a very good size delegation. Practically all the business houses closed during the day. The automobilists reached Temple about noon and at

the hog show they report having seen some grand sights in the hog raising industry. As one man expressed it, he said they had shots there that weighed eleven hundred pounds. There is no question but what the trip was worth many times its cost and trouble, for the Comerical Club wants to see the Milano farmers go after the hog raising industry and go after it right. People are getting rich quicker by raising registered hogs than in any other line of farming.

Milano Tomatoes Will Soon Be Coming In

Milano's first crate of tomatoes for this season will be due to arrive some time on or between the 24th and 27th of this month. For the past seven or eight years the first crate has always been brought in on one of these dates and some of our tomato growers are getting anxious about the matter. The first crate generally always brings some premium money, provided the tomatoes are fancy enough for shipping. Several times the first crates were not good enough for shipping and the merchants know it is hard to get a perfect first crate, but it is suggested to get as nice a one as possible, at least one that can be shipped off to market with some confidence that it will be a worthy boost in telling the whole state that it was grown right here at Milano.

Burglar Helps Himself To Candy And Pennies

The "Palace of Sweets" was burglarized last Friday night by some one whom it is thought was concealed somewhere in the building before it was closed for the night. The party is supposed to have entered by the rear door after dark and hid in the picture show division of the building until the house was closed up. A hole was cut in the Beaver-board partition through which the burglar entered from the picture show side. Three \$1 boxes of candy and about \$4 in pennies was taken. The burglar must have become frightened while in the drink parlor, for he left his cap and a box of matches, and it is said that his cap has been identified but no prosecution has been made.

Soap Economy. New soap is about the most extravagant thing there is. If you possibly can, buy a dozen bars at a time. Cut it up at once into one and one-half inch thick blocks. Store these in a very dry, rather warm cupboard, piling them up after the fashion of a child building bricks, i. e., so that they practically do not touch each other. They will then dry and harden right through, and while the cleansing power of the soap will be in no way diminished it will last twice as long.

Milano Theater Makes Several New Changes

The Milano Theater has changed its Wednesday night program to Tuesday nights of each week, also every Saturday night. The change from Wednesday to Tuesday night was made for the convenience of the public, as there seemed to be other mid-week occasions which the show might interrupt. Manager Almon is trying to please the Milano people in any way he can and he has also made a change in the class of pictures, something different and better than has been shown. The pictures will include good comedy and a serial picture at an early date. And with electric fans installed soon Mr. Almon believes the public will be both comfortable and satisfied. The show is well attended at each performance and the people seem well pleased with its entertainment.

The Happiest Woman In The State Now

"I believe I'm the happiest woman in California today and it is all because of what Tanlac has done for me," said Mrs. Eugene Smith, a prominent and popular Los Angeles woman who resides at 680 West 52nd St. Mrs. Smith is an officer of the Eastern Star and other organizations.

"For six years I suffered from a complication of troubles that finally led to a general break down. I had awful pains around my heart, which I was told were caused by pleurisy. My kidneys were in such bad condition I had constant pains in my back and my neck and shoulders would get stiff at times and my limbs swelled so I could hardly walk. I was so nervous that even the ringing of the door bell upset me and it seemed impossible to get a good night's sleep. I tried everything I could hear of to get relief, even to having all my teeth treated, but kept getting worse and became so weak and emaciated that I weighed only one hundred pounds. Finally they took me to the hospital and I stayed there six weeks, but did not seem to improve in the least, so I was brought home and had just about given up hope when a friend persuaded me to try Tanlac.

"I began to feel better after the first few doses and by the time I had taken four bottles of Tanlac I had gained eighteen pounds in weight and felt as well and strong as I ever did in my life, for every one of my troubles had left me.

"The results from Tanlac must be permanent, for it has been four months since I took my last dose and I feel as well now as I did then, and I think I would be ungrateful not to tell others what a wonderful medicine Tanlac is."

Traveling Men Help To Make The High Prices

It is said that manufacturers of men's clothing pay only from \$4 to \$6 for wool for each suit they make. That being the case we wonder why these suits cost the public from \$50 to \$75, hardly worth over \$15. It is very likely that the nice, big, fat tapered drummers get the balance on soft salaries, expense accounts, drayage and cigars. That is what the public pays for in order to wear clothes.—Seguin Gazette.

The Brainy Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Governor Of Louisiana Wears Shoes 3 Years

In an address in New Orleans Monday John M. Parker, the new Governor of Louisiana, said that he had not bought but one pair of shoes in three years. Governor Parker, who is not compelled to economize because of poverty, said that in these days of high living costs, the wearing of old clothes was an expression of sound common sense and moral courage. If all the people who are in Governor Parker's class of wealth would follow his example, the prices of such articles would remain well within the reach of people of moderate means.

Hog Industry Is Now A Money Proposition

(From the Temple Daily Telegram).

If you can show a man how he can make money out of a proposition you can at once get his interest. This is not to indict the human race for mercenary; it is to praise it rather, for showing signs of common sense. We suppose it is not necessary to recall that it has already been demonstrated in Bell and Williamson counties that there is money in raising registered hogs. The stories of single animals, even weaned pigs, being sold for almost fabulous sums are not fiction. They can be verified by bankers, business men and ministers. All of us know they are true, and the happy part about it is that many have been given such encouragement that they believe they can raise just as valuable hogs as anybody else. It is not the policy of the Telegram to advise one way or another as to the hog industry, but we cannot refrain from pointing out occasionally just what it will mean in dollars and cents when the whole country begins to send to this section for registered hogs of all types. This move to supplant graded stuff with thoroughbreds is just in its beginning, so there is no limit to the possible demand for registered animals. Every day more and more pig clubs are being organized, and as the older people of the community view the successful efforts of pig club members, they, too, will want the pigs with the papers. So long as thoroughbreds are paying propositions, no argument will ever be necessary to sell them. The one thing that makes the Telegram so optimistic as to the success of this move, however, is that there is money in it. It pays. That is being demonstrated right at our door every day in the year.

Commercial Club Meets On Next Monday Night

Next Monday night, May 10th, is the regular second Monday meeting night of the Milano Commercial Club and all members are reminded to be on hand. The Club is now under full headway and many matters will be agitated that will be of interest to all who attend. Bring a friend or neighbor along when you come and be there at 8 o'clock. Come out and see what the Club is trying to do for the Milano country.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Brierley.

High School Graduates Finished Monday Night

Most Primitive Still.

Probably the most primitive still in use is that used by the Chinese in the distillation of camphor, which is said, however to be very effective. The leaves are placed in a wicker basket, which is fixed over an iron caldron containing water. On the top of the basket a basin of cold water is placed. The steam from the caldron passes through the leaves of the basket and carries over the camphor vapor, which is deposited in the form of camphor on the cool under surface of the basin.

"Easy enough," Pat replied. "Fides regnat ubique"—Faith! It rains everywhere."

Report Of Third And Fourth Grade Leaders

Miss Eula B. Velasca Lister and Hercheal Pierce tied in getting the most headmarks in spelling in the third grade. Barnette Devall also got four gold stars in reading, which means he went four consecutive months without mispronouncing a word. Virginia Thweatt and Helen McGregor tied in the fourth grade leadership and Nettie Hickman made the greatest number of headmarks in fourth grade spelling. Maude Hairston, Mary Ella Stimmions and Truman Williams tied in fourth grade reading, each having gone 11 weeks without mispronouncing a word.

What Some Milano People Have To Say

Mr. G. W. Hilliard says: He's been living in Milano something like 9 years and has paid out about a thousand dollars in house rent during these years. So he gave the matter another serious thought the other day and bought the L. Bedell home-stead. Now his rent paying days are over. Said he ought to have bought a home several years ago, for about half of that rent money would have bought a home when he first located here at Milano.

Mrs. W. M. Hickman says: Man's existence in the world is as naught. He is promised but a few days here on earth and they are full of trouble. His only sure heritage is the Grim Reaper and six feet of sod. Yet how earnestly does he strive with the intelligence given him to rise to a position to command less fortunate fellow creatures, thus forgetting in his worldly greed the soul's right to immeasurable riches that is promised those who keep His ways.

Mr. E. J. Fisher says: He can't see why the precinct conventions were ordered to be held at 5:30 o'clock in the evening. Some were even scheduled for 7:30 o'clock. This means that the farmers have no chance to attend the convention, for the majority of the farmers are on their way home at the time. He came in town last Saturday and would like to have attended the Milano convention but said he didn't think he could wait till 5:30. He believes the convention ought to open at 2 o'clock in the afternoon.

He has been sick for the past two weeks. We believe an extended fishing trip for about a month would bring back that old time smile and pleasant personality, and we would like to be along just to enjoy his jolly good company.

Newton Store News

Mrs. Willis Smith, Mrs. Luce, Mrs. Springer and Mrs. McClellan of the East Milano Country were among those shopping with us Saturday.

We sold an Oliver Walking Cultivator to John Luce, and a Texas Maid Cultivator to J. B. Rutherford. If you need anything in this line see us. If we do not have it in stock we will get it for you.

Let us tell you that Bell County Hog Show "was some hog show," and our farmers and business men who went to see it last Friday got their money's worth. We are sure the trip will result in better hogs for the Milano country. We saw hogs that weighed more than an average cow, and whose owners would not exchange one of them for two or three carloads of common hogs. Blooded hogs will no doubt pay if the proper attention and care is given to them.

V. T. Wimberly took his first good look at the Fowler Cultivator the other day which we have an exhibition at our store, and he became a convert at once. He will take a Fowler Cultivator home with him when he comes to town in his wagon. This is a tool that interests every farmer who takes a look at it.

Let us not lose heart. There is still time for making a good cotton crop. We find on traveling over other counties that we are in much better condition than other localities. One of the things that we fear is that there will be a great scarcity of cotton-seed if many of our farmers have to plant again. We had a small reserve supply but it has about all been sold. However, if our customers need more and will advise us in time we will make every effort to get the seed for them.

We were glad to see the little shower Monday night and have only two kicks to register. The first that it was not as much rain as we would like to have seen fall, and again it kept us from attending the Graduation Exercises. The exercises were well attended in spite of the weather, and were heartily enjoyed.

Our Prices Are Right.

We Want Your Business.

Mrs. W. T. Burdick and little daughter of Taylor were guests of Mr. and Mrs. W. F. Hooker a few days during the past week.

Mr. and Mrs. Phillip Houston of Chriesman spent several days with the latter's mother, Mrs. Nettie Bradberry and family, last week.

We expect lower prices on eggs, but we want you to bear in mind that we always pay the top prices.

C. M. Grabener was in Wednesday and said that his part of the country is much in need of rain, especially for gardens.

We have a few sacks of fertilizer left. Would it not pay you to use some on your late plantings? Rather than carry over we are going to reduce the price \$2.00 per ton.

Mrs. G. W. Martin purchased one of our new milk coolers this week. We have two left and do not hesitate to recommend them. They keep milk, butter and food cold without the use of ice. Did you know that the price of ice has increased about fifty per cent? An iceless cooler means a much greater saving now than in the past. The coolers cost very little more than 1st year.

The flour market is very strong and we are advised by those who know that flour will very soon be much higher. We are selling our present stock below replacement price.

We have heard many complaints that the potato bugs are destroying the potatoes in this country. You can save your potato crop if you will use Plant-Bug Insecticide Poison which we have for sale. This kills potato bugs, melon bugs, certain truck-crop insects, the boll weevil, and other insects. It is made by the same company that makes the Yellow-Jacket-Fly Powder which most of you have tried and know to be good. We will also have a supply of this fly powder by Saturday. If you want to kill the flies this is the right "dope" for you to use.

We still have a few window shades at \$1 and \$1.25.

You people down at Sandy Grove keep an eye on Claude Bankston. He was in town Saturday and purchased one of our Oliver Walking cultivators and we are afraid his plowing may now be so easy for him that he will forget how to work. If there are any others down there who want to forget how to work we have a cultivator here for you too.

A Bright Out Look For Highway Falls Through

Mr. W. O. Newton who went down to Austin last week with a Cameron delegation to see about our road bonds and road money, reports that the bonds for the Milano road district No. 29 are expected to be approved within the next few days, and also states that the State Treasurer will buy \$25,000 worth of the bonds as an investment for the state. Then when this \$25,000 is paid over work can be started on that Cameron-Milano highway. The state will put up half as much and Cameron has promised to help with several thousand more. Mr. Newton figures there will be about \$80,000 available for this highway whenever the state pays over the \$25,000 for a portion of the bonds of this road district.

Later—Since the above report was put in type Mr. W. O. Newton has received the following communication from the State Treasurer through Judge W. G. Gillis:

"I find that the Board will not be permitted under the statute to invest the permanent funds in your road bonds, and I am writing you this so that you may not depend upon this. Sincerely yours,

Jno. W. Baker, State Treasr."

Thus the matter is brought back to where it started. There is no market at present for the Milano bonds, and until they can be sold there can be no work started on the roads. While at Austin recently Mr. Newton made a number of efforts to get different branches of the state government to handle some of the bonds, but in each instant he was informed that present funds were not available, but that later they would be glad to invest. There seems nothing in sight to do now but to wait for more time.

Too Big a Word for David.

David is a little boy five years old, and a patient of Sunnyside. He always watches the nurse very closely when she takes his temperature, pulse, and respiration. One day he was lying in bed with his chest bare, watching himself breathe. "What are you doing, David?" asked the nurse as she came upon him suddenly. "Why, I am watching myself get well," was his reply.—Indianapolis News.

Two youthful boys of 16 or 18 years of age rode between the engine and mail car on Santa Fe passenger No. 6. Tuesday afternoon and in alighting they hid under the car until time for the train to leave again. Constable W. E. Peel saw the boys and suspicioned them to be beating their way and kept watch over them. When the train pulled out the boys got back on and Mr. Peel at once phoned the sheriff's office over at Cameron to meet the train and take charge of the boys. We have not heard whether they were caught at Cameron or not.

Bits Of News From The Oakdale Country

Mr. Herman Thompson took dinner with Mr. Sid Hause Sunday.

Mrs. Lattie Shelton went to Huntsville Saturday where she will attend the summer normal school.

Mr. Eugene Mobley's little child has been very sick. He thinks it has typhoid fever but hopes it is nothing worse than malaria.

Mrs. W. A. Belt seems to be a great deal better now. The writer was at her home Sunday and enjoyed a very pleasant evening.

Little Miss Minnie Thompson is at home after spending another year in Austin attending the deaf and dumb institute at that city.

Clyde Hensley and mother have returned from a trip to Houston. Mrs. Hensley came back to be with her mother, Mrs. Westbrook, who lives in the Liberty community.

Will Addison came to see his children Saturday and went with them and their grandfather, Frank Fasel, to Milano. He returned home by way of Cameron Sunday.

Mrs. Wimberley has been sick the past week. She wanted to go to Temple last Thursday with Mrs. Sid Hause who went that day but she was unable to go, so they were both disappointed, as they expected to make a picnic of the trip in having to go to the sanitarium.

Mr. and Mrs. J. D. Link and daughter Cora May and Ed Hause spent Sunday here at the Sid Hause home. Mr. Link is a merchant at Silver City. They say they are coming often now as it looks like we will have something to eat.

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor, the daughter of John White, governor of the second agricultural colony sent by Sir Walter Raleigh to the Carolinas.

Doctor Liddell Is Visiting In Sunny Atlanta

Doctor F. A. Liddell left Sunday for Atlanta, Georgia. He was accompanied by his sister, Mrs. Low and little son of Cameron. They will visit a sister at the great southeastern metropolis and will be absent for about two weeks. Some of our Milano citizens believe the Doctor went to Atlanta on an important secret mission and it has leaked out here that he may bring back a huge roll of wealth with which to sink an oil well here at Milano. The Doctor is satisfied there's oil here at Milano and has been taking active interest in all such matters, hence his Milano friends are of the opinion that he's gone to Atlanta on big business. We are awaiting his return to Milano to help boost the oil projects.

Mr. and Mrs. Clyde Jackson of Rockdale returned home Saturday after having spent several days at the F. W. Hama home here.

John Dean and family and Conrad Paschall and family have been visitors at the Dan Paschall home since we made our last report.

News From People Down About Summit

J. C. Hurt was visiting relatives at Thrall Saturday and Sunday.

Mr. Sam Hood has been remodeling the Hams home this past week.

Some of our farmers are now beginning to talk about eating roasting ears pretty soon.

Health seems reasonably good around here and everybody is busy working out their cotton crop.

Representative C. M. Beard was home last Saturday and Sunday from the Legislature at Austin.

Dipping day came around again this week. It was hoped by many that we would not have to dip our cattle any more.

Mrs. G. W. Beard and Mrs. M. E. Harrell went fishing Saturday, but we haven't heard about what kind of luck they had.

Mrs. A. S. Hurt and Mrs. Ida Wespey visited the Walter Matthews home Sunday in Burleson county and reported a nice time.

Mr. Raynold Beard reports that 26 people dipped their cattle here Monday and four failed to dip. He says the dipping is certainly cleaning up the ticks, but states there are still plenty of them on some of the cattle which are inspected.

Well, we read and hear a lot of the boll weevil, but I tell you the worst trouble is that people are so wicked. When it rains they curse it for being too wet, and when it doesn't rain it's just the reverse. If people would take the world fair and easy and accept the seasons as God sends them down to us then the boll weevils would vanish away.

Trick Hair.

My little brother, Bobby, always liked to have Mr. L. call, because he could perform an act which awed as well as amused him greatly—wriggle his hair. One evening, during such a performance, Bobby said wistfully, "You can wriggle yours, sister can take hers clear off and lay it on the bureau, and I can't do a thing with mine."—Chicago Tribune.

The Recital Last Friday Night Was A Rare Treat

The song and dramatic recital at the Methodist Church last Friday night proved to be a rare treat and was pronounced most wonderful by those in attendance. Prof. Edward Brigham sings in a bass voice such as was never before heard in Milano; his recitations were splendid and full of eloquence, and his musical recitations were living pictures of everyday life. The entertainment was superb and of a class that many people have paid big money to hear. Every selection rendered received a hearty encore for more and his physical endurance and ability of voice is something amazingly wonderful. Those who heard him regret that everybody in the entire community were not there to hear such a wonderful man.

Construction Foreman Says It Saved His Life

"It was talked among my friends that I was going to die and I don't believe any one ever had a much closer call," said James Mahoney, well-known foreman of the Richard-Naustadt Construction Co; living at 22 East 15th St; Los Angeles, Cal.

"Closely following an injury to my back, my whole system seemed to give way," he continued. "There seemed to be a lump in my stomach and I could not eat a thing without intense pain afterward. My appetite left me completely and I got so weak I could not even lift my feet to go up the steps. I was in misery all the time and could not straighten up for the pain in my stomach. Then I become constipated and my kidneys began troubling me so I could not sleep sound at night. Before these troubles started I weighed a hundred and forty-five pounds but dropped off until I actually did not weigh but sixty-five, and if there was ever a living skeleton I was. I could hear my friends who came to see me say: 'Poor Jim? He can't last much longer,' and I had no hope of ever getting up. Finally I was told that nothing more could be done except to operate and I was too weak to stand that. 'A friend urged me to try Tanlac and agreed to slip me a bottle, as my wife objected to anything but prescribed medicines. Well, to make a long story short, I soon improved so much that I quit taking everything but Tanlac and now I am back at work feeling as strong and fit as I ever did in my life. I weigh one hundred and thirty pounds and I haven't an ailment of any kind. My wife now thinks as I do, that Tanlac is the greatest medicine in the world."

The issue of free speech is really modern, and emerged clearly as a defensible proposition only with Milton's Areopagitica, to be followed by the widely divergent reasoning of Jeremy Taylor and Joseph Glanville, and by Locke's classical first "Letter on Toleration" (1689), which says almost the last word on the matter so far as religious differences are concerned.—James H. C. M. Beard Says The Dipping Law Holds Fast

Representative C. M. Beard returned home last Saturday from the Legislature at Austin. He reports many matters having received attention, and concerning the pink boll worm matter, which was the chief issue, he stated that a zone law was passed but would not be effective until next year, as it was too late to restrict farmers from growing cotton this year. All cotton and cotton products will be exported from Texas through the port of Galveston. Regarding the cattle dipping law Mr. Beard said it was amended to cure its defects and as the law now stands all cattle which are infected with ticks must be dipped and there is no way of escaping the law. The amendment provides that cattle free from infection or exposure can be exempt from dipping; but otherwise the dipping law must now be obeyed in all respects.

Motor Car Crashes Into Running Freight Train

Mr. T. H. Almon, electrician for the rail roads here at Milano, Caldwell and Cameron, had a narrow escape with his life Tuesday while he was enroute to Caldwell on his rail motor car. In going around a curve a running freight train suddenly loomed up before him and he didn't have time to stop and get his car off the track. He made a leap for his life and let the motor car crash into the freight. That was all he could do. Time was too short to save the car, but he lifted the hind wheels off the track and prevented the destruction of the engine in the car. The collision occurred in a very deep cut near Elevation.

Brother Of Milano Man Died Sunday At Noon

Mr. J. A. Morgan returned home this week from Bastrop where he had been attending the bedside of his brother, Mr. W. H. Morgan, who died at his home in the Alum Creek community south of Bastrop Sunday at noon. Mr. Morgan was 72 years of age and left a wife and 5 children, besides his brother here at Milano and a half-brother in Illinois. Our Mr. Morgan was with his brother when he passed away and he says there are some mighty nice and good people in Bastrop county, and to them he extends his sincere thanks and appreciation for the many services rendered during the illness and death of his brother.

The Milano Corn Crop Now Seems Assured

According to reports from farmers over the Milano country the corn crop is made. That is to say it is assured, but of course not yet fully grown. The recent rains of last week came in the nick of time to save the crop and enough rain fell to insure full growth even should no more rain fall. The corn crop is the golden grain of the South and although this is not a full-fledged corn country the corn is one of our most important crops. We heard a Milano farmer say the other day that if he didn't make a corn crop he would have to move away and get a job. His cotton is all a blowed up affair and he is depending on his 10 acres of corn to pull him through for this year. Besides cotton and corn the various other crops over the country seem to be good and the people as a rule are hopeful of the prospects.

Rupture Expert Will Be At Taylor On June 30th

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Blazilmar Hotel and will remain in Taylor Wednesday only, June 30th. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast improvement over all former methods—exemplifying instantaneous effects, immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley. (Advertisement.)

The first car of ice for this season was unloaded here last week and Manager E. F. Evard of the Milano ice vault is now back on his summer's job trying to sell it out before it all melts up. He says the first car load is nearly always a loss, as a very large portion of it melts quickly before the vault is cooled, and even after the vault is cooled, a block of ice will lose many pounds in weight in a day's time.

May was the longest day of the year; consequently the days are getting shorter again. This is the summer solstice period and the summer and almanac people begin on this day, but never could figure it out that way. Everywhere we have ever lived it looked like the 21st of June was mid-summer and we can never believe this day to be anything else.

News From People Down About Summit

And the dipping of cattle, we understand, will continue.

Mr. C. M. Beard returned home from Austin last Saturday.

Cotton looks well and nearly everybody is up with their work.

Mrs. J. M. Richards was a visitor at the A. L. Graham home Sunday.

Miss Mint McArthur is visiting here at the home her brother, Mr. A. L. Graham this week.

Mrs. Albert Wilson of Thrall was visiting at the home her mother, Mrs. G. R. Hurt, last Saturday.

We have been blest with another good rain and now we will be eating roasting ears for a few weeks.

Mr. and Mrs. A. R. Graham were visiting at the C. M. Grabener home over at Sandy Grove Sunday.

Attorney O. D. Graham of Thornedale came over and visited at the home of his parents, Mr. and Mrs. A. L. Graham, last Sunday.

Mrs. A. S. Hurt and baby and Mrs. Wespy were visiting in Lexington last week where they visited at the George McGregor home.

Mr. Pinkney of Rockdale was down on the ranch one day last week looking after some stock. He bought a lot of tomatoes from Mr. C. W. Beard for canning purposes.

J. D. Hooker of Hearne was visiting home folks here Sunday.

Mr. W. O. Newton was in Austin on business matters Tuesday.

Mrs. Irene Little of Mart is visiting at the home of her mother, Mrs. J. B. Holland this week.

Wives for Colonists.

In 1821 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Bits Of News From The Oakdale Country

Mr. and Mrs. Clyde Hensley were visiting relatives at Liberty Sunday.

Mr. and Mrs. Eugene Hause were in Cameron Saturday and took dinner at the home of his brother John.

Mr. and Mrs. Ben Allen Nicholson of Liberty were over Sunday to visit old friends in this community.

Mr. and Mrs. William Immons went over to Liberty last Sunday to visit at the home of the Cast family.

We were in Milano Saturday and found the little town well crowded. Most everybody there seemed to be wanting groceries that day.

We got the rain everybody was wishing for. We heard one man say it ruined the corn crop and would not make a nubbin for the hogs or cows—it would all be ears of corn.

Oakdale is kinder picking up. A couple of men got together a few days ago and decided to have an ice cream supper, so Saturday night they got a very good crowd together and sold about 10 gallons of cream.

Mr. Lott Blackmon of Coryell county came to see his brother near Milano recently and said we had better crops here than they had in Coryell county. He may be thinking of coming back to this country.

Mr. and Mrs. Sid Hause visited the Clint Pierce family Wednesday of last week and found their old time friend there, Mrs. White, the mother of Mrs. Pierce. I would like to have her stay with me some, but she is going elsewhere in a few days.

People need not say the little Milano paper can't do much by advertising for you. Mr. Hause advertised a mowing machine and rake for sale and the buyers came for it this morning. They paid some money and some hogs. That looks like the Gazette can do something.

Sweet Potato Planting Very Active This Week

Sweet potato planting this week has been going on over the Milano country on a huge scale. The recent rains have made planting of the slips ideal, and while a little late, there is plenty of time for good potato crops. The largest sweet potato growers here at Milano this year will perhaps be the two plant farms of J. H. Burnet and E. C. Smith, both of which have been setting out a very large acreage in slips the past two weeks. And the majority of farmers all over the country seem to be growing a patch of potatoes for their own home use, and a good many will grow them for the market as a money crop.

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor; the daughter of John White, governor of the second agricultural colony sent by Sir Walter Raleigh to the Carolinas.

Bob Smith is reported as being on the sick list this week.

Nugent Meadows left Sunday night for Dublin to work there.

Mr. and Mrs. Henry Hutto spent Saturday night and Sunday at the S. E. McGregor home.

Mrs. Jim Segars of Somerville was a guest of Mrs. S. E. McGregor for a few days last week.

Mrs. W. R. Dennis, Mrs. G. W. Beard, Mr. and Mrs. F. W. Iiams attended church at Milano Sunday.

News From People Down About Summit

J. C. Hurt was visiting relatives at Thrall Saturday and Sunday.

Mr. Sam Hood has been remodeling the liams home this past week.

Some of our farmers are now beginning to talk about eating roasting ears pretty soon.

Health seems reasonably good around here and everybody is busy working out their cotton crop.

Representative C. M. Beard was home last Saturday and Sunday from the Legislature at Austin.

Dipping day came around again this week. It was hoped by many that we would not have to dip our cattle any more.

Mrs. G. W. Beard and Mrs. M. E. Harrell went fishing Saturday, but we haven't heard about what kind of luck they had.

Mrs. A. S. Hurt and Mrs. Ida Wespey visited the Walter Matthews home Sunday in Burleson county and reported a nice time.

Mr. Raynomd Beard reports that 26 people dipped their cattle here Monday and four failed to dip. He says the dipping is certainly cleaning up the ticks, but states there are still plenty of them on some of the cattle which are inspected.

Well, we read and hear a lot of the boll weevil, but I tell you the worst trouble is that people are so wicked. When it rains they curse it for being too wet, and when it doesn't rain it's just the reverse. If people would take the world fair and easy and accept the seasons as God sends them down to us then the boll weevils would vanish away.

Trick Hair.

My little brother, Bobby, always liked to have Mr. L— call, because he could perform an act which awed as well as amused him greatly—wriggle his hair. One evening, during such a performance, Bobby said wistfully, "You can wriggle yours, sister can take hers clear off and lay it on the bureau, and I can't do a thing with mine."—Chicago Tribune.

The Recital Last Friday Night Was A Rare Treat

The song and dramatic recital at the Methodist Church last Friday night proved to be a rare treat and was pronounced most wonderful by those in attendance. Prof. Edward Brigham sings in a bass voice such as was never before heard in Milano; his recitations were splendid and full of eloquence, and his musical recitations were living pictures of everyday life. The entertainment was superb and of a class that many people have paid big money to hear. Every selection rendered received a hearty encore for more and his physical endurance and ability of voice is something amazingly wonderful. Those who heard him regret that everybody in the entire community were not there to hear such a wonderful man.

Construction Foreman Says It Saved His Life

"It was talked among my friends that I was going to die and I don't believe any one ever had a much closer call," said James Mahoney, well-known foreman of the Richard-Naustadt Construction Co; living at 22 East 15th St; Los Angeles, Cal.

"Closely following an injury to my back, my whole system seemed to give way," he continued. "There seemed to be a lump in my stomach and I could not eat a thing without intense pain afterward. My appetite left me completely and I got so weak I could not even lift my feet to go up the steps. I was in misery all the time and could not straighten up for the pain in my stomach. Then I become constipated and my kidneys began troubling me so I could not sleep sound at night. Before these troubles started I weighed a hundred and forty-five pounds but dropped off until I actually did not weigh but sixty-five, and if there was ever a living skeleton I was. I could hear my friends who came to see me say: 'Poor Jim? He can't last much longer,' and I had no hope of ever getting up. Finally I was told that nothing more could be done except to operate and I was too weak to stand that. "A friend urged me to try Tanlac and agreed to slip me a bottle, as my wife objected to anything but prescribed medicines. Well, to make a long story short, I soon improved so much that I quit taking everything but Tanlac and now I am back at work feeling as strong and fit as I ever did in my life. I weigh one hundred and thirty pounds and I haven't an ailment of any kind. My wife now thinks as I do, that Tanlac is the greatest medicine in the world."

History of Freedom of Speech.
The issue of free speech is really modern, and emerged clearly as a defensible proposition only with Milton's Areopagitica, to be followed by the widely divergent reasoning of Jeremy Taylor and Joseph Glanville, and by Locke's classical first "Letter on Toleration" (1689), which says almost the last word on the matter so far as religious differences are concerned.—James H. Two Lady Missionary Workers Coming Here

Rev. J. W. Roeber, pastor of the Nazarene Church, announces that a couple of lady Missionary workers will be in Milano this Saturday and Sunday, July 3rd and 4th, and will hold services at the Nazarene Church Saturday night, Sunday morning and Sunday afternoon. The ladies are Rev. Mrs. Steina Crooks of Chicago and Miss Ruth Rudolph of Dallas. The former is field secretary of the general board of foreign missions and is one of the strongest preachers connected with the Nazarene denomination. Miss Rudolph is an out going Missionary to India. These ladies will arrive in Milano this Saturday afternoon on Santa Fe passenger No. 6. The public is most cordially invited to come out and hear them while here.

The Brainty Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "splied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Baptist Meeting Closed With Splendid Success

The revival meeting at the Baptist Church closed Tuesday night. During the meeting thirteen new members were renrolled to the church, eight by letter and five by baptism. The baptizing ceremonies were held Wednesday morning at 10:30 o'clock at the E. C. Smith plant farm water tank. The meeting was one of the most interesting ever held and the Rev. Shelby of Waco and his able choir master, Bro. Crutcher, did a huge amount of good work, and these two men found favor with all who heard their works and teachings expounded.

Working Out Your Credit

How is the customer to work out his credit so that there will be complete confidence? He should convince the bank that the money asked for will be returned in money at the end of the promised period and not in excuses. To do this, never promise to pay sooner than you will have a definite something coming in. We try and want to encourage thrift and good business abilities.

We will help you if we can.

Moonlight Picnickers Helpful Enroute Home

Mr. and Mrs. J. D. Peeples, Jr; attended a moonlight picnic on the San Gabriel River Monday night with some of their Rockdale friends. They enjoyed bathing, luncheon and a big water melon feast. They motored back home about 11:30 that night and were held up by a man crawling through a barded wire fence about 2 miles from Milano who turned out to be Mr. Bruce Stewart and who had car trouble and was searching the country out there for some gasoline. He finally located a phone and Mr. D. W. Nickens went out with 5 gallons of "more gas," but by the time he got there they discovered the gas tank was well supplied. But the bunch soon located the trouble and all got safely and happily home.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. Friends Hardly Know Her At First Sight

"I have gained some eight or ten pounds since I commenced taking Tanlac and feel perfectly splendid in every way," said Miss Annie Peck, living at 1421 Charlotte St., Kansas City, Missouri. "I just can't think of enough good things to say about Tanlac," she continued.

"My troubles began about a year ago with nervous indigestion and my stomach finally got in such bad condition that everything I ate disagreed with me. After every meal I would be perfectly miserable from gas forming, and this gas would press up against my lungs and heart until I could hardly get my breath. I also suffered from severe headaches and became so nervous I rarely ever got a good night's sleep. Finally I became so weak and run down that I had to give up trying to do any work at all.

"My brother had gotten fine results from taking Tanlac so I began taking it too, and right from the first I could just feel my strength coming back. I continued to improve and now am as well and hearty as any one could wish to be and never have a sign of stomach trouble or nervousness any more. I am looking so much better that my friends who haven't seen me since I began taking Tanlac hardly know me at first sight, and I am feeling so perfectly fine I just want to tell everybody about Tanlac."

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor, the daughter of John White, governor of the second agricultural colony sent by Sir Walter Raleigh to the Carolinas.

Adhesive Tape.

People who have spent hours of agony from wearing new shoes over corns will find that strips of adhesive plaster applied over corns and across the heels, where blisters so often appear, will insure solid comfort.

His Corn This Year Is Growing Extremely Tall

Mr. J. A. Morgan had a big stalk of corn on his wagon while in town last Saturday which measured exactly 12 feet in height, and says he has a considerable patch of it of similar height. He planted the seed just as a new moon made its appearance, and regardless of what some folks think, Mr. Morgan says the new moon make it grow tall. Had it been planted after full moon it would have made short stalks. Of course good land and fertilizer help too. He says he has quite a lot of corn with two good ears to the stalk and he's always particular about having good seed when he plants the golden grain.

What Some Milano People Have To Say

Mr. J. H. Burnet says: The cotton crop over the Milano country looks better right now than it has at any time this season. A continued fight against the weevil and other pests, he says, will help to get it in even better shape than it is.

Mr. W. C. Mobley says: He lost his corn crop while he was sick this spring and as result he will make no corn. But he is going to plant some late variety of corn and other grain crop and will make every effort possible to replace the corn crop. He's a big believer in having plenty of feed, for without it a farmer is up against a difficult problem.

Mr. R. E. Lee says: Few people are familiar with the fact that the sweet potato vine blooms. But it really does. Some folks claim that it blooms only once every seven years, but whether this is so or not he does not know. Some people who have seen this sweet potato flower will call it a "tie vine," but he says it is no "tie vine" at all. Just follow it up and make a good inspection and you will see it is a sweet potato vine that is blooming.

Mr. J. A. Morgan says: If the U. S. government would give as much attention and expense toward prosecuting the profiteers as it gives to hunting down boot-leggers the people would receive some benefit of money spent and get some protection from being robbed. Another thing the government ought to remedy, Mr. Morgan says, is the marketing system of farmers' products. He sold tomatoes last week for \$1.40 a crate, not much more than they were several years ago, still he has to pay three times the former price for a pair of shoes and everything else his family needs. Uncle Sam, he says, could be the greatest benefactor on earth if only we had the right men in Congress.

Too Big a Word for David.
David is a little boy five years old, and a patient of Sunnyside. He always watches the nurse very closely when she takes his temperature, pulse, and respiration. One day he was lying in bed with his chest bare, watching himself breathe. "What are you doing, David?" asked the nurse as she came upon him suddenly. "Why, I am watching myself get well," was his reply.—Indianapolis News.

Constable W. E. Peel went to Gause Wednesday to help investigate the killing of a Mexican woman by her husband there that morning. The woman was instantly stabbed to death by a knife, after which the man tried to kill himself in the same manner but only managed to inflict two bad wounds. He was taken to the Cameron jail.

Mr. and Mrs. W. R. Sneed left Saturday noon for Texarkana where they expect to spend a few weeks with Mr. and Mrs. W. H. Enid. Bill's bought another farm up there and wanted the old folks to come and see what a beaut the real estate fellows sold him. And, Mr. Sneed said he wasn't coming back until he went to the Red River and caught some fish from its waters.

Right Idea About Business.

The old idea that business is getting the better of your neighbor is not only "bad business," but nonsense. Business is not getting the better of but doing the best for your neighbor—and yourself. If business is not mutually profitable, it is mutually destructive. My neighbor's prosperity helps mine and mine his. When that old pernicious notion is finally exploded the millennium of business will be at hand, the era of universal peace between capital and labor.

Most Primitive Still.

Probably the most primitive still in use is that used by the Chinese in the distillation of camphor, which is said, however to be very effective. The leaves are placed in a wicker basket, which is fixed over an iron caldron containing water. On the top of the basket a basin of cold water is placed. The steam from the caldron passes through the leaves of the basket and carries over the camphor vapor, which is deposited in the form of camphor on the cool under surface of the basin.

O. K. Phillips Is Candidate For Commissioner

In our announcement column this week will be found the name of O. K. Phillips as a candidate for re-election as County Commissioner of Precinct 3. Mr. Phillips has held the office for the past three years and was prevailed upon by friends to again offer for re-election. To this he agreed after deliberating over the matter for some length of time and constant urging of friends.

During his administration as Commissioner Mr. Phillips has tried to be fair and impartial to every section of his territory in regards to road work. He says beats 3 and 4 get only from \$3,000 to \$3,500 a year from road tax and auto tax and has a vast territory to cover with this money. So he has adopted a new plan of spending this money by letting the people have a sayso. Recently he turned over \$1,500 to the Milano and Gause Commercial Clubs to use as they may see fit.

He is an experienced road authority and a business man of great ability and if re-elected he will continue to give his best efforts and service to the office. His candidacy is to be voted on in the primary election July 24th and all he asks is that the voter consider his past record as County Commissioner.

Mrs. Nancy Todd is visiting friends over at Gause this week.

Miss Oattie Standard returned home Monday after a several days' visit with relatives at Chriesman.

Commercial Club Will Meet Monday Night

The Milano Commercial Club will meet in regular monthly session next Monday night, July 12th, at the Odd Fellow hall. All members are reminded to be present if they feel it a duty for the community and every farmer has a cordial invitation to be present, whether he is a member or not. The officers of the Club are expecting an agricultural expert to be present from the A. & M. College who will discuss some of the present day problems now confronting farmers. Those who have not as yet attended any of these meetings are urged to come out and attend this one.

Screen the Whole House and Avoid Expense

The reason for screening the house is to keep down expense. TRUE, your important thought is to protect your family against annoyance from that dangerous little visitor, the FLY. But what you really are doing is preventing the loss the FLY can cause by carrying health menacing germs—Typhoid, Malaria, and others, into your home. PEARL WIRE, the extra quality screen wire, is the modern means of protection and costs about the same as ordinary screen.

D. R. Criswell Is Candidate For Representative

Judge D. R. Criswell of Buckholts, candidate for County Representative, was in Milano Wednesday in the interest of his candidacy.

Judge Criswell has been a resident of Buckholts for the past 37 years; was Justice of the Peace of Precinct No. 6 for 14 years; has been in the practice of law for the past twenty years, and is also a land surveyor.

He was and still is a member of the Milam county Council of Defense, and was very active in his efforts to help win the war. Using the first soldier of Buckholts to volunteer in the defense of his native land, leaving home on May 6th, 1917.

Judge Criswell is a true Democrat and is a man with a very warm heart towards all mankind. He was a member of the Democratic Executive Committee of Milam county up to two weeks ago when he resigned therefrom to make the canvass for the nomination as representative of the 65th district of Texas and composed of Milam county. He has the ability to make the county an excellent representative to the state legislature and all he asks of the people is a due consideration of his candidacy before they go to the polls to cast their vote.

Mrs. B. McGregor was visiting her relatives at Buckholts this week.

Mr. and Mrs. Fred Sparks of Denison are visiting at the home of Rev. and Mrs. J. P. Sparks.

Former Milano Citizen Passed Away At Rogers

Mr. Joe Murphy died at Rogers Thursday of last week and was buried there the next day. Deceased was a former citizen of Milano, having moved away from here some 10 or 12 years ago and was well and favorably known over this country. He was about 68 years of age. His wife had preceded him in death, having been buried here at Milano. He leaves a number of grown children, among whom is Mr. Mike Murphy of Hearne. During Mr. Murphy's illness at Rogers Mr. G. W. Meadows and Mr. A. J. Cook went up to see him and spent a few days at his bedside.

A good crowd of our Farmers Union members attended the county union meeting at Bushdale on Thursday of last week.

Mrs. S. M. Bullock had a very severe attack of heart trouble Sunday night. If she is able she will go to the Cameron sanitarium some time this week for medical aid.

Farmers are about layed by. The crops have been terribly expensive to the farmers this year, as hired labor was so high and very little prospects for a cotton crop.

There is some complaint about rogues going into different water melon patches. Boys had better be careful as some of the farmers have put out poison to catch rabbits and you may get the poison instead of the rabbit.

The members of the Cemetery Association met at the cemetery last Friday to do some work and brought their dinner along and stayed all day. A few men came along and assisted in the work and a good crowd was present through the day.

Keep The Record Straight

Some of those who are perhaps not familiar with the record, or who are perhaps more or less indifferent about keeping the record straight, are seeking thru innuendo or otherwise, to create the impression that Pat Neff is running for Governor without a platform, or with an indefinite and evasive statement of the principles and policies upon which his candidacy is based.

The record is that Mr. Neff's platform setting forth his views on public questions was announced in his opening speech at Waxahachie, was presented through the public press, has been discussed in his numerous speeches during the campaign and may be had on application to Mr. Neff's law office at Waco. His platform, as so promulgated, definitely and uncompromisingly declares for:

Good roads; more efficient country schools, vocational education and better paid teachers; a better agricultural policy; equalization and reduction of taxation; economy in office and reduction in public expenditures; prohibition; woman suffrage and the purity of the ballot; the opening up and improvement of idle agricultural lands; improvement of the Texas livestock industry; encouragement of mill and factory industries in Texas; and many other progressive policies.

Why not keep the record straight? Judd G. Davis,
Chairman Milam County Neff
Executive Committee.

Local News Items Round About Town

Miss Loring Beard returned home Tuesday from a several days' visit with relatives over at Gause.

Doctor F. A. Liddell returned home Saturday from a three weeks' sojourn to Atlanta, Georgia. He reports cotton over the old southern states as being very small in growth because of excessive rains.

Mr. C. E. Turner of Bastrop, one of the owners of the Milano lumber yard, was in the old town Tuesday looking after business matters here. Mr. Will Siebert, manager of their Rockdale yard came over with him, making the trip by auto.

Says Tomato Industry Should Be Revived Here

Tomato growing and shipping is not yet all dead here at Milano. Mr. E. C. Smith, owner of the Smith Plant Farm, has made an extraordinary record this season with his 2 1/2 acre patch of tomatoes. Up to this week Mr. Smith has received \$2,100.00 for the tomatoes that were gathered, packed and shipped from this amount of acreage. These figures mean gross receipts of over \$800 per acre. And still the tomato industry is followed by but a few farmers here at Milano. Mr. Smith says as long as the Milano farmers grow boll weevil cotton in preference to tomato and other truck just that long will this be a poor man's country. The truck industry is the most profitable farming in existence if followed correctly and attentively. He says if Milano, Gause, Rockdale, Hoyte and Chriesman would all go in the truck growing industry and ship together under one management this section of Texas would soon be recognised as a very prosperous truck country.

State Board Of Health Advises Us To Clean Up

The Gazette has received a communication from the State Board of Health at Austin asking us to tell the Milano people to open up a "Rat Extermination Campaign" and a general clean up of the town and country. Several cases of Bubonic Plague have appeared in Texas, which is caused and spread by rats and is the most fatal plague known. Rats are more numerous this year than has perhaps ever been known. They are everywhere and can be seen along the country roads just about sundown, the cribs are full of them, the fields are invaded by them and the lofts of many homes are infested with filthy rats. People and rats can not live together. The rats must be exterminated or they will exterminate the people with Bubonic Plague and destruction of their crops. Europe alone lost 25,000,000 people by the plague from rats during the fourteenth century, and India lost several million during the last few years. Kill the rats and save your lives from the awful Bubonic plague.

O. D. Baker Wants To Benefit the Landless

Last week the Gazette cited a proposed law of state and county tax limitation by Mr. O. D. Baker in the event he is elected Floterial Representative to the Texas legislature on July 24th. This week we wish to call the readers attention to a few other laws which Mr. Baker wants to present to the legislature.

If elected he will also endeavor to have established State Land Loan Banks, backed by the credit of the State, through which the landless and dollarless man may procure money on long time and low interest rate to acquire a farm home.

Mr. Baker will also demand that every state bank shall be made a depository of public funds, so that the surplus funds of the state lying idle may, though these banks, be loaned back to the people on short time, and thus tide over the merchants and the farmers during the trying periods of financial depression and short crop yields.

He shall also endeavor to change the Senatorial District lines to give Milam county, should occasion offer, the opportunity of sending one of her sons to the state senate.

"There is a citizen of Milano who is made of senatorial timber and should he ever offer for that exalted office he shall have my most enthusiastic and loyal support."

Mr. Baker says he may not accomplish all these things mentioned above, but he has the courage and ability to make a fight for the enactment of such measures, and if elected the people will witness his struggles to write them into law.

If the people of Milam county will support Mr. Baker as they did four years ago, then his election is assured, and we believe the people are going to stay true to him.

Political Propaganda Exploded

Circular letters charging Pat Neff, candidate for Governor, with having been unfavorable to Woman Suffrage were recently sent through the mail to many of the women of Milam county who will participate in the Democratic Primaries. It appears that this character of political propaganda is resorted to by some of those active in behalf of Mr. R. E. Thomson, one of Mr. Neff's opponents.

However, this charge against Mr. Neff's record on the woman suffrage question is quite completely exploded by more than four thousand men and women of Waco (neighbors of Mr. Neff and acquainted with his record) who make the following statement in print, to wit:

"Mr. Neff has always been an advocate of Woman Suffrage and has never opposed the same; and in all of his public speeches where that question has been in issue, he has advocated it. He believes and always believed that women should have an equal right to vote with the men."

The charge that Mr. Neff opposed Woman Suffrage is further refuted by the conceded fact that in his home city and country his support will be practically unanimous among the women, as well as among the men.

Newton Store News

We have just received a lot of romper and play suits for the little boys and girls.

A. R. Graham left a dozen jars of very fine honey with us to sell our customers. We do not expect them to remain unsold very long.

Uncle Tom Hurt from Lexington paid us a pleasant visit Thursday, and tells us that crop conditions are not anything extra in his part of the country. He will visit here this week among relatives and friends.

We carried over from last year about forty or fifty men's and boy's straw hats which we have thrown out on our bargain counter to sell at prices ranging from 25c to \$1.00. Most of them are worth several times the amount asked for them, and are still good style. We are selling quite a lot of this year's straws, but have some good numbers left yet.

If there is any one thing that we now have plenty of it is overalls. Two of the best standard brands—Blue Buckle and Paymaster. We also have a good stock of overalls made of the same grade denim, but brown in color, that we able to sell at a less price than the blue, simply because they are brown instead of blue. Have a full line of sizes in boys' overalls.

The following ladies were among those shopping with us this week: Mrs. John Luce, Mrs. Rebecca Bullock, Mrs. M. J. Morgan, Mrs. J. B. Holland, Mrs. W. R. Dennis, Mrs. S. E. McGregor, Mrs. Ed Robinson, Mrs. T. C. Andrews, Mrs. Willis Smith, Mrs. W. F. White, Mrs. D. H. Harcastle, Mrs. Luce, Mrs. John Reese, Mrs. W. M. Dees, Mrs. Jeff Mills, Mrs. Henry Darden and sister, Mrs. Martha Johnson and Miss Alice Olinger.

Our new goods this week includes some Duchess blue serge trousers and other patterns of boys' and men's Dutches trousers.

Mrs. John Walker and her daughter-in-law paid us a pleasant visit Thursday and told us they were now moving from east Texas to west Texas.

One of our old time customers, W. W. Woods, was in our store yesterday on his way to the sanitarium for an eye operation. We wish him a speedy recovery.

When you come in Saturday look over our bargain and remnant counter; you will likely make some purchases that you did not intend to make. Some mighty good bargains will be spread before you. Everything marked in plain figures.

S. E. McGregor gave us a tomato this week weighing eighteen ounces. He has lots of large ones, and so has G. W. Butts. Mr. Butts has tomatoes so large that he finds it difficult to crate them. Brought in several crates that he had to leave out the baskets in order to get them in the crates.

We spent a few days last week looking at some of the crops around Milano. We found some very sorry ones with lots of grass, but most of them show better promise for a good crop this fall than we have seen for many years. Cotton is as good as made and cotton could hardly look better where it is clean. The weevil is working hard and fast but if we have some dry weather we are bound to make some cotton. Most of the farmers tell us that they are going to do late ploughing with brush to singletrees and cultivator, and we have much faith in this method.

Civic Improvement Committee Wants The Weeds Cut

The Civic Improvement Committee of the Milano Commercial Club has been trying for some time to inaugurate a cleanup campaign for Milano, or at least try to get the people to cut the weeds down around their places of abode. The committee has been rebuked a time or two in its efforts, but the town needs a weed cutting stimulus according to the opinion of a number of citizens who are constantly reminding other people about the bad appearance of the weeds over town. One member of the Improvement Committee wanted to know if the town would stand for \$10 worth of labor a day to have the weeds cut, and the opinion was expressed that it wouldn't pay the price. If people won't cut their own weeds around their home, it is doubtful if they would donate any money to have them cut by other people. Our suggestion to the Improvement Committee is to issue a mandate proclamation urging the people to cut the weeds. We believe the populace is intelligent enough to understand that such a summons is a mandatory law of civic pride and good health.

Young Folks Gathering Helps The Piano Fund

Mrs. S. W. Taylor entertained a large crowd of the young people of Milano at her home Wednesday afternoon from 4 to 6 o'clock, the occasion being given for the benefit of raising funds to offset an indebtedness of \$67 due on the Methodist Church piano. Invitations were sent out enclosed in a little sock asking for a penny for each year that the recipient had attained in age. The sum of \$20 was thus realized.

Cattle Dipping May Be Finished Up This Year

Cattle which show ticks on and off August 1st in Milam county will be placed under local quarantine at the end of this season and owners of the cattle will be required to dip them next year. Cattle which are exposed to ticky premises and herds will also be subject to the dipping and quarantine regulations. Milam county is reported to be in good shape to be released from federal quarantine on December 1st. There still remains about 4 months of the dipping season, and if all the cattle owners will see that all their cattle are dipped and help the dipping along in others ways to see it is enforced, then the county will have a favorable chance to get the quarantine lifted after this year. If the people fail in dipping the county can't be released next year.

Says The Weeds Need Cutting Over The Town

Mr. T. H. Paul says: If anyone wants to know where he or Mr. F. A. Tally lives, just tell them that they live over there where the weeds are cut down in Milano. Yes indeed, those two citizens got busy the other day and cut 'em down. And since they did so a few other folks have done likewise, but the infection, according to Mr. Paul, seems to be mighty slow. He wants to see it spread rapidly so the town will look better and be more healthy. Cut the weeds and dress up Milano.

Gin Manager Reports Cotton Crop Looking Favorable

Mr. J. A. Touchstone, one of the best authorities on the cotton crop conditions over the Milano country, reports that prospects for the cotton crop are brighter just now than they have been in several years. The boll weevils, he says, seem to be everywhere and quite plentiful, but evidently they are not as bad or destructive as is the general supposition. Mr. Touchstone recently made an inspection tour over the country and reports having seen some mighty fine cotton fields, some of which were practically clean of the boll weevil, while others were badly infested but had some chance of making a partial crop of cotton.

Suit Case And Contents Scattered Along Track

Mr. H. O. Graves found a torn up suit case on the I. & G. N. rail road track early last Saturday morning just east of the depot with its contents scattered round about. He notified Constable W. E. Peel who investigated the matter but has not been able to hear anything from the owner. The grip appears to have been run over or dragged by a train. How it got there is a mystery but it seems that it was perhaps dropped from a train. Among the contents were two razors, a pair of shoes, socks, several photographs of a Mexican youth about 25 years of age, and a letter addressed to Dabid Preeiada. The letter has been addressed to Waxshacin, Texas, then forwarded to Eanis, and then Texarkana, where it had been received by the person addressed to.

Hearne Democrat On Race For Governor

"Mr. Thomason is unquestionably the one appointed by the inner circle of the present state administration, including the administration machine and the appointees, to succeed Governor Hobby and perpetuate the present policies and official family."—Hearne Democrat.

It seems from the above that the Editor of the Hearne Democrat, Mr. J. Felton Lane, an able lawyer and a well informed newspaper man, has the political situation pretty well sized up. On the editorial page of his excellent paper, Mr. Lane further suggests that the plain Democrats from the towns, from the farms and from the various walks of life will name their candidate for Governor on the fourth Saturday in July and states: "In our humble opinion it will be an overwhelming endorsement of the plain Democrat from Waco, Pat. Orchid Crossbreeding

While orchids from the wilds have remarkable and interesting characteristics, they are being rivaled and surpassed by new forms produced by hybridization in the greenhouses of experts. Now, the hybrids are many in number and are supplanting the older varieties in part because of their exquisite beauty of color and form, their increased fragrance and their greater ease of cultivation. It is slow work, the crossbreeding of orchids, but it is marvelously fascinating.

Good roads he said, was the one greatest asset that Milano and the Milano country possessed. "Your second

greatest asset," he continued, "are your schools and the educational boards." Our roads need working he says, and if we can't build good roads until the road bond money comes in, we can at least keep up the old roads in repair until we do get the road bond money. Repair the old roads is the slogan just now.

Three Kinds Of Pests Should Be Cleaned Up

Mr. J. A. McEllen says: There are three kinds of creatures in this country which ought to be by all means exterminated. They are rats, the sparrows and the cotton-tail rabbits. All three of these are worse than any other kind of pests and they cause the farmers of the country enormous losses by their depredations. The sparrows, he says, are a nuisance more than anything else, and says if the people would set a certain day on which to set out poisoned food for them they could easily be completely killed out.

Mr. and Mrs. G. E. Mullins and children of San Antonio are visiting relatives in Milano this week, guests at the homes of Mrs. G. W. Mullins and Mrs. J. P. White.

Sergeant James Baggett came in home last week and is spending his annual ten days vacation with the home folks. He is still located at Elgin where he is section foreman for the Katy rail road company.

Mr. and Mrs. W. T. Burdick and little daughter and John Hooker, all of Taylor came over Sunday and spent the day at the home of Mr. and Mrs. W. F. Hooker. J. D. Hooker of Hearne was also home Sunday.

Mr. and Mrs. S. B. Smith and family of Bedias, and Mr. and Mrs. Ike Neeley and family of Iola, were guests of Mr. and Mrs. G. J. Neeley in north Milano Tuesday and Wednesday. The former is a sister and the latter a brother of Mr. Neeley.

Mr. A. B. Francisco, a former citizen of the Milano country, but lately of Houston, was registered at the Hudson Hotel this week. Bro. Francisco is a former preacher and left Milano about 19 years ago, and has lived in Canada and other northern points. He is thinking of locating somewhere in the Milano country again, and we understand he is figuring on a deal to buy a home in the Liberty community.

Judge Criswell In The Race For Representative

Judge D. R. Criswell of Buckholts, candidate for County Representative, wants the people at Milano and over the Milano territory to remember that he is in the race. Judge Criswell stands for everything right and against anything that is wrong, and he believes that he can do a world of good for all humanity if the people of this county will send him to the State Legislature to direct the destinies of our future laws and of our state government. He solicits your vote and influence and will appreciate your support.

Newton Store News

Miss Maude Hildebrandt was a pleasant visitor this week.

If you happen to need over-shoes this rainy weather we have them.

Folks must be travelling this year; we have sold three large shipment of suit cases, and have just received our fourth shipment. We are ready for the summer travel and for those going away to pick cotton.

Our old friend Edgar Newton dropped in on us for a few minutes one day this week. He is now living at Clifton.

We have a good supply of chevots and gingham for shirtings and dresses which were bought right and we are selling at good prices.

Be sure to register at our store when you come to town. Make our store a meeting place to find people if they are in town.

T. B. Reese of Austin was in to see us and other friends of his here this week. He wants us to vote for his friend Wiggins for Comptroller. We think we shall do it and we hope that he will in turn vote for our friend George B. Terrell for Commissioner of Agriculture.

A few men's summer union suits at one dollar each are on our bargain counter this week, also some boys' undershirts at the very low price of a quarter of a dollar each.

We have some nice dressy men's and young men's blue and brown serge suits. If in need of a summer suit look these over.

Say men! If you are going to need a new pair of shoes soon why not take advantage of our very close prices on oxfords and low quarter shoes? You will have several months yet in which to wear them, and you can not buy shoes anywhere that will compare in value. If you want lots of service for the dollars you spend on footwear buy some of these shoes. Nearly all of them are Star Brand.

European Flowers.

An authority on botany estimates that the number of species of flowers cultivated in Europe is 4,300, of which 420 possess an agreeable perfume. Odors are most likely to be found in flowers, having white or cream-colored petals, then yellow, red, blue or violet in order.

Jap Children Make Toys.

Japanese children are responsible for a great deal of the cheap toys which are sent from that country to this. The children are rounded up in groups of a dozen or more and they devote nearly all their time to the work for which they receive a few cents a day.

Jim York Says Remember He's In The Race

Mr. Jim L. York, candidate for County Commissioner, was in town Wednesday on his way to the Rockdale country. Mr. York says if the people of this commissioner's precinct elect him Commissioner he will assure them right treatment in both beats 3 and 4, and give each of the beats what is rightly due them. He believes in being fair, square and honest in all matters pertaining to the office to which he asks the people of this precinct to elect him. He solicits your vote and influence and will appreciate all such support.

Bro. C. H. White Issues Last Appeal To Voters

Rev. C. H. White, candidate for County Representative, wishes to call the voters' attention to his candidacy before casting their ballots this Saturday. Bro. White says he can give the people his assurance that if he is elected he will make them a Representative "of, by and for the people." He advocates some reforms of rail road shipping and will put forth his best efforts to correct the traffic evils. He believes a Representative should be governed by the wish of the majority of his people and this he proposes to do.

New Burning Sulphur In The Cotton Fields

Mr. J. H. Burnet, who recently purchased a thousand pounds of sulphur with which to fight the boll weevils and other cotton pests, reports that he believes it is a good way to fight the weevils. The one great trouble about the sulphur is to get it to burning just right so it will make a smoke. If the wind is blowing too strong the sulphur will blaze up without doing much good. This week Mr. Burnet has been trying to melt some of the sulphur for moulding candles and experimenting in other ways in the burning of it.

Had To Muffle Telephone In Her Home

"For the benefit of thousands who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from Tanlac," said Mrs. Lena Swanson, of 1720 North Madison St., Peoria, Ill.

"It was eight years ago that my stomach got out of order and my health began to fail," she continued. "Finally I got to feeling so bad that I lost interest in everything and got no pleasure out of life. My food acted like poison to my system and I would bloat up with gas and suffered agonies. My heart would flutter until I was almost faint and at times I would get so dizzy the house seemed to be whirling round. I had to almost stop eating and became so weak it was all I could do to get about the house. My nerves were so shattered even the ringing of the telephone upset me and I had to muffle it. I slept very little and seldom woke up in the morning without a dull, nagging headache."

"My brother had gotten such fine results from taking Tanlac that he talked me into trying it and I improved remarkably with the very first bottle—got so I could eat and sleep better. Now after taking five bottles my friends tell me I am the picture of health. I can eat anything, even boiled meats, cabbage and pickles without a bit of trouble with my stomach. My nerves are calm and I sleep like a child every night. I have gained twenty pounds in weight and I never grow tired of praising Tanlac."

Bits Of News From The Oakdale Country

Frank Fisher was attending to some business in Milano Monday.

Mr. and Mrs. E. J. Fisher had their son Jim Fisher of Rosebud with them last week.

Ed Hause went to Somerville Sunday with Hugh Wimberley to do some rail road work down there.

Jim Wimberly of Clarkson spent the week-end with relatives here. He spoke very nice of our country.

Mr. and Mrs. Eugene Hause went to Gause Saturday to see Mr. and Mrs. Springer, returning Sunday.

Mr. Mike Taylor and Mr. Dick Westbrook of near Milano visited at the home of Mr. and Mrs. C. M. Hensley last Sunday.

T. L. Randolph of Maysfield and E. M. Boyd of Walkers Creek went to Somerville Saturday morning and returned Monday, and on their way they stopped with Mr. Sid Hause, who is a relative of theirs.

Mr. and Mrs. W. T. Byrdick and little daughter and John Hooker, all of Taylor came over Sunday and spent the day at the home of Mr. and Mrs. W. F. Hooker. J. D. Hooker of Hearne was also home Sunday.

Services At Methodist Church Sunday Morning

There will be services at the Methodist Church this next Sunday morning at 11 o'clock by the pastor, Rev. R. O. Wier. There will be no services at the evening hour on account of the Nazarene meeting. Last Sunday was Bro. Wier's regular appointment, but as the revival was under way he gave that Sunday to the Minerva church. The public is invited to attend.

The Governor Race As Voted On At Cameron

Following are the figures in the governor's race as voted in Saturday's election at the Cameron box:

Second Election Needed For The State Nominees

Election returns from over the state indicate that J. W. Bailey received the largest vote for governor by a plurality of several thousand votes, with Pat Neff running second, R. E. Thomason third and B. F. Looney fourth. This means that Bailey and Neff will have to make a second race for the nomination in a run-off election which will be held over the state Saturday, August 28th. Lynch Davidson and W. A. Johnson are the two leading candidates in the Lieutenant Governor race and it seems these two will be the run-off candidates. George B. Terrell seems to have been elected as the nominee for Commissioner of Agriculture. The home ownership amendment has carried over the state by a majority of about 2 to 1. Complete state returns will not be available for another week or more.

Commissioner Phillips Is Re-elected Nominee

In the race for County Commissioner the returns show that O. K. Phillips of Rockdale is the elected nominee by a plurality of about 8 votes. The Rockdale box went almost solid for Mr. Phillips, he receiving 195 votes and Mr. York 12. But over the precinct Mr. York made a wonderful race. Omitting the Bushdale box which had not been heard from, Mr. York received 294 votes and Mr. Phillips 292 votes, and the presumption is Mr. Phillips got enough votes from Bushdale to elect him by perhaps a very few votes, something like 8 or 10, if the count proves correct. This was certainly a very close race.

Cotton Growers Are Called To Meet At Milano

A farmers mass meeting will be held in Milano on next Tuesday, August 3rd, at 2 o'clock at the I. O. O. F. hall for the purpose of agitating the cotton seed selling problem. Similar meetings will be held all over the county. The Milano meeting has been called to gather thru the suggestion of the Milano Commercial Club in connection with a call issued by President J. A. Bailey of the Cotton Growers' Association of Milam county. Cotton seed is now selling from \$17.50 to \$30 per

ton, and considering the price of cotton seed oil, meal and hulls, this is not a fair price. So if you are a cotton grower and want to get all that's coming to you for your cotton seed, you are asked to attend this meeting, when delegates will be selected to attend a County Convention at Cameron on August 9th, which will take such actions as may be deemed advisable to protect the farmers against the ruinous and ridiculous prices that are now being offered them for their cotton seed.

Says It Is A Fact That Rats Walk The Wires

Mrs. G. W. Beard was in town Monday and said she received a letter from her mother, Mrs. M. E. Harrell, who is now visiting at Waco, in which she stated that since she has been in Waco she can confirm the statement the Gazette published some time ago about a rat walking the telephone wire in Milano. She says rats are so numerous in Waco that they can be seen everywhere and the telephone wires seem to be sidewalks for them. Mrs. Beard reported the rats very numerous out their way also, and says they have been catching them by the dozens, but there seems to be no end to the tribe.

Enjoy Big Tour Over Central West Texas

Mr. and Mrs. Bruce Stewart and children returned home Thursday night of last week from a two weeks' automobile tour over a considerable portion of Texas. They went from Milano to Temple where they visited Mr. and Mrs. J. D. Grady, and from there they went to Waco and Fort Worth where they visited Mr. and Mrs. R. J. Stewart, and who then joined and accompanied them in their car to Breckenridge, Albany, Abilene, Ballinger, San Angelo, San Antonio and from there on homeward. At San Angelo they said tomatoes were selling at \$2.50 a crate; at Breckenridge they found water very scarce, and enroute they paid as much as 40 cents a gallon for gasoline. At Ballinger they visited an aunt and cousin of Mrs. Bruce Stewart whom she had not seen in 30 years. They camped and fished enroute when they felt the inclination and reported having seen some of the most beautiful country and scenery they had ever looked upon. When asked what section of the state over which they traveled they thought the most beautiful, Mrs. Stewart said Buffalo Gap in Bosque county, a rich black land country. Mr. Stewart had no speedometer to register the mileage of the trip, but as an estimation of the trip the his car must have covered somewhere between 1200 and 1400 miles.

E. D. Mobley has taken his children to his mother's for a while. They are still suffering from fever but think they are some better.

Miss Millie McMillen is quite sick at present. She has been in feeble health for several years and we hope to see her up again soon.

Mrs. Helton and grand daughter, Miss Thelma Baker of Dallas, were visiting the families of J. R. Arledge and J. H. Thompson last week, and so was Mrs. Cherry of Cleveland.

Mr. and Mrs. Ike Hunt were visiting at the J. H. Thompson home last week and were trying to find a home to buy, but they sound nothing here for sale that was suitable.

The supervisor of our dipping vat did not come on our last dipping day, but we dipped just the same. We think he ought to get around or else stop his pay and leave us alone to take care of ourselves.

We see much in print about how to exterminate the boll weevil, but there seems to be somethin in the way with everything that has been tried, and as we have used the spray which the experts of 1900 said was dead shot until we found it no good, we are wanting to see something that is a success. The only way I can keep the weevils out of my cotton is to not plant any, and I am exception to the rule. "Napper."

Local News Items Round About Town

Mrs. J. S. Beard and children are visiting relatives over at Hix this week. They went over there the early part of this week.

Mr. S. E. McGregor came in town Thursday afternoon with something like a dozen crates of tomatoes. He has had pretty good success with his tomato patch this season.

Mrs. T. H. Almon and children expect to leave this Friday or Saturday for Dallas where Mr. Almon has recently located. She will stop over at Temple a few days where she will visit relatives.

Mr. L. T. Hughes received a phone message Tuesday morning from Taylor stating that his mother, Mrs. H. E. Hughes, was critically ill and asking him to come at once to her bedside. He left on No. 3 at 1 o'clock. Mrs. Hughes is a lady 64 years of age and her health here of late has been very poor.

Mrs. John Beavers and children arrived in Milano last week from Oceanside, California, and are guests of Mrs. Joe Ed Beavers. They look for John to get here in the next few days and they will then make their many old time friends. They left Milano about two and a half years ago and have lived in southern sunny California all that length of time.

The Nazarene camp meeting is still in progress at the Nazarene church grounds. The meeting will likely close Sunday night, which will be a duration of 16 days. The two lady preachers, Mrs. Williams and Mrs. Eupha Beasley, are still drawing large crowds each night. A week after the meeting closes here the two ladies will go to Ballinger, conduct a meeting there to the 22nd. The group about this week ceasing each evening.

Amos Wolf says: The great profiteering of the present is the outcome of what was in the schools to children years ago. The cry then was education and the ones who rejected that education are the ones who are now profiteering upon the world. But when it comes to making a living and producing the necessities of life, the man who has no high education is the man who holds the world at stake. The time has actually arrived when education will not make a man's living.

Circassian Walnut.

Circassian walnut is sold by the pound or the ton and not by the foot. As early as 116 B. C. it was introduced into Italy from Persia. The logs are sold from the forest with their bark on. Only the heart of the wood is used, and it is the crooked, irregular logs that possess the best figured wood.

Malady of Doubt.

There are plenty of people who think that to doubt everything shows common sense and shrewdness, whereas it may indicate only a narrow-mindedness. But there is an uneasy doubting of one's self which, if not resisted, may become almost a disease. Often, though perfectly sure that we did lock the door, or deliver an injunction, or put a memorandum in our pocket, we nourish the doubt all day, or turn out our pocket on our way to work. One symptom of this malady is the hurried, worried search for a missing article in every place save where it usually is, and the astonishment at finding it there.

Town of Historic Interest.

While the name, Norristown, calls to mind that this place is the home of the state institution for the insane, it is also well to remember that it is historically interesting. Here can be seen the old Swedes' ford of the Schuylkill river, where American and British armies crossed many times during the Revolution. On Main street is located the home of Governor Hartranft. Here, too, is the Seven-Star tavern, established in 1734 and famous during the Revolutionary war and on this same street was located the home of General Hancock, of Civil war fame.

Ethics and Epigram.

"There's nothing holier in heaven than your own little job," and "The man who fills his little niche on earth in the very best way that it can be filled, is as good as any angel in heaven," are two sayings which sound like different versions of the same epigram of Rev. Robert J. MacAlpine in his address to the Kiwanis club. Whether Pastor MacAlpine said both these things, or only one of them, he put a grand truth in a crisp form. Honest, efficient work is not only a worldly utility but a high moral function.—Buffalo Times.

Newton Store News

Mrs. J. H. Aschenbeck was a pleasant visitor this week.

Miss Annie Holly and Miss Nannie Wise of Rogers, Texas, were in our store this week.

Mrs. W. A. Smith and Mrs. J. T. Morgan of Smyrna were visitors in our store this week.

Mrs. B. N. Ashley and Mrs. E. H. Hairston were among those that visited our store this week.

We have a number of good bargains on our bargain counter this week. Be sure to look them over when in our store.

We still have a few men's union suits which we are selling for one dollar each. Also some boys' undershirts at the low price of 25 cents each.

Mr. and Mrs. D. G. Greenwood were in Milano trading this week.

We have a large stock of overalls on hand and we know that we can fit you. And our prices are right.

Mr. and Mrs. M. of Gause, were trading in Milano this week. We are always glad to have these good people come and visit at our store.

Those of you who have lived in the Milano country for several years and especially in the Hadover neighborhood will remember A. B. Francisco. He pleasantly surprised us with a call last week. He is the same jolly good fellow as of old; looks a little different on account of being mingles a mustache, but not any older. He is living in Beaumont, but spoke of intending to move to Houston in the fall.

Bird of Ill Omen.

The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

For Age Computation.

To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multiply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

Our Pin Oak Letter Happened To Serious Accident

The Gazette is short a newsy letter from our Pin Oak writer this week, and here is the story of why it failed to appear in this issue:

Tuesday morning's mail consisted of a usual and liberal supply of mail that is nothing but waste paper stuff, a lot of rot that newspapers never pay any attention to, and in throwing the rubbish in the waste basket our Pin Oak letter accidentally went along unnoticed. That letter of news was like a precious gem dropped into the sea.

It was lost, for the waste basket's contents were an eyesore to us and we snatched it up and set fire to it, and the precious Pin Oak news letter was thus destroyed. An hour or two later we got ready to put the letter in type and not being able to find it we came to the conclusion it was thus destroyed. But perhaps our good Pin Oak writer remembers most of the news it contained and if she writes again next week we assure her and our readers that it will be specially guarded until set in type.

Never Intends To Be Without At Any Time

"I was entirely relieved my of troubles four years ago by Tanlac and have enjoyed the best of health ever since," said Edward Ball, a well-known farmer who lives on Route 3, Box 8, Duluth, Minn.

"For two years I had the worst sort of stomach trouble and rheumatism," continued Mr. Ball, "what little I managed to eat would sour on my stomach and I was so nauseated after nearly every meal I could not retain a thing. I would suffer terribly from gas and, to add to my other troubles, I was taken with the rheumatism in my legs and knee joints and got in such a bad fix I could hardly get up are down.

"After trying a lot of other things which did me no good I started taking Tanlac and, believe me, I soon felt like a new man. My appetite came back and I could eat anything I wanted without it hurting me the least bit. The rheumatism left me entirely and, as I stated before, although this was four years ago I haven't had a trace of bad health since. I always keep Tanlac in the house and once in a while take a little, for I believe it will keep anybody in fine shape and I am always recommending it to someone."

Bits Of News From The Oakdale Country

Clyde Fisher is still sick according to reports we have heard.

Mr. and Mrs. Elmore threw open their doors last Friday and Saturday nights to the young people of Hoyte and Oakdale for a good time.

There were six or eight of our men who went to Milano Saturday but did not vote. I told them that they were not democrats.

Frank Fassel, Jr; received a card from Elbert Oneal a few days ago stating they were at that time in Fort Worth on their auto trip.

Mrs. W. F. Hooker and her daughter, Mrs. W. T. Burdick, came out from Milano some few days ago to visit at the home of Mr. and Mrs. Clyde Hensley.

Miss Minnie May Foster of Hoyte has returned home from Huntsville where she had been attending the Sam Houston Normal school. She came home with her credentials to teach and I hear she has secured the Hoyte school for the next term.

Hal Lyon and Master Reichert of Sharp came over one evening last week in their big truck, stopping at the Sid Hause home that night, and early the next morning they herded up the cows which Mrs. Lyon has had here about two years. They were loaded on the truck and the trip back to Sharp was made.

Mrs. J. H. Aschenbeck son Theo left last week for Whorton, Texas, near the gulf coast to see one of her sons who has lived there for many years. Eugene Hause received a letter from Theo Saturday telling him to look for them when he saw them coming, and also said the road between here and Cameron was fine compared to some he had been traveling over in south Texas.

"Scapa Flow."

In Scotch the word scapa means "head" and flow means "sea." Scapa flow is the portion of the sea in the southern part of the Orkney Islands which extends from Pomona to the Pentland firth. It is fifteen miles long and about eight miles wide, and opens by Hoy sound in the northwest joining Pentland firth in the south near the island of Skona. The term scapa may perhaps be traced to the Gaelic agapadh, to scatter, spread.

Local News Items Round About Town

Mrs. C. F. Rumpel and daughter, Miss Augla, of Austin, are guests Mrs. J. O. Newton this week.

Mrs. G. W. Hilliard spent a few days at Sealy, Texas, during the week-end with Mrs. J. W. Mullins.

Mr. J. D. Peebles, Jr; went to Brenham Monday where he went to purchase a new Ford car. He returned the next day with the car.

Mrs. Rinda Duncan and daughter, Miss Ethel Pearl, returned to their home at Glen Cove, Texas, Sunday after a several days' visit here at the home of her brother, Mr. J. M. Cave and family.

The Newton ranch lost a very valuable registered hog last week which is believed to have cost the owner \$150 when purchased, but was worth much more than that sum of money to the Newton farm.

"Could Have Shouted For Joy" She States

"I am so happy, I feel like shouting for joy and I simply have to tell everybody I meet what Tanlac has done for me," said Mrs. W. Knebell, of 619 Matthew Street, Peoria, Illinois. "Just a short time ago I was such a perfect wreck that I saw no hope of enjoyment in life," she continued, "and today I haven't a trouble of any kind."

"Even as a girl I was never strong and healthy and as time passed new troubles sat in. Every bite I ate hurt me and I would have severe cramps, gas formed and pressed around my heart so bad I had to fight for breath. My kidneys caused me to have backache until I thought it would drive me distracted and if I tried to stoop over my back felt like it would break in two, and even the weight of my clothes hurt me so much I had to have them made so their weight was all on my shoulders. When I tried to sweep the floor or cook a meal I became so weak and dizzy I had to lie down, and my nerves were so shattered I could hardly ever sleep at night. This was my condition for twenty long years—not one day, but every day and I could never get any pleasure out of life."

"When you go this way year in and year out and then find a medicine like Tanlac it just seems too good to be true. My appetite is now splendid and I eat heartily three times a day without a bit of trouble afterwards. My kidneys never bother me any more and the pain in my back has disappeared entirely. I never have dizzy spells now and my nerves are so steady I sleep all night like a child. I am so

Dove Figure

The dove or pidgeon is a prominent place in the Bible and history since the bird olive branch to Noah. The artists used the dove frequently in their religious paintings. The dove and Child, and the angels shown with white pigeons fluttering about them. The bird was made the symbol of divine spirit. It appears in pictures of Christ's life and baptism. St. John (1:32) says: "I saw the spirit descending from heaven like a dove."

Bob Hairston left Wednesday for Temple where he went to look around and see whether he wants to reside there or not. He's also got a hankering notion of going back to Sugarland if things at Temple should happen not to suit him.

Figures in the Moon.

Some keenly discerning people see a woman alongside the man in the moon and account for her presence there by her churning on Sunday while the "old gentleman" chopped the wood. A pretty eastern fancy is that the figure in the moon is that of Ina, who weaves the clouds into white cloth and who sent her husband back to earth by the rainbow ridge in order that death might not defile her heavenly home.

Newsy Items Of The Liberty Community

Mr. and Mrs. John Mills were visiting relatives near Hanover Saturday and Sunday.

Miss Ada Belt of Prospect was the guest of Mrs. S. M. Bullock the latter part of the week.

Mr. J. K. Miller visited at the home of his daughter, Mrs. J. D. Turney, near Hanover Monday.

Mrs. A. J. Gunnels and two children have returned home from a week's visit with relatives at Rogers.

The Baptist revival is still in progress at the school house here and Bro. McClung of Waco is preaching some good sermons.

Mrs. H. R. Hairston and children of Milano were visitors at the Hensley home Saturday night and remained over during Sunday.

Mrs. Edna Trigg of Denton was the guest of her mother and niece, Grandma Westbrook and Mrs. Lola Spaulding Saturday and Sunday. Mrs. Trigg is always a welcome visitor in our settlement.

Dan Miller, who has just gotten out of the hospital at Wichita Falls, was visiting relatives here last Friday and Saturday. He still has to use crutches, as his knee is in a very serious condition, but we hope that he will soon get well again.

Many of our farmers were disappointed Monday as they went to Cameron to attend the farmers cotton seed meeting and found Little River overflowed so badly that they could not get across. Some few took chances and forded the flooded section of the road but the rest of them came back home.

St. John's Writings.

There is satisfactory evidence that St. John, the beloved brother of James and son of Zebedee, was the author of the Gospel, Epistles and Revelations ascribed to him. The Revelations were written during his exile on the island of Patmos; the Gospel and Epistles after his return under amnesty to Ephesus, where he was superior of the churches.

Newsy Items From Around Cedar Creek

Mr. and Mrs. Meadows spent Sunday at the Iiams home.

Mr. and Mrs. Dan Paschall are at Smyrna attending the revival.

Mrs. Bill Springer and children spent Sunday at the home of Mr. and Mrs. S. E. McGregor.

Mr. and Mrs. Clyde Jackson of Rockdale were guests at the home of Mr. and Mrs. Iiams Sunday.

Bob Smith has returned home from Hearne where he had been for medical treatment and attention.

Mrs. W. R. Dennis and daughter and Mr. S. E. McGregor and family attended church at Milano Sunday.

Mr. R. E. Lee and family spent Sunday in Milano where they were guests at the G. D. Hooker home.

J. C. Williams and family from Sand Grove were visiting at the Charles Williams home Thursday.

Mrs. W. L. Boothe and children of Rockdale were visiting at the home of her brother, Mr. Charles Williams and family last week.

THOSE WHO FORGET NOT

We acknowledge receipt of a half dollar from Mrs. C. S. Mowdy of route 1 for a Gazette subscription.

Mr. J. J. Morgan left a dollar with us Saturday for another half year's subscription to the Gazette.

Mr. D. W. Nickens handed us a half dollar Tuesday for additional renewal subscription to the Gazette.

We acknowledge receipt of a half dollar from Mr. T. P. Gunnels for renewal subscription to the Gazette.

We acknowledge receipt of a dollar from Mr. A. L. Graham of the Summit community for another half year's subscription to the Gazette.

Mr. Walter Yoakum handed us a half dollar this week for additional subscription to the Gazette. He says the Gazette is always a welcome visitor to his home.

Mrs. W. M. Dees left a dollar with us a few days ago for two Gazette subscriptions, one for herself and one which she sends to her son John, who is at Quantico, Virginia.

Mrs. W. F. Hooker left a dollar with us a few days ago for a Gazette subscription which goes to her sister, Miss Johnnie Hensley at Houston. Miss Johnnie has been here for several days and came up to see her grandmother who has been very ill in the Liberty community.

Owing to the unsettled paper conditions no subscription to the Gazette will be accepted for more than six months in advance. Many of the larger dailies are now following this same rule. The print paper situation is getting so serious and the price so extortionate that all newspaperdom can not solve the outcome of even the near future.

Former Milano Couple Are Married At Abilene

News reached Milano this week through friends to the effect that Mr. Wesley Woods of Brownwood and Miss Ottie Standard of Abilene were married last Saturday evening at 8:30 o'clock at Abilene. Both parties are former Milano young people and their many friends here wish them much success and happiness as they travel together through life's pilgrimage journey.

Mr. R. E. Thweatt was very ill a day or two this week but managed to be up again in a few days.

Says Cotton Speculators Are Taking Notice

Mr. J. H. Burnet says: The effect of the organizing of the Cotton Growers Association in the south is already effecting the cotton market fluctuations and the big cotton dealers are mentioning the Association in their daily market letters. These middlemen know that the cotton growers are getting ready to do their own selling. Yet there are many farmers holding back their membership from the Cotton Growers Association. This ought not be, he says, for the more members and the quicker they join, the sooner will the cotton growers get better prices for their cotton.

Robbers!

Robbers do not disturb people who have nothing. A man with a thousand dollars in the bank and only a check book in his pocket has nothing for robbers to take; yet his check is as good as the money which his neighbor carries in his pocket.

It is not safe to carry money on your person when among strangers. Neither is money safe in the house. Money in the bank is safe and is always available by means of a check book. And this assurance of safety costs you nothing.

We invite you to place your money with us on checking account. We offer a safe and convenient place of deposit.

Milano O. E. S. Chapter Enjoys Visit To Rockdale

Never in the brief history of its organization has the Milano Chapter, Order of Eastern Star, had a more enjoyable evening than the one spent with the Rockdale chapter on last Friday night, September 17th, when responding to an invitation to put on the initiatory work for that chapter, they having five candidates to receive the work.

Those who were fortunate enough to enjoy this occasion were Miss Ella Taylor, Mrs. Bodiford, Mrs. Elam, Mrs. Carmichael, Mrs. J. O.

Newton, Mrs. Coffey, Mr. and Mrs. S. W. Taylor. The Milano team received many nice compliments for the efficient work they rendered.

Following the business session a most delicious plate luncheon was served to 25 "Stars," and after an hour's social enjoyment the visitors reluctantly bade their Sister Chapter goodnight and at a late hour arrived back home in Milano. They are looking longingly toward the future for a repetition of this pleasant and most enjoyable occasion.

Are The Days Passing You By?

Is Your Family Waiting For The Comforts Of A Home?

Every day that does not bring you nearer towards owning a home of your own is a day that is lost. Are you any nearer to owning a home than you were last year? Would it have been wise to have built last year? Just think of the enjoyment you and the family would have been enjoying. Think about what you will lose if you fail to build this year. The days that go by are days of lost happiness. They are like mileposts of lost pleasure and comfort to your family. Are you ready to build this year?

Rev. C. T. Talley, Presiding Elder of the Marlin district of the Methodist conference, held services at the Milano Methodist Church Sunday night. Wednesday he held quarterly conference at Minerva.

Mrs. Roy L. Day and little babe of El Paso arrived in Milano Monday and is a guest at the home of her father, Rev. R. O. Wier and family. Mrs. Day is on her way to Laporte, Indiana, where her husband is locating and where they will make their future home.

Mr. W. T. Brooker was 71 years of age Thursday of last week, and to make the occasion worthy of attention a number of his and the family's relatives from different parts of the state came down and spent a few days at the family home. They also enjoyed a big dinner on Thursday and quite a family reunion was assembled together on this occasion.

Brother Of Milano Lady Is Very Sick At Gordon

Mrs. S. E. McGregor received a phone message Wednesday morning from Gordon, Texas, stating that her brother, Mr. John Segars, was very ill and that his condition was reaching a very critical stage. Mrs. McGregor said the message stated that he was very low and was still declining. Mr. Segars is well known in Milano and we hope his condition will take a turn for the better.

John Boggan has been seriously ill this week at the home of his parents, Mr. and Mrs. Wayne Boggan.

been treated for indigestion, Italy, Switzerland, South America and in over the world, but Tanlac is the only thing I have ever found to do me much good," said H. L. inniger, watch maker for Nathan Dehramann & Co., San Francisco, Calif., living at 36 Plato Street.

"Always after eating," continued Mr. Finniger, "I would have such cramps in my stomach that I could hardly stand it. I had fallen off until I weighed only ninety-eight pounds and was so nervous the least little thing would upset me. I could sleep but little and got up in the morning feeling all fagged out. My strength and energy left me and I felt like I would have to give up entirely. Besides taking everything in the way of treatments and medicines I tried dieting and the rest cure, but never got more than a little passing relief.

"The way Tanlac brought me out is marvelous, I can eat anything now without any trouble afterwards, I have gained twenty pounds and my nerves are steady as a clock. I sleep fine every night and get up in the mornings ready for a good breakfast and a full day's work, and am enjoying better health than I have in years."

Town of Historic Interest.

While the name, Norristown, calls to mind that this place is the home of the state institution for the insane, it is also well to remember that it is historically interesting. Here can be seen the old Swedes' ford of the Schuylkill river, where American and British armies crossed many times during the Revolution. On Main street is located the home of Governor Hartranft. Here, too, is the Seven-Star tavern, established in 1754 and famous during the Revolutionary war and on this same street was located the home of General Hancock, of Civil war fame.

Says His Pure Bred Pig Is A Growing Concern

Mr. G. W. Butts bought a registered pure bred pig from Mr. L. T. Hughes a couple of months ago, paying Mr. Hughes \$25 for it. Mr. Butts thought the price was big for a pig just 2 months old, but finding of registered stock he soon found out the pig is worth every he paid for it. The pig weighed 100 lbs when 2 months old and at this time it weighed 100 pounds, still growing more rapidly. Mr. Butts says there is no other pure bred pig but what pure bred pigs will pay no matter how much they will cost.

Bits Of News From Down About Summit,

Raymond Beard and A. S. Hurt butchered a nice beef last week.

Mr. G. W. Beard has erected a new front porch to his home.

Mr. Pinkney and T. Pruett have been down on the ranch helping to gather the corn crop.

Several members of the O. P. Lagrone family were very sick last week but are now better.

Miss Lela Franka of Waco was a guest of Mrs. G.W. Beard and family several days during last week.

Two men from Coleman county stopped at the A. R. Graham home last week. They were here on a visit and also looking for cotton pickers.

Misses Bernice and Mabel Beard are at home again from Austin where they have been through the summer. Miss Bernice will teach school this year at Marlow, while Miss Mabel will teach at Smyrna again, where she taught last year.

Mr. O. P. Lagrone killed a goat last Friday and sold it out at Milano last Saturday. He barbecued some of it which he sold at 50 cents a pound. The raw kid he sold at 20 cents a pound. He says barbecued meat losses over half in weight when it is barbecued.

We are glad to hear that Miss Annie Mae Pruett and Mr. Rossie Deen were married at Rockdale some few weeks ago. The bride formerly lived here in our community and we wish her and the groom much happiness and prosperity. They will live at Wichita Falls.

This writer has noticed for some time that other writers from around here are giving Summit news in Cedar Creek news. We believe the creek should be our line and that neither of us should cross over into each other's territory when reporting news from our communities.

There has been quite a lot of sickness in our community the past week or two. Sunday night of last week the phone line was kept busy ringing for several hours by parties calling for doctors. A Mexican at Elevation was sick, and A. S. Hurt's baby was very ill, also Mr. Bob Morgan at Smyrna was real sick.

Milano Is More Beautiful Than The West

Mrs. W. G. Allen returned home last week from an extended sojourn to Snyder and Santa Anna. Her mother, Mrs. Lutner of Caneron, accompanied her on the trip with the expectation of benefiting her health, but she still seems to be in a weak condition. Mrs. Allen reports the northwest a great country but she told Mr. Allen that Milano looked much better to her than any part of the noted western country, especially so because it was home.

Newsy Items Of The The Oakdale Country

Last Saturday night Mr. and Mrs. Jim Baker gave a candy breaking party at their home for three of the girls, celebrating their birthdays.

Sunday Mrs. Stewart came to see her daughter, Mrs. W. A. Belt. She and three of the children have been sick, but at present seem better.

Grand father Baker and two little grand children of Marlow came to see his son Mr. Jim Baker and family Sunday morning. They spent the day and returned that evening.

Brother Hodge has sold his crop and other things to Mr. Jim Baker and will go to Mr. Mallie Halpain's to pick cotton. He hears there is lots of cotton up there to pick and that they are paying a good price.

Mr. and Mrs. Sid Hause were in Cameron Saturday and while there met their cousin Walter Hause of Port Arthur. Jeff Smith was also there from Bell county. He used to live near us all here at Oakdale.

Mr. and Mrs. Victor Wimberly and son Marshall went to Cameron Sunday morning to see his aunt, who had written them that she was sick and wanted them to come, for she was anxious to see them. They reported a nice time, considering their aunt being sick.

Last Friday afternoon Mr. and Mrs. Sid Hause were in Milano, and while there Mrs. Hause met Mrs. Sallie Hensley of Houston who came to be with her sick mother, Mrs. Westbrook. She met Mrs. Gandy there and went out with her to where her mother lives at Liberty.

Last Thursday Mrs. Aschenbeck had a phone message that her grandson Walter Aschenbeck was in Milano and wanted them to send for him. They did so and then Saturday evening Mr. and Mrs. George Beckhausen of Rosebud came over and stayed until Sunday evening.

Last week Clyde Fisher had very bad news from his mother who lives at Travis, in Falls county. She had been taken to the Temple sanitarium for an operation and was in a serious condition, but at last reports she was getting along tolerably well. Clyde of course left here and went to her at Temple.

Lady Near Oakdale Is Badly Hurt By Falling

(By our Oakdale correspondent).
Our little neighborhood was excited Sunday evening when we learned that Mrs. W. M. Bailey had fallen against the side of a wagon and hurt herself very badly. She and her husband live on the Tom Henderson place and he is crippled up some but managed to get to the Beatty home and phone for a doctor. He relieved her to some extent, but have not heard how her condition is reported to be this morning.

About 20 cotton around the Milano cow the Odd Fellow hall. night to hear Mr. D. C. on the United Cotton Association. After the pre-trimental cotton situation explained and exposed a Milano of the Association was formed 7 of the farmers from among 20 became members. They paid their annual fee or dues of \$10 and as many more who wish to become members need only to give their application to the secretary, Rev J. P. Sparks. Mr. J. H. Burnet was made president of the Association. The purpose of this Association is to sell the farmers' cotton direct to the spinners, and when fully under operation it is believed the farmers will get from \$10 to \$25 a bale more for their cotton than they do today. It will eliminate some two or three middle-men who buy cotton and then sell it for a considerable profit, taking advantage of the cotton classer's ability and getting paid for both the grade and length of staple. The things Mr. Dove exposed in the shrewd buying of cotton are astonishing and would disgust any farmer with cotton growing. He commended the local or merchant buyers, for they are the men who accommodate the farmers by getting their cotton started for the market, but the middle-men are the cotton scalpers who get immensely rich buying cotton throughout the year. Mr. Dove reported 15 local organizations in Milano county with something like 140 members, and that there were so far 40 counties organized in Texas up to the state.

Ethics and Epigram.
"There's nothing holier in heaven than your own little job," and "The man who fills his little niche on earth in the very best way that it can be filled, is as good as any angel in heaven," are two sayings which sound like different versions of the same epigram of Rev. Robert J. MacAlpine in his address to the Kiwanis club. Whether Pastor MacAlpine said both these things, or only one of them, he put a grand truth in a crisp form. Honest, efficient work is not only a worldly utility but a high moral function.—Buffalo Times.

Still Grinding Corn At Milano On Old Basis

Mr. G. W. Butts says it seems a few people have gotten the idea that he is charging too much toll for grinding corn into meal at his grist mill and he wants to correct this false impression. He says he still charges the same amount of toll as in the days of yore. For a bushel of shelled corn he gives you back a bushel of corn meal, measure for measure bushel of shelled corn will measure a little more than a bushel of meal, and it is this "little m" that he keeps for toll. His charge for grinding is 40 bushel, which amounts to same as the toll charged sixth. Or Mr. Butts corn meal at 4c don't be afraid to him. He

Ray, R. O. Wier, Mr. S. W. Taylor and Mrs. L. B. Dukea went to Minerva Wednesday evening to attend the quarterly conference of the Milano and Minerva Methodist churches. They returned that night and made the trip to Minerva and back in Mr. Dukes' car.

The store of J. B. Newton & Sons has certainly been selling a big lot of shoes all this week. The management reports over \$100 worth of shoes being sold every day this week and empty holes are appearing on every shoe shelf. They put on a 20 per cent discount sale and the Milano people have been taking good advantage of the special reduction in prices. This sale will continue until next Monday night.

A fresh shipment of California grapes received this week at the J. C. Beard store at 25 cents a pound. Also a shipment of Elberta peaches came in this week. Advt.

Quarterly Conference Was Held At Minerva

The fourth quarterly conference of the Milano and Minerva churches met at Minerva Wednesday night. The financial report is as follows:

Milano church paid.....\$129.25
Minerva church paid.....\$ 93.15
Milano church still due.....\$227.35
Minerva church still due.....\$253.45

The Milano stewards assured the conference that Milano's arrearages would be paid, and another conference was called to meet on November 4th. S.W. Taylor, L. B. Dukea and Mrs. Dukea were selected as stewards for the ensuing new year.

Rather Slim Excuse.

Celia and Bobby disagreed, whereupon Celia slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

No Disgrace to Be Hypnotized.

An idiot or a person without considerable ability in concentrating his mind can not be hypnotized. The fact that one has been hypnotized is proof that he can hold his mind on one subject. It is, therefore, not to his discredit, but rather the contrary.

Kindheartedness.

The thing that Si Simlin's mule died of was kindheartedness. Si couldn't stand it to see anybody walk, so he kept the wagon loaded so heavy that the poor old creature got too feeble to kick and passed away.—Exchange.

Tropical Storm Plainly Felt Here In Milano

Milano, Sept. 21.—Reports from over the wires today at noon are to the effect that another tropical storm is brewing. The dispatches did not state whether the storm had already reached the United States or from what source it was coming, but the east wind blowing all day Thursday and the sky darkened all daywere evidences that the reports were true, but the storm went by without any great disturbance. The hurricane came in from the gulf and what part reached Milano made only a pleasant cool breeze.

Ladies Make \$18 Selling Luncheon On Street

The ladies of the Home Mission Society of the Methodist Church made something like \$18 Saturday serving lunch on the bank corner. They report having made enough now to clear the piano purchase fund, but with devote each Saturday to serving lunch for new funds for repair work on the parsonage.

THOSE WHO FORGET NOT

Mr. J. H. Elam handed us a dollar Tuesday for another half year's subscription to the home paper.

Mrs. J. E. Beavers left a dollar with us last Saturday for another half year's Gazette subscription.

We acknowledge receipt of a half dollar from Ray Woods for renewal subscription to the home paper.

Mr. L. B. Dukes handed us a half dollar the other day for additional subscription to the Gazette.

Mr. Claud White of the southern Milano country left a dollar with us Saturday for another half year's subscription to the Gazette.

Mrs. T. J. McGee left \$4 with us some few days ago for four Gazette subscriptions, one for herself and three which she sent to relatives.

Mr. H. W. Dukes left \$2 with us Monday for two Gazette subscriptions, one being for himself and one which he sends to his daughter, Mrs. E. B. Lovick at Wichita, Kansas.

Miss Esther Williams and mother, Mrs. H. H. Williams of Austin, left a dollar with us Thursday for a half year's Gazette subscription just before leaving for their home.

We acknowledge receipt of a dollar from Mrs. J. K. Miller for a half year's renewal subscription to the Gazette which goes to Mrs. Bob Davidson, route 4, Huntsville, Tex.

Mr. T. P. Gunnels handed us another half dollar one day this week for additional Gazette subscription. He says he's still busy picking 20 cent cotton out his way and we believe he's greatly discouraged over the price, and if we are not mistaken he's figuring on quitting, raising cotton and trying his luck in some new kind of kingdom and some other kind of vocation.

Mrs. W. J. Greene of the Pin Oak community handed us a dollar while in town Monday for a half year's renewal subscription to the Gazette. She reports the cotton crop on the Twin Mountain Home farm all gathered and says Mr. Greene sold it for 27 cents before the price went down to what it was this week. She said it looked like farmers would have to plant more peanuts and other such crops in or so much low-priced cotton.

We certainly would. "Would you call eating lobster and cream putting down a disturbance?" queries a correspondent.

Bridge Across Brazos Is Agreed To Be Built

Mr. O. D. Baker and some other prominent citizens of Milano county and a committee of business men from Hearne appeared before the Commissioners Court at Franklin last week and presented the matter of constructing an iron bridge across the Brazos River a half mile below the town of Franklin. This bridge would then open up the Reagan division of the famous Bankhead highway through Texas and running through Milano. The Commissioners Court at Franklin made the appropriation towards the construction of the bridge, the estimated cost of which is \$40,000. Robertson county's part will be one-third and Milano county's part one-third; the other one-third to be paid by the State Highway department.

Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and produced oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

Keep Your Saving System Going.

It is poor policy to figure to cut your deposit one week and make up the deficiency next pay day. This course will soon break up your saving system. You'll find. Get a little money ahead and then you will wonder how you could have enjoyed yourself a minute while you were never from one pay day to the next, constantly paying off your creditors, and without a cent to fall back on should you become ill or lose your job.—Norton Spirit.

The Brainty Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in opening the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Rierley.

Are You Thinking of Building A Home?

Is Your Family Waiting For The Comforts Of A Home?

Every day that does not bring you nearer towards owning a home of your own is a day that is lost. Are you any nearer to owning a home than you were last year? Would it have been wise to have built last year? Just think of the enjoyment you and the family would have been enjoying. Think about what you will lose if you fail to build this year. The days that go by are days of lost happiness. They are like mileposts of lost pleasure and comfort to your family. Are you ready to build this year?

General Election Day Is Only Four Weeks Off

The first Tuesday in November is general election day all over the United States of America. This is the day on which almost everybody votes and is the election at which several different kinds of ballots are to be voted on. Here in Milano and in the South as a rule, the Democratic ballot is always the one that looks best. It generally is the first column on the sheet that is handed the voter, while the second column is some other party's ticket, and so on to several more columns, all of which are to be scratched by Democrats expect the first one or the one marked "Democratic Ballot." Don't forget to vote on that day. Democrats are the most fair minded people in the world and they should not forget to vote.

This Saint Paul Man Gains Twenty Pounds

"By taking Tanlac I have gained twenty pounds and gotten rid of rheumatism that had troubled me for thirty-five years," said J. W. Carlson, of 96 Phelan Creek Street, St. Paul, Minnesota.

"I am now sixty years old," he continued, "and had suffered ever since I was a young man of twenty-five. During that time I had the very best of treatment and tried many different kinds of medicine, but got no permanent relief until I found Tanlac. I was in such bad shape last year that I was laid up for three months. I also had stomach trouble so bad that everything I ate caused me to bloat with gas and suffer for hours afterwards, often I had raging headaches and was so nervous I could never get much sleep. Finally I gave up entirely and never expected to be any better, but I began taking Tanlac and the way it knocked that rheumatism out was simply wonderful, and I haven't a sign of it left.

"My stomach trouble, too, has left me entirely, I eat three big meals every day, for I am hungry all the time and never have the least bit of indigestion. My strength has come back and it beats the world the way I am gaining in weight. I never felt better in every way in my life and it gives me pleasure to recommend Tanlac, for it will do just what they say it will."

Commercial Club Will Lunch At Next Meeting

Monday night, October 11th, a big blowout takes place in Milano. The Commercial Club will set'em up. Takes place at the Odd Fellow hall just after night-fall. At the last monthly meeting a committee of three was appointed to make the arrangements for the luncheon, and just what the bill of fare or the menu will consist of is not being given out. But we understand it will be worth while testing and worth anybody's while to be there. The Gazette only cites this so members will have a chance to get there and if you have a friend or a neighbor you have a fellow feeling for bring him along. Maybe he will take a notion after the meeting is over to join and become a member.

Brings Home Snake's Rattle As A Souvenir

Mrs. G. J. Neeley returned home last week from a trip to Belton where she visit relatives for several days. She brought back a rattle-snake's rattle as a souvenir of that country. She helped to kill the snake from which the rattle was taken, and if the opinion of "snake-ologists" is correct the snake was 12 years old, as there were an even dozen sets of joints on the rattle.

These envelopes are not of the small size handled by 5 and 10c stores or mail order houses, but are full standard size. All envelopes are mis-branded 1 inch less than actual measurement. This is done by the paper mills, but why, we do not know. These envelopes are branded 6 1/2 inch size and measure exactly 6 1/2 inch size. This size is used more extensively than all other sizes put together. It has been standardized as the proper size envelope for all purposes. We also have the plain white envelope in this standard 6 1/2 inch size at per pack - 10c

Newsy Items Of The The Oakdale Country

Marshall Garner and A. L. Chatman were in Milano Sunday.

Mr. Sid Hause complained all Saturday night with the earache.

One of the little Hooker boys from Milano was out in this part of the country Sunday morning.

Leo Harris stopped by the other night on his way to Cameron. He would not eat supper with us, but said he ate while at Milano.

Mr. G. W. Beaty, his daughter Mrs. Shelton and her two little daughters, Gladys and Masgie, were in Cameron to see the show Wednesday and report a very nice time.

Miss Tommie Morgan of Milano, who has been in Burlington several weeks, was in Cameron Saturday and said she was going back to Burlington again for a while longer.

Mr. and Mrs. A. L. Chatman had Sunday afternoon for company their cousins from Ben Arnold, Mr. and Mrs. McKinney and her sister, Miss Ruby Robinson and a friend all having come from Ben Arnold.

Miss Nell Hensley of Houston came up Saturday to see her grand mother, Mrs. Westbrook who has been in very feeble health. Mrs. Hensley was also here and they think that Grandmother Westbrook is some better, so they returned to Houston again last Sunday.

Salt Sand Drifts With Grass Tufts.
Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

Says Low Prices Are Disastrous To Farmers

(By our Liberty correspondent.)

My, my, what's to become of the farmer, especially the poor old tenant who has had to pay such high prices for food and wear all the past year and now has to pay for all this with cheap cotton? He is sure to go bankrupt. Something is bound to take place in favor of the farmer or half of the world will go unfed next year, for the most of them are saying they will only raise what their families can consume. There is nothing in it for the farmer to toil from day light till dark and get no profit for his labor, not even a good living, while the city man works for high wages 8 hours a day and lives on his luxuries and enjoys life. A change must take place.

Peculiar Armenian Custom.
American divorces might be decreased by the introduction of an Armenian custom which forbids a bride to speak to any man other than her husband for seven years, suggests a near East relief worker, writing from Erivan, Armenia.—World Outlook.

Says Democrats Must Now All Get Together

Mr. D. W. Nickens says: Now is the time for all good Democrats to come together and remain loyal until the election on November 2nd. The country needs Democracy and more of it and we need another Democratic National Administration. Such an administration is the friend of the poor people and of the working classes. Be and stay a true loyal Democrat, is his advice.

Local News Items Round About Town

Mr. W. G. . len was in town Thursday with a big wagon load of Porto Rico sweet potatoes which he sold to Mr. E. F. Evard.

Mr. J. E. Baker of the northern Milano country was in town Tuesday morning with a wagon load of sweet potatoes which he sold to the J. B. Newton & Sons store.

Mr. O. F. Tally, manager of the Turner Lumber Company, has been seriously ill for a number of days this past week. He was unable to be at his post of duty for several days and up to Thursday he was still unable to leave home.

Another meeting of the Milano local of the Cotton Growers Association was held at the W. O. W. hall Wednesday night and several new members were enrolled. Mr. D. C. Dove, one of the state organizers, was present and a good size gathering of Milano farmers and cotton growers attended the meeting.

Mrs. Julia Williams and daughters, Miss Esther, Ruby and Nona, of Austin, spent several days in Milano this week, guests of Mrs. W. M. Dees and Mrs. W. Boggan. Mrs. Dees and Mrs. Williams are sisters. They returned home Thursday afternoon and are the family of Mr. Harry Hampton Williams, all well known in Milano and their many friends were glad to see them.

Citizen Mr. W. H. Dukes has received an invitation from our former citizen Judge J. D. Ruby of Houston, asking him to come down to that big city during the Confederate Soldiers' Reunion there next week. He told Mr. Dukes that he would take good care of him and see that he didn't get into any trouble, and at last reports we understand the Colonel was dusting off his little old brown traveling grip.

Mr. G. W. Butts reports his cotton crop extremely light this year and doesn't expect to get more than two bales. He says he has just about come to the conclusion that it doesn't pay to grow cotton and he doesn't much care to grow it anyway, at least not as long as he can fatten a pig to weigh 150 pounds at the age of 4 months. This is the pig the Gazette mentioned in last week's issue as weighing 100 pounds at 3 months, but now it weighs 150 pounds at the age of 3 months and 25 days. It is a thoroughbred Poland China pig and bought from Mr. L. T. Hughes.

Newsy Items Of The Sandy Creek People

Bro. Sanders preached at this place Saturday night and Sunday. News is scarce this week as everyone is busy in the cotton fields.

Mr. W. A. Louis is thinking of moving to Milano this fall and stop farming for a while.

Mr. and Mrs. H. T. Pruett, Mr. and Mrs. Bud Hairston and Mrs. J. B. Rutherford were visiting at the J. L. Rutherford home Sunday.

Mr. J. L. Rutherford was very ill Sunday morning but is getting along nicely at the time of this writing.

Some of the farmers are through picking cotton while others have several bales yet to gather, but if it stays dry a few days longer they will soon get it all out.

Mr. T. Warren and family left last Saturday to visit Mr. Warren's father at Hix, but one of the children got sick and they stopped at Gause. We learned that the child was in a very critical condition.

Newton Store News

If we haven't it in stock we can get it for you. We do not carry Oil Stoves in stock but have just delivered a dandy 4-burner New Perfection oil cook stove with oven to L. T. Hughes and it is a beauty.

Mr. Clyde Clary of Star, Mills county, has been with us the past few days. Also Charlie Pairett of Bartlett.

Our line of Sweaters has certainly proven popular. Have had to re-order on several numbers. If you like a beautiful garment come in and see them. We have knitted toques and toboggans to match also.

Mr. Ed Robinson and Mr. W. O. Fisher were in the store yesterday.

Otto Wendorff bought up two cars of hogs and shipped them out this week which put quite a tidy sum of money back into circulation in this community. Prices ranged from 13 to 14 cents.

Henry, Ray and Welcome Woods were all in this week getting their share of the hog money as usual. Also John and Joe Kohut who had about 17 head of the smoothest hogs that have been sold here in a long time. This is some hog country anyway. We had 33 of our own that averaged 198 pounds around.

One of our good warm Blankets would go mighty fine these cool nights. We have them from \$3 to \$7.

There have been quite a lot of people in the country lately looking for cotton pickers. One of them came in and told us that he had not found many pickers here but that he had found some cheap merchandise and proved his sincerity by purchasing his supply of cotton sacking from us and carrying it back to Coleman county with him.

Miss Corinne Fisher of Hanover is listed among our customers this week. Also Mr. J. L. Kirk from the same community.

Mrs. J. W. Reese and children were in this week. Also Mrs. Mudge and Mrs. S. S. Coleman.

J. B. Jackson and I. R. Touchstone were both in the store one day this week.

Our grocery line is complete this week with the very best groceries at the most reasonable prices. We invite comparison.

The recent norther forcibly reminds us that this is good weather for OUTING. We have it. Also have a full of good warm winter underwear for all members of the family.

Mr. D. C. Dove, who is with the United Cotton Growers Association, is in Milano this week is the interests of the Association.

We have school supplies, such as composition books, pencils, ink, tablets etc.

Stalk Grows Rank But There Is Little Cotton

Mr. Jim Silvey says his cotton crop out his way is a very dismal looking proposition. He has 25 acres in cotton and some of it is as high as a horse with not a thing on it that resembles the possibility of anything like cotton. He has several acres in which he doesn't expect to let a cotton sack visit. This is one of many similar conditions over the Milano country where the boll weevil and the worms have destroyed the cotton crop and shattered the faith of the cotton grower. But there is always a consolation for the Milano farmer; he never depends entirely upon cotton for his welfare, and they find themselves busy all the year through trying to fill in the washouts of failure and build new hopes for another year.

Cedar Creek Replies To Summit Correspondent

Once upon a time, not so very many years ago, there was a school house north of Cedar Creek and west of the Santa Fe rail road which was called Cedar Creek school house and all the people who patronized this school were called Cedar Creek people whether they lived north or south of Cedar Creek. These people are the ones that this writer gives news items about. The Summit correspondent being a new comer does not know this, therefore we forgive the remarks made in the last issue of the Gazette. Several times our friends on the otherwise of this community line have asked us to make mention of news items which they wished published and we gladly did so, but otherwise we do not trespass.

Bad Habits In Canaries.
When a canary bird plucks feathers from the young birds, place them in a small nursery cage suspended from the side of the breeding cage in a manner that will allow feeding between the wires, as the young birds should not be removed entirely from their parents until they are able to crack the food upon which they must feed.

Orchid Crossbreeding
While orchids from the wilds have remarkable and interesting characteristics, they are being rivaled and surpassed by new forms produced by hybridization in the greenhouses of experts. Now, the hybrids are many in number and are supplanting the older varieties in part because of their exquisite beauty of color and form, their increased fragrance and their greater ease of cultivation. It is slow work, the crossbreeding of orchids, but it is marvelously fascinating.

THOSE WHO FORGET NOT

Mr. Jessor Newton handed us \$2 the other day for another year's renewal subscription to the Gazette.

Mrs. M. J. Morgan left a half dollar with us Wednesday for a renewal subscription to the Gazette.

Mr. Jim L. York of the Hanover community sent a dollar with us last Saturday for another half year's renewal subscription to the Gazette.

Erwin Hickman left a half dollar with us last Saturday for another renewal subscription to the Gazette. Said he just had to keep reading the paper until that story ended.

Mr. A. McGregor left a half dollar with us the other day for a subscription to the Gazette which goes to Mrs. Virgil Bailey at Haskell, Texas, a sister of Mrs. McGregor.

We acknowledge receipt of a half dollar from Mr. Will Price of Snyder, Texas for another 3 months' renewal subscription to the Gazette, so he may keep up with what his old home town is continually doing.

Milano Gazette: You will find enclosed one dollar for the Gazette. I sure do miss it when it stops. Sure do like to hear from the old home town sometimes. Yours truly, R. L. Williams, R. 3, Killen, Texas.

Lloyd Woods left a dollar with us last Wednesday for a half year's Gazette subscription which will go to him at Lyons, Texas, near which place he is teaching school this year. His school opened there Monday, he having gone down Sunday.

Young Milano Couple Married Tuesday Night

Mr. Luther Stone and Miss Ethel Gibson were married Tuesday evening at the home of Rev. and Mrs. J. P. Sparks. The wedding took place at 7:30 o'clock, Bro. Sparks pronouncing the sacred words that united the couple in the holy bonds of wedlock. The bride is a daughter of Mr. and Mrs. B. F. Gibson, and the groom is a son of Mr. and Mrs. J. C. Stone, both well known young people of Milano. Their many friends wish them every happiness and much success in life.

Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't he be sorry?"

Aged Hanover Citizen Is Buried Here Monday

Mr. John Boyd, an aged citizen of the Hanover community, died at the Cameron sanitarium Sunday evening. His remains were brought to Milano that night and burial took place at the Milano cemetery Monday at noon. Deceased was some 70 odd years of age and lived alone most of the time. It was said he had recently been sick and in getting up around his room he fell down in some way and fatally hurt himself, after which he had been taken to the sanitarium. He was a member of the Milano Masonic lodge and was buried with the honors of that order. Rev. R. O. Wier conducted the services at the burial.

Be Careful And Systematic

People who pay their bills by check get a reputation for being careful and systematic in their business dealings. Such a reputation means much in the establishment of credit. It costs no more to pay your money out by check than it does to use the hard cash, and you have the advantage of having it in a place that is absolutely safe. To have money in the bank is of itself a valuable asset in the establishment of credit. And it is possible to practically everyone without one cent of cost. It takes no more money to do business by the checking method than it does by the cash-in-hand method.

We invite you to open a checking account with us. We will help you to make your account a real convenience.

SOME LOCAL NEWS ITEMS

Miss Buelah Winslett of Cameron was a guest of her friend Miss Ora McClellen this week. She came Sunday and returned home Tuesday.

Mr. and Mrs. A. McGregor and children left Tuesday for Haskell, Texas, where they will spend some length of time visiting relatives.

Mr. Brice McClellen left last week for Chicago where he expects to have some medical expert make some further improvements on his hand and arm which was wounded while in service in France.

Mr. S. H. German, an attorney of Livingston, Texas, was in Milano last Friday attending to some legal interests in land matters. He also has a number of friends here who are always glad to see him.

Mrs. R. L. Day and little babe left last week for La Porte, Indiana, to join her husband. She had been visiting at the home of Rev. and Mrs. R. O. Wier, having recently left El Paso to locate in the north.

Mrs. C. Howes returned home last week from an extended visit to Toledo, Ohio, where she visited one of her daughters for several weeks. She saw much new country and many great cities, but said she was glad to get back home to Milano.

Mr. Joe Cook of Alabama state came in Wednesday night from Houston where he had been attending the old soldiers reunion, and is a guest of his brother Mr. A. J. Cook, who met him at Houston and both came in home together.

Cotton Growers Have Organized At Liberty

A local unit of the Cotton Growers Association was organized at the Liberty school house Wednesday night by State Organizer D. C. Dove. Mr. W. R. Sneed, who is also assisting in the work, was present and helped in organizing the local. Six members were enrolled and more promised to join later. Mr. Dove reports 200 members enrolled in Milam county and 47 counties organized in this state. The Association purposes to sell the cotton direct to the cotton mills.

Wives for Colonists.

In 1621 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Says Everybody Must Help To Do Their Part

Mr. J. H. Burnet says: These are now terrible times. Hard times have set in again, not only for the farmer, but for the business man as well, and it behooves everyone to acknowledge the situation. Prices are coming down and the business world is doing its part, and the general public must do its part. It means that everything else must come down in price, whether it be house rent, day labor charge or what so not. We must meet these new conditions all around, else we are likely to see very hard times. But if everybody will do their part in boosting down high prices then we will all share alike in the reaction.

"Everything To Build Anything."

He Could Hardly Get His Breath

"The way Tanlac built me up proves to me that it is a great medicine," said Gust A. Johnson, of Virginia, Minn. Mr. Johnson has been employed by the Duluth and Iron Range railroad for 35 years.

"I suffered from stomach trouble in its worst stages," continued Mr. Johnson. "So much gas formed in my stomach after eating I could hardly breathe. I also had the rheumatism so bad in my knees sometimes it was all I could do to hobble about and I was so nervous that many a night I could not sleep at all, and by morning I was all tired out and weak as if I hadn't been in bed at all.

"I noticed in the papers about Tanlac and gave it a trial, and it's a fact, nothing can beat it, for I've taken only three bottles and feel like a new man. I eat anything I want now and am never troubled with gas any more; the rheumatism has left me and my nerves are steady as a clock and I get up every morning feeling fit and ready for the day's work. Tanlac is the greatest medicine I've seen and I know what I'm talking about, for I have tried nearly everything."

Fount White Is Entitled To The Job He Seeks

Mr. W. F. White is still campaigning in the race for Constable of this precinct. He is the democratic nominee but has an opponent on the American party ticket and whom we believe Mr. White can easily defeat. The opponent is Mr. A. J. Gunnels and who is a very good man, but who happened to get mixed up with the wrong crowd. And then Mr. White is a much bigger man than Mr. Gunnels, therefore he will make a better police cop than A. J. would, and A. J. being a better farmer than W. F. we believe he ought to stay a farmer and not go around wearing an ugly looking six-shooter and trying to arrest folks. Therefore fellow citizens, let us all go and vote for Fount White on November 2nd and thus rescue our beloved fellowman A. J. Gunnels from the awful dangers of getting mixed up in a political job that won't actually pay enough money to buy a sack of flour once a month. If there was any money in the job we'd urge Mr. Gunnels to become a democrat and run like he wanted it.

Cemetery Association Members Met Monday

Seven members of the Milano Cemetery Association met at the home of Mrs. Bruce Stewart Monday afternoon and held the regular monthly session of that organization. Many important matters received attention at this meeting. The sum of \$2.00 was reported collected for dues and a balance in the treasury of \$4.00 was reported on hand. The hostess served her guest with refreshments of sandwiches, cake and lemonade. At this meeting the ladies decided to serve luncheon November 2nd, announcement of which appears elsewhere. The next meeting will be held at the home of Mrs. J. B. Newton Monday afternoon, November 1st.

Newsy Items Of The The Oakdale Country

Mrs. Thomas Batey is at the home of her father sick with fever.

Mrs. W. A. Belt visited her mother over at Gause last Tuesday.

We hear that Mrs. Jim Fisher is improving some all the time. She has been at Temple about 3 weeks.

Mrs. Aschenbeck and son Theo had for company this week-end Mr. and Mrs. Fred Beckhausen who came over from Rosebud.

Mr. Clyde Hensley was over at Liberty some few days ago to see his grand mother, Mrs. Westbrook, whom he reports as some better.

Mr. and Mrs. Sterling Childress of Bell county came over Saturday to visit at the home of her father and mother, Mr. and Mrs. Batey.

Mr. and Mrs. A. L. Chatman left last Saturday for Ad Hall where they will visit his father. They have been cotton picking all the fall and felt like they were due for a visit.

Mr. and Mrs. Oscar Crawford came home Sunday from his father's where they had gone to help with the cotton crop. Two or three of the children have been sick with fever and had the attention of a doctor.

Miss Fieddie Lee Link and Miss Wilmer McGuire stopped at the home of Mrs. Sid Hause Monday while on their way to Milano where they took a train for San Marcos to attend school. Two young men had to motor back home to Jones Prairie by themselves and we know that they had a very lonesome ride.

Dove Figures in Folklore.
The dove or pigeon has occupied a prominent place in folklore, legend and history since the bird brought the olive branch to Noah. The earlier artists used the dove frequently in their religious paintings. The "Madonna and Child," and the angels are shown with white pigeons fluttering about them. The bird was made the symbol of divine spirit. It appears in pictures of Christ's life and baptism. St. John (1:32) says: "I saw the spirit descending from heaven like a dove."

A Plot Marred.
"I hear that the grocer discharged you for swindling him," remarked Mackindie to a friend. "It's a lie!" said the latter. "He asked me to put a lump of lead under one of the scales and I did so, and then in a few days when he examined it he told me to leave. 'Did you not fasten the lead on properly?' asked Mackindie. 'Oh, certainly, I fastened it right enough,' was the reply, 'but it was under the wrong side of the scale that I put it, and it weighed against himself!'"

News From People Around Pikes Peak

Mr. Dink Thornell came home Saturday from west Texas.

We understand that Mr. Akins will leave soon. He has been selling out for some time.

Miss Jodie Fortner came in home Saturday from Watts Switch, but returned there again Sunday.

Miss Minnie West came down Wednesday and spent a few days visiting at the M. J. Fortner home.

It seems like everybody around here are leaving, but they don't seem to stay any time. Milano seems to be the best place of all.

Most everyone around here are gathering their crops with the exception of some few who are scraping up a little cotton.

Mr. John Rutherford left last Saturday for west Texas and later on his family will leave here to make that their future home.

Trick Hair.
My little brother, Bobby, always liked to have Mr. L. call, because he could perform an act which awed as well as amused him greatly—wriggle his hair. One evening, during such a performance, Bobby said wistfully, "You can wriggle yours. Sister can take hers clean off and lay it on the bureau, and I can't do a thing with mine."—Chicago Tribune.

Oil Seems Assured 6 Miles Of Milano

Quite a lot of excitement has been going the rounds in Milano this and last week when it was learned that oil was struck in the Sipe Springs community when a test well of the Oklahoma-Texas Petroleum Products Company made a good showing of oil with indications of a 50-barrel well. The showing is said to be a splendid one and was secured in oil sand just below a strata of lime rock and then a strata of heavy gumbo. At this particular depth the driller said he would be able to drill in a 50-barrel well after drilling another 30 or 40 feet. The well is now shut down awaiting the arrival of casing from Fort Worth which will be set as soon as it arrives. This is expected to require another week or more. The quality of oil found in this well is said to show a very high grade of lubricant. J. Hales, secretary of the company, Dr. L. S. Shumate of Reed Springs, Missouri, who is the vice president, and G. W. Hendricks of Houston, have all inspected the well last week and they seem to think they have really discovered a good oil well test. The well is located on the Guy Cook farm about 6 miles southwest of Milano.

Will Peel Is The Logical Man For Our Judiciary

Mr. W. E. Peel is still in the race for Milano's next Justice of the Peace. He is the democratic nominee and being on a stronger party ticket than his opponent he is almost assured the judicial post which he seeks. Mr. J. W. Hairston is the opponent on the American party ticket, and while he might make a good precinct judiciary officer, he just isn't with the right crowd to suit the great majority of the citizenship of precinct 3. Democracy and the democratic party have achieved far too much favor to be outdone at this time by candidates running on a split ticket. Some few of these chips off the old block will doubtless get elected, but here at Milano we believe the old block of Loyal Democracy will not decay at any early date. The Gazette dictates to no one how to vote, as that is every person's individual right, but if you believe in Democracy then we suggest that you vote the Democratic Ticket straight and that will include a vote for Will Peel for our next Justice of the Peace.

Town And The Country People Asked To Help

The ladies of the Milano Cemetery Association have decided to serve luncheon at some convenient place in Milano on election day, November 2nd, and they want all interested people to help donate something towards getting up the luncheon. They want the country people as well as the town folks to donate a chicken, a cake, or a few pies, as these three items sell better than anything else. The money so made will be used for taking care of the cemetery and efforts are being made to employ some person to look after the grounds and graves throughout the year, thus keeping the cemetery in a nice, clean condition at all times.

Newsy Items Of The Prospect Community

It is so dry out here that we are having to keep the hoops drove up on our well to make it hold water.

Uncle John Ford promised us he would go to the Reunion and have a good time and report it to us in time for next week's news.

Mr. W. C. Mobely and family and Mrs. Kelly were visitors at the W. W. Richards home in the Summit community last week.

Mr. Emmons is the only man here that is not through with his little cotton crop. But he claims that his crop was a big one.

We are all swearing that we will not plant any cotton next year, as we are not making any worth talking about and getting less for it.

Mr. J. E. Baker and family have gone to Lorena on a cotton picking trip for a short time, as they are through gathering their own crop.

Al Oneil was in Cameron Thursday of last week with his last bale of cotton of this year's crop. When you see him, ask him why he was so late getting home.

Mr. W. A. Belt is selling out to move to Waco. He thinks he can do better there than here, but we venture the guess he will move back. Hope so at least.

Mrs. J. L. Kelley and children of Gulf, Texas, are spending a few weeks with relatives in this community. She is the daughter of Mr. and Mrs. W. C. Mobley.

Bro. Hodge has sold out and moved to Lorena, in McLennan county. We hate to see them leave but wish them much success. We recommend them as good people.

Mr. J. R. Aldrige gave a dinner and had a family reunion some few days ago in honor of his grand daughter, Miss Linnie Thompson, before she returned to her school.

Our school will start Monday, October 11th, with Mrs. Lettie Shelton as teacher. Let us all send our children and give her all the encouragement possible and have a good school. "Napper."

Local News Items Round About Town

Mrs. S. A. Russell has been very seriously sick the past week and at last reports was still quite ill.

Mr. A. F. Tally is back at his office at the lumber yard this week after being seriously ill several days with chills and fever. The two little children have also been quite ill but are slowly improving.

The Milano Commercial Club will meet next Monday night at the Odd Fellow hall in regular monthly session. After the business session is rounded out a luncheon will be served to all the members present.

Milano Gazette: We are going to give a box supper and will sell ice cream at the Sandy Creek school house Friday night, October 15th, for the benefit of the Sandy Creek Baptist Church. The purpose is to finish raising the pastor's salary. Please put a notice in the paper to that effect this week. We would like to have a large crowd out and will try to show them a nice time.

The G. W. Butts grist mill broke down this week and Mr. Butts had to ship a broken part of his engine to Dallas in order to get a new part duplicated, and he is expecting to have things in running order again by this Saturday. But of course everything depends upon whether or not the broken part can be duplicated in Dallas, and until the part arrives Mr. Butts will be unable to grind any corn at his grist mill.

Milano's Population Is Not Tabulated As A Town

The Gazette is in receipt of the census figures for Milano, but our town for being incorporated the figures were not tabulated for Milano. It gives the population for Justice precinct No. 3 as having 4,552 living people, an increase of 781 over the 1910 census. These figures include the towns of Milano and Gause and all the surrounding country in the precinct. A man was reported to have been in Milano a few days ago selling a census book which showed Milano as having a population of 500, but such figures are mere estimates but are reliable enough for rough calculations. Rockdale and Cameron were the only two towns in this county where the population was tabulated for the townships. The total population of the county is 38,104. In 1910 the population was 36,780; and in 1900 county enumerated 39,666 humans.

Circus Show Is Coming To Milano Next Tuesday

A real old time circus show is coming to Milano next Tuesday, October 26th. Honest Bill's Show will arrive here sometime during the morning and pitch their tents for one day in our city. The show is traveling overland with over 100 head of trained and draft animals. There will be tumblers, acrobats, flying trapeze, ring performers and clowns. The wild animal collection cost over \$50,000 and consists of lions, tigers, camels, monkeys, buffalo, gorilla, ape, zebra and elephants. They show in Milano that night at 8:15 and also are scheduled to show at 2 o'clock p.m. The management of the show says they will give you your money's worth. Tuesday they will be here at Milano and Wednesday at Gause.

Some Hopes Of Selling A Third Of Road Bonds

At the Commercial Club meeting Monday night the Highway Committee reported that Cameron could sell \$50,000 worth of the Milano district road bonds for \$45,000; and to make good the \$5,000 loss Cameron would make good \$4,000 of it if Milano and her other interests would make up the other \$1,000. The Milano Commercial Club decided it could be done. It was suggested that Caldwell and Chriesman help raise a portion of the \$1,000, and in accordance therewith Lesser Newton, Raymond Beard and J. D. Peebles were appointed a committee to push the matter. To this \$50,000 the State Highway Department will add a like amount of \$50,000 as state aid money, thus providing \$100,000 in available funds for building the Caldwell and Cameron highway. Action of this matter will receive early attention, as it is believed this must be done quickly so as to secure the state aid.

A Little Money At The Right Time Is Powerful

There are two things in this life that can not be taken away from you while you are living. They are "Knowledge" and "the money you have in the bank." They are your absolute possessions and will permit of no interference except your own. Your knowledge never diminishes, but money will diminish if you let it. Both can increase. No matter how hard the times may get, if you have a little money in the bank you are still safe from any fatal effects of depression. Keep a little nest-egg in the bank for an emergency. Then if ever you get down to bed-rock circumstances you can pull yourself out on safer ground. That's the proper kind of protection you and your family need.

SOME LOCAL NEWS ITEMS

Mrs. C. J. Stevenson returned home Monday from a few days' visit with relatives at Chriesman.

Mrs. E. Humber of Columbus, Georgia, arrived in Milano last Friday and is a guest at the home of Mrs. G. W. Mullins and family.

Mrs. G. W. Mullins and little Miss Doris Corbett went to Dallas last Friday to attend the State Fair for a couple of days. They returned home again Monday morning.

Mr. B. N. Ashley has established a local commissary in the Oxford City community for the convenience of his force of wood cutters. He reports the wood business good.

Rev. J. W. Roeber of Gause was over here between trains Saturday. He came over to get a church light for the meeting which opened there Sunday with Bro. Payne in charge.

Mr. Frank Smith came in from Jacksonville Tuesday and will spend a while here in the old town which once loved him as its own citizen. His wife preceded him a few days and is visiting at the home of relatives in the Oakdale community.

Says Milano Needs A Steam Laundry Badly

"One of the greatest industrial needs in Milano is a steam laundry," said our Representative C. M. Beard at the recent Commercial Club meeting. Then he went on to picture the washday drudgery of the women folks and said that even a man would rather do any kind of work than to do the family's wash. And every man present seemed to agree with him. And Mr. Beard is right; Milano needs a laundry of some kind. Now who wants to put it up? Towns and commercial clubs everywhere are advertising for laundries, but for some reason they are a difficult industry to secure. The patronage is assured, but it requires a considerable investment. But if the investment is profitable why not build it?

Makes His Own Crop Then Goes To Picking

Mr. J. E. Baker came down from near Moody Sunday and remained over here until the next day looking after some business matters. He and his family have been in the black land country about three weeks and reports wonderful cotton crops in that country. Says the people are making three-quarters of a bale to the acre and if anybody should wonder why cotton is so low in price they ought to take a trip over some of the black land country and they would see the reason. The people up there, Mr. Baker says, leave more cotton in the fields after they go over it than the Milano soil produces during the season. He expects to stay there until the cold weather sets in, when he and the family will come back here to their home near the Prospect community. Mr. Baker made several bales of cotton on his rent farm and is holding it for a better price and has gone cotton picking in the mean time.

Mr. Lenard Stewart gave us a nice bucket of potatoes a few days ago. He will have some to spare, as he has a fine crop of them this year.

Mr. Al Oneal said we looked hungry one day last week and gave us quite a sack full of potatoes. So you can see we have neighbors here that were worth the having.

We think there must be fire-bugs burning cotton. We think it would be better to use some other means to cut out the supply of cotton in order to keep the price up. For instance, hold what we have off the market and not plant any next year. Plant smaller crops of cotton and more to eat. "Nanner."

Where Quality And Price Count

These can be found at the Peebles store. Quality goes a long ways in governing the price of an article. A full and complete line of fresh and staple groceries are to be found here at all times and we invite your inspection.

Here Are A Few Prices

on some good and staple items as listed below:

These are only a few prices. I invite competition. All prices will be met.

Ingenious Plea.

Little Dickie was visiting his grandma, and after lunch she spoke to him about taking his afternoon nap. He looked shyly at her and did not speak. After a short pause she again mentioned his nap, and he said: "Why, grandma, you wouldn't put your company to bed, would you?"

Walk Around a Ring.

A Tennessee investigator made a series of more than fifty experiments for the purpose of disproving the assertion that blindfolded persons walk in circles, but he was unable to do so, for all the persons in the tests departed from the straight line as they walked away from the starting point.

Newsy Items Of The The Oakdale Country

Lee Batey and wife are in Bell county with his wife's sister.

Erwin Cook has been sick all last week, but was able to be up and go to Milano Saturday with his friend Frank Fisher.

Ernest Cook has accepted a nice position at Fort Worth. He left last week and expects to get a house for his mother and sister soon.

Thomas Batey is in Cameron working at one of Lee Batte's gins. His wife is at the home of her father, Mr. Bill Day, near Rice.

Mr. and Mrs. Clyde Hensley and son Debs were at Ben Arnold Sunday where they visited her home folks, the Charley Angel family.

We had some kind of a tear up on the Santa Fe road this morning. Mr. Hightman came to the nearest phone to report it to Milano so that there would not be another.

Last week I thought Mrs. Aschenbeck had come home from Rosebud, but was mistaken. She was not able to come then, but Sunday evening she came in and said she was some better. And we hope so.

Mr. and Mrs. John Baldwin gave a very nice birthday dinner Sunday. Ernest, who lives at Rice, he and wife were there and their little son Lenard. They had a very nice crowd and an extra good dinner.

Mrs. Frank Smith of Jacksonville is visiting her grandmother here. She expects her husband to come to Milano help to his brother, Mr. E. C. Smith, with his work for a while. They expect to stay here a few months and will then again return to their home at Jacksonville.

Old Pennsylvania City.

York, Pa., is a city of ancient origin. Here was located the first settlement west of the Susquehanna river. From September 30, 1777, to June 27, 1778, she was the nation's capital, for during that time, the British then occupying Philadelphia, the continental congress met in her courthouse. The first money sent by the king of France to aid the cause of American independence was received by congress in this city. And here the first national Thanksgiving proclamation was issued.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Brierley.

Cattle Are Reported To Be Destroying Crops

Mrs. M. E. Cook reports much destruction in her truck farm just east of town which has been depredated upon by town cattle. Last week and several days before she found several head of cows in the field devouring her late corn, peanuts and other feed crops. Inspection showed that the cattle passed through the gate which had been open for them to pass through and then closed. This has happened several times and Mrs. Cook has decided to take legal steps by lawful enforcement for protection of her property. People who place their cattle in other people's fields probably do not know that this act violates the trespass laws of the state and some day they will find themselves called into court to answer for their cattle's pillage.

Local News Items Round About Town

Mr. J. R. Tidwell of Franklin was here Tuesday and Wednesday.

Monday the local cotton market in Milano was reported down to 15c a pound for middling cotton.

Mr. Ed Standard and family are back home at their farm in the southern Milano country from a recent trip to Rosebud.

Mr. E. C. Smith returned home last Saturday morning from Dallas where he had been the entire week buying merchandise for his store.

Mrs. J. L. Standard of Abilene arrived in Milano Sunday and is a guest at the home of her parents, Mr. and Mrs. J. W. Stimmons this week. She expects to spend a couple of weeks here and will then leave for Fort Worth where her husband has recently located.

The rain Thursday night of last week was the first rain that has fallen over the Milano country in something like 6 or 7 weeks. It was a splendid fall, somewhere between an inch and an inch and a half. The rain and electrical storm came from the north by an upper air current while the south wind just kept on blowing below it.

A new coat of roofing material was placed on the Milano school building last week. One of the trustees said the new roof was made necessary by reason of boys and some men climbing on the roof and having secret stag parties. The building has been standing only about 7 years and a good roof ought to last much longer than that length of time. But perhaps the new one will last somewhat longer.

Chinese Wheelbarrows.

Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us, in the fact that the wheel is set in the center, and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow cooie in China will transport nearly a half-ton on his vehicle.

The Brainy Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "splied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

McLennan County Subscriber Writes A Letter

To The Milano Gazette: Enclosed you will find one dollar for which send me the Gazette for another half year. We are always glad to hear from our home town. I like the Milano people all right, but I think this country beats it for farming. We have out already 15 bales of cotton and will get out 7 more. We have not had much luck getting pickers, but Mr. Ed McCraw and Mr. Dewey Greene from Milano came up yesterday and so you can see we have some pickers now. Crops are pretty good around Waco this year, but are pretty near all gathered, as it has been a beautiful fall for gathering. Health in general has been very good with the exception of bad colds, chills and fever. That is all at present. A. J. Whiteley, route 4, Waco, Tex.

New Merchandise Now Arriving

I spent the greater part of last week in the Dallas market and found on display many beautiful and useful articles in staple and holiday goods. New goods will be arriving every few days. Our line of Jewelry has already arrived and we are showing the most beautiful line that has ever been shown in Milano. I do not handle Commission Lines, but buy all my jewelry from reliable people that stand back of every piece that I offer for sale.

Following is a partial list of new Jewelry received and now on display: Men's Simmons vest chains, Dickens and Waldemar chains, watches, gold knives, collar and cuff buttons tie pins, bar pins, brooches, a large assortment of beautiful lodge pins, bars and emblems, neck chains and lockets, lavelliers, baby necklaces, lockets and rings, and a complete line of gents' and ladies' set rings in the newest shapes and mountings. Nice assortment of gold and silver belt buckles—the latest in gents' wearing apparel. Pleased to show them to you.

"Is Worth Weight In Gold" He Says

"Tanlac has been worth its weight in gold to me," said Walter S. Willhide, a well-known employee of the Federal Rubber Co., Cudahy, Wis., and who lives at 76 Howell Ave., Milwaukee. "My wife and friends were really alarmed about me, but I never felt better in my life."

"I don't believe anyone ever suffered more from stomach trouble than I did for five years," he said. "After every meal gas would form and I had such sharp pains across my heart I could scarcely breathe. Dull, heavy and dizzy headaches would come on me and I had to lie right down or I would fall over. My back and stomach hurt so bad I could hardly bear my clothes to touch them. I was nervous as a cat and the least noise at night would excite me. The muscles in my legs would cramp at night until I would have to get up and walk the floor to get relief. I lost 15 pounds, my appetite was completely gone and I was so weak I could hardly do my work."

"Only two bottles of Tanlac have rid me of every one of my troubles. I eat anything and never have an uncomfortable feeling in my stomach, my nerves are like steel and I never have a headache, dizzy spell or pain of any sort. Friends are congratulating me on how well I look and I certainly feel fine."

News From People Around Pikes Peak

Mr. Akin will leave this week for Rosebud where he has rented a farm for another year.

The young folks enjoyed a party and candy breaking last Saturday night at the Akin home.

Mr. and Mrs. H. A. Fortner came in last Friday from below Rockdale where Horace has been at work.

We understand they are going to accadamize the road from Milano to Rockdale. It will be a great help to the people if they do.

Miss Thelma Stewart was visiting out this way Sunday, a guest at the home of her grand parents, Mr. and Mrs. Morgan and family.

T. A. Fortner of Hearne came over Sunday and said he had 100 bales of cotton to pick and was short on hands, as his Mexicans were all trying to leave him.

A heavy rain fell here Thursday night of last week with some hail, and we are still having showers, so it will be impossible for the people around here to gather their scrap cotton for some time yet.

Local News Items Round About Town

A very heavy rain fell around Milano Thursday afternoon, one of the heaviest downpours that has fallen in some length of time.

Mr. and Mrs. R. E. Sneed motored over from Cameron Sunday and spent the day at the home of his parents, Mr. and Mrs. W. R. Sneed.

The management of the circus which will be in Milano next Tuesday, says to bring in your wild horses or unbroken mules if you want to see "Bogger Red" and his two partners ride them for you.

Mr. L. Newman went to Austin Thursday afternoon on No. 3 in response to a message stating that his brother, Mr. J. J. Newman, died that morning at 6 o'clock. The brother had been in ill health for many years and for the past 4 months had been unable to leave his bed. He was fifty-nine years of age.

The county tax collector was in Milano Thursday taking in heaps of money at the Milano Bank from the Milano folks who paid their taxes that day. Many people were surprised to see how the road bond tax figured up, for at \$1.50 on the \$100 valuation it made some people's taxes look mighty big.

The store of J. B. Newton & Sons is opening up a special 25 per cent discount sale this Saturday on their various dry goods lines. This means that the Milano people will be given a whole week's opportunity to buy some merchandise at very reasonable prices. And J. B. Newton & Sons will do just as they say; you will get a full 25 per cent off their regular prices. Read their ad.

The big highway meeting which was to have been held at Rockdale Tuesday was postponed for some unknown reason. News reached Milano to that effect Sunday but Secretary O. D. Baker of the Road Association did not know why it was postponed. We understand a preliminary meeting was held at Rockdale Wednesday and the meeting called to meet again on October 28th. Looks like a bad idea to postpone such matters and it makes the people somewhat suspicious.

Whales That Walked.

Whales used to walk. That is the statement of Prof. d'Arcy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal Institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about much as seals do.

Mrs. Russell Still In A Very Weakly Condition

Mr. Bryant of El Paso, a brother of Mrs. S. A. Russell, arrived in Milano last week and has been at the bedside of his sick sister since his arrival. These two people had not seen each other in something like 18 years. Mrs. Russell's condition shows little or no change. She is still lying in a very helpless condition and friends are at her bedside constantly day and night.

H. B. McClellen With- stands Arm Operation

Mr. J. A. McClellen received a letter from his son, Brice this week who is at Chicago, saying he had his arm operated on last week. The physicians and specialists cut some flesh from both of his ankles to graft onto his arm which was wounded and badly torn away in the great war while in France. He said he was in bed in the hospital and was considerably touchy about the arm but he has great hopes of improving it by the operation.

Says The Farmers Are Not Doing The Firing

Captain L. Bedell says: Those folks who are burning down gins and destroying cotton by fire are going the wrong way if they hope to raise the price of cotton. Such actions are Bolsheviki and will do more harm to the farmer than anyone else. And this is one reason why he believes it isn't farmers or cotton growers who are guilty of this arson work. When one of them is caught he says you will find out the man is not a cotton grower.

"Scapa Flow."

In Scotch the word scapa means "head" and flow means "sea." Scapa flow is the portion of the sea in the southern part of the Orkney Islands which extends from Pomona to the Pentland firth. It is fifteen miles long and about eight miles wide, and opens by Hoy sound in the northwest joining Pentland firth in the south near the island of Swona. The term scapa may perhaps be traced to the Gaelic sgapadh, to scatter, spread.

Love Is Everything.

Be sure of it. Be sure that to have found the key to one heart is to have found the key to all; that truly to love is truly to know; and truly to love one is the first step towards truly loving all who bear the same flesh and blood with the beloved. . . . All knowledge is love, and all love knowledge; even with the meanest, we cannot gain a glimpse into their inward trials and struggles without an increase of sympathy and affection.—Exchange.

Rev. G. W. White Near Hanover Passes Away

News reached Milano Tuesday morning to the effect that Rev. G. W. White of near the Hanover community had died Monday night. Bro. White was a well known citizen of that community and had reached the advanced age of about 72 years. Lately he had been suffering with a complication of stomach and intestinal trouble which seems to have caused his death. He leaves a bereaved wife and several grown sons who have the sympathy of the entire community in their sad loss and bereavement.

The Circus Show Did Not Come To Milano

Honest Bill's circus show which was billed to appear in Milano Tuesday failed to make its appearance, due presumably to the excessive rains of the day before. They were reported being at Rockdale Monday and stayed there over Tuesday and then probably making good their advance dates at other places by skipping Milano. There was a big crowd of people in Milano Tuesday who were very much disappointed by the show failing to materialize. It was the first show billed here for some length of time and it would have been welcomed with a packed and crowded house.

Next Tuesday General Election Day Over U. S.

Next Tuesday, November 2nd, is general election day in Milano and all over the United States. If you are a qualified voter it behooves you to go to the polls and cast your vote. There will perhaps be 5 or 6 varieties of ballots to vote and you may have your choice of only one, but all appear on the same sheet. All are to be scratched except the one you want to vote. Just draw a pencil line or two through the entire length of the tickets which you want to scratch.

Reports A Good All Day Meeting At Minerva

Rev. R. O. Wier returned home Tuesday from Minerva where he filled his appointment Sunday. He reports a very good all-day meeting being held there that Sunday. The day was turned over to a layman's meeting and several prominent church workers from Cameron were present and a very interesting program was rendered. There was dinner on the grounds and the attendance was good during the day.

Renters Make Potato Crop Look Mighty Big

Mr. J. H. Burnet says he will have something like four or five thousand bushels of sweet potatoes from this season's crop which were grown by his farm renters. He has ready sale for practically all of the potatoes and will only hold over enough for next year's seed. On account of the extremely high cost of building material Mr. Burnet has decided not to build a potato curing plant at Milano this year.

Halt Sand Drifts With Grass Tufts.

Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

Watch the Sun's Halos.

The sun's halos are good weather signs. Many weather proverbs based upon the observation of halos are founded upon sound scientific principles. Studies of the relation of halos to rainfall show that during the summer months 56 to 60 per cent of all halos are followed by rain within 36 hours. During the winter months 70 to 75 per cent are so followed.

Cut Down Your Feed Bill!

HUNDREDS of Dollars are lost on many farms each year in waste feed. This can easily be prevented if stock are provided a dry place for feeding.

In wet weather much of the feed is lost if thrown on the ground. Every successful stock man knows the best results are obtained from feeding if stock have a clean dry place for their feed and are sheltered from the cold and rains. We do more than sell lumber. We save a big part of your feed bill.

Mrs. G. W. Mullins is gathering a crop of sweet potatoes from her garden this week where she had previously grown and harvested a good crop of corn. They are extra good size potatoes too, and her efforts are a wonderful demonstration of what these two crops can do planted one after the other.

Halloween Fair W.O.W. Hall This Saturday Night

The Parent-Teachers Association will entertain the public at the W. O. W. hall this Saturday night, October 30th, with a Halloween affair similar to what was held last year. There will be luncheon, cake and nick-nacks for sale and side-show booths. The public is invited to attend and their patronage will be appreciated. Bring the whole family along. There will be fun for all. The funds raised by the entertainment will be used in supplementing the funds of the Milano school. Admission of 10c will be charged.

Milano's Sweet Potato Crop Is Something Big

The sweet potato crop in the Milano country is something mighty and big this season. Many growers have not as yet dug their crop, but some have, and all know they have raised a very abundant yield of yams. Porto Rico have done well this year; many people planted this variety and their size is something immense. The bunch yams have done exceptionally well and it is nothing uncommon to dig up 15 or 20 of them to a hill. The price however is low, and the prevailing price seems to be about \$1 a bushel, or just about what a bushel of corn is worth on the local market.

Is It Time To Turn Out Hogs Around Milano?

Hogs are running out over Milano. Thus we presume the time has arrived when it has been custom and seemingly agreeable with the community in general to turn out their hogs. But it is doubtful whether this disregard for the hog law is agreeable to the many owners of sweet potato patches around Milano. Many acres of potatoes are as yet undug and if they are not protected by hog-proof fence they are in danger of depredation by the hogs. Better watch out.

Would Gladly Go One Hundred Miles For It

"I had to go sixteen miles to get my first bottle of Tanlac, but after the way it helped me I would gladly go a hundred miles rather than be without it," said Mrs. George M. Burns, of 1900 Spruce avenue, Kansas City, Missouri.

"For six months I had stomach trouble and indigestion so bad that what I ate gave me no strength at all," continued Mrs. Burns. "I had no appetite whatever and was so nervous even the barking of a dog would completely upset me. My kidneys gave me a lot of trouble and I suffered dreadfully with pains in my back; I couldn't get any relief at all and finally I got so weak and run-down that I couldn't do my housework.

"A friend advised me to take Tanlac and I had to go all the way from Chatauqua, Kansas, where I was then living, to Sedan to get it. But that was surely a profitable trip, for the Tanlac helped me right from the start. My appetite picked up and I can now eat anything I want and it does me good, too, for I have already gained nine pounds, am strong enough to do all my housework and am getting stronger every day. My nerves are steady as can be and I am in better general health than for many years. I have recommended Tanlac to a lot of my friends and every one of them has been benefitted by it."

Fifth Sunday Services Here This Next Sunday

There will be services at the Milano Methodist Church this next Sunday, October 31st. This is a fifth Sunday and gives the Milano church an extra appointment at the option of the pastor. The public is invited to attend and will receive a cordial welcome. The second session of the fourth quarterly conference is scheduled to convene on Thursday, November 4th, at which time business not completed at the first session will be attended to. It is not yet known where the special session of this fourth quarterly conference will be held, but it is presumed it may meet at Cameron. The annual conference will be held about the middle of November at Houston, we believe.

Where Quality And Price Count

These can be found at the Peeples store. Quality goes a long ways in governing the price of an article. A full and complete line of fresh and staple groceries are to be found here at all times and we invite your inspection.

Here Are A Few Prices

on some good and staple items as listed below:

These are only a few prices. I invite competition. All prices will be met.

Irish Potatoes per lb....4½c Breakfast Bacon lb....45c

Fancy Onions per lb....4½c Pure cane sugar 12½c cash.

Coffee prices are much lower. The very best coffee grown can be bought here for 35c and as low as 25c per lb. A car of that well advertised La France flour is now in transit. The best yet. Buy where you can get quality goods at the lowest prices.

Bring your eggs and butter here. Will pay this Saturday 55 cents per dozen for eggs; and for fresh butter will pay 45c per pound in trade.

ROCKDALE, TEXAS.

News From P. Around A Pike.

Mr. and Mrs. Rutherford spent the day last Sunday at the home of their daughter, Mrs. Akin.

Mr. H. J. Baskin and family have moved over here into the section house by the rail road.

Quite a number of men gathered at the section house Monday morning looking for work, but some of them were turned down as there are only 12 openings for men.

Mr. W. A. Louis of Sandy Creek came by here one day last week enroute to Milano to sell a fine hog. He said he was selling out and moving to Cleburne, Texas, where he expects to engage in public work.

Mrs. Ophelia Beavers and sister, Mrs. Clara Standard, passed by here Saturday enroute to Rockdale. It rained so much that bridges were washed away and they could not cross over, so they left the car out this way and walked in home.

Mr. James and son of Normangee passed through here last week on their way to Milano to see his father-in-law, Mr. Taylor. They stopped at the M. J. Fortner home as they passed by here and said they were moving to Thorndale. They once lived near Milano.

Sugar Cane.

The leaves of the sugar cane are long and narrow, and the stalks are hard and thick. It looks very much like growing corn, but grows somewhat taller—at times as high as 15 to 18 feet. After the cane ripens, it is cut and taken to a sugar mill.

Mrs. Preston Brown and son, Mr. Noah Underwood and family of Tusculumbia, Alabama, were guests at the home of Mr. and Mrs. Liams from Friday until Sunday. Mrs. Brown, it is remembered, was at one time a resident of this community.

Cotton Growers And Bankers Are Partners

Mr. C. M. Beard says: The cotton farmers can never finance their ginned cotton without the aid of the bankers and the business men. The banks furnish the money and are therefore as much a part of the cotton growing industry as are the farmers themselves. What the farmers need, he says, are local warehouses where the cotton can be graded and classed by a bonded cotton classing expert. And whenever this is done in a business like manner then the mills and spinners will buy cotton direct from the farmers. That he believes is the quickest way to put the wholesale cotton buyer out of business and thus secure the farmer a much better price for the cotton that he grows.

All Kinds Of Weather Visits Milano Country

All kinds of weather and climatic conditions visit Milano. If you prefer a change for your health we suggest that you remain right here and the change will come along. Last week and part of this week was certainly a period of protracted rainy weather, bringing along days that were drearily cloudy and cool. Sunday and Monday were two very dismal days, cold and damp with a surplus of rain. And just to think that 17 or 18 days ago everything was burning up, hot and dry. This week there were blazing fires in the heaters and fireplaces. If you want a torrid dry climate Milano has it, and by the time you get tired of it along comes a wonderful change of wet and cold from the far north.

Mr. Walter Yoakum of the Sandy Creek settlement handed us a half dollar one day this week for additional subscription to the Gazette.

Mrs. Bruce Stewart renewed her subscription to the home town paper for another half year one last week and for which we acknowledge the payment of a dollar.

We acknowledge receipt of 75c from Mr. C. T. Woods of Novice, Texas, for subscription to the Gazette. He wrote an interesting letter which we will publish next week.

Milano Gazette: Enclosed find 75 cents for subscription to the Gazette. I am at Miles, Texas, and am in the painting business, but it would suit me better if I was at Milano working on Fords and shoeing horses. We find some mighty good people out here in the west and we want to thank the Milano people for what they did for us while we were there. My wife stood the trip fine and is able to sit up a little now. Best wishes. W.W. McCallum, Miles, Texas.

Milano Election Clerks Worked All Night Long

A total of 172 votes were cast at the Milano box and the election clerks worked all night long until 8 o'clock the next morning before the ballots were entered upon the tally sheets. Only one of the Amendments carried, the second one, the other two being defeated. There were a few republican votes and a few Socialist votes, but the others were very much of a mixed kind.

How to Rewind a Curtain Spring.
Do you know that when the spring in the window shade is loosened, all you have to do is to pull the shade down its entire length, take it out of the fixtures, roll it up smoothly, put it back in the fixtures, and it will have its original spring? How many wire hairpins have you twisted trying to rewind a curtain spring?

2 Boys Steal Revolver And Then Get Arrested

Constable W. E. Peel went over to Chriesman late Thursday evening of last week by auto and brought back two youths who had stolen a revolver from a lady's suit case at the Hairston rooming house sometime early that morning. The boys were suspicioned of the theft and were located at Chriesman through the information of a trainman. Mr. Peel took the boys to Cameron that night, accompanied by the lady who owned the revolver and who testified against them in an examining trial the next morning. The boys were brothers, sir name Cameron, and were from Portland, Oregon. The lady was Mrs. Eva Bryant of San Antonio on her way to some point in west Texas where her husband is working. With her were three children.

Pay Your Bills By Check

One of our customers came into the bank not long ago and asked to see a certain check which he had issued, and which he described. It was one that he had paid in the settlement of a business account. Through unintentional error he had not received credit for the amount. He was given the check and with it proved the bill had been paid. He was then given credit for the amount because the check with the proper endorsement was accepted as a receipt. A checking account is the surest safeguard against paying an obligation a second time. We invite you to call and let us explain fully the advantages of a checking account.

A. BAGGETT

Manager O. F. Talley of the Turner Lumber Company announces a whole of a reduction in the price of lumber this week in their ad space.

In Tuesday's election at Cameron Pat Neff received 748 votes for governor against T. H. McGregor's 44 votes on the American ballot.

Senator W. G. Harding Will Be The Next President

The national government went Republican at Tuesday's election with the election of Senator Harding of Ohio as our next President. His majority over Governor Cox of Ohio seems to be a landslide. The Electoral College will cast their representative votes on January 10th, but the majority is so great that results are easily figured out by Tuesday's election. The new President takes his seat on March 4th, 1921.

Lumber Has Hit The Bottom, Too.

Lumber was the last thing to go up and the first to go down. The first slump was in May and June of this year, then it remained stationery for a few months, and when Henry Ford knocked the props out from under his pet tin can, then lumber hit the toboggan along with sugar, clothes and other items that went slipping. If you have been holding off buying lumber for that new home or the barn you have been needing so long waiting for lumber to go down, then friend-o'-mine,

NOW IS THE TIME TO BUILD

for lumber is on the bottom and is being sold for less than it costs the mills to make it. That condition can't stay long and the mills are shutting down and sawing just as little lumber as possible. With the price off about 40% from what it was your lumber wants can be supplied at a price that will surprise you. Let us fix you up now with what you have been waiting so so long for. Our prices are based on the market and not on cost and you will get the benefit of the low market.

SOME LOCAL NEWS ITEMS

Miss Clyde Newton of Thrall came up and spent Saturday and Sunday at Milano with her mother.

Mr. and Mrs. Asa McGregor and children came in home from Haskell this week after having spent several weeks in that western country.

Mrs. W. L. Braun left last week for Mineral Springs Arkansas, where she is visiting at the home of Mrs. S. F. Hess, formerly of Milano.

The ladies of the Milano Cemetery Association cleared some fifty odd dollars Tuesday from their sales of chicken dinner and luncheon.

Mr. John Thomas and family of Burleson county have moved to Milano and are occupying the Peoples rent house. Mr. Thomas has a position at the J. C. Bead store.

Mr. L. Bryant left last week for his home at El Paso, Texas, after having spent a week or two with his sick sister, Mrs. S. A. Russell. Mrs. Russell's condition is slowly improving, but it will require much time for her to recover her former health. Mr. and Mrs. E. R. Cates of the southern Milano country have moved in the house with her and will give her all the attention that is in their power to extend.

Gause Box Remains In The Democratic Column

A telephone report from the Gause voting box Thursday stated that Gause went Democratic 10 to 1 against the American party ticket. W. E. Peel for Justice and Fount White for Constable each received 150 votes against 15 for J. W. Hairston and A. J. Gunnels, opponents. For governor Pat Neff received 135 votes, McGregor 9, with a number cast for the other party candidates.

Bad Habits in Canaries.
When a canary bird plucks feathers from the young birds, place them in a small nursery cage suspended from the side of the breeding cage in a manner that will allow feeding between the wires, as the young birds should not be removed entirely from their parents until they are able to crack the food upon which they must feed.

Cement Sidewalk Being Considered By I.O.O.F.

The Milano I. O. O. F. Lodge is contemplating the building of a cement walk in front of its building and perhaps also around the north side of the building. The trustees of the lodge property have the matter under advisement and are ready to receive figures and specifications on the work. But if the cost is too great their plans may be deferred until some one puts on a special sale of cement sidewalk. Such walks are scarce in Milano, but would help the appearance of the town more than anything else unless it were brick buildings. If some one man would undertake the building of cement walks on an economical and reasonable basis, there is no doubt but what cement walks would be built all over the town. And they are certainly badly needed.

Will Try To Organize Local Unit At Hanover

Mr. D. C. Dove and Mr. W. R. Sneed went out to Hanover last Friday to organize a local of the United Cotton Growers Association, but there seemed to be such a few who had heard about it that the matter was deferred until Friday night of this week, November 5th, at which time Mr. Dove will again be there for the purpose of organizing. A dispatch from headquarters of the Association gives out the information that Commissioner of Agriculture Fred W. Davis has accepted a place as a member of the Board of governors of the Association, which fact, Mr. Dove says, shows what our State Commissioner thinks about the Association. W. B. Yearly, cotton market specialist of the state department of agriculture, is another well known man who has recently accepted a place on the board of governors of this Association. Fifty counties are now organized in Texas and hundreds of farmers are joining the Association every week. All \$10 feeds that have been paid into the Association during this year will be extended to cover the dues through all of next year, or until December 31st, 1921. Thus all members are paid a year ahead next December.

The next meeting of the Milano local of the United Cotton Growers Association will be held next Tuesday night, November 9th, at the W. O. W. hall. All members and interested people are invited to come out and attend the meeting. All cotton growers will hear much that is to their interest and success.

Keep Your Saving System Going.

It is poor policy to figure to cut your deposit one week and make up the deficiency next pay day. This course will soon break up your saving system, you'll find. Get a little money ahead and then you will wonder how you could have enjoyed yourself a minute while you were living from one pay day to the next, constantly putting off your creditors, and without a cent to fall back on should you become ill or lose your job.—Norton Spirit.

Snake Crawls Out Of Telephone Office Stove

Last Saturday morning the day telephone operator of the Milano exchange had her nervous system shocked by seeing a live wiggling snake crawl out of the office stove in which she a few moments before placed a couple of sticks of wood to keep the fire going. A snake likes warmth, but it evidently got a little too warm for this dry land moccasin and he done well in finding the only outlet below the front door of the stove and then fell to the floor and crawled into a corner where a call for help soon had the snakeship killed. The snake was about a foot and a half long and had perhaps hibernated itself for the winter in a stick of wood which the operator said was hollow when she placed it in the stove a few minutes before. Had she failed to see it emerge from the stove the snake would perhaps have made itself at home in the office for some time to come.

Where Quality And Price Count

These can be found at the Peeples store. Quality goes a long ways in governing the price of an article. A full and complete line of fresh and staple groceries are to be found here at all times and we invite your inspection.

Here Are A Few Prices

on some good and staple items as listed below:

These are only a few prices. I invite competition. All prices will be met.

Irish Potatoes per lb...4½c Breakfast Bacon lb....45c

Fancy Onions per lb...4½c Pure cane sugar 12½c cash.

Coffee prices are much lower. The very best coffee grown can be bought here for 35c and as low as 25c per lb. A car of that well advertised La France flour is now in transit. The best yet. Buy where you can get quality goods at the lowest prices.

Bring your eggs and butter here. Will pay this Saturday 55 cents per dozen for eggs; and for fresh butter will pay 45c per pound in trade.

Mr. and Mrs. John Wilkerson went Saturday morning to her mother's Mrs. Hill. She was to have a birthday dinner there Sunday.

Frank Fasel has been digging his potato crop this week and will get about 20 bushels to a row, but I'm not saying how long the rows are.

Mrs. John Springer of Smyrna and daughter, Mrs. A. J. Hildebrand of Liberty were over in this community one day last week to see Mrs. Eugene Hause.

Mrs. Chatman of Ad Hall came down last week and spent a couple of days with her son, A. L. Chatman. She has a nice home where she lives but said she sure did like this Oakdale country.

Ernest Cook has been heard from by home folks. He told them not to sell any of the farm implement, as he might come back here and go to farming next year.

Mrs. Hightman and daughter, Elizabeth, are both sick. Mr. Hightman went to Milano this morning to get medicine for them. He also tried to get a Doctor Sunday.

Says Egg Feed Won't Influence His Hens Any

Mr. J. W. Ford says: You can have all of the egg-producing chicken feed you want, for as far as he knows it never did work. He bought a hundred pounds once upon a time and as soon as he fed it to his chickens they stopped laying. Then a neighbor told him about some "sure-nuff" good kind, and after feeding it the hens again went on strike. Consequently Mr. Ford has lost confidence in all kinds of egg-producing chicken feed.

Commercial Club Will Meet Monday Night

The Milano Commercial Club meets next Monday night, November 8th, at the I. O. O. F. hall in regular monthly session. The time of year is now at hand when long sessions can be held and more time given to important matters. We haven't heard about any luncheon to be served at this meeting, but that is no sign that it might not be served. If you believe in pushing a good thing along you are most cordially invited to attend the club meeting next Monday night. Bring a neighbor along with you.

Bits Of News From Around Sand Grove

Well, as it has been quite a while since I last wrote to the Gazette I'll try and send in a few items.

Leverta Jackson has returned home from west Texas.

Mr. C. M. Grabener and family were visiting at the J. C. Williams home last Sunday.

Health of this community is very poor at present. Most everyone are having chills and fever.

Our school is progressing very nicely under the management of Professor A. R. Graham.

Mr. and Mrs. C. E. Grabener were visiting friends in Temple Thursday until Sunday of last week.

Ruben Craddock has returned from Breckenridge where he has been working in the oil fields.

Mrs. C. M. Wilson of Temple was visiting at the home of her mother-in-law, Mrs. R. W. Wilson last week.

Lowell Hairston, Lloyd Ferguson and Claud Jackson returned home from McGregor last Monday where they had been working.

Mrs. H. E. Baker and her daughter-in-law, Mrs. G. W. Baker from Breckenridge were visiting relatives in this community last week.

Miss Mary McLean returned last week from Brazoria county where she has been visiting her sister, Mrs. Lambert. While there she made a pleasant trip to Houston and Galveston. "Blue Eyes."

L. T. Hughes Accepts A Position At Bartlett

Mr. L. T. Hughes left this week for Bartlett, where he has accepted the rail road position which was offered to Mr. J. H. Elam but who decided he did not want to move to Bartlett. The rail road on which Mr. Hughes is conductor runs from Bartlett to Florence, making a round trip in one day. This is the road which is said to be planning to enter the Rockdale oil fields and would give the towns of Davilla and Tracy rail road facilities when constructed.

Says This Is A Year Of Very Good Times

"Times today are certainly good according to what they were a few years ago," we heard Mr. Walter Yoskum remark the other day. He referred to the awful drouth of a few years ago when the fall and winter rolled around and the farmers had no corn, hay or other feed crops, and no money to buy any. Today, he said, there are good crops of feed, corn, fat hogs, lots of cattle and everybody has more money than they have had in a long time. "Yes sir, we have no room to grumble of hard times around Sandy Creek."

New Merchandise Still Arriving

I recently spent a number of days in the Dallas market and found on display many beautiful and useful articles in staple and holiday goods. New goods will be arriving every few days. Our line of Jewelry has already arrived and we are showing the most beautiful line that has ever been shown in Milano. I do not handle Commission Lines, but buy all my jewelry from reliable people that stand back of every piece that I offer for sale.

Following is a partial list of new Jewelry received and now on display: Men's Simmons vest chains, Dickens and Waldemar chains, watches, gold knives, collar and cuff buttons tie pins, bar pins, brooches, a large assortment of beautiful lodge pins, bars and emblems, neck chains and lockets, lavelliers, baby necklaces, lockets and rings, and a complete line of gents' and ladies' set rings in the newest shapes and mountings. Nice assortment of gold and silver belt buckles—the latest in gents' wearing apparel. Pleased to show them to you.

She Had To Fight For Her Breath She Says

"Since taking Tanlac I have gained twenty-five pounds and feel better than I have in years," said Mrs. Merry A. Cheever, who lives at the corner of 55th Ave., and 102nd street, Portland, Oregon. Continuing she said:

"I suffered twenty years with rheumatism and stomach trouble and a few months ago had to give up completely and take to my bed. I had pains all over my body and my muscles would draw up so tight I could hardly keep from screaming. At times I felt like a thousand needles were sticking in me and I had a pain over my kidneys nearly all the time. Nearly everything I ate seemed to turn to gas and caused my heart to palpitate so bad I feared I had heart trouble, and I thought every breath would be my last. I was badly constipated, too, and had simply terrifying headaches that would last a week at a time. I was so nervous I felt like crying out at the top of my voice and I lost so much weight I only weighed 75 pounds.

"A friend advised me to take Tanlac and it was simply wonderful the way I improved right from the start. I have now taken four bottles and my indigestion is entirely gone. I eat anything without the slightest trouble; my rheumatism has just about left me; I never have a headache and my nerves are steady as a clock. I am never constipated any more and my general health is so good I want to tell the whole world about what a wonderful medicine Tanlac is."

Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

Says Street To School House Is Badly Needed

Mr. J. F. Coffey says: One of the most needful commercial improvements in Milano is a well graded street to the school house. The town may need many things and demand attention in many directions, but none are as important as a decent street for the school children to travel over in attending the school. Just at the opening of the school term the weeds and grassburs were something to dishearten any child who goes to school. And it isn't much better today, for the roads and trails to the Milano school are composed of ruts, thorns, nettle, blow sand, weeds, ditches and other obstructions that almost resemble the Sahara desert. If it can't be done any other way, Mr. Coffey thinks that perhaps the Milano Commercial Club could take a hand and agitate the matter. A good idea. Something might really be done.

Local News Items Round About Town

Mrs. L. J. Stewart Of Pin Oak Passes Away

(By the Oakdale Correspondent.) Monday of last week Mrs. W. A. Belt became seriously sick again and the last of the week she received the sad information that her mother, Mrs. L. J. Stewart, had died near Gause. She had been sick only a short while, but her condition became very critical and death resulted. Burial took place at Pin Oak where others of her family are buried. Mrs. Stewart was 69 years old but did not seem to be feeble. Her sister, Mrs. Sallie Hensley of Houston was called to be at the funeral, also Mrs. Edna Trigg of Denton. Mrs. Bussa, another sister, failed to make connection and did not get to attend the burial. We all feel like Mrs. Stewart's death is so sad to Mrs. Belt.

Milano School Girls Pull Off Insidious Halloween Joke

Monday morning Mr. J. A. Touchstone, manager of the Milano gin, found a note sticking in the key hole of the door to his gin's office building which read:

If this gin isn't closed in "three days" we will burn it to the ground. "The Four."

The matter has been placed in the hands of our Constable W. E. Peel and clues were soon discovered that the note was written by several school girls and their identity is now being sought, and Mr. R. L. Batte, owner of the gin, has offered Mr. Peel \$200 reward for bringing the insidious matter to

justice. The writing of such a note constitutes a felony charge with penitentiary sentence attached and if the matter is brought into court proceedings it will mean a very serious plight for the girls. The grand jury meets next week and might make an investigation, and with the whole country stirred up about incendiary fires it would not take much argument to convict anyone found guilty of writing such a note. To the girls who wrote the note we advise them to see Mr. Peel and tell him the truth about the matter and if they played a Halloween joke they better say it.

The Black-Cap.
The black-cap, one of the songsters of England, sings a sweet, full, clear but short strain, and expresses a great variety of tones, surpassed only by the nightingale. Black-caps are most frequently found in orchards and gardens.

Says That Bridge Over The Brazos Is Assured

Mr. O. D. Baker was in Milano Thursday morning enroute home to Gause from Belton. He reported the highway meeting at Rockdale last Thursday a glorious success for Milano and Gause and says that bridge across the Brazos is going to be built. He also said our representative C. M. Beard delivered a speech at this meeting that gave the project a shove and push of vim and truthfulness such as it never had received. That's the kind of men you want to send to attend to that kind of business, Mr. Baker said, and your town and country will always get what's coming to it.

Much Excited Talk In Town On Election Day

Election day dawned with a bright and clear sky Tuesday morning and it wasn't long until voters began coming into town from all parts of the country. They rode horseback, a few walked, others came in wagons and brought the family along and a goodly share of them came in automobiles. Small bunches of men could be seen crowded together at various times of the day and the sole topic of their conversation was the election. Some few men became excited enough early in the morning so that they were unable to talk of anything else except the election all thru the day. No returns were available when the polls closed and no results were known until the next morning as the election clerks worked all night.

THOSE WHO FORGET NOT

We acknowledge receipt of 75 cents from Eddie Miles for a subscription to the Gazette.

We acknowledge receipt of a half dollar from Mrs. Lola Spaulding of the Liberty community for renewal Gazette subscription.

Captain L. Bedell left a dollar with us Saturday for a half year's renewal subscription to the old home town paper. He is one of our most appreciative subscribers the considers the Gazette a paper of much good reading matter.

Mrs. L. T. Hughes left a half dollar with us the other day just before she and the children left for Bartlett where they will make their future home and where Mr. Hughes located a few weeks ago. The Gazette will keep them well posted on their old home town activities.

Mr. W. A. Louis of the Sandy Creek community left a half dollar with us Saturday for a renewal subscription to the home paper which now goes to him at Cleburne, Texas. He and his family left that day on No. 6 and will make that city their future home. They have been residents of the Milano country for many years, and whenever they become dissatisfied with life elsewhere they will find a cordial welcome back to Milano in the event that they decide to return.

Says Conditions Will Change In Many Ways

Captain L. Bedell says: The new Republican administration will surely bring about many changes in the financial conditions of this great commonwealth. It will mean lower prices and lower wages on every hand. Of course things will not be as cheap as they were before the war, but they will seem cheap as compared to the extortionate prices we paid the past few years. You will also see a great change in rail road conditions. Money will apparently seem plentiful, as there is more of it in circulation now than ever and it will never get as scarce or as hard to obtain as in former years. And prices on the necessities of life will never come down to where they were before the war, but they will be much cheaper than they are today.

President-Elect Harding Passed Through Milano

President-elect Harding's special train passed through Milano last Sunday evening just after dark enroute to San Antonio over the I. & G. N. road. A crowd of Milano people had gathered at the depot when it was learned during the afternoon that he was coming, but the train didn't even hesitate. A bunch of flowers were thrown from the train which Tom Jones became the possessor of, and the people in general agreed with Tom that it was thrown out just especially for him.

Were You Ever Flat Broke?

A man flat broke is a pitiful sight and a deplorable fact of circumstance. Years ago it meant misery and poverty for many a family. Today it means that the man must get to work and earn some money. Such are the conditions of times. But there are the wiser ones who never go broke. They do not spend all they make, but make it a rule to always save a certain portion of their earnings by placing it in the home town bank. Then should they ever become in need they can go to the bank and draw out what they want to keep from being flat broke. The man who saves today will be wealthy a few years from now.

Whales That Walked.

Whales used to walk. That is the statement of Prof. d'Arcy Thompson, authority on fishes of the sea, in a lecture on that subject at the Royal Institution, London. He said the whale originally had four feet or fins, but that the two hind ones had simply dwindled away. In bygone ages ancestors of the present family of whales walked about much as seals do.

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor, the daughter of John White, governor of the second agricultural colony sent by Sir Walter Raleigh to the Carolinas.

Peace, Prosperity And Home Building Are Inseparable.

November 11th, Armistice Day.
Let Us Thank God On This Occasion.

Two years ago on this memorable date, the great world war ended. Disturbed and abnormal conditions have prevailed since that time, as was but natural after such an event.

But now we go back to normal costs, normal ways of living and acting. Let us make a suggestion for promoting normality in this country.

Let us catch up with the building which we normally need.

Let us properly house our families and valuable possessions. The greatest safe-guard of patriotism and prosperity is normal living.

The H-O-M-E and home surroundings is vital import. Let us discuss with you your building needs and how to meet them.

Hard Times May Be Coming Around Again

Mr. J. A. Touchstone says: He can well remember the time that he worked for 50 cents and a dollar a day, and it wouldn't surprise him if we had to work for that amount again before another Democratic President is elected. With a Republican administration for the next four years will most assuredly come lower prices for the producer, lower salary for the working classes and an apparent scarcity of money in comparison to what we have enjoyed during the past several years.

He Couldn't Put In A Full Week's Work

"I have gained twenty-eight pounds and all my old-time strength and energy have returned since I began taking Tanlac," said George L. Harding, a well known longshoreman of 914 1-2 James street, Seattle, Washington.

"For two years," said Mr. Harding, "I had indigestion so bad everything I ate seemed to act like poison to me. My stomach would cramp so I would double up like a jack-knife and I suffered constantly with headaches, constipation and dyspepsia. I had the rheumatism in my hips and legs so I could hardly lift anything—although I have been used to hard work all my life. Finally my troubles got so bad I could not work more than two or three days a week and I knew I couldn't keep going much longer.

"One night as I was sitting in the Union Hall, all doubled over with cramps in my stomach, one of the boys advised me to try Tanlac and sure enough it began to relieve my troubles right away. Now I eat anything I want and lots of it; the rheumatism has left me entirely and I work with the best of them every day. I hardly ever felt better in my whole life and Tanlac has set me so firmly on my feet it is a pleasure to give my endorsement."

The Death Of Mrs. L. J. Stewart Of Pin Oak

(By the Liberty Correspondent.)

News reached us on Thursday, October 28th of the death of Mrs. Jim Stewart of Pin Oak. It was indeed a shock to our settlement as very few knew of her illness. She leaves many sorrowing relatives and friends to mourn her death. She leaves an aged mother, Grandma Westbrook, who was almost unable to stand the grief after the news was brought to her. Mrs. Stewart leaves several brothers and sisters, as follows: Albert Westbrook, Tom Westbrook of Liberty, Dick Westbrook of Kenedy, Mrs. Edna Trigg of Denton, Mrs. Sallie Hensley of Houston, Mrs. Helen Bussa of Louisiana. Her children are: Mr. Lenard Stewart and Mrs. W. A. Belt of Oakdale, and Mr. Ab Stewart of Pin Oak. We deeply sympathize with the lonely husband who is left alone, also the dear old mother and the children in their bereavement.

Last Saturday Was

away by far the Biggest Day the Loewenstein Store has ever experienced in its career of 45 years. To the hundreds of customers who waited for hours to be served we extend our appreciation and thanks and feel assured that they were amply compensated by the values they received.

To the hundreds who were forced to leave on account of not being waited on, we say:

We did all that men and women could do to serve you all—the crowds were simply too great.

By now the news has spread all over the country of the remarkable bargains we are giving. Next Saturday will bring bigger crowds than ever.

Easy to Translate.

An Irishman was sitting in an inn in County Mayo one day, while it was raining furiously outside. A nobleman's brougham drew up at the door of the hostelry. Blazoned on the panels of its doors were the arms of its owner, inscribed with the motto, "Fides regnat ubique." "Pat," asked some one of the Irishman, "how do you translate that?" "Easy enough," Pat replied. "Fides regnat ubique"—Faith! it rains everywhere.

C. T. Woods Writes Home From the West

Milano Gazette: Have been thinking of writing to the Gazette for a long time. We left Milano September 5th and arrived at Silver Valley that night. Bro Allen Stovall met us at the train and carried us out to his home.

I did not like the country very much but like it some better now. This country is awfully rocky and rough, but crops are good and health fine. We have not had a chill in the family since we arrived here, while at Milano we averaged two chills a week in the family.

We had an awful hail storm and big rain here several weeks ago that damaged the cotton crop a good deal. I tell you me and Bro. Stovall sure did hunt that dug-out when that storm came and it wasn't a bit funny to me.

We have Bro. Paschall and Bro. John Deen for neighbors. I don't know how long I will stay here, but I do know I will stay away from Milano county. God bless the people down at Milano and my friends too, we love them all, but we don't love those chills we had there.

I find some people here and men who will accommodate a stranger here as well as anywhere else. Will try to write again some time and give a description of the country. Best wishes and love to all.

Eucalyptus Trees.

The grand eucalyptus trees in Gippsland are probably the grandest of their kind in the world, and quite as magnificent as the Californian giants, only not so large in circumference. The shedding of their bark is a misstatement. What the tree does do is this: It sheds the old, dry, broken, and coarse bark, but the new one is sound and solid, and is not shed. The new bark is clean and very smooth, no branches growing for 100 feet or more.

Lumber Prices Here At Milano Take Big Fall

Lumber prices have certainly taken a big tumble recently. In fact they have been going down hill for some time, and the Turner Lumber Company of our city have met the reaction in a business like manner by reducing their prices. Manager O. F. Tally says prices are now 40 per cent cheaper than a few months ago, and in some instances almost a 100 per cent drop has taken place; for instance their best grade of flooring sold for \$150 a thousand feet, now the price is only \$80 a thousand. Some drop, isn't it? On many kinds of lumber this firm is holding a losing hand as do all kinds of businesses when the market drops. Right now is a mighty good time for those people who made good money the past year or two to build themselves a dwelling. Lumber prices have hit the very bottom and it isn't likely they will drop any more very soon.

Dotheboys Hall.

In "Nicholas Nickleby," one of Dickens' best novels, occurs the name, Dotheboys hall. It is the name of a boarding school in the north of England, kept by a heartless villain named Squeers, a place where boys were taken in and "done for." Squeers' system of tuition consisted of alternate beating and starving. In Dickens' time, it is said, such schools existed, and his account of the one over which Squeers presided did much to bring about their extinction.

The Potato Crop Has Doubled Since Rains

Mr. E. C. Smith reports his potato crop something enormous this season when it comes to production. Since the October rains fell Mr. Smith says the potato yield has doubled, and he believes in letting them stay in the ground just as long as is safe from frost in order to let them keep growing. Mr. Smith will make something like 3,000 bushels of potatoes this season and he is now busy banking them.

Sale Prices Still Good

Our Special 25 per cent Reduction Sale will hold good for several more days. We are giving the people of the Milano country ample time and opportunity to take advantage of the big reduction we are making in prices. Some of our merchandise is actually being sold at cost and some of it below cost when the 25 per cent is subtracted from your bill, but we need the money and you need the goods. That's why we are so liberal.

25 PER CENT OFF

Figure this up on a bill of \$10. 25% is one-fourth off and one-fourth of \$10 is \$2.50. Can you save \$2.50 on a ten dollar deal any easier elsewhere? And this too, on articles that you are going to buy sooner or later this fall.

Come and see and be convinced that this is one of the best chances to buy at a bargain that you have ever had. THESE PRICES ARE FOR CASH AND APPLY TO OUR DRY GOODS, SHOES, HATS, NOTIONS, ETC.

History of Freedom of Speech.

The issue of free speech is really modern, and emerged clearly as a defensible proposition only with Milton's Areopagitica, to be followed by the widely divergent reasoning of Jeremy Taylor and Joseph Glanville, and by Locke's classical first "Letter on Toleration" (1689), which says almost the last word on the matter so far as religious differences are concerned.—James H. Robinson in Atlantic.

Seek the Higher Life.

Whatever you do, be greater than your calling; let your manhood overtop your position, your wealth, your title. Masterful living, constant growth toward a higher life, are the great ends of human existence. Your calling should be the great school of life, the great man-developer, character-builder, that which should broaden, deepen and round out into symmetry, harmony and beauty all the God-given faculties within you.—Orison Swett Marden in Chicago News.

Four Milano Citizens Have Gone Hunting

Citizens W. O. Newton, W. H. Dukes, Ed Hairston and B. U. Stewart left Monday in a Ford car for the wilds of Uvalde county on a several days' hunting trip. According to reports they went loaded for big game and they perhaps will bag something huge. That quartette is fully able to bring home whatever they went after, and if they went looking for big game we'll venture to say they will bring it home.

THOSE WHO FORGET NOT

Lawrence Graves left a dollar with us Wednesday for a half year's subscription to the Gazette for his mother, Mrs. Sallie Graves.

We acknowledge receipt of 75 cents from Mr. Raymond Dees for a renewal subscription to the Gazette which reaches his home by way of Cameron rural route 4.

Mrs. W. F. Hooker left a half dollar with us the other day for a renewal subscription to the home town paper. She told us the Gazette was certainly a good little paper and that it was a most welcome weekly visitor to her home.

Mr. L. Newman left a dollar with us some few days ago for a half year's renewal subscription to the home town newspaper. He is another one of our many appreciative subscribers who believes a newspaper is a good thing for Milano.

Tom Jones left a dollar with us the other day for a renewal subscription to the Milano newspaper. He says it is just impossible to do without the Gazette as long as it is being published and as a weekly visitor to his home the Gazette is always eagerly looked for and read.

A. J. Hairston came in from Wellborn Thursday evening on the Sunshine Special and left \$2 with us for a year's Gazette subscription which goes to his parents, Mr. and Mrs. T. A. Hairston at Wellborn. A. J. says he's going to stay here at Milano for a while and is staying at the home of Mr. Lub Hairston who lives four miles south of town.

Language of the Cliff Dwellers.
The cliff dwellers, like so many other primitive peoples, because they had no written language, expressed themselves by means of signs and crude pictures, painted upon their earthenware vessels or upon the walls near their homes.

High Taxes Are Getting Beyond His Reach

Mr. G. W. Beard says: With taxation ever increasing there is no telling what this old world will come to after a while. This year taxes over the Milano country are double what they were last year, and at every state election there appear more amendments for further taxation. Mr. Beard is progressive and believes in paying for what is right and even voted for the last school amendment, but he believes there ought to be a stopping time. He says we all know that this government could be run on just about one-half of the taxation if it was run right and economically, but extravagance is the watch-word of our public servants today. His taxes this year are something big and Mr. Beard says he don't see how he is going to be able to pay them. He is getting old and can't work or farm as he once did, but still the taxes keep ever increasing from year to year. If taxation keeps increasing the little farm owners will be forced out of business or go bankrupt and Mr. Beard believes it is time for some kind of reformation from high taxes.

Goat And Cattle Roping Contest To Be Big Event Here At Milano On Thanksgiving Day

A goat and cattle roping contest will be staged here at Milano on Thanksgiving Day. This sporting event will take place on the Burnet meadow just northwest of town and is free to all who wish to witness the fun. The contestants who engage in the affair will each pay an entrance fee and thus create a prize fund to be divided among the winners. We understand there will be roping both during the morning and the afternoon. There will also be cigar races and other amusements.

THANKSGIVING

(Contributed)

Three hundred years ago, a small but daring band
Unto our shores did sail, seeking this goodly land,
Rest and relief they sought, freedom to worship God,
Not at a King's behest, or 'neath a tyrant's rod;
Exploring here the wilderness, in pathless woods they roam,
Returning at the close of day to their humble cabin home.

Lakes with sky blue waters they found and forests deep
Under whose leafy beds, sweet violets lay asleep,
Mountains whose rocky sides hid strange gloomy caves,
Broad trees whose shadows fell on lonely Indian graves.
Each year these fearless Pilgrims, their sturdy men of might,
Risked all for home and country, for God and for the right.

Come let us all, send out the call on this Thanksgiving Day
On every side let joy abide and every heart be gay,
Mothers and fathers, old and young, laugh by the blazing fires,
Put care away on this glad day, as did our Pilgrim Sires;
And as Thanksgiving tables groan with dishes grand and new,
No true American forgets that old Mayflower crew—
You know the first Thanksgiving Day came from them to you.

The Methodist Pastor Attending Conference

Rev. R. O. Wier left Wednesday for Houston to attend the annual conference of the Methodist Church. The conference will be in session until next Monday. The new appointments will be given out Sunday, we believe, and it is not known whether Bro. Wier will again be appointed for Milano or chosen for the good of some other charge. He has been here for the past 3 years, and in accordance with the conference rulings he could remain here only one year more. The financial reports also have some consideration in effecting a change, and while Bro. Wier is not carrying an excellent financial report, it is perhaps a fair one from the Milano church. The Minerva church was somewhat short on the pastor's salary and also on conference collection. The Milano church was short principally on its conference collections and for which it is assessed \$216 a year besides the \$550 a year for the pastor and presiding Elder's salaries. The Minerva church is assessed with like amounts. Bro. Wier's financial report will be short something over \$300 from the two churches.

A Contractor Now Gives Out His Facts

"Tanlac has not only relieved me of my five years of stomach trouble, but I have gained twenty-five pounds in weight besides," said Robert McAloney, well-known contractor, of 33 York St; Halifax, N. S.

"My stomach seemed to be upset all the time," said Mr. McAloney, "and it would get sour as vinegar. Nothing tasted right or agreed with me and after forcing down a little something at mealtime I would bloat up with gas so I would be miserable for hours. There would be sharp, cramping pains all through my stomach and at times I could hardly get my breath.

"Many a night the gas bothered me so much that I walked the floor all night without a wink of sleep. I had to lay off for weeks at a time and lost thirty pounds in weight. I was habitual constipated and had a nagging headache nearly all the time. Of mornings I felt so tired and no account it was an effort to drag myself out of bed and I had suffered so long without being able to get any better I had about reached the point where I didn't care whether I lived or not."

"But I feel entirely different since taking Tanlac, for it has put me in such fine shape I eat three big meals a day without the least trouble. The constipation, headaches and lagged out feeling are entirely gone and I get up in the mornings ready for a hearty breakfast and a good day's work. I simply feel like a new man and I am glad to let others know what a fine medicine Tanlac is."

Says He Will Not Grow Any Cotton Next Year

Mr. B. N. Ashley says: He doubts if he will raise any cotton next year. If he does it will be only "enough for table use." We didn't ask him what he would plant, but we know him so well that we are sure he will plant a plenty in other things. Activities on Mr. Ashley's farm 4 miles east of Milano run unceasingly every month in the year. There is something always humming on the Ashley farm, whether it be a humming bird in the spring or a wood saw in the cold winter time. Maybe Mr. Ashley will again try his luck with the Irish potato next spring. We remember one year he made a "killing" in that line. Anyway, he's got his next year's cotton crop already grown and baled up in 7 bales which he's holding until the price gets right again. Mr. Ashley is a very successful farmer and has always grown a good crop of cotton and quite occasionally other kinds of diversified crops, but the disappointment of a fair price for cotton has discouraged him.

Proper Care of Parrots.

Parrots in the wild state live on seed and fruit and should, while in captivity, be fed as nearly as possible the same kind of food. They should be fed sunflower seed, hemp seed, boiled yellow corn, stale bread soaked in water, an occasional piece of apple or banana, roasted peanuts and dry crackers. Plenty of water and gravel should be kept in the cage. The parrot's cage should be cleaned every day.

The Wind Blows Just Right Here At Milano

The average hourly velocity of the wind at Milano throughout the year is 8 miles. In the Panhandle country of Texas it is 11 miles, and which is among the windiest in the United States throughout the year. In the states of Virginia and Washington the wind only blows an average of 4 miles an hour the year round. In Arkansas it blows about 5 miles. Thus it will be seen that the Milano country is favored with a yearly breeze that is far better than anywhere else in the United States. It is neither too much nor too little. Come to Milano to live.

Speaking About These Serious Halloween Jokes

The officers of the law got rough with the Hallowe'en spooks in Memphis, Texas, considering that the spooks were beginning to get too rough in their pranks. As a result twenty-five "spooks", ranging in age from ten years to grown men, spent the night in jail and paid fines next day. Closer home, silly school girls played a foolish Hallowe'en park at Milano, writing an anonymous note to the gin owner advising that his gin would be burned. Our young people need to learn to distinguish between wholesome fun and foolish mischief.—The Rockdale Reporter.

Sunday With The Home Folks Always Enjoyable

Mr. and Mrs. W. T. Burdick and little daughter of Taylor motored over last Saturday evening to spend the Sunday with Mr. and Mrs. W. F. Hooker. When they crossed the rail road here at Milano going to Mr. Hooker's home, one of the axels of the car broke, but W. T. had an extra one along, so they hauled the car up to the house and after enjoying the Sunday dinner the next day the rainy trip from Taylor was forgotten, and the weather continuing wet and bad they caught the evening train when they returned home.

Atmospheric Condition At Milano Very Ideal

The annual humidity or dampness of the atmosphere at Milano is 79 degrees. This is about the average of all countries lying near the coasts. In middle west Texas the annual humidity registers 60, and as far west as El Paso county it registers only 40, which is perhaps the lowest in the United States, unless it be at Death Valley in California. Certain kinds of sickly people seek a dry air, but for healthy people there is none purer than that here at Milano which registers an exhilarating dampness of 79 degrees. Everything's just right at Milano.

The Turner Lumber Company presents the Gazette readers this week with a very appropriate and beautiful piece of literature in their ad space this week. Read it and you will feel happier that it is only five days to Thanksgiving.

Milano and the entire Milano country has been in the grasp of bitter cold and wet weather the past week which has left wide open the gap for continued cold weather and winter is now perhaps here until next spring opens up again.

Thursday of next week is Thanksgiving Day, the day on which we are due to give thanks to the Supreme Ruler for the blessings and progress of the past year and we celebrate the occasion with a turkey dinner. But not many of us can always afford the turkey, but we wish all our readers a pleasant Thanksgiving.

THE PALACE OF SWEETS

E. L. and D. B. Miller, Props.

The town of Milano is 1,830 miles north of the Equator. By air line it is only 147 miles from the Gulf of Mexico. It is in the same latitude as Jerusalem over in Turkey-in-Asia, and we are approximately 7,900 miles straight west of this famous place.

Milano's Good People Make Life Worth While

Milano has always had a hard time holding its spot on the Texas map as a town. It has had many struggles of all kinds right within its own bounds. It has always had a hard name with people elsewhere. We have had many different political parties which tried to tear down what the town had already built, but we thank the Lord they haven't as yet succeeded. And it seems we have a few "Reds" who have threatened to light their torch of incendiarism, which we would never have believed existed in dear old Milano town. It makes us sad to think it is true. We have always made ourselves content with the ignorant and the moss-backs who don't believe in being progressive and public spirited, but with the "Reds" we just can't agree. The person who ventures forth in darkness to commit deeds of destruction will some day find his reward a bitter end. Leaving out the radicals and the "Reds" we can say Milano is assuredly a good town. God bless its good people.

THOSE WHO FORGET NOT

We acknowledge receipt of \$2.00 from Mr. W. L. Braun for a year's renewal subscription to the Gazette.

Mr. J. W. Cannaday handed us a dollar Wednesday for another half year's subscription to the Gazette.

Mr. O. P. Lagrone of the Summit community left \$1.50 with us Monday for renewal subscription to the home town newspaper.

Mr. J. A. McClellan left a half dollar with us some few days ago for a renewal subscription to the home town's weekly periodical.

Miss Lorena Taylor left a dollar with us Wednesday for a half year's renewal subscription to the home town paper which goes to her and her parents in north Milano.

Mr. M. J. Pierce handed us a dollar the other day for two renewal Gazette subscriptions, one of which goes to his brother, Mr. C. R. Pierce at Zephyr, Texas, and the other one was for himself.

Mr. W. C. Mobely of the Prospect community left \$2 with us the other day for a year's Gazette subscription which he sends to his daughter, Mrs. W. A. Moss and family at Mahonington, Penn.

Some Think

W. C. Mobley says: Don't lose heart over the change of our national administration from Democratic to Republican control. Times will be just as good as they have been or better. The President of the United States does not rule the money power of this country, nor does the Republican party. Wall Street is the money power of the world and England has more money in that wealth controlling machine than has the United States. No, the Republican administration will not effect the monetary conditions of the country. Wall Street alone, in New York City does that.

Says Ladies Are Needed On The School Board

We heard a very fair minded Milano lady say the other day that the Milano school board ought to have several ladies as trustees. Certainly. In fact the entire board ought to be ladies, we do believe. The Gazette made this suggestion at the last trustee election in April and printed the ballots with the names of some 3 or 4 ladies on it at the suggestion of a number of our citizens, but the board turned down the ballots. The law allows an independent school district to have its own ballots printed, in fact it says it shall print them and not use the blank forms which were used at the last election in April. The community has the right to nominate the candidates for school trustees and have the ballots printed accordingly. Then if there are any lady candidates nominated they might have some chance of election.

Restaurant Building Is Moved To New Location

The Thomas & Walker restaurant building was moved from the south side of the passenger depot this week to one of the McGee lots east of the calaboose building. Mr. Buster Hearrell and associates of Gause undertook the job of moving the building. For a number of years this building has stood on the rail road right of way and its location has been the cause of much agitation at various times. The proprietors have done a good deed in moving the building and they are now ready to better serve the people when they come to town and get hungry and want a quick lunch.

Newly Elected Officers Go In On December 1st

Officers-elect W. E. Peel and W. F. White will assume their newly elected offices as Justice and Constable on December 1st. Little as these two offices may seem, they are a great asset to the entire community and much responsibility rests upon them. They are partners in business and are the chief officers of the Justice court which meets once a month to settle many small cases of trouble. Mr. Peel is not a stranger to the local judiciary bench, for he has held that position before, and his first session of court under his new term will be held on Thursday, December 23rd. To the retiring officer, Judge J. A. Ely of Gause, the community can be truly thankful for his excellent services for two terms. He is a good man and made a fine Judge. To the new officers we place the destinies of our community and our citizenship in their hands.

Winnipeg Man Has Gained 25 Pounds

"I have gained 25 pounds by taking Tanlac and never felt better," said E. J. Coleman, well-known painter and decorator of 195 Michigan Avenue, Winnipeg, Man.

"About a year ago I had double pneumonia," said Mr. Coleman, and it left me a wreck. I was too weak to walk by my myself and my stomach was in such bad shape I could hardly eat enough to keep a bird alive. My nerves were so shattered I almost collapsed when a friend one day unexpectedly slapped me on the back. It was out of the question for me to sleep at night—I was even afraid to be alone in the dark and had to have someone in the room with me all day. My kidneys were so out of order that I had a pain across my back nearly all the time and I lost so much weight that I actually looked like a frame.

"I had taken so much medicine without getting better that I was discouraged and when my folks brought me a bottle of Tanlac I didn't want to take it; but finally I tried it and, much to my surprise, I began to improve right away. Now I am on my fourth bottle and am so well I can do as hard a day's work as any man. I eat heartily of anything I want and never have the slightest pain or trouble of any sort whatever now. As long as I live I'll never be able to do Tanlac enough for what it has done for me."

Bits Of News From The Oakdale Country

I hear all the Hightman family have gotten well again after so long a time of illness.

Mrs. John Wilkerson spent the week-end with her mother, Mrs. Hill over at Cameron.

Not changing the subject, as we never do, we have had some very nice weather this week.

Mr. Sid Hause had his son, John Hause and son of Cameron to come over and spend Sunday with him.

Mr. and Mrs. E. J. Fisher had Mr. Dick Westbrook and son of some point out west to spend several days with them last week.

Sunday Mrs. Clyde Hensley had her mother and sister, Mrs. Angel of Watts Switch to spend the day with her. Also her brother, Erwin Angel and wife from Cameron were guests at her home Sunday.

Mrs. Eugene Hause heard Sunday morning that her little girl, Miss Johnnie, who lives with her grand parents, Mr. and Mrs. Wren Springer, (I believe I tangled this item some) but Johnnie has married.

Mr. and Mrs. G. W. Batey had a little reunion Sunday evening. Mr. and Mrs. Sterling Childress of Bell county came over to see her parents in their new car; Thomas Batey came over from Rice, and Lee Batey came in from across the field, so they had a very nice time.

Our little community was rather stirred up Sunday morning when we heard that Constable Peel of Milano and Constable Sens of Cameron were called out to the Oneil place to see if they could track somebody that had poisoned some cattle in the Or tie some pos.

He Will Grow Cotton In The Black Land Again

Mr. A. J. Gunnels was in town Monday hauling out some heavy bridge timber for a new bridge across the Woodroof hollow on the Milano and Liberty road. He informed us he was going to move to Rogers again for the coming year and has rented a 150 acre black land farm in that country. Mr. Gunnels is a big cotton grower and has come to the conclusion that the black land is the best country for cotton growing. He has his own farm in the Liberty community, but believes it is wiser to rent black land than to stay on his own farm in the sandy land country when it comes to growing cotton. And of course he is right. The black land country grows wonderful cotton while the Milano country grows wonderful crops of all other kinds. There is a vast difference in these two soils and consequently there must also be a very big difference in the products of the two lands.

Says Hogs Are More Profitable Than Turkeys

Mr. J. A. McClellan says: He had much rather raise and feed an hundred pound hog than raise and feed a turkey gobbler. Turkeys, he says, are not only hard to raise, but they possess an appetite that is even more ravenous than that of a hog, and even at the present price of 28 cents cents a pound, a turkey isn't high-priced according to what the foul has devoured in food in order to make him a bird that will be fit and fat for the holiday market.

4 Cattle Dipping Cases Compromised In Court

Four cattle dipping cases came up in Justice court here Thursday of last week, all of which were compromised on a fine of \$5 each. One or two of the cases were against men who had to leave their farms and seek work elsewhere with their families and while away the cattle either crossed the county line or were not dipped. This is another instance where the law works a hardship on the little cattle owner and we commend highly the action of the court taken in the matter. Ordinarily the fine would have been \$25.

A Rent House Project Possibility Slipped By

About a month or so ago our postmaster Mr. C. Howes received a letter from some one who proposed building some rent houses in Milano and asking his advice as to whether it would be a safe or worthwhile investment. Mr. Howes says he turned the letter over to some Milano business man to reply to, but upon investigation it seems no one recollects anything about the matter. Mr. Howes says he thought the letter came from some one at Bastrop, Texas, and we had the idea that perhaps the party read about a rent house shortage in the Gazette, as a number of copies of the paper go to Bastrop each week, and if so the said party might write again and we assure him his communication will receive prompt attention if addressed to the Commercial Club or to the Gazette. We believe the building of rent houses as an investment in Milano is a good thing and ought to pay a very good dividend.

We notice some men have predicted hard times for four years. If that is so, the farmers had just as well quit, for I don't think they could be much worse off than now. If we could get anything for what we raised we could live, but now we have to take what I call nothing in comparison to what we have to pay for things. Most everybody I have heard talk say we have always experienced better times during a Republican administration. The hardest times we have ever had were when Grover Cleveland was President and cotton was selling from three to six cents a pound.

Mohammedan New Year.

The Moharram marks the beginning of the Mussulman's new year, but the date is movable, and determined by the moon. It chiefly commemorates the death of the martyrs. Ali, the prophet's son-in-law; Hasan, his grandson (poisoned by his wife), and Hosain, the younger brother, killed at Kerbela.

Newsy Items From Down About Summit

The Summit community not seeing anything from these parts lately will try to let the Gazette readers know we are still on the map.

Miss Bettie Hood has been on the sick list the past week.

There will be a basket dinner at Summit Thanksgiving Day.

Mr. and Mrs. G. W. Beard spent Sunday at the A. L. Graham home.

Mrs. W. H. Drehr was very ill Monday and a doctor from Rockdale was called to her bedside.

Mr. O. P. Lagrone came in from Rogers Saturday where he had been selling wood and potatoes.

Miss Alvenia Carr is spending the week with her sister, Mrs. Laura Kornegay, in the Pin Oak country.

Mrs. G. R. Hurt and sons, Ira and Archie, went to the home of Mrs. Henry Woods Sunday to visit, Mrs. Woods being sick.

Well, as news is scarce in these parts this week I will close and try to do better next time. "Comet."

THOSE WHO FORGET NOT

Mrs. Nettie Bradberry left a half dollar with us one day last week for additional Gazette subscription.

Mr. J. A. Morgan of the western Milano country left a dollar with us Wednesday for a half year's renewal subscription to the home town and community paper.

The Milano Gazette: Please renew my subscription to the Gazette for which I enclose one dollar. Yours, E. C. Westbrook, Santa Anna, Texas, rural route No. 2.

Mr. J. W. Williams of the Hanover community was in town Thursday and left a dollar with us for a half year's renewal Gazette subscription for Mr. J. L. York and family who have left Hanover and have moved to a location somewhere on rural route 4 out from Waco.

J. C. Hurt left a half dollar with us Monday morning for a three months' Gazette subscription which will go to him at Silver Valley, Texas. He arrived that morning from Coleman county and said he would be here only a few days, as he had to get back and plant some oats and winter grain. Says he likes Coleman county fine. Frank Lagrone is with him at Silver Valley.

Rail Road Passenger Traffic Is Falling Off

A Cameron citizen boarded No. 16 here at Milano the other night and found that there was only one passenger in the coach in which he rode to Cameron. That shows how the passenger traffic is falling off. Of course some trains are always crowded, but as a general matter passenger traffic has fallen off considerably on all roads here of late, especially in the pullman coaches. There is a notable slump in every kind of business and the rail roads are no exception to the conditions.

Aged Lady Dies From Effects Of Rheumatism

(By Our Liberty Correspondent). Grandma Conner, mother of Mr. A. J. Gunnels, died at her home here last Friday after a few days illness. She had been a sufferer from rheumatism for several years and it seemed that the rheumatism had settled in her spine which was the cause of her death. She was buried at Liberty Saturday afternoon. She leaves a husband and one son to mourn her death. We deeply sympathize with the aged husband who is left alone. He will leave here to make his home with his daughter who lives in the Davilla community.

Two Milano Citizens Attend Road Meeting

Mr. J. S. Beard and Mr. C. M. Beard went to Palestine Thursday of last week to attend the Reagan Highway meeting. They report plenty of delegates and representatives there from points along the proposed highway, but the meeting itself seemed to be a very slow affair, especially the afternoon session. Business however, picked up a little better at the night session. A huge project of this kind takes lots of time and much agitation, and the representatives at the meeting seem to think it will eventually pull through to a realization but at some distant future time.

Our Thanks And Appreciation

We are thankful to all who so readily rendered us assistance during Monday night's fire to help save our bank building, and we also extend our thanks to the Rockdale fire department for making a big effort to help us with their fire truck which was ditched when only about a mile from town. Our bank building resisted the flames well, but it required much water and fire fighting to keep the wood work extinguished. All money, bonds and papers in this bank are entirely safe from fire even though should the building be destroyed, and that is the protection we give the Milano people at all times. There is no safer place to keep your money. The bank is here for the people's use.

Store And Warehouse Of J. B. Newton & Sons Is Destroyed By Disastrous Fire Monday Night

The store and warehouse of J. B. Newton & Sons was totally destroyed by fire Monday night. About 12:30 o'clock the town was awakened from its slumbers to find these buildings a big blaze and roaring fire. The store caught fire in the rear end from the warehouse where the fire is believed to have originated and it was only a matter of a

W. T. Brooker building across the street caught fire in several places and got mighty hot, but heroic work of fire fighters kept the fire put out. The Odd Fellow building across the street was smoking hot and it looked like it would burst out in flames any moment, but thankfully it was spared. The brick bank building and the E. C.

Smith drug store withstood an awful heat and the flames licked all about the building but it proved too good a structure to be eaten up by even such a terrible fire. The firm of J. B. Newton & Sons hold their loss at \$32,000 including the buildings with insurance of \$22,000.

SOME LOCAL NEWS ITEMS

Mrs. George of Palestine was a guest of Mrs. W. L. Braun this week.

Mr. E. E. Kennedy was a Waco visitor several days the past week. He attended a Masonic gathering.

Mr. and Mrs. J. O. Newton and children motored over from Rockdale Monday afternoon and spent a few hours in our town.

Mrs. S. J. Hill of Chriesman came over last Friday and will make her home here with her daughter, Mrs. Dan Robinson and family.

Mrs. J. D. Peeples and son, Lon, spent several days in Waco the past week. They went there last Friday and returned home Sunday.

Fire broke out at one of the store buildings at Big Lump Wednesday morning at about 10 o'clock and from reports it seems to have been a big fire. The blaze was seen by many people here at Milano.

Mr. O. T. Bullock and family came in from Robert Lee, Texas, Thursday morning and are again located at their home beyond Summit. Mr. Bullock says the cotton farmers of west Texas are in a most pitiful plight, far worse than are the cotton growers of this section.

2 Cars Of Low Priced Hogs Are Shipped Out

Mr. L. B. Bradley of Lorena, and his partner Mr. Petty of Waco, shipped out another car of Milano hogs last Saturday. The car contained about 100 head, and the Saturday before they shipped a car of 135 head. Low prices were paid for the hogs, averaging from 5 to 7 cents a pound, but many of the farmers sold just to keep from having to feed them. The hogs were shipped to Lorena where they will be fed and fattened and later shipped to the Ft. Worth packing house market.

Captured 32 Opossums In Making Two Hunts

Mr. O. P. Lagrone, his sons and five dogs rounded up 20 opossums last week, and the week before they caught an even dozen. That's 32 'possums in two weeks' time. He left one of them at the Gazette office the other day for which he has our thanks. Some folks won't eat the greasy things, but when they are baked brown with plenty of yellow potatoes they taste mighty fine. Mr. Lagrone says there seems to be no end to the amount of 'possums in the Summit woods and his dogs are busy locating them every day. They make every hunt a success.

Home Town Merchants Are Best To Trade With

The Milano merchants are offering many good bargains in merchandise this winter, and we believe they are selling their goods far cheaper than are the merchants of the neighboring towns. The Milano merchants have certainly done well toward meeting the downward trend of high prices. We honestly believe it pays to trade at home. There once was a time when the mail order houses sold merchandise cheap, but not so today. They were among the first concerns to run the prices up, while the home town merchants were selling goods far below their advancing prices.

Milano Postmaster May Become A Pedagogist

If the Milano post office goes Republican in 1921 the postmasters hope to resume his former distinguished place in pedagogy and will probably aspire to the presidency of Frog Joy college.—Cameron Herald.

The Milano post office may go republican, we don't know. If third class offices are still filled by presidential appointments then there is a possibility of Milano getting a new postmaster. There are about 9,200 such positions to be appointed in the United States and will take some time to get around. And in the event that President Harding and Mr. Howes can't be political friends and the latter vacates the office, he will no doubt readily find a vacant presidency in some Frog Joy College where he can be pedagogist as of old. He is well versed in pedagogics and isn't any too old to expound his knowledge to those younger minds who are striving to grasp knowledge to fit and guide them for their future years of life. The ability of the old school master equipped with modern knowledge of scientific teaching is a vocation far superior to any postmastership.

Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

J. H. Thompson made a business trip to Thorndale last week.

A. R. Oneil is adding a room to a rent house of his this week.

W. C. Mobley has been on the puny list several days, but is better.

Some several days ago while working on a fence, Mr. H. B. Belt got a fall and was layed up for several days with a sore leg.

Mr. and Mrs. John Thompson are visiting at the home of their son, J. H. Thompson and family and expect to stay until after Christmas.

Mr. Nicholson and family are moving to our community for next year. They will live in a new house and this gives us one more good family and still room for more.

We have some men in our community who are skilled laborers, and a few days since a neighbor called on one of them to do a job of work in their line, but found him engaged for a few days, so some one referred him to another workman who was idle. The idle man was engaged and he was told about two other workmen who had been considered for the job. He then remarked something like this: "What do those two know about the work, they have no tools." But when the idle one went to work on the job his employer found he was short of tools also, but he said he had plenty of tools but they were all loaned out. All the other two men want

Something Extra Special

Out of my stock of fresh La France Flour I want every family in and around Milano to try just one sack at a special price of \$3.50 for a 48-pound sack. For those who are not acquainted with this wonderful flour, I want to say that every sack is guaranteed or money refunded if it does not please. This is an extra ordinary low price for this brand of flour, and while I have other brands of flour that are guaranteed, there is nothing that equals La France.

Make out your grocery wants for this Saturday and get other prices on every item, then bring it to me and let me save you a piece of money.

She Is The Happiest Woman In The State

"The results I have gotten from Tanlac are so wonderful that I feel compelled to tell everybody about it," said Mrs. John Poe, 601 Third St; Pekin, Ill; "and my recovery, after 15 years suffering, has made me the happiest woman in Illinois."

"Why, everything I eat caused me agony. Gas pressed up around my heart so I would faint, and when I recovered consciousness I would be limp as a rag. Lots of times my neighbors came in thinking I was going to die. I also suffered with rheumatism so bad I would have to sit for days at a time with my feet on a pillow in a chair, and my elbows were so stiff and painful I could hardly use my arms. I could hardly sleep at all and have stayed awake many a night from pain."

"My husband urged me to try Tanlac and the way it restored my health was the gladdest surprise that I ever had. Why, I have gained thirty pounds since I began taking it, my troubles have disappeared completely and I feel as splendid as when I was a girl. I just feel like I owe my life to Tanlac and I only wish I had known of it long ago."

Some of our Summit citizens have disposed of their surplus hogs recently at the low price of 5 to 7 cents a pound. It looks like there is some one always ready to take charge of what the farmer has as soon as the farmers produce it, though the farmers never set the price. Sells 26 Turkeys For 35c Per Pound Cash

Mr. J. A. Morgan of the western Milano country sold 26 head of turkeys one day this week for which he received \$85.05. The Turkeys weighed 243 pounds and brought 35c per pound. This makes \$160 worth of turkeys he (or rather Mrs. Morgan to be more accurate) sold this year. The turkeys we are sure were raised by Mrs. Morgan, but Mr. Morgan says he has 52 head of hogs which are waiting for a better market price before he sells them. Hogs at 4 to 6 cents a pound, Mr. Morgan says, are too cheap to sell.

Lady Health Inspector Examines School Pupils

A lady traveling in an automobile and purporting to be either a Red Cross worker or of the state health department has been examining the Milano school pupils this week for physical defects. She seems to have found much throat, eye and teeth trouble and no doubt some specialists' business will pick up. But at this time of the year there is always much throat trouble, but if children's necks were clothed properly instead of being bare, then there wouldn't be so very much tonsillitis, diphtheria or pneumonia.

THOSE WHO FORGET NOT

Mrs. M. E. Cook left a dollar with us last Saturday for another half year's Gazette subscription.

Constable W. F. White handed us a half dollar Wednesday morning for renewal subscription to the Gazette.

Mr. B. McGregor left a dollar with us Monday morning for a half year's renewal subscription to the old home town newspaper.

Mrs. J. B. Newton sends two Gazette subscriptions beginning with this issue as a Christmas present to Mr. and Mrs. St. Clair Byrne at Houston, and the other to Mr. and Mrs. Russell Clary at Mart, Texas.

Cecil McGregor came down from Rogers last Saturday on No. 5 and remained over here until Sunday with home folks. He left a half dollar with us for extension of his subscription to the home town paper.

Mr. and Mrs. J. E. Baker of the northern Milano country left \$1.50 with us last Saturday for two Gazette subscriptions, one for themselves and one which Mrs. Baker sends to her mother, Mrs. M. E. Halpain at Lorena, Texas, route 2.

This Curfew Has a History.

Several of the curfew bells in England are kept ringing because of some old legend or custom. That at Chertsey, in Surrey, for instance, which had been rung regularly for centuries until stopped temporarily during the great war, is the one made famous by the legend which relates how Blanch, Heriot, to save the life of her lover, condemned to die at sundown, climbed the curfew tower and held the clapper of the great bell, declaring that "curfew shall not ring tonight."

Cutting Cotton Acreage Don't Help Him Much

Mr. J. A. Morgan says: All this talk about cotton acreage reduction won't help the farmer any as far as he can see. If you raise hogs or cattle they won't bring a profitable price on the market. Look at the market today. And the same is true no matter what you grow or raise. If everybody cuts their cotton acreage they will raise something else, and that something else will be so plentiful that it won't bring anything much on the market. The method is a time tried failure.

To Clean Milk Bottles.

Milk bottles are sometimes a little hard to clean. Before emptying the teapot or tea ball take out some of the wet tea leaves, put them into the milk bottle and add a little cold water. Put your hand over the mouth of the bottle and shake it well. Rinse thoroughly with clear water. The tea leaves take off all that white deposit that makes the glass dull. This method is sure to cleanse.

Delegates Selected To Liberty Union Meeting

The Milano local of the Farmers Union met in regular monthly session on Thursday afternoon of last week at the Butts grist mill. Among the important business matters which received attention were the selection of delegates to the county Union meeting which convenes at Liberty on the first Thursday in January. The delegates selected to the meeting are: J. F. Coffey, G. W. Butts, Mrs. Daisy Hooker, Bruce Stewart and E. R. Cates.

To Our Friends

May this Christmas be the happiest of your life, and may the spirit of the season help each and every one to see the bright star of the future, that they may hew to a straight line in attaining that success and happiness to which they are entitled.

May Santa bring your every reasonable want and help you to appreciate your every blessing.

Lady Is Suffering From Accident Of Years Ago

Mrs. Ophelia Beavers has been seriously ill for the past few weeks at the home of her parents, Mr. and Mrs. J. W. Stimmons in east Milano. According to the physician's report she is suffering from the effects of sticking a nail in her foot many years ago, and as soon as she is able to travel she will go to some sanitarium for X-Ray examination.

Wounded Soldier's Hand Better After Operation

Mr. J. A. McClellan received a letter from his son, Brice McClellan who is still at the U. S. hospital at Chicago, stating that since the operation on his hand and arm he can now move his fingers a little, the first time since he was wounded in France. The physicians tell him it will be several months before he can use the hand to full advantage.

Dire Effect of Stuttering.

We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. The few that have the supreme endurance to keep on and override their handicap to success pay a terrific price for their strain. Many a stutterer begins life as wholesome and optimistic as any of us, but turns crabbed under his sufferings and breaks down nervously at the end.—Exchange

System Counts.

The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it! But when one sees the results which are possible through setting aside a definite time for definite things, one sees that it is surely worth trying.

The Milano I. O. O. F. lodge has considerable degree work on hand every Wednesday night and members of the lodge are urged to attend and assist in the work. Next Wednesday night there will be work in the initiatory and second degrees.

Watch the children and their fireworks during the holiday season. Fireworks on a windy night is a dangerous enjoyment and may cause a very dangerous fire. Too much care can not be given when children are playing with fireworks.

Our Appreciation And Greetings

There is something at this season of the year that creates a warmth of gratitude. There is something that instills in us a feeling of appreciation. It is the good will of our customers. May we continue to deserve it, and we extend to you at the same time our greetings for a merry Christmas and a prosperous New Year.

SOME LOCAL NEWS ITEMS

Mr. A. A. Tally of Waco, is a guest of his brother, Mr. O. F. Tally.

Mrs. Juanita Beavers, who has been spending several months at Waxahachie, came home last week.

The Milano school was dismissed Wednesday afternoon for the Christmas holiday season until Monday morning, January 3rd, 1921.

Mrs. L. T. Hughes and children of Bartlett, arrived in Milano this week to spend the Christmas holidays among old home town friends.

Mrs. John Beavers and children went to Navasota last week in company with Mrs. Glibreath, of that city and where they spent several days at the home of the latter.

It is stated that there will be Christmas trees at three churches in Milano this Friday night, Christmas Eve, one each at the Methodist, Baptist and Christian churches.

Mrs. S. W. Taylor and children expect to leave Thursday or Friday of this week for New Castle, Texas, to spend a few days during Christmas with Mr. and Mrs. Chas. Bando, Mrs. Taylor's parents.

Wood for the World's Pencils.

The Ozark hills of Missouri furnish wood for a great proportion of the world's supply of lead pencils. The trees are stunted red cedars which grow on the hillsides. Their trunks at the butt seldom attain a diameter of more than a foot. The red heart of the wood only is used. The white sap wood is rejected. The lumber is sawed up into "slats" and shipped to the factories in this country and abroad. No other wood seems to answer as well for this purpose.

The Gazette Has Completed Its Ninth Year

With this week's issue, the Gazette starts on its tenth year of existence. The paper has been going 9 years and has appeared regularly each week during that time. How much longer the paper will keep going is a matter which can not be ascertained. The newspaper business has undergone such great haphazards the past two years that it is almost an impossibility to keep the small town papers going, but we expect to keep the Gazette going just as long as it is practical.

Not a "Cheap Duchess."

Everyone told stories about Queen Victoria. The one I liked best was of her correction of a draft letter to say that the duchess of Connaught was to join the queen's train. The queen wrote in pencil on the draft, "You should always describe the duchess as 'her royal highness,' to show that she is not a common duchess."—From "The First World War," by Colonel Repington.

W. J. Springer Family Are Back Home Again

Harvey and Kyle Springer, who came back to Milano some few weeks ago from the Panhandle country, inform us that their mother, Mrs. W. J. The boys say they much prefer the Milano country to the plains country and are glad to be back among old friends and the familiar home scenes again.

Local News Items Round About Town

Watch the children and their fireworks during the holiday season. Fireworks on a windy night is a dangerous enjoyment and may cause a very disastrous fire.

This Saturday will be Christmas Day and the general merchandise stores in Milano will be closed all day. The drug stores and restaurants will likely remain open thru-out the greater part of the day.

Mr. and Mrs. J. C. Stone and children left last week for Hubbard City, near which place they will make their future home. We regret that this family have left our community, but wish them every happiness in their new home.

Tuesday of this week was the shortest day of the year and now the days are gradually getting longer again to the extent of a minute or two each day. This fact reminds us that the sun is coming north again and that mid-winter in the southland is slowly passing.

Henry Kohut, who is living three miles south of town, came down last Saturday on No. 5 from Buckholts where he was visiting his kin-folks. He had been picking cotton in Bell county for nearly two months close to Cyclone, and says the cotton pickers all have more money than the cotton growers have.

Mr. J. W. Williams, who lives near the Hanover community, was in town some few days ago. We heard him say he raised 14 bales of cotton this year and he sold all but 3 of them. He managed to get them on the market before the price dropped so much. The other three bales are held for a better price.

The Milano Odd Fellow lodge bought a box each of apples and oranges Monday and had them shipped to the Odd Fellows Home at Corsicana for the children at that institution. The Milano lodge has done this for a number of years, and with what other lodges send in, the children will no doubt enjoy a very nice festivity during Christmas.

Parson J. P. Price, colored, managed to get up and about town Tuesday after a two weeks' lay-up of a crippled back and illness. Jim says he was home all by himself and when the wood pile got slim he became mighty nervous, but thankfully some friends of his and some of the white folks looked in occasionally and did what they could for his ease and recovery.

The United Cotton Growers Association which organized a local here at Milano and at surrounding communities, is now no more. It merged itself a few weeks ago with the Farm Bureau Federation with headquarters at Dallas. No wonder the farmers can never get organized. But we hope the Farm Bureau Federation will give our Milano farmers something for that \$10 membership fee which they paid in.

Captain F. M. Cooke Says He Feels Fine Now

"A few bottles of Tanlac made me feel just like a new man," said Captain F. M. Cooke, of 144 East Winifred Street, St. Paul, Minnesota, for 15 years a conductor on the Great Northern rail road and one of the most popular men of the system.

"For years," continued Captain Cooke, "I had stomach trouble so bad that what little I did manage to eat would cause me to become terribly nauseated. Gas pressed up against my heart so I could hardly breathe, and I had terrific headaches that would last two or three weeks and nearly drive me wild. I would become so dizzy at times that I had to hold to something to keep from falling, and my nerves got in such shape I could sleep but very little. Every morning I felt dull and heavy and all run down.

"Nothing I tried did me any good, and I kept getting worse until a friend suggested that I try Tanlac. I followed his advice and to make a long story short, I never felt better in my life than I do now. I eat everything they set before me and nothing disagrees with me. Every symptom of all my troubles has left me completely and I feel ten years younger. Tanlac has certainly won my gratitude."

Gazette Is Issued One Day Earlier This Week

The Milano Gazette appears this week one day earlier so as to observe Christmas Day as much as possible. This is one day in the year on which we like to get away from work and we are sure almost everybody else does. We wish all our readers, and advertisers a very merry Christmas, aglow with happiness and good feeling, and trust you will enjoy the occasion for a whole week. Then with the approach of the New Year we wish you a most prosperous and happy future through the year 1921. May the year be one of great things.

Sapphires and Diamonds.

The sapphire is probably not as valuable as the diamond, roughly speaking, although comparison is difficult, owing to taste in color, and to the differing values as size increases. For instance, the price of a diamond rises in proportion to the square of its weight, a two-carat stone bringing four times as much as one of one carat. (Let me add that 151 1/2 carats equal one ounce Troy weight.)

Farmer Does Not Make What Merchants Make

Mr. G. W. Butts says: Farmers are in worse financial straits today than they have experienced in many years. But he is hopeful that the situation may be remedied either by congressional laws or by organization of the farmers. As an illustration, Mr. Butts cites his own predicament. He has a farm with something like 5 or 6 thousand dollars invested, still he is a poor man and his family have not the comforts or necessities of life which they are entitled to. On the other hand a merchant or business man with five or six thousand dollars invested in business has all he desires. He has his automobile, his family has nice clothes and live in a nice home, and when they wear out the old car they get a new one without delay or perhaps have several. This contrast shows there is a great inequality somewhere. The farmer is as much entitled to success as is the business man, and unless the farmer achieves this success then they will quit the farming business.

Something Extra Special

Out of my stock of fresh La France Flour I want every family in and around Milano to try just one sack at a special price of \$3.50 for a 48-pound sack. For those who are not acquainted with this wonderful flour, I want to say that every sack is guaranteed or money refunded if it does not please. This is an extra ordinary low price for this brand of flour, and while I have other brands of flour that are guaranteed, there is nothing that equals La France.

Wives for Colonists.

In 1621 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't be sorry!"

Come To Milano To Trade

And Bring the Family Along

Milano merchants are the best friends you have. They accommodate you with many favors and sell their merchandise reasonably. They are here as benefactors to our community and they have your family's welfare at heart. It is harmful to make your living here and spend your money in another town. It keeps our community poor.

Bury the pessimist and the croak-or-out in the post oak woods in a beautiful hole in the ground, where the woodpecker pecks and the bumble bee hums and the doodle bug doodles around. He is no good to Milano, too unpractical, stingy and dead; but they want the whole earth and all its crust and the brilliant stars that shine over-head. Then hustle them off to the bumble bees' roost and bury him deep in the ground; they are of no use in Milano, get them out of the way and make room for the men that are sound.

People Of Milano Feel Loss Of Newton Store

Following the disastrous fire destruction of the J. B. Newton & Sons store last week, the Milano people have but one desire in common, and that is to see the firm re-establish themselves in business. Many people have been heard to remark that "the Newton store was a guarantee of their family's living" during the credit season, and without it they would be lost from much accommodation. The Newton store has been doing business in Milano so long that the people of the Milano country can hardly get along without the firm's assistance, and the people are hoping that the store will be re-established at an early date. The magnitude of the firm as a community benefactor was great.

The Memory Of Her
Will Linger For Always

(By Pikes Peak Correspondent).
On Monday night, December 13th, at 10 o'clock, the death angel claimed all that was mortal of Maude, the oldest daughter of Mr. and Mrs. Edward (Bud) Hairston. Her spirit winged its flight across the dark river of death and left this trou-lesome world to dwell with God and his Angels for evermore. Maude was a sweet girl and loved by all who knew her. She was taken away in the very prime of life, but our loss is Heaven's gain. Oh grave, where is thy victor? Oh death, where is thy sting? God needed another angel to shine, so He called forth their precious Maude. Her remains were layed to rest in the Sandy Creek Cemetery.

Walk Around a Ring.

A Tennessee investigator made a series of more than fifty experiments for the purpose of disproving the asser-tion that blindfolded persons walk in circles, but he was unable to do so, for all the persons in the tests depart-ed from the straight line as they walked away from the starting point.

For Age Computation.

To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multi-ply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

THE C. HUDSON STORE

Firm Of Newton & Sons
Expect To Re-establish

Is is the hopeful intention of the firm of J. B. Newton & Sons to re-establish their store at an early date, following the disastrous fire destruction of last week. Ever since the fire the members of the firm and the office force have been busy trying to get the business in shape in order to gain some decision on just what they can do. The fire insurance adjusters have been de-layed in their arriving at Milano, and until the insurance matters are straightened out, it is impossible for the firm to state what their fu-ture plans will be, but are hope-ful of going back into business. The firm has opened temporary of-fices in the Milano bank and are trying to get their books and busi-ness affairs in such a shape that they can figure out future plans. The origin of the fire that destroyed the Newton store and warehouse is still a mystery and will perhaps never be solved. Public opinion has voiced much belief that the fire was of incendiary origin by Mexicans. Two of this nationality are now serving sentences in the penitentiary for burglarizing the store. Other people believe the fire was caused by rats carrying matches or per-haps it was spontaneous combus-tion or some other natural cause.

T. B. Niles Home Has
Lost Its Shining Jewel

Little Ruby Ann Opal, the 3 year old daughter of Mr. and Mrs. T. B. Niles, died at the family home in the northern Milano country Wednesday night of last week and was buried at the Milano cemetery Thursday afternoon. The little child had been very ill for several days with throat trouble, and al-though everything possible was done to save its life, it was called to it heavenly reward among the angels there. The bereaved parents have the sympathy of the entire community in their time of sadness.

Locomotive Fire Cost.

The cost of kindling fires in locomo-tives is said to range from 68 cents to \$1.14, according to the size of the en-gine. These figures represent the cost when dry shavings, the cheapest kind of kindling, are used. Multiplied by 83,000, the number of locomotives in this country, the difference between the cheapest and the most expensive kindling would naturally amount to millions of dollars annually.

Oakdale Lady Sees The
Brighter Side Of Life

Mrs. Sid Hause says: She doesn't like to hear people crying about hard times and expressing their pessimistic opinions about such conditions. It doesn't do any good to fret and ponder over such things, she cited, and we would be far bet-ter off if we didn't let them worry us. It doesn't better conditions to be a "calamity howler" and if we just jog along in our own every day concerns of life we will soon find we have forgotten much about the hard times and the first thing you know other times have rolled around. And Mrs. Hause is very correct. The most prosperous people anywhere are those who never worry or kick-about times, but just keep on going along about their business whistling or smiling and ap-pear to always be happy. This old world has been jogging along for thousands of years, and still the sun rises and sets as beautifully as ever. Every day is a brand new day filled to over-flowing capacity with new hopes and better prospects for us all.

THOSE WHO FORGET NOT

Mrs. M. E. Cook left a dollar with us last Saturday for another half year's Gazette subscription.

Constable W.F. White handed us a half dollar Wednesday morning for renewal subscription to the Gazette.

Mr. B. McGregor left a dollar with us Monday morning for a half year's renewal subscription to the old home town newspaper.

Mrs. J. B. Newton sends two Gazette subscriptions beginning with this issue as a Christmas present to Mr. and Mrs. St. Clair Byrne at Houston, and the other to Mr. and Mrs. Russell Clary at Mart, Texas.

Cecil McGregor came down from Rogers last Saturday on No. 5 and remained over here until Sunday with home folks. He left a half dollar with us for extension of his subscription to the home town paper.

Mr. and Mrs. J. E. Baker of the northern Milano country left \$1.50 with us last Saturday for two Gazette subscriptions, one for themselves and one which Mrs. Baker sends to her mother, Mrs. M. E. Halpain at Lorena, Texas, route 2.

This Curfew Has a History.
Several of the curfew bells in England are kept ringing because of some old legend or custom. That at Chertsey, for instance, which had regularly for centuries "temporarily" during the one made famous by the life of her lover, condemned to die at sundown, climbed the curfew tower and held the clapper of the great bell, declaring that "curfew shall not ring tonight."

Cutting Cotton Acreage Don't Help Him Much

Mr. J. A. Morgan says: All this talk about cotton acreage reduction won't help the farmer any as far as he can see. If you raise hogs or cattle they won't bring a profitable price on the market. Look at the market today. And the same is true no matter what you grow or raise. If everybody cuts their cotton acreage they will raise something else, and that something else will be so plentiful that it won't bring anything much on the market. The method is a time tried failure.

To Clean Milk Bottles.
Milk bottles are sometimes a little hard to clean. Before emptying the teapot or tea ball take out some of the wet tea leaves, put them into the milk bottle and add a little cold water. Put your hand over the mouth of the bottle and shake it well. Rinse thoroughly with clear water. The tea leaves take off all that white deposit that makes the glass dull. This method is sure to cleanse.

Delegates Selected To Liberty Union Meeting

The Milano local of the Farmers Union met in regular monthly session on Thursday afternoon of last week at the Butts grist mill. Among the important business matters which received attention were the selection of delegates to the county Union meeting which convenes at Liberty on the first Thursday in January. The delegates selected to the meeting are: J. F. Coffey, G. W. Butts, Mrs. Daisy Hooker, Bruce Stewart and E. R. Cates.

Lady Is Suffering From Accident Of Years Ago

Mrs. Ophelia Beavers has been seriously ill for the past few weeks at the home of her parents, Mr. and Mrs. J. W. Stimmons in east Milano. According to the physician's report she is suffering from the effects of sticking a nail in her foot many years ago, and as soon as she is able to travel she will go to some sanitarium for X-Ray examination.

Wounded Soldier's Hand Better After Operation

Mr. J. A. McClellen received a letter from his son, Brice McClellen who is still at the U. S. hospital at Chicago, stating that since the operation on his hand and arm he can now move his fingers a little, the first time since he was wounded in France. The physicians tell him it will be several months before he can use the hand to full advantage.

J. H. BURNET

Dire Effect of Stuttering.
We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. The few that have the supreme endurance to keep on and override their handicap to success pay a terrific price for their strain. Many a stammerer begins life as wholesome and optimistic as any of us, but turns crabbed under his sufferings and breaks down nervously at the end.—Exchange.

System Counts.
The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it! But when one sees the results which are possible through settling aside a definite time for definite things, one sees that it is surely worth trying.

The Milano I. O. O. F lodge has considerable degree work on hand every Wednesday night and members of the lodge are urged to attend and assist in the work. Next Wednesday night there will be work in the initiatory and second degrees.

Watch the children and their fireworks during the holiday season. Fireworks on a windy night is a dangerous enjoyment and may cause a very dangerous fire. Too much care can not be given when children are playing with fireworks.

Our Appreciation And Greetings

There is something at this season of the year that creates a warmth of gratitude. There is something that instills in us a feeling of appreciation. It is the good will of our customers. May we continue to deserve it, and we extend to you at the same time our greetings for a merry Christmas and a prosperous New Year.

SOME LOCAL NEWS ITEMS

Mr. A. A. Tally of Waco, is a guest of his brother, Mr. O. F. Tally.

Mrs. Juanita Beavers, who has been spending several months at Waxahachie, came home last week.

The Milano school was dismissed Wednesday afternoon for the Christmas holiday season until Monday morning, January 3rd, 1921.

Mrs. L. T. Hughes and children of Bartlett, arrived in Milano this week to spend the Christmas holidays among old home town friends.

Mrs. John Beavers and children went to Navasota last week in company with Mrs. Gilbreath, of that city and where they spent several days at the home of the latter.

It is stated that there will be Christmas trees at three churches in Milano this Friday night, Christmas Eve, one each at the Methodist, Baptist and Christian churches.

Mrs. S. W. Taylor and children expect to leave Thursday or Friday of this week for New Castle, Texas, to spend a few days during Christmas with Mr. and Mrs. Chas. Bando, Mrs. Taylor's parents.

Wood for the World's Pencils.
The Ozark hills of Missouri furnish wood for a great proportion of the world's supply of lead pencils. The trees are stunted red cedars which grow on the hill-sides. Their trunks at the butt seldom attain a diameter of more than a foot. The red heart of the wood only is used. The white sap wood is rejected. The lumber is sawed up into "slats" and shipped to the factories in this country and abroad. No other wood seems to answer as well for this purpose.

The Gazette Has Completed Its Ninth Year

With this week's issue the Gazette starts on its tenth year of existence. The paper has been going 9 years and has appeared regularly each week during that time. How much longer the paper will keep going is a matter which can not be ascertained. The newspaper business has undergone such great haphazards the past two years that it is almost an impossibility to keep the small town papers going, but we expect to keep the Gazette going just as long as it is practical.

Not a "Cheap Duchess."
Everyone told stories about Queen Victoria. The one I liked best was of her correction of a draft letter to say that the duchess of Connaught was to join the queen's train. The queen wrote in pencil on the draft: "You should always describe the duchess as 'her royal highness,' to show that she is not a common duchess." —From "The First World War," by Colonel Repington.

W. J. Springer Family Are Back Home Again

Harvey and Kyle Springer, who came back to Milano some few weeks ago from the Panhandle country, inform us that their mother, Mrs. W. J. Springer, will arrive some time this week from Paducah and the family will make their home on the Charley Martin place near Summit. The boys say they much prefer the Milano country to the plains country and are glad to be back among old friends and the familiar home scenes again.

School Notes

The great "Trigg" bill is about to pass in the senate of the civics class, due mostly to the worthy "Beard" oration.

The foot ball team is practicing with a vim and is doing splendid work. Will soon be ready to gather in the victories.

Our high school girls have their basket ball team in readiness for the coming season and will begin practice right away.

Mable says: "If Uncle Sam would take a hint from ancient days and throw a corps of women in the field, he'd never have a foe!"

Mr. Dechert—"Make a sentence using the word butter." Seventh Grader—"Sister would-a-caught the train butter hobble skirt was on.

If Henry could let his thoughts drift from: "As sure as the vine grows around the stump, you are my darling sugar lump," he could probably break the argument. Why not try him!

Theater Notice—Maud Hooker wishes to announce her grand play, "The Magic Sword." Will be given in her father's barn tomorrow afternoon if she doesn't have to go to town to get a new pair of shoes.

Lessie, Lillian and Claudie failed to get their history last week, and so took Mr. Roark's advice and came to town and purchased some candy and sucked the red off, regardless of Gertrude being tardy.

As No. 5 neared Milano not long ago with Elie Bryant aboard, who was coming here to prepare himself for the struggles of life in our high school, the negro porter approached him and asked: "Shall ah bresh yo' off?" "Not on your life," replied Elie. "I'll get off this train in the usual way just as soon as she stops."

Our good citizen Mr. James Stewart called around at the Gazette office Tuesday morning with his usual perennial smile and laid down another dollar before us for a year's subscription to the Gazette for his son, Mr. J. A. Stewart of our city. Mr. Stewart sends the Gazette to all of his children and to many of his relatives and he says he's never through—just waiting for his bank roll to grow a little taller and fatter.

In their native land Chinese have their own peculiar way of advertising. The biscuits bear the imprint of the baker, and ducks bought in the Celestial markets frequently show on their backs a big red stamp bearing the name of the seller.

Pin Oak News

We are having some fine cotton picking weather now.

Mr. L. W. Kornegay was hauling cotton to Gause last Friday.

Messrs. Alex and Bob Kornegay and Mrs. Kornegay were shopping in Gause Saturday.

Mr. Ed Davis of the Cedar Creek settlement, spent the past week in the Pin Oak settlement.

Mr. Bob Morgan passed through these parts Tuesday of last week on his way to the river bottom.

Mr. Lee Kornegay of Rogers, passed through our settlement one day the past week. Stayed over night and returned the next day.

Messrs. Alex Kornegay and John Beavers were seen going somewhere Saturday night. Ask them where they went and what the norther did to them that blew up that night.

Well, I will ring off as I am an old green hand at this here kind of business. "New Comer."

Mr. Charles Trigg and Miss Delia Miller attended preaching at Hanover Sunday night where services were conducted by Rev. C. H. White.

TRUCK FARMING

AT MILANO

At Milano is where a few acres will produce a crop that will bring more clear money than a cotton and corn farm. You plant, gather and sell your truck by July 15th, with only about six months' work. An average family can work 25 acres, 8 acres in truck, 10 acres in cotton and 7 acres in feed. If they work they can make a good living and save some money.

WHAT OTHERS DID THE PAST SEASON

Here are the names of a few of the Milano truck growers and the number of acres planted in tomatoes, and how much they sold for:

B. N. Ashley.....	6½ acres	1,500 crates	\$950.00
Sam Devall	5 acres	1,250 crates	850.00
G. W. Hilliard.....	2 acres	513 crates	325.00
J. T. Haines.....	1¼ acres	376 crates	225.00
J. F. Nelson.....	3 acres	829 crates	520.00
M. L. Rutherford.....	8 acres	800 crates	480.00
E. C. Smith.....	8 acres	2,400 crates	1,150.00
W. T. Slaughter.....	4 acres	900 crates	600.00
W. M. Silvey.....	1½ acres	515 crates	390.00
McClung & Suttle.....	3 acres	1,760 crates	1,056.00
Mack Dees	1½ acres	500 crates	300.00
J. H. Burnet.....	1¾ acres	728 crates	558.00
Tim Woods.....	4 acres	1,457 crates	874.20
J. T. Morgan.....	2 acres	725 crates	456.50
Tom Harriott	2 acres	800 crates	480.00
J. D. Ruby.....	4 acres	1,050 crates	600.00
Kelley & Baggett.....	5 acres	1,800 crates	1,080.00
G. A. Adams.....	2¼ acres	783 crates	537.10
Arthur Bell	4 acres	1,500 crates	900.00
W. A. Stewart.....	1 acre	300 crates	192.00
J. T. Moore & Sons.....	10 acres	2,000 crates	1,250.00
M. Arrington	2 acres	600 crates	360.00
O. P. Lagrone.....	¾ acre	372 crates	193.10
G. R. Hurt.....	1½ acres	650 crates	390.00
W. R. Sneed.....	4 acres	675 crates	405.00
J. T. Davis.....	3 acres	1,100 crates	675.00
W. W. McCullum.....	2 acres	850 crates	510.00
R. L. Williams.....	1½ acres	500 crates	325.00
Sam McGregor	3½ acres	1,643 crates	985.80
Theo. Brooker	1 acre	300 crates	180.00
W. R. Dennis.....	¾ acre	230 crates	238.00
R. L. Lewis.....	6 acres	1,850 crates	1,295.00
McGee Brothers	2½ acres	550 crates	335.00

Most all of these truck growers have other truck crops, also cotton and corn. I have several truck farms to rent and a few to sell. You can buy a truck farm from me by paying one-fourth of the crops grown on the land. My price is \$75 per acre with 8 per cent interest. I make this proposition to men who will work. No sorry, trifling people need not write me. You can write any of these truck growers about this country and their crops.

Yours truly,

MILANO, TEXAS

THE MILANO GAZETTE
BY C. H. LISTER

Entered as second class matter January 13, 1912 at the post office at Milano, Texas, under the Act of March 3, 1879.

Subscription: 6 months 50c; 1 year \$1.00

Any erroneous reflection upon the character or reputation of any person or firm which may happen to appear in The Gazette will be gladly corrected if our attention be called to the matter.

Milano, Texas, Saturday, Oct. 18, 1913.

During the past month of September the Santa Fe Railroad Company paid the Gazette \$9.30 for advertising during that one month. That's pretty good for a railroad, in fact fine. But the idea is this: Ever notice how much the I. & G. N. Railroad Company advertises in the Gazette? Not a frazzling cent. It advertises on the same order that it erects its new depot. Anyway the Santa Fe does the business and the same can be said about a store, that the ones that advertise are the ones who do the business.

The Income Tax is a now a new feature of taxation in the United States. This hits everybody that earns a salary of \$3,000 or more a year—thus missing the Gazette editor by a safe margin of \$2,999. Folks earning from \$3,000 on up to \$20,000 per year must pay a tax of 1 per cent, or from \$30 to \$200 a year on their incomes. The rate runs from 1 to 7 per cent, and people earning \$500,000 or more must fork over 7 per cent of it. This effects the entire United States and if you don't like it you can move over to Old Mexico. The income tax is going to make Uncle Sam healthier by the the sum of \$82,000,000 every year.

W. F. Davis, a typical old time printer, was in Burlington Tuesday assisting with the setting up of the Burlingtonian. Mr. Davis was from everywhere and was bound for everywhere he could secure a few dollars at the type cases. He has been working for our good friend Lister of the splendid little paper, the Milano Gazette.—Burlingtonian.

Our friend Davis is one of some forty-odd printers that have passed through our city since we have been located here, and we have never failed to assist a single one. Some came to us hungry, others almost frozen from cold and foot sore from walking and hardly able to set a little type. In the past two weeks three of these old timers visited us and received aid from us, both financially and edibly. Two didn't even set a line of type. But our friend Davis mentioned above, made the type click in the good old fashioned way for an entire day. We once worked with this good man many years in Dallas county and we were to see him and his visit was enjoyed. May success be his.

Here is A Problem Dedicated To The Milano School Children

Here is a problem for some of our school boys and girls who are extra good at mathematics. We are not going to give a great big prize for the solution of this problem, but we will publish the names of those who work out the example. The problem is this: Mr. Tim Woods has 50 crates of tomatoes. Mr. John Baggett has 30 crates and Mr. Sam Devall has 10 crates. All three of these people bring their tomatoes to town and unload them at the store of J. B. Newton & Sons and receive exactly the same price per crate and each one gets the sum of

\$10 for their separate load. The solution is to show in figures how Mr. Devall and Mr. Baggett managed to get the same amount of money and the same crate quotations as did Mr. Woods who had more tomatoes than Mr. Devall and Mr. Baggett put together. Send or leave your solutions at the Gazette office not later than Tuesday evening. If no one is able to exemplify how Mr. Devall can get just as much money for 10 crates of tomatoes as Mr. Woods gets for 50 crates, then the Gazette will publish the solution in next week's issue of the paper.

S. W. TAYLOR, Agent, Milano, Texas

Our citizen Mr. Amos Hairston left Monday night for a visit to his son's way down southwest in Uvalde county. Uncle Amos says he expects to be gone about a month. This will just give him time to get back home for the big 'possum sup if he doesn't forget about it.

Three more weekly counts will be made in the Hudson-Peoples double piano and sewing machine contest. The contest closes Friday, October 31st, and the final count will be made the next day, Saturday, November 1st. No votes will be received after 6 o'clock on the 31st.

Do Your Eyes Need Help?

We have arranged with the A. K. Hawkes Company of Atlanta, Georgia, to have with us on November 11th and 12th, one of their expert Opticians. If you need new glasses or if your old ones are unsatisfactory, visit our store during this period and let our Optician examine your eyes and adjust your glasses. Remember we have arranged this engagement and secured the services of a man of ability and reputation, and we personally guarantee his work. All examinations are free, and only regular prices will be charged for glasses.

Don't forget the date, November 11th and 12th, and be sure to take advantage of this exceptional opportunity.

Yours very truly,

J. D. PEEPLES

THOSE WHO FORGET NOT

Mrs. J. T. Robinson left a dollar with us Monday for a half year's subscription to the Gazette.

Mr. J. A. McClellan left a dollar with us Thursday for another half year's renewal subscription to the old home town periodical.

Mr. H. C. Marshall, principal of the Milano school, left a half dollar with us the other day for additional subscription to the Gazette.

Mr. A. J. Hildebrandt of the Liberty community left a dollar with us last Saturday for another half year's Gazette subscription.

Milano Gazette: Enclosed find 50 cents for which send J. M. Nichols the Gazette for another three months and change the address to Ballinger, Texas, route A. The old address was Rowena, Texas. There are hundreds of bales of cotton in the fields in this country ready to pick, but it won't pay the picking. Wish I was back at Milano. Give my regards to all. Miss Clairette Nichols, Ballinger, Texas, route A.

News From People Down About Summit

Mrs. A. S. Hurt is reported some better and improving slowly.

Miss Bernice Beard of Marlow spent the week-end with home folks.

Mr. Marvin Hood of down near Chriesman was visiting his father here one day last week.

Quite a crowd of our young folks spent the day at the home of Mrs. G. R. Hurt last Sunday.

Mr. Sam Hood was visiting over in the Smryna community last Saturday night and Sunday.

Mr. Willie Nichols of Haspin spent Saturday night at the home of Mr. and Mrs. O. P. Lagrone.

Mrs. Schrader's brother, who was visiting here for a while, has returned to his home at Houston.

Cutting stalks and plowing seems to be the order of the day out here. Most every one is getting ready for the 1921 crop.

Mr. O. P. Lagrone and Mr. C. M. Beard attended the county union meeting at Liberty last week and report having a fine meeting.

Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't he be sorry?"

A West Texas Oil Man Says Milano Big Field

Carson Blacklock, a newhew of Mr. and Mrs. G. W. Miller of the Liberty settlement, spent a few days with them. Christman and incidentally gave his opinion about oil prospects in the Milano country. Mr. Blacklock is an experienced oil workman and has been in the California oil fields and is now at the Alpine oil fields in west Texas, Brewster county. About Milano, he said this country is almost a duplicate of a famous California oil field and he was satisfied there was lots of oil below all this Milano country. That's what all Milano folks hope.

SOME LOCAL NEWS ITEMS

Mrs. John Thomas went over to Gause Thursday afternoon on No. 4.

Mrs. J. F. Coffey and Mrs. Dan Robinson were business visitors over at Rockdale Friday of last week.

The Milano plant farms are beginning to ship out vegetable plants, cabbage and onion plants moving.

Mrs. J. D. Peoples, Sr.; returned home Saturday from Navasota where she spent the week with her daughter, Mrs. T. J. Thomas.

Mrs. Rufus Butts and baby came down from Temple Sunday and is a guest at the home of her grandmother, Mrs. Dan Miller this week.

The Somerville school basket ball team is billed to play the Milano school team Friday of this week, provided the grounds dry off in time, otherwise the game is postponed.

Later: We learn the games will be played, two of them, one by the girls and one by the boys of both Somerville and Milano. The games start at 3:30 p. m. and the admission price is 15 and 25 cents.

Newsy Items From Down Near Elevation

Mr. and Mrs. Iiams were on the sick list a few days last week.

Jim Hurt has rented the A. R. Graham farm for another year.

Professor A. R. Graham's children have been real sick but are improving. They spent the holidays with relatives at Gause.

Mrs. A. S. Hurt has been very critically ill for several weeks. Mrs. Tom Silvey of Milano was called to her bedside, also Mr. and Mrs. Walter Matthews of Chriesman.

The home of Mr. and Mrs. Henry Woods of lower Cedar Creek was an enjoyable place during the holidays. They had a big crowd there on Christmas day and a big dinner, with many relatives there.

Our teacher, Miss Myrtle Worthington, had a Christmas tree at the school house for the children, and believe me, they had a nice tree. It was pretty well loaded and every child received a present. Miss Myrtle made as nice a talk as ever we heard and the singing by the pupils was well rendered.

Wives for Colonists.

In 1621 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Men's Shoes Cheaper Right Here In Milano

We met a Milano man the other day, and a mighty good citizen is he, who showed us a pair of shoes he had on. Said they cost \$7.50 at the J. C. Beard store in Milano, and further stated the same shoes in Rockdale would have cost him \$9. We quickly agreed with him. For they were an exceptionally fine pair of shoes, not work shoes, but nice dress shoes, good enough for a rich man to wear and good enough for any Milano citizen who wanted something nice. And we were proud of the fact that we too, had on a pair that cost us \$7.60, in Milano.

Local News Items Round About Town

Mr. and Mrs. W. L. Braun left Saturday for Chicago where Mr. Braun went on rail road business.

John Evard, Jr.; returned to his home at San Gabriel Monday after a several days' visit here at the home of Mr. W. H. McGee home.

Mr. G. W. Butts shipped out his first shipment of vegetable plants this week from his plant farm. He reports having some mighty nice plants now ready for early planting.

Mrs. Sarah Stewart had her home considerably improved recently by having it weather-boarded. Looks like an entire new structure to say nothing of the warmth it now affords by the improvement.

Judge W. E. Peel will hold a special session of the Justice court here at Milano next Monday to consider a case styled "Forcibly Enter and Detainer." The case represents Gause parties on real estate matters.

To citizen Mr. Dan Robinson belongs some considerable credit for having given Milano its first example of civic park improvement. Have you seen that little depot park attraction by the side of his office and rail road repair shop? If not, take a look at it some time.

Mr. M. J. Pierce and Miss Myrtle Worthington went to Cameron Saturday to take the civil service examinations held there for post office departmental help. Besides these two, there were only four other people there, making a total of only 6 who stood the written examination.

Mr. T. C. Westbrook and family of Santa Anna, Texas, have moved back to the Milano country and are located out on route 2. They left here about a year ago. Mr. Westbrook says the west is all right as long as the cotton crop and the cotton market are all right but with a paralyzed cotton situation the west becomes a demoralized country.

Mr. Frank Mills, who was seriously hurt while working on the rail road here some two weeks ago, underwent an operation at the Santa Fe hospital at Temple Monday. The operation we understand, was a serious one, but reports state that Mr. Mills is withstanding the effects well. It is the presumption that he was hurt internally, and his Milano friends along with his wife and home folks hope for him a very speedy and complete recovery.

Hastings Seeds 1921 Catalog Free

It's ready now. 116 handsomely illustrated pages of worth-while seed and garden news. This new catalog, we believe, is the most valuable seed book ever published. It contains twenty full pages of the most popular vegetables and flowers in their natural colors, the finest work of its kind ever attempted.

With our photographic illustrations, and color pictures also from photographs, we show you just what you grow with Hastings' Seeds even before you order the seeds. This catalog makes garden and flower bed planning easy and it should be in every single Southern home. Write us a post-card for it, giving your name and address. It will come to you by return mail and you will be mighty glad you've got it.

Hastings' Seeds are the Standard of the South and they have the largest mail order seed house in the world back of them. They've got to be the best. Write now for the 1921 catalog. It is absolutely free.

Bird of Ill Omen.

The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

Flowers.

Flowers seem intended for the solace of ordinary humanity; children love them; quiet, tender, contented, ordinary people love them as they grow; luxurious and disorderly people rejoice in them gathered; they are the cottager's treasure; and in the crowded town mark, as with a little broken fragment of rainbow, the windows of the worker in whose heart rests the covenant of peace.—Ruskin.

Farm Bureau Is Now Gaining In Membership

A report from its Dallas headquarters to the Gazette states that the American Farm Bureau Federation now has 1,500,000 members in the United States and is functioning in 45 states. This is the organization which absorbed the United Cotton Growers Association of Corpus Christi. In Texas the Farm Bureau is now organized in 25 counties and has something like 35,000 Texas farmers enrolled. Milano members who joined the United Cotton Growers Association and paid a \$10 membership fee, certainly have a right to expect the Farm Bureau to make good, otherwise they have nothing to show for their \$10 which the Cotton Growers Association promised them. The annual convention of the Texas Farm Bureau will be held at Dallas on January 26th and 27th, and no doubt there will be many Texas farmers there wanting to know what they have coming for their \$10.

The Commercial Club Met Monday Night

The Milano Commercial Club met Monday night at the Odd Fellows hall and held forth until about 10:30 o'clock. Road matters and agricultural problems were among the leading issues which received attention. Chairman L. Newton of the highway committee reported \$500 worth of work done on four roads leading into Milano, all said work having been done through efforts of the highway committee.

The road bond matter was given considerable attention, but the problem of selling the bonds seemed a difficult one to solve. Time alone will perhaps solve this matter.

The matter of truck growing was mentioned, likewise the need of a selling agency and buyer, but it was stated the truck industry was too uncertain for any definite action of stimulation. Chairman W. O. Newton expressed his opinion that about the one best thing the Milano farmers might take chances on, was that of poultry raising and marketing eggs. He said prices would decline, no doubt, but even then it would pay far better than taking chances on growing and marketing truck.

Various other topics were discussed, among which a report in detail of a new oil drilling project for Milano lands now under lease. The Gazette will make further mention of this matter next week.

Peculiar "Cradles."

An infant in Guinea is usually buried in sand up to its waist whenever the mother is busy, and this is the only cradle it ever knows. The little Lapp, on the other hand, fares most luxuriously in its mother's shoe. These Lapp shoes are big affairs of skin stuffed with soft moss and can be hung on a peg or tree branch safely out of the way. The Chinese baby is tied to the back of an older child, who goes about its play quite ignoring its burden.

"Fifth Monarchy Men."

The "Fifth Monarchy Men" were an extreme sect in England of the period of the Puritan revolution largely found in the army which supported Cromwell, in the belief that his government was the beginning of the "Fifth Monarchy," during which the millennial reign of Christ on earth would take place. The previous four monarchies were the Assyrian, Persian, Grecian and Roman. But such fanatics could not but be in opposition to any established government, and Cromwell had some difficulties with them. In 1661 the revolt of Venner was largely supported by this sect.

"Let Them Call On Me" Says This Man

"I didn't think I would ever be a well man again, but Tanlac has certainly built me up and given me fine health," said James S. Hays, living at corner of Shawnee Roads and Coy street, Kansas City, Kans.

Several weeks ago I had a severe case of 'flu' and after I got up I found myself in a weak and run-down condition. My legs felt like they would give way and I could hardly stand up. I was badly constipated and was continually having splitting headaches and awful dizzy spells. My stomach was out of order, I would bloat all up with gas that would press in close around my heart and nearly shut my breath off entirely. I had such severe pains across the small of my back it was almost impossible for me to sleep.

"One day my foreman advised me to try Tanlac, and before I had finished half of my first bottle my appetite got a new start and I was feeling better and stronger. And now I have taken four bottles and I eat like a bear and am never troubled afterwards at all. My constipation has been entirely relieved and I am free from those headaches and dizzy spells. The pains have left my back and I sleep like a log every night. I have gained eight or nine pounds in weight; have been built up in every way and am working hard every day. My health is better than it has been for years, and if anybody wants to know what I think of Tanlac tell them to call on me."

Keeping the Color.

A clever woman recently invested a dime in a package of brown dye. This she dissolved in a small amount of boiling water and then bottled it for future use. Now whenever she washes the children's tan stockings or the boys' khaki suits she adds a few drops of the dye to the rinse water and to the starch. This keeps the tan garments a good even shade.

Something Extra Special

Out of my stock of fresh La France Flour I want every family in and around Milano to try just one sack at a special price of \$3.50 for a 48-pound sack. For those who are not acquainted with this wonderful flour, I want to say that every sack is guaranteed or money refunded if it does not please. This is an extra ordinary low price for this brand of flour, and while I have other brands of flour that are guaranteed, there is nothing that equals La France.

Proper Care of Parrots.

Parrots in the wild state live on seed and fruit and should, while in captivity, be fed as nearly as possible the same kind of food. They should be fed sunflower seed, hemp seed, boiled yellow corn, stale bread soaked in water, an occasional piece of apple or banana, roasted peanuts and dry crackers. Plenty of water and gravel should be kept in the cage. The parrot's cage should be cleaned every day.

Taxes Being Assessed Over Milano Country

Mr. J. A. McClellan is assessing taxes for precinct 3, including Milano, Gause and all surrounding territory. So when you see him coming on his horse toward your place you may know what he wants. He says he wants to assess your wife's poll tax, and your daughter's too, the same as your own. This seems to be the law since "a joker" has been discovered in the recent amendment the people of Texas voted for. And Mr. McClellan says remember Texas has a full rendition law and asks you to be honest in stating your valuations. Taxes are high and we have an extravagant and very expensive government, consequently the tax assessors believe in listing valuations up as much as they can. So now don't get mad at Mr. McClellan, but let him assess the ladies and everything else he wants too. The law says he must assess and the people voted for the laws. Verily, the assessor's job is difficult.

Mr. J. W. Spaulding of the Liberty community left a half dollar with us Tuesday for a three months subscription to the Gazette.

Rev. J. W. Roeder left a dollar with us while over here Tuesday for a half year's renewal subscription to the Milano newspaper.

Mr. W. G. Allen of west Milano left a dollar with us Tuesday for a half year's renewal subscription to the home town newspaper.

Mr. F. I. Haynie of Belton left a dollar with us for another half year's renewal Gazette subscription while down here Tuesday.

Mr. G. W. Miller of the Liberty community left a dollar with us some few days ago for renewal subscription to the Milano newspaper.

Judge J. D. Ruby of Houston left a dollar with us New Year's day for additional subscription to the old home town paper while he was passing through here that day.

E. H. Standard handed us a dollar Monday for a half year's subscription to the home town paper. E. H. is just recently back from Runnels county where he went last fall sometime, but we believe he is expecting to stay here at Milano now. He says the west is all right during good times, but right now it is certainly a dull looking country.

Mr. J. T. Bullock of the Liberty community left a dollar with us Monday for a renewal Gazette subscription which goes to her son, H. G. Bullock, Jr., Nacogdoches, Texas, in the oil fields of Stephens county. Henry Gray was here a few days for Christmas and left again this last week, his brother J. T. What's Your Net Income?

Better a salary of \$10 a week with \$2 saved out of it than \$50 with expenditures of \$55. The difference between success and failure is just that. It measures the contrast between living on a part of last month's income and spending next month's before you get it. You can make ten thousand resolutions to cut expenses and save, but you won't until you get an incentive stronger than the thing you have been frittering money away on. That powerful incentive is a bank book.

Waking Sleep-Walkers.

Some sleep-walkers may be awakened by being gently touched or called; others by a flash of light, by stimulating in their wanderings, or by setting their feet in water. Others remain so heavily asleep that it is necessary to shake them vigorously before they show signs of waking. But sometimes it is not wise to wake the sleep-walker at all, and there have been cases where sudden rousings have proved fatal.

To Make a Hole in Glass.

To make a hole in glass make a circle of clay or cement rather larger than the intended hole; pour some kerosene into the cup thus formed, ignite it, place the plate upon a moderately hard support, and with a stick rather smaller than the hole required and a hammer strike a rather sharp blow. This will leave a rough-edged hole, which may be smoothed with a file. Cold water is said to answer even better than a blow.

Figures in the Moon.

Some keenly discerning people see a woman alongside the man in the moon and account for her presence there by her churning on Sunday while the "old gentleman" chopped the wood. A pretty eastern fancy is that the figure in the moon is that of Ina, who weaves the clouds into white cloth and who sent her husband back to earth by the rainbow ridge in order that death might not defile her heavenly home.

Keeping the Color.

A clever woman recently invested a dime in a package of brown dye. This she dissolved in a small amount of boiling water and then bottled it for future use. Now whenever she washes the children's tan stockings or the boys' khaki suits she adds a few drops of the dye to the rinse water and to the starch. This keeps the tan garments a good even shade.

People Say They Are Not Alone To Blame

A score or more of Milano citizens "jumped" the Gazette man this past week about our forecast that Milano would soon be a dead town if our people didn't do more trading at home. All gave good arguments for not being as loyal to the town as they might have been, and the majority of them said the Milano business men were more to blame for Milano going dead than any other reasons. They cited the fact that the business men of Milano and their families spend a lot of their time and money in Rockdale, Cameron and other big towns, going over every few nights in automobiles which the Milano people have paid for. Having good times and enjoying high society, they said, would kill any town whenever it took the people's money to foot the bills by selling their merchandise higher than neighboring towns. The Gazette passes it on to our honorable Commercial Club. It is too difficult a matter for the little time we have to figure the remedy for the ultimate future of Milano town.

"Fifth Monarchy Men."

The "Fifth Monarchy Men" were an extreme sect in England of the period of the Puritan revolution largely found in the army which supported Cromwell, in the belief that his government was the beginning of the "Fifth Monarchy," during which the millennial reign of Christ on earth would take place. The previous four monarchies were the Assyrian, Persian, Grecian and Roman. But such fanatics could not but be in opposition to any established government, and Cromwell had some difficulties with them. In 1601 the revolt of Verner was largely supported by this sect.

When Bees Go "on Strike."

Bees will not work when they think that their queen is gone. There is something fatalistic about their attitude. They become dejected, and morose and lazy—there is a "what's the use" droop to their movements. Their only reason for their being is storing up honey for the young of the future. With need of that gone, they seem to universally agree that there is no need of labor. They sit down on the job, eat until the food is all gone and then starve to death.

Says The Condition Of Times is A Big Problem

Mr. J. H. Luce was expecting to move from the north Milano country to the eastern portion this week and no doubt has done so by now. When asked what his plans were for the coming year in regards to cotton growing and farming in general, he replied that this was one time he was completely stumped and unable to figure out what steps he should take. He has a bunch of cattle and has been expecting to market them this past fall, but the market price went like the cotton market. He is still holding two bales of cotton and is undecided about another crop. Says he never in all his life saw such a sudden downfall of hard times and despondency for the farmers, and he believes it will require two years of time for the farmers to recover from the harmful effects of the present day commercial depression.

Two Remarkable Rides.

A remarkable achievement of an English rider dates back to Shakespearian days. Robert Carey is said to have ridden from Whitehall to Edinburgh, 400 miles, in three days, carrying the news of the death of Queen Elizabeth to James VI. He made another noted ride from London to the Netherlands, with the news of Cardinal Wolsey's death, traveling by boat from London to Gibraltar and riding the intermediate distances. He left London, according to the accounts, at 4 o'clock one afternoon and was back in London at sunset the second day thereafter.

Oblong Trees.

In the school of forestry, at Cambridge, there exists a wonderful specimen of an oblong tree. The trunk is about 30 by 2 inches. Its curious shape is due to no more than a little bruise or two which persuaded it to grow in one direction and not at all in any other. Other discoveries and experiments prove that an artistic bruise—it may be no more violent than strong pressure with the finger tips—can make a tree expand in a desired direction.

Liberty Man Does Not Think About Hard Times

Mr. G. W. Miller, a prosperous citizen of the Liberty community, says hard times are not troubling him. No sir, he doesn't give the condition of times much thought. Says he's got a crib full of corn, plenty of meat in the smoke house, lots of potatoes safely banked, and not a nickel does he owe anyone. Why should he worry? He doesn't grow any cotton; cattle are his hobby, but he keeps busy at farming in many lines and says he likes to work and keeps at it. Man was made to work and he ought to be happy while working. So many people, Mr. Miller says, only work half of the time and the other half of the time is spent in talking and worrying about hard times. Yes sir, times are just rolling on out at the G. W. Miller farm, just like they have done for 10, these many years and the sun shines happily over all.

To Our Friends And Patrons

This is just a simple little message to wish you the compliments of the Season, hoping you had a Merry, Merry Christmas and wishing you a Happy New Year. And we trust the holidays of 1920 held for you and yours a full measure of good cheer and happiness, and that the New Year will usher in the most wonderful period of your life—a year when "your dreams come true."

May we, also, add a word of thanks for the business which you have so kindly sent our way in the past? This business has been very, very much appreciated, and we trust the service we have been able to give you has been all that was expected or desired. With the coming of another year we shall strive even harder to merit your patronage and confidence, and sincerely trust that we may continue to number you as a friend and customer of this store.

Again extending to you the Season's Greetings, and with all good wishes, we remain

Sincerely yours,

Tooth Bottles.

A new invention is a miniature hot-water bottle for toothache. It holds only half an ounce, and is just big enough to be comfortably retained between the cheek and a painful tooth. All toothaches are not curable by application of heat, but in many instances this method is successful.

Says She Got Relief In The Nick Of Time

"My quick and complete relief by taking Taking Tanlac was certainly a very welcome surprise to me," declared Mrs. Maggie Brown of 604 East Kansas Ave; St. Joseph, Mo.

"For two years," said Mrs. Brown, "I suffered from a general nervous, rundown condition, and felt tired and worn-out all the time. My appetite was poor, I ate scarcely anything and became so weak that I could hardly get around and even a little housework was a burden to me.

"I had terrible headaches and dizzy spells, my nerves were upset by the least little noise and I was too restless to sleep well.

"I could tell that I was improving right along before I had even finished my first bottle of Tanlac. I have taken four bottles and my appetite is just splendid, I am never troubled with indigestion, and I have already gained ten pounds. My nerves are perfectly normal and I never slept better in my life than I do now. Tanlac has restored my health and strength, and I certainly do recommend it to anyone in a condition like I was."

Bits Of News From The Oakdale Country

Mr. and Mrs. John Wilkerson have moved closer to Cameron.

Mr. and Mrs. Jim Baker were looking over the Liberty country Friday of last week.

Mrs. Cook and the children have moved from the Casey place to one of Mrs. Aschenbeck's places.

Mr. D. R. Cannaday and family who lived near the Rice community have moved back to Oklahoma.

While I was away Mrs. Oneal received the sad news that her aunt had died and that burial would take place at the Prospect cemetery.

I hope all will excuse me for not writing last week, for I was off on a holiday pleasure trip having all the good time that was due me. We went to Cameron, Sharp, Waco, McGregor, Rosebud, Lott and back home again, traveling by auto and by train and had a wonderful trip and enjoyable time at all places.

Mr. and Mrs. Vernon Garner and children who live at Crockett, Texas, came to see his mother and other relatives. They got to Milano Friday and came out here that evening and also visited relatives at Marlow and Cameron but were back here for dinner on Christmas day with Mother Garner and family.

Summit Family Uses A Large Supply Of Wood

Mr. O. P. Lagrone of the Summit community says he has already burned about 15 cords of wood this winter at his home and expects to burn another 15 cords before the winter is over. Remarked that if he lived on the prairie lands of Texas he couldn't make enough money farming to buy his fuel if he used it like he does here in the Milano country. He believes in having plenty of fire around the house both day and night and has a big fire place that consumes great quantities of wood. Wood on the Lagrone farm is plentiful, the same as on many Milano farms, and the people are not backward about using it.

Ray Gandy left a half dollar with us Wednesday morning for a renewal subscription to the Gazette which goes to his parents' home out toward Liberty, on rural route 1.

Mrs. George Barber left a dollar with us Wednesday for a half year's subscription to her old home town paper which goes to her at Minerva by way of Cameron rural route 4.

Mr. H. L. Stone left a dollar with us last Friday for a half year's renewal subscription to his home town paper. He's always around on time a few weeks before his subscription to the Gazette expires.

We acknowledge receipt of a dollar through Mrs. J. K. Miller of Liberty for a half year's renewal subscription to the home town paper which goes to Mrs. Fred Fisher at Gateville, Texas, rural route 1.

Newsy Items From Down Near Elevation

Mr. J. T. Probst and son Pinkney of Rockdale were over Sunday and visited in our community.

Mr. George Elliott, who has been visiting at the W. W. Richards home, left Monday for west Texas.

W. W. Richards and family spent Sunday over at Prospect, guests of Mr. and Mrs. W. C. Mobley.

We learn that Miss Mable Beard and Mr. Welcome Woods were happily married Sunday afternoon at the home of the bride's parents, Mr. and Mrs. C. M. Beard.

The Moore house at Elevation was burned down Saturday night. Some Mexicans were camped in it at the time, but nothing was lost except only a bale of cotton.

Says Farmers Need To Raise Crops of All Kinds

Mr. C. M. Beard says: The best thing a Milano farmer can do this year is to grow and raise a little of everything. He can't afford to take chances on any one crop. He needs to raise chickens, hogs, cattle, grow truck, feed crops, and everything else he possibly can. This winter Mr. Beard sold \$260 worth of hogs, while the winter before the same number of hogs brought him \$550. But he's got enough hogs left to keep the ranch going for another chance at the hog business next year. Mr. Beard has found hog raising a fairly good industry on the farm.

Money Needs Protection

You can get anything with money. It is the most useful article the world has ever produced. It can be kept for years and ages and it never decays, provided you keep it in the bank. That's the place for idle money. It is always there when you want it and it helps to put more money in circulation. If it wasn't for the banks, money would certainly be a scarce article. We invite you to keep your money in this bank subject to your check and your wishes. It will be safe from theft, fire and chance of losing it in many other ways. Give your money protection.

Houston Oil Development Concern Signs Up For Six Thousand Acres In Southern Milano Country

The oil drilling project for the country south of Milano has taken on a new move. Mr. W. T. Brooker, who has the matter in hand, went to Houston recently and made a contract with an oil development company to take over the several thousand acres of leased land south of town. Since then Mr. Brooker has been busy with the land owners getting them to waive certain agreements and writing up new papers agreeable for the Houston concern, known as the Bohemian National Oil Company, a five million dollar corporation. They told Mr. Brooker that they intended to start drilling here within 60 days after getting the leases, but they reserve the option of a year's time by contract.

Mr. Brooker now has to get a receipt from each land owner in order to get the leases from the bank, and he has these receipts written up

ready at his store for the Milano land owners to sign. If you have not as yet signed up you are asked to call at Mr. Brooker's store and do so at once in order that the drilling may begin as soon as possible.

These oil people are to pay the first year's lease rentals of \$1 an acre by March 1st of this year instead of making a \$5,000 bond. The money is to be paid in bulk to the Milano bank and then paid out to the Milano land owners individually here at the Milano bank.

This company has some leases at Thrall and are now drilling at Caldwell at around 1100 feet. They also have 3 producing wells over at Tracy. Mr. Brooker says they intend to develop the Milano country first, and if sufficient oil is found they expect to put in a refinery and pipeline oil to the refinery here from their other nearby fields.

Milano Public School Fails To Get State Aid

The Milano school will receive no state aid money this year as it did last year. According to a report by the school board this money will not be paid because the Milano school had a considerable sum of money on hand left over from the last session of school. The state aid paid to the Milano school amounted to about \$500. The failure to get the state aid for this year will not however, shorten the school term, according to the opinion of the trustees, as there will be enough available funds for a full eight months' term of the school.

Some Reasons Why The Gazette Is \$2 A Year

One of our good citizens asked us the other day why we were so high on the Gazette subscription price. And since his question is one worthy of consideration we take time to figure out the why. The Gazette is paying 3 times as much for its print paper as it did before the war, hence if we charged according to what per cent we made years ago the price would be \$3 a year. A number of weekly papers in Texas are now charging \$4 a year.

During the year 1920 the difference between subscription receipts and our print paper invoices was \$37.50. In other words we took in \$37.50 less than the paper cost us, and this included a lot of cord wood, butter, eggs, potatoes and other things which we accepted on subscription the same as cash. Our revenue on advertising was small, and there isn't much profit in that line, but it helps to pay for many items the subscriptions fail to meet.

We were also told that the Dallas Semi-Weekly Farm News was still \$1 a year, same as before the war. Certainly. But did you know the Dallas News got \$600.00 for a page of advertising for one week's issue? They could give the Dallas News away free of charge and then make enormous profits. The big fellows pay the expense. Milano has no big fellows. Consequently the Gazette must pay its own way or else cease to exist. Yes, \$2 a year looks high for the Gazette, and if ever our paper price is reduced we hope to reduce the subscription price. Let the paper house hasn't toward a reduction.

Forecasting the Weather.

A homely method of foretelling the weather is to drop carefully a lump of sugar into a cup of coffee. If the bubbles it causes suddenly rush from the center to the side of the cup, it is going to rain very hard. If the air bubbles assemble in the center and then pass to the side of the cup in a deliberate way, you must still be prepared for what the weather forecast would call "some showers." But if the bubbles refuse to stir from the center of the cup, you may go forth to your labors assured of a fine day.

Liberty Writer Speaks About Trading At Home

(By The Liberty Correspondent). Yes, I myself believe the merchants of Milano are to blame for the people trading in the neighboring towns. If the Milano merchants would deal with the people as some of the neighboring merchants do I will guarantee them all the surrounding trade. Take for instance, the Loewenstein store which sells its merchandise below what the mail order houses do. I have tested this store's advertising and know that they do sell cheaper than mail order houses. It is natural in this day of high cost living for a man to trade where his money will go the farthest. The merchants themselves do that and follow its principle through all of their business.

Has Laid Her Crutches
Aside And Is Now Well

"My neighbors thought I would never be up and about again, but since taking Tanlac I have laid aside my crutches and can get around as well as I could twenty years ago," said Mrs. Flora Wilcox, of 700 West McCormick street, Wichita, Kansas.

"For twenty years," said Mrs. Wilcox, "I suffered terribly from rheumatism, and it was all I could do to get around on crutches, much less do any of my housework. My limbs pained me dreadfully, and I had such awful pains under my shoulder blades and in my arms that I couldn't raise my hand to my head.

I couldn't eat anything without suffering from a burning sensation and intense pains in my stomach. Gas formed on my stomach and pressed up around my heart, causing severe palpitation and I could scarcely breathe. Most of the time it was all I could do to lie down, and I got very little sleep or rest at night. My condition finally became so bad I had just about given up all hope of ever getting better.

"I have taken eight bottles of Tanlac now and my appetite is just splendid. I eat anything I want and am never troubled with gas, palpitation or pain around my heart. The rheumatism is entirely gone. I do all my housework with perfect ease and at night I sleep like a child. Tanlac has been a blessing to me in restoring my health, and I praise it more than words can express."

Most Primitive Still.
Probably the most primitive use is that used by the distillation of camphor, which is said, however, to be very effective. The leaves are placed in a wicker basket, which is fixed over an iron caldron containing water. On the top of the basket a basin of cold water is placed. The steam from the caldron passes through the leaves of the basket and carries over the camphor vapor, which is deposited in the form of camphor on the cool under surface of the basin.

Milano Family Are Back
Home From West Texas

Mr. and Mrs. C. T. Woods and family came in back home last Friday morning from Novice, Texas, Coleman county, where they went last September. They went out close to where Mr. A. T. Stovall and family live and found the cotton fields white, but the low cotton prices have wrecked the west. Mr. Woods says Mr. Stovall has so far gathered 26 bales of cotton and has sold it all as soon as picked, and he still has much cotton to gather. But even after gathering and marketing 26 bales of cotton Mr. Woods says a renter is facing mighty hard times. He himself only moved a few belongings, leaving his cows and hogs here at Milano, and says he will have plenty of meat and milk and wood for his family, which is more than some of those western people have. They went out to Summit after arriving in Milano and we are glad to see them back.

Cecil McGregor came down from Rogers and spent Sunday with home folks and friends here at Milano.

Mrs. Smith of Bryan came over Monday and is a guest at the home of her son, Mr. W. A. Smith and family in the east Milano country.

Rev. and Mrs. Ray of Mumford were in Milano Sunday. Bro. Ray held services at the Christian Church here. They met old time friends here too, Mrs. Ray and Mrs. A. McGregor having been school mates.

John and Arthur Hill of Christman was guests in the Dan Robinson home last week. John went to Temple Friday where he went to accept a position with the Santa Fe rail road company and Arthur returned to his home at Christman.

Mr. J. W. Ford of the Prospect community was among the many good folks in town last Saturday. He had a bucket full of butter which he couldn't sell. And he said that's another reason why Milano people went to Cameron to trade.

Rev. C. T. Tally, Presiding Elder of the Marlin district of the Methodist churches, filled the pulpit at the Milano Church Sunday morning, and at the evening hour Rev. H. M. King of Georgetown conducted the services. Bro. King is the new pastor now in charge.

Look here folks! Said a Milano citizen the other day. From the way our fellow townsmen G. W. Hilliard, Dan Robinson and Charles Howes are improving main street their block is astonishing. Better get busy or they'll be living on the finest street in Milano.

Mr. W. C. Miller of Houston was in the old home town Wednesday, but left again that afternoon. However a number of his Milano friends got time enough to shake hands with him and ask a few questions of his and the family's welfare. Mr. Miller looks well and prosperous.

The Somerville school basketball teams came up last Friday afternoon on No. 6, and played the two Milano school teams. The Somerville girls won by a score of 27 to 4. The Milano boys won by a score of 17 to 13. Two of the Somerville teachers accompanied the boys and girls to Milano. Both of the Milano teams are scheduled to go Somerville this Friday to play the Somerville teams at home.

Lady At Sand Grove Has Left Earthly Life

(By Sand Grove Correspondent).

On Sunday morning January 9th, at 3 o'clock, the death angel visited in the home of Mr. Ben Dickey and taken as its victim the wife and mother. Mrs. Dickey had been suffering some three weeks or a month with pneumonia, and everything that hands could do was done to restore her health, but all of no avail. Her remains were layed away in the Sand Grove cemetery at three o'clock Sunday afternoon.

Former Milano Lady Is Buried At Gause

Mrs. Cora Fowler, wife of Mr. Fred Fowler, died at Gause Tuesday and was buried there Wednesday afternoon after having lingered through a several weeks' illness with blood-poisoning. Mrs. Fowler was 41 years of age and was a former citizen of Milano, having joined the Baptist Church here when 16 years of age and had been a constant worker in the church for 25 years. She leaves a bereaved husband and son, and also a brother and a sister.

Orchid Crossbreeding

While orchids from the wilds have remarkable and interesting characteristics, they are being rivaled and surpassed by new forms produced by hybridization in the greenhouses of experts. Now, the hybrids are many in number and are supplanting the older varieties in part because of their exquisite beauty of color and form, their increased fragrance and their greater ease of cultivation. It is slow work, the crossbreeding of orchids, but it is marvelously fascinating.

Illuminating Irritation.

Ida incidentally indicates interest in Ides, Irving, impressionable, infatuated, injudiciously invests. Ida's indulgence in Ides inordinate, insatiable. THOSE WHO FORGET NOT

Mr. R. F. Pariett left a half dollar with us the other day for renewal subscription to the Gazette.

Miss Estell Cannaday left \$2 with us Tuesday for another year's subscription to the home paper.

Miss Anna Blackmon left a half dollar with us Tuesday for renewal Gazette subscription which goes to her parents' home on route 1.

Mr. J. H. Elam of Franklin handed us \$2 Friday of last week for another year's subscription to the old home town paper while he was down here moving his household goods. He and his family are now located at Franklin and we wish them contentment in their new home.

Mr. O. K. Haddox of the Hix settlement was in Milano last Friday and handed us a dollar for a half year's renewal subscription to the Gazette. He was on his way to the sanitarium at Cameron where he was going for medical examination for mouth and throat trouble from which he had been suffering for some considerable length of time.

The Gazette's weekly paper bill amounts to \$7.55. If you think we are making money at \$2 a year just watch this column each week and figure for yourself. All over \$7.55 is our profit, providing we take in at least that amount every week. We are at present burdened with a deficit of \$37.50 from last year.

Water Melon Growing Is Put Up To Farmers

The Milano Commercial Club through request of County Agricultural agent George Baughman, sent out post cards to Milano farmers this week asking them if they wanted to go in on a water melon growing and shipping deal. A number of farmers in the Rockdale country have recently agreed to grow water melons and they seem to believe there will be good money in marketing them. However it is safer to follow the suggestion of the Commercial Club and only plant a small acreage of them. The water melon idea is being organized in many sections of the country and if they become too plentiful there might be but little money in them. By this arrangement the shipping and selling problem will be solved, as it is the intention to ship through some formulated plan or buyer and in car load lots only. A small acreage is perhaps worth trying.

Mr. Douglass Smith of Jacksonville, Texas, is a guest of his brother, Mr. E. C. Smith, this week.

New Teacher Is Added To The School Faculty

Miss Katie McCall of Cameron is the new teacher at the Milano school. She assumed her duties here this week. This now gives the Milano school five teachers, but puts two teachers in one of the rooms, all of which shows how small the building is for the enlarged school territory. Children who in former years went to other district schools are now included in the Milano district. This happened when the Milano independent district was formed and enlarged. The school is now facing the problem of building additional room.

Let Us Be Your Bookkeeper

A checking account can be made a very convenient system of bookkeeping, commending itself especially to those people who feel that they do not have enough business to justify the keeping of an elaborate set of books. Your deposits can be made to represent your receipts, and your checks your expenditures. The stubs of your check book will be your record, which will require very little time to keep up to date. We would be pleased to have you call and let us explain more fully the advantage of a checking account. We can give you the names of people who have done checking business with us for years, and who will recommend it very highly. Come in and talk it over. If you once get the checking habit you will not want to break it, but will be glad that you started it.

Aged Citizen Died Suddenly Thursday Morning

Mr. J. H. Taylor died suddenly Thursday morning at about 7:30 o'clock from heart failure at his home here in Milano. He had apparently been in sound health with the exception of advanced age and feebleness at times. Mr. Taylor was 71 years of age and was among the early settlers of this country. His wife departed from this life several years ago, and since then he has been living with his two daughters, Miss Jessica and Miss Ella Taylor. Besides these two daughters he leaves a son, Mr. S. W. Taylor, and three brothers, Mr. Boyd Taylor of north Milano, Mr. John Taylor of Somerville and Mr. Richard Taylor of Mississippi state. Mr. Taylor was a consecrated christian citizen, was a charter member of the Milano Masonic lodge and always possessed a pleasant personality toward all humanity. Burial will take place at the Milano cemetery this Friday.

Derailment Of Engine Causes A Long Delay

The engine of Santa Fe passenger train No. 6 was derailed last Friday as it pulled out from the depot. The drive wheels split the switch at the street crossing and it required 3 hours and a half to get the engine back on the track. It took the help of an I. & G. N. freight engine to help pull the big Santa Fe iron horse on the rails, and it also required the services of the section crew and train crew to figure the work out successfully. Meantime the passengers took in Milano the best they could and the cold drink business picked up nicely for a while.

Coal Company Foreman Tells About His Trouble

"I wasn't much surprised when I got on the scales the other day and found that I had gained twenty-two pounds in weight, for I have been eating like a wolf and picking up rapidly ever since I finished my first bottle of Tanlac," said George Cotton, 1114 East 21st St.; Kansas City, Mo., foreman for one of the large coal companies in Kansas City.

"My wife and I both tested Tanlac," he continued, "and it has helped us so much that we want everybody to know about it. My kidneys had been bothering me for 7 years or more and there were fearful pains in the small of my back. My kidneys disturbed me so often at night that I could get very little sleep and I was in such a badly run-down condition that I was forced to stay away from my work for days at a time. My appetite was poor and I could not eat anything but what would sour and cause the worst kind of pains in the pit of my stomach. I lost weight, had dissy spells and headaches.

"My wife had been suffering for a long time from very much the same kind of troubles, and after seeing how Tanlac was building her up I began taking it myself. In just a few weeks after she began taking Tanlac she was feeling like a new woman and had gained ten pounds in weight. By the time my first bottle was gone I was feeling like a different man. I am a well man now and haven't a pain of any kind. Mr. kidneys never bother me any more and my appetite couldn't be better. I never miss a day from my work now and there's nothing too good for my wife and myself to say for Tanlac."

Mexicans Get Double Pay On Money Orders

Our postmaster Mr. C. Howes is looking for a couple of Mexicans which he is eager to locate. To one he sold a \$50 money order, and to the other he sold a \$20 money order, and both Mexicans secured a double payment of money on each of the orders. This was managed thru the Mexican postmaster paying the orders on duplicate vices, and when the Mexicans found this out they presented the money order to Mr. Howes to be cashed, and of course he cashed them like he would for any one else, thinking they had decided not to send the money away. Mr. Howes says he will loose the \$70 unless he can catch the Mexicans and make them pay back. It looks to us like the postmaster in Old Mexico ought to be responsible for the \$70, since he had no right to pay the money over unless the parties presented their money orders. One of the Mexicans is now supposed to be in Mexico, while the other is believed to have been at Big Lump or Rockdale recently. Anyway, Mr. Howes would like to see the two umbres one more time.

The terms under which the paid up members of the United Cotton Growers Association are accepted in the Farm Bureau Federation are that they shall join the Texas Farm Bureau at the time membership campaigns are conducted, with the understanding that they are not to pay membership dues into the Texas Farm Bureau Federation until November 1, 1921. You will therefore observe that this organization has received no financial support whatsoever from the membership of the United Cotton Growers Association, but we are anxious and willing to spend the funds which we have received from other farmers in bringing together the united and determined effort of all the farmers in the state of Texas combined.

People Are Realizing Their Taxes Are High

People of the Milano territory are complaining about high taxes. And perhaps they have some cause to complain. When taxes double in one year's time it is enough to make almost any one howl. The people of Milano and the Milano country are assessed \$3.10 per \$100 valuation for the year 1920. This is assessed as follows: State tax 55c, county tax 55c, Milano school bond issue 50c, road bond issue \$1.50.

Besides this there is the poll tax of \$1.75 and the county road tax of \$4 if paid in advance, otherwise it is \$5. The bond issue road tax of \$1.50 is what doubled the taxes in the Milano country. Some people say this bond issue tax amounts to only 50 cents on the \$100 in other districts. True, but the Milano country is so thinly settled and such a poor man's country that it requires 3 times the assessment to get the funds for paying off the bonds.

For the year 1921 all women between the ages of 21 and 60 will be assessed for poll tax of \$1.75. This will become payable next October and they have until January 31, 1922 to pay it. We heard one citizen remark the other day that he believed the women will also be assessed for county road tax of \$5 a year before long, the same as is assessed the men. Maybe so. We don't know. It's a world of taxes anyway, to say nothing of the income tax which has to be rendered by March 15th. Yes indeed, taxes are high in the Milano country and everywhere else in the U. S. A.

One gallon can of that good Brier Rabbit syrup for \$1.25. Get it at the C. Hudson store in Milano. Adv.

The Liberty Cemetery Association has purchased enough wire fence to hog-proof the cemetery. Hogs have been ruining the shrubbery and something had to be done to keep them out. We understand there will be a general work day soon and the men folks will come and build the fence. But the writer failed to attend the last meeting and therefore we do not know what day was named for the working.

Beer Brewed in Abbey.

Westminster abbey has been put to many strange uses during the thousand years or so of its existence. In Cromwell's time it was turned into a barracks. In pre-Reformation days it was utilized as a parliament house, and a brewery and a bakery were established by the monks for their convenience within the sacred precincts.—London Tit-Bits.

Biblical Lilies Believed Anemones.

The "lilies of the field," so often mentioned in the Bible, are thought to be the red and purple, particularly the red, anemones with black centers. These anemones grow among thorn hedges in the East, which accounts for the saying "lilies among thorns."

The Beard store is giving away 250 pieces of beautiful china-ware to its customers, also a 31-piece dinner set. Every time a customer spends \$20 worth of cash trade there they will be entitled to draw a piece of the chinaware and also have a chance draw for the 31-piece dinner set that will be given away.

Rev. H. T. Hart was 81 years of age Monday, January 25th. Astrology says the man of this birth date will journey among many people and over many parts of the country; is very agreeable and always has a large following of friends. All of this has been true in Bro. Hart's life. Robert Burns, the Scotch poet, has this same birthday. Truly, Bro. Hart has been a great man and we wish for him many more happy and joyful years of life on this earth.

The Milano basket ball teams went to Somerville last Friday to play them a return game. The Milano girls, due to lack of practice, were an easy mark for the experienced team, the score being 29 to 0 in favor of Somerville. The boys played an unusually good game, their score being 15 to 14 in favor of Somerville. The boys played at a disadvantage by moonlight on an unfamiliar ground. The Milano boys however, are still expecting to win from Somerville by playing another game in the future. The teams were accompanied to Somerville by Miss Woods and Mr. H. C. Marshall.

THOSE WHO FORGET NOT

Rev. J. P. Sparks left a dollar with us Saturday for a couple of subscriptions to the Gazette, one of which he sends to his daughter, Mrs. Edna Parker at Tanglewood, Texas, and the other was for himself.

Mr. Joe Slaughter handed us a dollar the other day for subscription to the home town paper. Said he was sure the Gazette was worthy of hearty support. He believes in everything that's progressive, public spirited and worth while for the town of Milano. We believe he loves Milano like the majority of us.

Mr. L. H. Russell of the eastern boundary of the Milano country, sends us a dollar for subscription to the Gazette which reaches him by way of Gause route 2. Mr. Russell is one of Milano's old time citizens and returned here last fall to locate on his land a few miles east of town. He is a rail road telegraph operator and after many years of service he is tired of the monotonous humdrum routine and is seeking life out here where the world is so serenely beautiful, restful and peaceful.

The Gazette's weekly paper bill amounts to \$7.55. If you think we are making money at \$2 a year just watch this column each week and figure for yourself. All over \$7.55 is our profit, providing we take in at least that amount every week. We are at present burdened with a deficit of \$41.34 for receipts up to date.

Milano Couple Married At Cameron Saturday

Mr. Lon M. Peeples and Miss Bernice Beard were married last Saturday morning at Cameron. After the marriage ceremony was performed the couple came to Milano and told a few of their best friends about the nuptial proceedings. The couple are both well known and popular young people, the bride being the daughter of Mr. and Mrs. C. M. Beard of Summit, and the groom is a son of Mr. and Mrs. J. D. Peeples, Sr. Friends of the contracting parties extend their best wishes to them, wishing both a happy and prosperous life. Likewise the citizenship extends to them their heartiest congratulations.

Bell Holds You Spellbound.

In the temple of Chionin, at Kyoto, Japan, is a wonderful bronze bell said to weigh 100 tons; and when its mellow boom is heard the pedestrian stands still and the workman pauses to listen, the vibrations being felt over a large area. It has no tongue, but the end of a wooden beam, suspended horizontally, swings against the brass mass. There are only two larger bells in the world, that of Mindon in Burma and one at Moscow.

Commercial Club Will Meet Monday Night

The Milano Commercial Club meets next Monday night at the Odd Fellow hall at 8 o'clock, February 14th. Members are reminded to make an effort to be present and not let the date slip their memory. The Club will be one year old on March 1st, the date on which it was organized, and the time is close at hand for election of new officers for the second year.

Our Service Costs You Nothing

There is an educational value in using the bank. On top of all this, bank service proves a great convenience. In addition to safeguarding the money thus deposited, it familiarizes one with business and banking methods which at some future time will assuredly prove useful and of value. A bank account pays the possessor in many ways. Were this not true there would be no need of banks and they would not be used sufficiently to justify their expense for the bank makes its money through the use of the depositors' fund until such time as they may be wanted.

Infant Child Was Buried Here Sunday Morning

Little Nelson Ray, the infant son of Mr. and Mrs. J. L. Shelton of 401 George Street, San Antonio, died last Saturday morning and was brought to Milano Sunday morning for burial in the cemetery here. The little body was accompanied by its father, grandmother and aunts, Mrs. M. B. Walkup, Mrs. Sam Cochran, and Mrs. V. Huesps, all of Rosebud, Texas. The baby was a nephew of Mrs. W. F. Hooker.

Monday's Cold Weather Was Here 7 Years Ago

The cold norther of Monday morning reminded us that February winter was at hand. It was February 7th, and Mr. O. F. Tally told us that he well remembered February 7th just 7 seven years ago. It was one of the coldest days he ever experienced. Thus we have another proof that the old theory of solar-biology is correct when it says that every 7 years is a weather cycle and causes conditions to repeat.

81 Years Old And Goes 15 Miles To Preach

Rev. H. T. Hart hitched up "Old Joe" to his buggy Saturday morning bright and early and went over to the Pleasant Hill community beyond Rockdale where he preached Sunday for the good folks over there. He came in back home Monday afternoon and reports a pleasant trip, an enjoyable time and said he had a very good congregation at the church. He met many old time friends there, people for whom he preached 18 years ago. It is about 15 miles from Milano to Pleasant Hill, making a round trip of 30 miles through winter weather, but Bro. Hart who is 81 years of age, said it was a very pleasant trip.

Not Notified of Election.

A singular omission in the matter of legal formalities is the failure of the laws of the United States to provide for notifying a President-elect of his election. Here Is The Reply To The Questions Asked

This is in reply to what Mrs. H. R. Hairston says and which will be found elsewhere in this issue:

We agree with Mrs. Hairston in much she said. But the Gazette is not partial in giving publicity to men folks, and we believe the ladies have always had the big end in their hands. Almost all of our correspondents are ladies and over half of the local news is always written by the ladies. As to publishing personal opinions and remarks made by them the Gazette has tried this a number of times and it has nearly always ended to our sorrow and regret. One lady came to our office to see us after we published what she said and told us what she thought of us. My! We'll never forget that narrow escape. She even asked to have her subscription refunded and said she would never again subscribe for the Gazette. That lady is keeping her word. And once again we told what another lady said and she said she didn't say it. So is there any wonder why we don't publish the editorial opinions of the ladies? The Gazette is open to them if they will write their sayings and sign their name to them. Otherwise we just can't take the risk. The men folks are different in this respect. They just don't get mad about what we say. They appreciate the labor we put forth to put their remarks in print and smile on and love us the more for it. But we are not partial to them, for the Gazette columns are open to all our people, men or women.

Summit Lady Says It's Wrong To Tax Women

(By the Elevation Correspondent.)
We have been informed that all women have to pay poll tax whether they vote or not. Now I don't think it is right to make them pay a poll tax if they don't want to, and I don't think it right for women to vote. Do you? And some men say there isn't any law now to protect a woman any more than a man. They are placed on equal ground now. Now fellow citizens, that don't seem right for those women who fight against suffrage, making them stand up on an equal with the women who want to pay poll tax and vote. What do you think, Mr. Editor and you Gazette readers?

Some Inside Information Of The Milano School

(Written by Mrs. S. W. Taylor and concluded from last week.)

Miss Stafford is our banner teacher, our heroine. She has in her room pupils from the A, B, C classes to the fifth grade. Imagine her work. She is aging under it, and it must be arranged differently another year or we will lose the best primary teacher we have ever had.

There is not one of our teachers who hasn't 12 classes, and some 14 to be had in 4 hours and 30 minutes. Figure the time for each class, discounting the time lost in teaching the backward ones and the time taken by some of the grades getting to their class. Patrons and Board, co-operate with your primary teacher by building her a primary room, supply another teacher for the coming term and see if things don't move along much smoother.

Some have dared to say, if only we had women on the board things would move differently, and for one time I agree. They certainly would move differently, for men never reach the hair pulling stage over an argument. Women have no better judgment in the selection of a teacher than a man. If you want to know how women run things in Milano and how they would run your school, get in any one of the fraternal organizations in which they have part and you will see and back off and say "never again."

Help for the Milano school will only come thru the hearty co-operation of the patrons with the board.

Milano Lady Asks The Gazette Few Questions

Mrs. H. R. Hairston says: She wonders why the Gazette man never quotes the ladies in the column "so and so" says. Seeing they are now fellow citizens and pay their poll tax, can vote in the elections and are recognized by most folks as having almost human intelligence, it would flatter and please any of them wonderfully to have it appear that she said something worth while. She says the Gazette man would soon be the most popular man in town. All the ladies would be stopping him to tell what they thought. As an after thought she added: Possibly that's why. (Reply to this appears on next page.)

Willie's Advantage.

Jimmie was telling at the dinner table how two of his little schoolmates had got into a fight and how Willie had put it all over Dan. "Well," spoke up younger brother, "I think he would, 'cause he's two times Dan's heavy."

Prospect Man Is Manager Of Cameron Farm

Mr. W. A. Belt, a former citizen of the Oakdale community, instructs us to send his Gazette to him at Cameron where he has recently moved and taken charge of the Lakeside Truck and Plant Farm owned by Mr. P. O. Adams & Company. Mr. Belt is manager of the farm, which has 10 acres under irrigation. The farm produces all kinds of vegetables and plants. Mr. Belt is a well experienced plant and truck man and we are sure he will make the Lakeside Farm a big thing and wonderful success.

The Power in a Tree.

A young man wished to measure the force that drives the sap upward in trees and shrubs. So he cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great is the force that drives sap upward.—Popular Science Monthly.

Horse That Keeps His Head.

When a horse suddenly finds a sled with four children on it in collision with him, rears up, comes down with one foot well out in front of the children and holds up the other till they scramble to safety, he literally gallops into everybody's heart. That's what a horse did recently in a Massachusetts town.—Our Dumb Animals.

Bits Of News From The Oakdale Country

Mrs. Lettie Batey lost one of her young calves last week.

Mrs. Cook and daughter, Miss Ethel, spent Sunday with the Wimberly family at Prospect.

Mr. Louis Caleb Etheridge, formerly of Hoyte, was married to Miss Opal Nix on January 30th. They will make their home in Coleman county. We wish them good luck and much happiness through life.

Our phone people worked over their line last Thursday and got it in good shape. Some of the men drew out and put up another line so there would not be so many on one line and we hope to get a little better telephone service now.

Mr. and Mrs. Sid Hause went to Cameron Saturday to see his sister, Mrs. T. L. Randolph. When they got there they found Mrs. Charley Mitchell of Rosebud there who brought her little son to the sanitarium for an operation. Also Mrs. Paul Potter of Branchville, Mr. W. I. Buchanan and family of Waco, and Mr. and Mrs. Eugene Hause were there. We had a good time being together for the first time in some eight or ten years.

Easy to Translate.

An Irishman was sitting in an inn in County Mayo one day, while it was raining furiously outside. A nobleman's brougham drew up at the door of the hostelry. Blazoned on the panels of its doors were the arms of its owner, inscribed with the motto, "Fides regnat ubique." "Pat," asked some one of the Irishman, "how do you translate that?" "Easy enough," Pat replied. "Fides regnat ubique"—Faith! it rains everywhere.

The Bralny Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Newsy Items Of The Liberty Community

Mrs. Henry Hairston and children of Milano attended church here at Liberty Monday night.

The Yates Kirk home entertained the younger set with a pound supper and party Saturday night.

Mr. and Mrs. John Mills and daughter were visiting relatives near Hanover Saturday and Sunday.

Mr. and Mrs. W. O. Fisher and children were visitors at the home of Mr. and Mrs. W. A. Gandy Sunday.

Martin Miller and Elmer Pritchard of Rogers motored down here Saturday night to attend the party at the Yates Kirk home. They returned to Rogers the same night.

We have been informed that Mr. Claude Westbrook's son, Bertram, was seriously hurt Thursday of last week while running a stalk cutter. The team became frightened and ran away, but we have not learned how badly Bertram was hurt.

Local News Items Round About Town

Miss Glen Stafford spent the week end with her parents at Cameron.

Mrs. Tom Paul has returned from Temple where she spent several days with her daughter, Mrs. Campbell.

Miss Annie Lee Peeples who is attending school at Waco, came down and spent Sunday with home folks.

Mrs. H. M. Timmons and children of Navasota were here for a few days in the home of her parents, Mr. and Mrs. J. D. Peeples.

Mrs. C. Howes and Mrs. W. F. Iiams left Thursday on the Sunshine Special for Navasota by way of Valley Junction, where they will visit relatives and friends a few days.

Mr. Horace Creel of Ballinger is the new ticket agent at Milano on the night shift, he having the place of Mr. Lon Peeples and whom he succeeds by the "seniority ruling" of the Santa Fe rail road system.

Mr. J. H. Burnet received in a car of milo maize this week from Lubbock, Texas. The grain cost \$21 a ton delivered. The freight alone amounted to about \$8 a ton, and the entire cost of the car of grain was close around to \$500. Mr. Burnet says it's a bad idea to buy grain and feed from other parts of the state, but it has to be done when it isn't raised here at home.

Mrs. Dan Robinson was the hostess for the regular meeting of the Cemetery Association Monday afternoon with 9 members and 3 visitors present. An unusual happy and profitable afternoon was spent in pleasant conversation and needy work plans were discussed about having the cemetery cleaned up. It was decided to give a dinner somewhere in town on February 19th, and we kindly ask both the country and town people to help us with the dinner. The hostess served the guests with sandwiches, pickles, coconut and fruit cake and hot coffee. The next meeting of the Association is scheduled to be held with Mrs. J. P. White on March 7th.

What is Just?

People are perpetually squabbling about what will be best to do, or easiest to do, or advisable to do, or profitablest to do; but they never, as far as I hear them talk, ever ask what it is just to do. And it is the law of heaven that you shall not be able to judge what is wise or easy, unless you are first resolved to judge what is just, and to do it.—John Ruskin.

J. C. Beard Store Was Burglarized Wednesday Night

The J. C. Beard store was broken into Wednesday night by some one and the McCaskey cash and account register stolen and taken away. Entrance was gained through the rear door by prizing it open a little and then raising the door bar by some method. From early reports nothing seemed to be missing besides the register, though some other things might have been taken.

The register weighs something like 150 pounds and in all probability was carried away in a car or buggy. Justice W. E. Peel was working on the case immediately after the store was opened Thursday morning and it may be possible that some kind of a clew may be discovered at any hour. The carrying away of the McCaskey register is a matter that certainly looks very peculiar.

Perhaps Carpenters Struck.

The Victoria tower of the houses of parliament, at Westminster, took some twenty years to build. From base to summit the tower contains 140 spacious rooms—each fireproof and packed with state papers, the records of centuries of English history.

Slang and Idioms.

That the slang and idioms of today will be correct English tomorrow is the opinion of Professor Glicksman, University of Wisconsin. "Our language is made up of what was once slang, idioms, colloquialism and jargon," he said recently.

Sugar Cane.

The leaves of the sugar cane are long and narrow, and the stalks are hard and thick. It looks very much like growing corn, but grows somewhat taller—at times as high as 15 to 18 feet. After the cane ripens, it is cut and taken to a sugar mill.

Ice Blasted and Mined.

Glacier ice from the Alps is delivered to consumers in Lyons, France, and several other cities in Europe. This ice is blasted and mined in the same manner as stone is quarried and is preferred to other ice because of its hardness and lasting qualities.

Milano Farmer Says Taxes Are A Paying Investment

Mr. L. L. Stewart says: Don't kick about your taxes. They represent the only money you pay out for which you get something that is certainly worth paying for. You get in return therefor good roads, good schools, protection by the law and its officers, and every man gets the same amount of it, whether he is a poor man or a rich man. You can use the roads as much as your richest neighbor, and your children can attend the same public free school, and the laws protect every-

one. What would this country be like without taxation, asks Mr. Stewart. It would be like the early western frontier. And he especially urges that there be no movement made to vote off our \$150,000 good road bond issue. To do such a thing, he says, would keep us back many long years from the rest of our country. Keep the bond issue tax going and we will be heading toward a progressive future, is Mr. Stewart's suggestion for our people. He is a real believer in taxation.

Milano Lady Married 50 Years Ago Last Sunday

Mrs. R. A. Hensley, who had been visiting her daughter, Mrs. H. R. Hairston for several months, left Sunday on No. 6 for Santa Anna, where she will spend the spring and summer with her son, C. S. Hensley of that place. Mrs. Hensley said she was married 50 years ago last Sunday, and she remembered that Sunday as being a wonderfully beautiful day, just like last Sunday was. She said it did not seem possible that it had been so long ago since she and John galloped up the winding trail of the Brindelee Mountains in northern Oklahoma to the cross roads leading to the parson's house to be married, for you see, she confided, "John and I ran away."

Lady From Chicago Is Visitor At Oxford City

Mrs. G. H. Johnstone of Chicago arrived in Milano Thursday of last week and was a guest at the home of Mr. and Mrs. J. A. McClellan and family several days. Mrs. Johnstone is one of the good ladies who visit the soldier boys in the hospitals at Chicago and there made the acquaintance of Mr. H. B. McClellan who is still in the hospital in that city. She and her husband came to Fort Worth on business, he being credit manager of the Armour Packing Company, and Mrs. Johnstone took advantage to come down and see the mother and the father of the soldier boy she has been looking after. She left Saturday for St. Louis, and left many good words with the family.

A New Highway Is Now Designated Via Milano

At the regular January meeting of the State Highway Commission at Austin, that body cancelled the Taylor-Milano highway and recorded another one that begins at Taylor and ends at Troup, Texas, and includes Milano. From here the highway is designated to Hearne and completes one detail of the Reagan highway. A road meeting was held with the Commissioners court at Cameron Thursday to determine ways and means of building a bridge over the Brazos River.

Petition Circulated To Stop Market Gambling

Mr. O. P. Lagrone was circulating a petition around town last Saturday endorsing Senator Capper's bill to stop gambling on wheat, corn, cotton and other farm products, and it is needless to say that he found plenty of people willing to sign it with eagerness. Similar petitions are being circulated all over the United States and are being sent to Congress with the hope that our representatives at Washington will have gumption enough to listen to the crying voice of their people.

Milano Citizens Want Dipping Law Amended

A petition was being circulated around town this week requesting our Representatives O. D. Baker and Ike Looney to have the State Legislature to abbreviate the cattle dipping law from two times a month to only once a month for this year in Milam county. This is the third year of dipping in the county and the cattle raisers who signed the petition cited the fact that they were losing much valuable time from their fields by being required to dip twice a week. But it is doubtful whether the legislature would pay any attention to such a petition unless they were presented from all over the county. Some cattle men are opposed to it.

MERE PERSONAL MENTION

Mr. and Mrs. J. S. Beard motored to Waco Thursday, returning Friday.

Passenger Depot Was Scene Of Sad Tragedy

An awful homicide tragedy occurred in Milano Saturday morning at the passenger depot as reported by station agent Mr. S. W. Taylor. The tragedy started in a fight and ended in cremation of the bodies. Two sparrows had a disagreement on top of the depot chimney and both fell off into the deep blackness of soot and smoke and finally one reached the stove to the ticket office and upon examination it was found the bird was badly burned, its little feet and feathers almost a crisp. Mr. Taylor then killed the bird to cease its misery. The other bird was left baking in the stove piping, as it failed to reach the elbow joint where a straight descent would have brought it on down.

Some Mail For Milano Goes To Other Towns

Milano mail still goes astray considerably these days and it is surprising how much mail is delayed several days by being routed to other towns. There is a little post office town away over in Sabine county and off the rail road that gets much of Milano's mail, but we take our hat to off the postmaster there for doing his duty in sending it back. The Gazette gets a few pieces of mail almost every month which have been to Milam, Texas, and there is no telling how many other Milano people's mail is thus delayed. It seems to us that a railway mail clerk ought to be able to read "Milano" from "Milam" and thus avoid wrong routing. Many mail order packages and parcel post matter is also delayed in this way and we believe the matter should be remedied. Probably the post office department could offer a suggestion or furnish the remedy for it.

Newsy Items From Around Cedar Creek

Miss Edna Murphy has returned home from Hearne where she had been visiting for a few weeks.

Mrs. M. J. Dodd is visiting at the home of her son, Mr. Charles Williams and family this week.

Mrs. F. W. Iiams returned home Sunday from a pleasant trip visiting friends at Navasota, Texas.

Mr. S. E. McGregor took his little son, Walter to Doctor Akins at Chriesman Sunday for treatment.

Mr. H. T. Hutto has moved over near the Santa Fe rail road, but is still on one of the Burnet places.

Mrs. W. L. Boothe and children of near Rockdale were visiting at the home of her brother, Mr. Charley Williams and family recently.

Says Freight Rates Are Too High For Melons

Mr. O. P. Lagrone says: He doesn't believe there can be any money in growing water melons for a far-off northern market where the freight on a car of the watery things will cost from \$200 to \$250. A car will average about a thousand melons, and the freight alone would be anywhere from 20 to 25 cents each. Then if the grower is to receive 25 cents each for growing the melons, it would make the cost of the melons 40 to 50 cents wholesale, and perhaps cost the retailer 60 to 75 cents each and the people who bought the melons in the north would pay a dollar each for them. It may work all right, but he's doubtful about it. He said cabbage was reported to be rotting in the Rio Grande fields because the freight rates were too high to market the stuff and people everywhere are more than hungry for the cabbage.

To Clean Milk Bottles.

Milk bottles are sometimes a little hard to clean. Before emptying the teapot or tea ball take out some of the wet tea leaves, put them into the milk bottle and add a little cold water. Put your hand over the mouth of the bottle and shake it well. Rinse thoroughly with clear water. The tea leaves take off all that white deposit that makes the glass dull. This method is sure to cleanse.

Value of Quick Decision.

As a rule the man who has trained himself to quick decisions and prompt actions follows close to the right. He does not need to debate questions as does the man who has become a master of deliberation. His mental faculties seem to work automatically and they are generally right. I'm not sure but that they are more often right than they are with the man who is constantly weighing pros and cons and becoming confused with the issues. He saves time because he acts quickly and he saves everybody the uncertainty of indecision.

Proper Care of Parrots.

Parrots in the wild state live on seed and fruit and should, while in captivity, be fed as nearly as possible the same kind of food. They should be fed sunflower seed, hemp seed, boiled yellow corn, stale bread soaked in water, an occasional piece of apple or banana, roasted peanuts and dry crackers. Plenty of water and gravel should be kept in the cage. The parrot's cage should be cleaned every day.

A Brakeless Motor Car Badly Injures Workman

Mr. G. W. Martin was somewhat seriously hurt last Friday evening on a section workmen's motor car. The workmen were trying to get to the section house ahead of a train which they saw coming and they were running the car at a very high speed when one of the brakes broke and the car could not be stopped very quickly. In some way Mr. Martin was tripped while trying to help stop the car and he fell off, the supposition being that a shovel flew up and knocked him off. As a result he was badly bruised up, especially about the face and when he struck the ground was knocked unconscious. A Rockdale doctor was called who made several stitches about his face and rendered medical aid. At last reports he was getting along as well as could be expected for a man in his condition. The accident occurred on the I. & G. N. road a few miles east of town.

Newsy Items Of The Prospect Community

L. L. Stewart and Clyde Hensley were in Milano last Saturday.

Two children of Mr. and Mrs. Lennard Stewart are suffering with whooping cough this week.

Mrs. Garner has not been so well lately and has been in bad health now for some length of time.

Mr. and Mrs. Homer Gunn of Ben Arnold came over to Hoyte recently to visit with her parents.

Everyone out this way have started some kind of a garden and we hope to have something to eat soon.

Mr. Dick Westbrook of Fulton spent the week-end with relatives in our community, and was a guest of the E. J. Fisher and Clyde Hensley homes while here.

Thursday afternoon of last week while Elbert Oneil was riding home from school, he took Jack Emmons on up behind him, and the horse threw him off, hurting him badly. He was unconscious for some time, but I hear he is getting along all right again at the present time.

How Frogs Protect Eggs.
In the manner of disposing of their eggs many species of frog exhibit remarkable peculiarities. One of the most curious, a tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

Flowers.
Flowers seem intended for the solace of ordinary humanity; children love them; quiet, tender, contented, ordinary people love them as they grow; luxurious and disorderly people rejoice in them gathered; they are the cottager's treasure; and in the crowded town mark, as with a little broken fragment of rainbow, the windows of the worker in whose heart rests the covenant of peace.—Ruskin.

Copy Of The Gazette Is Quite Mysteriously Lost

As Mr. W. E. Thomas was walking to town last Saturday morning along the Santa Fe track from his home he picked up a copy of the Gazette wrapped up in a mailing wrapper addressed to the Southwestern Advertising Company, Oklahoma City, Okla. The paper was found a short ways north of town and the only way we can account for its being there, is that it was put on board No. 16 that Friday night, and in trying to throw the paper into its proper mail bag the mail clerk on the train made a mis-throw and it went out his open door. The copy of the paper had been mailed that Friday afternoon and was routed for No. 16 that night. This shows just one more reason why some subscribers fail to receive their paper once in a while. Of course this doesn't happen often, but it shows there are chances for losing mail even while in transit.

Headache Cure.

A teaspoonful of charcoal powder in half a glass of water, is a cure for sick headache, and relieves heartburn. The powder is difficult to mix with water; it assimilates better with milk, so that the quantity named should be worked to paste with a small quantity of milk; sufficient water to make the draught being added.

Gulf Stream's Course.

The force and velocity of the Gulf stream vary, to some extent, but its course does not materially change until it has run hundreds of miles northeastward off the coast of the United States. Gradually it does then shift its direction more eastward, at the same time spreading like a fan and becoming shallower.

Milano Country Is Still A Very Wonderful Land

The Milano country and its citizenship are feeling at home today as the mild breezes and pure ozone are shifting through space at a rapid pace. The way things have been drifting along lately, everything quiet and undecided, we kinder get to hankering for one of these days to remind us that we are still living down here in the sandy land where the smiles are a little brighter and the hand clasps a little warmer. Yes, this is God's country out here, not withstanding facts rumored to the contrary. Out here where people believe in doing things big, and who are not discouraged at a little drouth or the present price of cotton, but who believe that the to-morrows will take care of themselves, provided we take care of the todays in the right kind of way. The Milano country always produces a living for the man and his family who goes ahead and keeps busy.

Newsy Items From Around Pikes Peak

The farmers are busy preparing their land for corn planting.

Horace Fortner and father were Cameron visitors last Saturday.

Mr. and Mrs. E. R. Cates have moved from Milano to the Jim Stewart place here at Pikes Peak.

Mr. J. W. Ford of the Prospect community was a visitor among friends in our midst Saturday.

Miss Jodie Fortner and Mr. Howard Wilkerson were united in the holy bonds of wedlock Friday of last week. They were accompanied by Mr. and Mrs. H. A. Fortner over to Rockdale where the ceremony was performed. They returned to Milano and left on No. 1 for San Antonio, where they will make their home. We wish them good luck and much happiness.

Express Company Will Accept Relief Donations

Our express agent Mr. V. W. Brooks is accepting cash contributions from the Milano people who may wish to donate to the starving children of Europe. The express company is handling the money and Mr. Brooks will issue you a certificate to each person who gives as much as a dollar or more. One dollar will feed a child for one month, and \$10 will feed it until the next harvest. If you have a dollar to spare you could not give it to a greater cause than to hand it to Mr. Brooks for the European Relief funds, and the certificate he gives you will show that you have done a great act for suffering humanity. There are 3,500,000 children, mere waifs, on starvation; they need rice and bread. John D. Rockefeller gave one million dollars to this cause. Other millionaires have given much, but they need more.

Not a "Cheap Duchess"

Everyone told stories about Queen Victoria. The one I liked best was of her correction of a draft letter to say that the duchess of Connaught was to join the queen's train. The queen wrote in pencil on the draft, "You should always describe the duchess as 'her royal highness,' to show that she is not a common duchess." —From "The First World War," by Colonel Replington.

Local News Items Round About Town

Miss Myrtle Worthington was visiting in Navasota Saturday and Sunday, a guest of relatives.

Mr. G. W. Butts says: He's going to try an acre of water melons this season if the freight rates don't get him scared off. He believes there is some little money in growing the melons if a proper marketing system can be arranged for selling them.

Rev. C. L. Shelby and Prof. G. S. Dow, both of Baylor University, came down last Saturday and held services at the Baptist Church here Sunday. It was Bro. Shelby's regular appointment here, but instead of preaching he had Mr. Dow deliver a lecture at both the morning and evening hours.

The boys' basket ball teams from the Gause and Black Jack schools met here at the Milano school ground last Friday afternoon and played a game that scored 29 to 2 in favor of Gause team. The visitors came over in automobiles and the Gause team was about as happy and jubilant after the game as though it was Milano they defeated.

Doctor G. B. Taylor, the eye, ear, nose and throat specialist of Cameron, has just recently completed the work on his new office rooms in the Reno building over the "Palace of Sweets" and is now even better prepared to receive his clients than he was before. Doctor Taylor invites all his Milano friends to call and see him when they need his services and advice.

Mr. J. H. Burnet says: He believes this year will be a dry one, and if so it will be a good year to grow cotton in the Milano country. This country always makes more cotton during a dry year than it does through a wet year, as dry weather eliminates the boll weevil to a great extent. Mr. Burnet also believes it will be a good idea to plant plenty of cane, some corn, and all kinds of other various feed crops.

THOSE WHO FORGET NOT

Miss Jewell Cannaday left 75 cents with us Tuesday for a half year's Gazette subscription which goes to her uncle, Mr. D. R. Cannaday and family at Ada, Oklahoma.

Mr. F. W. Iiams left a dollar with us Saturday for two Gazette subscriptions, one of which goes to Mr. and Mrs. Clyde Jackson at Rockdale and the other was for himself.

We acknowledge receipt of a dollar from Rev. R. O. Wier for renewal subscription to the Gazette which goes to him and the family at Houston, Texas. Bro. Wier reports the family all well and contented.

We acknowledge the receipt of a dollar from Mr. Amos Wolf of Oakwood, Texas, for a renewal subscription to the home town paper which goes to him and Mr. and Mrs. Joe Mitchell. He said they were all well and getting along fine.

Mrs. Oala Bristow left 75 cents with us Wednesday for a half year's Gazette subscription which will go to her at El Paso, Texas, where she and Mr. Bristow have been located for some time. Mrs. Bristow says El Paso is a city of almost perpetual sunshine and summer climate.

The Gazette's weekly paper bill amounts to \$7.10. If you think we are making money at \$1.50 a year watch this column each week and figure for yourself. All over \$7.10 is our profit, providing we take in at least that amount every week. We are at present burdened with a deficit of \$49.49 for receipts up to date.

Physician Still Needed For Milano Territory

Some one stated at the Commercial Club meeting the other night that Milano needed a doctor. And indeed the town does. There is no physician here and has not been in many months and should a severe epidemic of sickness or disease spread over this community it would mean a dangerous situation. Mr. W. T. Brooker informs us there was a doctor in town Monday from Oklahoma looking over this town, but it seems he went on to other points to consider a location. Doctor F. A. Liddell, who is still at Waco, writes that he expects to be back in Milano by March 1st, but the town has been expecting him back for months. The Doctor has been having a hard time getting over the effects of an operation.

Justice court met in regular monthly session here Thursday.

The Trustee Election Is Only One Month Off

It will soon be time for another trustee election for the Milano school and if there are any candidates who wish to announce the election will be glad to publish their names on a ticket in the paper. The election will be held the first Friday in April, and the people of school district have the right to nominate the candidates if they decide by holding a public mass meeting, or candidates themselves announce their candidacy. The district has as much right to be as the men and if the women want to exercise their full rights.

Price Of Gazette Reduced From 4c To 3c A Copy

The Gazette has reduced its subscription price from \$2 down to \$1.50 a year. We have been trying to do this for a month or more and we have urged no one to pay their subscription too far in advance, as we wanted to give as many subscribers a chance of the reduction as was possible. We are even going back for the month of February and extend subscriptions of everybody who paid up during February, so there won't be any regrets, but farther back than this we can not go. Cheaper than \$1.50 a year the Gazette will never be, and many other weekly papers will never be cheaper than \$2 a year. The big daily papers are still holding their weekly Sunday editions at \$2.50 a year. The Gazette has not had any reduction at all in the price of its paper cost, but we have managed to reduce the cost of printing a few cents a week in a number of ways, and we will at least take a chance that we might possibly get by on selling the Gazette at \$1.50 a year.

Street To The School House Is Being Graded

Among the matters attended to at the recent meeting of the Milano Commercial Club Mr. G. W. Hilliard of the civic improvement committee suggested the working of a street to the Milano school building and several members present offered their labor and teams. Mr. Dan Robinson said he would give \$10 cash toward the move. The matter was left in hands of the committee. Work was started on this matter Monday morning, two teams having shown up, and the workmen have a tremendous task before them in covering up the big gullies, but after working on it for several days they have certainly done some wonderful work. Anybody who can give a team or a little work on this move will have the thanks of all.

Mrs. G. W. Beard is report quite ill at her home near Cedar Creek.

War Is Declared On Rats Around Milano Vicinity

A rat exterminating campaign was suggested at the last meeting of the Milano Commercial Club and it was decided to have the Club pay a bounty of 25 cents for every rat tail brought in. A committee of three, A. J. Cook, Dan Robinson and G. W. Hilliard, were appointed to arrange plans for the campaign and set a date for the extermination. A cash prize of \$10 will also be given to the person bringing in the largest number of rat tails at the close of the campaign. The campaign will last about 2 or 3 weeks, but no date has as yet been set by the committee for the work outlined.

Milano Merchant Gets Printing From St. Louis

One of our Milano merchants had something over \$100 worth of printing done in St. Louis the past week instead of patronizing the home printing office. Said he got it done cheaper than the Gazette would have printed it. The Gazette would have printed it just about as cheap as the St. Louis concern, but the merchant didn't even ask us for a price on the printing. The Gazette says if you can get printing done cheaper elsewhere than we charge you just go ahead and get it elsewhere. But we would like to have you give us a whack at the matter by asking for prices. Occasionally some big printing concern might outdo us a little, but they have the advantage of us by buying their paper by the carload and get it for almost one-half we pay. Of course we can buy our groceries and other things cheaper too by patronizing the big cities, but we have always taken a pride in spending our money here at home. One thing sure, prices for printing are always much lower in Milano than at Rockdale or at Cameron.

A Plot Marred.

"I hear that the grocer discharged you for swindling him," remarked Mackindle to a friend. "It's a lie!" said the latter. "He asked me to..."

The Store that Has the Goods

Quality plus Service; and as to prices I invite competition. All the so-called cheap prices are a few articles you see advertised at cost and some below cost. YOU, the consumer, pays the difference in the long run. I have one price to all and my stock of groceries are based on as small a margin of profit as you can find anywhere, quality considered.

My first shipment of Ladies' Spring Hats are here, and I must say they are the best assortment that I have ever had, and they are priced much below last season's prices.

Newsy Items Of The Liberty Community

Mrs. Ella Lewis visited at the Jesse Kirk home Sunday of last week.

Mr. and Mrs. Willis Smith were visitors at the Hildebrandt home here Sunday before last.

Mrs. Ed. Robinson visited at the home of Mrs. Jim Hartley, over at Hanover Sunday before last.

J. T. Bullock became very ill and was taken to the Cameron sanitarium the early part of last week.

Bro. Jackson, a Baptist minister, preached for us Sunday before last, also the Saturday night before.

Mrs. Helen Bussa of Houston was visiting her mother, Grandma Westbrook, and other relatives in this community a few days last week.

The school children enjoyed Valentine Day at the school house by observing the occasion with a valentine box, and many beautiful valentines were exchanged.

If you, who take the Gazette and live in the Liberty settlement, should at any time find your name omitted from this column concerning a visit or other news, just write it on a slip of paper and send it to the correspondent and it will be published. It is impossible for us to get all the news every week, so don't fall out with us. We have no pets as has been reported.

System Counts.

The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it!

Mr. E. C. Smith Drug Store has moved its drug store from the rear of the bank to the rear of the store and on account of needing a little more room Mr. Smith is offering several lines of his merchandise at cost. Look up his ad in this issue for full particulars. It may save you many a dollar.

Owing to the severe cold weather Saturday only a few of the farmers met at the water melon meeting at the Odd Fellow hall, but enough were present to push things along and arrange for seed. Mr. George Banger of Rockdale was present and spoke on the advantages of raising water melons this year.

Mr. J. T. Haynes says he's going to grow considerable truck this year and let cotton entirely alone. He intends to raise some tomatoes, cucumbers and extra early water melons. Mr. Haynes believes he can grow the melon vines in bottom-land cans and later transplant them without killing the plants. Anyway he's going to try it out.

Dire Effect of Stuttering.

We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. The few that have the supreme endurance to keep on and override their handicap to success pay a terrific price for their struggle. Many a stutterer has...

Writes In Reply To The Summit Correspondent

We want to say a few words of encouragement to the Elevation correspondent. Yes, men and women stand equal before the laws of the United States. And giving women the right to vote is quite an improvement. It is just and proper that they pay poll tax from the same source as men. Nine-tenths of our school teachers are women and get equal pay with the men teachers. They have the full privileges and protection same as men, and should help their part in the support of the government, and give one-half the road to a man same as if they were a man. They should obey the law too, or suffer the penalty same as a man. They should vote and help elect a clean and sane government. They should work the roads and be subject to military duty, same as a man, and stand where God intended them to. Now sister, cheer up, get your trotting harness on and be a good citizen. "Noname."

Dove Figures In Folklore.

The dove or pigeon has occupied a prominent place in folklore, legend and history since the bird brought the olive branch to Noah. The earlier artists used the dove frequently in their religious paintings. The "Madonna and Child," and the angels are shown with...

Farmers Meeting To Be Held Here Next Monday

Mr. J. R. Tidwell, a representative of the State Department of Agriculture, will hold a Farmers' Institute meeting here at Milano on Thursday of next week, March 3rd, at 2 o'clock p. m. The meeting will probably be held at one of the lodge halls and all farmers are urged to attend the meeting. Mr. Tidwell will devote much of his time to agitating a cotton reduction acreage. He is a good speaker and the people will gain much good by coming out and hear what he has to say. It costs nothing at all to attend this institute meeting or to join it, as it is a work of revival in agricultural interests planned by the State Agricultural Department.

Meeting At Rockdale And Milano Conflict

The Secretary of the Rockdale Chamber of Commerce wrote the Gazette man a "warm" letter the other day because we refused to publish a notice in the Gazette asking Milano farmers to attend a truck growers meeting at Rockdale on the same day and the same hour that a similar meeting would be held here at Milano. He sent a duplicate copy of the letter he wrote us to President W. O. Newton of the Milano Commercial Club. The letter was so long that we have not as yet finished reading it. Had we published the notice of Rockdale meeting it would have caused confusion among our Milano farmers. We did just what we thought was best.

Mr. Howes says in writing, Mr. George Howes is 18 years younger than our postmaster, he being 63 years of age, while the latter is 66 years of age.

Brother Of Milano Man Dies At Kansas Home

Captain L. Bedell received a message last week from Larned, Kansas, stating that his brother, Mr. Albert Bedell had died there on February 18th. Burial took place on the 20th. Mr. Bedell was 78 years of age, being a few years younger than the Captain. The wife of the deceased had preceded his husband in death 30 years ago. Mr. Bedell, like his brother, was a soldier in the Civil War, and a member of the Masonic order. The deceased is survived by several children, his brother here at Milano and a sister at Lintin, Indiana. Mr. Bedell was a very prominent citizen of Larned and the papers recorded his death with lengthy obituaries and biographical career.

Says Cotton Must Be Grown For Money Crop

Rev. J. P. Sparks says: Certainly, he's going to plant cotton again this year. It's the only crop he can figure out that will pay off his honest debts and keep him a free man above poverty. Says he fared pretty well last year by getting his cotton out early and got 28 and 30 cents a pound for it, and while he should have gotten more, he is not totally discouraged with the cotton growing industry by any means.

Says Milano Will Have To Raise Egg Prices

Mr. C. M. Beard says: What's the matter with the Milano egg market? Last Saturday eggs were worth 20c a dozen one side of our town and 22c on the other side. And over at Rockdale that day, he said they were bringing 25c a dozen. He said if Milano merchants wanted to buy his eggs they would have to pay better than Saturday for he has no scruples about going to Rockdale to sell his eggs. He's got a Ford car and likes to ride anyway.

Thunder In February Means Frost In April

"February thunder means frost in April," is what we heard two Milano citizens say the other day. It thundered as late in February as last Monday, the 28th, and according to this theory or old time belief, spring would come alone late this year, for there was considerable thunder all through February, but the most of us are too optimistic of the future to worry about late frost. Of course it can frost in April but it is not likely to be a killing frost.

Grandmother Westbrook Enjoys Family Reunion

(By the Liberty Correspondent).
On February 13th, the children, grand-children and relatives gathered at the home of Mrs. Lola Spaulding to enjoy an old time reunion in honor of Grandmother Westbrook. All tried to make the day a happy event and a sumptuous dinner was served. Those present were: W. R. Westbrook of Runge, Mrs. Helen Buses of Vivian, La.; Mrs. Edna Trigg of Denton, Mrs. T. E. Westbrook, J. L. Stewart of Gause, Mr. and Mrs. Jeff Mills of Milano, Mrs. John Walker and Mrs. Ruth Underwood of Rogers; Mrs. Ab Stewart of Gause, and Uncle Ab Westbrook. She received many nice gifts, for the children always remember "Mother."

Easter Comes Around Quite Early This Year

Easter Sunday comes early this year, March 27th. In many long years of time it could come only 6 days earlier than this year. Easter Sunday always occurs after the first full moon that happens after the vernal equinox, which generally falls on March 21st or 22nd. Some years Easter comes along late in April, but this year it comes in March; and some say that an early Easter means an early spring.

Water Melon Grower Writes Milano Citizen

Mr. C. W. Butts reports having received a letter from his nephew, Hemstead, Texas, recently, wherein he gave Mr. Butts some information on the water melon industry there. He said last year the highest price paid for melons was \$850 for one car, but that they went down to as low as \$100 a car. This man says he is going to put a 12-acre cotton field in melons this year, which shows what he thinks of melon growing. The price he mentions means a net price paid the farmers for the water melons.

Good Work Is Done On Street To The School

That street which was worked and graded leading to the Milano school now looks very commendable. It was a big job, but lots of good will, determination and free hard labor and donations of other might, have made a wonderful improvement on the street. Building up streets and roads is a big undertaking, especially when you make an avenue out of a lot of gullies and ridges. But that's what the Civic Improvement Committee of the Milano Commercial Club did. We would suggest this street be called College Avenue.

Headache Cure.

A teaspoonful of charcoal powder in half a glass of water, is a cure for sick headache, and relieves heartburn. The powder is difficult to mix with water; it assimilates better with milk, so that the quantity named should be worked to paste with a small quantity of milk; sufficient water to make the draught being added.

Milano Citizen Gives A Forecast For Year 1921

Captain L. Bedell says: The year 1921 is to be a year of Low Prices. Everything must come on down. Everything commercially and industrial will have a tendency to lower the high cost of living. Climatic conditions will give us a dry and cool spring, but the summer will be hot and sultry, but quite damp. The autumn season will be wet and dreary. This present winter is mild to what winter will be next year. Crops this year will be good almost everywhere. The year 1921 will average a very good year for everybody generally if you take advantage of it and put forth your labors. He advises you to plant plenty of everything, especially feed, and he cites a warning against a possible feed shortage. Paste this on the wall somewhere.

Black Cap's Significance.

The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The Judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

Send In The News Just As Early As You Can

Some of the Gazette's correspondent letters have been coming in a little late each week, and where this occurs the news is delayed until the next issue of the paper. Letters reaching us on Wednesdays can not always be assured publication that week, as one-half of the Gazette is printed on Wednesday. If possible, we prefer to have all letters and communications reach us not later than Tuesday, and by mailing your letters on Monday it will always insure their prompt publication in that week's issue of the paper. Early news receives first attention.

Income Tax Collector Will Be Here Monday

For several weeks notices have been posted around Milano in the way of circular letters advertising that a Deputy Revenue Tax Collector would be in Milano on March 6th to help the Milano people make out their Income Tax Reports. The Gazette made no announcement of this because March 6th falls on a Sunday, but we have better information now that Deputy Collector A. P. Hicks will be in Milano on March 7th, which is next Monday. All people, whether farmers or business men, whose net income amounted to \$2,000 or more for the year 1920 if they are married, and also all the unmarried persons who made as much as \$1,000 must make out the report. Mr. Hicks will probably be found at the Milano First State Bank while here.

Bather Slim Excuse.

Celia and Bobby disagreed, whereupon Celia slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

Petition From Milano To Congress Received

Mr. O. P. Lagrone reports having received an acknowledgement from Senator Capper of Washington for the petition Mr. Lagrone sent to Congress endorsing the Senator's bill to stop gambling on cotton and all farm products. The petition from Milano contained 94 names, and similar petitions have been forwarded from all parts of the United States by the thousands. Owing to shortness of time the Capper Bill was delayed, but it will again be presented to Congress when that legislative body reconvenes under the new Republican administration.

The Store that Has the Goods

Quality plus Service; and as to prices I invite competition. All the so-called cheap prices are a few articles you see advertised at cost and some below cost. YOU, the consumer, pays the difference in the long run. I have one price to all and my stock of groceries are based on as small a margin of profit as you can find anywhere, quality considered.

My first shipment of Ladies' Spring Hats are here, and I must say they are the best assortment that I have ever had, and they are priced much below last season's prices.

Shipment of soaps, consisting of Palmolive, Wool soap and Ivory, received this week. These soaps are recommended by all sanitariums. Try them and see.

My prices on staple and fancy groceries, such as Irish potatoes, onions, beans of all kinds, rice, canned goods, coffee, sugar, meal, bacon, lard, flour, syrups, etc; are guaranteed.

Complete stock of Kelley Plow Points, wings, land slides, etc; also most anything you might want in wood work material.

Bring me your eggs and butter. I guarantee you the highest market price. Butter market strong in Milano. I urge you to get my prices before selling elsewhere.

The Power in a Tree.

A young man wished to measure the force that drives the sap upward in trees and shrubs. So he cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great is the force that drives sap upward.—Popular Science Monthly.

Horse That Keeps His Head.

When a horse suddenly finds a sled with four children on it in collision with him, rears up, comes down with one foot well out in front of the children and holds up the other till they scramble to safety, he literally gallops into everybody's heart. That's what a horse did recently in a Massachusetts town.—Our Dumb Animals.

More Price Reductions

Have a few more dishes and cooking ware that are going at what they cost us. Beginning Saturday and until first of April we offer all Silverware, Cut Glass, Jewelry, Belts and gold and silver buckles and leather goods at cost plus war tax.

Also beginning Saturday, March 5th, and until further notice we will sell all Toilet Goods and Patent Medicines at the regular price without adding the price of stamps. To make it plain—we will put the war stamps on without cost to the purchasers. Remember there Will Be Nothing Charged at the Above Prices—Strictly Cash Sales.

We are overstocked for our space and are going to reduce our stock. From time to time we are going to offer the public some bargains. Meet all catalog prices on same grade and quality of goods. Come here to trade. No tricks or snares, just plain facts and prices. If you wish we will give you our cost marks. Call for them if in doubt.

Expect to arrange to pay cash prices each Saturday for eggs.

Some Interesting Facts About Growing Cotton

Marlboro county, South Carolina, claims the distinction of averaging more cotton to the acre than any other county in the United States. Ellis county, Texas, is the banner cotton growing county of the United States in the total number of bales produced. Cotton is grown in Asia as far north as the latitude of Chicago. The largest cotton crop ever produced in the United States was during the year 1913 when 14,156,486 bales were gained by reports received from the gins over the cotton growing states.

If You Don't Believe It Just Ask Him About It

Our friend Mr. E. R. Cates of the Pikes Peak community recently sent \$2 to a mail order concern which advertised that they would send 10 pairs of socks for that amount of coin. When the socks arrived Mr. Cates sat right down and wrote the firm a letter by return mail which read as follows: "Socks received; patterns are so vile and loud that I wouldn't be seen on the streets with them on." Back came the answer: "What are you kicking about? Didn't we advertise that you wouldn't wear them out?"

Money In The Bank

There can be no better asset for any man to have than
money in the bank. Here are some of the reasons:

First—Safety; money in bank is secure. It does not fluctuate, and it is not subject to the rise and fall of markets or other conditions. Second—It is a reflection upon the thrift and the good sense of our people to suggest that they do not need a bank account. What they need is to become better acquainted with this good bank and its modern banking methods.

The Hide Market Is Down To Rock Bottom

Mr. H. R. Hairston, the local hide buyer in Milano, says hides are worth almost nothing today. During the war he shipped a hide to market and received \$29 and some cents for it. Recently he shipped a hide and received 44 cents for it. With hides at this price he says shoes ought to 50 cents a pair. The price of hides today isn't enough to pay a man for his time and labor that is necessary to skin the hides.

Prices At Milano Are Better Than Elsewhere

According to the Thorndale newspaper the poultry and egg market was much better here at Milano than in that hustling town. Fryers were quoted at 18 to 20c a pound, while here at Milano they were bringing 25c cash. Eggs were quoted at 20c, while here at Milano they were bringing 25c. All of which we cite merely to show that Milano prices are never as low as some people might think they are.

Do You Know The Facts

About Building Costs?

Do you know that lumber and building materials are down? Have you talked to us lately about building?

Do you know how reasonably you can make needed repairs, build your new home or remodel your old one? Better get in touch with the situation at once.

The big building program that was expected in 1920 failed to develop. The manufacturers were caught with too large stocks and they were forced to turn them over at almost cost. We can show you a substantial saving on almost every item in our line.

But it's only fair to tell you this condition might be only temporary. The country is short more than a million homes. Our own city is short 50 homes.

And when people begin to do this long delayed building, the demand will increase rapidly, creating another shortage of materials and prices will advance again.

If you are planning to build, remodel or repair, come in and let us give you figures. Then when we show you how favorably present costs compare with those of 1914, make your own decision.

Get in touch with us today.

Commercial Club Will Meet On Monday Night

Next Monday night, March 14th, is the regular monthly meeting time for the Milano Commercial Club at the Odd Fellow hall. The Club is just one year old and the time for the election of new officers or re-election of the old ones will be some of the business on hand to transact. Regardless of what some citizens say, the Club has done much good work during its first year, and if the organization keeps going it doubtless will do even more good work during the coming year. If you have never attended, come around Monday night and see how the Club and its members work.

Big Milano Cotton Grower Will Cut Acreage Heavily

When we asked Mr. B. N. Ashley the other day what he was going to do with his cotton crop this year, he replied that he was going to reduce his acreage 92 per cent. Last year he planted 100 acres in cotton and this year he will plant only 8 acres, just enough for table use. And if you don't believe Mr. Ashley can use cotton on the table you are just mistaken. For he told us he

could feed the cotton seed to his Jersey cows and the family could eat the butter and drink the milk. Next we asked him what he was going to do with all that good land on his ranch, and he said he's going to plant plenty of feed and go to raising hogs. He's also going to plant three or four acres in water melons and set'em up to the pigs. Such is Mr. Ashley's 1921 program.

We are glad to see our citizen Mr. B. McGregor up and about town again. He was able to be up the first of the week.

Perry Hairston and Claud Shaffner were scheduled to leave Thursday of this week for San Antonio to enter the summer military training camp there for young men.

Mrs. E. H. Hensley of Houston and her two grand daughters, the Misses Ditto, are visiting at the home of her mother, Mrs. W. F. Hooker and family this week.

Miss Carmen Robinson, who is attending Baylor College at Belton, spent the week-end at home with her parents. She was accompanied on her visit here by her cousin, Miss Grace Hill of Temple.

Mr. W. Boggan will assume charge of the Henry Hairston ice vault beginning this Friday, July 15th, and will manage it in connection with his meat market, the two places adjoining doors. See his notice in the want ad column this issue.

Mr. C. B. McClellan is building a new barn out on his place in the Oxford City community. And we hear that he is building a rat-proof structure of it. The barn is built of lumber and sheet iron and the parts which are accessible to rats will be filled with cement. That's a pretty good idea. No use in giving free board and lodging to the rats.

Mr. S. E. McGregor told us the other day that while he was riding over his farm some few days ago he reached up and broke off a twig from a post oak tree and noticed after breaking it off that it was abundantly covered with acorns, and so thick were they that he had to take the twig home and count them. He found there were exactly 69 acorns on that small tree twig.

Mr. and Mrs. V. W. Brooks and children returned home this week from Madisonville, where they had been visiting among home folks for the past week or two and enjoying their period of summer vacation. Mr. Brooks reports the eastern part of the state in about the same conditions that our country is in. There are some good crops and some mighty bad. The weather has been extremely rainy and hot.

Mrs. S. E. McGregor says she believes if no efforts are made by the Milano business men to find a market for the farmer's produce and other products the town of Milano will soon be more dead than it is today. She made reference to what Milano merchants did some few years ago when they shipped out car loads of truck every year and they were always ready to buy more. Today a farmer can sell practically nothing at Milano she says, and it is discouraging the farmer and also driving him to other towns to sell his products and do his trading.

Tuesday morning quite a number of Milano people went to Cedar Creek for a gathering to spend the day in picnicking, swimming and fishing. After several hours of enjoyment on the Creek lunch was served to about twenty. The occasion was given in honor of Mrs. G. E. Mullins and children of San Antonio. Those present were: Mrs. J. P. White, Miss Myrtle Worthington, Mrs. G. W. Mullins, Mrs. G. D. Hooker, Mrs. Mattie Springfield, Mrs. Claud White, Mrs. F. W. Iiams, Mrs. G. E. Mullins and children, Messrs. Claud White, J. T. Bullock, G. D. Hooker and Carl Hooker and others. Just before the crowd adjourned they were sumptuously treated to water melons and cantaloupes by Mrs. Iiams, after which they bid each other goodbye and all of them declared that they had never spent a more pleasant day.

Not Right Kind of Laughter. One is tempted sometimes to laugh at another's mishap or disappointment, but the laughter that leaves a sting in someone's heart is not the sort of laughter that helps anyone.

Professor's Theory Like
Milano Citizen's Idea

A famous professor of a northern university recently committed suicide to prove to the world that the dead can talk with the living. One week after his death he communicated with a lady with whom he had previously made arrangements and said that life in the Beyond was apparently much like it was here on earth, that form and vision were retained; that life there was without any responsibility and was as much a mystery as here on earth, declaring life was just one series of life after another, a perpetual existence.

This is in perfect accordance with what Captain L. Bedell of Milano has told the Gazette a number of times. The Captain says he knows places where he has been before during another life, and your dreams will prove it to you. For, he says, haven't you dreamed many a time of being at a certain place and remembering that you had been there before? Yet when you woke your mind couldn't recollect it. Dreams, he says, try to reveal our former existence and we haven't power enough to realize or solve it.

Believes There Will Be
Good Money In Hogs

Mr. L. L. Stewart of the northern Milano country says he now has 80 head of hogs which are devouring \$100 worth of corn a month, but he believes they are worth the expense. He is of the opinion that hogs are going to be worth good money before this year is out. According to a government report he said the world was 10,000,000 hogs short, and that fact alone ought to stimulate the hog market next fall. He is preparing to raise squashes and other truck to feed the hogs on this spring and summer and says he's going to plant 4 acres in water melons, and if the price of melons don't suit him, then he's going to donate the entire crop to the hogs. It's like pie and cake to the swine and will help feed them for a while.

We repair and re-charge storage batteries. Young Bros. Battery Company, Rockdale, Texas. Adv.

The Brains Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

The Store that Has the Goods

Quality plus Service; and as to prices I invite competition. All the so-called cheap prices are a few articles you see advertised at cost and some below cost. YOU, the consumer, pays the difference in the long run. I have one price to all and my stock of groceries are based on as small a margin of profit as you can find anywhere, quality considered.

My first shipment of Ladies' Spring Hats are here, and I must say they are the best assortment that I have ever had, and they are priced much below last season's prices.

Shipment of soaps, consisting of Palmolive, Wool soap and Ivory, received this week. These soaps are recommended by all sanitariums. Try them and see.

My prices on staple and fancy groceries, such as Irish potatoes, onions, beans of all kinds, rice, canned goods, coffee, sugar, meal, bacon, lard, flour, syrups, etc; are guaranteed.

Complete stock of Kelley Plow Points, wings, land slides, etc; also most anything you might want in wood work material.

We paid 25¢ a dozen for eggs last Saturday. If you want to receive the highest market price for your eggs bring them to us.

"The Store Behind the Ad."

The Power in a Tree.

A young man wished to measure the force that drives the sap upward in trees and shrubs. So he cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great is the force that drives sap upward.—Popular Science Monthly.

Horse That Keeps His Head.

When a horse suddenly finds a sled with four children on it in collision with him, rears up, comes down with one foot well out in front of the children and holds up the other till they scramble to safety, he literally gallops into everybody's heart. That's what a horse did recently in a Massachusetts town.—Our Dumb Animals.

More Price Reductions

Have a few more dishes and cooking ware that are going at what they cost us. Beginning Saturday and until first of April we offer all Silverware, Cut Glass, Jewelry, Belts and gold and silver buckles and leather goods at cost plus war tax.

Also beginning Saturday, March 5th, and until further notice we will sell all Toilet Goods and Patent Medicines at the regular price without adding the price of stamps. To make it plain—we will put the war stamps on without cost to the purchasers. Remember there Will Be Nothing Charged at the Above Prices—Strictly Cash Sales.

We are overstocked for our space and are going to reduce our stock. From time to time we are going to offer the public some bargains. Meet all catalog prices on same grade and quality of goods. Come here to trade. No tricks or snares, just plain facts and prices. If you wish we will give you our cost marks. Call for them if in doubt.

Expect to arrange to pay cash prices each Saturday for eggs.

Rats turned over two quart size bottles full of syrup in the Palace of Sweets drink parlor Tuesday night and the contents were split over everything nearby the next morning when Mr. Miller opened up.

Mr. E. R. Cates says: He can't understand why people are afraid of a dry year in the Milano country, when as a rule a dry year here always means better crops than a wet year. Says he's even going to go to work himself and try a little farming this year near Pikes Peak.

Mr. M. E. Ashley is offering Mebane, Lone Star and Kasch cotton seed for planting at 50 cents a bushel at his farm. Where this seed is bought from seed houses they want \$2 to \$2.50 a bushel for it, but Mr. Ashley says times are hard with the farmers and he believes in selling them seed as cheap as possible.

THOSE WHO FORGET NOT

Miss May Luce left 75 cents in our care the other day for a renewal subscription to the Gazette.

Mr. Jim Silvey left 75 cents with us Tuesday for another half year's subscription to the home paper.

Constable W. F. White handed us a half dollar the other day with which we are to keep the Gazette going to him for another period.

Mr. J. J. Morgan of the eastern Milano country left \$1.50 with us last Saturday for a year's renewal subscription to the home paper.

We acknowledge receipt of 75 cents from Mr. and Mrs. L. T. Hughes of Bartlett for a half year's renewal subscription to the Gazette.

Mr. F. M. Hildebrandt of the northeastern Milano country left \$1.50 with us while in town last Saturday for another year's renewal subscription to the home paper.

Mr. J. F. Kohut left a half dollar with us Saturday for a renewal Gazette subscription which goes to his brother, Frank Kohut at Cyclone, by way of Burlington rural route 1.

We acknowledge receipt of a dollar from Mr. A. L. Graham of the Summit community for 8 months' renewal subscription to the home town paper which reaches his home by way of Milano route 3.

Mr. W. W. McCallum left a dollar with us Wednesday for a couple of Gazette subscriptions, one of which he sends to his niece, Miss Thelma Davis at Miles, Texas, and the other for himself and family.

J. T. Williams of some 5 miles west of Milano left \$1.50 with us last Saturday for another year's renewal Gazette subscription which goes to his father, Mr. S. N. Williams, and reaches their home by the way of Milano rural route 2.

Mrs. S. M. Bullock left a dollar with us one day this week for a couple of Gazette subscriptions which she sends to her daughter, Mrs. J. J. Chaney at Parris Island, South Carolina; and the other to her son H. G. Bullock at Necessity, Texas, in the western oil field country.

By being reminded by his good wife Mr. W. F. Hooker handed us a half dollar some few days ago for a 4 months' Gazette subscription which goes to their son, J. D. Hooker at Port Sullivan, where he has recently located with the firm he had been working for at Hearne.

Rambling Boys Cause Dog To Attack A Cow

A cow belonging to Mr. T. E. Mills was badly chewed up about the head recently by a dog, or perhaps more than one. A bunch of boys came over to the tank with the dog. They had been going in swimming. The tank is located on the D. R. Cannaday place in the Prospect community and the farm is occupied by Mr. Mills and his family. Mr. Mills says he didn't object to the boys rambling over the place but he certainly isn't going to let their dogs chew up his cattle. He knows who the boys are and is seriously meditating what to do about the matter. Running your dogs after cattle is as much an offense of the law as to tear down a man's house or to rob it.

Egg Prices Better In Milano Than Elsewhere

By the Oakdale Correspondent.

We seem to have better luck selling our eggs at Milano than we do at other towns. I heard some of our neighbors talking Saturday night wanting to know how much they got. Some of them went to Cameron to sell their eggs and us that went to Milano laughed.

Liberty Lady Leaves For South Carolina Point

By the Liberty Correspondent:

Mrs. J. J. Chaney, who has been visiting her mother, Mrs. S. M. Bullock a few weeks, left Tuesday for Parris Island, South Carolina, where she will join her husband. Mr. Chaney has been stationed there from San Antonio and is located at the government marine barracks.

Safety First in Pictures.

The stop, look and listen signs along the Chinese railroads usually consist of pictures showing the dangers of trespassing on the tracks. Inscriptions sometimes accompany the picture, but the inscriptions can be read by comparatively few persons; the pictures can be understood by all.

Ingenious Plan.

Little Dickie was visiting his grandma, and after lunch she spoke to him about taking his afternoon nap. He looked shyly at her and did not speak. After a short pause she again mentioned his nap, and he said: "Why, grandma, you wouldn't put your company to bed, would you?"

Are You Waiting For

Rents To Come Down?

Are you one of the millions who are patiently paying rents that are from 20 to 50 per cent too high?

If you are, do you know the facts? Do you know that Milano is short 50 homes; that experts estimate the United States to be four years behind in building requirements?

The law of supply and demand always fixes prices. So long as there is a home shortage landlords will demand high rents and tenants will be forced to pay them.

The one way out is to Become A Home Owner Yourself. You can build now cheaper than at any time in the past five years, and almost as cheaply, we believe, as at any time in the next five years.

Lumber and building materials have taken a tremendous drop. The complete cessation of building has caught manufacturers with big stocks which they have been forced to sell almost at cost.

If you buy now you can take advantage of their situation. If you wait you will buy when everyone else is buying and you will find the increasing demand forcing prices upward.

In our opinion, right now is a good time to build.

New Butter Weight Law Is Now Being Enforced

State inspectors are traveling over the state interviewing the merchants in regard to the law effecting the selling of butter. The law requires that all butter sold by merchants or by farmers which is wrapped or put up in containers must weigh full measure. The weights can be 4 ounces, 8 ounces, and 1 pound net weight, but no other weights will be accepted. You can however, sell butter in bulk in any amount, but when offered in packages or containers of any kind it must weigh up to this standard. This applies to persons making butter and selling to merchants, as well as to merchants offering butter for sale, and carries a heavy penalty for any one who violates the ruling.

Grows No Cotton But Produces Other Crops

Mr. John J. Morgan says: He didn't grow any cotton last year and isn't going to grow any this year. But he's going to grow many other commodities and edibles. Lately he has been interested in hog raising and has a bunch of 46 head which are nursing around in an 18-acre field of oats. He soon expects to have a half hundred little pigs and then he's going to grow a lot of more feed to stimulate their growth and make a chance on the hog market next fall. He also expects to grow some water melons and tomatoes and other such truck this spring.

A Milano Citizen Says Prices Are Not Right

Milano Gazette: I believe there is more wind-jamming around Milano and less good done than any place in Texas. Milano is noted for high prices, but some will say prices are high elsewhere. I was in Rockdale recently and bought some feed stuff. Polished rice was quoted at \$1.65 a sack. The next day I was in Cameron and found polished rice was selling at \$2 a sack. Now someone is profiteering or else they are robbing the people. What do you say, answer me through the Gazette. One man sells syrup one day at 45c and the next day 50c here in Milano. Still they are all broke and ride in cars and enjoy vacations. A profit is enough, but profiteering is too much. Farmers can't profit or profiteer either. You can buy John Deere plow points here in Milano for \$2, while at Rockdale they cost \$2.75. Now can some one answer some of these things. I believe it would be a good idea to have the Milano Commercial Club to guard against such kind of business. I will be glad to here from anyone on the question of prices. "Just A Reader."

School Children Write Essays On Mosquitoes

Miss Flora Woods, teacher of the third and fourth grades of the Milano school, had her fourth grade pupils to write an essay each on the mosquito as a pest, and she has decided to have the four best compositions published in the Gazette, two of which will appear next week, and the other two the following week. Miss Woods says she is trying to get the children interested in a campaign against the mosquito. This is certainly a good idea, and if there is any pest that needs to be exterminated, it's the mosquito.

Plants One-Half Cotton Along With Other Crops

While speaking with Mr. F. M. Hildebrandt the other day he told us he was going to plant his regular acreage in cotton this year same as before. He plants half his farm in cotton and the other half in other crops. He never was a one crop farmer, but believes in making his farm produce everything worth while. He still has a few bales of cotton from last year and says he lost by not selling it when it was ginned, but that isn't going to discourage him enough to keep from growing his usual acreage of cotton.

Old Milano Town Is Still Rolling Along

Tell us not in mournful numbers that Milano is full of gloom, for the man's an unfortunate human that slumbers in these opportune days of boom. Life in Milano is real and earnest and the grave is not its goal; every dollar that thou turnest helps to make the good old town roll. Enjoyment and not sorrow, is our destined end or way; if you have no money, borrow, and buy a corner lot today. The lives of great men oft remind us we can win immortal fame; let us leave the clumps behind.

Sad Death Occurred Monday In Hanover Community

By the Liberty Correspondent:
Mrs. Jim Hartley died at her home near Hanover Monday morning at 5 o'clock after a serious illness of several weeks. This is indeed a sad death as it leaves the father with 10 children to care for. All that could be done for her recovery was done, but nothing did any good. Man Who Broke Into Drug Store Is Captured

After the burglary of the E. C. Smith drug store Wednesday night of last week a man was reported to be walking to Cameron who had been trying to sell razors and had a badly cut hand. Judge W. E. Peel, W. O. Newton, H. R. Hairston and lesser Newton promptly autoed toward Cameron looking for the man. Mr. Peel overtook him a mile from Cameron. He said his name was J. C. Woods, was married, had a boy 8 years old and was a barber by trade; but was out of work and broke. He admitted breaking into the Smith drug store and he was taken to Cameron and an examining trial held, during which he fainted one time, caused by the badly cut hand which he cut with glass while going through the broken glass door of the store. He had secured 6 fountain pens, 2 watches, 1 knife, some razors and a Kodak, all of which were recovered. His bond was placed at \$700 and he is awaiting action of the grand jury. According to reports there is a reward of \$100 for the captured man, as the E. C. Smith drug store is protected by a burglary insurance company.

Thought The Train Was Going To Be Held Up

Judge W. E. Peel was called out last Friday night by the depot force who wanted him to meet passenger train No. 16 due here at 11:56, and arrest 3 men who were riding the train on the blind end of the baggage car. The conductor on the train wired ahead and said he thought the 3 men might be intending to hold up the train. Mr. Peel, R. E. Thweatt and Joe Slaughter approached the men and demanded their arrest. They claimed they were from Houston and on their way to Fort Worth looking for work. The three men put together had only 45 cents and told hard luck stories and said they had ridden the train from Bellville. When the train pulled out Judge Peel told them they had better cut out the train riding and they were allowed to leave and go their way about. Such occurrences of men being broke and out of work is a reminder that many city jobs are fast playing out.

The Store that Has the Goods

Quality plus Service; and as to prices I invite competition. All the so-called cheap prices are a few articles you see advertised at cost and some below cost. YOU, the consumer, pays the difference in the long run. I have one price to all and my stock of groceries are based on as small a margin of profit as you can find anywhere, quality considered.

My first shipment of Ladies' Spring Hats are here, and I must say they are the best assortment that I have ever had, and they are priced much below last season's prices.

Shipment of soaps, consisting of Palmolive, Wool soap and Ivory, received this week. These soaps are recommended by all sanitariums. Try them and see.

My prices on staple and fancy groceries, such as Irish potatoes, onions, beans of all kinds, rice, canned goods, coffee, sugar, meal, bacon, lard, flour, syrups, etc; are guaranteed.

Complete stock of Kelley Plow Points, wings, land slides, etc; also most anything you might want in wood work material.

We paid 25¢ a dozen for eggs last Saturday. If you want to receive the highest market price for your eggs bring them to us.

More Price Reductions

Have a few more dishes and cooking ware that are going at what they cost us. Beginning Saturday and until first of April we offer all Silverware, Cut Glass, Jewelry, Belts and gold and silver buckles and leather goods at cost plus war tax.

Also beginning Saturday, March 5th, and until further notice we will sell all Toilet Goods and Patent Medicines at the regular price without adding the price of stamps. To make it plain—we will put the war stamps on without cost to the purchasers. Remember there Will Be Nothing Charged at the Above Prices—Strictly Cash Sales.

We are overstocked for our space and are going to reduce our stock. From time to time we are going to offer the public some bargains. Meet all catalog prices on same grade and quality of goods. Come here to trade. No tricks or snares, just plain facts and prices. If you wish we will give you our cost marks. Call for them if in doubt.

Expect to arrange to pay cash prices each Saturday for eggs.

Mrs. Harrell has her sister, Mrs. Richardson, visiting her at the G. W. Beard home this week.

Mr. J. T. Pruett was over in our community from Rockdale last week and spent a few days here.

Walter Matthews of near Chriesman was over at the A. S. Hurt home some few days ago to see his mother, Mrs. Wespcy, who has been on the sick list for some time.

Quite a lot of work has been done on the Milano and Caldwell road out through our community lately, but more is still needed to be done. The road had almost become impassable.

A supposed mad-dog had us scared up a bit one day last week. The dog was discovered around here about mid-night and after acting strangely around here he went off headed for some where else.

We hear there was quite a lot of mischief done at a party in our neighborhood recently and we learn that one or two of the boys lost a hat at the occasion that night. Fathers and mothers, it is a shame you let your boys act in this manner.

Celia and Bobby disagreed, whereupon Celia slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

Says Several Cats Are Useful On The Farm

Mr. M. E. Ashley says: He believes the rat extermination campaign suggested through the Commercial Club is a mighty good thing. The country, he says, is infested with more rats than has ever been known and their depredations upon grain are something enormous. He has found that two or three cats on a farm is a mighty good thing to keep the rats caught, and he especially recommends a black cat, as the rats don't seem to be shy of a black one or perhaps can't see it in the dark.

Walk Around a Ring.
A Tennessee investigator made a series of more than fifty experiments for the purpose of disproving the assertion that blindfolded persons walk in circles, but he was unable to do so, for all the persons in the tests departed from the straight line as they walked away from the starting point.

Cemetery Association Has A Good Meeting

(By the Liberty correspondent.)
The Liberty Cemetery Association met at the cemetery Friday afternoon, March 4th, and quite a lot of work was done. The ladies will undertake to try to kill out all the Bermuda grass in the cemetery. A guaranteed recipe has been procured for that purpose. We decided to take money from the treasury and buy 6 more hoes, so as to have plenty of them for those who come without. We now own 12 hoes. Twenty-five members were present at the meeting held at the cemetery that day and also several visitors.

Build In These Conveniences Yourself

Why not have a bathroom? A Beaver Board partition will provide the proper space — and without muss and litter.

This is just one of the handy uses you'll find for Beaver Board about the farm. These knotless, crackless panels of manufactured lumber are just as good for new building as they are for remodeling and repairing.

You can easily do the work yourself. All that is necessary is hammer, saw and nails. You are sure of a permanent job, because these sturdy panels cannot warp or buckle. An exclusive "Sealite" process of surface sealing and sizing protects them from weather, moisture, or climatic changes.

Next time you are in town, call and see these convenient lumber panels for yourself. Or phone or write us for samples, prices, and estimates.

This Curfew Has a History.
Several of the curfew bells in England are kept ringing because of some old legend or custom. That at Chertsey, in Surrey, for instance, which had been rung regularly for centuries until stopped temporarily during the great war, is the one made famous by the legend which relates how Blanche Heriot, to save the life of her lover, condemned to die at sundown, climbed the curfew tower and held the clapper of the great bell, declaring that "curfew shall not ring tonight."

Bad Habits In Canaries.

When a canary bird plucks feathers from the young birds, place them in a small nursery cage suspended from the side of the breeding cage in a manner that will allow feeding between the wires, as the young birds should not be removed entirely from their parents until they are able to crack the food upon which they must feed.

A Milano School Boy's Essay On The Mosquito

(Written by J. R. Lee.)

The mosquito is an insect with a single pair of wings and a pair of balancers. For our present purpose, the most interesting part of the mosquito is its bill, which has twenty-four sharp pointed pieces for piercing the skin and making the blood flow. There is also a tube with which to suck up the blood. This tube is the duct through which the mosquito injects its saliva into the human body. This saliva carries with it the germs of the disease of which the mosquito is a carrier.

The terrible diseases the mosquito carries are yellow fever, malaria fever and dengue fever. The germs of these diseases are sucked through the mosquito's bill and carried into the stomach. Here the germs cause knots in the walls of the stomach.

In these knots the germs multiply in countless numbers in a very short time. Then they break thru the walls and enter the saliva glands. The mosquito then bites some person and gives him the diseases.

Mosquitoes live in dirty places, in old tin cans of water, barrels of water and in low swampy places. The cistern is the most common breeding place of the mosquito.

The way that we can best destroy the mosquito is to destroy its breeding place. Do not let water stand in cans, drain all the water off low places and keep oil in the cisterns. Remember a little oil will spread over a great amount of water, so be careful not to use too much.

Keep your place in a clean, healthy condition. Keep your house screened, then Mr. Mosquito can't come with his family to visit you.

Locomotive Fire Cost.

The cost of kindling fires in locomotives is said to range from 68 cents to \$1.14, according to the size of the engine. These figures represent the cost when dry shavings, the cheapest kind of kindling, are used. Multiplied by 83,000, the number of locomotives in this country, the difference between the cheapest and the most expensive kindling would naturally amount to millions of dollars annually.

Well, Milano deserves a little praise once in a while. Milano gave more for eggs last Saturday than our neighboring towns. One man from here went to Cameron and got 15 cents a dozen for his eggs; another went to Rockdale and got 18 cents, and still another who went to Milano got 20 cents a dozen. But of course this doesn't happen often.

Man Gives Wife Glycerine Mixture

She had stomach trouble for years. After giving her simple backthorn bark, glycerine, etc., as mixed in Adler-ika, her husband says: "My wife feels fine now and has gained weight. Says He Looks For Cold Weather During April

Mr. A. J. Hildebrandt of the Liberty settlement was in town some few days ago and when asked how business was on his farm he said things were beginning to hum a little. Got half his corn planted and Irish potatoes up and lots of potato bugs pestering around. Said he was going to plant a little cotton some time in May, but not much. Also said he looked for cold weather in April, for February thunder always holds true according to his recollection, and a bad frost or freeze any time next month might show up and he somewhat believes it will.

The Season Of Spring Ushered In This Week

This last Monday was the first day of Spring according to astronomical calculations and is one of the two periods of time in each year when the length of day and night are equal. This same position of the earth and sun occurs again on September 21st. This spring season is named the vernal equinox, and at this time we have a fair example of what climatic conditions would be on earth the year round if this earthly sphere was not tilted 45 degrees, which causes winter and summer. South of the equator it is now autumn at the present time.

Our Announcement To Our Friends.

Mr. T. E. Mills of the northern Milano country left a dollar with us Thursday for an 8 months' subscription to the Gazette which he sends to Mr. W. W. Adams, route 2, Rogers, Texas. Mr. Adams is a brother-in-law of Mrs. Mills.

We acknowledge receipt of a half dollar from Lloyd Woods for renewal subscription to the old home town paper which he instructs us to mail to him at Huntsville, Texas, and by the change of address, we presume his school near Lyons has closed where he had been teaching during this past school year.

Mr. W. D. Woods left 75 cents with us Wednesday for a 6 months' visitation of the Gazette out to his home in the Summit community. Said it was Mrs. Woods who reminded him to have the Gazette sent out. We always did believe that the ladies appreciate the Gazette far more than the men folks do.

Mr. W. W. Woods left 75 cents with us Tuesday for a renewal Gazette subscription which goes to his sister, Mrs. H. H. Williams and family at Austin. Mr. Woods is just back home from a month's visit there where he went to have his eyes treated. He seems to have gotten some relief for his eyes, but his eyesight is still very much impaired.

Hattie Johnson left a half dollar with us one day this week for 4 months' Gazette subscription.

The deficit in paper cost and subscription receipts is now \$32.24.

Disease Among Cattle Reported Around Liberty

(By the Liberty Correspondent.)

There is quite a lot of complaint around this community about the cattle dipping. Some of the cattle owners have blackleg in their herds and another peculiar disease is among some of the rest, and very few farmers want to dip with these infected cattle. A step should be taken to try to keep all diseased cattle from coming in contact with the healthy herds. If they don't, the disease is likely to effect the cattle of every farmer in this community and cause loss of his cattle.

Milano Country Is Still Growing The Tomatoes

The Milano country is still growing tomatoes and will again this year produce its usual quantities. Many farmers have been busy the past two weeks setting out their plants in the fields and small patches. This transplanting is generally done the latter part of March here at Milano and some very nice patches are visible over the country.

Good Money In Selling Your Young Chickens

Mr. V. W. Brooks says: If the raisers of poultry around over this country sold their chickens while they are young or before they weigh over 2 pounds in weight, they would realize the utmost profit in poultry. Frying size hens of 2 pounds and under always bring the highest price because it is this size chicken that is in such great demand in the cities.

Language of the Cliff Dwellers.

The cliff dwellers, like so many other primitive peoples, because they had no written language, expressed themselves by means of signs and crude pictures, painted upon their earthenware vessels or upon the walls near their homes.

Only Popularity Worth While.

I wish popularity; but it is that popularity which follows, not that which is run after—it is that popularity which sooner or later never fails to do justice to the pursuit of noble ends by noble means.—Lord Mansfield.

Gulf Stream's Course.

The force and velocity of the Gulf stream vary, to some extent, but its course does not materially change until it has run hundreds of miles northeastward off the coast of the United States. Gradually it does then shift its direction more eastward, at the same time spreading like a fan and becoming shallower.

Black Cap's Significance.

The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

A new story begins in this issue of the Gazette, entitled "The Wreckers." Six columns of it will appear each week. It is an excellent and interesting story.

Miss Clara Hamman spent the weekend at Cameron with Miss Kate McCall. Both returned to Milano Sunday evening to resume their posts as teachers at the school.

Miss Ruth Wilson, Miss Ira Farmer, and Messrs. S. Vanemeter and Tom Folmar, all of Gause, came over on No. 3 Sunday and spent the afternoon and evening with Miss Myrtle Worthington. They returned back home on the midnight train.

Mr. W. H. McGee returned home last week from Waco where he attended the I. O. O. F. grand lodge meeting for three days. He says he saw Doctor F. A. Liddell there at his son's sanitarium and he told Mr. McGee he expected to be back in Milano within the next few days.

Mr. J. W. Ford of the Prospect community was in town one day this week and we heard him say that the second cold wave of this week had made considerable corn look sick. He also said the fruit crop would be practically nothing this year, neither peaches or pears.

Mrs. I. Ashworth of Deweyville, Texas, stopped over in Milano at the Dukes hotel a few days this week as a guest of her daughter, Miss Clara Hamman. She was enroute to Marlin and left for that city Tuesday. Lawrence Hamman, her son, who made his home with her, will remain here at Milano until after the Milano school closes.

Snakes Are Reported Plentiful This Spring

Snakes are reported to be numerous over the Milano country this year, and no doubt they are always plentiful every spring. But they are a dangerous enemy of people and every one you can kill will help do what Saint Patrick did for Ireland. Right now snakes are crawling forth from their places of hibernation and they are ravenously hungry. They can be found all over Milano right here in town in the yards of many homes, but especially are they numerous over the country just almost anywhere.

Suggestion Of School Pupils Is Worth While

Last week's Gazette contained two essays of Milano school pupils on the mosquito pest, and if their advice and suggestions would be carried out there would be but few mosquitoes over this country. The suggestion of putting oil in your cisterns could be followed by every one. Three or four tablespoonfuls of kerosene oil is enough to sprinkle over the surface of the water, but this should be done once a week regularly, otherwise the oil soon evaporates. This small amount of oil will positively keep wiggle-tails out of your cistern and will not injure the taste of the water. If your cistern has no top then a little more oil will be needed, as it evaporates faster when a cistern is not covered. As to screens keeping mosquitoes out of a house we don't believe it can be done for we've seen too many of the buzzing things crawl through the netting. But screens will keep out the flies and for that reason it is worth your comfort and health to screen your home and protect the family from preventable sickness.

Ingenious Plea.

Little Dickie was visiting his grandma, and after lunch she spoke to him about taking his afternoon nap. He looked shyly at her and did not speak. After a short pause she again mentioned his nap, and he said: "Why, grandma, you wouldn't put your company to bed, would you?"

Walk Around a Ring.

A Tennessee investigator made a series of more than fifty experiments for the purpose of disproving the assertion that blindfolded persons walk in circles, but he was unable to do so, for all the persons in the tests departed from the straight line as they walked away from the starting point.

Colored School Closed Friday Night Last Week

The Milano colored school closed last Friday. A considerable program of exercises was rendered that night which was enjoyed by almost all the colored population and many of the white folks. The colored school here does well for its size and has been conducted under the teaching of Hattie Pleasant for several years. Their greatest problem is the need of a building, and had the Milano white school secured the state aid money this year, it is very likely that a building for the colored school would have been erected. They are using the church building at present.

Perhaps You Bought Your Bill Of

groceries at this store last Saturday. If not, don't you think it worth while to inquire about prices of good fresh staple groceries before making your purchases elsewhere? This store offers the BEST and FRESHEST line of Eatables that can be bought and sold at legitimate prices.

I will have this week end in the fresh vegetable line Turnips, Celery, Fresh Tomatoes, etc. All these items will be priced to sell.

Try a box of Armour's Star Sliced Bacon. It's clean, sweet and there is no waste.

COFFEE—Yes, we have it. All kinds from the cheapest Peaberry to the very best. For ground coffee we recommend the Maxwell house, Rice Hotel and Cupid. And for a good pound package of coffee try Peeples' Best, only 20c. It repeats.

SEEDS—I have Sudan and cane seed that have been recleaned and are mighty pretty. They are priced right.

Plows: I have a few Texas and Georgia stocks left. Better get yours now.

EGGS: The egg market has been much lower for the past week and while they are only worth on the market 13c a dozen, it will be worth your time to get my price before you sell elsewhere.

Another car of that Celebrated LaFrance Flour is in transit.

Every article that leaves this store is guaranteed.

Newsy Items Of The Liberty Community

Mrs. Mollie Whitworth was a guest at the home of Mrs. Lola Spaulding last Sunday.

Mr. and Mrs. A. J. Hildebrandt were visiting relatives in the Smyrna community last Sunday.

Mr. and Mrs. John Mills were visiting at the Yates Kirk home last Saturday and Sunday.

Mrs. Rosa Smith and Mrs. Bryant Bullock of Smyrna visited relatives here Wednesday of last week.

The children of the Liberty school enjoyed an Easter egg hunt at the school house last Friday afternoon.

Mrs. Julia Kirk gave an Easter egg hunt at her home for the enjoyment of all her little grand children.

Mr. and Mrs. J. D. Turney of near the Hanover community visited the J. K. Miller home Sunday.

Today finds us sitting by a warm fire. Easter ushered in a blizzard and it is feared that the fruit crop around this country is injured.

Mrs. S. M. Bullock has received a letter from her daughter, Mrs. J. Chaney of Paris Island, South Carolina, stating that she had arrived safely after a delightful but tiresome trip. She writes that she is delighted with her new home.

Most all the farmers in this community are through planting corn, some of which is now up to a fine stand. A large acreage of syrup cane will also be planted this season, and if every farmer would raise his own bread, meat and syrup, with plenty of milk and butter there would not be much chance of him or any one of his family starving.

Suggests Home Capital To Drill For Milano Oil

Mr. J. T. Robinson says: He believes about the quickest way to develop the oil drilling movement in the Milano territory is to form a home stock company of 100 men who will put up \$100 each. With this \$10,000 a drilling rig could be purchased for \$4,000 and the other \$6,000 could be used for working capital. Of course some outside capital would be solicited, but no one person ought to own more than one share of \$100 each. This would keep anyone from having a majority stock or vote and would thin out many avenues of graft. True, it would be a wild-cat proposition, but if no oil was found it would be worth \$100 to the most of the citizens to know that there is no oil here; and if oil was found it would be worth untold wealth to the entire country.

Bits Of News From The Oakdale Country

They are digging for coal in this community and seem to think there is plenty of it to mine.

Mr. and Mrs. John Hairston of Milano came out and spent Sunday here at the home of Mrs. Garner.

Mr. and Mrs. Ernest Baldwin of Rite spent Saturday night at the home of Mr. and Mrs. Lee Batey.

Marshall Garner has leased some of his land to several men, and they have been digging for coal. Some think they are near coal now. The soil shows good indications.

Dean Shelton of Salem was over Tuesday of last week and spent the day with his renter, L. A. Chatman. Wednesday morning both of them went to Cameron on business.

Easter is something to dread these days. We thought that it was not going to be very cold this Easter, but it is sure cold this Monday morning, but we hope there is no frost to hurt anything.

Now what are we going to do about the new pike road from Cameron to Milano? It seems they intend to run it along the Santa Fe rail road, and if they do that we will have to turn our house around. So they better let it stay where it is.

Everybody Would Enjoy A Picnic This Summer

It is getting close on to picnic time and Milano and its surrounding country hasn't enjoyed a real picnic in many years. Wonder if the people couldn't stir up one for this spring or summer? Perhaps a fair or agricultural exhibition would help the thing along and make it a two days' go with a lot of premiums offered for the best agricultural products. We would like to see such a thing pulled off on a good warm summer day with plenty of ice water handy and soda-pop and ice cream for the kids, big folks too, and perhaps a merry-go-round and other things to make us all forget our worries for a couple of days. Right now is a good time to plat out the premium list and get the farmers interested in growing something worth while for exhibition.

Highway Thru Milano Likely To Be Built Soon

Milano road district bonds seem to be a difficult thing to sell, but Cameron interests seem to think they can sell as much as one-third of the bonds at a discount of \$5,000 if the money is used on the Cameron and Caldwell road. This \$50,000 would be met by a similar amount of state aid money, making something like \$100,000 of available money for building the highway and leaving \$100,000 unsold bonds. But when will these other roads be built? No one knows. Not anyways soon. A \$100,000 road to Cameron will help Cameron and Caldwell business interests wonderfully, and help Milano a little from two ends, but the people who live out on the rut roads and sand hills of the Milano country would have nothing better than they have right today. Their only hope lies in patiently waiting for the bonds to get a sale. This Cameron to Caldwell highway seems almost assured of being built this summer, in fact the work must be under way by June in order to secure the state highway money.

Believes Poultry Best Industry For The Farm

Mr. G. W. Butts says: He believes the poultry business is now about the best paying thing on a farm. He reports new efforts under way out on his farm for a larger poultry increase which is being done at the suggestion of Mrs. Butts and under her supervision. Mrs. Butts already has 80 little chicks running around and has 8 more hens setting, which will give another 80 or 100 more chicks when hatched. Mr. Butts is an admirer of the Rhode Island Reds as his chickens and says they can lay just about as many eggs as any other good breed.

J. B. Newton & Sons expect to resume their Store News in their ad space at an early date.

Mr. and Mrs. J. S. Beard were in Dallas Wednesday looking over the mercantile markets and buying spring merchandise for the store.

Mrs. Nettie Bradberry had her home painted recently and it is certainly a nice looking little home. She also had it canvassed and papered inside. Surely, any house is worth painting and improving.

Mrs. J. B. Newton, Miss Vergie Butts, Miss Ruth Newton, and Mrs. Lizzie Clinton motored over to Thrall Sunday where they spent the day with Mr. and Mrs. M. Arrington. They returned that evening.

Mr. and Mrs. D. W. Nickens and children spent several days in San Antonio the past week. They made the trip there and back in their car. They came in home Monday night and left again Tuesday morning for a visit to goints in Bell county.

The McCaskey cash register that was stolen from the J. C. Beard store some 5 or 6 weeks ago, was found this week by Mr. Carl Bullock a mile or two north of town. He brought it to the store Thursday morning and practically everything in the way of papers and accounts are intact, but the cash of course had been looted by the burglars. Mr. Bullock says he came across the register while out hunting.

The swift and cold norther which blew Sunday evening just about sundown was some whizzer for blowing qualities. It also was a record breaker in changing the temperature. Sunday afternoon was oppressively warm in Milano, and in 5 minutes after the norther hit it was cold. But it didn't freeze and vegetation seems to be safe all over the Milano country. We hope it got the mosquitoes and flies set back a while longer or blew them away.

Milano people were considerably stirred up Thursday about the Milano school teachers and pupils going to Cameron this Friday to attend a scholastic meet in a town that has smallpox. A few of the Cameron school children are reported to have contracted the disease and many cases are reported among the white people. If the Milano school trustees don't think it wise enough to call off the Milano attendance then it is up to the parents to use their own judgment. Smallpox, no matter how mild, is a contagious disease it pays to stay away from.

Later: We understand the trip to Cameron has been called off.

Dotheboys Hall.

In "Nicholas Nickleby," one of Dickens' best novels, occurs the name, Dotheboys hall. It is the name of a boarding school in the north of England, kept by a heartless villain named Squeers, a place where boys were taken in and "done for." Squeers' system of tuition consisted of alternate beating and starving. In Dickens' time, it is said, such schools existed, and his account of the one over which Squeers presided did much to bring about their extinction.

Home Talent Play For Friday Night April 8th

A comedy play entitled "The Womanless Wedding" will be presented at the W. O. W. hall on Friday night, April 8th. The play is being given under the auspices of the Baptist church and the proceeds of the entertainment will go toward needed causes of the church. All characters in the play will be home people and they are now rehearsing under the directorship of Mr. A. J. Hart who is with the Hudson hotel here and who is an experienced stage manager and the home talent is receiving some very good instruction and training, and the public will be assured of a good presentation and the comedy. We have not heard what the price of admission will be but we are sure the price will be reasonable to everybody. Your presence will be appreciated.

The Niles Farm Will Produce Various Crops

Mr. T. B. Niles says he is preparing to produce a little of many things on his farm this year, and of course will grow some cotton too. He likes to grow truck, but says there are too many people who love to deal in truck after the farmer produces it, and for that reason you can't expect to get much for your vegetation. He says he doesn't look for any big prices to be paid for produce this year and for that reason he's going to take a shot at several different crops. Mr. Niles is known as Milano's expert cantaloupe grower and he knows more about growing these good tasting things than we know about eating them. He says there is much more money in cantaloupes than water melons, but he's going to try some of both of them again this spring.

Locomotive Fire Cost.

The cost of kindling fires in locomotives is said to range from 48 cents to \$1.14, according to the size of the engine. These figures represent the cost when dry shavings, the cheapest kind of kindling, are used. Multiplied by 83,000, the number of locomotives in this country, the difference between the cheapest and the most expensive kindling would naturally amount to millions of dollars annually.

Co-Operation Works Both Ways

Had you thought of the vast amount of good you might be able to do YOUR BANK by saying a good word now and then in its behalf. Do you know of some one who is still keeping his money in the old sock bank or the coffee can?

If that money was deposited in our bank it would enable us to loan it to some one who was in real need of it. The party borrowing it would spend it with some one who really needed the work. It all helps. We are more than glad when we are able to help you and we will more than appreciate any good word you may pass along. Yours for sincere co-operation.

Drilling For Oil South Of Milano Seems To Be An Assured Realization Sometime This Summer

Mr. F. S. Booher of Waco, the oil drilling promoter who recently made a deal with Mr. W. T. Brooker to drill for oil south of Milano, was in town several days this week. He is a man well versed in oil field activities and he says the prospects for oil here at Milano are exceptionally good. A little later on he will bring down a geologist to map out the leased territory. Mr. Booher says it takes time to handle the oil development business, but within another 60 or 90 days he promises action. He is a big man in many ways and we have found him to possess a very pleasant personality, glad to make the acquaintance of anyone whom he meets. If you were to tell him that the Milano people have been waiting and hoping for years for oil development to take place, he would tell you not to believe it, but keep on waiting some more. Time and patience, he says, are good materials and they are needed to develop any kind of an oil drilling project.

G.W. Beard Farm Is Still Growing Fine Tomatoes

Mr. G. W. Beard of the Cedar Creek community is busy marketing his crop of tomatoes this week. He started in last week and is bringing in some very nice crates of the packed products. The tomato industry is almost totally wiped out over the Milano country and Mr. Beard is one among the few who are still growing them. He has grown tomatoes for many long years and perhaps always will as long as he farms. He brought in the first crates of the season last week, May 30th, but he remembers one year he brought in a crate the first week in May. Mr. Beard says it requires work to grow tomatoes, and anyone who tries to eliminate work by setting out plants in the field from the hotbed and then fail to prune or tie the vines will find that the crop of tomatoes will always be short and a failure. The plants must be transplanted in the cold frames and must receive constant attention when put in the field.

Grateful for Rain.

To show how badly rain was needed, a native who came to Newcastle market with his wagon was so overjoyed that he rushed into the center of the street in front of the town hall when the storm was at its severest and offered up a prayer of thanksgiving. He then started drinking the muddy water as it flowed past him.—Johannesburg (Transvaal) Sunday Times.

Dire Effect of Stuttering.

We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. The few that have the supreme endurance to keep on and override their handicap to success pay a terrific price for their strain. Many a stutterer begins life as wholesome and optimistic as any of us, but turns crabbed under his sufferings and breaks down nervously at the end.—Exchange.

Relative Of Milano Lady Passes Away At Waco

Mr. and Mrs. J. F. If you should happen to need a cow or want to know who has them for sale just look in the want ad column of the Gazette.

Robber Bees.

If robber bees discover that a hive has lost its queen they march boldly into the forsaken colony, overpower the depressed and nerveless inhabitants and carry off the honey bit by bit. These robbers rarely work. They are the adventurers of the family. To them it is foolish to fly from flower to flower for a bit of honey when it can be got so much more easily by going directly to another storehouse.

Daily Paper Carries Oil News Of Milano Deal

A news dispatch in the San Antonio Express some few days ago started that an 84-foot derrick had been contracted for in the recent oil drilling deal negotiated here, and that the derrick would be placed on Horse Shoe Mound on the Newton Ranch 2 miles south of Milano. The contract calls for a drilling depth of 1,500 to 3,000 feet and the rig is to be placed on the ground within 60 days and drilling operations are to be under way within 90 days. Early activity is now looked for.

The Novel-Writer.
What am I, a novel writer, trying to do? I am trying with such limited means as I have at my disposal, to take little pocket-theaters out of words. I am trying to be architect, scene painter, upholsterer, dramatist and stage manager, all at once. Is it any wonder if we novelists do not succeed as well as we could wish when we try to be masters of so many trades?—F. Marion Crawford.

Entertainment Firday
Night Is Well Attended

The entertainment given by the Baptist Church ladies last Friday night was well attended and patronized by Milano people. The affair was scheduled to be held at the Park pavilion but for some reason it was decided at a last moment to hold it at the W. O. W. hall. The Rockdale band came over and furnished music for the occasion; a play was staged and luncheon sold. Proceeds of the occasion are to be used for additional funds of repairing and remodeling the Baptist Church.

Absurd Old English Law.
Under the English common law no one has a right to bathe in the sea. How to Rewind a Curtain Spring.
Do you know that when the spring in the window shade is loosened, all you have to do is to pull the shade down its entire length, take it out of the fixtures, roll it up smoothly, put it back in the fixtures, and it will have its original spring? How many wire hairpins have you twisted trying to rewind a curtain spring?

Let Your Next Tire Be Fisk

Fisk is founded on the idea of giving more for your money than you ordinarily expect. A big, staunch, firmly established company supports that idea. And it finds its expression in the excess mileage which is regularly delivered by all Fisk Tires. Excess mileage means just what it says—you ride comfortably, without tire trouble, when you equip with Fisk—and you get your excess mileage in driving continuously over rough roads as you do in smooth, city riding. The honestly earned reputation of Fisk Tires makes your investment safe. Sold in Milano by the C. Hudson store.

Warwhoop Yells Cause
Disturbance Of Peace

Disturbance of the peace by boys of Milano at night is quite a common occurrence around town and is being investigated by Justice W. E. Peel. Almost any night a crowd of boys can be heard trying to burst their lugs open with ear-piercing yells, and Saturday night's demonstration in the northeast part of town by boys was more than any community wants. It is quite often that the citizenship is awakened or disturbed from their home life or night's rest by yells that resemble those of Indian days. Such conduct is a violation of the law, and if permitted by peace officers means that such officers are not protecting the public, hence the authorities are investigating. Last Saturday night's whooping noise resembled yells of distress more than yells of frolic, and many citizens around the community thought terrible deeds were being enacted. Such disturbances are very disagreeable to law-abiding citizens.

What Is Just?
People are perpetually squabbling about what will be best to do, or easiest to do, or advisable to do, or profitable to do; but they never, as far as I hear them talk, ever ask what it is just to do. And it is the law of heaven that you shall not be able to judge what is wise or easy, unless you are first resolved to judge what is just, and to do it.—John Ruskin.

Dove Figures In Folklore.
The dove or pigeon has occupied a prominent place in folklore, legend and history since the bird brought the olive branch to Noah. The earlier artists used the dove frequently in their religious paintings. The "Madonna and Child," and the angels are shown with white pigeons fluttering about them. The bird was made the symbol of divine spirit. It appears in pictures of Christ's life and baptism. St. John (1:32) says: "I saw the spirit descending from heaven like a dove."

Produces Potatoes But
A Market Is Not Found

(By the Liberty Correspondent.)
Mr. A. J. Hildebrandt has harvested some very nice Irish potatoes but can't sell them at Milano, so he will have to go to Rockdale or elsewhere to get a market for them. What will be the result? Why of course, whoever buys his potatoes will get his trade. That's why Milano people go to neighboring towns to trade. They can sell anything in the other towns and about all you can sell at Milano is eggs, and almost everybody are eating their eggs now, as you can't buy anything for 12½ or 15 cents 'hat will go as far as a dozen of eggs. I think everybody can agree to that.
Comment: Mr. Hildebrandt says Cameron merchants offered him only 2 cents a pound for the potatoes, so he has decided to hold them.

A Rockdale citizen in alighting from one of the night north bound Santa Fe passenger trains Wednesday night here at the Milano depot in some way slipped or fell from the footstool and broke one of the bones in his foot. The party had his car come over after him and he returned to his home at Rockdale that night.

Richard Keefe of Arkansas City, City, Kansas, spent a few hours in Milano Monday afternoon between train schedules. While in Milano he bought a copy of the Gazette just to see what a newspaper in a town like this looked like, and finding it to be a real newspaper he was satisfied with his purchase. He was enroute to Beeville, Texas.

A number of the Milano young ladies have "bobbed" off their hair, a recent fad of fashion that is sweeping the country everywhere. Surely to an optimist it must be admitted it helps the looks of the girls. But if you are a pessimist and don't believe the ladies have a right to bob or cut their hair off, then ask any man why he cuts his hair off.

Mrs. E. F. Evard has been up at Cameron several days this week at the bedside of her husband who has been in the sanitarium there for the past two weeks undergoing medical treatment. We have been told that Mr. Evard's condition does not show very much improvement, but we hope his condition will soon take a turn for the better and that improvement will soon be noted.

Does It Pay to Worry About Appendicitis?

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adler-i-ka acts on BOTH upper and lower bowel, removing ALL foul, decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful impurities Adler-i-ka brought out. E. C. Smith, Drugist. Mr. B. N. Ashely says: He has heard it said that it does not rain at night during the month of June, but it sure did rain Thursday night of last week. And he ventured to say that he believes there would be no rain this month only at night. Another thing he said was that the first rain of the year always told the direction from which our rains will come all that year. This year they are due from the northwest.

Rev. J. P. Sparks says Mr. C. M. Beard and the Gazette men are both wrong on their views that theology ought to be written and figured out by educated preachers. Bro. Sparks contends that no high education is needed for anyone to explain the works of the Bible after he has received the Holy Spirit, which he says, is like a power of inspiration given to mankind when he becomes righteous and worthy.

Farmers Attention:

I have a liberal supply of nice Bunch Dooly, Nancy Hall and Porto Rico Potato Slips, and I am making a good proposition to farmers who wish to plant out some more potatoes. I will sell you the slips and take the potatoes this fall, No. 1 stock at 75 cents per bushel delivered to my farm or potato banks. You have from 40 to 50 days left in which to set out potato slips and make a fairly good crop. First get your land clean and in good condition, and then don't wait for it to rain, but haul water and put them out, as they grow off and do much better.

Better plant more to something to eat than to cotton. All the family and live stock can eat potatoes, but they can not eat cotton. Call and see me at once so we can supply you when you want them.

Highway Might Follow The Old Cedar Creek Road

The civil engineers and surveyors have been busy this and last week finishing up the second highway survey from Milano southward. This second survey, generally speaking, follows the present Cedar Creek road and as it reaches town it cuts across from alongside the I. & G. N. road diagonally toward the Milano gin in a straight line, passing somewhere along about or between

the calaboose and the Nelson restaurant. The first survey was mapped out down the old Santa Fe right of way, and it is probable that a third route might also be surveyed. After the surveys are completed the specifications will all be submitted to the state or federal engineers who will either suggest or designate the most logical route over which to build the highway.

Extra Pair Of Trousers Free With Suit

Effective June 1st I will give an extra pair of trousers of same material with every new suit tailored to measure and ordered through my book, the prices remaining the same as heretofore. In Memory Of The Life Of Little Willie Mobley

(By the Elevation Correspondent).

Yes, dear little Willie Mobley is gone but not forgotten and never will be. The last sweet words he uttered ring in our ears yet. God bless him. He bid his daddy goodbye for he was going to his mother who left us 1 year and 11 months before. She told us that she was going to Heaven and that she saw all the angels and asked us if we did not see them too. We feel sure they are both in Heaven today.

THOSE WHO FORGET NOT

Mr. E. C. Westbrook of the northern Milano country invested in another 75 cents worth of Gazette subscription Monday which goes out to his home on route 2.

Mr. A. R. Graham left 75 cents with us the other day for a half year's renewal subscription to the home town and community paper which goes out to him at Summit.

Citizen Mr. J. N. Suttle invested in another year's renewal Gazette subscription Wednesday, and Thursday he left for Turney, Texas, where he expects to spend a part of the summer. He expects to be back in Milano again by early fall.

The Gazette's weekly paper expense bill is \$7.10. The difference in subscription receipts and the cost of the paper up to the present time now amounts to a deficit of \$47.40.

Oil Drilling Transaction For South Milano Lands Was Signed Up The Early Part Of This Week

Another oil deal was transacted in Milano Tuesday of this week. The deal was made between F. S. Booher of Waco and citizen W. T. Brooker. Something like 5,000 acres of land south of Milano is involved in the deal. According to the contract a drilling rig is to be on the ground within 60 days, and drilling to be under way within 90 days. We have heard several Milano business men speak of this deal and they all say it is the only real oil drilling transaction ever signed up in Milano and that the parties interested in the transaction mean business in every sense of the word and results will soon be forthcoming.

Negro School Building To Be Constructed Soon

The trustees of the Milano school are planning to build a colored school building this summer and they have been busy for several days receiving and considering figures on the cost of the structure. A good size building will be required as there are now about 40 negro children enrolled within the scholastic age. The cost of the building and its equipment is estimated to be about \$1000 or \$1200. The trustees say this expenditure however, will not cause the white school term to be shortened. The building of a negro school has been under agitation for several years and it seems an assured fact that it will be built this summer.

A number of new locomotives have been passing through Milano the past few weeks over the I. & G. N. road enroute to Old Mexico. Negro Boy Is Drowned Near Gause Last Week

Judge W. E. Peel was called to Gause on the early Saturday morning train to hold an inquest on Brazos River over the body of a negro boy who was drowned in the river Wednesday. The body was found Friday and was left tied in the river until Judge Peel arrived. The boy was about 15 years of age and had been in swimming with several other boys and in trying to swim up-stream gave the alarm that he needed help. He seemed to have no parents and was making his living as a waif in the community. After Judge Peel secured the necessary information that he needed for inquest papers he gave instructions to bury the body, in fact he did this over the phone before he went over, but the colored population wouldn't touch that body under any circumstances until Mr. Peel came and figured things out. The boy's name was Roosevelt Johnson.

Not Notified of Election.

A singular omission in the matter of legal formalities is the failure of the laws of the United States to provide for notifying a President-elect of his election. Apiary At Summit Will Be Enlarged This Year

Mr. A. L. Graham of the Summit community, and who is the county bee inspector, was in town Monday with another shipment of bees which he exported. Said this would be his last shipment, as he was intending to build up his own apiary and increase its production. So far this spring he has shipped out 65 swarms of bees. He reports the production of honey under good headway and time to begin robbing is already at hand. In the black land sections of the county he says the honey production will be something immense this year.

Black Cap's Significance.

The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

Many Are Waiting To Take P. O. Examination

The Milano post office has been looking for official notice for some time calling for a civil service examination to be held here for the next postmaster appointment. Many of the offices of the surrounding towns and cities have already received their notices and the Milano office may receive its notice most any day, and when it arrives it will be posted in the front lobby of the office. The national government has recently ruled that all new vacancies as postmasters will be filled through examinations, and that the three highest grades will be the ones considered for the appointment. Thus, should there be one republican among the three highest grades, he would be given preference to the other two if they were democrats, even though their grades were higher than that of the republican. Quite a number of Milano citizens expect to take the examination when it is given, both women and men.

Surplus Mexicans Are Welcomed Back Home

Another train load of Mexicans passed through Milano one day last week enroute to Old Mexico. They came over the Santa Fe and were transferred here to the I. & G. N. road. This is the second train load which has passed through Milano during the past two weeks, the other train load being reported to have come from the far north. Last week's train load came from Dallas. This is a nation-wide movement of repatriation by Mexico to those of its citizens left destitute by the labor conditions that are now existing here in the United States.

An Irish Potato Vine Grows Real Tomatoes

Mr. L. L. Stewart of the northern Milano country reports having recently plowed up an Irish potato vine which had three small tomatoes growing on it. He examined the vine and showed it to a number of his neighbors for proof that the freak growth was genuine. Mr. Stewart says such freaks in vegetable life occur rarely, but are possible enough. He is of the opinion that nature performed this freak growth through the pollen of the plants drifting from one plant to the other. The vine was strictly an Irish potato vine in every respect except that it had somewhat sprouted in clusters like the tomato vine. The three small tomatoes were perfect ones. Whether the vine had potatoes on it or not, Mr. Stewart could hardly say, as it was plowed up before he noticed it, but he believes there most assuredly were potatoes attached to the vine before he had come along and plowed the vine up.

Absurd Old English Law.
Under the English common law no one has a right to bathe in the sea. He Believes Theological Writers Wasting Time

Mr. C. M. Beard says: When he read last week's Gazette he had a very hearty laugh, and he had another good laugh the other day when he told the Gazette man about it. Said he'd seen where we had cut out our local theological writers, those who have been writing their personal opinions about the Bible. Mr. Beard, like us, seemed to think that anyone writing theology who hasn't spent a few years of time in a university studying it, is simply wasting their time trying to figure out the miraculous writings of the Greeks. The Bible is a mysterious but wonderful book, and Mr. Beard and the Gazette man are both willing to let the preachers and theologians explain these mysteries. Anyone's personal opinions or ideas on the Bible can always be positively contradicted by the Bible itself. There are always two sides, not just one.

Bell Holds You Spellbound.
In the temple of Chionin, at Kyoto, Japan, is a wonderful bronze bell said to weigh 110 tons; and when its mellow boom is heard the pedestrian stands still and the workman pauses to listen, the vibrations being felt over a large area. It has no tongue, but the end of a wooden beam, suspended horizontally swings against the brazen mass. There are only two larger bells in the world, that of Mindon Min in Burma and one at Moscow.

A Sante Fe painter came along last Friday and put a new coat of paint on the roof of the two truck shipping sheds here which belong to the Santa Fe road. The sheds have not been used for shipping purposes for several years and are now being used as warehouses.

A new serial story begins in this issue of the Gazette entitled "The Mystery of the Silver Dagger." Two installments of this story will appear each week and which will be found on different pages. It is a story of adventure and romance and will be found very interesting.

Mr. G. W. Beard of the Cedar Creek country brought in two crates of tomatoes Monday of this week, May 30th, which were, as far as we know, the first tomatoes of the season. They were good ripe tomatoes, of fancy pack and were sold to the J. D. Peoples store at \$2 a crate. This is about a week late for the first crate of Milano tomatoes, which usually arrive on the local market by May 24th to 26th.

Don't forget us when you need a new Perfection coal oil stove wick, 3 for \$1. You can get them at the J. C. Beard store. Adv.

The Gazette at \$1.50 a year is only 3 cents a copy. At that price it is about the cheapest article you can buy. The amount of reading matter in it is certainly worth anyone's three coppers. Do you take it? Or do you borrow the copy which your neighbor pays for?

Girl's Statement Will Help Milano

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-i-ka I can eat anything." Adler-i-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. It brings out poisonous matter you never thought was in your system. E. C. Smith, druggist. Adv.

Chinese Wheelbarrows.
Probably more freight and more passengers are transported in China by the wheelbarrow than by any other land method. The wheelbarrow there used differs from that used by us, in the fact that the wheel is set in the center, and thus supports practically the entire load, while the handles are supported in part by a strap or rope over the shoulders of the man who operates it. As a result, the wheelbarrow coolie in China will transport nearly a half-ton on his vehicle.

Bird of Ill Omen.

The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

For Age Computation.

To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multiply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

Farmers Attention:

I have a liberal supply of nice Bunch Dooly, Nancy Hall and Porto Rico Potato Slips, and I am making a good proposition to farmers who wish to plant out some more potatoes. I will sell you the slips and take the potatoes this fall, No. 1 stock at 75 cents per bushel delivered to my farm or potato banks. You have from 40 to 50 days left in which to set out potato slips and make a fairly good crop. First get your land clean and in good condition, and then don't wait for it to rain, but haul water and put them out, as they grow off and do much better.

Better plant more to something to eat than to cotton. All the family and live stock can eat potatoes, but they can not eat cotton. Call and see me at once so we can supply you when you want them.

People And The Seasons Are Continually Changing

In speaking of pioneer days recently with Mr. J. T. Haynes, he said that both the weather and the people are vastly different today than they were in the earlier days. We all know that people are to busy today trying to make money to be sociable; and as to the weather he remarked that the passage of scripture which says "the summer shall be like the winter and the winter like the summer" is rapidly coming true. Even 10 or 20 years ago, he said, spring weather was far more certain than it is today. He remembers when winters began with September and lasted with severity

till spring. Now the winters are all mild and January and February weather seems to be as mild as April or May, and the spring of this year will substantiate the fact. This change of weather conditions seems to be bringing on cooler and later springs every year, thus making the planting season a difficult one to determine or reckon with. Go back 30 or 40 years and crops failures were rare, grass was green the year round where it grew so high as to protect itself through the winters; insects were less numerous and the planting seasons always opened with a gradual warming spring.

Extra Pair Of Trousers Free With Suit

Effective June 1st I will give an extra pair of trousers of same material with every new suit tailored to measure and ordered through my book, the prices remaining the same as heretofore. Old Pennsylvania City.
York, Pa., is a city of ancient origin. Here was located the first settlement west of the Susquehanna river. From September 30, 1777, to June 27, 1778, she was the nation's capital, for during that time, the British then occupying Philadelphia, the continental congress met in her courthouse. The first money sent by the king of France to aid the cause of American independence was received by congress in this city. And here the first national Thanksgiving proclamation was issued.

Material Contract Let For School Building

The contract for the lumber and the building material for constructing the new colored school house has been awarded to the Turner Lumber Company of our city. This was the decision the board came to at their last regular meeting and just as soon as some other preliminaries have been attended to the erection of the building will be begun. The contract of having it built has not as yet been let, but it is very probably that the school will be built by some local resident carpenter.

Reports Milano Melon Acreage As Very Small

Secretary C. F. Drake of the Rockdale Commercial Club, Mr. George Banahaf and Mr. Haywood, a representative of the Sap rail road, were in Milano last week looking over the country. Mr. Drake was looking after the water melon acreage and says he regretted to find that so many Milano farmers had fallen down on their melon acreage. He said many of the patches had not received the proper attention.

Times And Conditions

The above is the most trying question of today. When will they change and will it be for the better? Our observation is that they are changing daily. We are all realizing that we could not continue to go at the pace the world was traveling 12 months ago, and we, each and every one of us, has tightened up on our spendings, getting back to a safer basis, and trying to hold our spending a little nearer to what we are really making. Our guess at what made the hard times, is that most of us found it too easy to get into debt and to buy more than we could really pay for. The world comes nearer being on a cash basis for present business than ever before in its history. We are all cramped and find the bleeding hard at times, but if we live over it, then the medicine was fine, and it seems that we will all profit from the lesson of today's conditions, and may we live, save, pay our just debts, make very few more and bank what money we have left.

Mr. Gilbert finished up his work here this week and will leave for other points.

Mob Follows A Negro Murderer Thru Milano

Sheriff Ed Ellis and two deputies of Caldwell passed through Milano Tuesday morning in a car with a negro whom they were carrying away from a threatened mob at Caldwell. The negro, it was reported, had killed a white man at Cooks Point and also injured his daughter, and at first it was reported that both had been killed with an axe, but later accounts said only the man was killed. About two hours after the officers passed through here the mob arrived in Milano in some 10 or 12 automobiles, and while they were trying to get some information about the negro they put in a lot of telephone calls and learned about 11 o'clock that the negro was safe in the Cameron jail. This news caused a short caucus among the men and they decided to return back to Caldwell. All were respectable and law-abiding looking citizens and appeared to be gentlemen in every respect. All they wanted was the negro who had committed the horrible deed of murdering a white citizen in their community.

Wood for the World's Pencils.

The Ozark hills of Missouri furnish wood for a great proportion of the world's supply of lead pencils. The trees are stunted red cedars which grow on the hillsides. Their trunks at the butt seldom attain a diameter of more than a foot. The red heart of the wood only is used. The white sap wood is rejected. The lumber is sawed up into "slats" and shipped to the factories in this country and abroad. No other wood seems to answer as well for this purpose.

Successful Author.

It is said that the stamps with which her first story was sent to the magazines were earned by picking blackberries. Years later, when the author of "Little Lord Fauntleroy" was at the zenith of her popularity as author and playwright, her annual income was estimated to be from \$30,000 to \$75,000.

Sandy Creek People Have A Hopeful Leader

"Yes sir, Sandy Creek people are growing a little cotton, but the corn crop looks slim, yet in spite of the poor prospects beaming ahead of us, we will pull through to the end of another year and make it through all right." Thus spoke our citizen Mr. J. A. Touchstone the other day when asked what the Sandy Creek people were doing. We like to hear people talk that way, and as long as any community has in its midst a citizen of Mr. Touchstone's spirit of being able to see beyond the horizon of hard times, then there isn't any danger of the community going all to pieces and its people become totally disheartened. It requires some one who possesses a body full of sunshine to help every cluster of us along. Good cheer and a look on the other side of the cloud by our fellow citizens is certainly a help to everyone.

This Curfew Has a History.
Several of the curfew bells in England are kept ringing because of some old legend or custom. That at Chertsey, in Surrey, for instance, which had been rung regularly for centuries until stopped temporarily during the great war, is the one made famous by the legend which relates how Blanche Heriot, to save the life of her lover, condemned to die at sundown, climbed the curfew tower and held the clapper of the great bell, declaring that "curfew shall not ring tonight."

Love Is Everything.
Be sure of it. Be sure that to have found the key to one heart is to have found the key to all; that truly to love is truly to know; and truly to love one is the first step towards truly loving all who bear the same flesh and blood with the beloved. . . . All knowledge is love, and all love knowledge; even with the meekest, we cannot gain a glimpse into their inward trials and struggles without an increase of sympathy and affection.—Exchange.

Former Milano Citizon Achieves High Degree

Captain and Mrs. L. Bedell received a letter from their son, Prof. B. Youngblood, a few days ago, stating that he had just finished his studies at some big university at Madison, Wisconsin, and that on June 22nd, he would receive the academic title of Doctor of Philosophy, the highest degree awarded a student in any university in the world. Prof. Youngblood is director of the extension department of the Texas A. & M. College, at College Station, and will again be there after June 22nd. He is a genuine Milano product, having been born and raised right here at Milano, and he has worked up his way on the ladder of success and higher education that is wonderful to think about. His friends here at Milano are delighted to hear of his achievement. He is the first A. & M. graduate to take this degree.

Human Nature.
Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Brierley.

The Brainy Bee.
The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Let Your Next Tire Be Fisk

Fisk is founded on the idea of giving more for your money than you ordinarily expect. A big, staunch, firmly established company supports that idea. And it finds its expression in the excess mileage which is regularly delivered by all Fisk Tires. Excess mileage means just what it says—you ride comfortably, without tire trouble, when you equip with Fisk—and you get your excess mileage in driving continuously over rough roads as you do in smooth, city riding. The honestly earned reputation of Fisk Tires makes your investment safe. Sold in Milano by the C. Hudson store.

Milano's Population Is Somewhere About 500

The Gazette received a request the other day from a national directory concern for information about Milano. Not over half a dozen questions were asked, as they already had the town listed for years past. Among some of the information it gave out was that Milano possessed a population of 741. We would like this to be true, but we have always believed in honest figures, so we told them to make it about 500 if they wanted round numbers on a conservative estimate or 550 for a guess. The Texas Railway Guide gives Milano's population as 481, which is just about as near right as can be ascertained. Other listing books gave the population figures at 500. The government census figures which were sent the Gazette give the total population of Precinct 3 as 4,552, but this includes the town of Gause and all of precinct 3. The government did not list towns separate which were not incorporated. But we are confident that Milano's population is close on to 500 within its square mile of township.

Biblical Lilies Believed Anemones.
The "lilies of the field," so often mentioned in the Bible, are thought to be the red and purple, particularly the red, anemones with black centers. These anemones grow among thorn hedges in the East, which accounts for the saying "lilies among thorns."

The average hourly velocity of the wind at Milano throughout the year is 8 miles. In the Panhandle country of Texas it is 11 miles, and which is among the windiest in the United States throughout the year. In the states of Virginia and Washington the wind only blows an average of 4 miles an hour the year round. In Arkansas it blows about 5 miles. Thus it will be seen that the Milano country is favored with a yearly breeze that is far better than anywhere else in the United States. It is neither too much nor too little. Come to Milano to live.

Local News Items Round About Town

Miss Loring Beard spent several days the past week visiting with relatives down at Somerville.

Mrs. J. S. Beard went to Gause Thursday to visit home folks, and expecting to be back this Friday.

There will be regular services at the Methodist Church in Milano this next Sunday by the pastor, Rev. H. M. King of Georgetown.

Mrs. E. G. Godwin returned home Sunday from Somerville where she had been called to see her sister, Mrs. Wesley Woods who was very ill, but we learn she is improving.

Mrs. C. J. Stevenson has been very ill this week, a physician having been called in several times. At last reports however, she was reported to be slightly better.

Among the first roasting ears of field corn we have heard about was some brought in from the farm of Mrs. M. E. Cook last week. They were fairly good size ears and of the Sure Crop variety.

Practically all of last week was one of wet and rainy weather all over the Milano country and no doubt over the greater part of the state. This month will be well remembered as a very wet June.

Mrs. Chas. Bando of New Castle is visiting at the home of her daughter, Mrs. S. W. Taylor and family this week. She came with Mrs. Taylor and the children when they returned home from New Castle.

Mr. and Mrs. J. D. Peebles in company with some Rockdale friends motored out to the Llano country last week and spent a few days on the Llano River camping and fishing and had a delightful trip.

Mr. W. M. Dees was in town Thursday with a wagon load of fine sweet pepper which he sold to the J. H. Burnet store at \$1.25 per crate. Mr. Dees says he has a large crop of the pepper this year.

The next meeting of the Milano Cemetery Association will be held at the home of Mrs. W. F. Hooker in south Milano on the first Monday afternoon of next month, July 4th. All members are invited and urged to attend this next meeting.

Mr. G. W. Beard is still hauling big wagon loads of crated tomatoes from his farm every few days. We like to see the farmers haul stuff to town to sell, it makes us feel much better than to see them come in town with an empty wagon.

Miss Clara Hamman came home last week from Deweyville, over in the extreme eastern part of the state where she had been visiting with her mother, Mrs. Ashworth for several weeks. She was expecting to leave again this week for Stephenville, Texas, where she will attend a summer normal school.

Rather Slim Excuse.

Celia and Bobby disagreed, whereupon Celia slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

Man Gives Wife Glycerine Mixture

She had stomach trouble for years. After giving her simple backhacks bark, glycerine, etc., as mixed in Adler-ika, her husband says: "My wife feels fine now and has gained weight. It is wonderful stomach medicine." Adler-ika acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach and which you never thought was in your system. EXCELLENT for gas on the stomach or chronic constipation. Guards against appendicitis. The impurities it brings out will surprise you. E. C. Smith, Rockdale, Adv.

Believe Highway Will Follow The Cedar Creek Road

A number of citizens living on the Cedar Creek road south of Milano now believe the Ben Milam state highway will follow the Cedar Creek road as mapped and surveyed by the civil engineers. They say they have been assured that the highway will be built over this route and not over the old Santa Fe right of way as thought a month or two ago. The second survey runs east alongside the I. & G. N. rail road track to a point some ways below the present crossing and one mile from town where it turns southward in a straight line to the Cedar Creek road. The one great obstacle

of this route is the crossing through town which seems to be quite a problem to the engineers. They are trying to eliminate the main street town crossing on account of it being so near the depot and switching trains, and the last survey has been made to cut across east Main street between the calaboose and the Nelson restaurant toward the Milano gin. This route it is said, will call for the construction of a viaduct over the Santa Fe rail road. All of which is hearsay and rumor, and the Gazette can not vouch for none of it being facts. Only time alone will reveal facts.

THOSE WHO FORGET NOT

Mrs. H. O. Graves left \$1.50 with us Thursday for another year's renewal subscription to the Gazette.

Mr. D. B. Miller left a half dollar with us Saturday for another 4 months' subscription to the Gazette.

Mr. J. W. Cannaday of the northern Milano country left 75 cents with us last Saturday for another half year's Gazette subscription.

Mr. M. E. Ashley, one of the prosperous farmers of the northern Milano country, left 75 cents with us Thursday for another six months' subscription to the Milano paper.

Mr. J. A. Morgan of the western Milano country left 75 cents in our care last Saturday morning for another half year's renewal subscription to the home town newspaper.

Mr. H. B. Belt of the Prospect community was in town Monday and came around and left 75 cents with us for another half year's renewal subscription to the Gazette.

Mr. J. F. Nelson, who is now manager of the restaurant on Main Street and College Avenue handed us a half dollar one day this week for a four months' subscription to the home town newspaper.

Mr. J. A. Arthur of Temple handed us \$1.50 while down here Monday which insures him and his family of another year's Gazette reading. He remarked that the Gazette was better than a visit down here when it came to keeping abreast of the times in the old home town.

The Gazette's weekly paper expense bill is \$7.10. The difference in subscription receipts and the cost of the paper up to the present time now amounts to a deficit of \$57.20.

Boys Find A Nest Full Of Young Quail Birds

Mr. H. K. Haddox says he believes quail will be very plentiful this year. Said his boys found a quail's nest two Sundays ago with 16 eggs in it, and last Sunday every egg had hatched out except one which was broken by the wagon wheel when the nest was first discovered. The boys saw the little birds in the nest Sunday still unable to fly. Mr. Haddox says one quail will hatch out from 12 to 20 eggs.

M. E. Ashley Is A Very Hopeful Milano Farmer

Mr. M. E. Ashley of the northern Milano country reports activities still humming out on his farm and ranch. He says this has been a bad year for the farmer, but he believes if they keep busy and take advantage of the splendid spring and summer season they will all come out very well this fall and winter. There has been lots of work on his farm and there is still much to be done, and where there is work there is always revenue to come back to you. If no cotton can be made, he believes that feed crops can be profitable and profitable this year's efforts are only put forth.

Building For Financial Independence

Building a bank account or constructing a means of financial independence is like building a good brick building. As the brick layer lays one brick at a time on a good foundation, so is the building of a substantial bank account. You should select a good safe bank for your foundation and then lay your dollars securely and safely away a few at a time.

The most of us have dreams of making a fortune all at once and look at one or two dollars as too little to save. But reflect again on the builder—he never tries to lay the whole side of a wall at once, and if he were to try such tactics it would make a very poor wall and would not stand, and the same is so with the bank account. We offer you a good sound bank, a "GUARANTY FUND BANK," and we assure you that the foundation for your bank account savings could not be better.

Baptist Revival Meeting Is Now Well Under Way

The Baptist revival meeting for this summer began Sunday at the Milano Baptist Church and will run this and next week. The meeting is in charge of three workers of the Baylor University of Waco. Rev. E. M. Agee is doing the preaching; Bro. J. E. Towle is choir master; and the pastor, Rev. C. L. Shelby is assisting. Francis German, a young man of Livingston, is pianist. Services are held every evening at 8 o'clock and also at 11 each morning. The public is invited.

Two Citizens Go Hunting For Luscious Frogs

Doctor F. A. Liddell and Mr. W. H. Dukes went frog hunting Monday. The Doctor was equipped with a spearing apparatus and the Colonel was fortified with a shot gun of miniature calibre. They brought in 3 or 4 whopper size bullfrogs and had the legs fried for their dinner that day. They found the frogs encamped around the gin tank and no doubt both of these citizens knew the frogs were there by their harmonious bass voices that sing forth so melliflently every night.

Why Pay The Land Lord's Profits On Cost Of Building?

DON'T DO THAT ALL YOUR LIFE, for if you do you'll have paid out the actual cost of a home many times, and have left only a bundle of paper not worth a call from the "old paper man."

"AS YOU LIKE IT," is a line which hardly ever applies to the average "renter," for now-a-days you've got to take just about what you can get and play that you like it. The average renter may go through life with a smile, but it's apt to often be a forced one. To adequately describe the disadvantages of renting calls for "language," and we can't very well use it in a paper which is enjoying mailing privileges.

Long Mid-Summer Days Are Now Here At Hand

Mid-summer is now here. The summer solstice of the sun and earth's movement was reached Monday, June 21st, which gives us the longest day of the year. The days are now gradually getting shorter and the nights longer, the fluctuation being from 1 to 3 minutes a day. This variation in daylight is caused by the 45 degree angle of the earth, and if the earth was not thus tilted the seasons would all be alike without any change. On September 23rd daylight and night will again be equal as it is on March 22nd, and December 22nd will be the end of the shorter days for this year.

Right Must Prevail As Remedy For Hard Times

Mr. D. B. Miller says: Money is certainly getting to be a tightwad acquaintance these days. And he has it figured out that it will remain scarce until the farmers can get fair prices for what they have to sell. Just as long as manufacturers and dealers try to sell their goods high and at the same time buy products from the farmers at a cheap price, just that long will conditions be kept torn up and unequalized. Not until the world loses its greed of mammon and lives to do unto others as they would have others do unto them, will times and conditions right themselves as they ought to be. As an instance, Mr. Miller cited this: Shoes still cost much money, \$5 or \$6 a pair, but a cow hide will bring the farmer or the butcher only a few cents, anywhere from a nickel to a half dollar. It is conditions like this, Mr. Miller says, that keeps the country in financial depression and hard times.

Corn Crop Not Much So He Plants Potatoes

Mr. and Mrs. W. C. Mobley of the Prospect community were among the visitors to Milano last Saturday. We heard him remark that times and conditions on the farm still looked mighty blue, and that he had only 4 acres of corn that might make this year, and the cows got in it and devoured 1 acre of it. But he has set out 5 acres in sweet potatoes and is going to try to grow plenty of them to help him pull through on food and feed and also perhaps market some of them. He believes they are worth trying.

System Counts.

The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it! But when one sees the results which are possible through setting aside a definite time for definite things, one sees that it is surely worth trying.

Makes Potato Planting Offer To The Farmers

Mr. E. C. Smith, who has made quite an exceptionally fair proposition with farmers who wish to plant potatoes, asks all who have spoken for potato slips to call and get them as soon as possible. The slips are now plentiful and Mr. Smith says he still has some to spare. He suggests a good acreage in potatoes for feeding both the family and live stock. He says potatoes are good for fattening your porkers and when fed to cows they will give lots of rich milk. And should you wish to sell your surplus potatoes Mr. Smith will buy them at 75 cents a bushel and when a good yield is made 75c is a very fair price. Make 100 bushels to the acre and you will get \$75 for the potatoes. Make 200 bushels, which is not at all impossible, and you can get \$150 an acre.

Farmers are now laying-by their corn, and if the fair weather continues cotton will be layed-by in another week or 10 days.

Mr. and Mrs. W. H. Spinks were among those who went to Milano Saturday and while there they visited at the W. Boggan home.

Mrs. Will Davidson and little daughter of Hewitt are visiting at the home of her father, Mr. J. K. Miller and family this week.

Mrs. Jack Lankford and children of Dallas arrived Saturday and are visiting her parents, Mr. and Mrs. R. N. Turney and other relatives.

Our Self Help Club met Saturday night. A rather interesting program was rendered, including a debate entitled: "Resolved that Women are More Industrious than Men." John Lamtrip and Ray Gandy were on the negative and Mrs. Maude Lantrip on the affirmative. The debate was judged in favor of the affirmative.

Lower California Cattle.

In addition to cattle, many excellent mules are raised in Lower California. Horses are rarely used. The faithful burro is the principal means of transportation. Except for a few thousand in La Frontera, there are no domestic sheep in the country. In the southern part there are numerous flocks of goats. The largest cattle ranch on the peninsula comprises almost 1,000,000 acres.

Stretch Out the Wrinkles.

A surgeon of Paris has made a woman of forty-nine look like a woman of twenty-five by making small incisions behind the ears and on the scalp and stretching the skin as you would stretch a carpet, and her new youthful beauty is expected to last for eight or ten years. If she doesn't smile, or frown, or cry too much.

Peculiar Armenian Custom.

American divorces might be decreased by the introduction of an old Armenian custom which forbids a bride to speak to any man other than her husband for seven years, suggests a near East relief worker, writing from Erivan, Armenia.—World Outlook.

Swarm Of Bees Attack A Man While Plowing

Mr. J. F. Akins was quite severely stung last Saturday by a swarm of bees which were passing over the field in while he was plowing. In trying to protect his horse and keep him quiet he exposed himself the more to the bees, and in using his hat to fight the insects off he exposed his head to them. A number crawled into his clothes and he suffered a severe bombardment of the bees. He finally managed to fight the bees off which settled in a tree nearby. Then he went after medical aid and somewhat relieved his suffering though he complained of an awful headache afterwards.

Bits Of News From The Oakdale Country

Mrs. Enoch Fisher had two of her nieces with her Sunday afternoon. They were from Hanover.

Sunday Clyde Hensley went to Milano and brought out two of his nieces, the little Misses Ditto who came in from Houston.

Well, all you correspondents, lets say we will be glad to meet Mr. "Napper" if he will say where to meet and put up the eats.

There was quite a little crowd of young folks who gathered at the Macek home Saturday night enjoying a pleasant party affair.

Mr. Dick Westbrook of southwest Texas, and who has been visiting near Liberty, came over this week to visit Mr. and Mrs. E. J. Fisher.

The Hoyte base ball team had another match game with the Hanover team one day last week and got beat again by losing the game.

Saturday A. R. Oneil took Mr. Spraberry to the Cameron sanitarium for medical examination. The doctors gave him some medicine and he came back and went to work.

Born, to Mr. and Mrs. Clyde Hensley, one day last week, a fine bouncing boy. They have both their mothers with them, Mrs. Hensley of Houston and Mrs. Charley Angel of Watts Switch community.

Miss Ethel Bishop of Dallas arrived here last week to see her grand parents, Mr. and Mrs. William Bailey. She has been attending the industrial school at Dallas, and is spending some of her time with her sister, Mrs. Sursey Nicholson in the Prospect community.

Sapphires and Diamonds.

The sapphire is probably not as valuable as the diamond, roughly speaking, although comparison is difficult, owing to taste in color, and to the differing values as size increases. For instance, the price of a diamond rises in proportion to the square of its weight, a two-carat stone bringing four times as much as one of one carat. (Let me add that 151 1/4 carats equal one ounce Troy weight.)

Headache Cure.

A teaspoonful of charcoal powder in half a glass of water, is a cure for sick headache, and relieves heartburn. The powder is difficult to mix with water; it assimilates better with milk, so that the quantity named should be worked to paste with a small quantity of milk; sufficient water to make the draught being added.

Celia and Bobby disagreed, whereupon Celia slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

Grass Growing Fast And Rabbits Are Plentiful

Mr. J. W. Cannaday says fighting grass and rabbits to save the growing crops in the fields keeps a farmer mighty busy these days. The grass grows with great rapidity during a rainy season and the rabbits are busy destroying the crops at an alarming rate. Jack rabbits, Mr. Cannaday says, are bad enough, but there are thousands of the smaller cotton tail rabbits which can be seen in every little brush heap. The corn crop out his way, Mr. Cannaday stated, was almost a hopeless thing, but since the rains it has improved much to what it was a few weeks ago.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Brierley.

The Brainsy Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Let Your Next Tire Be Fisk

Fisk is founded on the idea of giving more for your money than you ordinarily expect. A big, staunch, firmly established company supports that idea. And it finds its expression in the excess mileage which is regularly delivered by all Fisk Tires. Excess mileage means just what it says—you ride comfortably, without tire trouble, when you equip with Fisk—and you get your excess mileage in driving continuously over rough roads as you do in smooth, city riding. The honestly earned reputation of Fisk Tires makes your investment safe. Sold in Milano by the C. Hudson store.

How To Live Through Hot Summer Months

Special to the Gazette from the Texas State Health Department:

Do not overeat in the summer. If you take more food than the body needs the excess ferments in the intestines, and the products are absorbed and poison your body. Do not eat when overtired or very warm. Eat sparingly of meat in summer. Meat foods are particularly harmful when they ferment in the intestines. Meat should not be eaten more than once a day or may well be omitted entirely by all those who are not doing hard physical work. In the tropics men live largely on fruits and vegetables, and in this case nature's way is the best way. Simple and light meals should be the rule in July and August. Drink freely of water between meals. The temperature of the water should be cool, but not too cold. Do not take cold drinks while you are very warm or while in the middle of violent exercise.

Turkey Raising Goes Along With Farming

Mr. J. A. Morgan says: Grass is growing so fast in the fields that a farmer can't keep the fields clean. The recent continuous rains makes it hard to kill even after you plow it in any manner of fashion. He has 13 acres in peanuts, a good acreage in potatoes, corn and other crops and he says it sure keeps a man hustling and worked down. And talk about turkeys! He said Mrs. Morgan had 115 of those wonderful young birds, which Mr. Morgan says will be welcome to these peanuts when harvesting times arrives.

Sells His Cotton When He Needs Ready Money

Mr. L. L. Stewart brought in two bales of cotton last Saturday which he shipped down to Houston to find a market for it. Said he had decided that cotton wasn't going to bring any better price and he might as well take what he could get. He can use the money better now than perhaps at some other time when the cotton is worth more. In other words, \$100 handy when you need it, is far better than \$200 when you don't need it. Mr. Stewart said the two bales cost him \$100 each to produce without his own labor cost, and that is why he has quit growing cotton. He reports his corn crop looking exceptionally good since the recent rains and is going to feed it to the hogs this fall and winter, and then turn the hogs on the market for a pay-day.

Gulf Storm Swept Over Milano On Wednesday

The outer edge of a tropical gulf storm struck Milano Tuesday night and for 24 hours a ceaseless rain fell. The immense storm covered the greater part of south Texas and did some damage on the gulf coast towns and cities. On the gulf the hurricane blew toward the north, but here at Milano the wind blew directly toward the south or toward the center of the storm area. The outer edge of such a huge disturbance travels in a circle, thus accounting for the wind and rain coming from the opposite direction the storm came from. Several inches of rain fell here and no doubt much damage was done to growing crops.

Newton Store News

Mrs. James L. McGregor of Somerville and Mrs. S. E. McGregor were pleasant visitors to our store this week.

Bro. Agee, who is holding a meeting at the Baptist Church came in Saturday evening to see what a department store in Milano looked like.

Do you know that with our small overhead expense we are able to make you prices on merchandise that can not be met anywhere?

We have some beautiful organdies in pink, blue, yellow and white at prices from 50 cents a yard up.

One of the best materials in the world for men's work shirts, children's romper suits, or any other garment requiring a strong durable cloth, is buckskin chevots. We have it in a variety of patterns.

Mrs. E. H. Hairston of East Milano was in our city yesterday and remarked upon the difference in our old store and the present location. This

was the first time Mrs. Hairston had been to town this year.

Mrs. L. Redell, Mrs. C. H. Lister and Mrs. O. F. Tally were all in the store Tuesday.

Mc and Mrs. W. B. Taylor are also among the numbers who know a good place to trade when they see it.

We have the largest stock of ribbons in town to choose from.

A shipment of large size children's hose has just arrived. Just the thing for that overgrown boy or girl.

A spring storm was raging here Wednesday, but it doesn't seem to have done much damage. Reports from over the state indicate that it was lighter than was expected.

Maxwell House Coffee is hard to beat. We have it. Also bulk Rio and Peaberry at 20 and 25 cents per pound.

Oil cloth, which is in such demand these days, has at last arrived. Ask to see it.

His Opinion On The War Proves Quite Accurate

One of the Gazette's lady subscribers sends in a clipping she came across in a copy of the Gazette published during the year 1917, wherein she called our attention to the statement made by Mr. S. W. Taylor concerning the war, his quotation being one among six she says that came to pass. The quotation read thus: "Station Agent S. W. Taylor says he believes the war will come to a determination of peace before Uncle Sam ever gets half way started in the big scrap. He says by the time 90 more days have rolled around the war situation will have produced its greatest result of a winning climax."

3 Milano Boys Swipe Six Melons From Car

Three Milano boys stole six water melons from a car load of melons Tuesday night which had been transferred here from the I. & G. N. road to the Santa Fe. A citizen on his way home saw the boys down the rail road track, but as he came upon them the boys made a run, leaving the six melons by the track. He reported the matter to depot officials and local authorities, but the boys rescued the six water melons in the meantime and make their getaway. No sign of the melons could then be found but officers believe the melons were hidden somewhere about town until things got safer for the feast to be pulled off.

Milano Citizen Discovers Good Fishing Tank

Rev. H. T. Hart went fishing some few days ago. Said he located a tank away out in the country some few miles from town in which he had a hankering notion that there ought to be fish in its waters. So he cast out his hooks and soon caught two good size cat fish which he took home. He wouldn't tell us where the tank or mysterious lake was located, and we doubt if he would tell anyone else, but it's evidently a pretty good old fishing hole to him, or else he had some extra good luck. Anyway, he caught those two fish in just a very short length of time.

Milano To Have Test For Both Shallow And Deep Oil

(From The Waco Oil News.)

Milano, Texas, June 14th.—A deal has just been consummated here between Kansas City and Waco parties and local citizens by which the Milano territory is to be tested for oil. A syndicate has been formed to be known as the Mexia-Milano Oil Syndicate with headquarters at Waco and a branch office at Kansas City, Mo. The officers are well known oil people. Mr. F. S. Booher of Waco is President; Dr. W. H. McLaughlin of Kansas City is Secretary and Treasurer; Dr. A. J. McLaughlin of Kansas City, is Vice-President; and G. H. Gray of Waco is Assist. Secretary-Treasurer.

The personnel of this syndicate would indicate that they know their business and will undoubtedly be successful in developing an oil field in this territory. The acreage selected by them has without question some of the most favorable natural indications of oil and gas of any section of Texas, having the Mexia-Groesbeck field to the north and lying on the same structure of the Minerva-Tracy and Thrall fields to the southwest; shallow producing gas wells on the north, and the

natural conditions of the immediate territory would lead one to believe that all that is necessary is to drill a well to the proper depth and oil in paying quantities would be assured. There are at present, including deep and shallow, twenty wells now drilling, with sixty wells producing oil in Milano county.

The citizens of Milano and surrounding territory have always contended that they have an oil field here, and if the proper methods were pursued their contention would be substantiated. Everybody here is very enthusiastic over the future possibilities of oil here and are lined up behind this syndicate to a man. The bankers and business men have stated that all they want is the assurance of this syndicate that they mean business and as soon as they have begun operations they will be with them morally and financially. It is planned to have a big picnic and barbecue on the day that the first well is spudded in and some of the citizens have threatened to dig up the remains of their cellars and pull off a real old time Texas celebration.

Which Brings The Most At Auction?

Which would you buy right now, a house with the paint all off, or one that has been kept painted? Would you pay all those dollars more for it just because it looks better, or because it is better?

Because it is, of course. It is better, because "old-tear-to-pieces weather" can't get his fingers on it. If you'd pay more for a painted house then why don't you paint all yours up? You may not want to sell them, but it will keep you a lot longer from having to build new one.

Mrs. C. Howes and daughter, Miss Myrtle Worthington, went to Rogers Thursday where Miss Myrtle placed an application with the school board for a teacher's post the next term.

Rev. H. M. King was in Milano Wednesday and left that night for Austin. Said he would be back Saturday in time to hold services at the Methodist Church Sunday.

Mr. and Mrs. J. F. Coffey made a trip to Waco in their car some several days ago, stopping over there for a couple of days to visit some of their relatives in that city.

Mrs. C. Howes and daughter, Miss Myrtle Worthington, returned home last week from a two weeks' sojourn at Marlin, where they enjoyed the health benefits and pleasures this city is noted for.

According to news reports reaching Milano last Saturday the best oil well as yet drilled in the Minerva oil field is the Nicus No. 1 drilled by the Texas Plains Syndicate of Chicago. The well is reported to be standing close to the San Gabriel River and the hole was full of oil as soon as the sand was touched and farther drilling was under way to complete the well.

Mr. W. L. Braun arrived in Milano last Friday from Chicago. Mrs. Braun had arrived from Chicago several days ahead, and are visiting among home folks and relatives for a few days. Mr. Braun is general manager of the O. R. T. and says he will have to be back in Chicago by July 2nd. He reports Chicago very hot at this season of the year and says our summer at Milano is pleasant to what it is up north.

The third quarterly conference of the Milano and Minerva Methodist churches will be held at the Milano church this next Sunday at 2:30 o'clock in the afternoon, with Presiding Elder Rev. C. T. Talley in charge. The pastor, Rev. H. M. King will also be present. Members of the church are urged to attend the conference meeting. Sunday will also be the regular day for services, at both morning and evening hours, and the public is cordially invited.

Virginia Dare.

Virginia Dare, the first child of English parentage born in America, first saw the light of day on Aug. 18, 1587. Her native place was on the island of Roanoke, Virginia, now North Carolina. Her father was William Dare and her mother Eleanor, the daughter of John White, governor of the second agricultural colony sent by Sir Walter Raleigh to the Carolinas.

More Men Than Women Have Appendicitis

Medical reports show men are more subject to appendicitis, although many sudden cases occur among women. It can be guarded against by preventing intestinal infection. The intestinal antiseptic, Adlerika, acts on BOTH upper and lower bowel, removing all foul, decaying matter which might cause infection. It brings out matter you never thought was in your system and which may have been poisoning you for months. Adlerika is EXCELLENT for gas on the stomach. E. C. Smith, Druggist. Advt. 8

Eucalyptus Trees.

The grand eucalyptus trees in Gippsland are probably the grandest of their kind in the world, and quite as magnificent as the Californian giants, only not so large in circumference. The shedding of their bark is a misstatement. What the tree does do is this: It sheds the old, dry, broken, and coarse bark, but the new one is sound and solid, and is not shed. The new bark is clean and very smooth, no branches growing for 100 feet or more.

Milano Citizen Taken To Cameron Hospital

Mr. B. McGregor was suddenly taken very ill Wednesday with a severe attack of appendicitis and Doctor C. M. McLarty accompanied him to the Cameron sanitarium Thursday afternoon where the physicians will determine if an operation is necessary or advisable.

Day of the Penny Gone.

Coralie had often gone on numerous errands for me, charging a penny for each trip. I had not had so many errands for her of late and the tiny miss does not earn so many pennies. Today I asked her to go uptown for me, and in a hesitating manner she informed me, "I will have to charge you 2 cents instead of 1, 'cause I can't buy anything little girls want with one penny."—Exchange.

Son Of Milano Doctor Back From Happy Trip

Doctor F. A. Liddell was in Waco several days this week where he went to see his son, Doctor G. M. Liddell and his new bride. They had just returned from their wedding tour to the north, including stopovers at Niagra Falls and various points in the Dominion of Canada.

Not a "Cheap Duchess."

Everyone told stories about Queen Victoria. The one I liked best was of her correction of a draft letter to say that the duchess of Connaught was to join the queen's train. The queen wrote in pencil on the draft, "You should always describe the duchess as 'her royal highness,' to show that she is not a common duchess."—From "The First World War," by Colonel Repington.

Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't he be sorry?"

Wives for Colonists.

In 1621 on August 21 a cargo consisting of marriageable women was consigned at London to the colony of Virginia. The market price of these ladies, eleven maids and one widow, was set at 120 pounds of the best leaf tobacco for each maid. No reduction in price was mentioned for the widow.

Wounded Milano Soldier Returns From Hospital

Mr. H. B. McClellen came in from Chicago Wednesday where he had been ever since October of last year for treatment of his hand and arm which was wounded in the war. Medical experts have done some wonderful improvement, but he says he is going back again and remain there another year or so for further improvement to the arm.

Layed Up Several Days By Sticking Nail In Foot

Mr. W. G. Allen of west Milano stuck a nail in his right foot one day last week and has hardly been able to get about. But he managed to be in town Monday and reported that grass was growing so fast in the fields that he didn't have time to let his foot heal up. Said a season like this spring and summer sure kept a man hustling on the farm.

They Are Advertising The Milano Oil Field

The last current issue of the Waco Oil News carried a half page advertisement stating facts and figures on the Mexia-Milano oil field and offering for sale 500 units of interest at \$100 a unit. Only 1,000 acres were advertised on this proposition, but the lease consists 6,000 of acres land lying from 1 to 4 miles south and southeast of Milano. The advertisement stated that Milano was just the right spot to get the big wells in at a minimum cost, and described it as the newest and wonder oil fields with drilling of rations to begin immediately. The ad was signed "The Bankers Guaranty Trust Association," with offices at 506 1/2 Austin Avenue, Waco, Texas, and a branch office at Kansas City. These people believe in big efforts.

To Make a Hole in Glass.

To make a hole in glass make a circle of clay or cement rather larger than the intended hole; pour some kerosene into the cup thus formed, ignite it, place the plate upon a moderately hard support, and with a stick rather smaller than the hole required and a hammer strike a rather sharp blow. This will leave a rough-edged hole, which may be smoothed with a file. Cold water is said to answer even better than a blow.

Language of the Cliff Dwellers.

The cliff dwellers, like so many other primitive peoples, because they had no written language, expressed themselves by means of signs and crude pictures, painted upon their earthenware vessels or upon the walls near their homes.

Petroleum's Discovery.

In 1859, on the 28th of August, petroleum was discovered at Watson's Flats, Pa., near the head of the Allegheny river. Edwin Drake bored the first oil well, and before the end of the year Drake, under the firm name of Drake & Bowditch, bored through the rock at Titusville to a depth of 70 feet and struck an oil well that yielded 1,000 gallons a day. This discovery started the enormous oil industry in northwestern Pennsylvania.

Advises Husbands To Believe Their Wives

(By the Elevation Correspondent).

I thought that when a couple got married they promised before God and man that they would forsake all others and cleave unto each other until death. Now how can a man's wife be a helpmate when every time she makes a suggestion to do things a certain way there is some one else to object and then trots to her husband and tells a pack of tales and causes the husband to raise a rough house? Can a wife be a good wife and a mother under such conditions? I say no. So don't condemn your wife until you have weighed both sides. It matters not how much a wife would do to help her husband make a fortune, she can't do anything unless she is allowed. Can she? Dear friends, it is distressing to think this world is getting in the uproar it is in.

Gulf Stream's Course.

The force and velocity of the Gulf stream vary, to some extent, but its course does not materially change until it has run hundreds of miles northeastward off the coast of the United States. Gradually it does then shift its direction more eastward, at the same time spreading like a fan and becoming shallower.

Horse That Keeps His Head.

When a horse suddenly finds a sled with four children on it in collision with him, rears up, comes down with one foot well out in front of the children and holds up the other till they scramble to safety, he literally gallops into everybody's heart. That's what a horse did recently in a Massachusetts town.—Our Dumb Animals.

TOILET ARTICLES

Our line of toilet articles is complete. Here you will find your favorite face powders, cold creams, vanishing and massage creams, rouge, lip sticks, etc. Full line of talcum powders and toilet soaps. Our perfumes are sweet and pleasing. If we haven't what you want we will get it for you.

We have gone to great expense to stock our store with the things that you would wish to have and need, and also have extensive investment of nice glass fixtures and show cases. All of these are here to make shopping easy and pleasant for you, and also to make everything more sanitary. We do not hesitate to say that our store is one any city many times larger than Milano would be proud of. Often transient people have told us this. We have this because we wish to show our appreciation of your business, as we think our customers are entitled to the best service that we know how to render.

Newsy Items From Down Near Elevation

Crops look very nice considering the late spring and bad weather.

Miss Gretta Pruett of Rockdale was down here visiting since we made our last report from here.

Mr. Brown, who had been with Mr. Liams on his farm, has quit farming and accepted a rail road job.

W. W. Richards, Lee Parker and R. W. Elliott cut down two bee trees last week and they have been living sumptuously ever since.

Yes, we have certainly had lots of rain in June, both day and night, and it just won't do to have folks tell you that it doesn't rain at night during the month of June.

Mr. Raymond Beard and family went over to Little River some several days ago on a fishing trip and caught all the fish they could eat and then threw a 4-pounder back into the water when they left.

R. W. Elliott, now of Yoakum, has been a guest at the W. W. Richards home through the past week or so. He is working on the Sap rail road with the bridge construction department and is taking a month's rest.

Mrs. O. P. Lagrone was seriously ill last week at their Summit home. The baby of Mr. and Mrs. A. S. Hurt was ill with fever and cold last week, and the baby of Mr. and Mrs. A. R. Graham has also been real sick a few days last week.

W.O.W. Elberia Camp 1818 meets every second Saturday night in each month at the Milano Woodmen Hall at 8 o'clock. Members are urged to attend.

For Age Computation.

To compute the age and birth month of a person ask the person to think of his age, multiply by 10, add 25, multiply by 10, add the number of the month in which he was born, subtract 250. The first two numerals will be the person's age and the last two the month in which he was born.

Newsy Items Of The Prospect Community

Quite a few young folks motored to Rice Sunday to preaching.

Champ Fisher was driving a steer through our community last Friday.

Ray and Coulter Thompson went to Coaldale to the ball game Sunday.

The sun is shining today, but the grass and weeds have got the cotton crop grabbed in this community.

J. H. Thompspon's family were having chills this past week. He went after some medicine Sunday.

Some 5 or 6 of us went to Cameron the other day in Mr. Walker's car and with him at the throttle. Everything went well until we got back to Hoyte where the car took a run at a tree and bumped it, bending some rods but hurt no one.

Oh yes! The Oakdale Scribe reminds us of the man who wished his wife was in Heaven and that he had a barrell of whiskey. His wife said it was just like him to wish the best for himself. And that is what she did in regard to a get-together of the correspondents. We think that if we were to meet and have a sociable understanding we could joke a bit with each other and the Scribes would not take it to heart so badly. "Napper."

Newsy Items Of The Liberty Community

Miss Sallie Fisher of Dallas is visiting home folks here this week.

Mrs. J. D. Turney and daughter, Miss Estelle of Hanover, were visiting home folks last Friday.

Mrs. Alma Hildebrandt was a guest at the home of Mrs. Nellie Hildebrandt last Saturday.

Mr. Wesley Woods visited at the home of his grand daughter, Mrs. Bob Kirk Tuesday of last week.

We have been informed that there will be a big barbecue affair at Hanover this next Saturday, July 2nd. Everybody is invited to come.

Mr. and Mrs. Ervin Westbrook of Houston are visiting their parents, Mr. and Mrs. W. O. Fisher and Mr. and Mrs. Tom Westbrook.

Farmers are sure in the grass bad and it is feared that some fields are past redemption. The recent rains have made it impossible to get in fields as it just stays boggy.

A family reunion of the Yates Kirk family was held at the Bob Kirk home here a few days ago. There were 24 guests present and a fine dinner was served to all.

Mrs. Will Davidson and daughter, Little Miss Myldred, left last Saturday for their home at Hewitt after a 10 days' visit with her father, Mr. J. K. Miller and family and her sister, Mrs. J. D. Turney of Hanover.

Poor Diagnosis.
"Yes," exclaimed the doctor, "I never made such a mistake before. Usually I guess right, and nobody can accuse me of a wrong diagnosis with any of my cases. But I'll admit I fell down on that patient you mention. You see, I didn't know he was rich enough to have appendicitis!"—Exchange.

Bird of Ill Omen.
The raven figures in many superstitions and is invariably considered a bird of ill omen, and its unexpected appearance a sign of death or disaster. It was dedicated by the Romans to Apollo, and there is a strange Greek legend telling how the bird was changed from white to black.

Newsy Items From Around Cedar Creek

Mr. and Mrs. Iiams have purchased themselves a Ford roadster car.

Mr. Clyde Jackson of Rockdale was at the home of his mother, Mrs. Iiams, Saturday and Sunday.

Mr. John Morgan and family were called to Gause last Friday to the bedside of his father who was ill.

Mrs. M. E. Harrell has been suffering with something like a crick in the neck. Doctor McLarty was called out to see her Sunday.

Mr. Charles Williams is carrying the mail on rural route 3 this week, while Mr. Pierce is trying to recover from an injured and lame back.

Mr. and Mrs. S. E. McGregor were in town Sunday morning with 25 crates of extra fine looking tomatoes which they sold for shipment.

George Harrell Beard was in Milano Monday with a wagon load of tomatoes packed in crates which he delivered to the J. D. Peeples store.

Ingenious Pica.
Little Dickie was visiting his grandma, and after lunch she spoke to him about taking his afternoon nap. He looked shyly at her and did not speak. After a short pause she again mentioned his nap, and he said: "Why, grandma, you wouldn't put your company to bed, would you?"

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. And one of the first things we meet there is the necessity, in order that man may come to his true self, that he is possessed by something, some one beyond himself.—Jonathan Brierley.

The Brainy Bee.

The following incident testifies to the remarkable sagacity and efficiency of bees. A hive was being "spied upon" by a wasp. When wasps ascertain a hive is worth attacking they often succeed in ousting the bees. Every time the wasp approached the small entrance hole a bee came out. An hour later the wasp was dead.

Let Your Next Tire Be Fisk

Fisk is founded on the idea of giving more for your money than you ordinarily expect. A big, staunch, firmly established company supports that idea. And it finds its expression in the excess mileage which is regularly delivered by all Fisk Tires. Excess mileage means just what it says—you ride comfortably, without tire trouble, when you equip with Fisk—and you get your excess mileage in driving continuously over rough roads as you do in smooth, city riding. The honestly earned reputation of Fisk Tires makes your investment safe. Sold in Milano by the C. Hudson store.

Negro Murderer Gets Speedy Trial At Caldwell

News reached Milano Monday about noon to the effect that the negro who murdered a white man near Caldwell a couple of weeks ago, had been tried there that morning in a special session of the court and plead guilty and his penalty assessed at hanging on July 27th. An enormous crowd was in Caldwell that day to hear the proceedings of the trial. The negro had been brought to Caldwell the night before from some distant point where he had been kept safe from the mob that threatened him, but the people were assured that a hasty trial would be given the negro and they let the law take its course. Court was delayed at Bastrop to hold the special court at Caldwell for the purpose of trying the negro.

Waking Sleep-Walkers.
Some sleep-walkers may be awakened by being gently touched or called; others by a flash of light, by stumbling in their wanderings, or by setting their feet in water. Others remain so heavily asleep that it is necessary to shake them vigorously before they show signs of waking. But sometimes it is not wise to wake the sleep-walker at all, and there have been cases where sudden rousings have proved fatal.

Keep Your Saving System Going.
It is poor policy to figure to cut your deposit one week and make up the deficiency next pay day. This course will soon break up your saving system, you'll find. Get a little money ahead and then you will wonder how you could have enjoyed yourself a minute while you were living from one pay day to the next, constantly putting off your creditors, and without a cent to fall back on should you become ill or lose your job.—Norton Spirit.

Milano Youth May Go To The Military Camp

Alton P. Hairston of Milano, who filed application for attendance at the Citizens' Military Training Camp to be held in the Eighth Corps Area this summer, has been notified by the Commanding General at Fort Sam Houston that his application has been received and will be given due consideration. He states that he will know by about July 1st whether or not he has been accepted for the Government's one month's free outdoor vacation. These camps are for the purpose of training the young men of this country in military drill and outdoor life. All classes of young men will be mingled together in the camps which will bring about a closer social unity and promote the spirit of American Citizenship. Attendance is purely voluntary and does not obligate anyone attending.

THOSE WHO FORGET NOT

Mr. G. W. Miller of the Liberty settlement left a dollar with us while in town Saturday morning for which we are to keep the Gazette going out to his home on rural route 1 for the period of another 8 months.

Mr. W. R. Westbrook of Runge, Texas, left \$1.50 with us while in town Monday for another year's renewal subscription to the old home town paper. He has been here for several weeks on a visit. Said he found lots of good news in the Gazette each week telling about what his old time friends and acquaintances are doing back home.

Mr. Clinton Walker of the Oxford City community left a half dollar with us Tuesday for subscription to the home town paper. He reports farming and the cattle business moving along slowly but expects conditions to pick up this fall. Says he will soon be in the market to buy some hogs which he wants to fatten up on his surplus feed crops.

The Gazette's weekly paper expense bill is \$6.50. The difference in subscription receipts and the cost of the paper up to the present time now amounts to a deficit of \$65.80.

Two Men Caught Here On A Suit Case Charge

Two men were arrested here at Milano last Friday morning and placed in the calaboose for having stolen a suit case at some point near Groesbeck, Texas. They were detained until that night when an officer of Limestone county came down and accompanied them back to Groesbeck. It seems the men had stolen or come into possession of the grip and shipped it to Gause where they later pawned it for an automobile ride to Milano and where they intended to catch the north bound Santa Fe passenger train early that Friday morning.

Give Your Boy A Start

At the birth of a baby boy in a certain Ohio town, its mother said to the proud father: "Let us give this child a start in life. Can we set aside a dollar a week? Let us try." This was done. At the age of twenty-one the child was able to purchase an interest in a growing business. This man later became the president of the Western Union Telegraph Company.

Some Geological Facts Of The Milano Country

(From The Waco Oil News.)

The existence of natural gas, oil and sulphur has been known in this region for many years. Tracy field, which is about 10 miles southwest, seems to be the extreme west edge of the Milan county pool. There the structure outcrops and the oil is found at 108 to 230 feet, high gravity testing from 42 to 47. There are now 50 wells producing oil and so far no dry holes from the west edge about the J. C. Davis farm for three miles east to Isaac No. 1, drilling in March to a depth of 627 feet and good for 15 barrels per day, with 16 feet of pay sand and a high grade oil, and with sufficient gravity to run an ordinary gasoline engine.

The Minerva well is about three miles closer to this property than the Tracy field and about 300 feet deeper. Therefore this same strata should be encountered at Milano from 1,000 to 1,400 feet, with a much thicker sand, a very much

greater production and sufficient gas pressure to make the well flow indefinitely. Most of this mineral area had been covered and mapped in 1890 by the geological survey of both Texas and the United States Geological Department. Also the Geological Department of the University of Texas has published maps showing this territory. These maps show this area as being most favorable for oil and gas. They were re-published in 1890 with the same notation. The late W. B. Phillip, Ph. D., while acting as state geologist for Texas, highly recommended this region for oil and gas and other minerals. There have been many favorable reports made on this section's possibilities for oil and gas and other minerals by many prominent geologists. In 1901 B. F. Riley, Ph. D., made a special report on this region, which showed to be conclusive evidence of the territory that has been selected.

Grows A Tomato Crop And Uses No Hot Beds

Mr. D. K. Mosely was in town Monday with a load of extra choice tomatoes. He had them crated and a lot in bulk and they were of very large size. Mr. Mosely says he grew those tomatoes without any hotbed or cold frame and the plants were never transplanted at all. He just sowed the seed in drills and then thinned the plants out when they got to growing. He has a good size patch and he says the vines are loaded with the juicy tomatoes. Mr. Mosely always produces a good crop of truck whenever he plants

Lady And Little Babe Of Oxford Buried Monday

Mrs. Ernest Morgan died Sunday morning about 11 o'clock in the Oxford City community after a critical illness of about a week's duration. Burial took place at the Smyrna cemetery Monday morning. An infant babe which had preceded its mother several hours in death was laid to rest beside her. The departed mother leaves a husband and two children who are grief and sorrow stricken by the loss of she who was the sunshine of their home. Rev. C. L. Shelby, the Baptist pastor, held the funeral services.

Lady At Liberty Enjoys 57th Birthday Occasion

(By the Liberty Correspondent).

Mrs. S. M. Bullock celebrated her 57th birthday on June 24th at the home of her daughter, Mrs. Albert Reese. Only three of her children were present, they being Mrs. Jesse Kirk, Mrs. Albert Reese and Roy Bullock. The other children could not be with her, but remembered her with a nice present. Her daughter, Mrs. J. Chaney of Paris Island, South Carolina, sent her a check for \$15 as a remembrance of mother's birthday. A nice dinner and refreshments were served to all present at this pleasant occasion.

Milano Young Man Is Killed In Auto Accident

News reached Milano relatives last Friday evening to the effect that Sam Holland, a former Milano citizen, had been killed in an automobile accident near Mart. The body was sent to Milano Saturday and laid to rest in the Milano cemetery, Rev. H. M. King conducting the funeral services. Deceased was the son of Mrs. J. B. Holland and was a Milano raised young man. It is understood that the car in which he was riding collided with another car and death was perhaps instantaneous. The young man left Milano several years ago and has been at Mart ever since. The accident is deplorable to the relatives here at home and also to the entire citizenship.

The average duration of human life is 36 years. Until a few years ago it was 33 years, but with the progress of science and better living conditions the average life has been prolonged just three years.

Rather Slim Excuse.

Cella and Bobby disagreed, whereupon Cella slapped her brother. A wall brought their mother. Only after a long and severe reproof did the small girl's spirit melt and then she said: "Oh mamma, I'm sorry I slapped him. I didn't mean to. My hand slipped."

The town of Milano is 1,820 miles north of the Equator. By air line it is only 147 miles from the Gulf of Mexico. It is in the same latitude as Jerusalem over in Turkey-in-Asia, and we are approximately 7,900 miles straight west of this famous place.

How Frogs Protect Eggs.

In the manner of disposing of their eggs many species of frog exhibit remarkable peculiarities. One of the most curious, a tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

Must Dip All Cattle Around Milano July 15

All cattle in the Milano dipping territory must be dipped on Friday of next week, July 15th, at the Milano dipping vat. Such is the mandate issued by Inspector R. Beard who says he has found ticks on some cattle around Milano. Where some infection has been found among the cattle it can only be stamped out by everybody dipping their cattle. The order includes everybody's cattle, milk cows and calves, or other stock infected with ticks. Many head of cattle have been exempt from the dipping this year where they were properly cared for and examined, but even these cattle must be dipped on July 15th. Right now is a critical period of the dipping season, and any infection on cattle that might get by means that the three years' of hard work on the cattle owners would be unsuccessful.

Mr. and Mrs. A. L. Chatman spent Sunday with their friends Mr. and Mrs. Spence over at Hoyte.

Friday morning Master Deward Hause of Curry came out to see Grandpa and they drove back Sat- in the buggy. He passed the time while here killing rabbits and rats.

I got busy last Monday and did not write to the Gazette and did not get to tell that Miss Nancy Etheridge and Mr. Tom Vaughn of Cameron were married about the first of June, but they did for let us know it until the last of June.

Our trustees went to Cameron this week to see about holding the old school building so we can sometimes have church in this community. It seems some one back the other way wants to sell this building and build another school house away down somewhere else.

Please tell "Mr. Napper". I had no thought but that my husband would accompany me to Milano and hear and see all we said and done, even eat ice cream. Why can't we get together Scribes? Somebody say something. Just speak out in meeting, I like it. Would like to see all of you.

Soap Economy

New soap is about the most extravagant thing there is. If you possibly can, buy a dozen bars at a time. Cut it up at once into one and one-half inch thick blocks. Store these in a very dry, rather warm cupboard, piling them up after the fashion of a child building bricks, i. e., so that they practically do not touch each other. They will then dry and harden right through, and while the cleansing power of the soap will be in no way diminished it will last twice as long.

Newsy Items Of The Liberty Community

Mr. O. T. Bullock of Cedar Creek came out to see his mother Sunday.

Mrs. Sallie Hensley and little grand daughters, the little Misses Ditto of Houston, visited Mrs. Lola Spaulding Saturday.

Martin Miller and sister, Mrs. L. B. Ashcraft of Rogers, motored down and took in the barbecue picnic at Hanover Saturday.

A great number of our people attended the picnic and barbecue at Hanover Saturday. All report a good time and plenty to eat.

Farmers have made good use of the fine sunshine weather of the past week which has been a great benefit in getting rid of some of the grass in the fields.

Mrs. S. M. Bullock has been quite sick for several days at the home of her daughter, Mrs. Jesse Kirk. Doctor Liddell of Milano was called to her bedside Sunday.

We learn that Grandma Fisher was brought home from the sanitarium and is getting along nicely. This is indeed good news to her many friends and relatives.

When Bees Go "on Strike," Bees will not work when they think that their queen is gone. There is something fatalistic about their attitude. They become dejected, and morose and lazy—there is a "what's the use" droop to their movements. Their only reason for their being is storing up honey for the young of the future. With need of that gone, they seem to universally agree that there is no need of labor. They sit down on the job, eat until the food is all gone and then starve to death.

Human Nature.

Modern thinking, proposing to found morality solely upon the principles of human nature, will have to take account of all there is in human nature. Geological Survey Will Cost Sum Of \$1000

Mr. W. T. Brooker is in receipt of a letter from Mr. F. S. Booher of Waco stating that they were waiting on Mr. Hassan, an expert geologist to set a date to come to Milano and map out a report on the Milano oil field south of town. He also stated that Mr. Hasson's report would cost them \$1000, just to look over the field, make some surveys and give a correct geographical report. Mr. Hassan is noted everywhere for his expert opinion and correct knowledge of oil formations and his time is in great demand and his price high, but his services are worth the money. So just as soon as he can make a date for Milano he will be down to survey the lands now under lease.

Value of Quick Decision.

As a rule the man who has trained himself to quick decisions and prompt actions follows close to the right. He does not need to debate questions as does the man who has become a master of deliberation. His mental faculties seem to work automatically and they are generally right. I'm not sure but that they are more often right than they are with the man who is constantly weighing pros and cons and becoming confused with the issues. He saves time because he acts quickly and he saves everybody the uncertainty of indecision.

Geologist Spends Three Days Here At Milano

Mr. F. S. Booher, the oil man of Waco, was in Milano from Saturday to Monday accompanied by Mr. Overstreet, a geologist. The two men spent the time looking over the lands south of Milano and from what information they gave out they found oil indications very good; in fact it is said they found the surface indications to be the finest in the state for a prospective oil field. Mr. Overstreet went over the lands with an electrical apparatus which recorded subterranean noises and it will require some time to get his report made out. They found several places where they believed a drill ought to be put, but they did not name the locations. The oil pool is believed to lie along Cedar Creek and also toward town. Just before departing Mr. Booher told Mr. Brooker they intended to rush matters and get busy with the drilling.

Squeers' system of tuition consisted of alternate beating and starving. In Dickens' time, it is said, such schools existed, and his account of the one over which Squeers presided did much to bring about their extinction.

THOSE WHO FORGET NOT

Mr. J. A. Touchstone left a dollar with us Tuesday for addition renewal subscription to the Gazette.

Mr. Jeff Mills handed us a half dollar some few days ago for another months' renewal subscription to the home town newspaper.

Mr. J. T. Morgan of the Smyrna settlement left 75 cents in our care one day this week for a half year's renewal subscription to the Gazette.

Mr. Bill Hairston left a half dollar in our care last Saturday morning for which the Gazette will go to Mrs. Nora Hairston out on Milano rural route 2 for four months.

We acknowledge receipt of a half dollar from Mr. J. E. Baker of the prospect community for which we are to send the Gazette to him and his family for another four months.

Milano Gazette: Enclosed find money order for 50 cents for which please start the Gazette coming my way. Yours very truly,

C. E. McGregor, Morgan, Texas.

Jim Pleasant is a new subscriber to the Gazette with this issue. His wife left 75 cents with us one day this week for a half year's subscription so that Jim could learn to keep abreast of the fleeting times around Milano and the world in general.

George Beard left \$1.50 with us another year's subscription to the home town paper. She and her son George came in town that day, and Mr. Beard has for the past few weeks been unable to get to town.

The Gazette's weekly paper expense bill is \$6.50. The difference in subscription receipts and the cost of the paper up to the present time now amounts to a deficit of \$66.30.

BARN TALK

The man who will make himself comfortable and at the same time expose his livestock to cold rain and winter's storms, will never get very far as a stock man.

When land, grass and cattle were the cheap things in sight and lumber hard to get, there was excuse for winterstock losses, but those times have now long gone by.

The live-stock farmer who, on a cold stormy night, doesn't light his lantern before going to bed and make the rounds of his barn and shed, just to experience the deep satisfaction of seeing his animals in their snug winter quarters, well bedded, well fed, is peculiar. Either he isn't a 100 per cent stockman, or he hasn't the buildings necessary to make stock-raising profitable. If it's only buildings you lack, we want to see you. With our lumber and the plans we have to show, you can build any kind of a farm building and build it well.

Come in and let's talk it over.

Local News Items Round About Town

We are glad to see our citizen Mr. B. McGregor up and about town again. He was able to be up the first of the week.

Perry Hairston and Claud Shaffner were scheduled to leave Thursday of this week for San Antonio to enter the summer military training camp there for young men.

Mrs. E. H. Hensley of Houston and her two grand daughters, the Misses Ditto, are visiting at the home of her mother, Mrs. W. F. Hooker and family this week.

Miss Carmen Robinson, who is attending Baylor College at Belton, spent the week-end at home with her parents. She was accompanied on her visit here by her cousin, Miss Grace Hill of Temple.

Mr. W. Boggan will assume charge of the Henry Hairston ice vault beginning this Friday, July 15th, and will manage it in connection with his meat market, the two places adjoining doors. See his notice in the want ad column this issue.

Mr. G. B. McClellan is building a new barn out on his place in the Oxford City community. And we hear that he is building a rat-proof structure of it. The barn is built of lumber and sheet iron and the parts which are accessible to rats will be filled with cement. That's a pretty good idea. No use in giving free board and lodging to the rats.

Mr. S. E. McGregor told us the other day that while he was riding over his farm some few days ago he reached up and broke off a twig from a post oak tree and noticed after breaking it off that it was abundantly covered with acorns, and so thick were they that he had to take the twig home and count them. He found there were exactly 69 acorns on that small tree twig.

Mr. and Mrs. V. W. Brooks and children returned home this week from Madisonville, where they had been visiting among home folks for the past week or two and enjoying their period of summer vacation. Mr. Brooks reports the eastern part of the state in about the same conditions that our country is in. There are some good crops and some mighty bad. The weather has been extremely rainy and hot.

Mrs. S. E. McGregor says she believes if no efforts are made by the Milano business men to find a market for the farmer's produce and other products the town of Milano will soon be more dead than it is today. She made reference to what Milano merchants did some few years ago when they shipped out car loads of truck every year and they were always ready to buy more. Today a farmer can sell practically nothing at Milano she says, and it is discouraging the farmer and also driving him to other towns to sell his products and do his trading.

Tuesday morning quite a number of Milano people went to Cedar Creek for a gathering to spend the day in picnicking, swimming and fishing. After several hours of enjoyment on the Creek lunch was served to about twenty. The occasion was given in honor of Mrs. G. E. Mullins and children of San Antonio. Those present were: Mrs. J. P. White, Miss Myrtle Worthington, Mrs. G. W. Mullins, Mrs. G. D. Hooker, Mrs. Mattie Springfield, Mrs. Claud White, Mrs. F. W. Iiams, Mrs. G. E. Mullins and children, Messrs. Claud White, J. T. Bullock, G. D. Hooker and Carl Hooker and others. Just before the crowd adjourned they were sumptuously treated to water melons and cantaloupes by Mrs. Iiams, after which they bid each other goodbye and all of them declared that they had never spent a more pleasant day.

Writes About Accident That Killed Milano Man

The following is a letter from C. P. Lumpkin of Mart, Texas, who was one of the occupants of the automobile accident in which Sam Holland lost his life, and is written to Mrs. J. B. Holland here at Milano:

"Just wanted to tell you that I deeply regret our accident in which Sam lost his life. Oh! Mrs. Holland I can't even begin to tell how sorry I am. I do wish I could in some way help you to bear your burden, but we are human and can't do this, but God will help you and I am sure that you are leaning on him for your strength in this sorrow. For he has said: 'Lo, I am with you always, even unto the end of the world.'—Matthew 28:20.

It was such a miracle that any of us came out alive. Mrs. Holland, Sam was such a good boy and I thought so much of him and you may know that this accident is awful for me to think of. Everybody that knew Sam loved him. Beside Sam I was the only other occupant injured, but I am able to be about and think that my knee will be all right. My mother sends her love and sympathy to you and we are much grieved over this accident. Please accept my kindest wishes. I am a friend of Sam's.

Biblical Lilies Believed Anemones.
The "lilies of the field," so often mentioned in the Bible, are thought to be the red and purple, particularly the red, anemones with black centers. These anemones grow among thorn hedges in the East, which accounts for the saying "lilies among thorns."

Newsy Items From Around Sipe Springs

Robert Blackmon of Bosque county is down on a visit. He says that crops are looking fine.

We have gone to great expense to stock our store with the things that you would wish to have and need, and also have extensive investment of nice glass fixtures and show cases. All of these are here to make shopping easy and pleasant for you, and also to make everything more sanitary. We do not hesitate to say that our store is one any city many times larger than Milano would be proud of. Often transient people have told us this. We have this because we wish to show our appreciation of your business, as we think our customers are entitled to the best service that we know how to render.

Money-Value of Home-Making

Swedish women have evidently succeeded in giving housework and taking care of the babies a financial value and standing before the law of the land. Says the law: "If the wife gives all her work to the home she is considered by the law as having contributed in the same degree as her husband, who procures the funds."

There was once a time when Milano was more awake than it is today. We had picnics on holidays and other days too; there was entertainment in many ways, hundreds of people came to town on Saturdays; a brass band formerly played on the streets every Saturday, the stores were crowded all day long and merchants sold lots of goods. What's the matter? Is Milano gradually going stone dead? Is the funeral going to be held shortly? Is the town and citizenship actually burying itself? I looked that way last 4th of July. Many business men and citizens went to neighboring towns to spend the day. The stores closed up. The town was dead. It was a lonesome old place, as if no one came in or went out. The town was

growing town, and the citizens are not at all sure that the discovery of the oil might save the town. However, it will surely gradually drive the last of enterprise industry and enterprisers.

Our Busy Sanctum

We doubt if there is another printing
plant in the entire United States as
busy for the size as that of the Milam
Gazette and the Buckholts Bulletin.
While our plant is not so very large, it
is large enough for the towns for which
we publish the two papers and what
facilities we have are up to date and
modern.

The management of the dual publi-
cations is a very busy one and four
nights in every week we do not know
what it is to close our eyes until long
after the midnight hour. While the
populace is dead to the world and their
thoughts are resting in peaceful slum-
ber, one night each week between the
hours of 10 p. m. Thursday night and
2 p. m. Friday morning, the two papers
go to press and the smooth humming
noise of the cylinder press is distinctly
audible in our sanctum grinding out the
news that in less than twenty-four hours
after is placed in hundreds of homes
over the entire territory of Milam
county, the adjoining counties and into
more than half the states of the Union.

Throughout previous to going
to press the editor and his faithful
assistant labor day and night; gather-
ing news, manipulate the type, donate
copy, gather more news, do the job
printing stunt, sweep out, gather some
more news, talk most pleasantly to
those who enter our threshold, write
a few more chunks of copy and rake
up a little more news if we can.

The appearance of the office is al-
ways the same. Our sanctum is in
front, furnished with the old familiar
antique desk literally decorated with

newspapers and exchanges of all kinds.
The old hard seated chair is there too,
but it is nearly always vacant as the
editor of the two papers is an all round
useful man and makes himself fearfully
useful. The same old copy hooks still
hang where there they have so faith-
fully hung for years. The little old
Army press lies stone dead buried with
our pleasure in one corner out of our
busy way. May eternal peace bless it.

The gentle old Tom cat, who has
been our office companion for over
three long years, still keeps his lazy
old soul about the office and has
never in all these years learned to
keep his tail from under our feet. He
seems to like the scent of ink, benzine
and type—printers' instinct no doubt,
and he saunters all over the precious
forms and never pierces a letter or single
type. During the deep silent hours of
midnight while copy oozes from our
brain onto paper his gentle purring is
all the company we have. Bless his soul.

Yet, with all our faithful regularity
of our newspaper tribulations, we greet
our friends and acquaintances nicely
ugh and try to make our appearance
as though we were millionaires
and had no troubles whatsoever to mar
or deface our easy going temperament.

Some of these sweet old days we are
going to locate the abode of one of our
good natured subscribers who lives
near the river, and if he hasn't raised
enough cotton or tomatoes to be able to
sport a honk-konk vehicle then we'll
accept any sort of merry going wagon
and go fishing with him and drown
some of our newspaper troubles for a
few days with fresh air, fish and good
old butter milk.

Evelyn—Is your watch correct,
Fred?

Fred—Yes, indeed. It is keeping
better time since I put your picture
inside the case.

Evelyn—You flatterer! How could
that be?

Fred—Well, you see, when I placed
your picture inside the case I added
another jewel.

Subscription Contest

Beginning April 1st, The Milan Gazette will put on a Subscription Contest, which will last until September 1st, 1912. Any young lady of whatever age may become a contestant by giving or sending us her name. We will then supply her with necessary material and any other information she may desire. Write or call at The Gazette office and we will be at your service.

This Piano is now on exhibition at Miss C. Hudson's Store

This is the Piano to be given away free on September 1st to the young lady receiving the greatest number of votes in the The Gazette Subscription Contest.

Every Contestant Gets a Premium for Her Work

And each one works for herself alone. Every year's subscription she gets to the Gazette gives her 2,500 votes toward the piano. Every dollar spent at Miss C. Hudson's store is good for 100 votes to the purchaser which they may cast for any of the lady contestants.

A six months subscription at 50c for The Gazette gives the lady contestant 1,000 votes
A year's subscription at one dollar for The Gazette gives the lady contestant 2,500 votes
A 3 years' subscription at \$3 for The Gazette gives the lady contestant 7,500 votes

For the small number of 15 yearly subscriptions and \$5 worth of voting coupons from Miss Hudson's store a contestant receives this handsome Necklace, and as many more as she earns them, and her votes count on the piano just the same.

For 135 subscriptions to The Gazette and \$50 in voting coupons from Miss Hudson's store the contestant receives this diamond ring, and not only one, but as many as she earns, and all of her votes will count on the piano for her work.

Votes will be counted every week and published in The Gazette.

Three uninterested ladies will count the votes each week.

For 75 yearly subscriptions to The Gazette and \$25 worth of voting coupons from Miss Hudson's store entitles the lady contestant to a handsome year case Elgin or Waltham watch.

This subscription contest will be under the supervision and responsibility of the Milan Co-operative Company of Oklahoma City, which is the supervising jeweler.

is the best place to farm on the face of the earth. The recent freeze did no damage to our tomatoe plants and all conditions point to a splendid crop this year and as we are the first place in Texas to ship Tomatoes our prices will be fine. This is the country where five acres of Tomatoes will make a man more clear money than any renter can make off of 50 acres planted in cotton anywhere in Texas. To prove this statement I refer you to any truck grower in this district. Acreage in Tomatoes has grown from just a few acres a few years ago to over one thousand acres this year. And over 1000 acres in other truck. In two years Milano will be one of the largest Truck shipping places in Texas. If you want a home in a good healthy country, come and look at ours. More Kind Words For The Gazette

To The Gazette:—As a reader of The Gazette and one interested in the welfare and future growth of Milano. I wish to express my appreciation of this live little paper. Besides boosting the Milano country The Gazette is one of the newest papers I have ever seen. Everyone at this day recognizes the power of the press, and a newspaper with the welfare of a town at heart is an invaluable influence for good. The center of a great truck farming district Milano is certain to have a steady and rapid growth from now on and I hope to see The Gazette grow with it. Every resident and business firm in Milano should give our local paper his enthusiastic support.

A Reader.

The Gazette had its office "dotted" up with a little paint the other day, but we are going to make it look still more appetizing just as soon as we get a little time to hang around doing nothing.

A car load of lettuce was shipped from Harlington recently which brought the growers \$1,178.52. The carload was gathered from less than one acre of land.

Our Subscription Contest

Beginning April 1st, The Gazette will put on a subscription contest in conjunction with Miss C. Hudson's general merchandise store. The idea is to enlarge The Gazette's circulation and those aiding in doing so will be amply rewarded. The contest is very simple and by reading our ad on another page you will understand it very readily. Any girl who wants to be a contestant may do so by sending us her name and we will furnish all necessary material and information. Each young lady will work for her benefit and a year's subscription to The Gazette gives her 2,500 votes, also every dollar spent at Miss C. Hudson's store will entitle the purchaser to 100 votes which he may cast any of the young ladies. The one receiving the largest number of votes will win a piano from exhib store. N will be

The advertising rate in The Gazette is 15 cents per inch column wide. At half page rates it is 12.5 cents or \$3.50 for a half page ad for each issue. We are not ashamed to publish our rates. They are legitimate and if an advertiser kicks at these figures he only shows his ignorance of advertising.

The Gazette toots its own horn this week, and well it can afford to do so, when with twelve pages it is without a doubt one of the best papers published in Milam county. It is plumb full of news and interesting reading matter and contains no foreign patent medicine ads and does not bore its readers with political dope. Not one weekly paper in a dozen can compare with The Milam Gazette.

The last four issues of The Gazette printed in the month just ended cost the management \$22 for every issue or \$88 for the month. The revenue from subscriptions and ads was a little more than half the expense. Sink money? But we can afford to do it. We try to lambast us for not putting a printing plant in Milam. Thank you, kind friends.

In this issue appears the ad of Mr. A. V. Smith, who is associate editor of that good weekly and daily, the Cameron Enterprise. Mr. Smith is a candidate for District Clerk of Milam county and is a man who possesses extraordinary ability and business integrity for that very office. The Gazette believes that there is not a better man, or a man better posted or better fitted for this office in Milam county than Mr. Smith.

There is nothing that calls attention and draws people to a town equal to a good newspaper. In order for a man to make a good newspaper he must have the patronage of the people among whom he lives. If he has halfway support it stands to reason that he must make a poorer paper, and in doing this every man in the town and surrounding country has to bear a portion of the loss. For this reason, if for no other, the man who tries to make a good newspaper should have the support of his town people, all of whom reap fully as much benefit from its efforts as he does himself.

When the association met last week the manager was here who took orders for several thousand plants to be delivered next week ready to go in the cold frames so you see the truck business is here to stay.

Milam is the truck growing section. The place where we all love to stay: If we fail in making corn or cotton, We can make lots of good old Sorghum hay.
The health of the surrounding country is fairly good. The meningitis scare is about over and the Schools have all started and the plow boy's voice is heard over the country.

Well, I noticed in the Gazette some of the good things said by some of the patrons of your paper. Why of course they can see the good qualities of a paper like the "Gazette." Why even ye scribe can see that and be hasn't got but one eye. I hope you are getting the support you and your paper deserves, for I don't see how any one can do without their home paper. Oh well I guess they are like a man I went to get his subscription for one of the best Farm papers I ever saw. His answer was: "I would subscribe every time I read a few minutes it gives me a bad cold I can hardly get my breath." Ha! Ha! Does it give news paper? Well for fear I w already too long let

THOSE WHO FORGET NOT

Mr. J. A. McClellan left a half dollar with us Saturday for renewal subscription to the Gazette.

Mr. B. McGregor left a half dollar with us some few days ago for a renewal Gazette subscription.

Mr. D. R. Freeman left a half dollar with us one day this week for a four months' subscription to the home town weekly newspaper.

Mr. W. W. McCallum handed us 75 cents one day this week for another half year's subscription to the home town's weekly newspaper.

Mr. F. W. Iiams handed us a dollar some few days ago for the renewal of two Gazette subscriptions, one of which goes to Mr. Clyde Jackson at Rockdale, and the other goes to himself on Milano route 3.

Rev. J. P. Sparks left \$1.50 with us Saturday for the renewal of two Gazette subscriptions for a half year each, one of which goes to his daughter, Mrs. Edna Parker at Tanglewood, and the other was for himself.

The Gazette's weekly paper expense bill is \$6.50. The difference in subscription receipts and the cost of the paper up to the present time now amounts to a deficit of \$66.30.

The Power in a Tree.

A young man wished to measure the force that drives the sap upward in trees and shrubs. So he cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great is the force that drives sap upward.—Popular Science Monthly.

Finds Big Rat Asleep And Very Easily Kills It

Mrs. J. E. Cannaday killed a big rat at her home one day last week while the creature was lying asleep near a trap which she had baited the night before. She knew the rat was alive by noticing its body heaving with its breathing motions which were plainly visible. She grabbed a stick of wood and killed the fat easily enough. The finding of rats and mice asleep in open places is not unusual. The rat evidently had a full meal just before discovering the baited trap and decided to sleep right then and there and upon awakening he would find a meal ready without having to hunt one.

The Rich Man And The Poor Man

(Not a fable, but the true history of many a man.)

The rich man was sitting in his luxuriant chair of ease. The poor man passed by and saw him. The man of humble means was struck with a desire of wanting just a portion of what the man of big wealth had. He knew that only by sound business ethics could he hope to achieve such wealth. He knew that the very beginning was "Start Saving." He had a job. It he would keep. He decided to start saving. He wanted to be on that road of independence on which the rich man lived. He saved and deposited in the bank one-fourth of what he made, and in after years he was rated a man of means. He wasn't big rich, but he possessed a surplus of health, enough to make him feel like the rich man.

Christian Revival To Be Held At Cedar Creek

Everybody is cordially invited to attend the Christian meeting to be held on the Milano and Caldwell road in front of the rock house residence of Mr. and Mrs. G. W. Beard. The meeting will begin Saturday night, July 30th. Rev. Hearn of Marlin will do the preaching. He is a young and able man. All are invited to come and bring dinner on the fifth Sunday. Plenty of water, good shade and everything convenient for those who come. Come out and worship with us. "Church Committee."

Superintendent of the Methodist Sunday School Mr. S. W. Taylor reports the Sunday School has been growing the past few weeks. Last Sunday's enrollment was 53 pupils and 7 teachers. Collections that morning amounted to \$2.35.

Watch the Sun's Halos.

The sun's halos are good weather signs. Many weather proverbs based upon the observation of halos are founded upon sound scientific principles. Studies of the relation of halos to rainfall show that during the summer months 56 to 60 per cent of all halos are followed by rain within 36 hours. During the winter months 70 to 75 per cent are so followed.

Pertinent Query.

"Gentlemen, I can't sit still without saying a word and so I rise. I will speak what lies close to my heart. Everybody devalues the future of the country. Buildings are erected for posterity. Everything that is done, built, planted, is simply for the benefit of posterity. Now, what is Heaven's name has posterity done for us?"—Kasper, Stockholm.

Better Farm Buildings Pay

Farm implements are too valuable now-a-days to have them ruined because of a leaking roof. Live stock is worth money, too. Take it all around, it's mighty good economy to put barns and sheds into first class shape. How about your granary space? If you need more room, why not see us now about material for building?

Black Cap's Significance.

The custom of putting on a black cap—really a square of black cloth—which judges in England do when sentencing a prisoner to death, originated from the custom of covering the head as a sign of mourning in ancient days. The judge, in putting on the black cap, mourns the fact that he is about to order a life to be forfeited.

Look What Happened To Him Many Years Ago

Some of us have experienced some very peculiar and narrow escapes during life and no doubt many are interesting as well as thrilling. Just the other day we heard our postmaster Mr. C. Howes say that he fell off a high bank on the Trinity River by his flat boat many years ago, and he couldn't swim any more than an iron ball can, yet in some miraculous manner or act of Providence he came up and grabbed the side of his good old flat boat. This happened when flat boats were a very useful thing and any one who has seen the Trinity River knows how treacherous its wet banks are.

The Liberty cemetery ladies gave a picnic and grave yard working last Friday. People were there from all over the country and a regular good old time picnic was enjoyed. The cemetery was nicely cleaned off and at noon a sumptuous dinner was served. If all people were as generous hearted as the Liberty and Hanover folks there would never be any need for a cemetery to grow up in weeds. The ladies agreed to meet Wednesday and burn up all the dry grass and weeds.

How Frogs Protect Eggs.
In the manner of disposing of their eggs many species of frog exhibit remarkable peculiarities. One of the most curious, a tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

Milano Vat Makes A Record Breaking Dip

Over 600 head of cattle were dipped at the Milano dipping vat last Friday, according to figures given us by Inspector Raymond Beard. This is about the largest dipping the vat has any record of and shows that the mandate issued the week before was fully complied with by the cattle owners. Mr. Beard says the herds passing thru the Milano vat are fairly clean with the exception of a very few head which show infection and to stamp out every possible trace of the infection everybody must dip their cattle. The dipping will continue until the first of November, after which it is believed the county will be clean. Mr. Beard reports the most tick infection at the Big Lump, Lewis and Sand Grove vats, and he is waging a virgorous and strict campaign in those sections to get the infection cleaned out. He now reports people in those vicinities dipping who had not been dipping their cattle during the past months.

Bad Habits in Canaries.
When a canary bird plucks feathers from the young birds, place them in a small nursery cage suspended from the side of the breeding cage in a manner that will allow feeding between the wires, as the young birds should not be removed entirely from their parents until they are able to crack the food upon which they must feed.

Money value of Home-Making.
Swedish women have evidently succeeded in giving housework and taking care of the babies a financial value and standing before the law of the land. Says the law: "If the wife gives all her work to the home she is considered by the law as having contributed in the same degree as her husband, who procures the funds."

Let Your Next Tire Be Fisk

Fisk is founded on the idea of giving more for your money than you ordinarily expect. A big, staunch, firmly established company supports that idea. And it finds its expression in the excess mileage which is regularly delivered by all Fisk Tires. Excess mileage means just what it says—you ride comfortably, without tire trouble, when you equip with Fisk—and you get your excess mileage in driving continuously over rough roads as you do in smooth, city riding. The honestly earned reputation of Fisk Tires makes your investment safe. Sold in Milano by the C. Hudson store.

State Election Will Be Held On This Saturday

This Saturday, July 23rd, an election will be held in Milano and all over the state for the purpose of voting on 5 amendments to the state constitution. The amendments are: 1—Abolishing the prison board and allowing one man to manage the prison system. 2—Increasing the salaries of state officers. 3—Increasing Confederate pension tax from 5 to 7 cents. 4—Increasing salary of legislators from \$5 to 10 a day. 5—Providing only native or naturalized citizens to vote in Texas. Every man or woman who is a qualified voter can vote in the election and they have the absolute right to vote for or against any of the amendments. If you wish to vote for them then scratch out the "against paragraph," or should you wish to vote against them then scratch out the "for paragraph."

Mrs. B. Lovick and children of Wichita, Kansas, arrived in Milano Thursday night and are the guests of Mr. and Mrs. W. H. Dukes.

Young Folks Gathering Helps The Piano Fund

Mrs. S. W. Taylor entertained a large crowd of the young people of Milano at her home Wednesday afternoon from 4 to 6 o'clock, the occasion being given for the benefit of raising funds to offset an indebtedness of \$67 due on the Methodist Church piano. Invitations were sent out enclosed in a little sock asking for a penny for each year that the pianist had attained in age. The sum of \$20 was thus realized.

Cattle Dipping May Be Finished Up This Year

Cattle which show ticks on and off August 1st in Milam county will be placed under local quarantine at the end of this season and owners of the cattle will be required to dip them next year. Cattle which are exposed to ticky premises and herds will also be subject to the dipping and quarantine regulations. Milam county is reported to be in good shape to be released from federal quarantine on December 1st. There still remains about 4 months of the dipping season, and if all the cattle owners will see that all their cattle are dipped and help the dipping along in others ways to see it is enforced, then the county will have a favorable chance to get the quarantine lifted after this year. If the people fail in dipping the county can't be released next year.

Says The Weeds Need Cutting Over The Town

Mr. T. H. Paul says: If anyone wants to know where he or Mr. F. A. Tally lives, just tell them that they live over there where the weeds are cut down in Milano. Yes indeed, those two citizens got busy the other day and cut 'em down. And since they did so a few other folks have done likewise, but the infection, according to Mr. Paul, seems to be mighty slow. He wants to see it spread rapidly so the town will look better and be more healthy. Cut the weeds and dress up Milano.

Gin Manager Reports Cotton Crop Looking Favorable

Mr. J. A. Touchstone, one of the best authorities on the cotton crop conditions over the Milano country, reports that prospects for the cotton crop are brighter just now than they have been in several years. The boll weevils, he says, seem to be everywhere and quite plentiful, but evidently they are not as bad

or destructive as is the general supposition. Mr. Touchstone recently made an inspection tour over the country and reports having seen some mighty fine cotton fields, some of which were practically clean of the boll weevil, while others were badly infested but had some chance of making a partial crop of cotton.

Saturday of this week, July 24th, is the day on which the State Primary election will be held, and all people over 21 years of age, men or women, who possess their 1919 poll tax receipt will be allowed to vote. The polls at Milano will perhaps be held in the W. O. W. hall. Don't forget to take your poll tax receipt along and have it dated by one of the clerks when you go to the polls to cast your vote.

Suit Case And Contents Scattered Along Track

Mr. H. O. Graves found a torn up suit case on the I. & G. N. rail road track early last Saturday morning just east of the depot with its contents scattered round about. He notified Constable W. E. Peel who investigated the matter but has not been able to hear anything from the owner. The grip appears to have been run over or dragged by a train. How it got there is a mystery but it seems that it was perhaps dropped from a train. Among the contents were two razors, a pair of shoes, socks, several photographs of a Mexican youth about 25 years of age, and a letter addressed to Dabid Preeiada. The letter had been addressed to Waxshacia Texas, then forwarded to Ennis, and then Texarkana, where it had been received by the person addressed to.

New Odd Fellow Officers Elected

At their regular meeting Wednesday night of last week the Milano I. O. O. F. lodge elected the following new officers for the ensuing term: E. C. Smith, noble grand; Lesser Newton, vice grand; J. D. Ruby, secretary; W. O. Newton, treasurer. The three trustees elected for one year are J. A. Touchstone, W. E. Peel and Hugh McGee. Mr. W. E. Peel was elected as a past-grand delegate to the Grand Lodge which convenes in Fort Worth the second Tuesday in next March. Mr. W. O. Newton was elected alternate and was also chosen as a candidate for deputy grand master of this district. There will be quite a number of candidates for this post of honor, as each lodge is entitled to a candidate, who will be voted upon by the delegates at the Grand Lodge at Fort Worth next March.

Mr. and Mrs. C. L. Trigg and daughter, Miss Eloise, of the Liberty settlement, were among the many visitors in town Saturday. Mrs. Trigg gave us a new subscription for the Gazette which goes to Mr. W. R. Westbrook at Runge, Texas. She also informed us that the Liberty school was progressing nicely with an enrollment of 80 pupils. Mr. Trigg says he's busy building a new rent house and otherwise improving things during the rainy days.

One of our good citizens who lives near town, left us some choice pig meat at the Gazette office the other day, and it certainly was some good eating. 'Twas a Jim Dandy pig all right, but the party warned us not to tell his name 'cause he wants some of that pig for himself. He's a good man, but is afflicted with a lot of good friends. Now don't tell him about this and spoil our appetite.

1st, earth will begin to travel nearer to the sun. A lot of people will argue that December 22nd is the shortest day, but if they will figure on the rising and setting of the sun they will find that December 22nd is exactly one minute longer than the twenty-first day of December.

A Difference of Opinions

Funny thing the way some newspapers disagree with each other. Last week's Rockdale Reporter gives a citizen a lengthy writeup intermingled with all kinds of glorious heroism for paddling a boat round about Valley Junction during the flood, while the Gause Guide says he was seeking notoriety and lime-light reflection and that he rowed his little boat around to the marooned people, taking their names and telling them that he would return and rescue them later but always failed to get back. The "hero" is a Rockdale citizen and was among those who went from that town to Valley Junction to see how that little village looked when surrounded by water on several sides. Anyway, those Rockdale citizens told some awful horrifying and exaggerating tales about Valley Junction.

Resolution of Respect

In memory of our brother John W. Hudson, a member of Milano Lodge No. 605, A. F. & A. M. Our esteemed brother Hudson has gone from our midst to return no more, and in recalling his memory so green and so fresh in the hearts of many of us, let us forget the long suffering that called him to an untimely grave, while remembering only the exalted and unsullied characters that he impressed upon all who knew him. Brother Hudson having passed the sixty-eighth mile post on life's highway, when like a traveler grown weary, he stopped by the wayside and fell into the dreamless slumber that kissed down his eyelids still. His plans for the future, like autumn leaves, lay scattered about the scenes of his activity never to be realized on earth. Brother Hudson was a native of Kentucky, coming to Texas in 1878. He joined the Masonic lodge and was always faithful and true to the order. Resolved therefore that Milano Lodge 605 has lost a most estimable and valuable member, and his wife and daughter a faithful husband and loving father. Resolved further, that we tender his bereaved wife and daughter our heartfelt sympathy in their sorrow and grief, that we commend them to the tender care of that higher power for that comfort and consolation that human sympathy and love can not give, and as a mark of respect that our lodge spread a copy of this resolution on the lodge book and a copy be furnished for publication and one to the bereaved family. L. Bedell, S. W. Taylor, L. Newman, Committee.

Rivers and river bottoms were made to drain the higher lands and were never intended for the human race to live down in their treacherous low depths. Therefore we say move to Milano where you are safe.

Smith-Newton Nuptials

Wednesday evening of last week at seven o'clock at the home of Mrs. J. B. Newton, occurred the marriage of Mr. E. C. Smith and Miss Annie Newton, Rev. B. B. Blaylock of Rockdale, pronouncing the sacred writs of holy wedlock, uniting as man and wife two of Milano's most distinguished and estimable young people. The bride is the daughter of Mrs. J. B. Newton and is one of Milano's most popular young ladies, known and loved by all for her amiable disposition and true spirit of friendliness toward all. Mr. Smith is one of Milano's most influential and successful business men, well and favorably known by everyone, and is proprietor of the Smith Drug Store, one of the finest business places in all Milano. These young people have the best wishes and heartiest congratulations of our entire citizenship. Mr. and Mrs. Smith left Thursday morning for Jacksonville where they were the guests of Mr. Smith's relatives for several days, returning home to Milano this week and are at home to their many friends in their neat new cottage in west Milano.

Milano Country Ready To Farm

Most of the truckers in the Milano country have already gotten their hot beds ready for the sowing of their tomato seed. Some few of our truckers will sow some seed next week, but the majority will sow between the first and fifteenth of January. Thus in the good Milano country farming begins right with the new year and continues all through the entire year. Move to Milano and keep busy farming all the time, year in and year out.

Civic Park Converted Into A Corral

Five cars of cattle were unloaded at Milano during the tie up of the railroad traffic week before last and were placed in the Civic Park enclosure for four days. There were 193 head of cattle and it cost the railroad a little over \$100 to feed the bunch the four days. Uncle Amos Hairston and several others had charge of the herd and were kept busy holding down a stampede.

Big Bunch Of Hawks Seen Flying Over Town

A big bunch of something like a hundred hawks were soaring over Milano Tuesday morning preparatory to perhaps migrating to other points. Several citizens pronounced them of the large chicken-hawk variety. They soared aloft high and then flew westward. In years past it is said that at this time of the year the migrating of hawks was quite a spectacular sight, as the skies were at times thick with them.

Four Lyceum Shows For Benefit Of School Fund

The Milano school board has contracted with a lyceum bureau for four entertainments to be given in Milano at the W. O. W. hall throughout the winter season. The first entertainment will appear in Milano on Wednesday night, October 15th, the entertainer being a magician known as "Argus." The lyceum bureau gets \$50 from each entertainment and all over that sum goes to the Milano school.

Restores the Balance.

Each solitary kind of action that is done, the world over, is working briskly in its own sphere to restore the balance between right and wrong.

Mr. H. K. Haddox installed a new light system in the Odd Fellow hall this week. It is of the gasoline and air pressure system, same as the old lights which have burned out after several years of use. The lamps are of huge size and make the electric arc or street lights.

Bring These Things In Fellers

There are quite a number of the Milano Band members who have left town or otherwise become delinquent and to these it is requested of them to bring in all property that they may have in their possession, such as music books and uniforms. Some of these things have actually been carried out of Milano county. They are the property of the Milano Band and you are requested to leave them at the Gazette office at your earliest possible convenience as we need them and most have them.

The firm of J. B. Newton & Sons lost a very valuable horse some few days ago, which died from some kind of acute sickness.

Methodist Services

Milano Gazette: Please state that there will be services at the Methodist Church next Sunday at both the morning and evening hours, as I received a card from Rev. J. W. Cole to that effect. Let the Sunday School be there on time promptly at 10 o'clock. W. R. Sneed, Steward.

Christmas

All the stores in Milano are beginning to look like Santa Claus is coming these days. The people of the Milano country have no need to go out of town to buy their Christmas goods. The Milano merchants can supply them. Learn to trade at home with home people and keep Milano money in Milano.

THE SPIRIT FOR TOMORROW

THE HISTORY OF MILANO THROUGH THE EYES OF THE GAZETTE

COMPILED AND EDITED BY

ROGER HASHEM

PREFACE

Since the birth of our country, small rural towns in America have been an integral part of our nation's history. Today, rural America is the major source of the nation's food, fibres, and wood and plays a major role in providing most of our domestic minerals and energy supply. It has developed as a vital element in our country's manufacturing, trade and service economy. Yet the most important contribution that small towns have made to our country is that of providing the basic values of hard work, self-reliance and a sense of community upon which to nurture its national character.

This book is an attempt to examine and preserve the history of one of those small towns, the City of Milano. The material presented here is actual reproductions of parts of the Milano Gazette published by Mr. C. H. Lister. The paper had about six pages containing national and local news.

In this endeavor, I was more concerned in presenting our local heritage and included only the local news section.

This edition would not have been possible without the help of a great many people. I would like to say thanks to all who offered aid and encouragement in this undertaking.
